### What is this product?

#### Type

Capitalisation share of a sub-fund of DPAM B, a public SICAV under Belgian law. The shares of the sub-fund are capitalisation shares, which do not give right to a dividend. All income earned by the product is reinvested.

#### Duration

Indefinite. This product does not have a fixed maturity date.

#### Objectives

**Objective:** The objective of the sub-fund is to offer investors a moderate, medium-term capital gain by investing in equity securities and/or debt securities of issuers worldwide. This is an actively managed sub-fund. No benchmarks are used in the management of the sub-fund. Quantitative information from a broader market can be used for risk management and evaluation by the manager.

The sub-fund promotes environmental and social aspects within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. It does not have a sustainable investment objective.

**Investment policy:** The sub-fund invests mainly, without any sector or geographical restriction, in funds that invest in bonds and equities (UCITS and/or other UCIs) and, on an ancillary basis, in other investment funds (UCITS and/or other UCIs). The sub-fund may also invest directly in shares, bonds or other debt securities up to a maximum of 20% of its net assets. The sub-fund aims to limit its (direct and indirect) investments in shares and other equity securities to approx. 65% of its net assets. The sub-fund invests at least 75% of its net assets in (i) funds which promote, inter alia, environmental or social characteristics and/or have a sustainable investment objective within the meaning of Regulation 2019/2088 (indirect investments), and/or (ii) securities which meet the environmental and social characteristics it promotes (direct investments). The sub-fund applies binding investment restrictions to (a) companies that do not comply with Global Standards, (b) companies involved in controversial activities, and (c) companies involved in controversies of maximum severity. More information on the product can be found on the manager's website <https://www.funds.dpaminvestments.com/funds.html>.

The sub-fund manager will use DPAM funds and third party funds, selection of which is based on a qualitative analysis which concentrates on five points: investment philosophy and prices, performance, risks, transparency and costs. This selection takes into account environmental, social and governance (ESG) considerations.

**Derivative products:** The sub-fund may, on an optional basis, use derivatives such as futures and/or forwards in order to achieve the investment objectives and/or for hedging purposes (hedging of or exposure to the risks associated with certain markets).

**Subscription/Redemption:** You can exchange your shares in this sub-fund for shares in another sub-fund. For more information on this subject, please refer to the information in the prospectus under the heading "Information about the shares and trading of the shares".

All share subscription or redemption requests may be made prior to 12:00 p.m. (Belgian time) on each business day to the financial service.

#### Practical information

Custodian: CACEIS Bank, Belgium Branch

The Key Information Document describes a share class of the sub-fund DPAM B Balanced Strategy of the SICAV DPAM B.

DPAM B is an undertaking for collective investment in transferable securities incorporated in Belgium (the Home Member State of the SICAV), which complies with the requirements of Directive 2009/65/EC and which is subject to prudential supervision by the FSMA.

In accordance with the applicable legal provisions, the assets of the sub-fund are segregated from the assets of the other sub-funds of the SICAV, which means that the rights of the investors and other creditors of this sub-fund are limited to the assets thereof.

The prospectus and periodic reports are drawn up for all the sub-funds of the SICAV.

Additional information on the sub-fund is available in the prospectus and in the periodic reports, which can be obtained on request, without charge, from the registered office of the SICAV. These documents (which are produced in French, Dutch and English) as well as more extensive information about this product are available on the manager's website: <https://www.funds.dpaminvestments.com/funds.html> (tab 'Publications').

All other practical information, including the most recent net asset value of the shares, is available on the website mentioned above (tab 'Net asset value').

## What are the risks and what could I get in return?

### Risk Indicator

← Lower risk → Higher risk

The risk indicator assumes that you will hold the product for 4 years.  
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. In other words, the potential losses related to the future performance of the product are below low and average.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark over the last 10 years.

Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		10 000 EUR	
Scenarios		If you exit after 1 year	If you exit after 4 years
Minimum	<b>What you might get back after costs</b>	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	Average return each year	5 940 EUR -40.63%	6 560 EUR -10.00%
Unfavourable	<b>What you might get back after costs</b>	8 380 EUR -16.20%	10 280 EUR 0.69%
Moderate	Average return each year	10 380 EUR 3.79%	12 000 EUR 4.66%
Favourable	<b>What you might get back after costs</b>	13 250 EUR 32.55%	14 060 EUR 8.90%
	Average return each year		

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

The stress scenario shows what you might get back in extreme market circumstances.

Your maximum loss cannot exceed the amount of your initial investment.

Unfavourable scenario: this type of scenario occurred for an investment between 11 2021 et 12 2024.

Moderate scenario: this type of scenario occurred for an investment between 11 2018 and 12 2022.

Favourable scenario: this type of scenario occurred for an investment between 03 2020 and 04 2024.

### What happens if CAI FS is unable to pay out?

The assets of the sub-fund are held with the Custodian and maintained separate from the other assets held by the Custodian.

In the event of a default by CAI FS or any other sub-fund of the SICAV, neither of them may use the funds of the product to pay their debts.

However, your investment is not protected by an indemnification or guarantee mechanism.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

If you change sub-funds, you will pay any difference between the marketing fee for the sub-funds in question.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return)
- the other holding periods we have assumed the product performs as shown in the moderate scenario

Investing in this product also entails risks that are materially relevant but not included in the risk indicator:

- Liquidity risk: The sub-fund may potentially be exposed to issuers from the real estate sector and/or small caps and/or corporate bonds. The liquidity of such assets may decrease during periods of market stress. This risk may also be associated with the funds in which the sub-fund invests.
- Credit risk: The risk that the creditworthiness of a bond or debt security issuer may deteriorate, thereby reducing the value of investments. The sub-fund may be exposed to fixed income securities, primarily through investments in other funds.
- Inflation risk: The risk that rising inflation will reduce the assets in the portfolio. The sub-fund may be exposed, primarily through investments in other funds, to inflation-sensitive fixed income securities.
- Sustainability risk: Environmental and/or social aspects are not systematically part of the sub-fund's investment selection process. This may result in the sub-fund being more exposed to companies that have a negative impact on sustainability. This risk may also be associated with the funds in which the sub-fund invests.

This product does not include any protection from future market performance so you could lose some or all of your investment.

- that EUR 10,000 is invested

	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	<b>218 EUR</b>	<b>629 EUR</b>
<b>Annual cost impact (*)</b>	<b>2.2%</b>	<b>1.4% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6,11% before costs and 4,66% after costs.

These figures include the maximum distribution fee that the person selling you the product may charge (1,00% of the amount invested). This person will inform you of the actual distribution fee.

#### Composition of costs

We may share part of the costs with the person selling you the product to cover the services they provide to you.

One-off costs upon entry or exit	If you exit after 1 year
Entry costs	Max 1,00%. This is the fee you pay when you make your investment (subscription fee). These fees include distribution fees. This is the maximum amount you will pay. The person who sells you the product will inform you of the actual costs.
Exit costs	We do not charge an exit fee for this product.

#### Ongoing costs taken each year

Management fees and other administrative or operating costs	0,92% of the value of your investment per year. These are the portfolio management fees of the sub-fund, including the fees of the service provider and the operation of the sub-fund. This estimate is based on actual costs over the past year.	92 EUR
Transaction costs	0,26% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount will vary depending on the quantity we buy and sell.	26 EUR

#### Incidental costs taken under specific conditions

Performance fees	This product does not charge any performance fees.	0 EUR
------------------	--	-------

#### How long should I hold it and can I take money out early?

The recommended holding period is 4 years.

This has been defined on the basis of the sub-fund's asset mix (equities, bonds or a mix), risk profile and geographical exposure.

You can sell your shares in the sub-fund at any time. The decision to exit before the end of the recommended holding period may have a negative impact on the performance and risk profile of your investment.

The section "What are the costs?" provides information on the impact of costs over time.

All share subscription or redemption requests may be made prior to 12:00 p.m. (Belgian time) on each business day to the financial service.
