WHAT IS THIS PRODUCT?

TYPE

ODDO BHF METROPOLE EURO is a UCITS under Directive 2009/65/EC, taking the form of a SICAV.

The Board of Directors may propose the liquidation of the SICAV at an Extraordinary General Meeting if the assets fall below the regulatory minimum. It may also do so on a discretionary basis, after the Autorité des marchés financiers has approved the liquidation and shareholders have been informed.

TERM

The SICAV was created for a term of 99 years from 5 March 2013.

OBJECTIVES

The Sub-fund seeks to outperform its benchmark, the MSCI EMU Value NR EUR, net of fees, through active management over a five-year period.

The strategy consists of selecting companies with the best ESG scores, based on ESG ratings provided by the external data provider MSCI ESG Research.

The management team takes into account the weighting of securities held in the portfolio when calculating the portfolio's average ESG rating.

The portfolio's ESG score must equal or exceed that of the reference universe after deducting the 20% of securities with the lowest rating.

The Sub-fund will invest at least 65% in stocks having a capitalisation of more than EUR 5 billion.

The Sub-fund may invest up to 35% of its assets in companies with market capitalisations of between EUR 100 million and EUR 5 billion.

10% of the assets may be invested in EU countries outside the Eurozone, as well as in the United Kingdom, Switzerland and Norway. The Sub-fund may also invest in stocks that are not included in the MSCI EMU Value NR EUR, depending on the opportunities that arise. Investment in Euro Zone equities denominated in euro shall be at least 75%, and exposure at least 60%. The Sub-fund may invest up to 10% of its assets in shares within the European Union but outside the Euro Zone, in the United Kingdom, Switzerland and Norway.

When not invested in equities, up to 10% of the Sub-fund's assets may be invested in units or shares of UCITS, including other UCITS managed by the ODDO BHF group, and up to 15% in money market products.

The Sub-fund may use derivatives to expose its assets to, or hedge them against, an index or specific security. Derivatives are used on a discretionary basis to expose the Sub-fund to, or hedge it against, equity market risk. The derivatives that may be used are restricted to listed options and futures with a maturity of no more than two years.

The sub-fund may invest its assets in securities with embedded derivatives. The use of such instruments will be limited to convertible bonds (standard convertible, index-linked, redeemable for shares), subscription certificates, warrants and contingent value rights. The amount of investment in securities with embedded derivatives may not exceed 10% of the assets.

The Sub-fund's maximum exposure to the different asset classes (equities, debt securities, funds and derivatives) may not exceed 105% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets (equity, fixed income, money) to which the sub-fund is exposed (the sum of long and hedging positions).

CRW-EUR shares accumulate their income, as decided by the management company on a yearly basis.

INTENDED RETAIL INVESTOR

ODDO BHF METROPOLE EURO is intended for investors who already have a portfolio of equity funds and/or directly held equity securities, and are looking to diversify by investing in a UCITS predominantly exposed to the equity markets of the Euro Zone, United Kingdom, Switzerland and Norway, through companies that meet "socially responsible" criteria. US Persons may not invest in this product.

More detailed information on the Sub-fund, such as the prospectus (French, English) and the annual and semi-annual reports (in the language of the distribution country), is available at am.oddo-bhf.com or may be obtained free of charge at any time from ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 PARIS or from the centralising agent in the distribution country.

The sub-fund's NAV is available on the Management Company's website. Other share classes are available for this sub-fund.

The assets and liabilities of the SICAV's various sub-funds are segregated. Conversions from one share class to another are considered as a redemption followed by a subscription.

The Sub-fund's custodian is ODDO BHF SCA

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the product until the end of the recommended holding period, i.e. five years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you. Currency risk: you will be paid in a different currency; your actual gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the above indicator:

Other materially relevant risks not taken into account in the indicator:

Other risks not taken into account in the risk indicator may be materially relevant. They include:

Derivative risk

Liquidity risk

As this product does not offer protection from market hazards, you could lose some or all of your investment.

PERFORMANCE SCENARIOS

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years with a one-year horizon and over the recommended investment period.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years
Investment: €10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€3,310	€2,630
	Average return each year	-66.9%	-23.5%
Unfavourable	What you might get back after costs	€6,970	€7,100
	Average return each year	-30.3%	-6.6%
Medium	What you might get back after costs	€10,190	€11,470
	Average return each year	1.9%	2.8%
Favourable	What you might get back after costs	€15,110	€19,970
	Average return each year	51.1%	14.8%

The unfavourable scenario occurred for an investment between: 10/2015 and 10/2020.

The medium scenario occurred for an investment between: 04/2016 and 04/2021.

The favourable scenario occurred for an investment between: 03/2020 and 03/2025.

WHAT HAPPENS IF ODDO BHF ASSET MANAGEMENT SAS IS UNABLE TO PAY OUT?

The product is a co-ownership of financial instruments and deposits separate from the portfolio's Management Company. In the event of the company's insolvency, the product's assets, which are held by the custodian, would be unaffected. In the event of the custodian's insolvency, the risk of financial loss on the product would be mitigated by the legal segregation of the custodian's assets from the product's assets.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts taken from your investment to cover the different types of cost. These amounts depend on how much you invest, how long you hold the product, and the return on the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0% annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.
- €10,000 is invested

Investment: €10,000

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	€579	€1,510
Annual cost impact*	5.9%	2.8%

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 5.5% before costs and 2.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

COMPOSITION OF COSTS

The table below indicates the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period, and the meaning of the different cost categories.

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	Entry costs represent the maximum amount that may be paid at the time of subscription. 4.00% is the most you will pay; it may be that you pay less. The person selling you the product will inform you of the actual costs.	Up to €400
Exit costs	We do not charge any exit costs for this product, but the person who sells you the product might.	Up to €0
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	These represent the unavoidable costs of running the product and any payments, including remuneration, to parties connected to the product and providing services. 1.67% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€160
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€19
Incidental costs taken under specific conditions		
Performance-related fees	Impact of performance-related fees. There is no performance-related fee for this product.	€0

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Minimum recommended holding period: over 5 years

This recommended holding period is a minimum that takes into account the features of the selected product. It may be longer, depending on your financial position and investment choices.

You can redeem some or all of your investment at any time. Exiting before the end of the recommended holding period may affect the performance that can be expected from your investment. You can find details of any charges and penalties applied when divesting under: "What are the costs?"

Requests are centralised until 11:15 CET/CEST every day at ODDO BHF SCA, and executed on the basis of the next net asset value, which will be calculated using that day's closing prices, or at an unknown price. The resulting settlements shall be completed two trading days later (D+2).

The Management Company may make use of a gate provision to cap redemptions. For more details on this provision, please refer to the "Gate provision for capping redemptions" section of the prospectus, available at <http://am.oddo-bhf.com>.

HOW CAN I COMPLAIN?

If you would like more information or wish to make a complaint, please contact ODDO BHF Asset Management SAS, 12 boulevard de la Madeleine, 75009 Paris, France. You can also submit a complaint by email to: service_client@oddo-bhf.com. The complaints policy is available on the website: am.oddo-bhf.com. In the event of disputes, you may appeal to the AMF Ombudsman.
