Key Information Document production date: 20.04.2026

What is this Product?

Type

The Product is a French FCP mutual fund, which is a UCITS governed by European Directive 2009/65/EC.

Term

The term of the Product is 99 years.

This Product has no maturity date. The Management Company reserves the right to dissolve the Product unilaterally. The Product may also be dissolved in the event of a merger, a total redemption of units, or if the Product's net assets fall below the regulatory minimum amount.

Objectives

The Product's objective is to outperform the benchmark index – the NYSE Arca Gold Miners Index, with net dividends reinvested – over a recommended investment period of more than 5 years, by selecting stocks, on a discretionary basis, predominantly in the gold sector and linked to the exploration, extraction, transformation and/or marketing of gold.

The Product is managed actively, which means that the Manager makes investment decisions in line with the Product's investment policy with a view to achieving the Product's objectives. This active-management process entails taking decisions regarding the selection of assets, regional allocations, sectoral views and overall market exposure. The Manager is in no way limited by the composition of the benchmark index in the positioning of the portfolio, and the Product may not hold all the components of the benchmark index, or even any of the components in question at all. Deviation from the benchmark index may be total or significant but, occasionally, may also be minor.

Benchmark: NYSE Arca Gold Miners Index, net dividends reinvested.

Investment policy: The Product applies an active stock-picking management strategy for stocks listed in a stock universe linked to the gold sector in particular, which will represent at least 70% of the net assets. Depending on the manager's expectations regarding developments on the equity markets, up to 30% of the Product's net assets may be exposed directly, and/or on an ancillary basis via UCIs, to debt securities and money market instruments traded on international markets. Such securities, mainly rated investment grade (i.e. for which the issuer default risk is lowest), but with no maximum duration, are selected based on their expected yield.

At least 70% and up to 110% of the Product's assets will be exposed to international equities directly, and/or on an ancillary basis via UCIs, and/or through the use of financial contracts.

Up to 100% of the Product's net assets may be invested in financial contracts traded on international regulated, organised or over-the-counter markets. The ESG investment universe is composed of securities in the Product's benchmark index. The management company may select securities from outside the Product's benchmark index. However, it will ensure that the selected benchmark index is a relevant basis for comparison of the Product's ESG rating.

Furthermore, the Product may invest up to 10% of its net assets in UCI units or shares. To manage its cash flow, the Product may invest up to 10% of its net assets in repurchase agreements or debt securities or bonds denominated in euros or US dollars, as well as bond and money market UCITS.

Allocation of income: Accumulation

Allocation of net realised gains: Accumulation

Intended retail investors

A EUR units are intended for all subscribers wishing to invest in US dollars and euros, provided they are willing to accept the risk of capital loss.

This Product may not be purchased by or benefit, either directly or indirectly, natural or legal persons residing or domiciled in the United States, citizens of the United States, or United States Persons.

Practical Information

Custodian: Edmond de Rothschild (France)

You can request the redemption of your units on any day on which banks are open for business in France, and on any other day on which the French, U.S. and Canadian financial markets are open (as per the official NYSE, Euronext Paris S.A., and Toronto Stock Exchange calendars) for orders received by the transfer agent before 12:30 pm on each net asset valuation day.

The Product's prospectus, its latest annual report and any subsequent half-yearly report (in French and English) will be provided free of charge upon written request to Edmond de Rothschild Asset Management (France) 47, rue du Faubourg Saint-Honoré - 75401 Paris Cedex 08 - France, telephone: +33 140 172 525; email: contact-am-fr@edr.com.

The price of the units and, where applicable, information about other unit classes are available online at www.edmond-de-rothschild.com.

What are the risks and what could I get in return?

Risk Indicator

←----->
Lower risk Higher risk

The summary risk indicator assumes that you will hold the Product until the maturity date of the recommended holding period (5 years). The actual risk can vary significantly if you opt to exit before the maturity date, and you may get back less.

The summary risk indicator is provided as a guide to the level of risk of this Product compared to other products. It shows how likely it is that this Product will incur losses due to market fluctuations, or our inability to pay you.

We have assigned this Product a risk rating of 6 out of 7, which means that it is a high-risk product. In other words, the potential losses on the Product's future performance are in the high range and, if market conditions were to deteriorate, our ability to pay is very likely to be affected.

Moreover, you will also be exposed to the following risks (not shown in the summary risk indicator):

Liquidity risk: The markets for some securities and instruments may have limited liquidity. This restricted liquidity may be disadvantageous for the Product, both in terms of obtaining the indicated prices and executing orders at the desired prices.

As this Product does not include any protection against future market performance, you could end up losing some or all of your investment.

Pay particular attention to currency risk. If an investment Product is denominated in a currency other than the official currency of the State in which the Product is marketed, the final return will depend on the rate of exchange between the two currencies. This risk is not taken into account in the indicator shown above.

Other risks may affect the Product's performance. Please refer to the prospectus for further details.

Performance Scenarios

The figures shown include all the costs in connection with the Product itself, but may not include all of the costs that you may be required to pay your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Future market trends are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the Product's and/or the relevant benchmark's worst, average, and best performance over the last 10 years.

Markets could trend very differently in the future.

The stress scenario shows what you might get back in extreme market conditions.

Investment of EUR 10,000

Recommended holding period: 5 years	If you exit after 1 year	If you exit after 5 years (the recommended holding period)
Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	EUR 3,010
	Average return each year	-69.86%
Unfavourable	What you might get back after costs	EUR 6,950
	Average return each year	-30.48%
Moderate	What you might get back after costs	EUR 10,170
	Average return each year	1.74%
Favourable	What you might get back after costs	EUR 18,610
	Average return each year	86.09%

This table shows different scenarios illustrating the amounts that you could get back over the recommended holding period of 5 years, assuming you invest EUR 10,000.

Unfavourable scenario: This scenario occurred for an investment made between 09.2016 and 09.2021.

Moderate scenario: This scenario occurred for an investment made between 06.2020 and 06.2025.

Favourable scenario: This scenario occurred for an investment made between 09.2015 and 09.2020.

What happens if Edmond de Rothschild Asset Management (France) is unable to pay out?

The Product is a separate co-ownership comprising financial instruments and deposits held by the portfolio management company. Should the latter become insolvent, the Product's assets that are held by the custodian will not be affected. Should the custodian become insolvent, the risk that the Product incurs financial losses will be mitigated due to the legal requirement for the custodian's asset to be held separately from those of the Product.

Investments in the Product are not themselves hedged or guaranteed by a national compensation mechanism. The resale of the Product's units, and the Product's capital and income, are not guaranteed by the Product manufacturer.

What are the costs?

The person who is selling you this Product, or advising you about this Product, may charge you additional costs. If so, this person will provide you with information about these costs and how they will affect your investment over time.

Costs over time

The tables show the amounts that are deducted from your investment to cover different types of costs. These amounts depend on how much you invest, and on how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed that:

- In the first year, you would get back the amount you invested (0% annual return). For the other holding periods, the Product is expected to perform as shown in the moderate scenario.
- The investment is EUR 10,000.

Investment of EUR 10,000	If you exit after 1 year	If you exit after 5 years (the recommended holding period)
Total costs	EUR 587	EUR 2,448
Annual cost impact (*)	5.9%	3.8%

(*) This illustrates the extent to which the costs will reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average annual return is projected to be 10.97% before costs, and 7.13% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. If this is the case, they will inform you of the amount.

Composition of costs

With an investment of EUR 10,000 and an annual cost if you exit after 1 year.

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay upon subscribing to the Product.	EUR 300
Exit costs	We do not charge an exit fee for this Product (but the person selling the Product to you may do so).	EUR 0
Ongoing costs (deducted each year)		
Management fees and other administrative or operating costs	2.09% of the value of your investment per year. This percentage is determined based on the actual costs incurred in the previous year.	EUR 209
Transaction costs	0.41% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the Product's underlying investments. The actual amount will vary depending on how much we buy and sell.	EUR 41
Incidental costs deducted under specific conditions		
Performance fees (and carried interest) (**)	0.37% Description: 15% per year of the outperformance compared to the benchmark index. The estimated aggregated costs shown above includes the average for the past 5 years.	EUR 37

(**) Performance fees may be calculated based on and deducted from the Product's underlying funds.

The table above shows the annual impact of the different types of costs on the return you could obtain on your investment at the end of the recommended investment period.

The costs shown here do not include any additional costs that may be charged by your distributor or advisor, or any costs in connection with a package that the Product may be part of. If you invest in this Product as part of a life insurance or capitalisation contract, this document does not take into account the contract fees.

This table also explains what the different cost categories mean.

How long should I hold the Product, and can I take money out early?

Recommended holding period: 5 years

This Product is designed for medium-term investments. You should be prepared to hold your investment in the Product for at least 5 years. However, you may request the redemption of your investment at any time during this period – there will be no penalty for doing so. You may also hold your investment for longer than the recommended holding period.

You can request the redemption of your units on any day on which banks are open for business in France, and on any other day on which the French, U.S. and Canadian financial markets are open (as per the official NYSE, EURONEXT PARIS S.A., and Toronto Stock Exchange calendars) for orders received by the transfer agent before 12:30 pm on each net asset valuation day.

A redemption cap mechanism (known as "gating") may be implemented by the Management Company. The way this works is described in the Fund's Prospectus.

The management company has implemented a mechanism for adjusting the Product's net asset value, known as "swing pricing". This liquidity-management mechanism is described in detail in the Prospectus.

How can I complain?

If you wish to make a complaint regarding the Product, the Product manufacturer or the person distributing or advising you about the Product, with a view to having a right recognised or a damage remedied, please send us a written request, describing the problem and the details of the complaint, by post or e-mail, to:

Edmond de Rothschild Asset Management (France), 47, rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France.

E-mail: contact-am-fr@edr.com

Website: www.edmond-de-rothschild.com.

Performance Scenarios: The latest performance scenarios are updated monthly at <https://funds.edram.com/>.

Past performance: Past performances for the last 10 years can be downloaded at <https://funds.edram.com/>.

When this Product is used as a unit-linked vehicle in a life insurance or capitalisation contract, additional information about the contract in question, such as the costs associated with the contract – which are not included in the costs mentioned in this document –, the person to contact in the event of a claim, and the procedures to follow if the insurance company fails, are provided in the contract's key information document, which must be given to you by your insurer or broker, or any other insurance intermediary, in compliance with their legal obligation.

Depending on your tax regime, any capital gains and income derived from your unitholdings in the Product may be subject to taxation. We advise you to discuss this with the Product marketer or your tax advisor.

Other Product information documents are available in French and can be obtained free of charge on request from the management company, Edmond de Rothschild Asset Management (France), Registered office: 47, rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France - Website: www.edmond-de-rothschild.com. Telephone: +33 (0) 140 172 525 – E-mail: contact-am-fr@edr.com.

The Product is classified as Article 8 under SFDR. Environmental, social and governance (ESG) criteria are one of the components that are managed, but their weighting in the final decision is not defined in advance.

This Key Information Document (KID) is updated at least once a year.
