Date of production of the KID: 09/02/2026

WHAT IS THIS PRODUCT?

TYPE

Carmignac Patrimoine is a French common fund (Fonds Commun de Placement – FCP), governed by European Directive 2009/65/EC (UCITS)

TERM

The fund was launched on 12/03/2004 for a period of 99 years, except in the cases of early dissolution or extension.

OBJECTIVES

The fund's objective is to obtain, over a recommended investment horizon of three years, a performance, net of fees, above that of the fund's reference indicator, composed of 40% MSCI AC WORLD NR index, 40% ICE BofA Global Government Index, 20% €STR Capitalized index. The fund seeks to invest sustainably and applies a socially responsible investment approach.

The fund's main performance drivers are as follows: (i) Equities: at least 25% of the fund's net assets are invested in equities, a maximum of 50% of its net assets are exposed to international equities (all capitalisations, without restrictions in terms of sector or region, with up to 25% of net assets exposed to emerging countries, with a maximum of 10% in the Chinese domestic market (common limit including equities, debt securities and money market instruments on China's domestic market); (ii) Fixed income products: at least 40% of the fund's net assets are invested in fixed and/or floating rate government and/or corporate bonds and money market instruments. The average rating of the bonds held by the fund shall be at least investment grade as rated by at least one of the leading rating agencies or deemed equivalent by the management company. Emerging market fixed income products may not exceed 25% of net assets, including a maximum of 10% in the Chinese domestic market; (iii) Currencies: the fund may use currencies other than the fund's valuation currency for exposure or hedging purposes. Up to 5% of fund's net assets may be invested in unlisted securities.

The decision to buy, hold or sell fixed income products will not automatically and solely depend on their rating but also an internal analysis based mainly on return, credit rating, liquidity and maturity criteria. The manager may use Relative Value strategies as performance drivers, looking to take advantage of the relative value between different instruments. Short positions may also be taken through derivatives.

This fund is an actively managed UCITS: the investment manager has discretion over the composition

of the portfolio, subject to the stated investment objectives and policy. The fund's investment universe is at least partly derived from the indicator. The fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

The fund promotes environmental/social characteristics in accordance with Article 8 of the sustainability-related financial disclosures regulation (SFDR) through "best-in-universe" and "best-effort" approaches and an active engagement policy. An analysis of extra-financial criteria leads to a reduction of at least 20% in the fund's investment universe through negative screening to exclude companies whose non-financial ratings reflect high risk. In addition, the fund invests at least 10% of its net assets in sustainable investments within the meaning of the SFDR. The definition of sustainable investment used by the fund is based on the framework of the United Nations Sustainable Development Goals ("SDGs"). This framework is only one of the frameworks that can be used to illustrate positive results; others may reveal different results. The fund's sustainability risk may differ from that of the reference indicator.

INTENDED RETAIL INVESTOR

Due to the fund's bond market exposure, and its equity market exposure to a lesser extent, this fund is suitable for investors who do not plan to withdraw their money within 3 year(s), and whose goal is to grow their investment without any capital guarantee.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

This unit is an accumulation unit.

Investments may be redeemed each business day on request. Subscription and redemption requests are centralised on each NAV calculation and publication day before 18:00 CET and are executed on the next business day using the previous day's NAV.

The Fund's custodian is BNP Paribas, S.A.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC.
- Credit risk: the fund is invested in securities whose credit rating may decline, meaning there is a risk that the issuer may not be able to meet its commitments. Should an issuer's creditworthiness deteriorate, the value of the bonds or derivatives linked to this issuer may fall.
- Liquidity risk: the markets in which the fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the fund may be caused to liquidate, initiate or modify its positions.

Lower risk

Higher risk

The recommended holding period is 3 year(s).

If the product is denominated in a currency other than the applicable currency of the legal tender of the Member State where the PRIIP is being marketed, the return the retail investor gets, when expressed in the currency of the Member State where the PRIIP is being marketed, may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

| Recommended holding period: | | 3 years | |
|------------------------------------|---|---------------------------------|----------------------------------|
| Example Investment: | | 10 000 CHF | |
| | | If you exit after 1 year | If you exit after 3 years |
| Scenarios | Scenarios | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 7 140 CHF | 7 390 CHF |
| | Average return each year | -28,61 % | -9,59 % |
| Unfavourable | What you might get back after costs | 8 010 CHF | 8 470 CHF |
| | Average return each year | -19,94 % | -5,39 % |
| Moderate | What you might get back after costs | 9 790 CHF | 9 580 CHF |
| | Average return each year | -2,07 % | -1,43 % |
| Favourable | What you might get back after costs | 11 590 CHF | 11 760 CHF |
| | Average return each year | 15,86 % | 5,56 % |

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- Unfavourable scenario: This type of scenario occurred for an investment between November 2020 and November 2023
- Moderate scenario: This type of scenario occurred for an investment between December 2019 and December 2022
- Favourable scenario: This type of scenario occurred for an investment between October 2018 and October 2021

WHAT HAPPENS IF CARMIGNAC GESTION IS UNABLE TO PAY OUT?

The fund is a co-ownership of financial instruments and deposits separate from the management company. In the event of the latter's default, the product's assets held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the fund. There is no compensation or guarantee system in place that would fully or partially offset this loss.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment over time.

Costs over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 CHF. The figures are estimates and may change in the future.

| | If you exit after 1 year | If you exit after 3 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 606 CHF | 1 071 CHF |
| Annual cost impact (*) | 6.15 % | 3.55 % |

* The Reduction in Yield (RIY) illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.12 % before costs and -1.43 % after costs. The total costs take into account one-off, ongoing and incidental costs.

These figures include the maximum distribution fee that the person selling you the product may charge (4.00% of amount invested). This person will inform you of the actual distribution fee.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|---|---|--------------------------|
| Entry costs | Max. 4.00% of the amount you pay in when entering this investment. This is the most you will be charged. Carmignac Gestion does't charge any entry fee. The person selling you the product will inform you of the actual charge. | Up to 400 CHF |
| Exit costs | We do not charge an exit fee for this product. | 0 CHF |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 1.80% of the value of your investment per year. This estimate is based on actual costs over the past year. | 173 CHF |
| Transaction costs | 0.32% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell. | 31 CHF |
| Incidental costs taken under specific conditions | | |
| Performance fees | 20% max. of outperformance if performance since the beginning of the fiscal year exceeds that of the reference indicator, even in the event of negative performance, and if no past underperformance remains to be compensated. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. | 3 CHF |

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Given the fund's exposure to the bond market, and to the equity market to a lesser extent, the recommended investment period is more than 3 year(s).

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible each business day. In exceptional circumstances, your right to request the redemption of your investment may be suspended. The management company reserves the right to introduce caps on redemption requests ("gates") in order to spread redemptions across several NAV dates where such redemption requests exceed the 5% threshold (net redemptions of subscriptions expressed as a percentage of the Fund's net assets).

HOW CAN I COMPLAIN?

If you have any complaints about this product, the conduct of the manufacturer or of the person who recommended or sold this product to you, you can use different means of communication: you can lodge them by email to complaints@carmignac.com, by post to 24 Place Vendôme, 75001 Paris, France, or by telephone on (+33) 01 42 86 53 35. In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com. If there is no response within two months or if you consider the response provided by Carmignac Gestion unsatisfactory, you can contact the AMF Ombudsman by letter or using the online form (<https://www.amf-france.org/en/amf-ombudsman>).

OTHER RELEVANT INFORMATION

The fund may comprise other types of unit. You can find more information on these units in the prospectus or on the website: www.carmignac.com. This fund's units have not been registered under the US Securities Act of 1933. They may not be offered or sold, directly or indirectly, to or on behalf of a US person as defined in US Regulation S and FATCA. Depending on your tax status, any capital gains and income resulting from the ownership of units of the fund may be subject to tax. We advise you to obtain further information in this regard from the promoter of the fund or from your tax advisor. The manufacturer may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus. Monthly history of performance scenarios and past performance: <https://go.carmignac.com/performance-scenario> When this product is used as a unit-linked support for a life insurance or capitalization contract, the additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in the this document, the contact in the event of a claim and what happens in the event of failure of the insurance company are presented in the key information document of this contract, which must be provided by your insurer or broker or any other intermediary of insurance in accordance with its legal obligation.
