What is this product?

Type

This product is a French Undertaking for Undertaking for Collective Investment in Transferable Securities (UCITS), incorporated as a French Common Fund (FCP).

The Fund is subject to the approval of the Autorité des marchés financiers (AMF).

Term and termination (by the initiator)

The Fund has a term of 99 years. The Management Company may extend this term. The Fund may also be dissolved early on the Management Company's initiative. The terms for dissolving the Fund are described in more detail in the Fund's prospectus.

Objectives

Tikehau 2025 aims to deliver annualised performance, net of management fees, at least equal to that of the 3.7% over an investment horizon of at least three years, from the date the Fund is created until 31 December 2025. The Fund seeks to create value over the medium term from a portfolio composed mainly of investment grade debt securities, and supplemented with more speculative high yield securities. Depending on market conditions, the Management Company may also liquidate, transform or merge the Fund before the maturity date of 31 December 2025. This objective is based on the market assumptions made by the Management Company at a given time and takes account of the default risk and expenses, including hedging costs. Investors' attention is drawn to the fact that this objective may not be achieved depending on market conditions at launch or in the event of default by an issuer or if subsequent reinvestments cannot be made at a sufficient return.

In order to achieve its investment objective, the Fund will invest up to 100% of its net assets in investment grade debt securities. The Fund can also invest up to 50% of its net assets in high yield debt securities, which may have speculative characteristics, issued by private or public sector companies, with no restrictions in terms of geographical region or business sector. The investment strategy consists of active and discretionary management of a portfolio primarily made up of bonds with a residual maturity at 31 December 2025 of less than or equal to six months, as well as commercial paper and medium-term notes. The Fund will also be able to use derivatives to partially or fully hedge the currency risk, with nevertheless a residual currency risk of up to 10% of net assets. The Fund can invest (i) up to 20% of net assets in high yield securities rated below CCC+ on their acquisition date (according to the analysis by the Management Company, independent of the rating given by the rating agencies), it being specified that this percentage can be increased to 25% of net assets in the event of a downgrade of the ratings of securities already in the portfolio, (ii) up to 30% of net assets in subordinated financial bonds, including contingent convertibles (CoCos), (iii) up to 10% of net assets in securities issued in "hard" currencies, with the Fund's currency being the USD. Although its strategy is mainly based on the carry of bonds, the Management Company can make trades, in the event of new market opportunities or identification of a rise in the risk of default of one of the issuers in the portfolio. The Fund may also invest up to 10% of its net assets in UCIs of an EU Member State and/or in foreign investment funds (including those managed by the Management Company). The range of modified duration will lie between 0 and 4. Fund unitholders may redeem Fund units or shares daily on request, in accordance with the provisions of the prospectus.

What are the risks and what could I get in return ?

Summary risk indicator:

The risk indicator assumes you keep the product for until 31/12/2025 depending on the recommended holding period. The actual risk may be very different if you choose to exit before maturity and you may get back less in return.

Recommended holding period: **until 31/12/2025**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low category of risk.

This rates the potential losses from future performance at low, and if poor market conditions very unlikely impact our capacity to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. For more information on these risks, please refer to the prospectus.

The following risks borne by the Fund and not taken into account in the indicator may have a negative impact on the Fund's net asset value: Risk of loss of capital; Sustainability risk; Liquidity risk; Credit risk; Counterparty risk.

For a description of all the risks, please refer to the Fund prospectus. The materialisation of one of these risks could lead to a drop in the net asset value of Fund.

PLEASE NOTE: THIS FUND MAY INVEST UP TO 50% OF ITS ASSETS IN BONDS WITH A LOW CREDIT QUALITY; IT THEREFORE CARRIES A VERY HIGH CREDIT RISK.

Performance scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a benchmark over the last 10 years.

Recommended holding period: until 31/12/2025 Example of an investment: 10,000 €		
Scenarios		If you exit after on 31/12/2025
Minimum	<i>There is no minimum guaranteed return. You could lose all or part of your investment.</i>	
Stress	<i>What you might get back after costs</i>	7,833 €
	Average return each year	-21.67%
Unfavourable	<i>What you might get back after costs</i>	8,630 €
	Average return each year	-13.70%
Moderate	<i>What you might get back after costs</i>	9,434 €
	Average return each year	-5.66%
Favourable	<i>What you might get back after costs</i>	10,226 €
	Average return each year	2.26%

This table shows the money you could get back over if you exit after on 31/12/2025 under different scenarios, assuming that you invest 10,000 €. The scenarios shown illustrate how your investment could perform. You can compare them with the stress scenarios for other products. The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred during the period: 20/10/2021 - 20/10/2022.

The moderate scenario occurred during the period: 05/11/2020 - 05/11/2021.

The favourable scenario occurred during the period: 20/03/2023 - 20/03/2024.

What happens if Tikehau Investment Management is unable to make the payments?

The Fund jointly owns financial instruments and deposits separately from the Management Company. If the latter failed, the product's assets held by the Custodian would not be affected. If the Custodian failed, the risk of a financial loss on the product would be mitigated by the legal segregation of the Custodian's assets from the product's assets. Any losses are not covered by an investor compensation or guarantee system.

What are the costs ?

The person who sells you this product or who provides advice on it may charge you additional fees. If so, said person shall inform you of such fees and of the impact they have on your investment.

Costs over time:

The tables show the amounts taken from your investment in order to cover the various types of costs. These amounts depend on the amount that you invest, the time during which you hold the product, and the product's returns. The amounts indicated here are illustrations based on an example of invested amount and various possible investment periods.

We have assumed that:

- during the first year you would get back the amount that you invested (0% annual return);
- for the other holding periods the product performs as shown in the moderate scenario;
- 10,000 EUR are invested.

	If you exit after on 31/12/2025
Total costs	700 €
Impact of annual costs (*)	7.04%

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the end of the recommended holding period your average return per year is projected to be 1.4% before costs and -5.7% after costs. We may share the costs with the person selling the product to you to cover the services they provide to you. This person will inform you of the amount, where applicable.

Composition of costs:

One-off entry or exit costs		If you exit after 1 year
Entry costs	3.00% of the amount you pay in when entering this investment.	until 300 €
Exit costs	3.00% of the amount invested before it is paid out to you. These costs only apply to exits made prior to the fund's maturity date.	300 €
Ongoing costs taken each year		
Management fees and other administrative or operating fees	1.10% of the value of your investment per year. This estimate is based on actual costs charged last year.	110 €
Transaction costs	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 €
Incidental costs taken under specific conditions		
Performance fees (and incentive fee)	There is no performance fee for this product	0 €

How long should I hold it and can I take money out early ?

Recommended holding period: until 31/12/2025

The recommended holding period is equal to the minimum period recommended to maximise the probability of achieving the strategy's objectives. You may request the redemption of your units on any day. Redemptions are carried out daily. You may dispose of your investment before the maturity date, but redeeming your units before the end of the recommended holding period may be detrimental to your return, increase the risks associated with your investment, and lead you to incur a capital loss. Investors may request the redemption of some or all of their units at any point in the Fund's life. Redemption fees: maximum 3.00%.

The Management Company may implement a gate mechanism to cap redemptions. Please refer to the "Subscription and redemption procedures" section of the Prospectus for more information about this mechanism.

How can I complain?

You can make a complaint about the product or the conduct (i) of the Management Company, (ii) of a person advising about the product, or (iii) of a person selling the product, by sending an email or a letter to the following people, depending on the case:

- If your complaint regards the product itself or the conduct of the Management Company: please contact the Management Company, by post, addressed to Tikehau Investment Management - 32 rue de Monceau - 75008 Paris or by email to the following email address: Client-Service@tikehaucapital.com. A complaint management procedure is available on the website of the Management Company, www.tikehaucapital.com.
- If your complaint regards a person advising about or offering the product, please contact this person directly. In accordance with the provisions of Article L.621-19 of the Monetary and Financial Code, as a last resort for amicable resolution you can refer the matter to the Autorité des Marchés Financiers' (AMF) Mediator through the website www.amf-france.org (mediation request form), or by post: Le Médiateur - Autorité des marchés financiers - 17, place de la Bourse - 75082 PARIS CEDEX 02.
