This information is required by law to help you understand what this product is along with the potential risks, costs, gains and losses that are associated with it, and to help you compare it to other products.

La Française Rendement Global 2031 - R shares - FR0013258647

Product

Product: La Française Rendement Global 2025 - R shares

ISIN code: FR0013258647

Initiator: Crédit Mutuel Asset Management. The Autorité des marchés financiers (AMF) is responsible for monitoring Crédit Mutuel Asset Management with regard to this key information document. Crédit Mutuel Asset Management is authorised in France under no. GP 97-138 and regulated by the AMF. Further information is available on the management company's website, www.la-francaise.com or www.creditmutuel-am.eu or by calling + 33 1 44 56 10 00.

Date of production of the key information document: 16/07/2025

What is this product?

Type of product: Sub-fund of the LA FRANÇAISE SICAV

Product term: 99 years

Objectives:

The sub-fund's objective is to achieve, over the recommended investment period from the sub-fund's launch date until the maturity date of 31 December 2031, a net return, after fees, that exceeds that of French government bonds due 2031 denominated in EUR (OAT 0% due 25 November 2031 - ISIN code FR0014002WK3). The potential profitability of the sub-fund comes from the value of the accrued coupons of the bonds in the portfolio and the variations in capital due to the fluctuation in interest rates and credit spreads. The management objective is based on market conditions at the time the fund is launched and is only valid if you subscribe at that time. In the event of subsequent subscriptions, performance will depend on the market conditions prevailing at the time of subscription. These conditions cannot be anticipated and could therefore lead to a different performance.

The net annualised performance objective is based on the achievement of market assumptions set by the management company. It is not a guarantee of Fund return or performance. Investors should note that the performance indicated in the management objective of the fund takes account of the estimate of the risk of default or downgrading of the rating of one or more issuers in the portfolio, the cost of currency hedging and the management fees payable to the management company.

Benchmark index: The fund is not linked to a benchmark index. The fund is managed actively and on a discretionary basis. The fund is not managed with reference to an index.

Investment strategy:

Sensitivity range: between 6 and 0 (decreasing over time).

The investment strategy consists of the discretionary management of a bond portfolio issued by private or public entities. The fund will be invested in bonds with maturities up to 31 December 2031 and/or bonds with a longer maturity, but which have a call option before on or before 31 December 2031. The Fund may invest between 0% and 10% of its net assets in fixed-income instruments with a maturity exceeding 31 December 2032 following a post-acquisition restructuring of the issuer's debt.

The strategy is not limited to bond carrying. The management company may use arbitrage in the event of new market opportunities or an increased default risk of one of the issuers in the portfolio.

Up to 100% of the fund is invested in fixed or floating rate bonds and other negotiable debt instruments, in money market instruments and up to 30% in convertible bonds, issued by public and/or private entities from OECD countries [0-100%]; non-OECD public entities (emerging markets) [0-100%]; non-OECD private entities (emerging markets) [0-50%], in all economic sectors.

Securities are denominated in EUR and/or USD and/or GBP and/or NOK and/or CHF and/or SEK and/or CAD and/or DKK. The exchange risk for securities not denominated in EUR is systematically hedged. The issues (or, failing that, the issuers) are Investment Grade (rating better than or equal to BBB- or Baa3 or equivalent according to the management company's analysis) and/or High Yield issues (of a speculative nature) (rating less than BBB- or Baa3 or equivalent according to the management company's analysis). Investment in unrated securities is limited to 30% of net assets. The management company shall not exclusively or automatically rely on external ratings but may, upon the issuance of such a rating, take it into consideration for its credit analysis. The fund may invest up to a maximum of 50% of its net assets in hybrid and subordinated financial and non-financial bonds. However, exposure to hybrid and subordinated non-financial bonds may not reach 30% of net assets and exposure to hybrid and subordinated financial bonds such as CoCos ("contingent convertible bonds") will be limited to 20% of net assets.

The fund may carry out transactions for the temporary purchase and sale of securities.

Financial futures, traded on regulated or over-the-counter markets, are used to hedge and/or expose the portfolio to interest rate and/or credit futures markets, and with the aim of solely hedging on future exchange markets: futures, forwards, options, interest rate swaps, foreign exchange swaps, forward exchange transactions, Credit Default Swaps (CDS on single underlying asset options, CDS on index), options on CDS (up to 15% of net assets), Non-Deliverable Forwards.

The fund may carry out Total Return Swaps (TRS).

Given the management implemented, the fund's risk profile will vary over time; exposure to different risk factors will decrease as the investment strategy approaches its maturity. As the fund approaches maturity and depending on the prevailing market conditions, the management company will opt either to continue the investment strategy, merge with another UCITS or liquidate the fund, subject to the AMF's approval.

The latest prospectuses, the latest net asset value of the shares, the annual report and the periodic information document of the fund's shares: Legal documents are available on request and free of charge from the management company or on the websites: www.la-francaise.com and/or www.creditmutuel-am.eu. You can get this information free of charge on request from serviceclient@la-francaise.com. Any further information is available from the Customer Service Nominative Products Department using the following contact details: serviceclient@la-francaise.com.

The UCI is not open to residents of the United States of America/US Person.

Depository: The Depository of the UCITS is BNP Paribas S.A., located at 9 rue du Débarcadère, 93500 PANTIN (the "Depository"). BNP Paribas S.A., registered in the Trade and Companies Register under number 662 042 449, is an institution approved by the Autorité de Contrôle Prudentiel et de Résolution (ACPR) and regulated by the French Financial Markets Authority (Autorité des Marchés Financiers – AMF), whose registered office is located at 16, Boulevard des Italiens, 75009 Paris, France.

Other information:

Redemptions are centralised each day (T) at 11 a.m. with La Française AM Finance Services and with IZNES for shares to be registered or registered in the IZNES Shared Electronic Registration System (DEEP) and are carried out on the basis of the next net asset value, with settlement on T+2 (trading days).

Fund subscriptions will close on 30 November 2030 at 11 a.m. From this date, only subscriptions preceded by a redemption on the same day for the same number of units, for the same net asset value and by the same unitholder may be executed.

Allocation of distributable amounts: Capitalisation

What are the risks and what could i get in return?

Risk indicator

SS

The risk indicator assumes that you will be keeping the product up until 31 December 2031.

The actual risk may be very different if you opt for an earlier exit, and you may get less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product compared to others. It indicates the likelihood of this product incurring losses in the event of market developments or our inability to pay you.

We have classified this product in risk class 3 out of 7, which is a low to medium risk class. In other words, the potential losses linked to the future performance of the product are at a low to medium level and, if the situation were to deteriorate on the markets, it is unlikely that our ability to pay you would be affected.

Risks with significance for the SICAV not included in this indicator:

- Risk arising from techniques such as derivatives
- Credit risk
- Counterparty risk

This product is not protected from market fluctuations, and you may therefore lose all or part of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but not necessarily all the fees payable to your advisor or distributor.

These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

What you get out of this product depends on future market performance. The future development of the market cannot be accurately predicted.

The adverse, intermediate and favourable scenarios presented represent examples using the best and worst performances, as well as the average performance of the product, calculated over a minimum of 10 years of data. Markets could perform very differently in the future. The stress scenario shows the potential returns you may obtain in extreme market situations.

Recommended investment period: 31/12/2031 Investment example: €10,000		If you exit after 1 year	If you exit after 31/12/2031
Scenarios			
Stress scenario	What you could get after costs are deducted	€5,710	€6,740
	Average annual return	-42.88%	-5.61%
Adverse scenario	What you could get after costs are deducted	€7,730	€9,360
	Average annual return	-22.66%	-0.96%
Intermediate scenario	What you could get after costs are deducted	€9,940	€10,400
	Average annual return	-0.55%	0.58%
Favourable scenario	What you could get after costs are deducted	€11,780	€11,780
	Average annual return	17.82%	2.42%

This type of adverse scenario has occurred for an investment between: 12/2016 and 10/2023.

This type of intermediate scenario has occurred for an investment between: 06/2015 and 04/2022.

This type of favourable scenario has occurred for an investment between: 12/2014 and 10/2021.

What happens if Crédit Mutuel Asset Management is unable to make the payments?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of defaulting by this latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated by the legal separation of the depositary's assets from those of the product.

What will this investment cost me?

You may be asked to pay additional costs by the person selling or advising you about the product. If so, this person will inform you about these costs and show you the impact of all costs on your investment over time.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and how well the product performed. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have made the following assumptions:

- that during the first year you would get back the amount you invested (annual return of 0%) and for the other holding periods, the product evolves as indicated in the intermediate scenario.
- that you have invested €10,000.

Investment: €10,000	If you exit after 1 year	If you exit after 31/12/2031
Total costs	€466	€1,578
Cost impact*	4.71%	2.18%

(*) This illustrates how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 2.75% before costs and 0.58% after costs.

Breakdown of costs:

One-off entry or exit costs		If you exit after 1 year
Entry cost	Maximum 3.00% of the amount you pay at the time of entry into the investment, not including the distribution costs for your product. The person selling you the product will be able to tell you the actual costs.	up to €300
Exit cost	We do not charge an exit fee for this product.	€0
Recurrent costs [collected annually]		
Management fees and other administrative and operating expenses	Maximum 1.28% of the value of your investment per year. This estimate is based on actual costs over the past year.	€124

Transaction costs	0.43% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	€42
Recurring costs collected under certain conditions		
Performance-related fees	There are no performance-related fees for this product.	€0

How long should I keep my investment and can I withdraw money early?

Recommended holding period: 31/12/2031

Possibilities and conditions for divestment before maturity:

Redemptions are centralised each day (T) at 11 a.m. with La Française AM Finance Services and with IZNES for shares to be registered or registered in the IZNES Shared Electronic Registration System (DEEP) and are carried out on the basis of the next net asset value, with settlement on T+2 (trading days).

Fund subscriptions will close on 30 November 2030 at 11 a.m. From this date, only subscriptions preceded by a redemption on the same day for the same number of units, for the same net asset value and by the same unitholder may be executed.

How can I make a complaint?

Complaints should be directed to the customer services department of the La Française Group at 128 boulevard Raspail 75006 PARIS (reclamations.clients@la-francaise.com), by phone on +33 (0)1 53 62 40 60, or through the website: <https://www.la-francaise.com/fr/service-clientele/>
