What is this product?

Type:

This investment fund is a Sub-Fund of Lightrock UCITS ICAV (the "ICAV"), an umbrella Irish collective asset-management vehicle with variable capital and segregated liability between Sub-Funds.

Objectives:

Investment objective The investment objective of the Sub-Fund is to generate positive returns, by outperforming the MSCI World Small Cap Index Total Net Return ("Benchmark").

Investment policies The Manager will aim to achieve the investment objective by:

- investing in equities issued by smaller companies globally. The Manager will invest principally in companies that are, at the time of initial purchase, no larger by market capitalisation than the largest constituent of the Benchmark;
- employing an investment strategy that combines the principles of long-term investing with responsible active ownership;
- aiming to avoid permanent loss of capital through the selection of companies with resilient business models and strong balance sheets;
- integrating ESG and positive impact considerations as part of the investment process;
- aiming to acquire a portfolio for the Sub-Fund of quality companies at attractive share prices with a view to retaining them for a long term period; and
- in normal market conditions, investing in equities of between 50 and 75 companies.

Using the above criteria, investments will be made on a 'long-only' basis and will be predominantly in equity securities. In this regard, the Manager takes a long-term view to the investments of the Sub-Fund and the intention is to hold investments over the medium to long term (i.e. on average 5 years or more).

The ICAV, in conjunction with the Manager, has categorised the Sub-Fund as an Article 8 fund under SFDR. This is a fund that promotes among other environmental characteristics or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices.

Benchmark uses The Sub-Fund is actively managed with no reference to a Benchmark and may invest in securities not included in the Benchmark. Investment returns may deviate materially from the performance of the Benchmark. The Sub-Fund uses the Benchmark for the purpose of comparing performance.

No specific reference benchmark has been designated for the purpose of attaining environmental or social characteristics promoted by the Sub-Fund.

Redemption and Dealing Investors can redeem their shares on demand on a daily basis.

Distribution Policy Any income less expenses will be accumulated and reinvested into the Sub-Fund.

Launch date 18 April 2024.

Fund Currency The base currency of the Sub-Fund is EUR. This share class currency is EUR.

Switching Shares in the Sub-Fund may be switched for another shares class within the Sub-Fund, subject to certain conditions and meeting the requirements for investment in such other share class.

Asset segregation The Sub-Fund is a sub-fund of Lightrock UCITS ICAV. The assets and liabilities of each Sub-Fund are segregated from other Sub-Funds of Lightrock UCITS ICAV.

Intended Retail Investor:

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term:

The Sub-Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the ICAV as set forth in the ICAV's prospectus, the Sub-Fund cannot be automatically terminated. The Manager is not entitled to terminate the product unilaterally.

Practical Information

Depository The Sub-Fund depository is Northern Trust Fiduciary Services (Ireland) Limited (the "Depository").

Further information The current share price and further information on the Sub-Fund (including the current prospectus and the most recent financial statements prepared for the ICAV as a whole), as well as information on other share classes of the Sub-Fund are available at <https://www.lightrock.com/about/public-equity/> or from the administrator, Northern Trust International Fund Administration Services (Ireland) Limited in English free of charge.

What happens if Lightrock Netherlands B.V. is unable to pay out?

The assets of the Sub-Fund are held in safekeeping with the Depositary. In the event of an insolvency of the Manager, the Sub-Fund’s assets held with the Depositary should not be affected. However, in the event of the Sub-Fund’s or the Depositary’s insolvency, the Sub-Fund may be unable to pay out and you could lose your entire investment in the Sub-Fund. In that event, you are not covered by an investor compensation or guarantee scheme.

performance at a medium level, and poor market conditions could impact the capacity of the Fund to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the prospectus, available free of charge at <https://www.lightrock.com/about/public-equity/>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment 10,000 EUR	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	98 EUR	749 EUR
Annual Cost Impact*	0.98 %	1.06 %

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.53% before costs and 8.47% after costs.
