Smart Mobility Fund

Class I EUR Accumulation Shares

A Sub-Fund of Polar Capital Funds plc

ISIN: IE000YHEMDX6

FundRock Management Company (Ireland) Limited acts as UCITS management company of the Fund (the "Manager")

Objectives and Investment Policy

Objectives

The investment objective of the Fund is to provide long-term capital growth. In addition, the Fund has as its sustainable investment objective investment in a portfolio of companies worldwide that support, through their technology solutions and services, the decarbonisation and thereby transformation of the global transportation sector.

Investment Policy

The Fund seeks to invest in companies worldwide that provide technology solutions and services targeting the decarbonisation and transformation of the global transportation sector.

The Fund contributes to the following UN Sustainable Development Goals: Affordable and Clean Energy goal (SDG7), Industry, innovation and infrastructure (SDG9), Sustainable cities and communities (SDG11), Responsible consumption and production (SDG12) and Climate action (SDG13).

The Fund may invest in financial derivatives (complex instruments based upon the value of underlying assets) for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way.

Greenhouse Gas ('GHG') emissions data used in the Fund's investment process may be based on, or include, estimates. The Investment Manager continuously reviews the availability

and accuracy of GHG data used. Due to the Fund's investment policy and estimations in the GHG data used, the Fund may be invested in companies with high GHG emissions. The Investment Manager will consider the direct emissions from a company's controlled assets and operations; emissions from the consumption of electricity, heat, steam and cooling, and where available, emissions relating to the company's value chain that are not controlled by the company itself.

The Fund is actively managed and uses the MSCI All-Country World Net TR Index (EUR) benchmark for performance comparison purposes.

There is no intention to pay dividends in respect of the Accumulation Share Classes.

You may sell your shares on days which banks are normally open for business in Dublin and London.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Sustainable Finance Disclosure Regulation

This Fund has a sustainable investment objective and is classified as an Article 9 fund under the EU's Sustainable Finance Disclosure Regulation ("SFDR"). For more information please see the Fund's prospectus or by visiting www.polarcapital.co.uk.

Why is this fund in this category?

The Fund has a high risk rating because it invests in equities, the value of which can move up and down over time to a greater extent than some other investments.

In addition to the risk captured by the indicator, the overall Fund value may be considerably affected by:

Concentration Risk - the Fund invests in a relatively concentrated number of companies based on the global transportation sector. This focused strategy can produce high gains but can also lead to significant losses. The Fund may be less diversified than other investment funds.

Investment Risk - the Fund invests in company shares globally, and share prices can rise or fall due to a number of factors affecting global stock markets.

Derivative Risk - certain derivatives may result in gains or losses that are greater than the original amount invested. Derivatives also involve counterparty risk, which is the risk that a counterparty to the derivative contract cannot meet its contractual obligations.

Currency Risk - the Fund invests in assets denominated in currencies other than the Fund's base currency. Changes in exchange rates may have a negative impact on the Fund's investments. If the share class currency is different from the currency of the country in which you reside, exchange rate fluctuations may affect your returns when converted into your local currency.

Emerging Markets Risk - emerging market countries face more political, economic or structural challenges than developed countries. Investments in such countries may offer higher potential for gains or losses, and markets may be less liquid.

What do these numbers mean?

The risk indicator was calculated using historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making high gains. The numerical scale is complex, for example, 2 is not twice as risky as 1.

Charges

One-off charges taken before or after you invest	
Entry charge	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.89%
Charges taken from the fund under certain specific conditions	
Performance fee	None

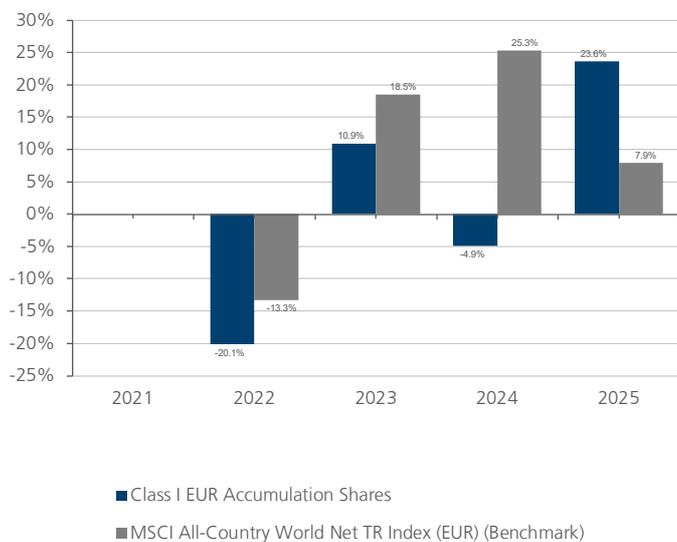

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser or distributor.

The **Ongoing Charge** figure is based on expenses for the 12 month period ending 31 December 2025. The Fund's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges by looking at the **"Fees and Expenses"** section of the Fund's prospectus, which is available at www.polarcapital.co.uk.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance shown does not take into account any entry, exit or switching charges but does take into account the ongoing charge, as shown in the **"Charges"** section.

The performance of this class is calculated in Euro.
