Term

This product does not have a maturity date.

Objectives

The objective of the Fund is to provide long-term capital growth. In addition, the Fund has as its sustainable investment objective investment in a portfolio of companies worldwide that support, through their technology solutions and services, the decarbonisation and thereby transformation of the global transportation sector.

Investment Policy

The Fund seeks to invest in companies worldwide that provide technology solutions and services targeting the decarbonisation and transformation of the global transportation sector. The Fund contributes to the following UN Sustainable Development Goals: Affordable and Clean Energy goal (SDG7), Industry, innovation and infrastructure (SDG9), Sustainable cities and communities (SDG11), Responsible consumption and production (SDG12) and Climate action (SDG13). The Fund may invest in financial derivatives (complex instruments based upon the value of underlying assets) for hedging, to reduce risk, to manage the Fund more efficiently, or to gain exposure to securities in a more efficient way. The Fund is actively managed and uses the MSCI All-Country World Net TR Index (EUR) benchmark as a performance target. There are no restrictions on the extent to which the Fund's portfolio and performance may deviate from that of the comparative benchmark. The currency of the Fund is USD and the currency of this share class is Euro (EUR).

There is no intention to pay dividends in respect of the Accumulation Share Classes.

Sustainable Finance Disclosure Regulation

This Fund has a sustainable investment objective and is classified as an Article 9 fund under the EU's Sustainable Finance Disclosure Regulation ("SFDR"). For more information please see the Fund's prospectus or by visiting www.polarcapital.co.uk.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed in the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	122 EUR	815 EUR
Annual cost impact (*)	1.2%	1.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.5% before costs and 7.2% after costs.

Figures may not sum due to rounding.
