BROWN ADVISORY FUNDS PLC**GENERAL INFORMATION**

The following information is derived from and should be read in conjunction with the full text and definitions section of the Prospectus.

Brown Advisory Funds plc (the “Company”), was incorporated in Ireland on 11th October, 2005 and is an umbrella fund established as an open-ended investment company with segregated liability between sub-funds and with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014. It operates pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”).

The Company has appointed Brown Advisory (Ireland) Limited (the “Manager”) to act as manager and distributor to the Company and each Sub-Fund of the Company (each a “Fund”) with power to delegate one or more of its functions subject to the overall supervision and control of the Manager.

At 31st October, 2025 the Company comprised seventeen separate active portfolios of investments (“Funds”), each of which is represented by a separate series of Redeemable Participating Shares:

Fund	Commenced operations

Brown Advisory US Smaller Companies Fund

The investment objective of the Brown Advisory US Smaller Companies Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of small US companies. The Fund seeks to invest primarily in small companies with sustainable above average growth prospects and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. Small companies are companies whose market capitalisations are equal to or less than \$6 billion at the time the Fund purchases the issuer’s securities (“Market Capitalisation Range”). The Fund may invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund’s investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory US Equity Growth Fund

The investment objective of the Brown Advisory US Equity Growth Fund (the “Fund”) is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing in medium- and large-sized companies that have high, sustainable earnings prospects along with attractive valuations and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. The Fund may also invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund invests primarily in US based companies that have exhibited an above-average rate of earnings growth over the past few years and that have prospects for above-average, sustainable growth in the future. The Fund may also invest in companies that do not exhibit particularly strong earnings histories but have other attributes that may contribute to accelerated growth in the foreseeable future. Other important attributes are a strong competitive position, a history of innovation, excellent management and the financial resources to support long-term growth.

The Fund will invest primarily in medium and large-market capitalisation companies characterised by market capitalisation of \$2 billion and greater at the time of purchase.

The Fund seeks to purchase securities at what the Investment Manager considers attractive valuations in the context of the strong fundamental position of each underlying company.

The Fund’s investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

BROWN ADVISORY FUNDS PLC

GENERAL INFORMATION (continued)

Brown Advisory US Small Cap Blend Fund

The investment objective of the Brown Advisory US Small Cap Blend Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of small US companies. The Fund seeks to invest primarily in small companies with sustainable above average growth prospects which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus. Small companies are companies whose market capitalisations are equal to or less than \$6 billion at the time the Fund purchases the issuer's securities ("Market Capitalisation Range"). The Fund may invest in US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus.

The Fund's investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory US Flexible Equity Fund

The investment objective of the Brown Advisory US Flexible Equity Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of mid-size and large companies generally with market capitalisations above \$2 billion at the time of purchase that the Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favourable fundamental attributes, and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus.

The Fund may also invest in non-US securities, convertible bonds including US Rule 144A Securities, American and Global Depository Receipts, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities, subject to the limits set out in the Prospectus.

The Fund's exposure to non-US securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its Net Asset Value ("NAV") and its exposure to below Investment Grade debt securities will not exceed 10% of its NAV.

The Fund's investments are concentrated in US equity securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory Global Leaders Fund

The investment objective of the Brown Advisory Global Leaders Fund (the "Fund") is to achieve capital appreciation by investing primarily in global equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global equity securities. The Fund will under normal market conditions: (1) invest at least 40% of its net assets outside the United States (including Emerging Market Countries) which may be reduced to 30% if market conditions are not favourable, and (2) hold securities of issuers located in at least three countries. The equity securities in which the Fund may invest include common stock, preferred stock, American Depository Receipts ("ADRs") and Global Depository Receipts ("GDRs") and the Fund may also invest in CIS (including, exchange traded funds ("ETFs")) subject to the limits set out in the Prospectus. The equity securities in which the Fund may invest will be issued by mid- and large- capitalisation companies generally with market capitalisations above \$2 billion at the time of purchase that the Fund's Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favourable fundamental attributes.

In addition, the equity securities in which the Fund may invest will include the equity securities of companies that the Investment Manager believes are leaders within their industry or country as demonstrated by an ability to deliver high and sustainable returns on invested capital over time. This typically can be attributable to, among other things, a strong competitive position and a defensible barrier to entry.

BROWN ADVISORY FUNDS PLC**GENERAL INFORMATION (continued)****Brown Advisory Global Leaders Fund (continued)**

The Fund may invest in participatory notes (P-Notes) in order to gain exposure to securities and markets which may not be efficiently accessed through direct investment. The Fund may use put options on equity indices in order to seek to enhance returns, to attempt to hedge some of its investment risk, to manage portfolio duration or as a substitute position for holding the underlying asset on which the put option is based. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising from Hedged Share Classes.

In addition, the Fund may also invest in US treasury bills, fixed and/or floating rate US government securities and unlisted securities, subject to the limits set out in the Prospectus.

The Fund's exposure to below Investment Grade debt securities will not exceed 10% of its NAV.

Brown Advisory US Mid-Cap Growth Fund

The investment objective of the Brown Advisory US Mid-Cap Growth Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund invests at least 80% of its net assets in equity securities of mid-cap US companies. The Fund seeks to invest primarily in mid-size companies with sustainable and above average growth prospects and which are listed or traded on the US markets and exchanges listed in Appendix I of the Prospectus.

Mid-cap companies are companies whose market capitalisations are equal to or more than \$1.5 billion at the time the Fund purchases the issuer's securities ("Market Capitalisation Range"). The Fund may invest in US Rule 144A Securities, American and GDRs, US treasury bills, fixed and/or floating rate US government securities and ancillary liquid assets subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.

The Fund's investments are concentrated in US securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

Brown Advisory US Sustainable Growth Fund

The investment objective of the Brown Advisory US Sustainable Growth Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US companies that the Investment Manager considers have sound fundamentals and business models which are sustainable over the long-term. The Fund invests primarily in the securities of medium and large capitalisation companies that the Investment Manager considers (1) have prospects for above average earnings growth in the future, and (2) effectively implement sustainable business strategies that drive earnings growth. The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US securities, American and GDRs, corporate debt securities, US treasury bills, fixed and/or floating rate US government securities, real estate investment trusts and unlisted securities in a manner that is consistent with and complements the investment policies and the Investment Manager's investment process, subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.

Medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than \$2 billion at the time of purchase. The Fund may also invest a portion of the portfolio in equity securities of small market capitalisation companies.

The Fund's exposure to non-US securities (including securities of issuers in Emerging Market Countries) will not exceed 15% of its NAV and its exposure to below Investment Grade debt securities will not exceed 10% of its NAV.

The Fund's investments are concentrated in US securities and accordingly the Fund is more vulnerable to economic, political, regulatory or other developments in the US than a more internationally diversified portfolio would be.

BROWN ADVISORY FUNDS PLC

GENERAL INFORMATION (continued)

BA Metropolis Global Value Fund

The investment objective of the BA Metropolis Global Value Fund (the “Fund”) is to achieve long-term capital growth mainly through investment in a concentrated portfolio of securities in listed companies.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global corporate equities. All securities and exchange-traded Financial Derivative Instruments (FDI) invested in will be listed or traded on the Regulated Markets listed in Appendix 1 of the Prospectus. In pursuing the investment objective and policies, the Fund will seek to identify investment companies which it considers to have some or all of the following characteristics: a history of strong cash flow generation, a strong balance sheet, a strong competitive position in a market with high barriers to entry and security of future revenue streams (through, for example, longterm contracts, a unique brand, infrastructure which is difficult to replicate, patents or licenses).

In addition, the Fund will only invest in such companies when it considers them to be undervalued by the market, following a valuation based on an assessment by the Sub-Investment Manager of the likely cash flows of that company.

The Fund will aim to maintain a concentrated portfolio, typically consisting of up to 25 companies at one time. However, the Fund reserves the right to a less concentrated portfolio should they regard it as in the interests of Shareholders.

The Fund may also hold corporate debt securities (principally as a result of corporate actions or restructuring) such as bonds, debentures and promissory notes which will typically be rated investment grade. They may be of any maturity or duration and may be denominated in a variety of currencies and issued with either fixed or floating rates.

The Fund may also invest in Money Market Instruments, government debt securities, deposits, cash and regulated collective investment schemes, in accordance with the limits set out under the heading FUNDS - Investment Restrictions in the Prospectus. The Fund may invest in new issues but is unlikely to invest in new issues to any significant extent.

Brown Advisory Global Leaders Sustainable Fund

The objective of the Brown Advisory Global Leaders Sustainable Fund (the “Fund”) is to achieve capital appreciation by investing primarily in global equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in global equity securities. The Fund also will, under normal market conditions: (1) invest at least 40% of its net assets outside the United States (including Emerging Market Countries) which may be reduced to 30% if market conditions are not favourable, and (2) hold securities of issuers located in at least three countries. The Fund determines whether a company is considered to be located outside the United States by considering whether: (i) it is organised under the laws of, or maintains its principal office in, a country located outside the United States; (ii) its securities are principally traded on trading markets in countries located outside the United States; (iii) it derives at least 50% of its total revenue or profits from either goods produced or services performed or sales made in countries located outside the United States; or (iv) it has at least 50% of its assets in countries located outside the United States. The Fund integrates socially responsible investment screens and risk-based analysis into the portfolio construction process. The equity securities in which the Fund may invest include common stock, preferred stock, ADRs and GDRs and the Fund may also invest in CIS (including, ETFs) subject to the limits set out in the Prospectus. The equity securities in which the Fund may invest will be issued by mid- and large capitalisation companies generally with market capitalizations above \$2 billion at the time of purchase that the Fund’s Sub-Investment Manager believes have strong, or improving, long-term business characteristics and share prices that do not reflect these favorable fundamental attributes.

In addition, the equity securities in which the Fund may invest will include the equity securities of companies that the Sub-Investment Manager believes are leaders within their industry or country as demonstrated by an ability to deliver high relative return on invested capital over time. This typically can be attributable to, among other things, a strong competitive position and a defensible barrier to entry (such as high start-up costs or other obstacles that prevent competitors from easily entering an industry).

BROWN ADVISORY FUNDS PLC

GENERAL INFORMATION (continued)

Brown Advisory Global Leaders Sustainable Fund (continued)

The Fund may invest in P-Notes in order to gain exposure to securities and markets in India which may not be efficiently accessed through direct investment. The Fund may also use forward foreign exchange contracts to hedge currency foreign exchange risks arising from Hedged Share Classes. In addition, the Fund may also invest in US treasury bills, fixed and/or floating rate US government securities, subject to the limits set out in the Prospectus.

The Fund's exposure to below Investment Grade debt securities will not exceed 10% of its NAV.

All securities invested in will be listed or traded on the markets and exchanges listed in Appendix 1 of the Prospectus.

BA Beutel Goodman US Value Fund

The objective of the BA Beutel Goodman US Value Fund (the "Fund") is to achieve capital appreciation by investing primarily in US equities.

The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of US mid-cap and large-cap companies, which the Sub-Investment Manager considers to be those with market capitalisations greater than \$5 billion at the time of purchase. All securities invested in will be listed or traded on the Regulated Markets listed in Appendix 1 of the Prospectus.

The Fund may invest a significant portion of its assets in the securities of a single issuer or small number of issuers.

Equity securities in which the Fund may invest include common and preferred stock, ADRs and real estate investment trusts (REITs). The Fund may invest in CIS (including ETFs but excluding US ETFs) that have an investment objective similar to the Fund's or that otherwise are permitted investments with the Fund's investment policies described herein. ADRs are equity securities traded on US securities exchanges, which are generally issued by banks or trust companies to evidence ownership of foreign equity securities. The Fund may invest up to 20% of its net assets in non-US securities.

The Fund may also invest in Money Market Instruments, government debt securities (such as bonds, debentures and promissory notes), deposits, cash and regulated CIS, in accordance with the limits set out under the heading FUNDS - Investment Restrictions in the Prospectus. The Fund may invest up to 10% of its net assets in new issues but is unlikely to invest in new issues to any significant extent.

Brown Advisory Global Sustainable Total Return Bond Fund (GBP)

The investment objective of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) (the "Fund") is to target a positive total return (comprising current income and capital gains) above the Bank of England's SONIA Compounded Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDI's and currencies. The Fund is not constrained by any benchmark.

The Fund promotes environmental and social characteristics, as described under "ESG and Sustainable Investments Promotion and Integration of Sustainability Risks" section of the Prospectus, by investing directly or through the use of FDI's, in a variety of corporate and/or sovereign issued fixed-income securities and FDI's in order to achieve the Fund's investment objective.

The Fund may invest in securities of any credit rating quality, including Non-Investment Grade securities. The Fund's investments will be comprised principally of In-Scope ESG Investments, a substantial portion of which will be Sustainable Investments.

The Fund is primarily invested in global fixed-income securities denominated in Pounds Sterling or hedged back to Pounds Sterling. The Fund may enter into to be announced ("TBA") transactions to purchase mortgage-related securities (MBS and CMBS) for a fixed price at a future date.

The Fund may invest substantially in deposits with credit institutions during periods of high market volatility.

BROWN ADVISORY FUNDS PLC**GENERAL INFORMATION (continued)****Brown Advisory Global Sustainable Total Return Bond Fund (GBP) (continued)**

The Fund may use FDIs with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently. The Fund may employ short positions in interest rate FDIs, currency FDIs and credit FDIs either to hedge other long exposures in the portfolio or as part of a 'relative value' trade whereby there would be a similar long position. There will be no outright short positions.

Brown Advisory Global Sustainable Total Return Bond Fund (USD)

The investment objective of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) (the "Fund") is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York Secured Overnight Financing Rate (SOFR) Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark.

The Fund promotes environmental and social characteristics, as described under "ESG and Sustainable Investments Promotion and Integration of Sustainability Risks" section of the Prospectus, by investing directly or through the use of FDIs, in a variety of corporate and/or sovereign issued fixed-income securities and FDIs in order to achieve the Fund's investment objective. The Fund may invest in securities of any credit rating quality, including Non-Investment Grade securities. The Fund's investments will be comprised principally of In-Scope ESG Investments, a substantial portion of which will be Sustainable Investments.

The Fund is primarily invested in global fixed-income securities denominated in U.S. Dollars or hedged back to U.S. Dollars. The Fund may enter into to be announced ("TBA") transactions to purchase mortgage-related securities (MBS and CMBS) for a fixed price at a future date.

The Fund may invest substantially in deposits with credit institutions during periods of high market volatility.

The Fund may use FDIs with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently. The Fund may employ short positions in interest rate FDIs, currency FDIs and credit FDIs either to hedge other long exposures in the portfolio or as part of a 'relative value' trade whereby there would be a similar long position. There will be no outright short positions.

Brown Advisory US Sustainable Value Fund

The investment objective of the Brown Advisory US Sustainable Value Fund (the "Fund") is to achieve capital appreciation by investing primarily in U.S. equities.

The Fund aims to achieve its investment objective by investing in the equity securities of undervalued high-quality large-sized companies which are listed or traded on the U.S. markets and exchanges listed in Appendix I of the Prospectus. The Fund invests primarily in a concentrated low turnover portfolio of undervalued U.S.-based companies that the Investment Manager believes possess the following fundamentals: (i) have durable free cash flow streams; (ii) exhibit capital discipline through both balance sheet management and capital expenditures; (iii) are run by management teams that have a proven and capable capital allocation track record; and (iv) are attractively valued and provide a favourable reward vs. risk outlook.

The Fund promotes certain environmental and social characteristics and, as a result, the companies in which the Fund invests must satisfy the Investment Manager's ESG requirements (as described in Prospectus).

The Fund will aim to maintain a concentrated portfolio, typically consisting of up to forty-five (45) companies. However, the Fund reserves the right to hold a less concentrated portfolio should the Investment Manager regard it as being in the interests of Shareholders.

The Fund will invest primarily in large companies characterised by market capitalisation of \$3 billion and greater at the time of purchase. The market capitalisations of the companies in the Fund's portfolio will change over time; the Fund will not automatically sell or cease to purchase stock of a company it already owns just because the company's market capitalisation grows or falls outside this range.

BROWN ADVISORY FUNDS PLC

GENERAL INFORMATION (continued)

BA Beutel Goodman World Value Fund

The investment objective of the BA Beutel Goodman World Value Fund (the “Fund”) is to achieve capital appreciation by investing primarily in global equities.

The Fund aims to achieve its investment objective by investing at least 80% of its NAV in equity securities of global mid-cap and large-cap companies from anywhere in the world, which the Sub-Investment Manager considers to be those with market capitalisations greater than \$5 billion at the time of purchase. The Sub-Investment Manager expects a majority of investee companies to be based in the U.S., the EU, the U.K., as well as developed Asia-Pacific, Japan, and other jurisdictions. The Fund intends to limit exposure to securities of companies in Emerging Markets to 10% of its NAV, calculated at the time of purchase.

The Fund promotes certain Sustainability Characteristics through its investment selection and ongoing monitoring processes. The Fund focusses on the promotion of such Sustainability Characteristics at a portfolio level and does not commit to making Sustainable Investments.

The Fund may invest a significant portion of its assets in the securities of a single issuer or small number of issuers. Equity securities in which the Fund may invest include common stock, preferred stock, ADRs, GDRs, REITs. The Fund may also invest in Money Market Instruments, government debt securities (such as bonds, debentures and promissory notes), deposits, commercial paper, cash, recently issued transferable securities (including Rule 144A Securities).

Brown Advisory Global Sustainable Income Bond Fund (GBP)

The investment objective of the Brown Advisory Global Sustainable Income Bond Fund (GBP) (the “Fund”) is to produce income over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is actively managed and is not constrained by any benchmark.

The Fund invests directly, or through the use of FDIs, in a variety of corporate and/or sovereign issued fixed-income securities in order to achieve the Fund’s investment objective, dynamically allocating across asset classes and geographies in order to deliver on this income focus through the economic cycle to produce an optimised level of attractive risk-adjusted returns. The Fund may invest in all of the types of fixed-income securities set out under Fixed-Income Funds in the Prospectus. The Fund may invest in securities of any credit rating quality, including Non-Investment Grade securities.

The Fund promotes certain Sustainability Characteristics through its investment selection and ongoing monitoring processes. In addition, the Fund commits to investing a proportion of its NAV in Sustainable Investments.

The Fund is primarily invested in global fixed-income securities denominated in Pounds Sterling or hedged back to Pounds Sterling. The Fund may enter into to be announced (“TBA”) transactions to purchase mortgage-related securities (MBS and CMBS) for a fixed price at a future date.

With the exception of permitted investment in non-publicly traded securities, all securities invested in will be listed or traded on the markets or exchanges listed in Appendix I of the Prospectus.

The Fund will not invest in Russian or Indian markets but may invest in Chinese markets through Bond Connect, as further described in the Prospectus under Fixed Income Funds - Investment in Eligible Fixed-Income Securities in China.

The Fund may invest substantially in deposits with credit institutions during periods of high market volatility.

The Fund may use FDIs with the aim of making investment gains in line with the Fund’s objective, to reduce risk or to manage the Fund more efficiently. The Fund may employ short positions in interest rate FDIs, currency FDIs and credit FDIs either to hedge other long exposures in the portfolio or as part of a ‘relative value’ trade whereby there would be a similar long position. There will be no outright short positions.

BROWN ADVISORY FUNDS PLC**GENERAL INFORMATION (continued)****BA Global Multi-Asset Growth Fund**

The investment objective of the BA Global Multi-Asset Growth Fund (“the Fund”) is to seek long-term growth of capital by investing in a diversified portfolio of assets.

The Fund will seek to achieve its objective by investing directly and indirectly through investment in CIS, in a range of asset classes including equity securities, fixed income securities and alternative investments.

The Fund's base currency is Pound Sterling (“GBP”) and, while holdings within the Fund may be denominated in a range of currencies, the aggregate FX exposure of the Fund will be typically 40% to 60% GBP. The Fund will “hedge” certain securities or CIS denominated in currencies other than GBP to achieve the desired GBP exposure. FX forward contracts will be used for currency hedging purposes.

The equity exposure of the Fund will be obtained by investing in equity CIS (including UCITS ETFs), equities and equity related securities which may include common stock, preferred stock, ADRs and GDRs. ADRs are equity securities traded on U.S. securities exchanges, which are generally issued by banks or trust companies to evidence ownership of foreign equity securities. GDRs are the non-U.S. equivalents of ADRs.

The fixed income exposure of the Fund will be obtained mainly by investing in CIS, and the underlying investments will comprise principally bonds and notes (fixed and floating rate) and commercial paper bonds issued by governments, government agencies, companies and supranationals (which may be rated either Investment Grade or Non-Investment Grade), MBS, ABS, convertible securities (including CoCos) and Rule 144A Securities.

The alternatives exposure of the Fund will be obtained mainly by investing in equity securities of publicly listed companies (which may be structured as closed ended funds) that themselves invest in private equity, private infrastructure and real estate and CIS that provide exposure to absolute return strategies, or commodities. It is expected that the alternatives exposure of the Fund will be in the region of 15% of the NAV of the Fund and the maximum exposure of the Fund to alternatives is 25% of the NAV of the Fund.

The Fund may invest up to 100% of its NAV in units or shares of CIS for the purposes of gaining exposures to portfolio investments. The maximum level of management fees (exclusive of any performance fee) which may be charged by a CIS in which the Fund invests is 3% per annum of the NAV of that CIS.

The Fund may also retain amounts in cash or cash equivalents (including but not limited to deposits, Money Market Instruments (such as gilts, fixed and/or floating rate U.K. government securities, and short-term debt obligations listed or traded on regulated markets)) pending reinvestment, or for ancillary liquidity purposes or margin requirements in connection with the Fund's investments in FDIs.

With the exception of permitted investment in unlisted securities and in units or shares of CIS, all securities invested in will be UCITS eligible transferable securities, listed or traded on the markets and exchanges listed in Appendix 1 of the Prospectus.

Brown Advisory US Value Fund

The objective of the Brown Advisory US Value Fund (“the Fund”) is to achieve capital appreciation by investing primarily in U.S. equities.

The Fund aims to achieve its investment objective by investing in the equity securities of undervalued high-quality large-sized companies which are listed or traded on the U.S. markets and exchanges listed in Appendix I of the Prospectus. The Fund invests primarily in a concentrated low turnover portfolio of undervalued U.S.-based companies that the Investment Manager believes possess the following fundamentals: (i) have durable free cash flow streams; (ii) exhibit capital discipline through both balance sheet management and capital expenditures; (iii) are run by management teams that have a proven and capable capital allocation track record; and (iv) are attractively valued and provide a favourable reward vs. risk outlook.

The Fund promotes certain Sustainability Characteristics through its investment selection and ongoing monitoring processes. In addition, the Fund commits to investing a proportion of its NAV in Sustainable Investments.

BROWN ADVISORY FUNDS PLC**GENERAL INFORMATION (continued)****Brown Advisory US Value Fund (continued)**

The equity securities in which the Fund may invest include common stock, preferred stock, U.S. Rule 144A Securities (subject to a limit of 10% of NAV), ADRs, and GDRs. ADRs are equity securities traded on U.S. securities exchanges, which are generally issued by banks or trust companies to evidence ownership of foreign equity securities. GDRs are the non-U.S. equivalents of ADRs. In addition, the Fund may also invest in Money Market Instruments including U.S. treasury bills and fixed and/or floating rate U.S. government securities subject to the limits set out in the Prospectus.

The Fund will aim to maintain a concentrated portfolio, typically consisting of up to forty-five (45) companies. However, the Fund reserves the right to hold a less concentrated portfolio should the Investment Manager regard it as being in the interests of Shareholders.

The Fund will invest primarily in large companies characterised by market capitalisation of \$3 billion and greater at the time of purchase. The market capitalisations of the companies in the Fund's portfolio will change over time; the Fund will not automatically sell or cease to purchase stock of a company it already owns just because the company's market capitalisation grows or falls outside this range.

Dividend Policy

The constitution comprising the memorandum and articles of association of the Company (the "Constitution") empowers the Directors to declare dividends out of the profits of the relevant Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund. The Directors may satisfy any dividend due to Shareholders in whole or in part by distributing to them in specie any of the assets of the relevant Fund.

A Shareholder may require the Company instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the Shareholder of the net proceeds of same.

For UK taxpayers to benefit from capital gains tax treatment on the disposal of their holdings of Shares, that share class must be certified as a "reporting fund". Very broadly, a share class must report all its income to investors each year in order to continue to be certified as a "reporting fund".

Each share class is an "offshore fund" for the purposes of the UK Offshore Funds (Tax) Regulations 2009 (SI 2009/3001). Under these regulations, the basic position is that any gain arising on the sale, redemption or other disposal of shares in an offshore fund held by persons who are resident or ordinarily resident in the UK for tax purposes will be taxed at the time of that sale, disposal or redemption as income and not as a capital gain. This income tax treatment does not apply, however, where a share class is certified by HMRC as a "reporting fund" (and, where relevant, a "distributing fund" (the predecessor to the reporting fund regime)) throughout the period during which the investor holds the shares. The following share classes have been granted "reporting fund" status by the HMRC with effect from the following dates:

BROWN ADVISORY FUNDS PLC

DIRECTORS' REPORT

The Directors have pleasure in submitting their nineteenth annual report together with the audited financial statements for Brown Advisory Funds plc (the "Company") for the year ended 31st October, 2025 and comparatives for the year ended 31st October, 2024.

The Company is organised in the form of an umbrella fund with segregated liability between each of the seventeen sub-funds listed on page 4 (the "Funds") available for investment.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial of the Company and of its increase in net assets attributable to holders of redeemable participating shares for that year.

In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements are prepared in accordance with the applicable accounting framework and comply with the provisions of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Investment Managers' website. Legislation in the Republic of Ireland concerning the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Directors' Compliance Statement

The Company is required to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

BROWN ADVISORY FUNDS PLC

DIRECTORS' REPORT (continued)

Audit Committee

The Board of Directors decided it was not necessary to constitute an audit committee given the frequency of the meetings of the Board of Directors throughout the year and given the size of the Board of Directors.

Accounting records

To ensure that adequate accounting records are kept in accordance with Section 281 of the Companies Act 2014, the Directors of the Company have employed a service organisation, Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"). The accounting records are located at the offices of the Administrator as stated within Management and Administration section of this document.

Directors

The names of the persons who served as Directors at any time during the year ended 31st October, 2025 are set out below:

David M. Churchill (Chairman, US Resident)*
Brett D. Rogers (US Resident)
Mary Canning (Irish Resident)**
Adrian Waters (Irish Resident)**
Barbara Healy (Irish Resident)**

*Non-Executive Director

**Independent Non-Executive Directors

Directors' and Company Secretary's Interests

None of the Directors, the Company Secretary, or their families hold or held any beneficial interests in the Company at 31st October, 2025, other than those stated in Note 17 (2024: US\$Nil).

Transactions Involving Directors

There are no contracts or arrangements of any significance in relation to the business of the Company, other than those stated in Note 14 and Note 17 to the financial statements, in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 at any time during the year ended 31st October, 2025.

Results, Activities and Future Developments

A review of the principal activities is included in the Investment Manager's Report.

Details of the assets, liabilities and financial position of the Company and results for the year ended 31st October, 2025 are set out on pages 172 to 198. The Net Assets of the Company Attributable to Holders of Redeemable Participating Shares (at last traded prices) as at 31st October, 2025 were US\$14,376,781,337 (31st October, 2024: US\$14,217,880,644).

The Company will continue to pursue its investment objectives as set out in the Prospectus.

Risk Management Objectives and Policies

The main risks arising from the Company's financial instruments are market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk, as set out in Note 16 on pages 314 to 349.

BROWN ADVISORY FUNDS PLC

DIRECTORS' REPORT (continued)

Connected Persons

The UCITS Regulations states that, inter alia, any transaction carried out with a UCITS by the management company or depositary, by the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary) and by any associated or group company of these ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the shareholders of the Company.

The Directors of the Manager are satisfied that:

- (i) there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in the UCITS Regulation are applied to all transactions with connected persons; and
- (ii) transactions with connected persons entered into during the period complied with the obligations set out in the UCITS Regulation.

Significant Events During the Year

Significant events during the year are set out in Note 24.

Events Since the Year End

Events since the year end are set out in Note 25.

Corporate Governance Statement

The Irish Funds Industry Association ("Irish Funds") in association with the Central Bank of Ireland (the "Central Bank") has published a corporate governance code (the "Irish Funds Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors has voluntarily adopted the Irish Funds Code as the Company's corporate governance code. The Company has been in compliance with the Irish Funds Code since its adoption.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board of Directors is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. The annual financial statements of the Company are required to be approved by the Board of Directors of the Company and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

The statutory financial statements are required to be audited by independent auditors who report annually to the Board of Directors on their findings.

The Administrator maintains the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time the Board of Directors also examines and evaluates the Administrator's financial accounting and reporting routines and monitors and evaluates the external auditors' performance, qualifications and independence. The Board of Directors evaluates and discusses significant accounting and reporting issues as the need arises.

Dealing with Shareholders

The convening and conduct of shareholders' meetings are governed by the Constitution of the Company. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter.

Shareholders representing not less than one-tenth of the paid up share capital of the Company may also request the Directors to convene a shareholders' meeting.

BROWN ADVISORY FUNDS PLC

DIRECTORS' REPORT (continued)

Dealing with Shareholders (continued)

Not less than twenty one days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to Shareholders and fourteen days notice must be given in the case of any other general meeting unless the auditors of the Company and all the Shareholders of the Company entitled to attend and vote agree to shorter notice.

Two members present either in person or by proxy constitute a quorum at a general meeting provided that the quorum for a general meeting convened to consider any alteration to the class rights of shares is two Shareholders holding or representing by proxy at least one third of the issued shares of the relevant Fund or class.

Every holder of shares present in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of shares present in person or by proxy is entitled to one vote in respect of each share held by him/her. The chairperson of a general meeting of the Company or at least two members present in person or by proxy or any holder or holders of shares present in person or by proxy representing at least one tenth of the shares in issue having the right to vote at such meeting may demand a poll.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company or of the Shareholders of a particular Fund or class requires a simple majority of the votes cast by the Shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company or of the Shareholders of a particular Fund or class requires a majority of not less than 75% of the Shareholders present in person or by proxy and voting in general meeting in order to pass a special resolution including a resolution to amend the Constitution.

Board Composition and Activities

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. As at 31st October, 2025, the Board of Directors of the Company composed of five Directors, being those listed on page 27.

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act or by the Constitution of the Company required to be exercised by the Company in general meeting. The Board of Directors delegated the general management and administration of the Company's affairs to the Manager.

A Director may, and the Company Secretary of the Company on the requisition of a Director will, at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Relevant Audit Information

The Directors in office at the date of this report have each confirmed that:

- as far as he/she is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- he/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Remuneration

In line with the requirements of the UCITS Regulations, the Company has adopted a remuneration policy which is consistent with the principles outlined in the ESMA guidelines on sound remuneration policies under the UCITS Directive and the related questions and answers guidance (the "Remuneration Guidelines"). The remuneration policy is appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities.

Please refer to Appendix 2 – Remuneration Policy.

BROWN ADVISORY FUNDS PLC

DIRECTORS' REPORT (continued)

Independent Auditors

The Independent Auditors, KPMG Ireland, have indicated their willingness to continue in office in accordance with section 383(2) of the Companies Act 2014.

BROWN ADVISORY FUNDS PLC

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS

We have enquired into the conduct of Brown Advisory Funds plc (the “Company”) for the financial year ended 31st October, 2025, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (‘the UCITS Regulations’), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s constitutional documentation and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the constitutional documentation and the appropriate regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the UCITS Regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the constitutional documentation, the UCITS Regulations and the Central Bank UCITS Regulations.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED)**Brown Advisory US Smaller Companies Fund
For the year ended 31st October, 2025**

The objective of the Brown Advisory US Smaller Companies Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc Shares has returned the following net cumulative performance:

- Over the last six months: 12.28% (vs. its comparator benchmark, the Russell 2000 Growth Net Index, of 30.41%)
- Over the last year: 3.52% (vs. its comparator benchmark of 18.61%)
- Over the last 3 years: 20.72% (vs. its comparator benchmark of 48.95%)
- Over the last 5 years: 28.43% (vs. its comparator benchmark of 52.12%)
- Over the last 10 years: 136.38% (vs. its comparator benchmark of 146.39%)
- Since inception on 9th November, 2007: 306.10% (vs. its comparator benchmark of 336.85%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

U.S. equity markets were highly volatile over the last twelve months but ultimately trended higher. Small-cap equities stumbled out of the gate, falling more than 20% early in the period, before rallying significantly off the lows. Companies tied to the buildout of AI, quantum computing, and other speculative themes drove the Russell 2000 Growth Index to the brink of new all-time highs.

During the twelve-month period, the Fund added nineteen new investments and eliminated eighteen. Due to intra-period volatility, we also initiated and exited positions in another six names. Additions and eliminations came across most economic sectors during the period.

2025 has brought the second year of historic concentration of returns in the Russell 2000 Growth Index. That concentration, coupled with strong performance in lower-quality names that generally do not fit our investment philosophy, has created a challenging relative performance backdrop. Our largest contributors in the period were Curtiss-Wright (CW), Mirion Technologies (MIR), and SiTime (SITM) three companies with strong core businesses that also benefited from exposure to AI-related end markets. Two of our largest detractors were companies in childcare services, KinderCare Learning Companies (KLC) and Bright Horizons Family Solutions (BFAM), highlighting the market's bifurcation between names perceived as AI winners and those perceived as AI losers.

Our philosophy and process, anchored in investing in high-quality growth companies trading at reasonable valuations, was the driving force behind our success for nearly 18 years. However, that same orientation has led to relative underperformance over the last 18 months. We have faced episodes of narrow market euphoria before, and while challenging, our focus remains on making sound investment decisions in the best long-term interest of our clients.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Equity Growth Fund
For the year ended 31st October, 2025

The objective of the Brown Advisory US Equity Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Dis Shares has returned the following cumulative net performance:

- Over the last 6 months: 12.10% (vs. its comparator benchmark, the Russell Growth 1000 Net USD of 32.49%)
- Over the last year: 9.79% (vs. its comparator benchmark of 30.29%)
- Over the last 3 years: 64.29% (vs. its comparator benchmark of 121.70%)
- Over the last 5 years: 46.23% (vs. its comparator benchmark of 138.23%)
- Over the last 10 years: 217.12% (vs. its comparator benchmark of 419.02%)
- Since inception on 2nd November, 2009: 622.40% (vs. its comparator benchmark of 1,121.23%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

After a strong start to 2025 from a relative performance perspective, when a broadening market rewarded the Fund's active approach, market dynamics shifted meaningfully following the market lows in April. Investor sentiment became increasingly concentrated around the Artificial Intelligence (AI) theme, which drove a sharp and narrow rebound in the Russell 1000 Growth Index.

While our portfolio has meaningful exposure to AI, our relative underweight to the most speculative momentum-driven parts of the trade was a headwind to performance. Much of the market's gains since April have been concentrated in a handful of names that have become increasingly expensive and are benefiting from short-term enthusiasm around the theme. That said, our exposure to AI is intentional and long-term oriented and we think of our AI investments in three concentric circles: first, semiconductor companies that power AI infrastructure (NVIDIA (NVDA) and Marvell Technology (MRVL)); second, hyperscalers that deploy AI at scale (Google (GOOGL), Microsoft (MSFT), and Amazon (AMZN)); and third, companies that we believe are well-positioned within the AI ecosystem or can leverage AI to strengthen their competitive advantage—such as Cadence Design Systems (CDNS), Generac (GNRC), Intuitive Surgical (ISRG), and Meta Platforms (META).

We have leaned into companies that we believe will strengthen their long-term fundamental opportunity through AI innovation, but do not believe it is prudent to concentrate investor capital solely in AI-related stocks. Market leadership driven by a single theme rarely persists. Our focus remains on building a portfolio of best-in-breed growth companies with durable fundamentals, operating in compelling and expanding end markets. While we believe AI will be a driver of value creation for some companies, many of which we are invested in today, the current enthusiasm has led to stretched valuations and speculative behavior in parts of the market. We will not invest simply in those companies that are merely benefiting from short-term exuberance.

From a sector perspective, stock selection within the Consumer Staples and Real Estate sectors positively contributed to relative performance. Within the Real Estate sector, Costar Group (CSGP) has reported positive recent results and is seeing renewed momentum across its residential (Homes.com) and commercial (CoStar Suite) platforms. Bookings reaccelerated, and the company continues to expand its salesforce and product offerings.

The Information Technology sector was a meaningful absolute contributor to performance during the period, but it was the largest detractor from relative performance. Broadcom (AVGO) was added to the Fund late in the period; however, not owning the position earlier detracted from relative results. In addition, while NVIDIA (NVDA) remained our largest holding at period-end, our underweight position was a headwind to performance as the stock advanced more than 50% over the past twelve months.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Equity Growth Fund (continued)
For the year ended 31st October, 2025

During the period, we added seven new business models to the Fund: Datadog, Inc., Fair Isaac Corporation, Meta Platforms, Trade Desk, DraftKings, Samsara, and Broadcom. Samsara is one of the leading providers of connected operations solutions for the physical economy, serving a large and fragmented market with significant potential for technological modernization. Samsara Inc. is uniquely positioned to drive innovation in sectors that have historically lacked digital infrastructure. We believe the company is entering a compelling phase of product expansion, with meaningful opportunities to broaden its addressable market.

We also exited Adobe, Align Technology, Thermo Fisher Scientific, NXP Semiconductors, and Workday during the period. While Workday remains a leading provider of enterprise solutions for finance and human resource teams, we reallocated capital to what we view as a more compelling growth opportunity in the software space, Samsara.

While the market's narrow leadership since the lows earlier in 2025 and hyperfocus on AI were frustrating, we remain confident in our investment discipline. We do not believe that chasing momentum or concentrating capital in a handful of thematic winners is a sustainable strategy. Our focus continues to be on identifying best-in-breed growth companies across sectors—those with strong fundamentals, differentiated business models, and the ability to navigate evolving market dynamics. The Fund has consistently demonstrated resilience on down days during the period, often outperforming the benchmark when the Russell 1000 Growth has traded down. That resilience is a byproduct of our approach—not its objective—and reflects the quality and durability of the businesses we own. In a market that can shift quickly, as it did earlier this year, we believe that maintaining diversification across business models and end markets is essential to delivering strong results over time.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Small Cap Blend Fund
For the year ended 31st October, 2025

The objective of the Brown Advisory US Small Cap Blend Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc Shares has returned the following cumulative net performance:

- Over the last six months: 13.17% (vs. its comparator benchmark, the Russell 2000 Net Index, of 26.85%)
- Over the last year: 3.68% (vs its comparator benchmark of 13.98%)
- Over the last 3 years: 25.09% (vs. its comparator benchmark of 38.55%)
- Over the last 5 years: 54.07% (vs. its comparator benchmark of 69.06%)
- Over the last 10 years: 116.26% (vs. its comparator benchmark of 135.28%)
- Since inception on 8th July, 2013: 164.70% (vs. its comparator benchmark of 176.70%)

Small-Cap Growth (50%)

U.S. equity markets were highly volatile over the last twelve months but ultimately trended higher. Small-cap equities stumbled out of the gate, falling more than 20% early in the period, before rallying significantly off the lows. Companies tied to the buildout of AI, quantum computing, and other speculative themes drove the Russell 2000 Growth Index to the brink of new all-time highs.

During the twelve-month period, the Fund added nineteen new investments and eliminated eighteen. Due to intra-period volatility, we also initiated and exited positions in another six names. Additions and eliminations came across most economic sectors during the period.

2025 has brought the second year of historic concentration of returns in the Russell 2000 Growth Index. That concentration, coupled with strong performance in lower-quality names that generally do not fit our investment philosophy, has created a challenging relative performance backdrop. Our largest contributors in the period were Curtiss-Wright (CW), Mirion Technologies (MIR), and SiTime (SITM) three companies with strong core businesses that also benefited from exposure to AI-related end markets. Two of our largest detractors were companies in childcare services, KinderCare Learning Companies (KLC) and Bright Horizons Family Solutions (BFAM), highlighting the market's bifurcation between names perceived as AI winners and those perceived as AI losers.

Our philosophy and process, anchored in investing in high-quality growth companies trading at reasonable valuations, was the driving force behind our success for nearly 18 years. However, that same orientation has led to relative underperformance over the last 18 months. We have faced episodes of narrow market euphoria before, and while challenging, our focus remains on making sound investment decisions in the best long-term interest of our clients.

Small-Cap Fundamental Value (50%)

The Brown Advisory Small-Cap Fundamental Value strategy was up for the trailing twelve-month period, but lagged relative to its benchmark, the Russell 2000® Value Index. Small-cap equities were highly volatile in the period, which included a significant drawdown, followed by a rally that pushed the Russell 2000 Value Index to all-time highs. Donald Trump's re-election and tariff policies dominated the first half of the period, while the latter half rally was fueled by enthusiasm around artificial intelligence. The subsequent rally from the April lows was driven by strong returns in lower-quality factors, with non-earners, highly shorted stocks, and the highest-beta names all meaningfully outperforming the broad index, a challenging backdrop for our investment style.

During the twelve-month period, the Small-Cap Fundamental Value Fund added sixteen new investments and exited twenty investments. New and eliminated investments were diversified across most sectors.

A notable addition was our new investment in Cushman & Wakefield (CWK), a global commercial real estate broker. Even in a depressed real estate environment, the business generated significant levels of free cash flow. Over the past several years, new leadership has refocused the organization to kick-start growth in their real estate services business and to deleverage the balance sheet. We believe these actions will narrow the significant valuation spread between the modest valuation for CWK and its peers.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Small Cap Blend Fund (continued)
For the year ended 31st October, 2025

Small-Cap Fundamental Value (50%) (continued)

Talen Energy Corp (TLN), which was noted in our semi-annual update as well, continued to be one of the top contributors to performance. The company has executed well after recently announcing the expansion of their long-term agreement with Amazon to purchase power from their Susquehanna Nuclear site and the acquisition of two natural gas power assets. We believe the company is proving to the market that with a more significantly contracted earnings stream, it now warrants a higher multiple and has re-rated.

At the end of the period, small cap investors were facing a number of challenges, including an economy that is relatively stagnant outside of the growth driven by Capex spend on AI and data centers. The market remains bifurcated: companies and subsectors with exposure to the AI infrastructure buildout continue to appreciate and command increasingly higher multiples, while those with broader commercial exposure have experienced business weakness and corresponding share price and valuation contraction.

We remain committed to our process and philosophy which attempts to identify attractively priced, high free cash flow (FCF) small-cap companies with management teams committed to using capital allocation to drive shareholder value.

Brown Advisory LLC
November, 2025

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Flexible Equity Fund
For the year ended 31st October, 2025

The objective of the Brown Advisory US Flexible Equity Fund is capital appreciation over the long-term. The net asset value of the Dollar Class B Acc Shares has returned the following cumulative net performance:

- Over the last six months: 12.05% (vs. its comparator benchmark, the S&P 500 Net of 23.37%)
- Over the last year: 10.02% (vs. its comparator benchmark of 20.98%)
- Over the last 3 years: 74.68% (vs. its comparator benchmark of 82.20%)
- Over the last 5 years: 97.01% (vs. its comparator benchmark of 120.34%)
- Over the last 10 years: 242.47% (vs. its comparator benchmark of 271.89%)
- Since inception on 7th March, 2014: 282.20% (vs. its comparator benchmark of 321.41%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The S&P 500 Index is up 12.1% over the last six months, 21.0% over the last twelve months, and 82% during the last 3 years. These are spectacular returns especially in the context of long-term returns of the U.S. equity markets. Enthusiasm for Artificial Intelligence (AI) stocks, prospects of lower short-term rates, better-than-expected earnings despite tariff uncertainty, and general upward momentum continues to drive U.S. equity markets higher.

Up until 30th June, 2025, the Fund has had solid returns both on an absolute and a relative basis. However, that did not hold true for Q3 2025, especially on a relative basis. The Fund's returns are not down; rather, the market is up more, recently. Lagging the market has happened before and is inevitable with active management from time to time. That the size of the lag drags down the typical favorable long-term comparison to the market result has also happened before. And the Fund's results come back strongly in past episodes. We've done so not because we change dramatically what we are doing or our holdings, but because we are consistent in the disciplines we emphasize in building portfolios and tweak things that need resetting as we learn. When the markets' enthusiasm wanes for the highest flyers, our steadiness in selection can be rewarded quickly on the relative and even absolute basis. The part of the economy that appears to be operating in overdrive—and could become a source of concern in the future—is the flood of massive investments into anything related to AI. Investors seem to be overweighting growth opportunities, showing less concern for the long-term economics and return potential of these investments.

Not owning stocks in the Materials sector was a positive contributor to relative performance during the period. The Fund's limited exposure to the Real Estate sector positively contributed to relative performance, as well. Additionally, Consumer Staples and Energy were positive relative contributors. Communications Services had a higher weighting than the Index and slightly outperformed the Index. Information Technology was the top contributing sector to absolute returns during the period, driven by Microsoft (MSFT) and Apple (AAPL). Financials, Information Technology and Health Care detracted from the return as compared to the Index. Fiserv (FI) and KKR & Co. (KKR) in financials were among the most significant detractors to return.

We added five new investments and eliminated seven since our annual report to shareholders.

The prospects of making excess returns in SBA Communications (SBAC) have diminished due to the higher interest rate environment and slower top-line growth caused by Sprint churn. We used the process from SBA Communications to fund our investment in KLA Corp (KLAC). KLA Corp dominates multiple segments of the semiconductor manufacturing industry with advanced process control solutions, maintaining a strong market presence and industry-leading profitability through exceptional gross and operating margins. We sold SBAC to buy KLAC. Marvell Technology (MRVL) is a key partner for hyperscalers, providing connectivity chips and custom ASIC solutions, with its Data Center business benefiting from AI-driven growth, despite recent stock declines that present an attractive risk/reward opportunity. We reallocated capital from CarMax, Inc. (KMX) to purchase Marvell Technology. CarMax Inc has struggled to grow earnings due to a tough macro environment and higher competition.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)**Brown Advisory US Flexible Equity Fund (continued)****For the year ended 31st October, 2025**

Mondelez International Inc. (MDLZ) remains a strong business despite short-term pressures from rising cocoa prices and shifting consumer trends toward healthier food, presenting a compelling investment opportunity in high-growth emerging markets. We used the proceeds from Blackstone Inc. (BX) to fund our investment in Mondelez International Inc. We believe Blackstone Inc. has been a phenomenal investment, yielding nearly 4x our initial investment. The multiple increased and we chose to allocate the capital to an “unloved” opportunity. Old Dominion Freight Line (ODFL) is a leading LTL carrier with a strong history of growth, profitability, and shareholder value creation, currently facing a cyclical downturn that presents an attractive buying opportunity.

We sold Baker Hughes (BKR) to fund the purchase of ODFL. BKR has been a good investment. We bought the stock when there was skepticism related to growth and execution. An improved business is now being priced in. We also exited Fiserv (FI) during the period. Fiserv disappointed investors with reduced guidance, following revenue and margin guidance cuts in the prior quarter. Management says prior guidance included overly optimistic assumptions across the business, including outsized volume growth, record sales and aggressive productivity improvements. We exited the position as we lost faith in how the business was being managed.

The recent past has been challenging from a relative performance perspective as ‘momentum’ has been driving benchmark performance. This phenomenon has been exacerbated by flows into the Index and thematic ETFs with little regard for valuation. Our investment philosophy of seeking ‘value’ is somewhat antithesis of momentum. Now more than ever, we are unafraid to look different than the benchmark.

We always close our commentaries with the following statement to remind our clients and ourselves of what we do as investors and what to expect over time.

The Flexible Equity team searches for investment bargains among long-term attractive businesses with shareholder-oriented managers – those with productive assets and productive managers. These businesses should have or develop competitive advantages that result in good business economics, managers who allocate capital well, capacity to adjust to changes in the world and the ability to grow business value over time. Bargains in these types of stocks can arise for various reasons, but are often due to short-term investor perceptions, temporary business challenges that will improve, company or industry changes for the better or as-yet-unrecognized potential for long-term growth and development. Despite the occasional investment that will go awry, and stretches when the general stock market, or our investment selection, is unrewarding, we are optimistic about the long-term outlook for equities of good businesses purchased at reasonable prices and our ability to find them.

Brown Advisory LLC
November, 2025

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****Brown Advisory Global Leaders Fund****For the year ended 31st October, 2025**

The objective of the Brown Advisory Global Leaders Fund is capital appreciation over the long term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last six months: 11.06% (vs. its comparator benchmark, the MSCI All Country (AC) World Index of 21.58%)
- Over the last year: 15.15% (vs. its comparator benchmark of 22.64%)
- Over the last 3 years: 75.55% (vs. its comparator benchmark of 79.96%)
- Over the last 5 years: 85.99% (vs. its comparator benchmark of 97.74%)
- Over the last 10 years: 220.18% (vs. its comparator benchmark of 192.08%)
- Since inception on 1st May, 2015: 225.30% (vs. its comparator benchmark of 176.96%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The reporting period was marked by two distinct market environments. The first six month saw disruption and uncertainty surrounding the new U.S. administration, the immediate implementation of tariff announcements and the longer-lasting impact on global demand. The portfolio delivered positive absolute performance in this environment (in USD), meaningfully outperforming the benchmark. This type of downside protection has been a characteristic of the strategy since inception, as well as during significant corrections such as Covid. Whilst this is an outcome rather than a specifically managed ratio, it derives from an investment process focused on the selection of quality companies, complemented by a capital allocation framework that seeks to reduce clients' risk of permanent loss of capital. Starting in the second quarter, driven by a narrow and thematic (AI) rally, the portfolio did well in absolute terms but did not keep up on a relative basis, leaving it trailing the benchmark. We are of the opinion that there are only very few true sources of alpha in global equity investing and for us these are time-arbitrage and strong process management, enhanced with a deep understanding of human behavior. During the volatile first months of 2025 this meant recalibrating our company estimates in an environment of fast changing geopolitical and macro risk, during the rest of the reporting period this meant maintaining strong valuation discipline while scavenging the universe for new investment opportunities.

Over the past 3 years (to 31st October, 2025) Global Leaders Fund compounded 20.63% p.a. for a total return after fees of 75.55%, despite our underweight to both the Mag7 and to the U.S. This period essentially covers market performance since the launch of ChatGPT to the public during the fourth quarter 2022. At the same time, the MSCI ACWI Net Total Return Index has been up just under 80% in total, compounding at 21.64% p.a. This is quite unusual but not unique in our investment experience. It is rarely sustained. We would caution projecting these recent returns into the future. Nonetheless, we do believe that if we continue to deliver annualised net returns of 10% or more (our underwriting hurdle and the absolute returns achieved since inception), our investors should benefit from attractive absolute and relative long-term returns.

With 32 investments, we are currently positioned at the lower end of the strategy's target range of 30 to 40 investments. This range is deliberately chosen to enable the deep research necessary to focus on high-conviction ideas, with investment selection serving as the primary driver of both risk and return in this strategy. We do not expect to drive alpha from estimating trends. We are concentrating on idiosyncratic, stock-specific risks to ensure the portfolio remains focused on its best ideas. We believe genuine alpha generation comes from taking stock-specific risk.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Global Leaders Fund (continued)
For the year ended 31st October, 2025

The portfolio experienced strong, positive contributions from its three largest sector exposures: Financials, Information Technology, and Industrials. Within Industrials, investments in commercial aerospace—specifically through GE Aerospace and Safran—continued to add meaningfully to performance. On a relative basis, underperformance was driven by Financials and Information Technology, as well as Health Care. Not owning AI winners from OpenAI's enormous pre-commitments to future spending such as NVIDIA, Oracle, Broadcom and others who's share prices performed remarkably well meant that cumulatively our underweights were the largest drag. We have researched many of these "AI winners" and whilst we admire the franchise quality at several of them, our reticence is what we perceive to be a hefty price required today to access those future cash flows driving down potential IRRs. Within Financials, underperformance was driven primarily by developed market Financial Market Infrastructure companies, particularly the London Stock Exchange Group, which we have high conviction in. Relative underperformance in financials was exacerbated by companies which we do not typically invest in, strong performance of asset heavy and often low Return on Equity (RoE) and low Return on Asset (RoA) developed market banks, which are not owned in the portfolio.

The Fund exited six companies during the reporting period, initiated positions in three, and bought and sold one healthcare investment within an unusually short holding period of less than six months. During the market correction in April, we added Experian, a leading global data and analytics business. In September, we invested in Workday, a cloud-based human capital and resource management software company when we saw the indiscriminate sell-off of companies perceived to be at risk from AI disintermediation as an opportunity to achieve attractive long-term IRRs. We further changed our exposure to the highly attractive Indonesian banking sector by swapping our holding in the state-owned Bank Rakyat for a position in the leading private Indonesian bank, Bank Central Asia. Among the companies exited were two of our more recently initiated healthcare investments—Coloplast and Illumina—which were added post-COVID. Healthcare remains the only sector with a negative contribution since the inception of the strategy. We reviewed our exited healthcare investments during after-action reviews and challenged our investment process at this year's annual offsite. There are specific areas of potential risk within healthcare on which we need to focus: (1) pricing power (or lack thereof), (2) relative competitive advantages among competitors, and (3) the role healthcare plays in a diversified, global quality portfolio, by adding non-deferrable demand. In this context, we reflected on the threat of substitutes as part of Michael Porter's "Five Forces," which is incorporated into our research process for every new investment. We believe there is a risk for quality-oriented investors to overly focus on economic moats. Barriers to entry are only one of the forces that can shape long-term value creation in an industry. In a fast-paced world, we believe that substitutes are both opportunities and threats for our companies. Against this backdrop, continually questioning company and industry developments remains crucial.

Since day one of the Global Leaders strategy, we have sought high-quality companies with superior customer outcomes that we believe are able to pass on prices and generate high levels of recurring revenue while requiring low leverage. We believe that by investing in these companies and allowing their economics to compound over long periods, we can generate attractive returns for our investors.

Brown Advisory Limited
November, 2025

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****Brown Advisory US Mid-Cap Growth Fund****For the year ended 31st October, 2025**

The objective of the Brown Advisory US Mid-Cap Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last six months: 15.76% (vs. its comparator benchmark, the Russell Mid-Cap Growth Net USD, of 17.11%)
- Over the last year: 11.37% (vs. its comparator benchmark of 19.39%)
- Over the last 3 years: 53.01% (vs. its comparator benchmark of 70.33%)
- Over the last 5 years: 42.05% (vs. its comparator benchmark of 68.16%)
- Since inception on 3rd April, 2017: 143.90% (vs. its comparator benchmark of 189.05%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

U.S. equities generally trended higher over the past twelve months. The market remained bifurcated: companies tied to AI and the data center capex cycle delivered strong, accelerating results, while those more exposed to the core economy experienced stable or modestly weakening fundamentals. Performance was concentrated in the largest companies, with the Russell 200 Growth Index outperforming the Russell 2000 Growth Index by 12 percentage points. Growth indices broadly outpaced Value, as the Mid-Cap Growth Index exceeded the Mid-Cap Value Index by roughly 12 percentage points. Over the same period, the 10-year Treasury yield declined 19 basis points to 4.09%, and oil prices fell 11%.

The Fund primarily invests in high-quality, reasonably valued U.S. mid- and small-cap companies with market capitalizations between \$2 billion and \$50 billion. It underperformed its benchmark during the period, largely because it did not hold Palantir—a stock that gained over 200% and exited the Russell Mid-Cap Growth Index in June with a market capitalization near \$325 billion and a valuation exceeding 70x sales. From an attribution standpoint, the absence of Palantir resulted in a significant shortfall in the Technology sector due to stock selection. Palantir alone contributed nearly 7 percentage points to the Russell Mid-Cap Growth Index's 19% return over the twelve-month period.

Top contributors during the period included Vistra (VST), Roblox (RBLX), Comfort Systems (FIX), Alnylam (ALNY), and Pure Storage (PSTG). Independent power producer Vistra, mechanical and electrical contracting provider Comfort Systems, and flash storage company Pure Storage are all benefiting from a significant data center build cycle. Hyperscalers are investing hundreds of billions of dollars annually to expand data center capacity for AI applications. Roblox's two-sided gaming platform continues to gain share, supported by stronger engagement and operating leverage driven by improved search algorithms and recent hit titles. Third-party data indicates bookings remain strong despite tougher year-over-year comparisons.

Top detractors during the period included Chipotle (CMG), DraftKings (DKNG), Dexcom (DXCM), Gartner (IT), and The Trade Desk (TTD). Shares of Chipotle, The Trade Desk, and Gartner declined as investors questioned whether slowing growth was driven by broader macroeconomic weakness or company-specific factors—such as market maturity for Chipotle, emerging competition from Amazon's demand-side platform (DSP) for The Trade Desk, and potential AI-driven disintermediation for Gartner. Until growth reaccelerates, these debates are likely to persist.

During the period, the Fund added twenty-one and exited nineteen investments. Changes spanned most sectors. Generally, we took advantage of heightened volatility to boost the quality and (what we believe to be) the portfolio's three-year return potential. The Fund's turnover remained elevated relative to its history due to heightened market volatility, which we've experienced on and off since the beginning of the pandemic.

As always, we remain committed to achieving attractive risk-adjusted returns over a full market cycle by owning a diversified portfolio of companies, each of which we believe could one day grow significantly. We thank you for your support and interest and look forward to updating you on our progress in six months.

Brown Advisory LLC
November, 2025

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Sustainable Growth Fund
For the year ended 31st October, 2025

The objective of the Brown Advisory US Sustainable Growth Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last six months: 18.59% (vs. its comparator benchmark, the Russell 1000 Growth Net, of 32.49%)
- Over the last year: 12.32% (vs. its comparator benchmark of 30.29%)
- Over the last 3 years: 79.18% (vs. its comparator benchmark of 121.70%)
- Over the last 5 years: 81.38% (vs. its comparator benchmark of 138.23%)
- Since inception on 3rd April, 2017: 284.70% (vs. its comparator benchmark of 354.26%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

During the twelve-month period ending 31st October, 2025, the US equity markets oscillated between exuberance and fear as investors digested the implications of the US presidential election in November of 2024, the new administration's shock-and-awe approach to policy reform, unpredictable trade war and tariff developments, persistent inflation, a weakening labor market, the K-shaped trend in US consumer confidence, and fresh hopes and concerns about the secular megatrend in artificial intelligence. The initial market enthusiasm that followed the election was short-lived, as investor attention soon turned back to the other storyline that dominated the markets over the preceding three years: inflation and interest rates. As the calendar turned to the new year, investor concerns about the competitive threat to Silicon Valley's AI leadership from the Chinese open-source AI company, Deepseek, coupled with the macroeconomic and geopolitical uncertainty created by the new administration drove a market selloff throughout the first quarter, culminating in Trump's "liberation day" tariff blitz that spiked the market into correction territory in early April. As tariff worries abated in the second quarter, the market rotated aggressively from risk-off to risk-on sentiment as reinvigorated enthusiasm for the AI trade drove a narrow, tech-dominated momentum rally that carried the market to new record highs through the end of October.

Against this volatile backdrop, the strategy delivered positive double-digit returns for the period but meaningfully underperformed its primary benchmark, the Russell 1000 Growth Index. At the highest level, the underperformance was attributable to the combined effects of unfavorable stock selection and positioning and a disadvantageous market environment for our diversified quality-growth investment style. From an attribution perspective, strong performance from several of our semiconductor and industrials names was overshadowed by significant weakness in software and financials.

Within information technology, our semi-conductor names were a notable bright spot during the period, as NVIDIA (NVDA), Monolithic Power Systems (MPWR), and KLA Corporation (KLAC) were among the top contributors to absolute returns, propelled by the continued acceleration in customer demand for their data center technologies. While each company occupies a unique niche within the semiconductor ecosystem – NVDA with advanced GPUs, MPWR with power management technology, and KLAC with process control equipment – they all continue to benefit from investor enthusiasm about generative artificial intelligence and, by extension, the essential technological building blocks that enable it. Unfortunately, the same enthusiasm for AI that provided tailwinds for our semiconductor names created headwinds for our software names, reflecting the ongoing debate about whether AI represents an existential threat or a generational opportunity for software incumbents. Despite robust earnings results from most of our names during the period, the sentiment regarding software business models in the age of AI ebbed lower in the back half of the period, resulting in broad multiple contraction across the segment. We acknowledge the risks and opportunities associated with AI but continue to believe the companies we own are well-positioned to establish themselves as leaders in the application phase of the AI cycle. For that reason, we added to several of our software positions on weakness throughout the period to take advantage of the near-term noise.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory US Sustainable Growth Fund (continued)
For the year ended 31st October, 2025

Within financials, we are primarily exposed to capital markets and insurance companies, which experienced secular and cyclical weakness during the period. Our two alternative asset managers, ARES and KKR, experienced a sharp reversal in fortune during the period as the sentiment that carried them to record highs at the end of 2024 eroded in the face of elevated geopolitical tensions and macroeconomic uncertainty in the beginning of 2025. In the latter half of the period, an improving deal-making environment was overshadowed by several high-profile defaults that were unrelated to our companies but injected new fears about the health of the broader credit market. We believe the macro-related weakness to be transitory and the concerns about the credit market to be unfounded, as the bankruptcies that roiled the market were idiosyncratic vs structural and likely related to incidents of fraud. We remain convinced in the strength of ARES' and KKR's business models, their battle-tested track records of prudent capital allocation, and the unique competitive advantages each possesses relative to their peers. Insurance was also an area of weakness in the back half of the year, further weighing on the performance of our financials exposure. After performing exceptionally well during the drawdown of the first quarter, our insurance names – PGR, VRSK and AJG – were largely left behind during the market's momentum rally from early April onwards, reflecting investor appetite for more risk-on assets as well as industry-specific concerns about price softness, regulatory pressure, and more expensive claims. In all three cases, we trimmed our positions on strength after the robust outperformance in the first quarter and then topped them back up opportunistically to take advantage of the subsequent weakness on the belief that the downside had become derisked relative to the increasingly attractive multi-year upside.

Despite the disappointing underperformance during the period, we remain fully committed to our investment mandate and the longstanding approach to finding investment opportunities at the intersection of strong fundamentals, sustainable business advantages, and attractive valuation that has guided the strategy over the past 15 years. We are grateful for the trust that our clients place in us and look forward to providing further updates in the quarters ahead.

November, 2025

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****BA Metropolis Global Value Fund****For the year ended 31st October, 2025**

The objective of the BA Metropolis Global Value Fund is to achieve long term capital growth through investment in a concentrated portfolio of securities in listed companies. The net asset value of the Sterling Class C Acc Shares has returned the following cumulative net performance:

- Over last six months: 16.66% (vs. its comparator benchmark, the CPI +6%, of 5.23%)
- Over the last year: 13.96% (vs. its comparator benchmark of 10.86%)
- Over the last 3 years: 62.42% (vs. its comparator benchmark of 42.88%)
- Over the last 5 years: 90.45% (vs. its comparator benchmark of 78.90%)
- Since inception on 30th September, 2019: 97.50% (vs. its comparator benchmark of 94.19%)

Performance and Investment Activity

The objective of the BA Metropolis Global Value Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Dis Shares has returned:

	BA Metropolis Global Value Fund ¹	OECD CPI+6% ²
1 Year ³	16.40%	10.86%
3 years ⁴	22.82%	12.63%
5 Years ⁵	14.12%	12.34%
Since Inception ⁶	13.27 %	11.53%

The Fund has delivered strong performance during this period. Our assessment of the intrinsic value of the portfolio has increased materially during this period but not by as much as the NAV. Nevertheless, the margin of safety ended the period ahead of the long-term average for the Fund.

Our goal is to protect and enhance the real (i.e. inflation-adjusted) value of the capital which our clients entrust to us. This is expressed through our long-term performance target of annualised returns of inflation +6%. We aim to achieve this by investing in a small number of deeply researched and high-quality companies that we endeavour to understand well. We think about each investment we make as if we are buying the entire business to own it forever. Driven by this long-term thinking, at the core of our valuation of each new position is an assessment of the long-term sustainability of a company's economic model.

The Fund currently consists of a portfolio of 24 companies. Our portfolio turnover in terms of company names, is typically low (10-20% p.a.). During the period under review, we added three new positions: Whitbread, HCA Healthcare and TD Synnex; we exited two positions: Paramount and Hargreaves Lansdown. In addition, we exited Oracle in November 2024 but reinvested in April 2025 following a market downturn. We exited Oracle again in July 2025 as it rallied above our assessment of intrinsic value.

At Metropolis, we refrain from making predictions or offering commentary on the short-term movements in the markets. We believe that we can add greater long-term value to our clients by focusing on building a portfolio which can withstand a wide range of economic conditions. Our primary concern is not trying to second guess what might happen to share prices as other investors react to negative economic news but rather to assess how the underlying business of each portfolio company will perform long term, in good times and bad. We believe that our portfolio is well positioned to meet our investment objective.

Past performance is not a guide to future performance.

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****Brown Advisory Global Leaders Sustainable Fund
For the year ended 31st October, 2025**

The objective of the Brown Advisory Global Leaders Sustainable Fund is capital appreciation over the long term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last six months: 10.45% (vs. its comparator benchmark, the MSCI All Country (AC) World Index of 21.58%)
- Over the last year: 13.99% (vs. its comparator benchmark of 22.64%)
- Over the last 3 years: 70.18% (vs. its comparator benchmark of 79.96%)
- Over the last 5 years: 80.73% (vs. its comparator benchmark of 97.74%)
- Since inception on 1st November, 2019: 92.30% (vs. its comparator benchmark of 105.73%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The reporting period was marked by two distinct market environments. The first six month saw disruption and uncertainty surrounding the new U.S. administration, the immediate implementation of tariff announcements and the longer-lasting impact on global demand. The portfolio delivered positive absolute performance in this environment (in USD), meaningfully outperforming the benchmark. This type of downside protection has been a characteristic of the strategy since inception, as well as during significant corrections such as Covid. Whilst this is an outcome rather than a specifically managed ratio, it derives from an investment process focused on the selection of quality companies, complemented by a capital allocation framework that seeks to reduce clients' risk of permanent loss of capital. Starting in the second quarter, driven by a narrow and thematic (AI) rally, the portfolio did well in absolute terms but did not keep up on a relative basis, leaving it trailing the benchmark. We are of the opinion that there are only very few true sources of alpha in global equity investing and for us these are time-arbitrage and strong process management, enhanced with a deep understanding of human behaviour. During the volatile first months of 2025 this meant recalibrating our company estimates in an environment of fast changing geopolitical and macro risk, during the rest of the reporting period this meant maintaining strong valuation discipline while scavenging the universe for new investment opportunities.

Over the past 3 years (to 31st October, 2025) Global Leaders Sustainable Fund compounded 19.39% p.a. for a total return after fees of 70.18%, despite our underweight to both the Mag7 and to the U.S. This period essentially covers market performance since the launch of ChatGPT to the public during the fourth quarter 2022. At the same time, the MSCI ACWI Net Total Return Index has been up just under 80% in total, compounding at 21.64% p.a. This is quite unusual but not unique in our investment experience. It is rarely sustained. We would caution projecting these recent returns into the future. Nonetheless, we do believe that if we continue to deliver annualised net returns of 10% or more (our underwriting hurdle and the absolute returns achieved since inception), our investors should benefit from attractive absolute and relative long-term returns.

With 31 investments, we are currently positioned at the lower end of the strategy's target range of 30 to 40 investments. This range is deliberately chosen to enable the deep research necessary to focus on high-conviction ideas, with investment selection serving as the primary driver of both risk and return in this strategy. We do not expect to drive alpha from estimating trends. We are concentrating on idiosyncratic, stock-specific risks to ensure the portfolio remains focused on its best ideas. We believe genuine alpha generation comes from taking stock-specific risk.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Global Leaders Sustainable Fund (continued)
For the year ended 31st October, 2025

The portfolio experienced strong, positive contributions from its three largest sector exposures: Financials, Information Technology, and Industrials. Within Industrials, investments in commercial aerospace—specifically through GE Aerospace—continued to add meaningfully to performance. On a relative basis, underperformance was driven by Financials and Information Technology, as well as Health Care. Not owning AI winners from OpenAI's enormous pre-commitments to future spending such as NVIDIA, Oracle, Broadcom and others who's share prices performed remarkably well meant that cumulatively our underweights were the largest drag. We have researched many of these "AI winners" and whilst we admire the franchise quality at several of them, our reticence is what we perceive to be a hefty price required today to access those future cash flows driving down potential IRRs. Within Financials, underperformance was driven primarily by developed market Financial Market Infrastructure companies, particularly the London Stock Exchange Group, which we have high conviction in. Relative underperformance in financials was exacerbated by companies which we do not typically invest in, strong performance of asset heavy and often low Return on Equity (RoE) and low Return on Asset (RoA) developed market banks, which are not owned in the portfolio.

The Fund exited six companies during the reporting period, initiated positions in three, and bought and sold one healthcare investment within an unusually short holding period of less than six months. During the market correction in April, we added Experian, a leading global data and analytics business. In September, we invested in Workday, a cloud-based human capital and resource management software company when we saw the indiscriminate sell-off of companies perceived to be at risk from AI disintermediation as an opportunity to achieve attractive long-term IRRs. We further changed our exposure to the highly attractive Indonesian banking sector by swapping our holding in the state-owned Bank Rakyat for a position in the leading private Indonesian bank, Bank Central Asia. Among the companies exited were two of our more recently initiated healthcare investments—Coloplast and Illumina—which were added post-COVID. Healthcare remains the only sector with a negative contribution since the inception of the strategy. We reviewed our exited healthcare investments during after-action reviews and challenged our investment process at this year's annual offsite. There are specific areas of potential risk within healthcare on which we need to focus: (1) pricing power (or lack thereof), (2) relative competitive advantages among competitors, and (3) the role healthcare plays in a diversified, global quality portfolio, by adding non-deferrable demand. In this context, we reflected on the threat of substitutes as part of Michael Porter's "Five Forces," which is incorporated into our research process for every new investment. We believe there is a risk for quality-oriented investors to overly focus on economic moats. Barriers to entry are only one of the forces that can shape long-term value creation in an industry. In a fast-paced world, we believe that substitutes are both opportunities and threats for our companies. Against this backdrop, continually questioning company and industry developments remains crucial.

Since day one of the Global Leaders strategy, we have sought high-quality companies with superior customer outcomes that we believe are able to pass on prices and generate high levels of recurring revenue while requiring low leverage. We believe that by investing in these companies and allowing their economics to compound over long periods, we can generate attractive returns for our investors.

Brown Advisory Limited

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****BA Beutel Goodman US Value Fund
For the year ended 31st October, 2025**

The objective of the BA Beutel Goodman US Value Fund is capital appreciation over the long-term. The net asset value of the Sterling Class M Dis Shares has returned the following cumulative net performance:

- Over the last six months: 8.20% (vs. its comparator benchmark, the Russell 1000 Value Index, of 12.92%)
- Over the last year: -1.47% (vs. its comparator benchmark of 10.48%)
- Over the last 3 years: 29.50% (vs. its comparator benchmark of 42.94%)
- Since inception on 30th November, 2020: 47.11% (vs. its comparator benchmark of 66.48%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

Tariffs and the on-again, off-again trade war have been the dominant theme over the period. While the Trump administration appears to be committed to maintaining tariffs, equity markets nevertheless bounced back from the disruption caused by Liberation Day to reach record highs on multiple occasions in 2025.

Against this backdrop, the Fund underperformed its benchmark during the period. The main detractors from relative performance included stock selection in Communication Services, Information Technology and Consumer Staples, which was offset somewhat by an overweight to the outperforming IT sector.

Over the period, the largest individual detractors to Fund performance on an absolute basis included: Comcast Corp., The Campbell's Company and Polaris Inc.

Over the period, the largest individual contributors to Fund performance on an absolute basis included: eBay Inc., American Express Co. and Applied Materials Inc.

Portfolio Activity

The sub-investment manager's portfolio management team (the "team") employs a stock-selection process that is based on identifying securities trading at significant discounts to their business value. The Fund's sector and stock weights are outcomes of the team's investment decisions based on bottom-up fundamentals and business quality. As a by product of the team's bottom-up investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the period:

- The Fund's Financials, Health Care, Information Technology, Industrials and Materials sector weightings increased because of relative performance and the team's buy/sell activities.
- The Fund's Consumer Discretionary, Consumer Staples and Communication Services sector weightings decreased because of relative performance and the team's buy/sell activities.
- The Fund had no exposure to the Energy, Utilities and Real Estate sectors.
- The Fund's positions in Gentex Corp, Tempur Sealy International (renamed Somnigroup International Inc. during the period), Polaris Inc., Biogen Inc. and Kellanova were fully sold.
- The Fund initiated new positions in Elevance Health Inc., Chubb Ltd. and Applied Materials Inc.
- At period-end, there were 28 equity holdings in the Fund, down from 30 at the beginning of the period.
- The Fund's level of cash and cash equivalents increased.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
BA Beutel Goodman US Value Fund (continued)
For the year ended 31st October, 2025

Manager Outlook

In the U.S. in particular, AI has been the major driving force for equities in 2025. However, in pushing markets to record highs, there are concerns that this growth is creating a bubble similar to what we saw with the dot-com boom in the late 1990s.

Overall, while there are headwinds, particularly with respect to the impact of tariffs, we believe the Fund's portfolio remains well-positioned from a valuation and quality standpoint, trading at a significant discount compared to the index on forward earnings and free cash flow, while also offering strong dividend support.

Beutel, Goodman & Company Ltd.
November, 2025

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Global Sustainable Total Return Bond Fund (GBP)
For the year ended 31st October, 2025

The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) is to target a positive total return (comprising current income and capital gains) above the Bank of England's SONIA Compounded Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The Fund is not constrained by any benchmark. The net asset value of the Sterling Class M Dis Shares has returned the following cumulative net performance:

- Over the last six months: 2.39% (vs. its target benchmark, SONIA Overnight, of 2.06% and the comparative benchmark, the Bloomberg Barclays Global Aggregate GBP hedged, of 2.51%)
- Over the last year: 6.64% (vs. its target benchmark of 4.34% and the comparative benchmark of 5.21%)
- Over the last three years: 13.04% (vs. its target benchmark of 14.63% and its comparative benchmark of 15.91%)
- Since inception on 31st January, 2022: 6.37% (vs. its target benchmark of 15.64% and its comparative benchmark of 2.36%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

Over the period, the primary drivers behind financial markets have been fiscal, monetary, and trade policies, geopolitics, and the AI investment boom. U.S. trade policy created significant volatility across global financial markets during the month of April. This led to the U.S. administration watering down many of the initial policy targets that enabled a financial market recovery and economic resilience driven by asset-rich consumers and the AI investment boom, particularly within the U.S. economy.

The portfolio was positioned for its core view of steepening yield curves in the U.S. and most developed market countries, outside of Japan. The positioning was reflected in concentrated duration positions in short-to-intermediate maturities with a preference for developed-world duration outside of the U.S. This yield curve positioning was the main contributor to performance, driven by allocations to the shorter end of rate curves (2-5-year) in the U.S., Europe, the U.K., and Canada. At the longer end of the curve, a net underweight to U.S. and European 30-year bonds contributed positively. The Fund also benefitted from an allocation to New Zealand interest rates which performed strongly as the Reserve Bank of New Zealand (RBNZ) cut rates 2.25% in a bid to support a struggling economy. Conversely, the Fund was positioned and monetised an increase in Japanese interest rates as the Bank of Japan (BOJ) continued to cautiously raise interest rates to slow upward pressure in wages and inflation. Actively currency decisions, primarily long both the Brazilian real and the euro against the US dollar, added additional performance over the period. Strong security selection in corporate bonds was helpful to overall performance as well.

One important objective of the strategy is its role as a counterbalance against equity risk in clients' portfolios. The strategy has exhibited low correlation to equity markets since inception on 31st January, 2022 and again in the first quarter of 2025 when risk assets corrected sharply.

The Brown Advisory Global Sustainable Total Return Bond Fund (GBP) takes a global, sustainable, and dynamic approach to fixed income. We believe that dynamic asset allocation informed by comprehensive top-down macro analysis, combined with rigorous bottom-up security selection, and a differentiated sustainable investment approach, can deliver an attractive stream of income- and risk-adjusted returns through the economic cycle while producing positive environmental and social outcomes.

Brown Advisory Limited
November, 2025

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Global Sustainable Total Return Bond Fund (USD)
For the year ended 31st October, 2025

The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York Secured Overnight Financing Rate (SOFR) Index (the "Target Benchmark") over a full economic cycle, by investing in a broad range of global fixed income securities and associated FDI's and currencies. The Fund is not constrained by any benchmark. The net asset value of the Dollar Class M Dis Shares has returned the following cumulative net performance:

- Over last six months: 2.63% (vs. its target benchmark, NYFR SOFR of 2.22% and the comparator benchmark, the Bloomberg Barclays Global Aggregate USD hedged of 2.64%)
- Over the last year: 6.84% (vs. its target benchmark, of 4.52% and the comparator benchmark of 5.30%)
- Over the last three years: 14.68% (vs. its target benchmark of 15.72% and its comparator benchmark of 17.73%)
- Since inception on 31st March, 2022: 9.40% (vs. its target benchmark of 16.86% and its comparator benchmark of 8.54%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

Over the period, the primary drivers behind financial markets have been fiscal, monetary, and trade policies, geopolitics, and the AI investment boom. Brown Advisory Limited
November, 2025

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****Brown Advisory US Sustainable Value Fund
For the year ended 31st October, 2025**

The objective of the Brown Advisory US Sustainable Value Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last six months: 14.66% (vs. its comparator benchmark, the Russell 1000 Value Index, of 12.92%)
- Over the last year: 10.22% (vs. its comparator benchmark, of 10.48%)
- Since inception on 31st May, 2023: 56.40% (vs. its comparator benchmark, of 42.81%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The Brown Advisory U.S. Sustainable Value Fund slightly underperformed its benchmark, the Russell 1000 Value Index, during the period.

The Health Care and Information Technology sectors were the largest contributions to the Fund's performance, while the Financials and Communication Services sectors were the largest detractors.

The largest contributor during the period was Cardinal Health, Inc. (CAH). Cardinal Health's (CAH) pharma distribution business has continued to outperform, as management has continued to make strategic investments into growing areas within specialty spend. The company recently announced 3-yr targets at a recent investor event that projected forward free cash flow generation well-above street expectations. The bottom contributor during the period was Comcast Corporation (CMCSA). Comcast (CMCSA) was weak during the period as management pushed a potential recovery in its consumer broadband subscribers to the second half of next year as heightened competition persists in the near-term.

During the twelve-month period, the Fund added six new investments and eliminated eight investments. New investments included three in Health Care, one in Financials, one in Consumer Discretionary, and one in Materials. The eliminations included three in Energy, two in Financials, one in Consumer Discretionary, one in Consumer Staples, and one in Health Care.

One notable addition during the period was Smurfit (SW). Smurfit Westrock is one of the world's largest packaging companies that is in the midst of a corporate transformation and trading at a material discount to all of its U.S. peers. The company was created out of the merger of Smurfit Kappa Group and Westrock Co, which closed on 8th July, 2024. We believe the opportunity here is for the legacy Smurfit management team to deploy its operational discipline and "owner/ operator" led culture to the Westrock assets in North America, which despite being one of the top players in the U.S. containerboard market had underperformed investor expectations and peer results for years prior to the merger. In addition to the significant "self-help" opportunities ahead for the combined company, the NA containerboard industry is also in the midst of a transformation of its own- with accelerating capacity closures, increasing consolidation by the top 5 players and a newfound focus on "value of volume" by the industry leaders. SW's Sustainable Cash Flow Advantage is embedded in its core business model with over 90% of its portfolio being recyclable and a growing share of its products being compostable and biodegradable solutions. SW's packaging innovation helps its customers reduce weight (lowering transportation emissions and fuel costs), improve recyclability and accelerate the plastics to paper transition. At the time of our initial purchase, SW was trading at 7.5x EV/EBITDA, >7.5% FCF yield and a near 4% dividend yield.

We continue to believe that a portfolio of companies that generate high levels of free cash flow, possess a Sustainable Cash Flow Advantage (SCFA), exhibit capital discipline, and trade at attractive valuations will lead to compelling risk adjusted returns over the long term while providing a margin of safety for our investors.

Brown Advisory LLC

BROWN ADVISORY FUNDS PLC**INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)****BA Beutel Goodman World Value Fund****For the year ended 31st October, 2025**

The objective of the BA Beutel Goodman World Value Fund is capital appreciation over the long-term. The net asset value of the Dollar Class M Dis Shares has returned the following cumulative net performance:

- Over the last six months: 8.55% (vs. its comparator benchmark, the MSCI World Value Net Total Return USD Index, of 12.51%)
- Over the last year: 8.61% (vs. its comparator benchmark of 13.89%)
- Since inception on 31st January, 2024: 19.90% (vs. its comparator benchmark of 29.32%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The period has stood out for trade disruption brought on as the U.S. administration introduced a series of tariffs on its international trading partners. Despite this, global equity markets have reached new highs after recovering from a brief correction in April. Also notable is the fact that international markets have outperformed the U.S. for much of 2025, which has not been the norm in the post-Financial Crisis period.

Against this backdrop, the Fund underperformed its benchmark during the period. The main detractors from relative performance included stock selection in Communication Services, a combination of stock selection and an underweight in Financials, as well as stock selection in Information Technology. Stock selection in Consumer Staples and Materials also detracted from performance. The main contributors meanwhile included stock selection in Industrials and Health Care.

Over the period, the largest individual detractors from the Fund's absolute performance included Comcast Corp. Polaris Inc. and The Campbell's Company.

The largest individual contributors to Fund performance on an absolute basis included Smiths Group plc., eBay Inc. and IMI plc.

Portfolio Activity

The sub-investment manager's portfolio management team (the "team") employs a stock-selection process that is based on identifying securities trading at significant discounts to their business value. The Fund's sector and stock weights are outcomes of the team's investment decisions based on bottom-up fundamentals and business quality. As a by product of the team's bottom-up investment process, market performance and general management activity, the following changes occurred in the Fund's portfolio during the period:

- The Fund's Industrials, Information Technology, Financials and Health Care sector weightings increased because of relative performance and the team's buy/sell activities.
- The Fund's Consumer Discretionary, Communication Services, Consumer Staples and Materials sector weightings decreased because of relative performance and the team's buy/sell activities.
- The Fund has no exposure to the Energy, Utilities and Real Estate sectors.
- The Fund added new positions in Elevance Health Inc., NetApp Inc., Applied Materials Inc., SMC Corp. and Chubb Ltd.
- The Fund exited its positions in Polaris Inc., Tempur Sealy International (renamed Somnigroup International Inc. during the period), the Campbell's Company and Biogen Inc.
- At period-end, there were 31 equity holdings in the Fund.
- The Fund's cash and cash equivalents position decreased.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
BA Beutel Goodman World Value Fund (continued)
For the year ended 31st October, 2025

Manager Outlook

Amid the uncertainty of the trade war, the OECD's most recent forecast has projected global GDP growth to slow from 3.3% in 2024 to 3.2% in 2025 and 2.9% in 2026. These projections include sharp economic declines in both the U.S. and China, and to a lesser extent in the E.U. Markets and the economy don't always run in parallel, however, and that is certainly the case in 2025 as a host of major equity indices have all reached record highs in 2025.

Overall, while there are headwinds, particularly with respect to the impact of tariffs, we believe the Fund's portfolio remains well-positioned from a valuation and quality standpoint, trading at a significant discount compared to the index on forward earnings and free cash flow, while also offering strong dividend support.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
Brown Advisory Global Sustainable Income Bond Fund (GBP)*
For the period ended 31st October, 2025

The objective of the Brown Advisory Global Sustainable Income Bond Fund (GBP) is to provide income via risk-adjusted returns with a targeted total return above the Bloomberg Global Aggregate Bond Index (GBP Hedged) (the "Comparator Benchmark") over a full economic cycle. The net asset value of the Dollar Class M Dis Shares has returned the following cumulative net performance:

- Over the last six months: 4.11% (vs. its comparator benchmark, the Bloomberg Global Aggregate Bond Index (GBP Hedged), of 2.51%)
- Since inception on 29th November, 2024: 5.56% (vs. its comparator benchmark of 4.26%)

The Sub-Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

Over the period, the primary drivers behind financial markets have been fiscal, monetary, and trade policies, geopolitics, and the AI investment boom. U.S. trade policy created significant volatility across global financial markets during the month of April. This led to the U.S. administration watering down many of the initial policy targets that enabled a financial market recovery and economic resilience driven by asset-rich consumers and the AI investment boom, particularly within the U.S. economy.

The Fund was positioned in line with our core view of a slower-growth economic environment. The positioning was also a reflection of the income mandate of the Fund with approximately 60% absolute exposure to corporate credit. A defensive posture exists within the Fund by limiting investments in credit risk to issuers with exposure to business models that are cyclical, discretionary, have high fixed cost structures, and/or contain cross-border revenue and/or cost structures, approximately 45% of portfolio duration was ex. U.S. as of 31st October, 2025.

Yield curve positioning and security selection were the main contributors to performance. The yield curve attribution was driven by an underweight to overall duration exposure. While staying defensively positioned within risk assets, the Fund benefitted from positive security selection contribution and, to a lesser degree, asset allocation driven by the overweight to corporate credit.

Despite volatility in credit risk premiums driven by U.S. trade policy during the month of April, credit risk has generally recovered with spreads in high yield and investment grade corporate credit trading at/near 20-year lows. Aggregate credit fundamentals are on the weaker side of long-term averages and we think steady or improving forward fundamentals are less likely than the alternative. We continue to think credit spreads do not reflect the amount of risk within the system and will likely continue to be defensively positioned until valuation becomes better aligned with our fundamental views.

The Brown Advisory Global Sustainable Income Bond Fund (GBP) employs a fundamental and sustainable research process with a risk-adjusted return objective focused on income generation. Portfolio construction and management is dynamic with an awareness and an assessment of the economic cycle that is an output of an integrated top-down and bottom-up research process. Whilst the Strategy objectives are performance orientated, the investment outcomes are also sustainable. This dual mandate is driven by a fully-integrated fundamental and sustainable research process.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
BA Global Multi-Asset Growth Fund*
For the period ended 31st October, 2025

The objective of the Brown Advisory Global Multi-Asset Growth Fund is capital appreciation over the long-term. The net asset value of the Sterling Class Q Acc Shares has returned the following cumulative net performance:

- Over the month: 3.53% (vs. its comparator benchmark, the MAF Balanced Blend Index of 3.13%)
- Over the last 3 months: 4.33 % (vs. its comparator benchmark of 6.91%)
- Since inception (30th May, 2025): 8.40% (vs. its comparator benchmark of 12.74%)

The Brown Advisory Multi-Asset Growth Fund delivered a positive 9.0% absolute return for the trailing six-month period ending 31st October, 2025. The Fund it's on track to surpass the CPI +3% its inaugural year, albeit it continues to trail its primary benchmark (+12.4%) for reasons we address below. Before taking a more detailed look at the current portfolio and its recent performance, we want to begin with a quick summary of our strategy. Our strategy is built on three key pillars.

First, we seek to hold a genuinely diversified, global portfolio of investments across a broad range of assets classes with the objective of delivering long-term growth of capital. By targeting growth of capital in real terms — meaning returns that outpace the rate of inflation — we strive to ensure that our investors' purchasing power increases over time.

Second, we subscribe to the idea that by investing we are buying part ownership of an actual business. One of the benefits of public markets stems from their ability to allow us to make very selective decisions amongst a wide spectrum of choices. To that end, we seek to own concentrated portfolios of high-quality companies that are easy to understand but very difficult to replicate. These types of business generally exhibit (a) healthy balance sheets; (b) durable barriers to entry; (c) the ability to raise prices; and (d) recurring cash flow streams that are not subject to incremental injections of capital to simply maintain the status quo. The companies we own may not necessarily grow the fastest, but we're underwriting those we think will be around the longest.

And third, we think the best returns will be driven by what we classify as our “hybrid” approach to portfolio construction. We will lean heavily on internal resources and strategies where we think we have a competitive advantage. We then pair those strategies with aligned partnerships that either invest in part of the world or a specific asset class where we think they have a unique competitive advantage.

These core operational pillars help us optimize our durable, compound-return approach. It's an approach that strives to keep it simple. We invest in what we know and understand, working to build a high-quality, concentrated portfolio of attractively priced assets that possess first-rate economics alongside long-term competitive advantages. Turning now to our financial results for the prior six months of the year.

Starting with fixed income. We were pleased to deliver consistent performance across all the portfolio's five constituent parts. For us, we continue to invest with an eye focused more closely on the return of capital, not the return on capital. We have gradually reduced our corporate exposure over the last one-to-two years as spreads have compressed, and in our view, no longer reflect attractive risk-adjusted returns. Our credit work today continues focusing on building a bench of high-quality names to target should spread widen to more-attractive levels. Despite our conservative posture on corporate credit, we still maintain a yield advantage over the index (5.0% vs. 3.5%) via an overweight to securitized credit and select, higher-yielding corporate opportunities in Europe.

Our equity position remains the area of relative weakness. We stress the word “relative” given our equity book delivered a strong absolute return of 10.7% during the period. However, this double-digit performance failed to keep pace with a benchmark that delivered 16.6%. There are two primary drivers for the difference.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)
BA Global Multi-Asset Growth Fund* (continued)
For the period ended 31st October, 2025

First, the overall global equity market continues to be driven by a small subset of individual names. Many of those names (e.g., Nvidia, Apple, Alphabet, Broadcom, Taiwan Semiconductor, Amazon, Microsoft, & Tesla) are directly connected to the growth in spending on Artificial Intelligence. While we maintain a high-conviction allocation to a subset of those names, our lack of more material exposure to the broader group has meant our performance has failed to keep pace. Second, our security selection within Financials also weighed on performance. Our core long-term holdings in European exchanges (e.g., London Stock Exchange & Deutsche Boerse) and global payment networks (Visa & MasterCard) were down slightly during a period of double-digit market performance.

In both sectors, we took the opportunity to add capital to our highest-conviction positions. We think we allocated our client capital at share prices that offered a base-case, low-teen return over a five-year period. Will this be enough to keep pace with a passive benchmark over the short-to-medium term? We're not sure, nor is it our primary concern. Historically, the long-term median annual return of global equity indices falls in the 7–8% range per year. We manage capital to exceed that target with an appropriate margin of safety. So, we take comfort in thinking our single-stock equity investments are sufficient to outpace our long-term return targets.

We were pleased to see our alternatives positions delivered above our long-term expectations for the six-month period. Part of that performance was due to a fortitudinous starting point. We felt many of our private infrastructure and private equity holdings were trading at very attractive entry points when we launched the Fund at the end of May. The other factor driving share-price strength have been strong underlying fundamentals.

Our infrastructure assets continue delivering operating results at or near the high end of their target range. They're capturing higher volumes across their networks alongside annual inflationary rate increases. Many of our investments are also directly exposed to the growth in Artificial Intelligence by providing both the physical data centres as well as the energy need to power them. In private equity, recent headwinds — including multiple contraction, changes in net debt, and limited realisation activity that have weighed on NAV per share growth — appear to be subsiding. Underlying company fundamentals remain robust, exit activity is accelerating, and our capital position for new investments is strong.

In closing, we remain committed to our primary objective of exceeding our return objectives without taking any unnecessary or unjustified risk, recognizing that the growth engine of this portfolio rests in the strategic allocation to equity securities and alternative investments. Our strategic asset allocation should not be confused with static asset allocation. Markets are broadly efficient, but not perfectly efficient. From time-to-time excessive fear and optimism can drive prices well above or below our assessment of intrinsic value. In the case of the former, we seek to add capital when best-in-class business models are trading at bargain-based prices. As for the latter, our “sit-on-the-sidelines approach” during periods of excessive optimism can result in relative underperformance as we fail to keep up. We accept that. We are patient. Sometimes the best investment is no investment at all.

Thank you for your interest in the Brown Advisory Multi-Asset Growth Fund.

Brown Advisory Limited
November, 2025

* BA Global Multi-Asset Growth Fund launched on 30th May, 2025.

BROWN ADVISORY FUNDS PLC

INVESTMENT MANAGER'S REPORT (UNAUDITED) (continued)

Brown Advisory US Value Fund*

For the period ended 31st October, 2025

The objective of the Brown Advisory US Value Fund is capital appreciation over the long-term. The net asset value of the Dollar Class C Acc Shares has returned the following cumulative net performance:

- Over the last month: 1.20% (vs. its comparator benchmark, the Russell 1000 Value Index, of 0.41%)
- Since inception on 30th September 2025: 1.20% (vs. its comparator benchmark, of 0.41%)

The Investment Manager has determined that the Fund is an Article 8 financial product for the purposes of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27th November, 2019 on sustainability-related disclosures in the financial services sector (SFDR).

The Brown Advisory US Value Fund outperformed its benchmark, the Russell 1000 Value Index, since its inception on 30th September, 2025. Health Care, Utilities, and Energy were three sectors that contributed to the outperformance, while the Communication Services sector hindered it.

The largest contributor during the period was Cardinal Health, Inc. (CAH). CAH reported better than anticipated fiscal first quarter results and raised its full year guidance as a result. The bottom contributor during the period was Willis Towers Watson (WTW). Willis, along with its other insurance brokerage peers have been weak in recent months as concerns around rate pressures, especially within property, have the potential to weigh on organic growth going forward.

During the one-month period, the Fund did not have any new additions or eliminations.

We continue to believe that a portfolio of companies that generate high levels of free cash flow, possess a Sustainable Cash Flow Advantage (SCFA), exhibit capital discipline, and trade at attractive valuations will lead to compelling risk adjusted returns over the long term while providing a margin of safety for our investors.

Independent Auditor's Report to the Members of Brown Advisory Funds plc

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Brown Advisory Funds plc ('the Company') for the year ended 31 October 2025 set out on pages 63 to 137 and 172 to 357, which comprise the Statement of Investments, Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and related notes, including the summary of significant accounting policies set out in note 1.

The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion:

- the financial statements give a true and fair view of the assets, liabilities and financial position of the Company as at 31 October 2025 and of its changes in net assets attributable to holders of redeemable participating shares for the year then ended;
- the financial statements have been properly prepared in accordance with FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- the financial statements have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities Regulations) 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report to the Members of Brown Advisory Funds plc (continued)

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the directors' report. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information undertaken during the course of the audit, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements; and
- in our opinion, those parts of the directors' report specified for our review, which does not include sustainability reporting when required by Part 28 of the Companies Act 2014, have been prepared in accordance with the Companies Act 2014.

Our opinions on other matters prescribed by the Companies Act 2014 are unmodified

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

Independent Auditor's Report to the Members of Brown Advisory Funds plc (continued)

Respective responsibilities and restrictions on use

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 26, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at <https://iaasa.ie/publications/description-of-the-auditors-responsibilities-for-the-audit-of-the-financial-statements/>.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

BROWN ADVISORY FUNDS PLC**STATEMENT OF CHANGES IN THE PORTFOLIO (UNAUDITED)****Brown Advisory US Smaller Companies Fund
For the year ended 31st October, 2025**

In accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), a statement of changes in the composition of the Statement of Investments during the reporting period is provided to ensure that Shareholders can identify changes in the investments held by the Company. These statements present the aggregate purchases and sales of transferable securities exceeding 1% of the total value of purchases and sales for the year. At a minimum the largest 20 purchases and sales must be given.

Aggregate purchases greater than 1% of the total value of purchases

¹ The Aggregate Financial Statements have been adjusted to account for cross investments between Funds.

The accompanying notes form an integral part of the financial statements.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS**
For the year ended 31st October, 2025**1 Statement of Accounting Policies**

The significant accounting policies adopted by Brown Advisory Funds plc (the “Company”), consisting of the seventeen sub-funds listed on page 4 (the “Funds”), are as follows:

a) Basis of Preparation of Financial Statements

The financial statements have been prepared in accordance with accounting standards generally accepted in Ireland and Irish statute comprising the Companies Act 2014, the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011, (as amended) (the “UCITS Regulations”). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council (“FRC”).

These financial statements have been prepared in accordance with the standard “The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland” (“FRS 102”). For the audited financial statements for the year ended 31st October, 2025, securities were quoted, listed or traded on an exchange were valued at last traded price for financial reporting purposes.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss. Valuation time is 10 p.m. (GMT), on the relevant dealing day. The financial statements are prepared on a going concern basis.

The format and certain wording of the financial statements have been adapted from those contained in the Companies Act 2014 and FRS 102. The information required to be included in the statement of total recognised gains and losses and reconciliation of movements in shareholders funds, is, in the opinion of the Directors contained in the Statement of Comprehensive Income and the Statement of Changes in Net Assets attributable to Holders of Redeemable Participating Shares. The Company has availed of the exemption available to investment funds under FRS 102 not to prepare a cash flow statement.

b) Valuation of Financial Assets and Financial Liabilities at Fair Value through Profit or Loss

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either:

- a) the full provisions of Section 11 “Basis Financial Instruments” and Section 12 “Other Financial Instruments” of FRS 102;
- b) the recognition and measurement provisions of International Accounting Standards 39 “Financial Instruments: Recognition and Measurement” (“IAS 39”) and only the disclosure requirements of Sections 11 and 12 of FRS 102; or
- c) the recognition and measurement provisions of International Financial Accounting Standards (“IFRS”) 9 “Financial Instruments” (“IFRS 9”) and the disclosure requirements of Sections 11 and 12 of FRS 102.

The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12 of FRS 102.

Initial Measurement

Purchases and sales of financial instruments are accounted for at trade date for financial statement purposes. Realised gains and losses on disposals of financial instruments are calculated using the first in first out (FIFO) method for all Funds except for the Brown Advisory US Smaller Companies Fund which calculates realised gains and losses on disposals of financial instruments using the average cost method. Financial instruments categorised at fair value through profit or loss, are measured initially at fair value, with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Subsequent Measurement

After initial measurement, the Company measures financial instruments which are classified at fair value through profit or loss, at their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)****For the year ended 31st October, 2025****1 Statement of Accounting Policies (continued)****b) Valuation of Financial Assets and Financial Liabilities at Fair Value through Profit or Loss (continued)***Subsequent Measurement (continued)*

The fair value of financial instruments is based on their official quoted market prices on a recognised exchange or sourced from a reputable broker/counterparty in the case of non-exchange traded instruments, at the Statement of Financial Position date without any deduction for estimated future selling costs. Financial Assets are valued at their last quoted market price for pricing purposes and for financial reporting purposes.

If a quoted official market price is not available on a recognised stock exchange or from a broker/counterparty, the fair value of the financial instrument may be estimated by the Directors using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques or any other technique that provides a reliable estimate of prices obtained in actual market transactions. There were no investments valued in this manner as at 31st October, 2025 and 31st October, 2024.

Subsequent changes in the fair value of financial instruments at fair value through profit or loss are recognised in the Statement of Comprehensive Income.

Equities

Equities are valued at the latest available last traded value at year-end. Instruments traded on a recognised market are valued on the basis of valuations provided by a principal market maker or a pricing service.

Fixed Income

Certain Funds may invest in fixed income investments. Debt securities are valued at their probable realisable value by third party pricing service providers.

c) Forward Foreign Currency Contracts

The Company may enter into forward foreign currency contracts. The fair value of open forward foreign currency contracts is calculated as the difference between the contractual rate and the current forward rate that would close out the contract on the valuation date. Net gains or losses on contracts which have been settled are included in the Statement of Comprehensive Income. Gains or losses on open forward foreign currency exchange contracts are reported as Financial Assets or Liabilities at Fair Value through Profit or Loss as appropriate in the Statement of Financial Position. Gains or losses on forward currency contracts are recognised in the Statement of Comprehensive Income.

During the year ended 31st October, 2025, the Brown Advisory US Smaller Companies Fund, the Brown Advisory US Equity Growth Fund, the Brown Advisory US Small Cap Blend Fund, the Brown Advisory US Flexible Equity Fund, the Brown Advisory Global Leaders Fund, the Brown Advisory US Mid-Cap Growth Fund, the Brown Advisory US Sustainable Growth Fund, the Brown Advisory Global Leaders Sustainable Fund, the BA Beutel Goodman US Value Fund and the Brown Advisory Global Sustainable Total Return Bond Fund (USD) utilised forward foreign currency contracts for share class hedging purposes.

During the year ended 31st October, 2024, the Brown Advisory US Smaller Companies Fund, the Brown Advisory US Equity Growth Fund, the Brown Advisory US Small Cap Blend Fund, the Brown Advisory US Flexible Equity Fund, the Brown Advisory Global Leaders Fund, the Brown Advisory US Mid-Cap Growth Fund, the Brown Advisory US Sustainable Growth Fund, the Brown Advisory Global Leaders Sustainable Fund, the BA Beutel Goodman US Value Fund and the Brown Advisory Global Sustainable Total Return Bond Fund (USD) utilised forward foreign currency contracts for share class hedging purposes.

d) Futures Contracts

Futures contracts may include certain options on exchange-traded futures contracts. Initial margin deposits are made upon entering into futures contracts and are generally made in cash and cash equivalents. The fair value of futures contracts is based upon their quoted daily settlement prices.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)****For the year ended 31st October, 2025****1 Statement of Accounting Policies (continued)****d) Futures Contracts (continued)**

Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. Gains or losses on open futures contracts are reported as Financial Assets or Liabilities at Fair Value through Profit or Loss as appropriate in the Statement of Financial Position. Gains or losses on futures contracts are recognised in the Statement of Comprehensive Income.

During the year ended 31st October, 2025, the Brown Advisory Global Sustainable Total Return Bond Fund (GBP), the Brown Advisory Global Sustainable Total Return Bond Fund (USD) and Brown Advisory Global Sustainable Income Bond Fund (GBP) held futures contracts.

During the year ended 31st October, 2024, the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) and the Brown Advisory Global Sustainable Total Return Bond Fund (USD) held futures contracts.

e) Cash and Other Liquid Assets

Cash and other liquid assets will be valued at their face value together with accrued interest, where applicable, to the valuation point on the relevant dealing day unless, in the opinion of the Directors (in “consultation with” the Investment Manager and the Administrator), any adjustment should be made to reflect the true value thereof.

An umbrella cash collection account is maintained with Brown Brothers Harriman Trustee Services (Ireland) Limited, which has credit ratings of F1, as rated by Fitch, the balance in this account as of 31st October, 2025 is US\$(5,874,694) (31st October, 2024: US\$21,970).

Fund	As at 31st October, 2025 US\$	As at 31st October, 2024 US\$

Brown Advisory US Sustainable Value Fund	(13,104)	(28,210)
Total	(5,874,694)	(21,970)

f) Income and Expense Recognition

Dividend income is recognised in the Statement of Comprehensive Income on the date upon which the relevant security is listed as “ex-dividend” to the extent that information thereon is reasonably available to the Fund. Dividend and interest income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits. Bank deposit interest and other income and expenses are accounted for on an accruals basis.

g) Receivable for investments sold/Payable for investments purchased

Receivable for investments sold/Payable for investments purchased represent payables for securities purchased and receivables for securities sold that have been contracted for but not yet delivered on the Statement of Financial Position date.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)**
For the year ended 31st October, 2025**1 Statement of Accounting Policies (continued)****h) Taxation**

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B (1) of the Taxes Consolidation Act 1997, as amended. It is not chargeable to Irish tax on its income or capital gains. However, Irish tax can arise on the happening of a “chargeable event”.

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares or on the eighth anniversary of a Shareholder acquiring Shares and every subsequent eighth anniversary. Any tax arising on a chargeable event is a liability of the Shareholder, albeit it is paid by the Company (although if the Company fails to deduct the tax or the correct amount of tax it becomes ultimately a liability of the Company).

No tax will arise on the Company in respect of chargeable events in respect of a Shareholder who is:

- (i) an Exempt Irish Investor (as defined in Section 739D of the Taxes Consolidation Act 1997, as amended) who has provided the Company with the necessary signed statutory declarations; or
- (ii) who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided that the necessary signed declarations are held by the Company.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes or similar taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

i) Foreign Exchange Translation*Functional and Presentation Currency*

The functional and presentation currency of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP), Brown Advisory Global Sustainable Income Bond Fund (GBP) and BA Global Multi-Asset Growth Fund is Pound Sterling and for all other Funds is US Dollar. These are considered to be the currencies of the primary economic environments of each respective Fund. The presentation currency of the aggregated financial statements is US Dollar.

Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency of the Fund are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in currencies other than the functional currency of the Fund are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the results for the year. Proceeds from subscriptions and amounts paid for redemptions in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions.

j) Dividend Policy

The Constitution empower the Directors to declare dividends out of the profits of the relevant Fund being: (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund. The Directors may satisfy any dividend due to Shareholders in whole or in part by distributing to them in specie any of the assets of the relevant fund. A Shareholder may require the Company instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the Shareholder of the net proceeds of same.

The distributions on the distributing shares are recognised in the Statement of Comprehensive Income as finance costs when they are declared by the Board of Directors.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)**
For the year ended 31st October, 2025**1 Statement of Accounting Policies (continued)****k) Transaction Costs**

Transaction costs are the costs incurred in the acquisition, issue or disposal of financial assets and liabilities. Transaction costs include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are recognised on the Statement of Comprehensive Income under "Expenses". Transaction costs on trades charged by the Depositary are recognised on the Statement of Comprehensive Income under "Expenses".

l) Redeemable Participating Shares

Redeemable Participating Shares provide the Shareholders with the right to redeem their shares for cash equal to their proportionate share of the NAV of the Company and, accordingly, are classified as liabilities. The liability to Shareholders is presented in the Statement of Financial Position as "Net Assets Attributable to Holders of Redeemable Participating Shares" and is based on the residual assets of the Company after deducting all other liabilities.

m) Withholding Taxes

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders.

Dividend and interest income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, net of any tax credits.

n) Swing Pricing

The Funds may apply a single swing pricing mechanism in accordance with the Prospectus instead of the single price mechanism.

During the year ended 31st October, 2025, all Funds except for the Brown Advisory US Value Fund applied swing pricing adjustments. During the year ended 31st October, 2024, none of the Funds applied swing pricing adjustments.

The actual cost of purchasing or disposing of investments as a result of investors dealing in a Fund may have a materially disadvantageous effect on a Shareholder's interest in a Fund. To prevent this effect, known as "dilution", a swing pricing mechanism has been adopted by the Company as part of its valuation policy in order to seek to mitigate the effect of dilution, and to "swing" the NAV of a Fund to counter the possible negative effects of dilution.

Where the Directors so determine to apply swing pricing, the Administrator will calculate the NAV for the relevant Fund and then adjust ("swing") the NAV by an amount as pre-determined by the Directors.

Swing pricing will only be exercised for the purpose of reducing dilution, if it is in the interests of the Shareholders in the Fund as a whole.

The Swing Factor may vary from Fund to Fund and will not exceed 0.50% of the NAV per Share on any Dealing Day.

The aggregate emoluments of the Directors (US\$78,787 of which is related to out-of-pocket director expenses) for the year ended 31st October, 2025 was US\$269,552 (31st October, 2024: US\$237,311) of which US\$50,037 (31st October, 2024: US\$53,877) was outstanding at 31st October, 2025.

The following Director, who is connected with the Investment Manager, namely Mr. Brett D. Rogers is not entitled to fees for the years ended 31st October, 2025 and 31st October, 2024. Up to 31 December 2024 David M. Churchill was the Vice Chairman of Brown Advisory LLC and had waived his fee for acting as a Director.

15 Other Fees

The Company also pay out of the assets of the Funds, fees in respect of the publication and circulation of details of the NAV per Redeemable Participating Share, stamp duties, taxes, brokerage, the fees and expenses of auditors, tax, legal and other professional advisers.

16 Financial Risk Management**Strategy in Using Financial Instruments**

As an investment company, the Company invests in equities and other investments so as to achieve its investment objectives.

The objective of the Brown Advisory US Smaller Companies Fund, Brown Advisory US Equity Growth Fund, Brown Advisory US Small Cap Blend Fund, Brown Advisory US Flexible Equity Fund, Brown Advisory US Mid-Cap Growth Fund, Brown Advisory US Sustainable Growth Fund, BA Beutel Goodman US Value Fund, Brown Advisory US Sustainable Value Fund and the Brown Advisory US Value Fund is to achieve capital appreciation by investing primarily in US equities. The objective of the Brown Advisory Global Leaders Fund, BA Metropolis Global Value Fund, Brown Advisory Global Leaders Sustainable Fund and BA Beutel Goodman World Value Fund is to achieve capital appreciation by investing primarily in global equities. The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (GBP) is to target a positive total return (comprising current income and capital gains) above the Bank of England's SONIA Compounded Index) over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The objective of the Brown Advisory Global Sustainable Total Return Bond Fund (USD) is to target a positive total return (comprising current income and capital gains) above the Federal Reserve Bank of New York SOFR Index over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The objective of the Brown Advisory Global Sustainable Income Bond Fund (GBP) is to produce income over a full economic cycle, by investing in a broad range of global fixed-income securities and associated FDIs and currencies. The objective of the BA Global Multi-Asset Growth Fund is to seek long-term growth of capital by investing in a diversified portfolio of assets in different asset classes. In pursuing its investment objectives, the Company is exposed to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk that could result in a reduction in the Company's net assets.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)****For the year ended 31st October, 2025****16 Financial Risk Management (continued)****Strategy in Using Financial Instruments (continued)**

The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance.

The risks and the Directors' approach to the management of the risks are as follows:

Market Risk

The fair value or future cash flows of a financial instrument held by the Company may fluctuate because of changes in market prices. This market risk comprises three elements: market price risk, currency risk and interest rate risk. The Board of Directors reviews and agrees policies for managing these risks. The policies have remained substantially unchanged from those applying at the prior year end. The Company's Investment Manager assesses the exposure to market risk when making each investment decision, and monitors the overall level of market risk on the whole of the investment portfolios on an ongoing basis.

The Company calculates the global risk exposure as defined in UCITS Regulations of each sub fund using either the commitment approach or the absolute VaR approach. Forward foreign currency contracts may be used to hedge currency exchange risk arising from Hedged Share Classes of the Funds. Futures contracts may be used by certain Funds to hedge interest rate risk, to balance duration, and to synthetically create exposure to certain securities. Due to foreign exchange rate changes, changes to market values of underlying cash securities, or portfolio subscriptions/redemptions modest levels of inadvertent exposure may arise from time to time. In this case, the global exposures will be measured using the commitment approach based on the market value of the underlying assets i.e. the notional value of the currency leg(s).

Market Price Risk

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's assets consist principally of quoted equities, the values of which are determined by market forces. All security investments present a risk of loss of capital. The Investment Manager moderates this risk through a careful selection of securities within specified limits. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments.

The Board of Directors manages the market price risks inherent in the investment portfolios by ensuring full and timely access to relevant information from the Investment Manager. The Board of Directors meets regularly and at each meeting reviews investment performance and overall market positions. They monitor the Investment Manager's compliance with the Company's objectives.

An analysis of each Fund's investment portfolios is shown in the Statement of Investments. This shows the majority of the investments' value is in equity securities of US companies. Accordingly, there is a concentration of exposure to that country, though it is recognised that an investment's country of domicile or of listing does not necessarily equate to its exposure to the economic conditions in that country.

If prices of equity securities at 31st October, 2025 and at 31st October, 2024 had increased by 5%, with all other variables remaining constant, the increase in Net Assets Attributable to Holders of Redeemable Participating Shares is shown in the table below. Conversely, if prices had decreased by 5%, this would have resulted in an equal but opposite effect on Net Assets Attributable to Holders of Redeemable Participating Shares, on the basis that all other variables remain constant.

	Currency	NAV Impact 31st October, 2025	NAV Impact 31st October, 2024

*BA Beutel Goodman World Value Fund launched on 31st January, 2024.

In accordance with Company policy, the Investment Manager monitors the Company's currency position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

With the exception of Brown Advisory Global Sustainable Total Return Bond Fund (GBP), Brown Advisory Global Sustainable Total Return Bond Fund (USD) and Brown Advisory Global Sustainable Income Bond Fund (GBP) the majority of the Funds' financial assets and liabilities are non-interest bearing. As a result, they are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

In accordance with Company policy, the Investment Manager monitors the Funds' overall interest sensitivity on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events.

The tables below summarise the relevant Funds' exposure to interest rate risk at 31st October, 2025 and 31st October, 2024. It includes the Portfolios' non-derivative interest bearing assets and liabilities at fair value, categorised by the maturity dates. Other amounts and liabilities are not subject to changes in interest rates.

Credit Risk

The Company takes on exposure to credit risk, which is the risk that a counterparty or issuer will be unable to pay amounts in full when due.

The Brown Advisory Global Sustainable Total Return Bond Fund (GBP), Brown Advisory Global Sustainable Total Return Bond Fund (USD) and Brown Advisory Global Sustainable Income Bond Fund (GBP) invest in debt instruments that may receive a credit rating from a well-known rating agency. The credit ratings in the tables below are calculated as a percentage of fixed income securities, where there is a significant proportion of that Fund held as fixed income. The majority of the other Funds' financial assets are non-interest bearing equity securities. As a result, they are not subject to significant amounts of credit risk.

As at 31st October, 2025 and 31st October, 2024 the exposures by credit rating according to S&P and Moody's or Fitch converted to the equivalent S&P major rating category for each applicable Fund were as follows:

* Brown Advisory Global Sustainable Income Bond Fund (GBP) launched on 29th November, 2024.

Credit risk is managed, in part, by the Funds' investment restrictions, including that, subject to other provisions set forth in the Prospectus:

- (a) each Fund may not invest more than 10% of Net Assets in transferable securities or money market instruments issued by the same body provided that;
- (b) the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5%, is less than 40%;
- (c) A Fund may invest up to 100% of Net Assets in different transferable securities and money market instruments issued or guaranteed by any European Union ("EU") Member State, its local authorities, non-EU Member States or public international bodies of which one or more EU Member States are members or by Australia, Canada, Hong Kong, Japan, New Zealand, Switzerland, the United Kingdom, the United States or any of the other bodies listed in the Prospectus, provided that such a Fund must hold securities from at least six (6) different issues, with securities from any one issue not exceeding 30% of Net Assets.

All transactions in listed securities are settled in a timely manner. The risk of default is considered minimal.

For cash accounts, funds deposited are liabilities of the banks, creating a debtor-creditor relationship between the bank and the Company. Cash accounts opened on the books of Brown Brothers Harriman & Co. are obligations of Brown Brothers Harriman & Co., while cash accounts opened on the books of a sub-custodian (agency accounts) are obligations of the sub-custodian. Accordingly, while Brown Brothers Harriman & Co. is responsible for exercising reasonable care in the administration of agency cash accounts, it is not liable for their repayment in the event the sub-custodian, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)**
For the year ended 31st October, 2025**16 Financial Risk Management (continued)****Credit Risk (continued)**

All cash at bank balances at the year end are held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit, or directly with a sub-custodian.

The short-term credit rating for Brown Brothers Harriman & Co. is F1, this indicates the strongest intrinsic capacity for timely payment of financial commitments, as rated by Fitch.

The short-term credit ratings for those institutions where cash was held at the year end are outlined in the table below:

	Fitch 31st October, 2025	Fitch 31st October, 2024
ANZ	F1+	N/A
Bank of Nova Scotia	F1+	N/A
Barclays	F1	F1
BNP Paribas	N/A	F1
Canadian Imperial Bank of Commerce	F1+	N/A
Citibank	F1	F1
DBS	F1+	N/A
DNB	N/A	F1
HSBC	F1+	F1+
JP Morgan Chase	F1+	F1+
Nordea Bank ABP	N/A	F1+
Royal Bank of Canada	F1+	N/A
SEB	F1+	F1+

A short-term obligation rated "F1" is rated in the highest category by Fitch, which indicates the strongest capacity for timely payment of financial commitments relative to other issuers or obligations in the same country. Under the agency's National Rating scale, this rating is assigned to the lowest default risk relative to others in the same country or monetary union. Where the liquidity profile is particularly strong, a "+" is added to the assigned rating.

There is no cash held with those institutions marked as "n/a" for the year ends noted.

Brown Brothers Harriman & Co. performs both initial and ongoing due diligence on the sub-custodians in its global depository network. Such reviews include an assessment of the sub-custodian's financial strength and general reputation and standing and, at a minimum, meet the due diligence requirements established by applicable law. The financial analysis is focused on the sub-custodian bank's capital adequacy, asset quality, financial flexibility and strength, management expertise, earnings, and liquidity as key indicators of its financial standing in the market. These reviews are not audits.

In accordance with Company policy, the Investment Manager monitors the Funds' credit position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material event. There were no material changes to the Company's policies and processes for managing credit risk and the methods used to measure risk since the year end.

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Funds are exposed to daily cash redemptions of Redeemable Participating Shares. Redeemable Participating Shares are redeemed on demand at the holder's option based on the relevant Fund's NAV per Share at the time of redemption. The Funds invest the majority of their assets in equities that are traded in an active market and can be readily disposed of. The Funds' listed securities are considered readily realisable as they are listed on a recognised stock exchange.

BROWN ADVISORY FUNDS PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2025

16 Financial Risk Management (continued)**Liquidity Risk (continued)**

The Company may not repurchase Shares of any Fund during any period when the calculation of the NAV of the relevant Fund is suspended in the manner described under “Suspension of Calculation of NAV” in the Prospectus. Applicants for repurchases of Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

The Directors are entitled to limit the number of Shares in a Fund repurchased on any Dealing Day to Shares representing 10% of the total NAV of that Fund on that Dealing Day. In this event, the limitation will apply pro rata so that all Shareholders wishing to have Shares of that Fund repurchased on that Dealing Day realise the same proportion of such Shares. Shares not repurchased, but which would otherwise have been repurchased, will be carried forward for repurchase on the next Dealing Day and will be dealt with on a pro rata basis with repurchase requests received subsequently. If requests for repurchase are so carried forward, the Administrator will inform the Shareholders affected.

The Constitution contains special provisions where a repurchase request received from a Shareholder would result in Shares representing more than 5% of the Net Asset Value of any Fund being repurchased by the Company on any Dealing Day. In such a case, the Company may satisfy the repurchase request by a distribution of investments of the relevant Fund in specie having consulted with the Depositary, and provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Fund. Where the Shareholder requesting such repurchase receives notice of the Company’s intention to elect to satisfy the repurchase request by such a distribution of assets that Shareholder may require the Company, instead of transferring those assets, to arrange for their sale and the payment of the proceeds of sale to that Shareholder less any costs incurred in connection with such sale.

The Constitution provides that the Company cannot effect a repurchase of Shares, if after payment of any amount in connection with such repurchase, the NAV of the issued share capital of the Company would be equal to or less than Euro 300,000 or its foreign currency equivalent. This will not apply to a repurchase request accepted by the Directors in contemplation of the dissolution of the Company.

In calculating the issue or repurchase price, the Directors may on any Dealing Day where there are net subscriptions and/or redemptions, adjust the issue or redemption price by adding or deducting an anti-dilution levy to cover dealing costs and to preserve the value of the underlying assets of the Fund. Further details of the anti-dilution levy are set out in the relevant Supplement.

In accordance with Company policy, the Investment Manager monitors the Funds’ liquidity position on a daily basis. The Board of Directors relies upon the Investment Manager to keep it informed of any material events. There were no material changes to the Company’s policies and processes for managing liquidity risk and the methods used to measure risk since the year end.

The following tables split the Funds’ financial liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within twelve months equal their carrying balances as the impact of discounting is not significant.

BROWN ADVISORY FUNDS PLC

NOTES TO THE FINANCIAL STATEMENTS (continued)
For the year ended 31st October, 2025

16 Financial Risk Management (continued)**Fair Value Estimation**

FRS 102 on “Fair Value Disclosure” requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value. Amendments were made to this FRS, revising the disclosure requirements for financial institutions.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore are classified within level 1, include active listed equities. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include over-the-counter traded derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.
- (iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgement or estimation. As observable prices are not available for these securities, a Fund would use valuation techniques to derive the fair value. The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the Directors in consultation with the Investment Manager. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables provide an analysis within the fair value hierarchy of the Funds’ financial assets and liabilities measured at fair value at 31st October, 2025 and 31st October, 2024:

19 NAV per Redeemable Participating Share

The NAV per Redeemable Participating Share is calculated by dividing the total Net Assets of each Fund attributable to a class by the number of Redeemable Participating Shares of that class in issue.

In accordance with FRS 102, the Company has classified all its investments at fair value through profit or loss.

In accordance with the provisions of the Company's Prospectus, investment positions are valued based on the last price at the valuation point on the relevant valuation date for the purposes of determining the NAV per Redeemable Participating Share for shareholder dealing and for various fee calculations.

BROWN ADVISORY FUNDS PLC**NOTES TO THE FINANCIAL STATEMENTS (continued)**
For the year ended 31st October, 2025**19 NAV per Redeemable Participating Share (continued)***Recalculation of NAV for Pricing Purposes*

In accordance with FRS 102, for the purpose of calculating the shareholder dealing NAV, establishment expenses are being amortised over the first five financial years of the lifetime of the sub-fund. For financial statement purposes, establishment expenses, were entirely written off in the first financial year. US\$136,509 was amortised for the year ended 31st October, 2025 (31st October, 2024: US\$40,912). For BA Beutel Goodman US Value Fund US\$10,353 was amortized for the year ended 31st October, 2025 (31st October, 2024: US\$9,494), for Brown Advisory Global Sustainable Total Return Bond Fund (GBP) GBP8,256 was amortized for the year ended 31st October, 2025 (31st October, 2024: GBP16,807), for Brown Advisory Global Sustainable Total Return Bond Fund (USD) US\$Nil was amortized for the year ended 31st October, 2025 (31st October, 2024: US\$21,799), for Brown Advisory US Sustainable Value Fund US\$14,839 was amortized for the year ended 31st October, 2025 (31st October, 2024: US\$13,037), for BA Beutel Goodman World Value Fund US\$13,111 was amortized for the year ended 31st October, 2025 (31st October, 2024: US\$55,821 was paid), for Brown Advisory Global Sustainable Income Bond Fund (GBP)* GBP69,914 was paid for the period ended 31st October, 2025, for BA Global Multi-Asset Growth Fund** GBP45,780 was paid for the period ended 31st October, 2025, for Brown Advisory US Value Fund*** US\$34,406 was paid for the period ended 31st October, 2025.

* Brown Advisory Global Sustainable Income Bond Fund (GBP) launched on 29th November, 2024.

** BA Global Multi-Asset Growth Fund launched on 30th May, 2025.

*** Brown Advisory US Value Fund launched on 30th September, 2025.

20 Efficient Portfolio Management

The Company may employ techniques and instruments relating to transferable securities and/or other financial instruments in which it invests for investment purposes or hedging.

Where a Fund invests in financial derivative instruments for such purposes, a risk management process will be submitted to the Central Bank by the Company, prior to the Fund engaging in such transactions in accordance with the Central Bank's requirements and UCITS Regulations. The Company on behalf of the Funds, will on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

During the year ended 31st October, 2025, the Company engaged in currency class hedging to hedge against movements in the values of Hedged Share Classes as a result of changes in the exchange rates against the functional currency of the Fund of the respective currencies. The currency class hedging involves utilising forward foreign exchange contracts to provide a return hedged against fluctuations. This currency hedging policy will seek to limit Shareholders' risk of loss arising from an appreciation in the value of the currency of the Hedged Share Class relative to the value of the functional currency of the Fund.

The counterparties and the details of all open forward foreign currency contracts as at 31st October, 2025 are disclosed in the Statement of Investments.

21 Soft Commissions

During the year ended 31st October, 2025, the Investment Manager entered into soft commission arrangements with brokers/dealers whereby certain goods and services used by the Investment Manager are paid for by the commissions generated from trades executed under these arrangements. The goods and services are directly relevant and are used to assist in the provision to clients of investment management services or for valuation or performance measurement of portfolios.

These arrangements do not affect a broker's duty to provide best execution.

BROWN ADVISORY FUNDS PLC

APPENDIX 2 – REMUNERATION POLICY (UNAUDITED)

Overview

Brown Advisory (Ireland) Limited (the “**Manager**”) (as the manager of the Company) of the adopts the following remuneration policy (“**Remuneration Policy**”) for persons determined “*Identified Staff*” below.

The Board is directly responsible for the operating and organisational requirements of the UCITS Regulations, as well as ensuring that the Manager meets the requirements of the Central Bank UCITS Regulations.

In addition to the requirements of the UCITS Regulations, this Remuneration Policy also takes into consideration ESMA’s Guidelines on Sound Remuneration Policies under the UCITS Directive issued on 14 October 2016 (the “**ESMA Guidelines**”) and together with the UCITS Regulations the (“**Remuneration Requirements**”).

Proportionality

In preparing this Remuneration Policy, the Manager has made an assessment of the nature, scale and complexity of its business in line with the Remuneration Requirements and has determined that overall, its business activity is relatively low risk when compared against other entities with similar fund structures under management. The Remuneration Policy complies with the principles set out below in a manner which is proportionate to the size of the Manager, its internal organisation and the nature, scope, complexity of its activities.

Principles of the Remuneration Policy

The Remuneration Policy is consistent with and promotes sound and effective risk management and does not encourage risk-taking that exceeds the level of tolerated risk of the relevant Funds.

The Remuneration Policy is in line with the business strategy, objectives, values and interests of the Company and the Funds and includes measures to avoid conflicts of interest.

The Board is responsible for the implementation of the Remuneration Policy and will review it at least once per year.

Staff engaged in control functions are compensated in accordance with the achievement of the objective linked to their functions, independent of the performance of the business areas they control.

The Remuneration Policy assesses the performance in a multi-year framework appropriate to the life-cycle of the Funds.

The Remuneration Policy excludes guaranteed variable remuneration except for the first year of appointment.

Determination of the components of the Remuneration

The total annual remuneration of each member of Identified Staff comprises fixed remuneration under the form of a directorship fee, a salary or any other type of remuneration (“**Fixed Remuneration**”).

Determination of Identified Staff of the Manager

As at 31st October, 2025, the Fund did not have any employees and the Fund’s remuneration policy applies only to members of the Fund’s management body (i.e. the board of directors). As at 31st October, 2025, the Manager had twelve employees (including the board of directors and six secondees (designated persons responsible for the monitoring of certain management functions of the Manager). The Manager’s remuneration policy applies only to members of the Manager’s management body (i.e. the board of directors) and staff whose professional activities have a material impact on the risk profile of the Manager (together “*Identified Staff*”).

For the financial year end 31st October, 2025, only the four Directors whom are not a full time employee of the Manager or an affiliate received a fixed annual fee from the Fund in their roles as directors, which was in the aggregate € 250,240. None of the Directors are entitled to receive any variable remuneration from the Fund. The Fund has not paid remuneration to staff of any delegate to whom investment management functions have been delegated by the Fund. Instead, the Fund pays a management fee to the Manager outlined.

BROWN ADVISORY FUNDS PLC**APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)**

The agreement between the Manager and FundRock Management Company (Ireland) Limited ("FundRock") provides that FundRock will remain responsible for employing the Designated Persons and for their salary and other remuneration and that the Designated Persons will devote such of their time to the Manager and the Company as may be required to carry out their duties on behalf of the Manager and the Company. The remuneration of the Designated Persons is therefore not within the scope of this policy.

Determination of Identified Staff of the Investment Manager

The Remuneration Requirements also apply to all categories of staff of the Investment Manager whose professional activities have a material impact on the risk profile of the Company, at either the Company or Fund level.

The ESMA Guidelines provide that when assessing the materiality of influence on a management company's risk profile or on a UCITS it manages (whether as a management company or delegate), an entity should define what constitutes materiality within the context of their management company and the UCITS they manage. At a minimum, any Identified Staff of the Investment Manager that have a significant impact on the Manager's results and/or balance sheet and/or on the performance of the Funds they manage are considered to have material impact.

The ESMA Guidelines clarify that staff members such as administrative or logistical support staff that, given the nature of their job functions, clearly do not have any connection with the risk profile of the Manager or the UCITS, should not be considered risk takers. However, such exclusion only applies to support staff whereas staff heading the administration should be considered for inclusion as Identified Staff.

ESMA Q&A guidance states that remuneration-related disclosure requirements under Article 69(3)(a) of the UCITS Directive also apply to the staff of the delegate of a UCITS manager to whom investment management functions (including risk management) have been delegated (i.e., the Investment Manager). In line with the approach followed under the ESMA Guidelines, UCITS managers can ensure compliance in one of the following two ways:

- where the delegate is subject to regulatory requirements on remuneration disclosure for its staff to whom investment management (including risk management) activities have been delegated that are equally as effective as those under Article 69(3)(a) of UCITS Directive, the Manager should use the information disclosed by the delegate for the purposes of fulfilling its obligations under Article 69(3)(a) of the UCITS Directive; or
- in other cases, appropriate contractual arrangements should be put in place with the delegate allowing the Manager to receive (and disclose in the annual report for the relevant UCITS that it manages) at least information on the total amount of remuneration for the financial year, split into fixed and variable remuneration, paid by the Manager, the Company and, where relevant the UCITS (i.e. a sub-fund of the Company) itself to the identified staff of the delegate – and number of beneficiaries, and, where relevant, performance fee – which is linked to the delegated portfolio. This means that the disclosure should be done on a pro-rated basis for the part of the UCITS' assets which are managed by the Identified Staff within the delegate.

In both situations set out above, the disclosure may be provided on an aggregate basis (i.e., by means of a total amount for all the delegates of the Manager in relation to the relevant UCITS).

Sustainability Risk

The European Union published in December 2019 the Sustainable Finance Disclosure Regulation^[1] ("SFDR") which applies from 10th March, 2021. SFDR requires financial market participants and financial advisers to include in their remuneration policies details of how the policies are consistent with the integration of 'sustainability risks'. Therefore, starting from 1st January, 2021, individual and collective objectives will include elements related to the adherence to the sustainability risk framework to be embedded in investment processes. The compensation of Identified Staff will be determined considering the completion of these objectives.

BROWN ADVISORY FUNDS PLC**APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)****Remuneration of the Board and Control Functions**

The Board and Designated Persons will not receive any additional fixed or variable remuneration in connection with their work as Board members. Additionally, the MLRO and Company Secretary will not receive any additional fixed or performance-related remuneration in connection with the carrying out of control functions.

Pensions policy

The Manager does not make contributions towards pensions.

Payments related to the early termination of a contract

There is no policy currently in effect which relates to the early termination of a contract. In the case of early termination of a contract or departure of a member of Identified Staff prior to the performance-related remuneration date, no payments will be due to the member of Identified Staff.

Any payments related to the early termination of a contract of a member of Identified Staff shall reflect performance achieved over time and are designed in a way that they do not reward failure.

Personal hedging

Identified Staff will be prohibited from employing personal hedging strategies or insurance to undermine the risk alignment effects embedded in their remuneration arrangements. This prohibition will apply to deferred and retained performance-related remuneration.

Similarly, the Manager will ensure that performance-related remuneration is not paid through vehicles or methods are employed which aim at artificially evading the provisions of UCITS V Directive^[2].

Delegation

Guidance in relation to the extent to which the remuneration requirements of the UCITS V Directive apply to delegates of the Manager, including the Investment Manager, has been set out in the ESMA Guidelines. Further guidance on this issue has been prepared by the Remuneration Group within Irish Funds (the “**IF Guidance**”)

In accordance with the ESMA Guidelines and the IF Guidance, the Manager notes its obligation to ensure that the Investment Manager is either:

- subject to regulatory requirements on remuneration that are “equally as effective” as those applicable under the ESMA Guidelines; or
- that appropriate contractual agreements are in place to ensure that the delegation arrangements do not circumvent the remuneration requirements contained in the UCITS V Directive.

It further notes that:

- the Investment Manager may determine to disapply the remuneration principles of the UCITS V Directive on the grounds of proportionality - based on the proportionality criteria outlined in the ESMA Guidelines on (i) size, (ii) internal organisation and (iii) nature, scope and complexity of the relevant delegate’s business; and
- partnership structures which provide dividends or similar distributions to partners as the owners of the particular entity are not covered by the ESMA Guidelines.

^[1] “Sustainable Finance Disclosure Regulation” means Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector.

^[2] “UCITS V Directive” means Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards depositary functions, remuneration policies and sanctions.

BROWN ADVISORY FUNDS PLC**APPENDIX 2 – REMUNERATION POLICY (UNAUDITED) (CONTINUED)**

In this case, the Investment Manager is established as a limited liability company in the US and regulated by the local regulatory authority there, the Securities and Exchange Commission (“SEC”). As such it is not deemed subject to regulatory requirements on remuneration that are “*equally as effective*” as those applicable under the ESMA Guidelines.

The Investment Manager has confirmed to the Manager that: (i) it has reviewed this Remuneration Policy; and (ii) where the remuneration rules under this Remuneration Policy would otherwise be circumvented by the Investment Manager, it shall confirm to the Manager in writing on an annual basis that (a) it is subject to regulatory requirements on remuneration under its home jurisdiction that are equally as effective as the Remuneration Requirements; or (b) its staff who are “*Identified Staff*” for the purpose of the ESMA Guidelines are either exempt from or subject to remuneration rules that comply with the Remuneration Policy in order to ensure that there is no circumvention of the Remuneration Requirements as interpreted for delegates of the Manager from time to time, including with respect to any payments made to the Investment Manager’s identified staff as compensation for the performance of investment management activities on behalf of a Fund.

It is noted that as of the date of this Remuneration Policy the Investment Manager has confirmed that it has carried out an analysis of the remuneration rules pursuant to the Remuneration Policy determined to disapply the remuneration principles of the UCITS V Directive for it and its Identified Staff on the grounds of proportionality.

Review and amendments of the Remuneration Policy

The Remuneration Policy is reviewed by the Board at least once per year.

In reviewing the Remuneration Policy, the Board will consider whether the overall remuneration system:

- operates as intended (in particular, that all agreed plans/programmes are being covered; that the remuneration pay-outs are appropriate and that the risk profile, long-term objectives and goals of the Company are adequately reflected); and
- is compliant with national and international regulations, principles and standards.

Any amendment of the Remuneration Policy requires:

- first, an assessment of the amendment by the Designated Person responsible for Capital and Financial Management in light of the Principles of the Remuneration Policy; and
- Secondly, approval of the Board taking by a simple majority of those Directors present or represented at the relevant meeting.

Disclosure

The Manager discloses, without prejudice to confidentiality and data protection provisions, relevant information on the Remuneration Policy in its annual report, Prospectus and Key Investor Information Documentation.

The Remuneration Policy will be available to the Identified Staff of the Manager and the information disclosed to the Identified Staff should be at least that which is disclosed externally as part of the annual report.

Guidelines on payment basis

The fixed component of the remuneration collected by the Manager out of the net assets of a Fund will not be used to pay any performance-related remuneration to any Identified Staff member.

Award Process

In determining individual remuneration awards, the Manager will consider the full range of current and potential risks associated with the activities undertaken.

BROWN ADVISORY FUNDS PLC

APPENDIX 3 – SFDR DISCLOSURES (UNAUDITED)

The following Funds have been categorised as an Article 6 Funds for the purposes of Sustainable Finance Disclosure Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (“SFDR”): Brown Advisory US Small Cap Blend Fund, BA Metropolis Global Value Fund and BA Global Multi-Asset Growth Fund.

For the purpose of the Taxonomy Regulation, it should be noted that the investments underlying the Article 6 Funds do not take into account the EU criteria for environmentally sustainable economic activities.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Smaller Companies Fund
Legal entity identifier: 635400BKUIHWLUKZJT82

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

While the Fund invests in companies that the Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are:

Environmental Characteristics:

- good management of greenhouse gas emissions; and
- appropriate structures and expertise to mitigate potential environmental risks.

Social Characteristics:

- good human capital management, including a focus on the promotion of diversity at the board level; and
- track record of mitigating human rights related risks at the company and in the supply chain

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can collectively demonstrate a commitment to achieve the long-term outcomes associated with the environmental and social characteristics listed above, and that at least 80% of the Fund’s assets have an overall positive assessment of the Sustainability Characteristics and Sustainability Risks.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i)the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period
Overall responsible Management of environmental and social characteristics.	the percentage of the Fund’s investee companies with a sustainability assessment indicating a positive approach to environmental and social issues overall.	99.32%	98.16%
Good management of greenhouse gas emissions	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	85.27 tons CO2e/\$M revenue	64.01 tons CO2e/\$M revenue
Good human capital management, including a focus on the promotion of diversity at the board level	Weighted-average percentage of women on the board of the Fund’s investee companies	33.16%	34.38%
Track record of mitigating human rights related risks at the company and in the supply chain	The percentage of the Fund’s investee companies that comply with the United Nations Global Compact	100%	100%

● **...and compared to previous periods?**

The table above outlines the performance of the sustainability indicators for the prior reference period (refer to the section titled “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI indicators into account as part of its investment decision making process. In particular, through this process the Investment Manager has sought to minimise exposure to the following:

- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to

engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

Exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	CCC INTELLIGENT SOLUTIONS HOLDINGS INC	INFORMATION TECHNOLOGY	3.84%	US
2.	WASTE CONNECTIONS INC	INDUSTRIALS	3.38%	CA
3.	HEALTHEQUITY INC	HEALTH CARE	3.37%	US
4.	DYNATRACE INC	INFORMATION TECHNOLOGY	3.09%	US
5.	PROSPERITY BANCSHARES INC	FINANCIALS	3.02%	US
6.	OCEANEERING INTERNATIONAL INC	ENERGY	2.84%	US
7.	ESTABLISHMENT LABS HOLDINGS INC	HEALTH CARE	2.44%	CR
8.	BIO-TECHNE CORP	HEALTH CARE	2.39%	US
9.	BRIGHT HORIZONS FAMILY SOLUTIONS INC	CONSUMER DISCRETIONARY	2.37%	US
10.	STANDARDAERO INC	INDUSTRIALS	2.30%	US
11.	ENCOMPASS HEALTH CORP	HEALTH CARE	2.25%	US
12.	BRUKER CORP	HEALTH CARE	2.15%	US
13.	VALMONT INDUSTRIES INC	INDUSTRIALS	2.10%	US
14.	CURTISS-WRIGHT CORP	INDUSTRIALS	2.08%	US
15.	CASEY'S GENERAL STORES INC	CONSUMER STAPLES	2.03%	US

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 95.8% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;

Asset allocation describes the share of investments in specific assets.

- 4.2% of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics.
- 3.55% of the assets (by Fund value) comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and/or risk management. The remainder includes companies that did not meet the criteria for having a sustainability assessment indicating an overall positive approach to environmental and social issues overall (as described in “To what extent were the environmental and/or social characteristics promoted by this financial product met?”).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● *In which economic sectors were the investments made?*

Sector	% Assets
INDUSTRIALS	30.71%
INFORMATION TECHNOLOGY	25.14%
HEALTH CARE	18.51%
CONSUMER DISCRETIONARY	5.30%
FINANCIALS	4.55%
MATERIALS	3.55%
ENERGY	3.34%
CASH	2.69%
COMMUNICATION SERVICES	2.07%
CONSUMER STAPLES	2.03%
REIT	1.26%
REAL ESTATE	0.85%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

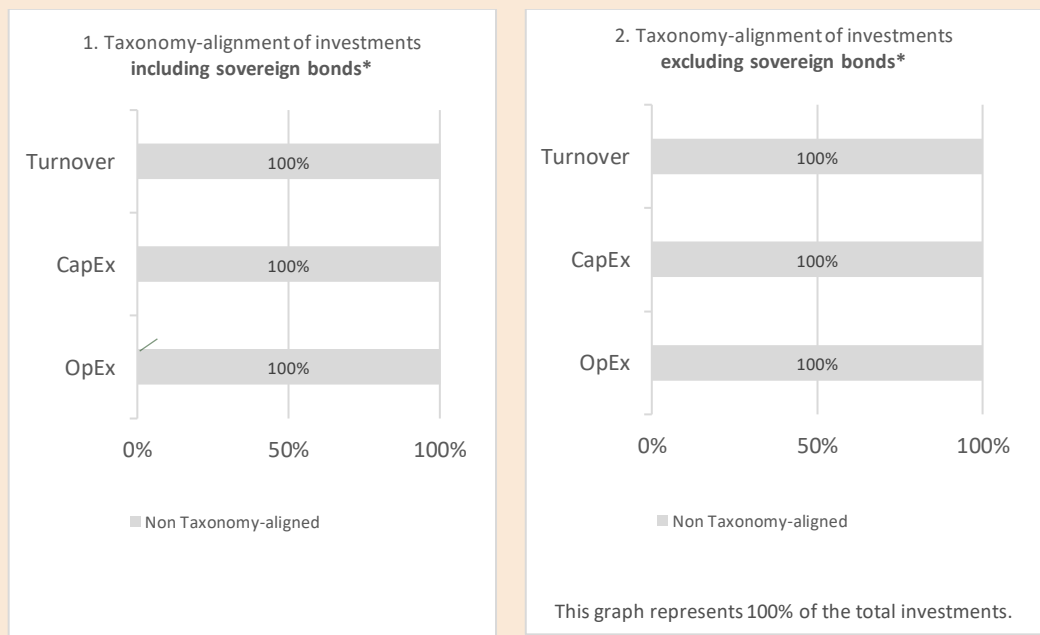

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Investment Manager nevertheless applied the exclusions set out in the Fund’s exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Equity Growth Fund
Legal entity identifier: 635400HPBCZBFVELE530

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted

While the Fund invests in companies that the Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are:

Environmental Characteristics:

- good management of greenhouse gas emissions; and
- appropriate structures and expertise to mitigate potential environmental risks.

Social Characteristics:

- good human capital management, including a focus on the promotion of diversity at the board level; and
- track record of mitigating human rights related risks at the company and in the supply chain

The Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can collectively demonstrate a commitment to achieve the long-term outcomes associated with the environmental and social characteristics listed above, and that at least 80% of the Fund’s assets have an overall positive assessment of the Sustainability Characteristics and Sustainability Risks.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations:

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period
Overall responsible Management of environmental and social characteristics.	the percentage of the Fund’s investee companies with a sustainability assessment indicating a positive approach to environmental and social issues overall.	100%	100%
Good management of greenhouse gas emissions	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	32.97 tons CO2e/\$M revenue	40.36 tons CO2e/\$M revenue
Good human capital management, including a focus on the promotion of diversity at the board level	Weighted-average percentage of women on the board of the Fund’s investee companies	35.02%	34.73%
Track record of mitigating human rights related risks at the company and in the supply chain	The percentage of the Fund’s investee companies that comply with the United Nations Global Compact	100%	100%

● **...and compared to previous periods?**

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI indicators into account as part of its investment decision making process. In particular, through this process the Investment Manager has sought to minimise exposure to the following:

- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	Largest investments	Sector	% Assets	Country

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

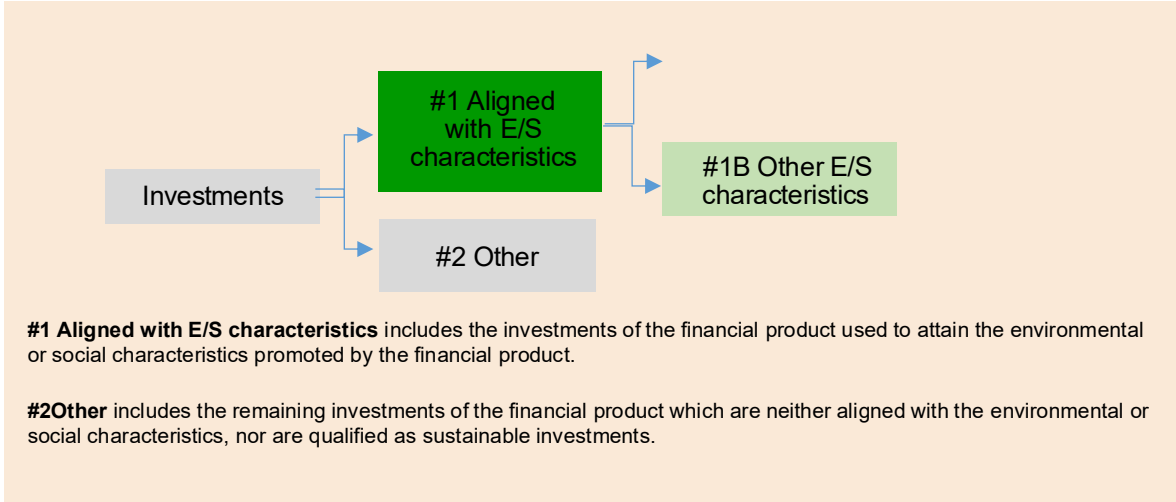

- 96.92% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics.

3.08% of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics. All these assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and/or risk management.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Sector	% Assets
INFORMATION TECHNOLOGY	36.51%
INDUSTRIALS	14.69%
COMMUNICATION SERVICES	12.64%
HEALTH CARE	10.53%
CONSUMER DISCRETIONARY	10.27%
FINANCIALS	7.30%
CONSUMER STAPLES	3.32%
CASH	2.68%
REAL ESTATE	2.06%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

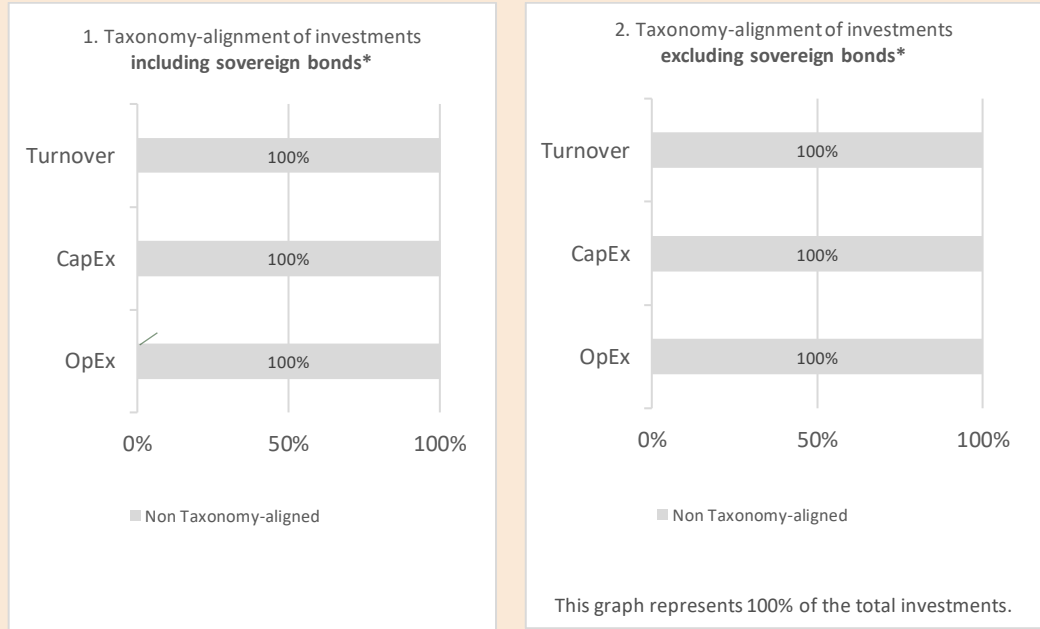

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Investment Manager nevertheless applied the exclusions set out in the

Fund's exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under "#2 Other" comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager's approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager's consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund's attainment of the characteristics.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Flexible Equity Fund
Legal entity identifier: 6354009EDBCKOR1LBX12

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

While the Fund invests in companies that the Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are:

Environmental Characteristics:

- good management of greenhouse gas emissions; and
- appropriate structures and expertise to mitigate potential environmental risks.

Social Characteristics:

good human capital management, including a focus on the promotion of diversity at the board level; and
 track record of mitigating human rights related risks at the company and in the supply chain

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can collectively demonstrate a commitment to achieve the long-term outcomes associated with the environmental and social characteristics listed above, and that at least 80% of the Fund’s assets have an overall positive assessment of the Sustainability Characteristics and Sustainability Risks.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations:

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period
Overall responsible Management of environmental and social characteristics.	the percentage of the Fund’s investee companies with a sustainability assessment indicating a positive approach to environmental and social issues overall.	100%	98.56%
Good management of greenhouse gas emissions	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	34.45 tons CO2e/\$M revenue	28.99 tons CO2e/\$M revenue
Good human capital management, including a focus on the promotion of diversity at the board level	Weighted-average percentage of women on the board of the Fund’s investee companies	32.03%	33.05%
Track record of mitigating human rights related risks	The percentage of the Fund’s investee companies that comply with the United Nations Global Compact	100%	100%

Characteristic	Sustainability Indicator	Current Period	Prior Period
at the company and in the supply chain			

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI indicators into account as part of its investment decision making process. In particular, through this process the Investment Manager has sought to minimise exposure to the following:

- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

Exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	MICROSOFT CORP	INFORMATION TECHNOLOGY	7.43%	US

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● **What was the asset allocation?**

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 96.66% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 3.34% of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics. All these assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and/or risk management.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

Sector	% Assets
INFORMATION TECHNOLOGY	24.50%
FINANCIALS	23.89%
COMMUNICATION SERVICES	14.04%
CONSUMER DISCRETIONARY	11.70%
INDUSTRIALS	10.41%
HEALTH CARE	9.15%
CASH	2.36%
ENERGY	2.10%
CONSUMER STAPLES	1.85%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

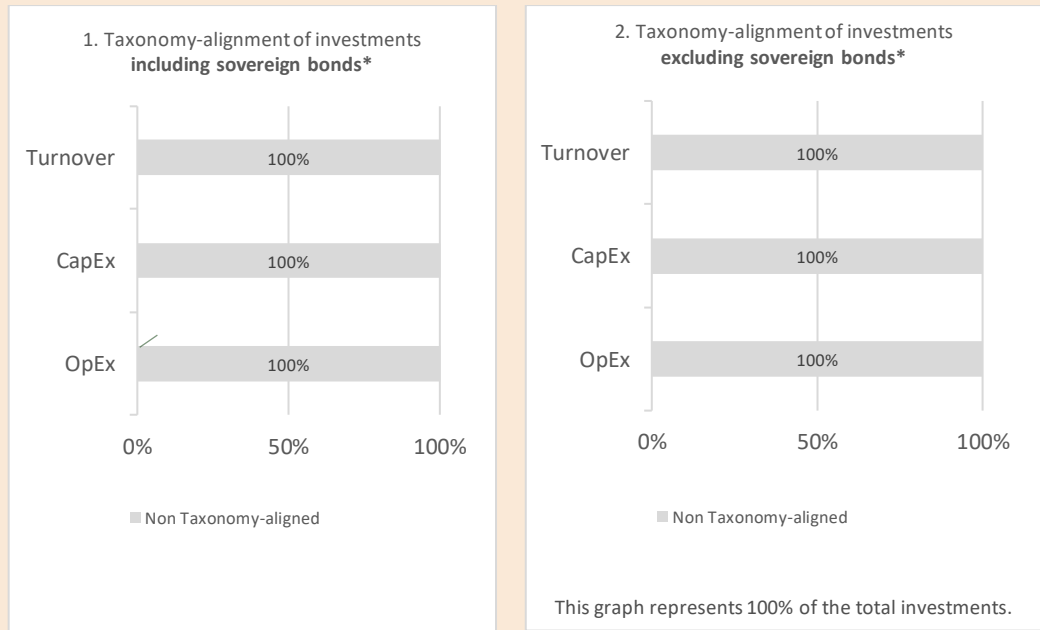

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Investment Manager nevertheless applied the exclusions set out in the Fund’s exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Brown Advisory Funds plc - Brown Advisory Global Leaders Fund
Legal entity identifier: 635400WHXWLZELLOYF49

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 89.67% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund are:

- Emissions Reduction: companies with internal strategies to reduce emissions;
- Resource Efficiency: companies implementing efficient operations that reduce resource use; and/or
- Positive Environmental or Social Outcomes: companies with products or services that: (i) help customers to be more resource efficient; and/or (ii) help to solve sustainability challenges.

While the environmental and social characteristics promoted by the Fund have long-term outcomes (e.g., emissions and resource reductions must be assessed over the long-term and may fluctuate year on year), the Sub-Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the

results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments have (as at the end of this reporting period) an allocation of 89.67% to Sustainable Investments, which meet the objectives set out below.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations.

For the “resource efficiency” and “positive environmental or social outcomes” characteristics, each company is attributed to the characteristic that the Sub-Investment Manager considers **most relevant** to that company. For example, the figures below do not mean that only 12.13% of the Fund is resource efficient; instead, for 12.13% of the Fund, resource efficiency is the main sustainable driver.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period																
Emissions reduction	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced) the percentage of the companies in the Fund with an emissions reduction target	18.04 tons CO2e/\$M revenue	19.22 tons CO2e/\$M revenue																
		<table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>67.77%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>30.56%</td> </tr> <tr> <td>No Published Targets</td> <td>1.66%</td> </tr> </tbody> </table>	Target Status	%	SBTi approved Target – 1.5 degrees C	67.77%	Targets Published Independently of SBTi	30.56%	No Published Targets	1.66%	<table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>9.47%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>59.10%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>29.20%</td> </tr> <tr> <td>No Published Targets</td> <td>2.23%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	9.47%	SBTi approved Target – 1.5 degrees C	59.10%	Targets Published Independently of SBTi	29.20%

Resource efficiency	the percentage of the companies in the Fund the Sub-Investment Manager has identified to be resource efficient.	12.13%	10.19%																

Characteristic	Sustainability Indicator	Current Period	Prior Period
Positive environmental or social outcomes	the percentage of the companies in the Fund the Sub-Investment Manager has identified to have products or services that: (i) help customers to be more resource efficient, and/or (ii) help to solve sustainability challenges.	85.72%	82.93%

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

- I) improved climate conditions that may otherwise impose risks to economic stability; and/or
- II) a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance.

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

* ‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Companies are not considered to be Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Sub-Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Sub-Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Sub-Investment Manager’s broader assessment of the sustainability characteristics of a company both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Sub-Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s risk management profile, which includes reviewing the PAI Indicators at a fund level on a quarterly basis.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each company within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti- bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI

indicators into account as part of its broader assessment process. In particular, the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Evaluation of the above listed PAIs forms part of the Sub-Investment Manager’s due diligence, and if performance is deemed to be lagging the Sub-Investment Manager may seek to engage with the company to encourage remedial action that will address any identified risks to investment performance.

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 98.18% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 91.33% of the companies that promoted one or more environmental and/or social characteristics (by Fund value) were assessed to be Sustainable Investments; and
- 1.82% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

SECTOR	% ASSETS
FINANCIALS	32.33%
INFORMATION TECHNOLOGY	22.80%
INDUSTRIALS	18.58%
HEALTH CARE	7.88%
COMMUNICATION SERVICES	7.84%
CONSUMER DISCRETIONARY	3.97%
CONSUMER STAPLES	3.75%
MATERIALS	1.45%
CASH	1.40%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
- In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

0%

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

53.35% of the companies within the Fund were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

37.98% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Sub-Investment Manager’s consistent overall approach rather than in any individual actions.

The Sub-Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Mid Cap Growth Fund
Legal entity identifier: 635400WCNXNXYKVRA844

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> Yes	<input checked="" type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

While the Fund invests in companies that the Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are:

Environmental Characteristics:

- good management of greenhouse gas emissions; and
- appropriate structures and expertise to mitigate potential environmental risks.

Social Characteristics:

- good human capital management, including a focus on the promotion of diversity at the board level; and
- track record of mitigating human rights related risks at the company and in the supply chain

The Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can collectively demonstrate a commitment to achieve the long-term outcomes associated with the environmental and social characteristics listed above, and that at least 80% of the Fund’s assets have an overall positive assessment of the Sustainability Characteristics and Sustainability Risks.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i)the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● ***How did the sustainability indicators perform?***

The performance of each indicator is in line with current expectations:

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period
Overall responsible Management of environmental and social characteristics.	the percentage of the Fund’s investee companies with a sustainability assessment indicating a positive approach to environmental and social issues overall.	96.48%	98.23%
Good management of greenhouse gas emissions	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	153 tons CO2e/\$M revenue	62.71 tons CO2e/\$M revenue
Good human capital management, including a focus on the promotion of diversity at the board level	Weighted-average percentage of women on the board of the Fund’s investee companies	34.88%	33.73%
Track record of mitigating human rights related risks at the company and in the supply chain	The percentage of the Fund’s investee companies that comply with the United Nations Global Compact	100%	100%

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI indicators into account as part of its investment decision making process. In particular, through this process the Investment Manager has sought to minimise exposure to the following:

- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

Exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	Largest investments	Sector	% Assets	Country
1.	WEST PHARMACEUTICAL SERVICES IN	HEALTH CARE	3.83%	US

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 93.06% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 6.94% of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics.
- 3.54% of the assets (by Fund value) comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and/or risk management. The remainder includes companies that did not meet the criteria for having a sustainability assessment indicating an overall positive approach to environmental

Asset allocation describes the share of investments in specific assets.

and social issues overall (as described in “To what extent were the environmental and/or social characteristics promoted by this financial product met?”).

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Sector	% Assets
INFORMATION TECHNOLOGY	22.14%
HEALTH CARE	21.24%
INDUSTRIALS	19.95%
CONSUMER DISCRETIONARY	14.08%
ENERGY	4.32%
COMMUNICATION SERVICES	3.83%
FINANCIALS	3.62%
CASH	3.37%
REAL ESTATE	3.21%
MATERIALS	2.02%
UTILITIES	1.48%
CONSUMER STAPLES	0.74%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas

In nuclear energy

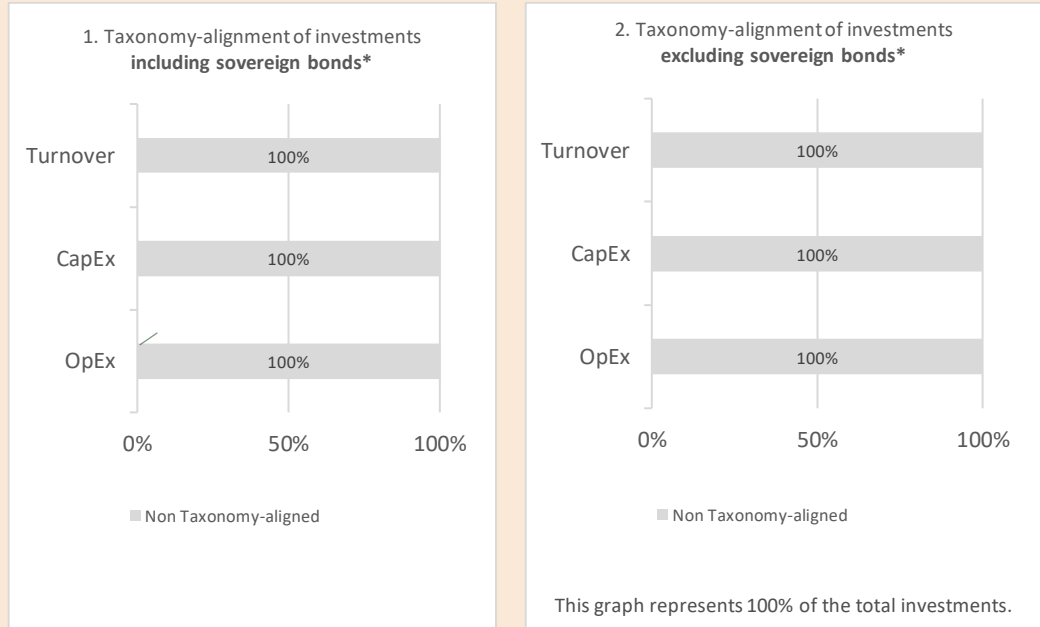

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Investment Manager nevertheless applied the exclusions set out in the Fund’s exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Sustainable Growth Fund
 Legal entity identifier: 635400YQDOEVKMPDS494

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 83.52% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund are:

- Emissions Reduction: companies with internal strategies to reduce emissions;
- Resource Efficiency: companies implementing efficient operations that reduce resource use; and/or
- Positive Environmental or Social Outcomes: companies with products or services that: (i) help customers to be more resource efficient; and/or (ii) help to solve sustainability challenges.

While the environmental and social characteristics promoted by the Fund have long-term outcomes (e.g., emissions and resource reductions must be assessed over the long-term and may fluctuate year on year), the Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can collectively demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best

demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments have (as at the end of this reporting period) an allocation of 83.52% to Sustainable Investments, which meet the objectives set out below.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations/

For the “resource efficiency” and “positive environmental or social outcomes” characteristics, each company is attributed to the characteristic that the Sub-Investment Manager considers most relevant to that company. For example, the figures below do not mean that only 9.26% of the Fund is resource efficient; instead, for 9.26% of the Fund, resource efficiency is the main sustainable driver.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period																						
Emissions reduction	<p>weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced)</p> <p>the percentage of the companies in the Fund with an emissions reduction target</p>	<p>23.25 tons CO2e/\$M revenue</p> <table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>8.70%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>48.45%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>32.28%</td> </tr> <tr> <td>No Published Targets</td> <td>8.98%</td> </tr> <tr> <td>SBTi approved Target – well-below 2 degrees C</td> <td>1.58%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	8.70%	SBTi approved Target – 1.5 degrees C	48.45%	Targets Published Independently of SBTi	32.28%	No Published Targets	8.98%	SBTi approved Target – well-below 2 degrees C	1.58%	<p>12.09 tons CO2e/\$M revenue</p> <table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>11.51%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>44.49%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>34.34%</td> </tr> <tr> <td>No Published Targets</td> <td>9.66%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	11.51%	SBTi approved Target – 1.5 degrees C	44.49%	Targets Published Independently of SBTi	34.34%	No Published Targets	9.66%

--	--	--	--

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

- I. improved climate conditions that may otherwise impose risks to economic stability; and/or
- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance.

Corporate, securitized and supranational issuers contributed to these objectives as a result of their primary products, services or operations in turn positively contributing to one or more of the following sustainable levers:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

*‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Investments cannot be considered Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators

- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund’s exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund’s Supplement.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Investment Manager’s broader assessment of the sustainability characteristics of a company both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s risk management profile, which includes reviewing the PAI Indicators at a fund level on a quarterly basis.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details: Yes.

Each company within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI indicators into account as part of its broader assessment process. In particular, the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Board gender diversity (PAI 13, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Evaluation of the above listed PAIs forms part of the Investment Manager’s due diligence, and if performance is deemed to be lagging the Investment Manager may seek to engage with the

company to encourage remedial action that will address any identified risks to investment performance.

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

What were the top investments of this financial product?

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	NVIDIA CORP	INFORMATION TECHNOLOGY	9.12%	US
2.	MICROSOFT CORP	INFORMATION TECHNOLOGY	9.07%	US

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

What was the proportion of sustainability-related investments?

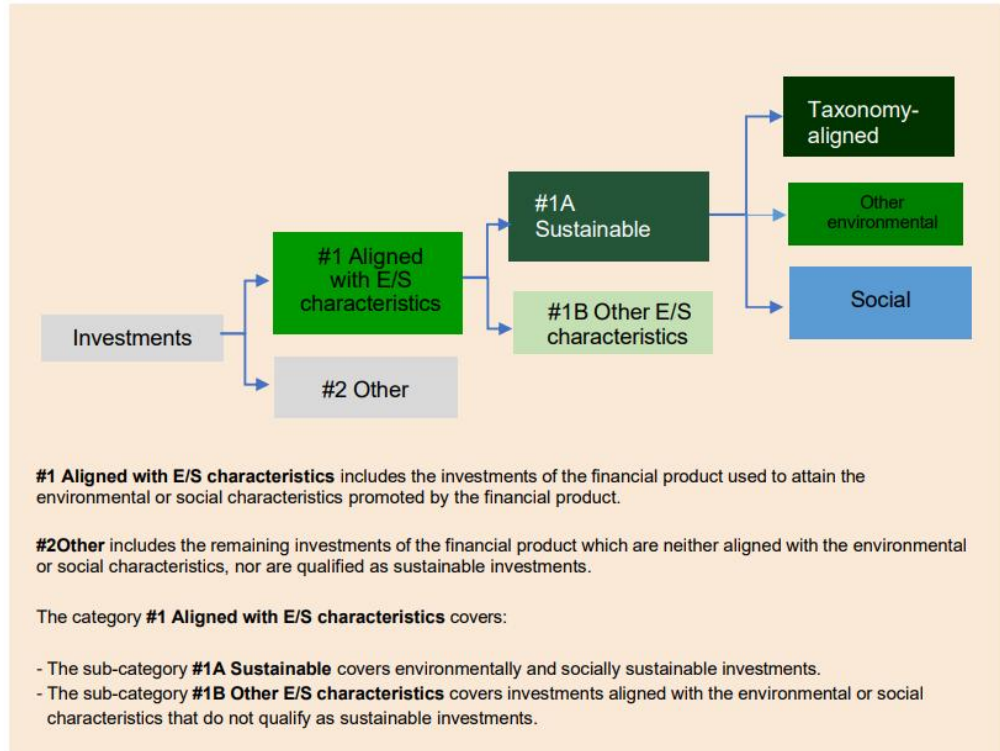

● **What was the asset allocation?**

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

Asset allocation describes the share of investments in specific assets.

- 98.03% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 85.20% of the companies that promoted one or more environmental and/or social characteristics (by Fund value) were assessed to be Sustainable Investments; and
- 1.97% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management

In which economic sectors were the investments made?

Sector	% Assets
INFORMATION TECHNOLOGY	47.90%
FINANCIALS	16.22%
INDUSTRIALS	11.76%
CONSUMER DISCRETIONARY	10.50%
HEALTH CARE	7.28%
COMMUNICATION SERVICES	3.12%
MATERIALS	1.95%
CASH	1.27%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

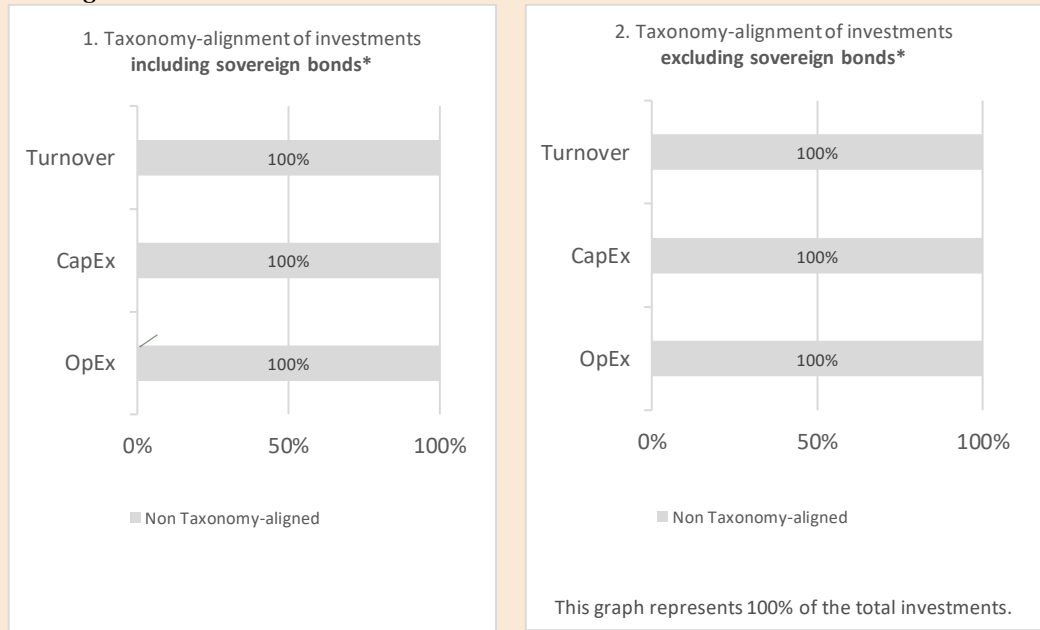

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes: In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0%

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

51.4% of the companies within the Fund were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

32.45% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory Global Leaders Sustainable Fund
 Legal entity identifier: 635400P3DLZQRU6FSW86

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 89.87% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund are:

- Emissions Reduction: companies with internal strategies to reduce emissions;
- Resource Efficiency: companies implementing efficient operations that reduce resource use; and/or
- Positive Environmental or Social Outcomes: companies with products or services that: (i) help customers to be more resource efficient; and/or (ii) help to solve sustainability challenges.

While the environmental and social characteristics promoted by the Fund have long-term outcomes (e.g., emissions and resource reductions must be assessed over the long-term and may fluctuate year on year), the Sub-Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-

Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments have (as at the end of this reporting period) an allocation of 89.87% to Sustainable Investments, which meet the objectives set out below.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations.

For the “resource efficiency” and “positive environmental or social outcomes” characteristics, each company is attributed to the characteristic that the Sub-Investment Manager considers **most relevant** to that company. For example, the figures below do not mean that only 12.51% of the Fund is resource efficient; instead, for 12.51% of the Fund, resource efficiency is the main sustainable driver.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period																		
Emissions reduction	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced) the percentage of the companies in the Fund with an emissions reduction target	18.08 tons CO2e/\$M revenue <table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>66.75%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>31.54%</td> </tr> <tr> <td>No Published Targets</td> <td>1.71%</td> </tr> </tbody> </table>	Target Status	%	SBTi approved Target – 1.5 degrees C	66.75%	Targets Published Independently of SBTi	31.54%	No Published Targets	1.71%	19.32 tons CO2e/\$M revenue <table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>9.85%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>57.58%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>30.25%</td> </tr> <tr> <td>No Published Targets</td> <td>2.32%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	9.85%	SBTi approved Target – 1.5 degrees C	57.58%	Targets Published Independently of SBTi	30.25%	No Published Targets	2.32%

	<p>identified to have products or services that: (i) help customers to be more resource efficient, and/or (ii) help to solve sustainability challenges.</p>		
--	---	--	--

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to the objectives of climate transition and climate mitigation as well as more general sustainability outcomes. The Sustainable Investments contributed to these objectives as a result of their economic activities which in turn positively contribute to one or more of the following sustainable themes:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

* ‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Companies are not considered to be Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Sub-Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)

- compliance with the Fund’s exclusion policy, including both norms based and revenue based exclusions as set out in more detail in the Fund’s Supplement.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Sub-Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Sub-Investment Manager’s broader assessment of the sustainability characteristics of a company both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Sub-Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s risk management profile, which includes reviewing the PAI Indicators at a fund level on a quarterly basis.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each company within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI indicators into account as part of its broader assessment process. In particular, the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti- corruption and anti- bribery matters.

Evaluation of the above listed PAIs forms part of the Sub-Investment Manager’s due diligence, and if performance is deemed to be lagging the Sub-Investment Manager may seek to engage with the company to encourage remedial action that will address any identified risks to investment performance.

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

What was the proportion of sustainability-related investments?

● What was the asset allocation?

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 98.69% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;

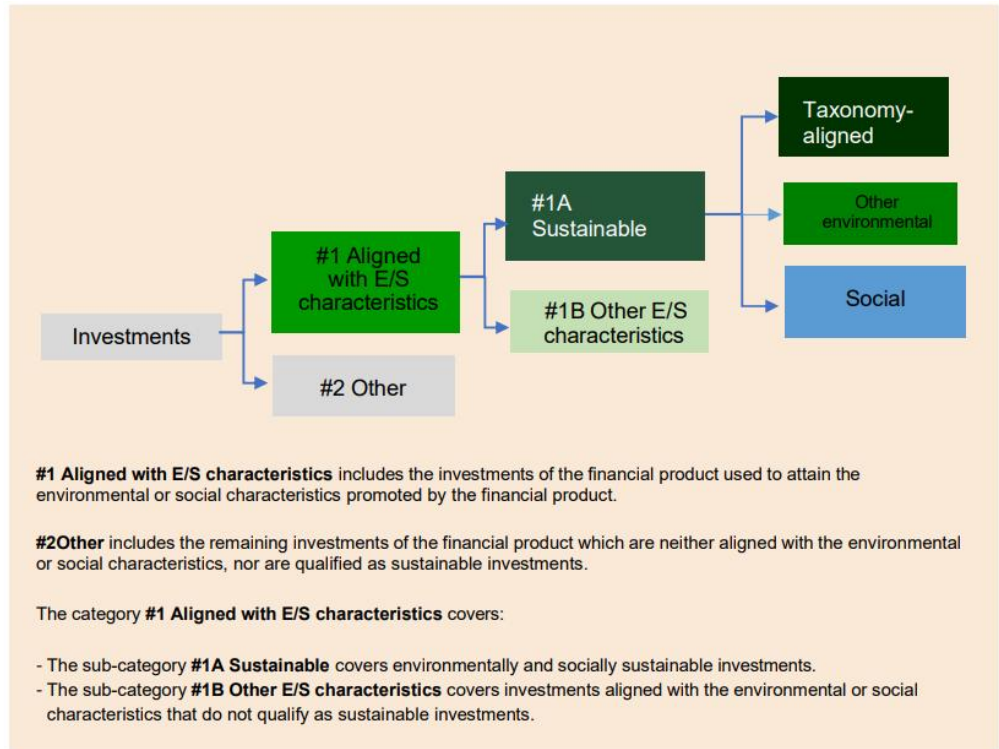

Asset allocation describes the share of investments in specific assets.

- 91.07% of the companies that promoted one or more environmental and/or social characteristics (by Fund value) were assessed to be Sustainable Investments; and
- 1.31% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Sector	% Assets
FINANCIALS	33.22%
INFORMATION TECHNOLOGY	23.41%
INDUSTRIALS	16.00%
HEALTH CARE	8.08%
COMMUNICATION SERVICES	8.04%
CONSUMER DISCRETIONARY	4.07%
CONSUMER STAPLES	3.85%
CASH	1.80%
MATERIALS	1.48%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

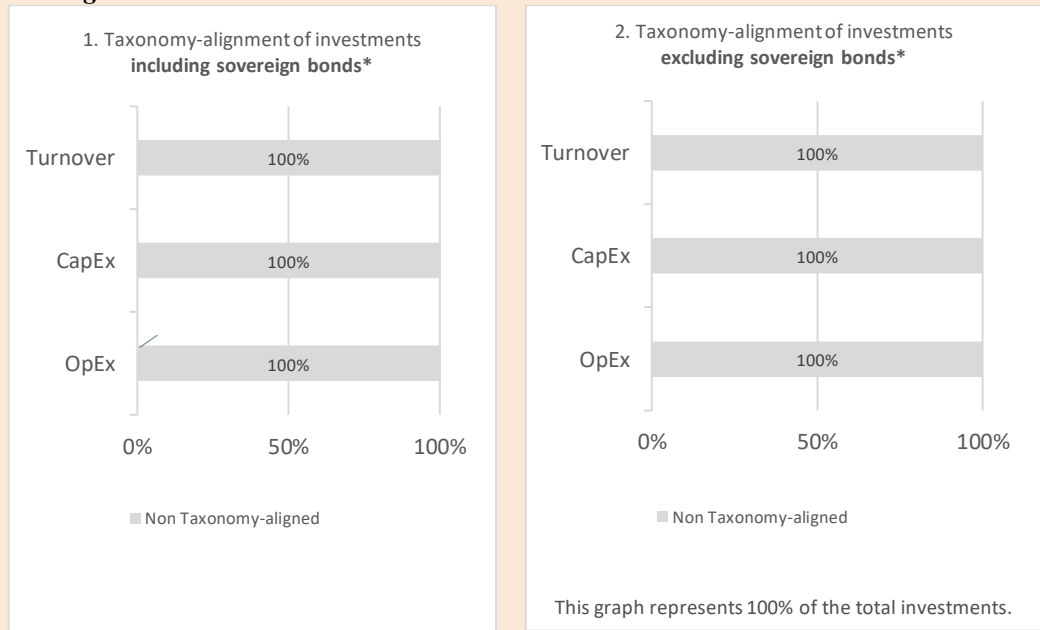

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes: In fossil gas In nuclear energy
 No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0%

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

51.87% of the companies within the Fund were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

39.19% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Sub-Investment Manager’s consistent overall approach rather than in any individual actions.

The Sub-Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: BA Beutel Goodman U.S. Value Fund
Legal entity identifier: 6354002F2ICLDM3QCY81

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

While the Fund invests in companies that the Sub-Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are rooted in materiality and include:

Environmental Characteristics:

- Efficient and/or effective management of natural resource usage.
- Relevant governance expertise to mitigate environmental risks as monitored through factors such as carbon emissions, energy, waste, and/or water.

Social Characteristics:

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Leadership in human capital management, including a focus on diversity at the Board level.

Compliance with global standards (e.g. UN Global Compact or UN Guiding Principles).

The Sub-Investment Manager considers that the Fund has effectively met the promoted characteristics by ensuring that all invested assets of the Fund have demonstrated their alignment to one or more of the characteristics over the reporting period.

The Fund has adopted and at all times respected binding restrictions around not investing in companies deriving significant revenue from tobacco and recreational drugs, adult entertainment, casinos and gaming, thermal coal and conventional weapons/ammunition (significant revenue is defined as 10% or greater). Further the Fund will not invest in companies that are involved in oil and gas exploration and production (primary business or 50%+ of revenue) or manufacture controversial weapons (0% total revenue). Companies that the Sub-Investment Manager is aware are involved in severe and widespread controversies in violation of the principles of the UN Global Compact framework will also be excluded from investment.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager’s thorough in-house, bottom-up research process that uses qualitative and quantitative data to assess a company’s performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● ***How did the sustainability indicators perform?***

The Fund uses the following sustainability indicators:

- Available indicators for adverse impacts on sustainability factors as described in Annex I of SFDR (“PAIs”)
- Sustainability Risk evaluation (internal qualitative and / or quantitative assessment)
- Sustainability performance evaluation (internal qualitative and / or quantitative assessment)
- Specific environmental sustainability indicators (e.g., carbon footprint)
- Specific social sustainability indicators (e.g., diversity metrics).

The Sub-Investment Manager obtained sustainability information directly from company reporting and external data providers, such as MSCI and Bloomberg. Performance data is not yet available for 2025 sustainability indicators but is expected to be available in 2026 for reporting. Available data was gathered below to provide highlights for 2024.

Characteristic	Sustainability Indicator	2024	Comment
Environmental			

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	2024	Comment
Good management of greenhouse gas emissions	weighted-average greenhouse gas emissions intensity of the Fund's investee companies in terms of the Greenhouse Gas Protocol's definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	21.16	The portfolio has a relatively low Weighted Average Carbon Intensity (WACI) versus its benchmark. Scope 3 emissions are excluded from the calculations due to discrepancies in data.
Social			
Good human capital management, including a focus on the promotion of diversity at the board level	weighted-average percentage of women on the board of the Fund's investee companies	35%	The portfolio-level board gender diversity is above 30%, aligned with one of the targets of the 30% Club, a global campaign to achieve a minimum of 30% female representation on corporate boards.
Strategic oversight, including appropriate policies and track record of mitigating human rights related risks at the company and in the supply chain	the percentage of the Fund's investee companies that comply with the United Nations Global Compact	100%	All portfolio companies comply with UNGC principles. This is part of the investment screen the Sub-Investment Manager performs for the Fund.

● **...and compared to previous periods?**

On the environmental side, the portfolio reports reduced weighted average greenhouse gas (GHG) emissions intensity compared to the previous year. Portfolio-financed emissions increased in the same period. The Sub-Investment Manager attributes this to company-level decarbonization and fund asset growth. The Sub-Investment Manager will continue to measure the Fund's carbon footprint and engage with companies in the Fund on their efforts to reduce GHG emissions and reach climate commitments.

From a social perspective, the portfolio-level board gender diversity has increased slightly over the past year, with over 30% female representation on the board at the portfolio level. This aligns with one of the targets of the 30% Club, a global campaign to achieve a minimum of 30% female representation on corporate boards.

Some PAI indicators have low data consistency and quality and are therefore not meaningful in the Sub-Investment Manager's view.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI information into account as part of its investment decision making process.

The Sub-Investment Manager considers the PAIs that current and prospective portfolio companies have on sustainability factors. Most material factors to an investment are identified through a mixture of internal research, data from reputable third-party data providers, and meetings with company management. Using a bottom-up, disciplined, value-investing approach, each research report or update the Sub-Investment Manager prepares incorporates sustainability considerations.

The Sub-Investment Manager has sought to avoid companies with material environmental and social controversies, in part because these controversies are sometimes reflective of weaknesses in the management team and its outlook.

The PAIs identified in the valuation assessments have also formed a basis for identifying potentially productive avenues for engaging in active ownership with the assets. The Sub-Investment Manager believes that specific interventions, whether achieved through direct engagement with the

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

management team, proxy voting or collaborating with other investors, are most effective when they are targeted at the negative impacts most material to an asset’s activities.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	Largest investments	Sector	% Assets	Country
1.	MERCK & CO INC	HEALTH CARE	5.16%	US
2.	CHUBB LTD	FINANCIALS	4.99%	CH
3.	MEDTRONIC PLC	HEALTH CARE	4.98%	IE
4.	WESTINGHOUSE AIR BRAKE TECHNOLOGIES CORP	INDUSTRIALS	4.97%	US
5.	NETAPP INC	INFORMATION TECHNOLOGY	4.92%	US
6.	AMGEN INC	HEALTH CARE	4.91%	US
7.	KIMBERLY-CLARK CORP	CONSUMER STAPLES	4.91%	US
8.	AMDOCS LTD	INFORMATION TECHNOLOGY	4.50%	US
9.	PPG INDUSTRIES INC	MATERIALS	4.50%	US
10.	EBAY INC	CONSUMER DISCRETIONARY	4.29%	US
11.	GEN DIGITAL INC	INFORMATION TECHNOLOGY	4.02%	US
12.	QUALCOMM INC	INFORMATION TECHNOLOGY	4.02%	US
13.	AMERIPRISE FINANCIAL INC	FINANCIALS	3.87%	US
14.	COMCAST CORP CLASS A	COMMUNICATION SERVICES	3.55%	US
15.	FLOWSERVE CORP	INDUSTRIALS	3.02%	US

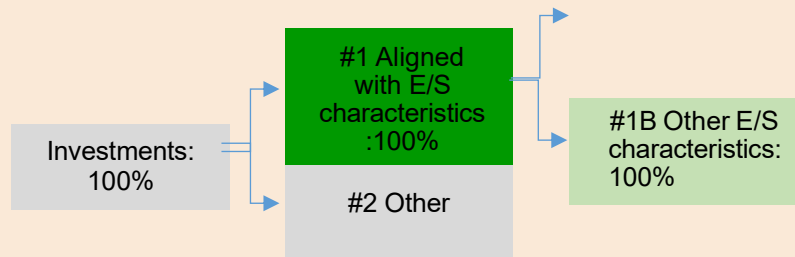

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of available data and as calculated at the end of the reference period (31 October 2025),

- 100% of the invested equity assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 10% or less of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● ***In which economic sectors were the investments made?***

Based on data from 31 October 2025, the Fund was most invested in the Information Technology (5 companies), Health Care (5 companies), Financials (6 companies) sectors. The Fund also had additional investments in the Industrials (4), Communication Services (3), Consumer Staples (2), Consumer Discretionary (2), , , Health Care (2) and and Materials (1) sectors. Based on the available data, between 1 November 2024 and 31 October 2025, the Fund made new investments in one company in the Financials sector, one company in the Health Care sector and one company in the Information Technology sector. Over the same timeframe the Fund divested of three companies in the Consumer Discretionary sector, one company in the Health Care sector and one company in the Consumer Staples sector and invested in one company in the Health Care sector, one company in the Information Technology sector and one company in the Financials sector.

Based on holding data from 31 October 2025, the fund was allocated accordingly:

Sector	% Total Net Assets
INFORMATION TECHNOLOGY	19.45%
HEALTH CARE	18.81%
FINANCIALS	17.21%
INDUSTRIALS	12.14%
COMMUNICATION SERVICES	9.06%
CONSUMER STAPLES	7.53%
CONSUMER DISCRETIONARY	6.68%
CASH	4.62%
MATERIALS	4.50%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such. Accordingly the Fund is disclosing zero (0%) exposure to investments that are in environmentally sustainable activities within the meaning of the Taxonomy Regulation.

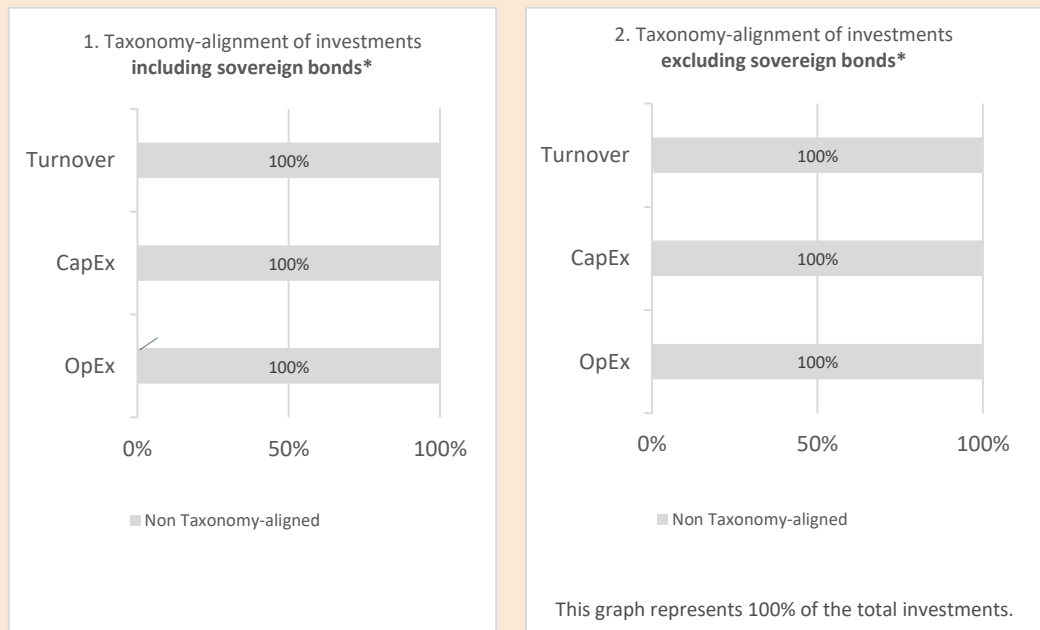

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Sub-Investment Manager nevertheless applied the exclusions set out in the Fund’s exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under “#2 Other” comprised of cash and assets held for liquidity management and hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Characteristic	Actions
<ul style="list-style-type: none"> Efficient and/or effective management of natural resource usage 	The Sub-Investment Manager performed investment research monitoring including PAI information and engaged with companies management teams and Board. For the year ending October 31, 2025 we had 6 individual engagements on these topics. We voted 406 proposals, of which 1 proposals covered the noted topics.
<ul style="list-style-type: none"> Relevant governance expertise to mitigate environmental risks as monitored through factors such as carbon emissions, energy, waste, and/or water 	The Sub-Investment Manager performed investment research monitoring including PAI information and engaged with companies management teams and Board. For the year ending October 31, 2025 we had 6 individual engagements on these topics. We voted 406 proposals, of which 1 proposals covered the noted topics.
<ul style="list-style-type: none"> Leadership in human capital management, including a focus on diversity at the Board level 	The Sub-Investment Manager performed investment research monitoring including PAI information and engaged with companies management teams and Board. 	individual engagements on these topics. We voted 406 proposals, of which 3 covered the noted topics.
<ul style="list-style-type: none"> compliance with global standards (e.g. UN Global Compact or UN Guiding Principles) 	The Sub-Investment Manager screened the Fund's holdings using the MSCI Business Involvement tool. This was performed at pre-investment stage and is monitored on a quarterly basis.

How did this financial product perform compared to the reference benchmark?

Not applicable. There was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory Global Sustainable Total Return Bond Fund (GBP)

Legal entity identifier: 635400MBK8KJBCLIFV28

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="checkbox"/> <input type="checkbox"/> Yes	<input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 94.87% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund has a varied allocation to types of issuer and so has identified two broad portfolio-level characteristics* which are promoted by the Fund and which are monitored and assessed in the most appropriate way for the particular asset type:

- **Climate Conditions and Resource Access:** investments that the Sub-Investment Manager considers contribute to a stable climate and positive resource outcomes through their general activities or a specific use of proceeds.
- **Culture and Human Capital:** investments that the Sub-Investment Manager considers contributing to human capital or societal outcomes through their general activities or a specific use of proceeds.

While the characteristics promoted by the Fund generally have long-term outcomes, as illustrated by the relevant sustainability indicators, the Sub-Investment Manager considers that the Fund effectively

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager’s research process that uses qualitative and quantitative data to assess an issuer’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments (excluding cash) have (as at the end of this reporting period) an allocation of 94.87% to Sustainable Investments, which meet the objectives set out below.

**These characteristics reflect the same environmental and social focus described in the Fund’s Annex II, expressed in terms most relevant to the reporting period.*

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations. Please note all figures provided below are reports as a proportion of the particular asset class, not as a proportion of the Fund as a whole.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period	
CLIMATE AND NATURAL CAPITAL				
CORPORATE ISSUERS	greenhouse gas emissions intensity (Scope 1 and 2 emissions)	64.29 tons CO2e/\$M revenue of corporate holdings, adjusted based on the weight of each holding	59.49 tons CO2e/\$M revenue of corporate holdings, adjusted based on the weight of each holding

...and compared to previous periods?

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

1. improved climate conditions that may otherwise impose risks to economic stability; and/or

- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance

Corporate, securitized and supranational issuers contributed to these objectives as a result of their primary products, services or operations in turn positively contributing to one or more of the following sustainable themes:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

**'Culture & Safety' reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes*

The sovereign sustainable investments within the Fund demonstrated an overall strong or improving sustainability profile, taking account of sustainable levers such as their contributions to a lower carbon economy and their prioritisation in areas such as natural resource management, economic opportunity, education and health.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

- Investments cannot be considered Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:
- implementation of the Sub-Investment Manager's in-house, bottom-up research that uses qualitative and quantitative data to assess a company's performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund's exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund's Supplement.

In addition, sovereign issuers considered "not free" according to Freedom House, or not in compliance with the EU sanctions list, are not considered to be Sustainable Investments.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Sub-Investment Manager's criteria.

— — ***How were the indicators for adverse impacts on sustainability factors taken into account?***

As noted above, the indicators were taken into account within the Sub-Investment Manager’s broader assessment of the sustainability characteristics of an issuer both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Sub-Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess an issuer’s risk management profile, which includes PAI Indicators.

— — ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

Yes.

Each corporate issuer within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

While the OECD Guidelines and UN Guiding Principles on Business and Human Rights are not applicable to non-corporate issuers, the Sub-Investment Manager applied its in-house sustainability assessment to those issuers to ensure that they were held to a similar level of assessment. All Sustainable Investments within the Fund have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

All Sustainable Investments within the Fund have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI indicators into account as part of its broader assessment process. In particularly the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- Corporate GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- Sovereign GHG emissions (PAI 15, Table 1)
- Investee countries subject to social violations (PAI 16, Table 1)

Evaluation of the above listed PAIs forms part of the Sub-Investment Manager’s due diligence, and if performance is deemed to be lagging the Sub-Investment Manager may seek to engage with the investment to encourage remedial action that will address any identified risks to investment performance.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

What were the top investments of this financial product?

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	NEW ZEALAND GOVERNMENT BOND*	GOVERNMENT BOND	5.92%	NZ
2.	UNITED KINGDOM GILT*	GOVERNMENT BOND	5.79%	UK
3.	UNITED KINGDOM GILT*	GOVERNMENT BOND	5.69%	UK

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

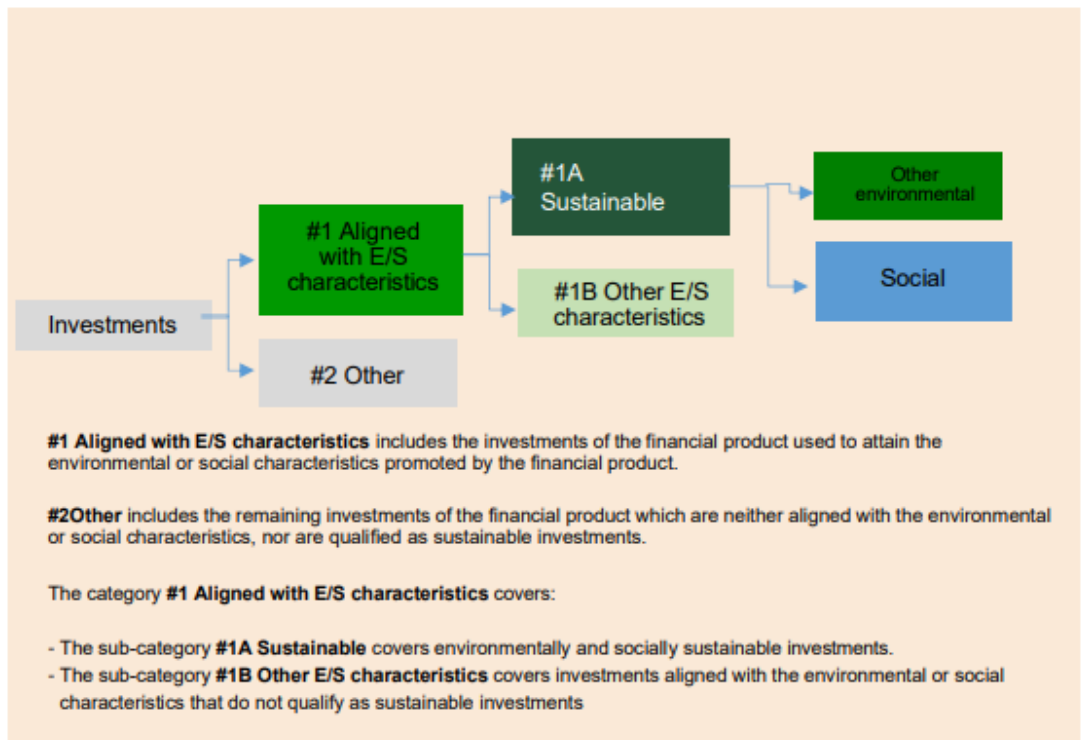

- 96.55% of the Fund’s assets promoted one or more of the environmental and/or social characteristics;
- 94.87% of the Fund’s assets (excl. cash) were assessed to be Sustainable Investments; and
- 3.45% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash liquidity and risk management.

Please note that the inclusion of derivatives in the calculation of the proportion of assets that promote environmental and social characteristic, may in certain circumstances result in a lower percentage allocation than for “sustainable investments” which do not include derivatives in the calculation.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● *In which economic sectors were the investments made?*

Sector	% Assets
GOVERNMENT BOND	56.86%
CASH AND CASH EQUIVALENTS	17.15%
CORPORATE BONDS	17.03%
MORTGAGE-BACKED SECURITIES	8.96%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?

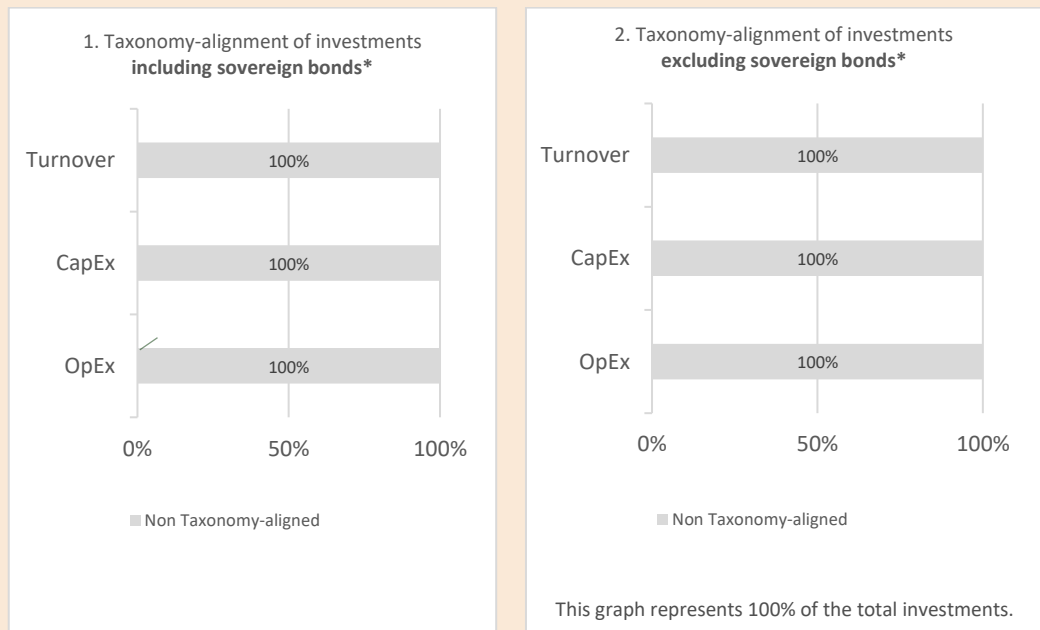

- Yes:
 - In fossil gas
 - In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

0%

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

5.25% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

77.86% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had both a social objective and an environmental objective not aligned with the EU Taxonomy.

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

16.88% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had a social objective.

77.86% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had both a social objective and an environmental objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory Global Sustainable Total Return Bond Fund (USD)

Legal entity identifier: 635400MHHNAARCKFHR60

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="checkbox"/> <input type="checkbox"/> Yes	<input type="checkbox"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 93.31% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund has a varied allocation to types of issuer and so has identified two broad portfolio-level characteristics* which are promoted by the Fund and which are monitored and assessed in the most appropriate way for the particular asset type:

- **Climate Conditions and Resource Access:** investments that the Sub-Investment Manager considers contribute to a stable climate and positive resource outcomes through their general activities or a specific use of proceeds.
- **Culture and Human Capital:** investments that the Sub-Investment Manager considers contributing to human capital or societal outcomes through their general activities or a specific use of proceeds.

While the characteristics promoted by the Fund generally have long-term outcomes, as illustrated by the relevant sustainability indicators, the Sub-Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager’s research process that uses qualitative and quantitative data to assess an issuer’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments (excluding cash) have (as at the end of this reporting period) an allocation of 93.31% to Sustainable Investments, which meet the objectives set out below.

*These characteristics reflect the same environmental and social focus described in the Fund’s Annex II, expressed in terms most relevant to the reporting period.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations. Please note all figures provided below are reports as a proportion of the particular asset class, not as a proportion of the Fund as a whole.

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period	
CLIMATE AND NATURAL CAPITAL				
CORPORATE ISSUERS	greenhouse gas emissions intensity (Scope 1 and 2 emissions)	65.99 tons CO2e/\$M revenue of corporate holdings, adjusted based on the weight of each holding	53.78 tons CO2e/\$M revenue of corporate holdings, adjusted based on the weight of each holding

...and compared to previous periods?

The table above outlines the performance of the sustainability indicators for the prior reference period (Refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

1. improved climate conditions that may otherwise impose risks to economic stability; and/or

- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance

Corporate, securitized and supranational issuers contributed to these objectives as a result of their primary products, services or operations in turn positively contributing to one or more of the following sustainable themes:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

**'Culture & Safety' reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes*

The sovereign sustainable investments within the Fund demonstrated an overall strong or improving sustainability profile, taking account of sustainable levers such as their contributions to a lower carbon economy and their prioritisation in areas such as natural resource management, economic opportunity, education and health.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

- Investments cannot be considered Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:
- implementation of the Sub-Investment Manager's in-house, bottom-up research that uses qualitative and quantitative data to assess a company's performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund's exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund's Supplement.

In addition, sovereign issuers considered "not free" according to Freedom House, or not in compliance with the EU sanctions list, are not considered to be Sustainable Investments.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Sub-Investment Manager's criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Sub-Investment Manager’s broader assessment of the sustainability characteristics of an issuer both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Sub-Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess an issuer’s risk management profile, which includes PAI Indicators.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each corporate issuer within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

While the OECD Guidelines and UN Guiding Principles on Business and Human Rights are not applicable to non-corporate issuers, the Sub-Investment Manager applied its in-house sustainability assessment to those issuers to ensure that they were held to a similar level of assessment. All Sustainable Investments within the Fund have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

All Sustainable Investments within the Fund have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI indicators into account as part of its broader assessment process. In particularly the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- Corporate GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)
- Sovereign GHG emissions (PAI 15, Table 1)
- Investee countries subject to social violations (PAI 16, Table 1)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Evaluation of the above listed PAIs forms part of the Sub-Investment Manager's due diligence, and if performance is deemed to be lagging the Sub-Investment Manager may seek to engage with the investment to encourage remedial action that will address any identified risks to investment performance.

In addition, exposure to 'Violations of the UNGC and OECD Guidelines for Multinational Enterprises' and "Exposure to Controversial Weapons" is managed through the implementation of the Fund's Exclusion Policy.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	UNITED KINGDOM GILT*	GOVERNMENT BONDS	7.22%	UK
2.	NEW ZEALAND GOVERNMENT BOND*	GOVERNMENT BONDS	6.83%	NZ
3.	UNITED KINGDOM GILT*	GOVERNMENT BONDS	6.60%	UK
4.	NEW ZEALAND GOVERNMENT BOND*	GOVERNMENT BONDS	4.59%	NZ
5.	JAPAN BANK FOR INTERNATIONAL COOPERATION*	GOVERNMENT BONDS	3.73%	JP
6.	CAISSE D'AMORTISSEMENT DE LA DETTE SOCIALE*	GOVERNMENT BONDS	3.68%	FR
7.	NEW ZEALAND GOVERNMENT BOND*	GOVERNMENT BONDS	3.00%	NZ
8.	UNITED KINGDOM GILT*	GOVERNMENT BONDS	2.81%	UK
9.	SPAIN GOVERNMENT BOND*	GOVERNMENT BONDS	2.22%	ES

12.	PORTUGAL OBRIGACOES DO TESOURO OT**	GOVERNMENT BONDS	1.94%	PT
13.	ITALY BUONI POLIENNALI DEL TESORO**	GOVERNMENT BONDS	1.80%	IT
14.	UNITED STATES TREASURY NOTE/BOND*	GOVERNMENT BONDS	1.77%	US
15.	CANADIAN GOVERNMENT BOND*	GOVERNMENT BONDS	1.76%	CA

What was the proportion of sustainability-related investments?

- *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

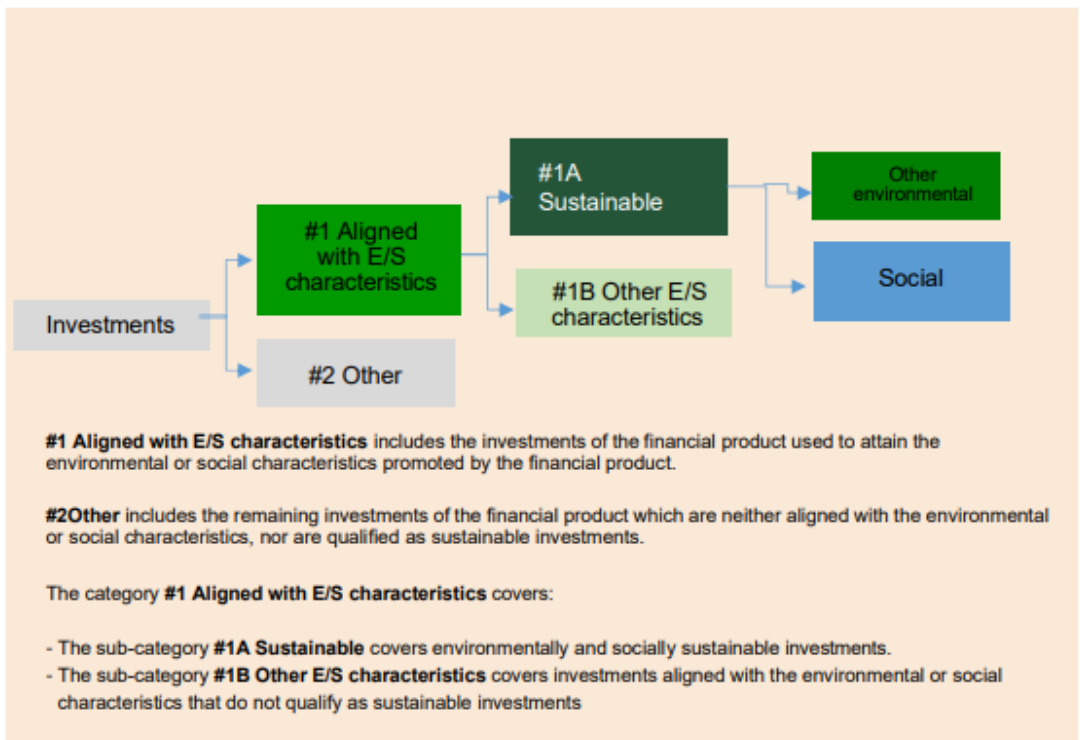

- 95.61% of the Fund’s assets promoted one or more of the environmental and/or social characteristics;
- 93.31% of the Fund’s assets (excl. cash) were assessed to be Sustainable Investments; and
- 4.39% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash liquidity and risk management.

Please note that the inclusion of derivatives in the calculation of the proportion of assets that promote environmental and social characteristic, may in certain circumstances result in a lower percentage allocation than for “sustainable investments” which do not include derivatives in the calculation.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

In which economic sectors were the investments made?

Sector	% Assets
GOVERNMENT BOND	65.39%
CORPORATE BONDS	19.13%
MORTGAGE-BACKED SECURITIES	9.67%
CASH	5.81%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?**

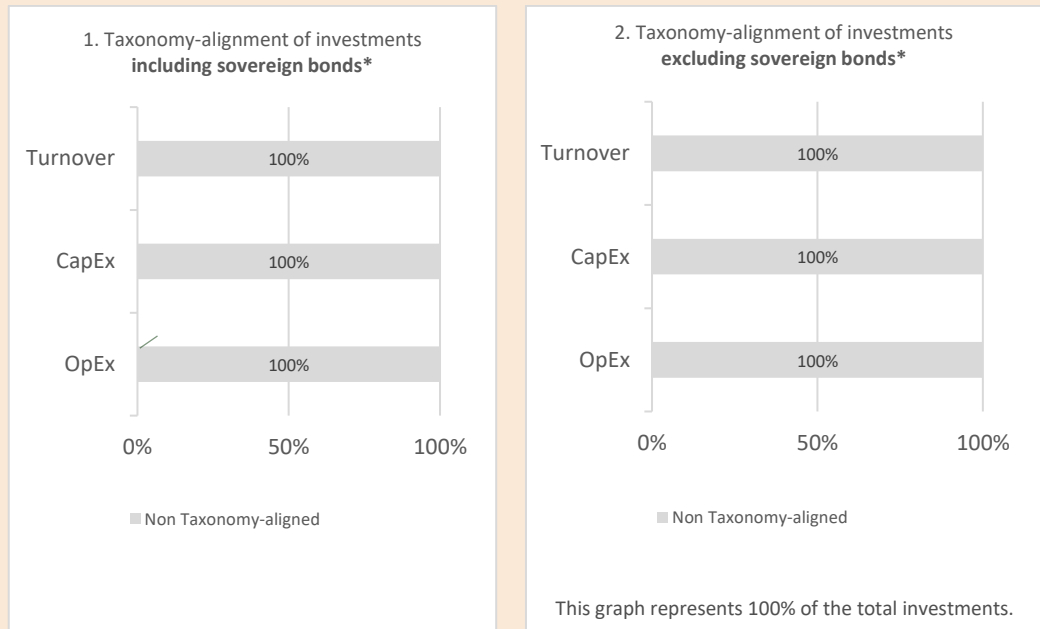

- Yes:
 - In fossil gas
 - In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**
0%

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

5.3% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

30.3% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Sustainable Value Fund
 Legal entity identifier: 635400UMUKKW8KI6QR86

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 69.70% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund are:

- Emissions Reduction: companies with internal strategies to reduce emissions;
- Resource Efficiency: companies implementing efficient operations to reduce resource use; and/or
- Positive Outcomes for People: companies with strong culture and/or capital discipline leading to improved outcomes (e.g., enhanced safety record, improved employee retention) for stakeholders; and/or
- Positive Outcomes for the Environment or Society: companies with products or services that: (i) help customers to be more resource efficient; and/or (ii) help to solve sustainability challenges.

While the environmental and social characteristics promoted by the Fund have long-term outcomes (e.g., emissions and resource reductions must be assessed over the long-term and may fluctuate year on year), the Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments have (as at the end of this reporting period) an allocation of 69.70% to Sustainable Investments, which meet the objectives set out below.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations:

For the “resource efficiency” and “positive environmental or social outcomes” characteristics, each company is attributed to the characteristic that the Sub-Investment Manager considers **most relevant** to that company. For example, the figures below do not mean that only 36.95% of the Fund is resource efficient; instead, for 36.95% of the Fund, resource efficiency is the main sustainable driver.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period	Prior Period																					
Emissions reduction	weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced)	87.44 tons CO2e/\$M revenue	91.43 tons CO2e/\$M revenue																					
	the percentage of the companies in the Fund with an emissions reduction target	<table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>1.33%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>61.93%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>29.77%</td> </tr> <tr> <td>No Published Targets</td> <td>4.16%</td> </tr> <tr> <td>SBTi approved Target – well-below 2 degrees C</td> <td>2.82%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	1.33%	SBTi approved Target – 1.5 degrees C	61.93%	Targets Published Independently of SBTi	29.77%	No Published Targets	4.16%	SBTi approved Target – well-below 2 degrees C	2.82%	<table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to Set SBTi Targets</td> <td>10.16%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>45.58%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>39.77%</td> </tr> <tr> <td>No Published Targets</td> <td>4.49%</td> </tr> </tbody> </table>	Target Status	%	Committed to Set SBTi Targets	10.16%	SBTi approved Target – 1.5 degrees C	45.58%	Targets Published Independently of SBTi	39.77%	No Published Targets

Resource efficiency	the percentage of the companies in the Fund the Investment Manager has identified to be resource efficient.	36.95%	34.73%
Positive Outcomes for People	the percentage of the companies in the Fund the Investment Manager has identified to have improved outcomes for stakeholders	8.48%	24.65%
Positive environmental or social outcomes	the percentage of the companies in the Fund the Investment Manager has identified to have products or services that: (i) help customers to be more resource efficient, and/or (ii) help to solve sustainability challenges.	92.12%	87.66%

● ***...and compared to previous periods?***

The table above outlines the performance of the sustainability indicators for the prior reference period (refer to the section titled “How did the sustainability indicators perform?”).

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

- I. improved climate conditions that may otherwise impose risks to economic stability; and/or
- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance.

The Sustainable Investments are companies which have contributed to sustainable objectives through one or more of the following sustainable investing levers:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture and Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation

- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

* ‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever previously disclosed, maintaining the same underlying intent to promote sustainability outcomes.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Companies are not considered to be Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund’s exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund’s Supplement.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Investment Manager’s broader assessment of the sustainability characteristics of a company both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s risk management profile, which includes reviewing the PAI Indicators at a fund level on a quarterly basis.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each company within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon. All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period

Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Investment Manager took PAI indicators into account as part of its broader assessment process. In particular, the Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Board gender diversity (PAI 13, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Evaluation of the above listed PAIs forms part of the Investment Manager’s due diligence, and if performance is deemed to be lagging the Investment Manager may seek to engage with the company to encourage remedial action that will address any identified risks to investment performance.

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

	LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
1.	CRH PLC	MATERIALS	5.42%	IE

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

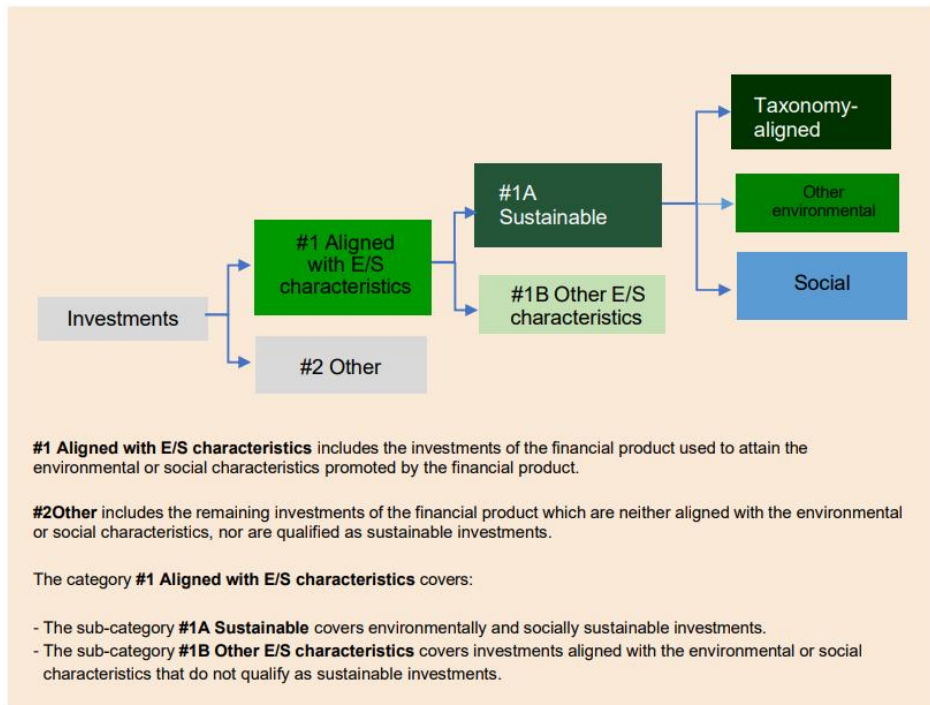

- 95.8% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 72.75% of the companies that promoted one or more environmental and/or social characteristics (by Fund value) were assessed to be Sustainable Investments; and
- 4.2% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	% Assets
HEALTH CARE	21.44%
FINANCIALS	20.18%
INFORMATION TECHNOLOGY	13.43%
INDUSTRIALS	10.94%
MATERIALS	8.13%
COMMUNICATION SERVICES	7.46%
CASH	4.11%
CONSUMER DISCRETIONARY	4.00%
CONSUMER STAPLES	3.69%
UTILITIES	3.65%
REAL ESTATE	2.97%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

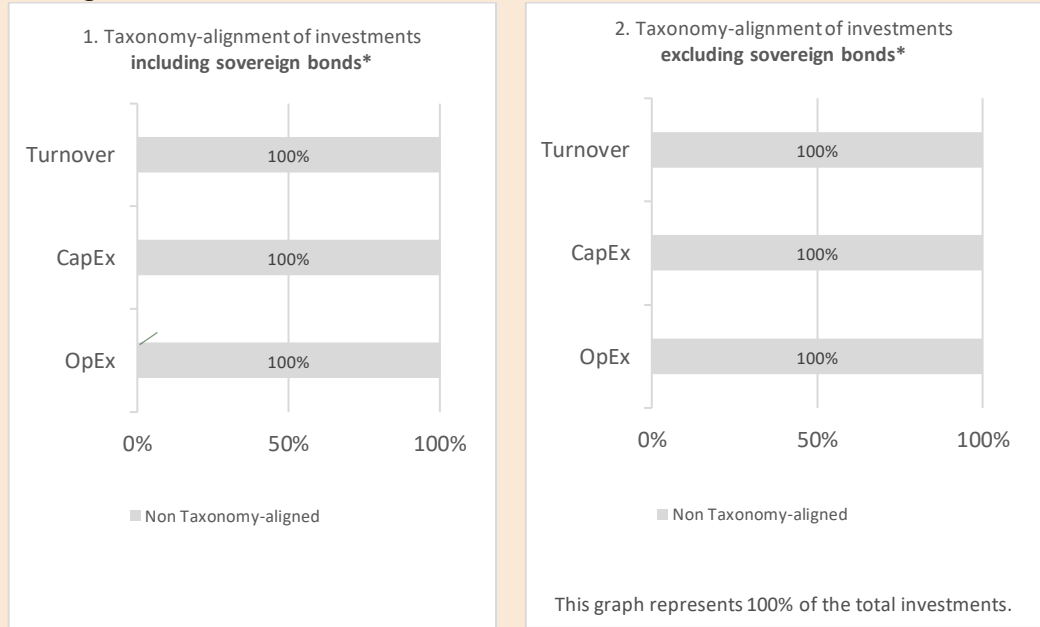

Yes:
 In fossil gas
 In nuclear energy
 No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0%

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

39.74% of the companies within the Fund were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **What was the share of socially sustainable investments?**

30.3% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund’s prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: BA Beutel Goodman World Value Fund
Legal entity identifier: 635400BKSA7IPMQKT96

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

While the Fund invests in companies that the Sub-Investment Manager considers have an overall positive assessment, covering a range of Sustainability Characteristics and Sustainability Risks, the environmental and/or social characteristics promoted by the Fund are rooted in materiality and include:

Environmental Characteristics:

- Efficient and/or effective management of natural resource usage.
- Relevant governance expertise to mitigate environmental risks as monitored through factors such as carbon emissions, energy, waste, and/or water.

Social Characteristics:

Leadership in human capital management, including a focus on diversity at the Board level.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Compliance with global standards (e.g. UN Global Compact or UN Guiding Principles).

The Sub-Investment Manager considers that the Fund has effectively met the promoted characteristics by ensuring that all invested assets of the Fund have demonstrated their alignment to one or more of the characteristics over the reporting period.

The Fund has adopted and at all times respected binding restrictions around not investing in companies deriving significant revenue from tobacco and recreational drugs, adult entertainment, casinos and gaming, thermal coal and conventional weapons/ammunition (significant revenue is defined as 10% or greater). Further the Fund will not invest in companies that are involved in oil and gas exploration and production (primary business or 50%+ of revenue) or manufacture controversial weapons (0% total revenue). Companies that the Sub-Investment Manager is aware are involved in severe and widespread controversies in violation of the principles of the UN Global Compact framework will also be excluded from investment.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager's thorough in-house, bottom-up research process that uses qualitative and quantitative data to assess a company's performance.

The Fund does not commit to investing in Sustainable Investments and does not assess whether any of the companies within the portfolio would classify as such.

● ***How did the sustainability indicators perform?***

The Fund uses the following sustainability indicators:

- Available indicators for adverse impacts on sustainability factors as described in Annex I of SFDR ("PAIs")
- Sustainability Risk evaluation (internal qualitative and / or quantitative assessment)
- Sustainability performance evaluation (internal qualitative and / or quantitative assessment)
- Specific environmental sustainability indicators (e.g., carbon footprint)
- Specific social sustainability indicators (e.g., diversity metrics).

The Sub-Investment Manager obtained sustainability information directly from company reporting and external data providers, such as MSCI and Bloomberg. Performance data is not yet available for 2025 sustainability indicators but is expected to be available in 2026 for reporting. Available data was gathered below to provide highlights for 2024.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	2024	Comment
Environmental			
Good management of greenhouse gas emissions	Weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced).	22.25	The portfolio has a relatively low Weighted Average Carbon Intensity (WACI) versus its benchmark. Scope 3 emissions are excluded from the calculations due to discrepancies in data.
Social			
Good human capital management, including a focus on the promotion of diversity at the board level	Weighted-average percentage of women on the board of the Fund’s investee companies.	35%	The portfolio-level board gender diversity is greater than 30%, aligned with one of the targets of the 30% Club, a global campaign to achieve a minimum of 30% female representation on corporate boards.
Strategic oversight, including appropriate policies and track record of mitigating human rights related risks at the company and in the supply chain	The percentage of the Fund’s investee companies that comply with the United Nations Global Compact.	100%	All portfolio companies comply with UNGC principles. This is part of the investment screen the Sub-Investment Manager performs for the Fund.

● **...and compared to previous periods?**

On the environmental side, the portfolio reports reduced weighted average greenhouse gas (GHG) emissions intensity (Scope 1+ Scope 2) compared to the previous year. Portfolio-financed emissions decreased in the same period. The Sub-Investment Manager attributes this to company-level decarbonization. The Sub-Investment Manager will continue to measure the Fund’s carbon footprint and engage with companies in the Fund on efforts to reduce GHG emissions and reach climate commitments.

From a social perspective, the portfolio-level board gender diversity has remained stable over the past year, with over 30% female representation on the board at the portfolio level. This

aligns with one of the targets of the 30% Club, a global campaign to achieve a minimum of 30% female representation on corporate boards.

Some PAI indicators have low data consistency and quality and are therefore not meaningful in the Sub-Investment Manager's view.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

● ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A – the Fund does not commit to investing in Sustainable Investments and, as such, the Sub-Investment Manager does not assess whether the assets in the Fund would classify as such.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Investment Manager has, through its due diligence process and where data is available and reliable, taken PAI information into account as part of its investment decision making process.

The Sub-Investment Manager considers the PAIs that current and prospective portfolio companies have on sustainability factors. Most material factors to an investment are identified through a mixture of internal research, data from reputable third-party data providers, and meetings with company management. Using a bottom-up, disciplined, value-investing approach, each research report or update the Sub-Investment Manager prepares incorporates sustainability considerations.

The Sub-Investment Manager has sought to avoid companies with material environmental and social controversies, in part because these controversies are sometimes reflective of weaknesses in the management team and its outlook.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti- bribery matters.

The PAIs identified in the valuation assessments have also formed a basis for identifying potentially productive avenues for engaging in active ownership with the assets. The Sub-Investment Manager believes that specific interventions, whether achieved through direct engagement with the management team, proxy voting or collaborating with other investors, are most effective when they are targeted at the negative impacts most material to an asset’s activities.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	Largest investments	Sector	% Total Net Assets	Country
1.	AMDOCS LTD	INFORMATION TECHNOLOGY	4.41%	US

14.	SMC CORP	INDUSTRIALS	3.29%	JP
15.	KIMBERLY -CLARK CORP	CONSUMER STAPLES	3.28%	US

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of available data and as calculated at the end of the reference period (31 October 2025),

- 100% of the invested equity assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 10% or less of the assets (by Fund value) were considered not to promote the environmental and/or social characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

Based on data from 31 October 2025, the Fund was most invested in the Information Technology (7 companies), and Financials (6 companies) sectors. The Fund also had additional investments in the Health Care (6), Industrials (4), Consumer Discretionary (2), Consumer Staples (2), Communication Services (2), and Materials (1) sectors. Based on the available data, between 1 November 2024 and 31 October 2025, the Fund made new investments in two companies in the Information Technology sector, two companies in the Health Care sector, one company in the Financials sector and one company in the Industrial sector. Over the same timeframe the Fund divested two companies in the Consumer Staples sector, one company in the Consumer Discretionary sector, one company in the Communication Services sector, one company in the Health Care sector and one company in the Industrials sector.

Based on holding data from 31 October 2025, the fund was allocated accordingly:

Sector	% Total Net Assets
INFORMATION TECHNOLOGY	22.22%
FINANCIALS	19.11%
HEALTH CARE	18.68%
INDUSTRIALS	13.49%
CONSUMER DISCRETIONARY	6.79%
CONSUMER STAPLES	5.97%
COMMUNICATION SERVICES	5.91%
CASH	4.21%
MATERIALS	3.62%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such.

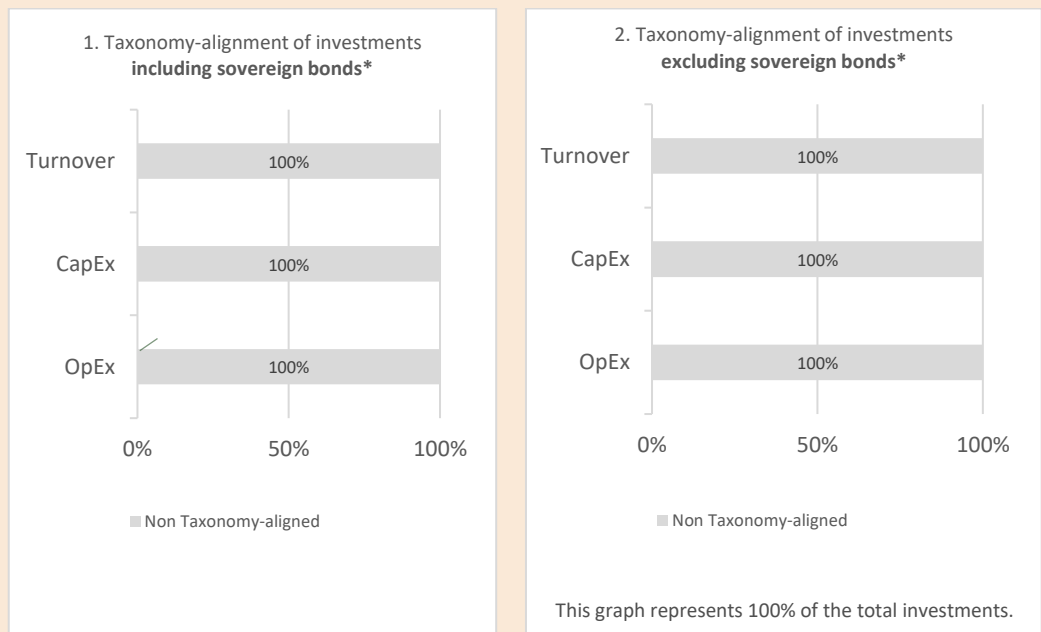

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Investment Manager assess whether the assets of the Fund would classify as such.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such.

What was the share of socially sustainable investments?

N/A – the Fund does not commit to a minimum proportion of sustainable investments and nor does the Sub-Investment Manager assess whether the assets of the Fund would classify as such.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” included other investments that have not been determined to be aligned with the environmental and/or social characteristics of the Fund. For such investments, the Sub-Investment Manager nevertheless applied the exclusions set out in the Fund’s exclusion policy (as detailed in the Supplement) and the binding requirements relating to Sustainability Characteristics.

The remaining investments under “#2 Other” comprised of cash and assets held for liquidity management and hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Characteristic	Actions
<ul style="list-style-type: none"> • Efficient and/or effective management of natural resource usage 	The Sub-Investment Manager performed investment research monitoring including PAI information and engaged with companies management teams and Board. For the year ending October 31, 2025 we had 3 individual engagements on these topics. We voted 511 proposals, of which 1 proposal covered the noted topics.
<ul style="list-style-type: none"> • Relevant governance expertise to mitigate environmental risks as monitored through factors such as carbon emissions, energy, waste, and/or water 	The Sub-Investment Manager performed investment research monitoring including PAI information and engaged with companies management teams and Board. <ul style="list-style-type: none"> compliance with global standards (e.g. UN Global Compact or UN Guiding Principles) 	The Sub-Investment Manager screened the Fund's holdings using the MSCI Business Involvement tool. This was performed at pre-investment stage and is monitored on a quarterly basis.

How did this financial product perform compared to the reference benchmark?

Not applicable. There was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory Global Sustainable Income Bond Fund (GBP)
Legal entity identifier: 635400ZM2HZ19IUQOF19

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 88.02% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund has a varied allocation to types of issuer and so has identified two broad portfolio-level characteristics* which are promoted by the Fund, and which are monitored and assessed in the most appropriate way for the particular asset type:

- **Climate Conditions and Resource Access:** investments that the Sub-Investment Manager considers contribute to a stable climate and positive resource outcomes through their general activities or a specific use of proceeds.
- **Culture and Human Capital:** investments that the Sub-Investment Manager considers contributing to human capital or societal outcomes through their general activities or a specific use of proceeds.

While the characteristics promoted by the Fund generally have long-term outcomes, as illustrated by the relevant sustainability indicators, the Sub-Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Sub-Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Sub-Investment Manager’s research process that uses qualitative and quantitative data to assess an issuer’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments (excluding cash) have (as at the end of this reporting period) an allocation of 88.02% to Sustainable Investments, which meet the objectives set out below.

*These characteristics reflect the same environmental and social focus described in the Fund’s Annex II, expressed in terms most relevant to the reporting period.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations.

Please note all figures provided below are reports as a proportion of the particular asset class, not as a proportion of the Fund as a whole.

Sustainability indicators
measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period									
CLIMATE AND NATURAL CAPITAL											
CORPORATE ISSUERS	greenhouse gas emissions intensity (Scope 1 and 2 emissions)	104 tons CO2e/\$M revenue of corporate holdings, adjusted based on the weight of each holding

● *...and compared to previous periods?*

Not applicable, this is the first reporting period for the product.

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

- I. improved climate conditions that may otherwise impose risks to economic stability; and/or
- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance.

Corporate, securitized and supranational issuers contributed to these objectives as a result of their primary products, services or operations in turn positively contributing to one or more of the following sustainable levers:

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

*‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever described in the Fund’s Annex II, maintaining the same underlying intent to promote sustainability outcomes.

The sovereign sustainable investments within the Fund demonstrated an overall strong or improving sustainability profile, taking account of sustainable levers such as their contributions to a lower carbon economy and their prioritisation in areas such as natural resource management, economic opportunity, education and health.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Investments cannot be considered Sustainable Investments unless they have been assessed by the Sub-Investment Manager to not be causing significant harm to long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Sub-Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators.
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund’s exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund’s Supplement.

In addition, sovereign issuers considered “not free” according to Freedom House, or not in compliance with the EU sanctions list, are not considered to be Sustainable Investments.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements. During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Sub-Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Sub-Investment Manager’s broader assessment of the sustainability characteristics of an issuer both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Sub-Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess an issuer’s risk management profile, which includes PAI Indicators.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each corporate issuer within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

While the OECD Guidelines and UN Guiding Principles on Business and Human Rights are not applicable to non-corporate issuers, the Sub-Investment Manager applied its proprietary sustainability assessment to those issuers to ensure that they were held to a similar level of assessment. All Sustainable Investments within the Fund have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Sub-Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Sub-Investment Manager took PAI indicators into account as part of its broader assessment process. In particularly the Sub-Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- Corporate GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)
- Sovereign GHG emissions (PAI 15, Table 1)
- Investee countries subject to social violations (PAI 16, Table 1)

Evaluation of the above listed PAIs forms part of the Sub-Investment Manager’s due diligence, and if performance is deemed to be lagging the Sub-Investment Manager may seek to engage with the investment to encourage remedial action that will address any identified risks to investment performance.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and ‘Exposure to Controversial Weapons’ is managed through the implementation of the Fund’s Exclusion Policy.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti- bribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

	Largest investments	Sector	% Assets	Country
1.	UNITED KINGDOM TREASURY BILL**	GOVERNMENT BONDS	4.28%	UK
2.	SPRINT CAPITAL CORP**	CORPORATE BONDS	1.94%	US
3.	UNITED KINGDOM TREASURY BILL**	GOVERNMENT BONDS	1.94%	UK
4.	AUSTRALIA GOVERNMENT BOND**	GOVERNMENT BONDS	1.92%	AU
5.	CANADIAN GOVERNMENT BOND*	GOVERNMENT BONDS	1.89%	CA
6.	NEW ZEALAND GOVERNMENT BOND*	GOVERNMENT BONDS	1.89%	NZ
7.	AT&T INC*	CORPORATE BONDS	1.85%	US
8.	BIO-RAD LABORATORIES INC *	CORPORATE BONDS	1.71%	US

9.	AMERICAN TOWER CORP*	CORPORATE BONDS	1.69%	US
10	COMCAST CORP*	CORPORATE BONDS	1.58%	US
11.	SPAIN GOVERNMENT BOND*	GOVERNMENT BONDS	1.57%	ES
12	ITALY BUONI POLIENNALI DEL TESORO**	GOVERNMENT BONDS	1.46%	IT
13	ITALY BUONI POLIENNALI DEL TESORO**	GOVERNMENT BONDS	1.36%	IT
14.	ROPER TECHNOLOGIES INC**	CORPORATE BONDS	1.27%	US
15	PROLOGIS EURO FINANCE LLC*	CORPORATE BONDS	1.23%	US

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

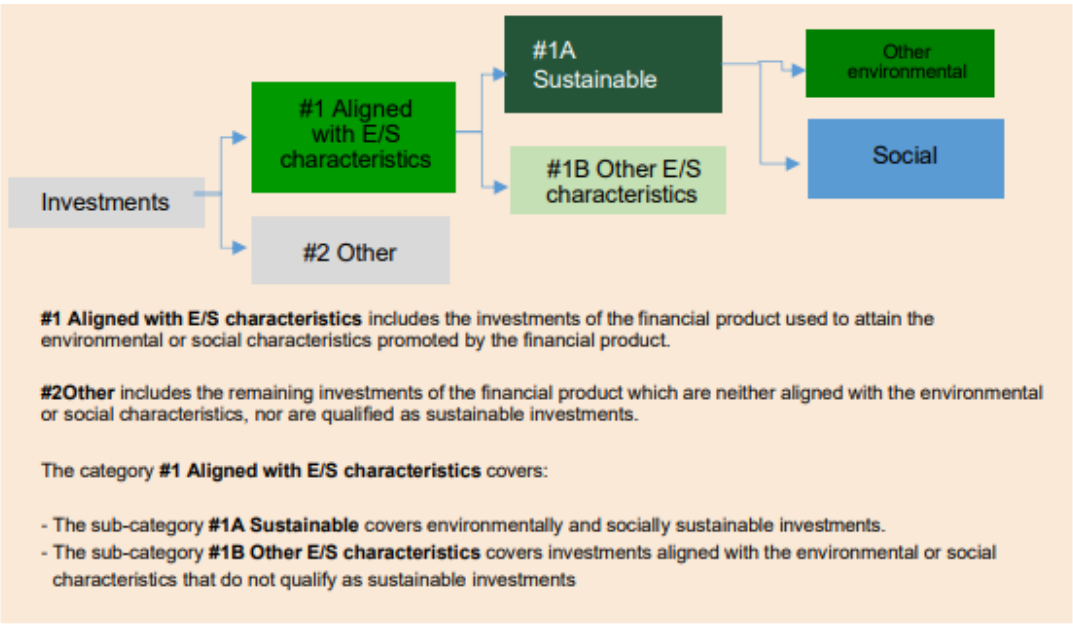

- 96.20% of the Fund’s assets promoted one or more of the environmental and/or social characteristics;
- 88.20% of the Fund’s assets (excl. cash) were assessed to be Sustainable Investments; and
- 2.80% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social characteristics. These assets comprised cash liquidity and risk management.

Please note that the inclusion of derivatives in the calculation of the proportion of assets that promote environmental and social characteristic, may in certain circumstances result in a lower percentage allocation than for “sustainable investments” which do not include derivatives in the calculation

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

In which economic sectors were the investments made?

Sector	% Assets
CORPORATE BONDS	60.07%
GOVERNMENT BONDS	21.41%
MORTGAGE-BACKED SECURITIES	14.35%
CASH AND CASH EQUIVALENTS	4.17%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

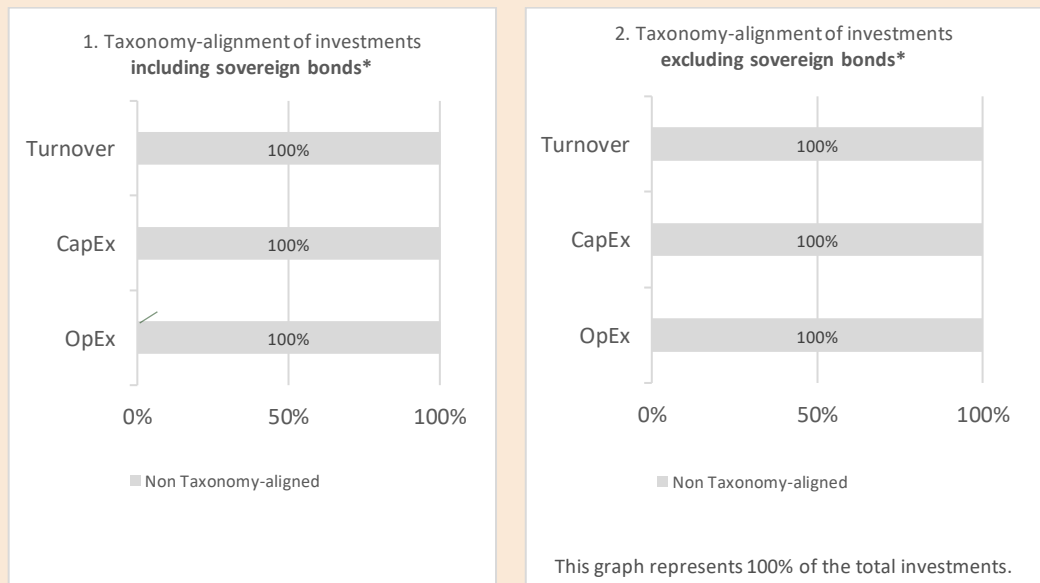

- Yes:
 - In fossil gas
 - In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0%

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

24.07% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

39.58% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had both a social objective and an environmental objective not aligned with the EU Taxonomy.

As noted above, the Sub-Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

36.34% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had a social objective.

39.58% of the investments within the Fund (excl. cash) were invested in Sustainable Investments that had both a social objective and an environmental objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments under “#2 Other” comprised assets held for liquidity management purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Sub-Investment Manager’s consistent overall approach rather than in any individual actions.

The Sub-Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

While not directly related to meeting the environmental and/or social characteristics, the Sub-Investment Manager reviews on a continuous basis its sustainability approach to ensure it is maintaining best practice and consistency across its business. Over the course of this reporting

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

period, the Sub-Investment Manager has updated some of the language it uses to describe its approach. This updated language has been included in this report and will, when appropriate, also be updated in the Fund's prospectus.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Brown Advisory Funds plc - Brown Advisory US Value Fund
 Legal entity identifier: 635400QPWRHE8V4B1J71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 69.25% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective <input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Words and expressions defined in the Prospectus of the Company and/or the Supplement relating to the Fund shall, unless the context appears otherwise, have the same meaning when used in this Annex.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Fund are:

- Emissions Reduction: companies with internal strategies to reduce emissions;
- Resource Efficiency: companies implementing efficient operations to reduce resource use; and/or
- Positive Outcomes for People: companies with strong culture and/or capital discipline leading to improved outcomes (e.g., enhanced safety record, improved employee retention) for stakeholders; and/or
- Positive Outcomes for the Environment or Society: companies with products or services that: (i) help customers to be more resource efficient; and/or (ii) help to solve sustainability challenges.

While the environmental and social characteristics promoted by the Fund have long-term outcomes (e.g., emissions and resource reductions must be assessed over the long-term and may fluctuate year on year), the Investment Manager considers that the Fund effectively meets the characteristics by ensuring that all invested assets can demonstrate a commitment to achieve these long-term outcomes.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

No reference benchmark has been designated for the purposes of attaining the above characteristics promoted by the Fund, which the Investment Manager considers is best demonstrated by the results of (i) the sustainability indicators set out below and (ii) the Investment Manager’s research process that uses qualitative and quantitative data to assess a company’s performance.

Further, while the Fund has a minimum commitment of 50% to Sustainable Investments, the Fund’s investments in companies has (as at the end of this reporting period) an allocation of 69.25% to Sustainable Investments, which meet the objectives set out below.

● **How did the sustainability indicators perform?**

The performance of each indicator is in line with current expectations.

For the “resource efficiency” and “positive environmental or social outcomes” characteristics, each company is attributed to the characteristic that the Sub-Investment Manager considers most relevant to that company. For example, the figures below do not mean that only 34.85% of the Fund is resource efficient; instead, for 34.85% of the Fund, resource efficiency is the main sustainable driver.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Characteristic	Sustainability Indicator	Current Period												
Emissions reduction	<p>weighted-average greenhouse gas emissions intensity of the Fund’s investee companies in terms of the Greenhouse Gas Protocol’s definition of Scope 1 emissions (direct emissions owned or controlled by a company) and Scope 2 emissions (emissions that a company causes indirectly and come from where the energy it purchases and uses is produced)</p> <p>the percentage of the companies in the Fund with an emissions reduction target</p>	<p>84.51 tons CO2e/\$M revenue</p> <table border="1"> <thead> <tr> <th>Target Status</th> <th>%</th> </tr> </thead> <tbody> <tr> <td>Committed to adopt SBT, no set targets</td> <td>1.25%</td> </tr> <tr> <td>SBTi approved Target – 1.5 degrees C</td> <td>58.4%</td> </tr> <tr> <td>SBTi approved Target – Well-below 2 degrees C</td> <td>2.66%</td> </tr> <tr> <td>Targets Published Independently of SBTi</td> <td>33.76%</td> </tr> <tr> <td>No Published Targets</td> <td>3.93%</td> </tr> </tbody> </table>	Target Status	%	Committed to adopt SBT, no set targets	1.25%	SBTi approved Target – 1.5 degrees C	58.4%	SBTi approved Target – Well-below 2 degrees C	2.66%	Targets Published Independently of SBTi	33.76%	No Published Targets	3.93%
Target Status	%													
Committed to adopt SBT, no set targets	1.25%													
SBTi approved Target – 1.5 degrees C	58.4%													
SBTi approved Target – Well-below 2 degrees C	2.66%													
Targets Published Independently of SBTi	33.76%													
No Published Targets	3.93%													
Resource efficiency	the percentage of the companies in the Fund the Investment Manager has identified to be resource efficient.	34.85%												
Positive Outcomes for People	the percentage of the companies in the Fund the Investment Manager has identified to have improved outcomes for stakeholders	7.96%												

Positive environmental or social outcomes	the percentage of the companies in the Fund the Investment Manager has identified to have products or services that: (i) help customers to be more resource efficient, and/or (ii) help to solve sustainability challenges.	92.61%
---	---	--------

- ***...and compared to previous periods?***
Not applicable, this is the first reporting period for the product.
- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sustainable Investments of the Fund are varied, depending on the nature of the asset and reflecting the Sub-Investment Manager’s holistic approach to sustainable investing.

However, the Sustainable Investments can be considered as contributing to:

- I. improved climate conditions that may otherwise impose risks to economic stability; and/or
- II. a broad range of sustainable objectives, including both environmental and social aims, that promote long-term financial performance.

The Sustainable Investments are companies which have contributed to sustainable objectives through one or more of the following sustainable investing levers.

- Affordable Housing
- Clean Energy
- Clean Water and Sanitation
- Culture & Safety*
- Economic Mobility and Community Development
- Education
- Efficient Production and Conservation
- Health and Wellness
- Sustainable Agriculture and Natural Resource Management
- Sustainable Finance
- Sustainable Technology Innovation

** ‘Culture & Safety’ reflects the terminology used for the reporting period and represents a refinement of the sustainability lever described in the , maintaining the same underlying intent to promote sustainability outcomes.*

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Companies are not considered to be Sustainable Investments unless, in addition to their identified sustainable levers, they have also been assessed by the Sub-Investment Manager to not be causing significant harm to other long-term sustainability objectives. This assessment has been carried out for all investments subsequently classed as being Sustainable and included:

- implementation of the Investment Manager’s in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s performance on a variety of sustainable investment risk indicators
- review of all available mandatory PAIs (as set out in Annex 1 of SFDR)
- compliance with the Fund’s exclusion policy, including both norms based and revenue-based exclusions as set out in more detail in the Fund’s Supplement.

This assessment is carried out both at the pre-investment stage and on an ongoing basis to ensure that any assets within the Fund do not subsequently breach these requirements.

During the reporting period, no assets identified as Sustainable Investments were subsequently identified as having breached the Investment Manager’s criteria.

How were the indicators for adverse impacts on sustainability factors taken into account?

As noted above, the indicators were taken into account within the Investment Manager’s broader assessment of the sustainability characteristics of a company both at the pre-investment stage and on an ongoing basis.

Throughout the reporting period, the Investment Manager used in-house, bottom-up research that uses qualitative and quantitative data to assess a company’s risk management profile, which includes reviewing the PAI Indicators at a fund level on a quarterly basis.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes.

Each company within the Fund has been reviewed for alignment with the OECD Guidelines and UN Guiding Principles, with this process included as part of the Fund’s sustainable investment research assessment.

The Fund considers a company to be aligned with these Guidelines and Principles when it has not been involved in significant human rights controversies that are systemic, detractive from the Fund’s investment, and where the harm resulting from the controversy is unlikely to be mitigated within the Fund’s investment horizon.

All Sustainable Investments within the Fund as at the date of this disclosure have successfully passed this assessment on both a pre-investment (as relevant) and ongoing basis over the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

In relation to Sustainable Investments, the Investment Manager considers all mandatory PAIs. For all other investments of the Fund, which are considered to promote the environmental and/or social characteristics of the Fund, the Investment Manager took PAI indicators into account as part of its broader assessment process. In particularly the Investment Manager seeks to manage the Fund’s exposure to the following PAIs to ensure that, over time, these are limited:

- GHG emissions (PAI 1-3, Table 1)
- Violations of the UNGC Principles and OECD Guidelines for Multinational Enterprises (PAI 10, Table 1)
- Board gender diversity (PAI 13, Table 1)
- Exposure to controversial weapons (PAI 14, Table 1)

Evaluation of the above listed PAIs forms part of the Investment Manager’s due diligence, and if performance is deemed to be lagging the Investment Manager may seek to engage with the

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

company to encourage remedial action that will address any identified risks to investment performance.

Over the reporting period, the Sub-Investment Manager’s monitoring did not consider that any company’s performance was deemed to be lagging. Nevertheless, the Fund has continued to engage with companies across these issues to ensure that the Fund is able accurately to make this assessment and as part of the Fund’s fundamental bottom-up performance approach.

In addition, exposure to ‘Violations of the UNGC and OECD Guidelines for Multinational Enterprises’ and “Exposure to Controversial Weapons” is managed through the implementation of the Fund’s Exclusion Policy

What were the top investments of this financial product?

	Largest investments	Sector	% Assets	Country
1.	CRH PLC	MATERIALS	5.12%	IE
2.	CARDINAL HEALTH INC	HEALTH CARE	4.39%	US

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31st October 2025

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

On the basis of the available data and as calculated at the end of the reference period [31 October 2025],

- 95.87% of the assets (by Fund value) promoted one or more of the environmental and/or social characteristics;
- 72.24% of the companies that promoted one or more environmental and/or social characteristics (by Fund value) were assessed to be Sustainable Investments; and
- 4.13% of the assets (by Fund value) were considered to be neither Sustainable Investments nor assets which promoted the environmental and/or social

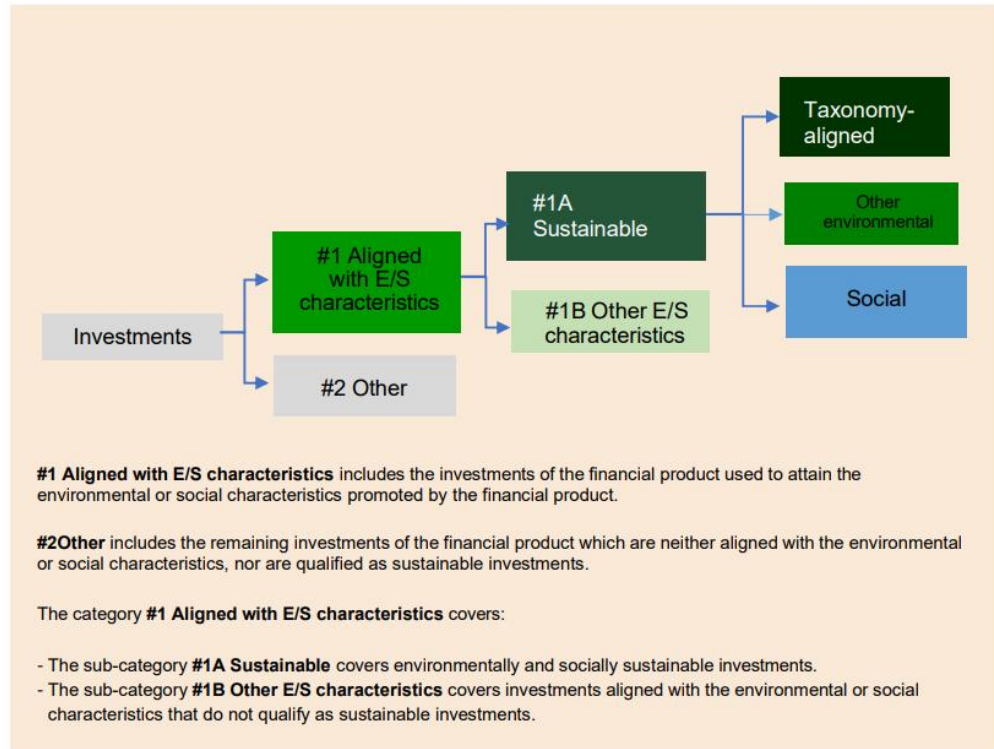

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

characteristics. These assets comprised cash, near cash and other similar holdings for the purposes of hedging, liquidity and risk management.

In which economic sectors were the investments made?

Sector	% Assets
HEALTH CARE	20.23%
FINANCIALS	19.01%
INFORMATION TECHNOLOGY	12.64%
INDUSTRIALS	10.33%
MATERIALS	7.67%
COMMUNICATION SERVICES	7.01%
ENERGY	5.46%
CASH	4.12%
CONSUMER DISCRETIONARY	3.78%
CONSUMER STAPLES	3.49%
UTILITIES	3.45%
REAL ESTATE	2.81%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

While the Fund may from time to time hold investments with an environmental objective aligned with the EU Taxonomy, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

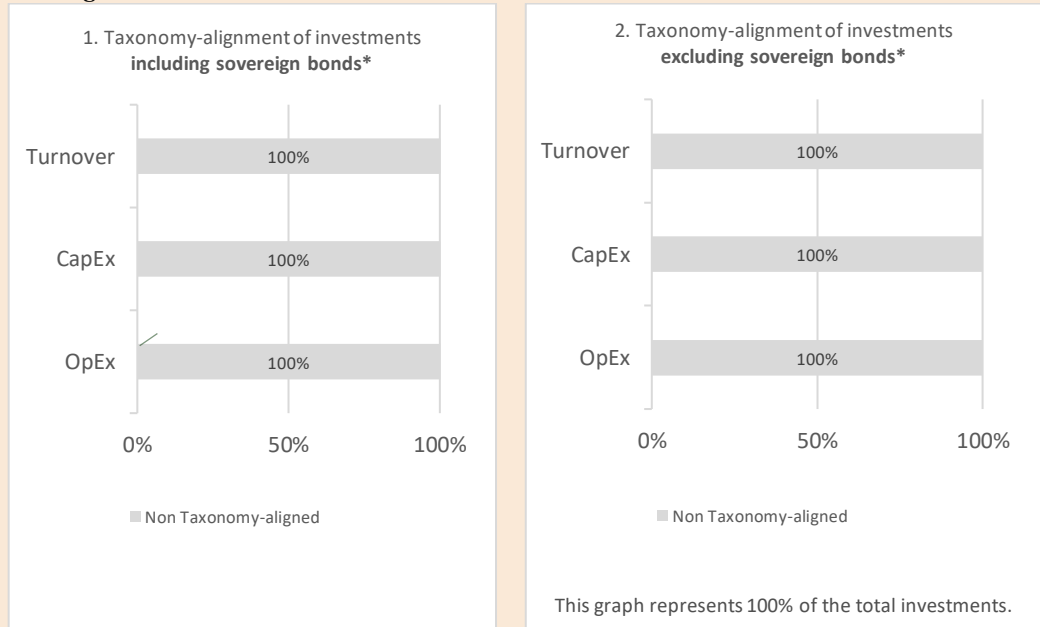

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0%

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

41.11% of the companies within the Fund were invested in Sustainable Investments that had an environmental objective not aligned with the EU Taxonomy.

As noted above, the Investment Manager does not currently have the ability to collect or evaluate data which would be sufficiently complete, correct, or verifiable to allow for a reliable EU Taxonomy alignment percentage disclosure.

What was the share of socially sustainable investments?

28.57% of the companies within the Fund were invested in Sustainable Investments that had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments under “#2 Other” comprised assets held for liquidity management and/or hedging purposes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Manager’s approach to ensuring that the Fund meets the environmental and/or social characteristics during the reference period, and on an ongoing basis, are reflected in the Investment Manager’s consistent overall approach rather than in any individual actions.

The Investment Manager considers that its day-to-day management of the Fund - including all of the processes identified in this disclosure – for example, its due diligence, ongoing monitoring and research processes, are fundamental to the Fund’s attainment of the characteristics.

How did this financial product perform compared to the reference benchmark?

N/A - there was no specific index designated as a reference benchmark for the purpose of attaining the environmental and/or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

BROWN ADVISORY FUNDS PLC

APPENDIX 4 – INFORMATION ON GLOBAL EXPOSURE (UNAUDITED)

Global Exposure

Under the UCITS Regulations, the Investment Managers are required to employ a risk management process which enables them to accurately monitor and manage the global exposure of the Funds to FDI's.

Brown Advisory Global Sustainable Income Bond Fund (GBP), Brown Advisory Global Sustainable Total Return Bond Fund (GBP) and Brown Advisory Global Sustainable Total Return Bond Fund (USD) use Value at Risk (“VaR”) to measure their global exposure. All other sub funds use the commitment approach which is disclosed within the Financial Statements.

VaR is an advanced risk measurement methodology recommended by the Central Bank. In calculating the VaR, the following parameters will be used:

System: Arkus

- calculation model - Absolute VaR Approach; 20% VaR limit
- confidence level – 99%
- holding period – 20 days
- length of data history – 1 year / 250 days
- Lambda/decay factor – 0.98

Fund	Market Risk Approach	VaR as at 31st October, 2025	Highest	Lowest	Average
Global Sustainable Income Bond Fund (GBP)	Absolute	2.54%	7.06%	2.43%	3.21%
Global Sustainable Total Return Bond Fund (GBP)	Absolute	2.61%	7.06%	2.61%	3.96%
Global Sustainable Total Return Bond Fund (USD)	Absolute	2.33%	6.39%	2.33%	3.56%

Fund	Average Leverage (sum of notionals method) for the year ended 31st October, 2025
Global Sustainable Income Bond Fund (GBP)	98.76%
Global Sustainable Total Return Bond Fund (GBP)	170.11%
Global Sustainable Total Return Bond Fund (USD)	167.08%
