What is this product?

Type:

This product is a UCITS fund.

Term:

The Fund has no fixed maturity date, however it may be terminated in certain circumstances, as described in the Prospectus in the section "Termination of Portfolios or Share Classes".

Objectives:

The Fund aims to increase the value of your shares through a combination of growth and income from investments in high yield bonds (debt securities). There can be no guarantee that the Fund will ultimately achieve its investment objective and capital invested is at risk.

High yield bonds have a lower credit rating because they carry a higher risk of not being paid back. High yield bonds typically offer a higher income to make them attractive to investors. The Fund invests primarily in high yield bonds issued by:

- US corporations.
- Non-US corporations which conduct a majority of their activity in the US.
- The fund may also invest in securities of companies and governments located in emerging market (less developed) countries.

The Fund is typically diversified across issuers and industry sectors. Investment selection is the result of fundamental research and analysis in an effort to identify companies that are believed to be undervalued, have strong corporate governance, are well managed and are financially strong.

Under normal market conditions, the Sub-Investment Manager anticipates that the Portfolio's Weighted Average Maturity will be between 5- 10 years. The Fund may not invest more than 10% of its Net Asset Value in equity securities.

The Fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR.

The Fund is actively managed and does not intend to track the benchmark, the ICE BofA US High Yield Constrained Index (Total Return, USD) which is used for performance comparison purposes. The Fund's investment policy restricts the extent to which the Fund's holdings may deviate from the benchmark. Nevertheless, this deviation may be significant.

Income will be rolled up into the value of your investment.

Additional Information:

The shares may be exchanged for shares in another sub-fund of NBIF in accordance with the terms of the Prospectus. Charges may apply.

Shares in the Fund can be bought or sold on any day defined as a Business Day in the Supplement.

NBIF is established as an umbrella fund with segregated liability between sub-funds under Irish law.

Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") is appointed as the depositary of NBIF.

You can obtain copies of the Prospectus and the latest reports and accounts for NBIF free of charge in English, German, French, Italian and Spanish, along with the latest published prices of shares and other information on the Fund, free of charge from Brown Brothers Harriman Fund Administration Services (Ireland) Limited (the "Administrator"), 30 Herbert Street, Dublin 2, Ireland, D02 W329.

Intended retail investor:

This Fund may be compatible with the needs of investors seeking a fund to deliver income and/or capital growth with an investment horizon of 3 years or more, as part of a diversified portfolio of investments. The Fund is a low risk product and investors should consider this when deciding the mix of their portfolio of investments. Investors who are unsure that they have the knowledge and experience to make informed investment decisions about this Fund or to construct a diversified portfolio should seek professional investment advice. The Fund is unlikely to be compatible with the needs of those investors seeking a single investment, or to achieve a specified return by a particular date.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this Fund compared to other products. It shows how likely it is that the Fund will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of NBAMIL to pay you.

Beside the risks included in the risk indicator, for other risks materially relevant to the Fund which are not captured by the risk indicator, please refer to the Prospectus and/or Supplement at www.nb.com/en/gb/legal-

[documents](#). The Fund does not include any protection from future market performance so you could lose some or all of your investment. If we are unable to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund/representative portfolio over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances, however, markets could develop very differently in the future.

Recommended Holding Period: 3 years			
Example Investment Scenarios: USD 10,000			
Minimum: There is no minimum guaranteed return and it is possible to lose all invested capital.		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Stress	What you might get back after costs Average return each year	6,980 USD -30.22%	7,130 USD -10.65%
Unfavourable¹	What you might get back after costs Average return each year	8,080 USD -19.24%	8,920 USD -3.73%
Moderate²	What you might get back after costs Average return each year	10,030 USD 0.29%	10,430 USD 1.42%
Favourable³	What you might get back after costs Average return each year	11,580 USD 15.83%	12,430 USD 7.51%

¹ This type of scenario occurred for an investment between September 2019 and September 2022.

² This type of scenario occurred for an investment between August 2017 and August 2020.

³ This type of scenario occurred for an investment between September 2022 and September 2025.

What happens if NBAMIL is unable to pay out?

The assets and liabilities of the Fund are segregated from those of other sub-funds and from those of NBAMIL. The assets of the Fund are held in safekeeping by the Depositary. If NBAMIL becomes insolvent, the Fund's assets held by the Depositary would not be affected. If the Depositary becomes insolvent, you may lose some or all of your investment. No investor guarantee or compensation scheme applies to this product.

What are the costs?

The person advising on or selling you this Fund may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the Fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	641 USD	952 USD
Annual cost impact (*)	6.4%	3.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 1.4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.00% maximum of the amount you pay in when entering this investment. These costs are already included in the price you pay.	493 USD
Exit costs	We do not charge an exit fee for this Fund, but the person selling you the Fund may do so.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.32% of the value of your investment per year. This figure is based on the last year's expenses for the year ending 31 January 2026.	132 USD
Transaction costs	0.16% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Fund. The actual amount will vary depending on how much we buy and sell.	16 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This share class does not charge a performance fee.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The Fund is designed to be held over the medium term and we recommend that you hold this investment for at least 3 years.

Further information on the Fund's redemption procedure is included in the "Subscriptions & Redemptions" section of the Prospectus.
