What is this product ?**Type**

This investment vehicle is an Undertaking for Collective Investment in Transferable Securities (UCITS) compliant with European Directive 2014/91/EU.

Term

No fixed term.

The Manufacturer may compulsorily redeem your shares for regulatory or tax reasons in accordance with the prospectus.

Objectives

The objective of the Fund is to increase the value of the Fund (capital appreciation) over the long term through investment in high-quality, long-term growth companies. Growth companies are those companies that can sustain above-average earnings growth for an extended period of time. The Fund will invest on a global basis in shares and preferred shares issued by companies quoted or traded on regulated markets. The Fund may invest in China A-Shares. The Fund may also gain indirect exposure to such companies by investment in market access products such as low exercise call warrants or participatory notes. While the Fund will primarily invest in shares and other securities related to shares, it may invest in investment-grade debt securities issued or guaranteed by a government of any European Union member state, the UK, Australia, Canada, Japan, New Zealand, Norway, Switzerland, United States of America and Hong Kong, where it is deemed in the best interest of the investors. The Fund may invest in other sub-funds of Comgest Growth plc. The Fund is actively managed. This means that the fund manager applies a detailed fundamental analysis in order to selectively pick companies in a discretionary manner. The Fund is not managed relative to a benchmark index, however, the performance of the Fund is compared to the performance of the MSCI AC World (Net Return) Index for comparative and information purposes only. This share class is an accumulating share class and income earned is fully reinvested.

Intended retail investor

This Fund is targeted for all types of investors (retail, professional or eligible counterparties) having a basic knowledge of financial instruments, able to make an informed decision based on the fund's prospectus and able to bear the loss of their investment because the Fund is not guaranteed. This Fund is suitable for investors whose main objective is the growth of their investment in the long-term (more than 5 years).

Umbrella Fund

Comgest Growth plc is structured as an umbrella fund with several sub-funds.

As a matter of Irish law, the assets and liabilities of each sub-fund are segregated from the other sub-funds within the umbrella, however, not all jurisdictions may recognise such segregation. The prospectus and periodic reports are prepared for the entire company. This Key Information Document refers to the product which is a single share class of one sub-fund of the company.

SFDR

The Fund has been categorised as an Article 8 Fund under the Sustainable Finance Disclosure Regulation which is a fund that promotes environmental and/or social characteristics. While the Fund does not have sustainable investment as its objective, it commits to have a minimum proportion of 15% of sustainable investments which contribute to environmental and/or social objectives.

Depositary

CACEIS Bank, Ireland Branch.

Product Information

The share price, prospectus (available in English, French and German) annual and semi-annual reports (available in English) and practical information on other share classes of this Fund or other sub-funds of the company are available free of charge at www.comgest.com. What are the risks and what could I get in return ?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

The actual risk can vary significantly if you do not hold the product for 5 years.

Be aware of currency risk. You may receive payments in a different currency than the currency of your country of residence, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

We have classified this product as 4 out of 7 which is a medium risk class. This rates the risk of potential losses from future performance at a medium level. The investment amount is not guaranteed and poor market conditions could impact the product's performance.

The indicator does not include China, Counterparty, Emerging markets and Liquidity risk. The Risk Factors section of the Prospectus contains further details.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or, in case of insufficient track record, a comparable share class or benchmark, over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions.

Recommended holding period: 5 years Example Investment: 10,000 EUR		If you exit after 1 year	If you exit after 5 years (RHP)
Scenarios			
Minimum	You could lose some or all of your investment		
Stress scenario	What you might get back after costs	5,110 EUR	4,180 EUR
	Average return each year	-48.9%	-16.0%
Unfavourable scenario	What you might get back after costs	7,820 EUR	9,150 EUR
	Average return each year	-21.8%	-1.8%
Moderate scenario	What you might get back after costs	10,900 EUR	14,420 EUR
	Average return each year	9.0%	7.6%
Favourable scenario	What you might get back after costs	12,570 EUR	19,320 EUR
	Average return each year	25.7%	14.1%

Stress scenario: The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between January 2025 and February 2026.

Moderate scenario: This type of scenario occurred for an investment between July 2019 and July 2024.

Favourable scenario: This type of scenario occurred for an investment between December 2016 and December 2021.

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Comgest Growth Plc is unable to pay out ?

The investor may face a financial loss (equal to some or all of the investor's investments) due to the default of the Fund. Such a potential loss is not covered by any investor compensation or guarantee scheme.

What are the costs ?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

Investment of 10,000 EUR	If you cash in after 1 year	If you cash in after 5 years (RHP)
Total costs	416 EUR	1,863 EUR
Cost impact*	4.2%	2.8%

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.4% before costs and 7.6% after costs.

How long should I hold it and can I take my money out early?

Recommended holding period (RHP): 5 years.

The RHP has been calculated in line with the Fund's long-term growth objective and therefore investors should intend to stay invested in the Fund for at least 5 years. Investors can, however, subject to the terms of the prospectus, redeem their shares in the Fund on any dealing day without penalty. Please see the 'What is this product?' section above and the prospectus for full details on redeeming shares. Investors should be aware that redeeming shares prior to the RHP may alter the risk indicator and performance scenarios of the Fund which are based on holding the investment for the RHP.

How can I complain?
