This document was produced on 16 September 2025.

What is this product?

Type
This product is a UCITS sub-fund of Brown Advisory Funds Plc. The Fund's assets are held through its Depository, which is Brown Brothers Harriman Trustee Services (Ireland) Limited.

Term
This Fund is an umbrella type open-ended UCITS and this product is not subject to any fixed term. For full investment objectives and policy details, please refer to the Investment Objectives and Investment Policy in the Fund's Supplement to the Prospectus, which are available at <https://www.brownadvisory.com/intl/home>. The Fund's assets are held through its Depository, which is Brown Brothers Harriman Trustee Services (Ireland) Limited. The NAV per share of the Fund will be published daily and made available on the internet at www.brownadvisory.com and will be updated following each calculation of NAV. You may sell Shares in the Fund by submitting a redemption request to the Fund's Administrator before 3.00pm (Irish Time) on each dealing day. The Company may compulsorily repurchase all of the Shares of any Fund if the Net Asset Value of the relevant Fund is less than the Minimum Fund Size (if any) as specified in the Supplement. Where an investor makes a repurchase request which brings his holding below the relevant Minimum Shareholding, the Directors are entitled to compulsorily repurchase all of the Shares held by that investor. Please also refer to Anti-Money Laundering and Counter Terrorist Financing Measures/Payment for Shares in the Prospectus for further information on compulsory redemptions. Further details on the conditions associated with the redemption of shares is included under the section "How long should I hold it and can I take money out early?"

Objectives
The objective of the Fund is to achieve capital appreciation by investing primarily in U.S. equities.

Investment Policy
The Fund aims to achieve its investment objective by investing at least 80% of its net assets in equity securities of U.S. companies that the Investment Manager considers have sound fundamentals and business models which are sustainable over the long-term.

The Fund invests primarily in the securities of medium and large capitalisation companies that the Investment Manager considers: (i) have prospects for above average earnings growth in the future; and (ii) effectively implement sustainable business strategies that drive earnings growth. Medium and large capitalisation companies are, according to the Investment Manager, those companies with market capitalisations generally greater than \$2 billion at the time of purchase. The Fund may also invest a portion of the portfolio in equity securities of small market capitalisation companies.
The Fund also promotes certain Sustainability Characteristics through its investment selection and ongoing monitoring processes, as described under Promotion of Sustainability Characteristics in the Fund's documentation. In addition, the Fund commits to investing a proportion of its Net Asset Value in Sustainable Investments.
The equity securities in which the Fund principally invests are common stocks. The Fund may also invest in non-US securities, ADR and GDR, corporate debt securities, U.S. treasury bills, fixed and/or floating rate U.S. government securities, real estate investment trusts and unlisted securities in a manner that is consistent with and complements the investment policies and the Investment Manager's investment process, subject to the limits set out in the Prospectus. With the exception of permitted investment in unlisted securities, investment by the Fund is restricted to the markets and exchanges listed in Appendix I of the Prospectus.
The Investment Manager has determined that the Fund is an Article 8 financial product for sustainability-related disclosures ("SFDR").
The fund is actively managed and it is not constrained by the benchmark, the Russell 1000 Growth Index which is used for performance comparison purposes only.
The Fund does not intend to distribute income on your shares. The price of your shares shall rise by the net income earned per share. For full investment policy details please refer to the Fund Supplement's Investment Objective and Policies section.

Intended Retail Investor
The Fund is suitable for any investor (institutional and, unless prohibited by the rules of a particular jurisdiction, retail) seeking to achieve capital appreciation over the long term (i.e., greater than five (5) years). As the Fund invests primarily in equities, investors should consider an investment in the Fund as medium to high risk.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1

4

5

6

7

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at <https://www.brownadvisory.com/intl/ucits-legal-document-library>.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years			
Investment: USD 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum: There is no minimum guaranteed return if you exit before 5 years			
Stress	What you might get back after costs Average return each year	2,480 USD -75.18%	1,810 USD -28.98%
Unfavourable ¹	What you might get back after costs Average return each year	6,730 USD -32.74%	11,050 USD 2.01%
Moderate ²	What you might get back after costs Average return each year	11,950 USD 19.50%	20,670 USD 15.63%
Favourable ³	What you might get back after costs Average return each year	15,490 USD 54.91%	34,250 USD 27.92%

¹ This type of scenario occurred for an investment between June 2024 and July 2025.

² This type of scenario occurred for an investment between November 2019 and November 2024.

³ This type of scenario occurred for an investment between October 2016 and October 2021.

What happens if Brown Advisory (Ireland) Limited is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is USD 10,000.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	280 USD	1,881 USD
Annual cost impact (*)	2.8%	2.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 17.8% before costs and 15.6% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering your investment. [This is the most you will pay, and you could pay less].	0 USD
Exit costs	1% - This is the maximum that might be taken out of your money before the proceeds of your investment are paid out.	98 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing your investments.	159 USD
Transaction costs	The impact of the costs of us buying and selling underlying investments for the product.	23 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This product does not have any performance fees.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The fund has daily liquidity. The recommended holding period of the fund assumes the fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The fund is not intended for short term speculation purposes. The Fund is open-ended and, accordingly, investors will have the right to request the redemption (whether in whole or in part) of their shares by contacting the Administrator as per the terms set out in the Prospectus. A 1% Repurchase Charge will only be charged in instances where there is a significant (typically in excess of 10%) net redemption or in the case of an investor engaging in excessive trading. While an exit fee may be levied on any redemption, the Investment Manager does not currently intend to do so and prior Shareholder notice will be provided should this policy change.

How can I complain?

As a Shareholder in the Fund, you are entitled to make a complaint free of charge. Any such complaint must be handled by the management company promptly and effectively. You also have the right to refer the relevant complaint to the Financial Services and Pensions Ombudsman after following the Fund's complaints process if you are still not satisfied with the response received. Further information on the complaints policy relating to the Fund is available from BAIrelandOps@Brownadvisory.com or please visit the following for further details [Complaints Disclosure](#). (Contact Address: Brown Advisory Limited, 18 Hanover Square, 1st Floor, London, W1S 1JY).

Other relevant information

Please see offering documentation for further information. The cost, performance and risk calculations included in this KID follow the methodology prescribed by EU regulation. Past performance for the previous 10 years and historical performance scenarios are available at: <https://www.brownadvisory.com/intl/kiid-library>.
