What are the risks and what could I get in return?

Risk Indicator:

The risk indicator assumes you keep the product until 6 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance-Scenarios:

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance over the last 11 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances. This type of unfavorable scenario occurred for an investment between March 2019 and March 2020 (if you exit after 1 year), October 2017 and October 2023 (if you exit after 6 years). This type of moderate scenario occurred for an investment between May 2021 and May 2022 (if you exit after 1 year), November 2018 and November 2024 (if you exit after 6 years). This type of favorable scenario occurred for an investment between October 2024 and October 2025 (if you exit after 1 year), July 2020 and July 2026 (if you exit after 6 years).

Recommended holding period: 6 years Example Investment: 10'000 EUR		If you exit after 1 year	If you exit after 6 years

What happens if VP Fund Solutions (Luxembourg) SA is unable to pay out?

Should the manufacturer, VP Fund Solutions (Luxembourg) SA, or the depositary bank, default on their obligations, the product is not included in the insolvent estate, and may be transferred or liquidated in compliance with the legal requirements.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- Investment: 10'000 EUR

	If you exit after 1 year	If you exit after 6 years
Total costs	756 EUR	2'844 EUR
Annual cost impact (*)	7.6 %	3.7 %

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.3 % before costs and 3.6 % after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 6 years

Based on the risk/return profile, we recommend a holding period of at least 6 year(s) for this product. However, you can return the product to the manufacturer at the next NAV subject to the notice period specified in the fund documents. Early redemption may have a significant impact on the risk/return profile. The AIFM or the management company may, provided this is taken into account in the constitutive documents, use appropriate liquidity management tools ("LMTs").
