Competent Authority:	The Commission de Surveillance du Secteur Financier (CSSF) is in charge of the control of Candriam with regard to this key information document. . This product is authorised in Luxembourg. Candriam is approved in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

This key information document is valid as at 2026-02-18.

WHAT IS THIS PRODUCT?

Type: This product is a share class (Classique) of a sub-fund (Euro Corporate 2036) of an investment company with variable capital (SICAV) under Luxembourg law (Candriam Bonds), Undertakings for Collective Investment in Transferable Securities (UCITS).

Term: 31-12-2036

Objectives:

Principal assets traded:

Bonds and other debt securities denominated in euros and issued by private issuers, with a minimum rating of BBB-/Baa3 (or equivalent) by one of the rating agencies (i.e. issuers with a good rating) or considered to be of comparable quality by the Management Company.

Investment strategy:

The fund seeks to achieve capital growth by investing in the principal assets traded, up to the initially scheduled maturity date of 31 December 2036. Depending on market conditions and the possibility of achieving the defined investment objective, the Board of Directors of the SICAV reserves the right to change it. Such a decision must be taken no later than two months before the scheduled maturity date. Close to the maturity date, the fund may be primarily invested in cash and money market instruments.

The management team makes discretionary investment choices based on economic/financial analyses.

The Fund promotes, among other characteristics, environmental and/or social characteristics but does not have sustainable investment as its objective. Environmental, social and governance (ESG) criteria contribute to the asset manager's decision-making but are not a decisive factor in this decision-making. For more information, please see the management company's website and/or the prospectus.

The fund may make use of derivative products for both investment and hedging purposes (to protect against future unfavorable financial events).

Benchmark: /.

Repayment of shares: On demand, every day, at Luxembourg.

Allocation of income: Reinvestment.

Intended retail investor:

This product is for investors who meet the conditions for accessing the product in question (see prospectus) with any level of knowledge and experience who are looking for Capital Growth. This product can be used as a core holding or a component of a diversified portfolio for investments with an investment horizon of 10 years. Investors should understand the product risks and only invest if they can bear potentially substantial losses.

General information:

Depositary bank: CACEIS Bank, Luxembourg Branch.

Other information:

This document provides a description of a share class of a sub-fund of Candriam Bonds. The prospectus and periodical reports are established for all the sub-funds. There are other share classes and these are listed in the prospectus.

Investors may apply for the conversion of their shares into shares of another class of the same sub-fund or into shares of a class of another sub-fund of the fund, based on the eligibility criteria and following the procedures available through their financial intermediary.

The sub-fund is only liable for the debts, liabilities and obligations that can be charged to it.

Additional information about the fund can be found in the prospectus and the periodical reports, which may be obtained free of charge on request from Candriam or viewed at any time on the website www.candriam.com. These documents are available in one of the languages approved by the local authority of each country where the fund is authorised to market its shares or in a common language in the international finance sphere. All other practical information, in particular the latest share price, is available from the places shown above.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 10 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of the currency risk. If your reference currency is different from the product's currency, the yield of your investment will also be influenced by fluctuations, both up and down, in the exchange rate between these two currencies. In this case, the risk indicator above does not in fact take account of the fluctuations between these two currencies.

Other risk(s) materially relevant not included in the summary risk indicator: Credit. Counterparty. Derivatives. Emerging markets. Liquidity. Sustainability.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and/or a suitable benchmark over the last 15 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: This type of scenario occurred for an investment between 08/2021 and 12/2025.

Moderate: This type of scenario occurred for an investment between 03/2014 and 02/2024.

Favourable: This type of scenario occurred for an investment between 12/2011 and 11/2021.

Recommended holding period: Example Investment:		10 years 10 000 EUR		
		If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress	<i>What you might get back after costs</i>	7 120 EUR	6 090 EUR	4 860 EUR
	Average return each year	- 28.79%	- 9.45%	- 6.96%
Unfavourable	<i>What you might get back after costs</i>	7 210 EUR	7 790 EUR	7 960 EUR
	Average return each year	- 27.91%	- 4.88%	- 2.26%
Moderate	<i>What you might get back after costs</i>	9 850 EUR	10 860 EUR	10 200 EUR
	Average return each year	- 1.55%	1.66%	0.2%
Favourable	<i>What you might get back after costs</i>	11 760 EUR	14 190 EUR	15 890 EUR
	Average return each year	17.65%	7.25%	4.74%

WHAT HAPPENS IF CANDRIAM IS UNABLE TO PAY OUT?

As the Funds' assets are held with the depositary, they are not part of the assets of Candriam in case of bankruptcy and cannot be seized by the creditors of Candriam. Nevertheless, investors run the risk to suffer a financial loss in case of the default of Candriam.

In case of default of the depositary, the risk of a financial loss is mitigated to some extent as the Fund's assets are legally segregated from the assets of the depositary.

The potential financial loss associated with the default of Candriam is not covered by an investor compensation or guarantee scheme.

WHAT ARE THE COSTS?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years	If you exit after 10 years
Total costs	606 EUR	1 044 EUR	1 451 EUR
Annual cost impact (*)	6.1%	1.9% each year	1.3% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.5% before costs and 0.2% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

If the fund is part of another product, such as an insurance product, the costs shown here do not include any additional costs you may incur.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.50% maximum of the amount you pay in when entering this investment.	Maximum 250 EUR
Exit costs	2.50% maximum of your investment before it is paid out to you.	256 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.82% of the value of your investment per year. This is an estimate based on actual costs over the last year.	100 EUR
Transaction costs	0.00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 10 years

The choice of recommended holding period depends on the types of the underlying investments and on the associated degree of risk, which may be higher or lower. For example "equity" type products (higher risk) generally have a recommended holding period of six years (long term), and "bonds or money market" type products (lower risk) have a shorter recommended holding period (generally between two and four years for bond products or less than one year for money market products - medium term/short term). "Mixed" type products generally have a recommended holding period of between three and five years depending on the weighting of the types of underlyings. "Alternative" type products generally have a recommended holding period of three years.

Investors may request redemption of their units at any time under the conditions set out in "What will this investment cost me?". The shorter the holding period in relation to the recommended period, the greater the potential impact of any charges on the performance profile.

HOW CAN I COMPLAIN?

Complaints about this product or about the conduct of the product manufacturer or the person advising on, or selling, the product:

Postal address: Candriam, SERENITY – Bloc B, 19-21, route d'Arlon – L-8009 Strassen
