

ESG Multi-Asset Fund

A sub-fund of BlackRock Global Funds

Class A2 EUR

ISIN: LU0093503497

Management Company: BlackRock (Luxembourg) S.A.

Objectives and Investment Policy

- ▶ The Fund aims to provide a return on your investment through a combination of capital growth and income on the Fund's assets and invest in a manner consistent with the principles of environmental, social and governance (ESG) investing.
- ▶ The Fund invests globally in equity securities (e.g. shares), fixed income securities (such as bonds), funds, cash, deposits and money market instruments (i.e. debt securities with short term maturities) in accordance with the Fund's ESG Policy described below.
- ▶ The Fund is actively managed and the extent to which the Fund is invested in these asset classes may vary without limit depending on market conditions and other factors at the investment adviser's (IA) discretion. In selecting these, the IA may refer to a composite benchmark comprising 25% MSCI World Index hedged to EUR, 25% MSCI World Index and 50% Bloomberg Global Aggregate Bond Index hedged to EUR (Index) for risk management purposes. The IA is not bound by the components or weighting of the Index when selecting investments. The IA may also use its discretion to invest in securities not included in the Index in order to take advantage of specific investment opportunities.
- ▶ The Fund's total assets will be invested in accordance with its ESG Policy and it will apply the EU Paris-Aligned Benchmark Exclusions as disclosed in the prospectus. For further details regarding the ESG characteristics please refer to the prospectus and the BlackRock website at <https://www.blackrock.com/baselinescreens>. The Fund's investments may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development). These may include securities with a relatively low credit rating or which are unrated.
- ▶ More than 90% of the issuers of securities the Fund invests in are ESG rated or have been analysed for ESG purposes. The weighted average ESG rating of the Fund will be higher than the ESG rating of the Index after eliminating at least 25% of the least well-rated securities from the Index.
- ▶ The Fund may obtain indirect exposure (through, including but not limited to, financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities which may not satisfy these ESG criteria. The IA may use FDIs for investment purposes in order to achieve the investment objective of the Fund, and/or to reduce risk within the Fund's portfolio, reduce investment costs and generate additional income. The Fund may, via FDIs, generate varying amounts of market leverage (i.e. where the Fund gains market exposure in excess of the value of its assets). Any ESG rating or analysis referenced above will apply only to the underlying securities of FDIs used by the Fund.
- ▶ The Fund's ESG score will be calculated as the total of each issuer ESG score (where applicable), weighted by its market value. The IA will create a portfolio that seeks to deliver a superior ESG outcome versus the Index and the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index. The Fund will seek to have a carbon emissions intensity score that is lower than the Index.
- ▶ Recommendation: This Fund may not be appropriate for short-term investment.
- ▶ Your shares will be non-distributing (i.e. dividend income will be included in their value).
- ▶ Your shares will be denominated in Euro, the Fund's base currency.
- ▶ You can buy and sell your shares daily. The minimum initial investment for this share class is US\$5,000 or other currency equivalent.

For more information on the Fund, share/unit classes, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Fund is rated four due to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.
 - Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Derivatives may be highly sensitive to changes in the value of the asset on which they are based and can increase the size of losses and gains, resulting in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.
- The Fund may seek to exclude Funds which are not subject to ESG-related requirements. Such ESG screening may reduce the potential investment universe and this may adversely affect the value of the Fund's investments compared to a fund without such screening.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures. In some cases you might pay less. Please refer to your financial advisor or the distributor for the actual entry and exit charges.

*Subject to a charge of up to 2% paid into the Fund where the Manager suspects excessive trading by an investor.

The ongoing charges figure is based on expenses for the twelve month period ending 30 April 2025. This figure may vary from year to year. It excludes portfolio trade-related costs, except costs paid to the custodian and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
