

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product Name:** ABN AMRO Funds Profile 4 - Moderately Aggressive

**Legal Entity Identifier:** 54930043ILLLOXDPKX02

## Environmental and/or social characteristics

### Does this financial product have a sustainable investment objective?

☒ ☒ ☐ Yes

☐ ☐ ☒ No

☐ It will make a minimum of **sustainable investments with an environmental objective**: \_\_\_\_%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It will make a minimum of **sustainable investments with a social objective**: \_\_\_\_%

☐ It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of \_\_\_\_% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ with a social objective

☒ It promotes E/S characteristics, but **will not make any sustainable investments**

### What environmental and/or social characteristics are promoted by this financial product?

The analysis of ESG factors is systematically integrated into the investment decision making process of ABN AMRO Funds Profile 4 - Moderately Aggressive (the "Sub-Fund"). ESG integration is the process of recognising the financial materiality (or significance) of environmental, social and corporate governance factors as part of the investment process. The Sub-Fund will use a selection of securities complying with ABN AMRO Investment Solutions (the "Management Company") ESG responsibility criteria. Under the ESG responsibility criteria of the Management Company, the Sub-Fund is committed to conducting both negative and positive screenings as well as taking engagement actions when necessary. The Sub-Fund will use a selection of securities complying with Environmental, Social and Governance (ESG) responsibility criteria. The portfolio will be composed of issuers that are leading in ESG best-practice or attractive due to their progression in ESG best-practice.

The Sub-Fund promotes both environmental and social characteristics. On the environmental front, the Sub-Fund promotes climate risk management. The social characteristics promoted by the Sub-Fund focus on global human rights, labor standards as well as diversity, equity and inclusion.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### ● What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?

ESG analysis is systematically integrated into the investment decision making process. As part of its ESG framework, the Management Company uses the following sustainability indicators to measure the achievement of each of the environmental or social characteristics promoted by the Sub-Fund:

On the corporate side:

- Absence of companies that do not meet the criteria defined in the Management Company's Exclusion List and that are deemed incompatible with the E/S promotion (e.g. tobacco, controversial weapons).
- Controversy Level Assessment - Controversy involvement is a key measure of ESG performance. Controversy level assessment reflects a company's level of involvement in issues and how it manages those issues.
- Compliance with the UN Global Compact - The United Nations Global Compact is the world largest corporate sustainability initiative aimed at encouraging businesses and firms worldwide to adopt sustainable and socially responsible policies, and to report on their implementation. The UN Global Compact is a principle-based framework for businesses, stating ten principles in the areas of human rights, labour, the environment and anti-corruption. The Ten Principles of the United Nations Global Compact are derived from: the Universal Declaration of Human Rights, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work, the Rio Declaration on Environment and Development, and the United Nations Convention Against Corruption.
- ESG Risk Scores - ESG risk scores measure a company's exposure to material industry-specific ESG risks and how the company manages those risks. This multi-dimensional way of measuring ESG risk combines the concepts of management and exposure to arrive at an absolute assessment of ESG risk.
- Scope 1 GHG Emissions- Scope 1 emissions emanate from a company's internal operations, including on-site energy production, vehicle fleets, manufacturing operations, and waste.
- Scope 2 GHG emissions- Scope 2 emissions are indirect emissions generated by the production of energy used by the company.

On the Sovereign side:

- Absence of issuers that do not meet the criteria defined in the Management Company's Exclusion List and that are deemed incompatible with E/S promotion (i.e. countries listed on ABN AMRO Sanctions List, ratification of the Treaty of the Non-Proliferation of nuclear weapons, ratification of the Paris Agreement, ratification of the ILO Conventions 182 on the Worst Forms of Child Labour)
- Country Risk Scores- The Country Risk Scores measure the risk to a country's long-term prosperity and economic development by assessing how sustainably it is managing its wealth.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not Applicable

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

Not Applicable

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights,

anticorruption and  
antibribery matters.

- **How have the indicators for adverse impacts on sustainability factors been taken into account?**

Not Applicable

- **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

Not Applicable

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

#### **Does this financial product consider principal adverse impacts on sustainability factors?**

- ☒ Yes, the Sub-Fund considers principal adverse impacts (PAI) as part of the investment decision making process. More specifically, on the corporate side, the Sub-Fund strives to minimize two PAIs by excluding (i) United Nations Global Compact non-compliant companies and (ii) controversial weapons. On the sovereign side, the Sub-Fund strives to minimize one PAI by excluding countries under international sanctions due to social violations. The Sub-Fund also strives to minimize part of the GHG intensity PAI (i.e., table 1, PAI 15) by excluding countries that have not signed the Paris Agreement.

The above principal adverse impacts are considered at product level through the exclusion policy.

Further information on principal adverse impacts will be provided in an annex to the Sub-Fund's annual report.

- ☐ No

#### **What investment strategy does this financial product follow?**

**The investment strategy** guides investment decisions based on factors such as investment objectives and risk tolerance.

The Management Company may (i) delegate part of the management of the Sub-Fund to a minimum of two External Investment Managers which are selected by the Management Company who will make investment decisions as part of the portfolio (ii) invest in units or shares of open-ended investment funds which qualify as UCITS, and/or qualify as other undertakings for collective investment (iii) manage directly the sub-funds. UCITS and delegations are selected in accordance with the Management Company's standards of quality and go through a qualitative ESG selection process before being retained. This process involves an in-depth analysis of the overall sustainability strengths going from the analysis of philosophy and investment processes.

Within the UCITS and delegations, the approaches are committed to combine a sustainability negative screening (exclusions) and a positive ESG selection investment process. The Sub-Fund's assets are predominantly allocated into investments that comply with the defined standards in

respect to the promoted environmental and social characteristics and defined within the Management Company's exclusion policy.. Looking at investments in external funds, the manager will only select external funds which promote environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector or fund which contribute to environmental and social objectives and qualifies as an investment product in accordance with article 9 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. External funds may not apply the same set of exclusions and thus may deviate from the "Sustainability Investment Policy" of the Management Company (i.e., applicable only to direct investments).

Methodological limitations can be assessed in terms of: nature of ESG information (quantification of qualitative data), ESG coverage (some data are not available for certain issuers) and homogeneity of ESG data (methodological differences).

- ***What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?***

The binding elements of the investment strategy are:

- The Management Company's exclusions list as defined in the following table:

Company Exclusions based on International Standards and Policies	Exclusion Criteria
Companies non-compliant with the UN Global Compact's Principles	No
Companies listed on ABN AMRO Investment Exclusion List (IEL)	No
Companies listed on AAIS Good Governance Blacklist	No

<b>Company Exclusions based on Revenue Thresholds</b>	<b>Exclusion Criteria</b>
Adult Entertainment Production	>5%
Controversial Weapons direct ownership	No
Controversial Weapons indirect ownership Involvement	>10%
Military Contracting Weapons	>0%
Military Contracting Weapons related products and /or services	>5%
Small Arms	>0%
Fur and specialty leather production	>5%
Unconventional fossil fuels (Arctic oil & gas exploration, oil sands and shale energy extraction methods)	Combined Revenues > 5%
Thermal Coal Extraction	>5%
Thermal Coal Power Generation	>10%
Cannabis (recreational purposes)	>5%
Gambling	>5%
Genetically Modified Organisms	>5%
Tobacco Producing Companies	>0%
Tobacco Products Related Products/Services	>5%
Tobacco Products Retail and/or Distribution	>5%
<b>Gouvernement Exclusions based on Norms and Policies</b>	<b>Exclusion Criteria</b>
Countries listed on ABN AMRO Sanctions List	No
Ratification Treaty of the Non-Proliferation of nuclear weapons (NPT)	Yes
Ratification Paris Agreement	Yes
Ratification ILO Conventions 182 on the Worst Forms of Child Labour	Yes

The table above is a non-exhaustive set of exclusions which may evolve over time (with no prior notice).

- Investments in UCITS or delegations that qualify as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector or fund which contribute to environmental and social objectives and qualifies as an investment product in accordance with

article 9 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector.

- ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

The delegated external investment managers selected by the Management Company are committed to apply a selectivity rate of at least 20 %.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

- ***What is the policy to assess good governance practices of the investee companies?***

The Sub-Fund incorporates good governance into its investment decision-making process, utilising both qualitative and quantitative assessments of governance practices.

For direct investments and/or internal/delegated strategies, the Management Company's good governance framework is employed to evaluate corporate governance, establishing criteria to identify companies that fail to meet good governance standards and exclude them from the initial investment universe. This framework aligns with widely recognized industry standards, covering aspects such as sound management structures, employee relations, remuneration of staff and tax compliance.

External funds aligned with E/S characteristics apply their own good governance policies, which may vary from those of the Management Company and from one external fund to another.

## **What is the asset allocation planned for this financial product?**

The Sub-Fund plans to invest at least 90% of its net assets in assets that have been determined as “eligible” as per the ESG process in place (hence in investments that are aligned with the promoted environmental and social characteristics (#1 Aligned with E/S characteristics)).

Consequently, up to 10% of the investments may not be aligned with these characteristics (#2 Other). “#2 Other” includes delegated External Investment Managers assets that qualify as Article 8 as defined by the Management Company’s Responsible Investment Policy, derivatives, bank deposits at sight, including cash held in current accounts with a bank accessible at any time. These are used for investment or hedging or efficient management portfolio purposes. A more detailed description of the specific asset allocation of this Sub-Fund can be found in the prospectus of this Sub-Fund. There are no minimum environmental or social safeguards associated with these investments.

**Asset allocation** describes the share of investments in specific assets.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

- **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Not Applicable

- **To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not Applicable

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, eg for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules testing.

- **Does the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

**1. Taxonomy-alignment of investments including sovereign bonds\***

■ Taxonomy-aligned: fossil gas (0%)  
 ■ Taxonomy-aligned: nuclear (0%)  
 ■ Taxonomy-aligned (no fossil gas & nuclear) (0%)  
 ■ Non Taxonomy-aligned (100%)

**2. Taxonomy-alignment of investments excluding sovereign bonds\***

■ Taxonomy-aligned: fossil gas (0%)  
 ■ Taxonomy-aligned: nuclear (0%)  
 ■ Taxonomy-aligned (no fossil gas & nuclear) (0%)  
 ■ Non Taxonomy-aligned (100%)

This graph represents of the total investments.

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU

- **What is the minimum share of investments in transitional and enabling activities?**

The Sub-Fund does not have a minimum share of investments in transitional and enabling activities (i.e., 0%), as it does not commit to a minimum proportion of environmentally sustainable investments aligned with the EU Taxonomy.

**What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

Not Applicable

**What is the minimum share of socially sustainable investments?**

Not Applicable

**What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?**

“#2 Other” includes delegated external investment managers assets that qualify as Article 8 as defined by the Management Company’s Responsible Investment Policy, derivatives, bank deposits at sight, including cash held in current accounts with a bank accessible at any time. These are used for investment or hedging or efficient management portfolio purposes. There are no minimum environmental or social safeguards associated with these investments.

**Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?**

No specific ESG-related index has been designated for this Sub-Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Not Applicable

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

Not Applicable

- **How does the designated index differ from a relevant broad market index?**

Not Applicable

- ***Where can the methodology used for the calculation of the designated index be found?***

Not Applicable

### **Where can I find more product specific information online?**
