## What is this product?

### Type

The Product is a share of the Sub-fund "AXA World Funds - EUROPE SMALL CAP" (the Sub-fund) which is part of the SICAV "AXA World Funds" (the "Company").

### Term

This product has no maturity date, although it has been created for 99 years and could be liquidated under the conditions laid down in the articles of incorporation of the company.

### Objectives

#### Investment Objective

To seek both long-term growth of your investment, in EUR, from an actively managed listed equity and equity-related securities portfolio, and to apply an ESG approach.

#### Investment Policy

"The Sub-Fund is actively managed and references STOXX Europe Small 200 Total Return Net (the "Benchmark") for comparative purposes only. The Investment Manager has full discretion over the composition of the portfolio of the Sub-Fund and can take exposure to companies not included in the Benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark.

The Sub-Fund invests essentially in equities of small and medium capitalisation companies domiciled in Europe, while ensuring sector diversification.

The Sub-Fund invests at least two thirds of its total assets in small cap companies listed on the European markets.

The Sub-Fund may invest less than 25% of its total assets in Money Market Instruments and up to 10% of its assets in convertible and straight bonds.

Derivatives may be used for efficient portfolio management or hedging purposes.

The Sub-Fund promotes environmental and/or social characteristics by investing in securities that have implemented good practices in terms of managing their environmental impacts, governance and social (ESG) practices. Firstly, the Sub-Fund bindingly applies at all times AXA IM's Sectorial Exclusion and ESG Standards Policies (<https://www.axa-im.com/our-policies>) and a "Best-in-universe" (type of ESG selection consisting of giving priority to the issuers in the investable universe best rated from a non-financial viewpoint, irrespective of their sector of activity, and accepting sector biases, because the sectors which are considered more virtuous on the whole will be more heavily represented) selectivity approach consisting in reducing the investable universe, by excluding issuers, based on a combination of AXA IM's Sectorial Exclusion and ESG Standards policies and their Environmental score, as described in the SFDR annex of the Sub-Fund. Secondly, the investment manager uses a strategy that combines macro-economic, sector and company specific analysis that relies on a

rigorous analysis of the companies' business model, management quality, growth prospects and risk/return profile. As an example, the ESG criteria may be carbon footprint for the environmental aspect, management of human resources and gender equality for the social aspect, or remuneration policy for the governance aspect.

The ESG data used are based on methodologies relying in part on third party data and in some cases are internally developed, are subjective and may change over time. The lack of harmonised definitions can make ESG criteria heterogeneous. As such, the different strategies using ESG criteria and ESG reporting are difficult to compare with each other. Strategies incorporating ESG criteria and those incorporating sustainable development criteria may use data that appear similar but which should be distinguished because their calculation method may be different. AXA IM's ESG different methodologies described herein may evolve in the future to take into account any improvements in data availability and reliability, or any developments of regulations or other external frameworks or initiatives -among others.

The Sub-Fund is a financial product that promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector.

### Income

For Capitalisation share classes (Cap), the dividend is reinvested.

### Investment Horizon

The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

### Processing of subscription and redemption orders

The subscription, conversion or redemption orders must be received by the Registrar and Transfer Agent on any Valuation Day no later than 3 p.m. Luxembourg time. Orders will be processed at the Net Asset Value applicable to such Valuation Day. The investor's attention is drawn to the existence of potential additional processing time due to the possible involvement of intermediaries such as Financial Advisers or distributors.

The Net Asset Value of this Sub-Fund is calculated on a daily basis.

### Intended retail investor

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested

	If you exit after 1 year	If you exit after 5 years
Total costs	€773	€1 801
Annual cost impact (*)	7.9%	3.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.73 % before costs and 0.20 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.50 % of the amount that you pay when you enter the investment. This includes distribution costs of 5.50 % of the amount invested. This is the maximum amount you will pay. The person who sold you the product will inform you of the actual costs.	Up to €550
Exit costs	We do not charge an exit fee for this product.	€0
Ongoing costs taken each year
