The Fund and the PRIIPs are registered in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier.

MSIM Fund Management (Ireland) Limited is appointed as the UCITS Management Company of the Fund and is authorised by the Central Bank of Ireland.

MSIM Fund Management (Ireland) Limited is a member of Morgan Stanley, a global financial group.

This document is accurate as at: 21 July 2026

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

This product is an accumulating share class of the Fund denominated in EUR.

The UCITS is an open-ended investment company with variable capital and qualifies as an undertaking for collective investment in transferable securities, subject to Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 as amended from time to time.
As an investment fund, the return of the Fund depends on the performance of its underlying assets.

Term

The Fund does not have a fixed maturity. All the shares in the Fund may be redeemed by the board of directors of the UCITS or at a general meeting of shareholders in certain circumstances details of which are outlined in the prospectus. As such, the UCITS Management Company may not unilaterally terminate the Fund.

Objective

Investment Objective:

To increase the value of your investment through a combination of income and growth of capital (total return).

Main Investments:

The fund invests at least 70% of total net assets in corporate bonds issued anywhere in the world, including emerging markets, that are denominated in Euros. Some of these investments may be below investment grade (high yield bonds).

Investment Policy:

In actively managing the fund, the investment manager combines macroeconomic, market and fundamental analysis to identify securities that appear to offer the best return for their risk level (top-down and bottom-up approach).
As an essential and integrated part of the investment process, the investment manager incorporates an assessment of sustainability-related risks and opportunities through the use of proprietary ESG assessment and scoring methodologies, and may engage issuers around what it deems to be materially important environmental and/or social issues as well as corporate governance practices.
The investment manager also applies certain other investment restrictions (see the fund's Sustainability Annex in the Prospectus).
The fund measures its performance against the Bloomberg Euro Aggregate: Corporates Index (the "Benchmark"). However, the fund is actively managed and, as such, is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

Other Information:

The fund may invest up to 30% of total net assets in bonds not meeting the criteria of the fund's primary investments, including bonds not denominated in Euros, and other types of securities.
Investments in corporate bonds will be at least B-/B3 rated or, in the case of securitised instruments such as asset- and mortgage-backed securities (ABSs/MBSs), at least BBB-/Baa3. If these securities are downgraded below the required rating, the fund may hold such securities up to 3% of total net assets but will divest any that have not been upgraded to the required credit rating within six months.
Up to 20% of total net assets may be invested in contingent convertible (coco) bonds, and up to 10% in Chinese bonds via the China Interbank Bond Market.
The fund may use derivatives, which are financial instruments which take their value indirectly from other assets, for reducing risks (hedging) and costs, and for investment purposes. They rely on other companies to fulfil contractual obligations and carry more risk (see "How the funds Use Instruments and Techniques" section in the Prospectus).

Redemption and Dealing: Investors may buy and sell shares on every full banking business day in Luxembourg.

Distribution Policy: Income generated by the Fund is reinvested in the value of shares.

Intended retail investor

Investors who understand the risks of the fund and plan to invest for the medium term.
The fund may appeal to investors who:
- are looking for a combination of income and investment growth
- seek income whether in the form of capital appreciation or distributions
- are interested in exposure to corporate bond markets globally, either for a core investment or for diversification
- accept the risks associated with this type of investment

Depositary: J.P. Morgan SE, Luxembourg Branch.

Further Information:

The prospectus of the UCITS and periodic reports are prepared for the entire UCITS. Assets and liabilities of each Fund are segregated by law, meaning that the liabilities allocated to one Fund may not impact the other Fund. Shareholders are entitled to convert their shares to shares of another Fund/class of the UCITS, as described in "Investing in the Funds" section of the prospectus.
Copies of the prospectus and of the last annual and semi-annual reports of the UCITS as well as other practical information such as the latest price for the shares may be obtained free of charge, in English, at the registered office of the Fund: MSIM Fund Management (Ireland) Limited, European Bank and Business Centre, 6B route de Trèves, L-2633 Senningerberg, Luxembourg.

What are the risks and what could I get in return?

Risk indicator

1	**2**	3	4	5	6	7

Lower risk ... Higher risk

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low-risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity to pay you.

Be aware of currency risk. The currency of this share class may be different from that of your country, as you may receive payments in the currency of this share class and not that of your country, the final return will depend on the exchange rate between these two currencies.

Not all risks affecting the Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, these include:
Credit, Counterparty, Sustainability, Liquidity, Derivatives, China Interbank Bond Market

This product does not include any protection from future market performance, so you could lose some or all of your investment. For further information please refer to the Fund prospectus, available free of charge at: www.morganstanley.com/im

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios are based on the worst, median and best outcomes observed from historical performance over rolling periods of the product's recommended holding period. These are calculated using up to 10 years of historical data (including proxy data where necessary). The scenarios illustrate a range of possible returns and are not an exact indicator of future performance. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		**3 years**	
Example Investment:		**10 000 EUR**	
		If you exit after 1 year	**If you exit after 3 years**
Scenarios			
Minimum	**There is no minimum guaranteed return. You could lose some or all of your investment.**		
Stress	**What you might get back after costs**	**7 980 EUR**	**8 050 EUR**
	Average return each year	-20.22%	-6.97%
Unfavourable	**What you might get back after costs**	**7 980 EUR**	**8 220 EUR**
	Average return each year	-20.22%	-6.33%
Moderate	**What you might get back after costs**	**9 860 EUR**	**10 050 EUR**
	Average return each year	-1.37%	0.16%
Favourable	**What you might get back after costs**	**10 670 EUR**	**11 550 EUR**
	Average return each year	6.66%	4.92%

For any Fund with less than 10 years of historical data, an appropriate proxy benchmark has been applied for performance scenario calculations. These calculations are net of all applicable costs.

Unfavourable: This type of scenario occurred for an investment between 01/10/2019 and 30/09/2022.

Moderate: This type of scenario occurred for an investment between 01/11/2017 and 31/10/2020.

Favourable: This type of scenario occurred for an investment between 01/11/2022 and 31/10/2025.

What happens if MSIM Fund Management (Ireland) Limited is unable to pay out?

The assets of the Fund are held in safekeeping by the Depositary. In the event of the insolvency of the Management Company, the Fund's assets in the safekeeping of the Depositary will not be affected. In the event of the Depositary's insolvency, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent as the Depositary is required by law and regulation to segregate its own assets from those of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from its negligence, fraud or intentional failure to fulfill its obligations. Such loss is not covered by an investors compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed (i) in the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) 10 000 EUR is invested.

Example Investment 10 000 EUR

	If you exit after 1 year	If you exit after 3 years
Total costs	507 EUR	725 EUR
Annual cost impact (*)	5.1%	2.4% each year

*This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 2.6% before costs and 0.2% after costs.

Composition of Cost

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount you pay in when entering this investment. In case of conversion into shares of another class or another Fund, no conversion fee are charged but shareholders may be requested to bear the difference in subscription fee if higher.	Up to 400 EUR
Exit costs	Exit fees may be charged for this product at the discretion of the Management Company. This may be up to 2% of the amount redeemed and takes into account the interests of existing shareholders.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.03% of the value of your investment per year. This is an estimate based on actual costs over the last year.	105 EUR
Transaction costs	0.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	2 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee applicable to this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended minimum holding period: 3 years

This product is designed for medium-long term investments; you should be prepared to stay invested for at least 3 years. However, you can redeem your investment without penalty incurred for disinvestment prior to the end of the recommended holding period, or hold the investment longer. Redemptions must be received by the registrar and transfer agent no later than 1pm CET to be dealt with on the basis of the net asset value per share applicable on that valuation date. Redemptions received by the registrar and transfer agent after that cut-off time will be dealt with on the next valuation date. Redemptions may be made in a number of shares. Redemption payments will be affected three (3) Bank business days, which are also days when the relevant foreign exchange market is open, after the redemption of the shares. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.

How can I complain?

If you have any complaint about the product, please find the steps to be followed for lodging any complaint at www.morganstanley.com/im . You can also send your complaint by email to cslux@morganstanley.com or in writing to the Fund's management company at: MSIM Fund Management (Ireland) Limited, European Bank and Business Centre, 6B route de Tréves, L-2633 Senningerberg, Luxembourg. If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
