

## KEY INFORMATION DOCUMENT

### Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

### Product

## DPAM L Bonds Universalis Unconstrained B EUR ISIN: LU0138643068

A sub-fund of DPAM L, a public SICAV under Luxembourg law

**Name of the originator of the product: CA Indosuez Fund Solutions S.A., in short CAI FS.**

Rue Eugène Ruppert 12, 2453 Luxembourg - caifs@ca-indosuez.lu - [www.ca-indosuez-fundsolutions.com](http://www.ca-indosuez-fundsolutions.com) - Call +352 2664501 for more information.

CA Indosuez Fund Solutions S.A. is a subsidiary of CA Indosuez Wealth (Europe) and part of the Crédit Agricole Group.

DPAM L is managed by the management company CA Indosuez Fund Solutions S.A. which acts in this capacity within the meaning of Directive 2009/65/EC.

**Competent authority:** The Commission de Surveillance du Secteur Financier (CSSF) is responsible for the supervision of CAI FS with regard to this Key Information Document.

This product is authorized in Luxembourg.

CAI FS is licensed in Luxembourg and regulated by the CSSF.

**Publication date of the Key Information Document: 27/04/2026**

### What is this product?

**Type** Accumulation shares (shares for which income and capital growth are retained in the share price) of a sub-fund of a SICAV, a regulated open-ended fund whose sub-funds are independent from a liability point of view.

### Investment objectives and policy

**Objective(s)** To increase the value of your investment over the medium to long term.

**Benchmark(s)** The fund is managed without reference to an index.

**Investment policy** Under normal market conditions, the sub-fund invests mainly in investment grade bonds from around the world and denominated in any currency. The fund may also invest significantly in Chinese bonds and bonds convertible into shares.

The sub-fund may use derivatives to hedge against market fluctuations and to reduce its costs, and also to generate additional income.

**Investment process** As part of the active management of the sub-fund, the manager uses macroeconomic, market and credit analysis in order to identify securities with a potential return that is advantageous in relation to the risk incurred.

**ESG approach** The manager incorporates ESG criteria such as carbon footprint intensity, environmental protection and corporate governance into his/her decision-making process. The manager excludes companies that are highly controversial by international standards, as well as companies with significant exposure to socially or environmentally damaging activities such as thermal coal and tobacco.

*SFDR Category Article 8.*

**Base currency** EUR

### Plan your investment

**Product availability** This sub-fund is available, with or without advice, for retail investors with basic financial knowledge and professional investors.

**Investor profile** This sub-fund is intended for investors who understand the risks of the sub-fund and:

- are seeking an investment that combines income generation and capital growth
- are interested in exposure to global bond markets, either as a core investment or for diversification purposes
- have a medium tolerance for risk and can tolerate a moderate loss on this investment.

**Placing orders** You can buy, exchange or sell shares of the sub-fund on any full bank business day in Luxembourg.

### Terms to understand

**article 8** Financial product that promotes environmental or social characteristics according to the European regulation (SFDR).

**ESG** Environmental, social and governance.

**derivative** Any financial security whose value is linked to one or more interest rates, indices, stocks, currencies, commodities or other underlying assets.

**bond** A financial security issued by a corporation, government or entity that generally pays interest. Investment grade bond issuers typically have a higher repayment capacity than high yield issuers.

*Depository: CACEIS Bank, Luxembourg Branch*

*For more information, including the prospectus and financial reports, see "Other relevant information" on page 3.*

### What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes that you keep the product for at least **4 years**. The actual risk can vary significantly if you cash in before maturity and you may get back less.

The risk indicator is designed to help you compare the risks of investment products. It uses the required calculation methodology, which includes market movements and the risk that the product manufacturer cannot pay

out as required. The risk indicator is not guaranteed and may change over time.

**All investments involve risk.** The value of your investment in this product can go up and down, and you could lose some or all of your investment. This product is rated at the low risk level (2 out of 7). Poor market conditions are very likely to reduce the value of your investment.

The sub-fund's risk level reflects the following:

- Bond investments have lower volatility and risk than equities and higher risk than money market instruments.

Other important risks partly or completely unreflected in the risk indicator:

- **If your currency as an investor is different from the subscription currency of this product, changes in currency exchange rates could reduce any investment gains or increase any investment losses.**
- Unusual market conditions or unforeseeable events may magnify risks or trigger other risks such as counterparty, liquidity and operational risks (a full description of these risks is available in the prospectus).

• If you place a request to sell (redeem) shares at a time when this product has received many other sell requests, the processing of your order may be delayed, which could affect the price you receive for your shares.

### Performance Scenarios

This table shows the money you could get back (net of costs) over different periods, under different scenarios, assuming you were to invest EUR 10,000 in the sub-fund. You can compare this with the scenarios of other products.

The figures shown include all costs of the product itself. The figures do not take into account your personal tax situation, which may affect how much you get back.

What you get out of this product depends on future market performance.

**Please note that future market performance is uncertain and cannot be accurately predicted.**

Recommended holding period:		4 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
<b>Minimum</b>			
<b>Stress</b>	<b>What you might get back after costs</b>	7 980 EUR	7 620 EUR
	Average return each year	-20.15%	-6.56%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	8 460 EUR	8 660 EUR
	Average return each year	-15.43%	-3.52%
<b>Moderate</b>	<b>What you might get back after costs</b>	9 970 EUR	9 830 EUR
	Average return each year	-0.29%	-0.43%
<b>Favourable</b>	<b>What you might get back after costs</b>	11 310 EUR	12 080 EUR
	Average return each year	13.07%	4.84%

The unfavorable, intermediate and favorable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the past 10 years. The stress scenario shows what you might get back in extreme market circumstances. The markets could evolve very differently in the future.

An index appropriate to the product was used to calculate performance.

Unfavorable scenario: this type of scenario occurred for an investment between 30/09/2019 and 29/09/2023.

Intermediate scenario: this type of scenario occurred for an investment between 31/12/2018 and 31/12/2022.

Favorable scenario: this type of scenario occurred for an investment between 29/01/2016 and 31/01/2020.

### What happens if CA Indosuez Fund Solutions S.A. is unable to pay out?

The sub-fund's assets are segregated from those of the other sub-funds in the SICAV and from CA Indosuez Fund Solutions S.A., the product manufacturer and management company of the sub-fund. Even if it were to fail, the product manufacturer could not use the sub-fund's assets to pay its debts.

The only scenario under which an investor could incur a loss is by selling shares at a time when they are worth less than what the investor paid.

### What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

This table shows the amounts deducted from your investment to cover various costs. These amounts depend on the amount you invest, the duration of your investment and the performance of the sub-fund. The amounts shown are illustrations based on a hypothetical investment amount and different investment periods.

We have assumed that:

- for the first year, you get back the amount you invested (0% annual return);
- for the other holding periods, the product evolves as indicated in the intermediate scenario;
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	<b>322 EUR</b>	<b>732 EUR</b>
<b>Annual cost impact (*)</b>	<b>3.2%</b>	<b>1.7% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 1,31 % before costs and -0,43 % after costs.

## Composition of the costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00% of the amount you pay in when entering this investment. This is the most you will pay, you could pay less.	Up to 200 EUR
Exit costs	Nil	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,0% of the value of your investment per year. This is an estimate based on actual costs over the last year.	99 EUR
Transaction costs	0,2% This is an estimate of the costs incurred when buying and selling investments underlying the sub-fund. The actual amount will vary depending on the quantity bought and sold.	21 EUR
Incidental costs taken under specific conditions		
Performance fees	This product does not charge any performance fees.	0 EUR

How long should I hold it and can I take money out early?

**Recommended holding period** At least 4 years.

**Redeeming your investment** You can request to take out some or all of your money at any time. See Processing requests in *What is this product?* above.

How can I complain?

You can send an email including a description of the issue and your contact details to [Caifs\\_compliance@ca-indosuez.lu](mailto:Caifs_compliance@ca-indosuez.lu), or send your complaint in writing together with supporting documents, to:

CA Indosuez Fund Solutions S.A.

To the attention of the Chief Compliance Officer

12, rue Eugène Ruppert

L-2453 Luxembourg.
