The Fund was incorporated as a société anonyme, an open-ended fund formed under the amended law of 17 December 2010 on undertakings for collective investment. It is an umbrella fund with multiple compartments, the Sub-Fund being one of these compartments. The Shares are a class of shares in the Sub-Fund.

Objective

This actively managed Sub-Fund aims to achieve the highest possible capital growth in EUR. It is categorized as Article 8 SFDR. More details can be found in the prospectus.

The Sub-Fund mainly invests in equities and equity-like securities (including transferable securities that are qualified as closed-ended real estate investment trusts, participation certificates, depositary receipts) issued by companies based in Europe and/or conduct the majority of their business in Europe.

The Sub-Fund invests in a portfolio of stocks in companies with high profit growth and high profitability. The Sub-Fund may invest up to 10% of its net assets in UCITS/UCIs.

Up to 33% of the Sub-Fund's assets may be invested outside the aforementioned investment universe, in other securities, instruments, asset classes, in money market instruments and bank deposits to achieve the investment objective and/or for liquidity management. It may also hold up to 20% of its net assets in bank deposits at sight.

The Sub-Fund may use derivatives for hedging purposes and for efficient portfolio management.

Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).

Any income generated will be reinvested and included in the value of your Shares.

The Sub-Fund uses the benchmark MSCI Europe Index TR net for performance comparison. The portfolio manager has full investment discretion within the predefined investment limits. Please see the prospectus for relevant Benchmark Provider Notices.

Taking into consideration the minimum recommended holding period, the return will depend on the performance of the underlying investments.

The Fund's depositary is State Street Bank International GmbH, Luxembourg Branch.

This Sub-Fund is part of an umbrella fund. The various sub-funds are not liable for one another, i.e. only the gains and losses of this Sub-Fund are relevant for you as an investor. You can request the conversion of some or all of your Shares in the Sub-Fund in accordance with the "Conversion of Shares" section, unless stipulated otherwise in the special part of the sales prospectus.

The sales prospectus, including pre-contractual SFDR disclosures, up-to-date semi-annual and annual reports, share prices and other practical information are available free of charge at www.vontobel.com/AM in English and German.

What happens if Vontobel Asset Management S.A. is unable to pay out?

The investor may not face a financial loss due to the default of the Product Manufacturer.
The assets of the Fund are held in safekeeping by its depositary, State Street Bank International GmbH, Luxembourg Branch (the "Depositary"). In the event of the insolvency of the Product Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. This risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 758	EUR 1,798
Annual cost impact (*)	8.0%	3.5% each year

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
These figures include the maximum distribution fee that the person selling you the product may charge.
