The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

- Investment in Sustainable Investments
- Investments in issuers deemed to have positive externalities
- Investment in use-of-proceeds bonds
- Exclusion of issuers which produce tobacco products
- Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians
- Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use
- Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
- Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons
- Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)
- Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
- Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles
- Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products
- Limiting investments in issuers deemed to have negative externalities

EU Taxonomy environmental objectives contributed to by the Fund

- Climate Change Mitigation
- Climate Change Adaptation

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in use-of-proceeds bonds	% use-of-proceeds bonds held by the Fund	6.94%	6.91%	8.55%
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	19.57% ¹	20.54%	24.32%
Investments in issuers deemed to have positive externalities	% investments deemed to have positive externalities held by the Fund	25.37%	32.20%	48.07%
Limiting investments in issuers deemed to have negative externalities	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches
--	----------------------	--------------------	--------------------	--------------------

¹During the reference period, the Fund had one active breach due to holding less than 20% in Sustainable Investments. The breach was identified, reported and rectified as part of BlackRock's standard breach resolution process.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 19.57% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

- (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
- (ii) the issuer's business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”s) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Investment in use-of-proceeds bonds
GHG Intensity of Investee Companies	Investment in use-of-proceeds bonds
Greenhouse gas (GHG) emissions	Investments in issuers deemed to have positive externalities
GHG Intensity of Investee Companies	Investments in issuers deemed to have positive externalities
Greenhouse gas (GHG) emissions	Limiting investments in issuers deemed to have negative externalities
GHG Intensity of Investee Companies	Limiting investments in issuers deemed to have negative externalities
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Exposure to companies active in the fossil fuel sector	Investments in issuers deemed to have positive externalities
Exposure to companies active in the fossil fuel sector	Limiting investments in issuers deemed to have negative externalities
Energy consumption intensity per high impact climate sector	Investments in issuers deemed to have positive externalities
Energy consumption intensity per high impact climate sector	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Limiting investments in issuers deemed to have negative externalities

Global Bond Income Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	100.00%	100.00%	100.00%
#2 Other	0.00% ²	0.00% ¹	0.00% ¹
#1A Sustainable	19.57%	20.54%	24.32%
#1B Other E/S characteristics	80.43%	79.46%	75.68%
Taxonomy-aligned	0.98%	0.92%	0.00%
Other environmental	15.83%	16.68%	20.38%
Social	2.76%	2.94%	3.94%

¹During the reference periods ended 31 August 2023 and 31 August 2024, the net exposure to "Other" assets was -2.06% and -7.58% respectively, due to derivative positions held by the Fund.

²During the reference period ended 31 August 2025, the net exposure to "Other" assets was -7.12% due to derivative positions held by the Fund.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

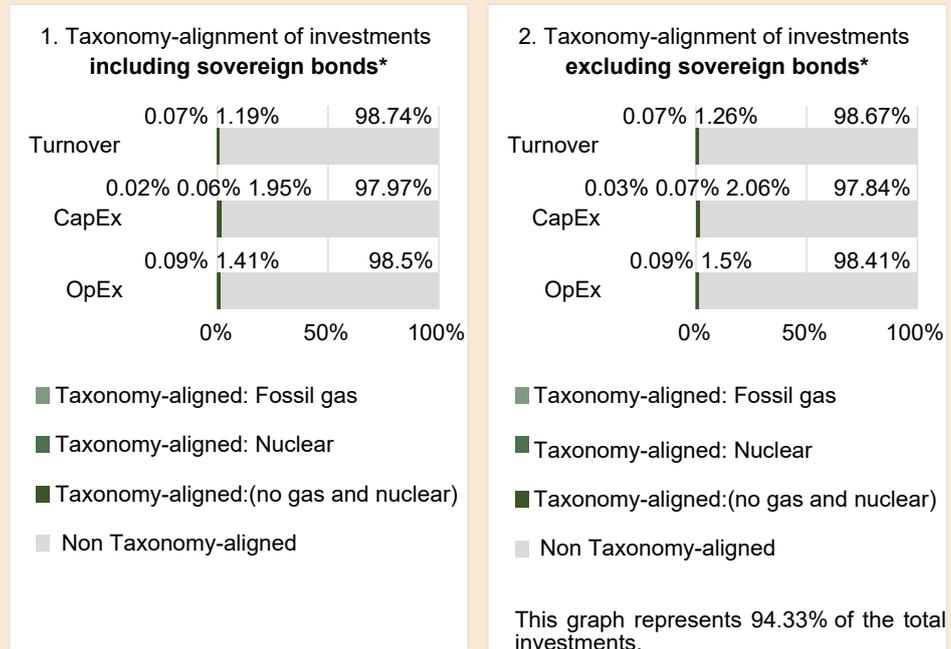

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.02%	0.00%
Taxonomy-aligned: Nuclear	0.07%	0.06%	0.09%
Taxonomy-aligned: No gas and nuclear	1.19%	1.95%	1.41%
Non Taxonomy-aligned	98.74%	97.97%	98.50%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.03%	0.00%
Taxonomy-aligned: Nuclear	0.07%	0.07%	0.09%
Taxonomy-aligned: No gas and nuclear	1.26%	2.06%	1.50%
Non Taxonomy-aligned	98.67%	97.84%	98.41%

For the reference period, 5.67% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.23%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.03%
Enabling Activities	0.52%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.26%	1.03%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 15.83% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 2.76% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" can include derivatives, cash and near cash instruments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Bond Income Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Global Equity Income Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Global Equity Income Fund

Legal entity identifier:
5493003EIFVTQB3EDS83

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Global Equity Income Fund (continued)

● **How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	5.60%	United States
Taiwan Semiconductor Manufacturing	Information Technology	3.48%	Taiwan (Republic of China)
Astrazeneca Plc	Health Care	3.31%	United Kingdom
Broadcom Inc	Information Technology	3.24%	United States
Coca-Cola	Consumer Staples	2.97%	United States
Meta Platforms Inc Class A	Communication	2.69%	United States
Relx Plc	Industrials	2.62%	United Kingdom
Accenture Plc Class A	Information Technology	2.50%	Ireland
Novo Nordisk Class B	Health Care	2.46%	Denmark
Apple Inc	Information Technology	2.43%	United States
Cms Energy Corp	Utilities	2.34%	United States
Alphabet Inc Class A	Communication	2.34%	United States
Ge Aerospace	Industrials	2.17%	United States
Oracle Corp	Information Technology	2.14%	United States
Intercontinental Exchange Inc	Financials	2.11%	United States

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

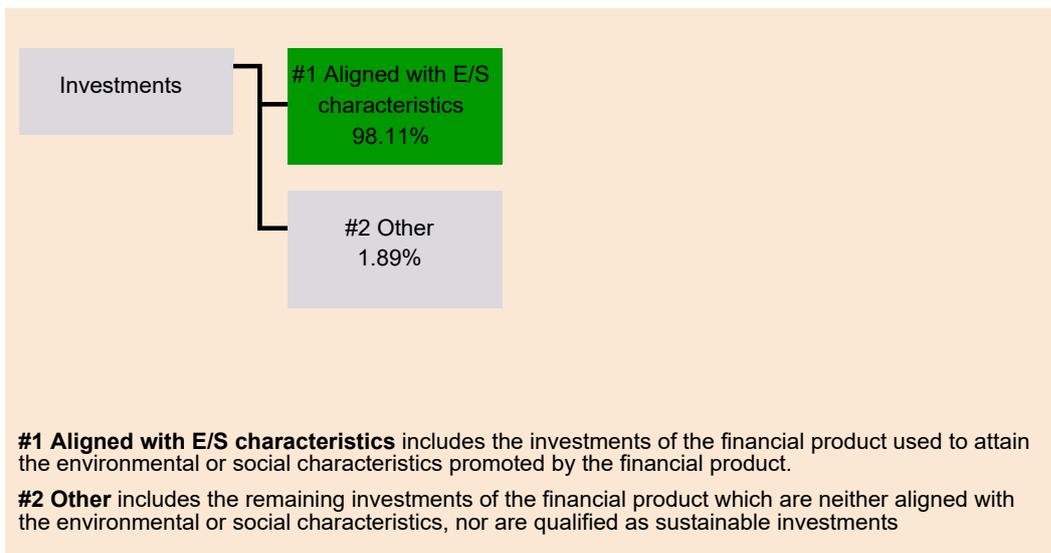

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.11%	98.25%	98.49%
#2 Other	1.89%	1.75%	1.51%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	11.74%
Industrials	Capital Goods	10.54%
Information Technology	Semiconductors & Semiconductor Equipment	10.36%
Health Care	Pharma, Biotech & Life Sciences	9.74%
Financials	Financial Services	6.55%
Financials	Banks	5.77%
Communication	Media & Entertainment	5.03%
Consumer Staples	Food Beverage Tobacco	4.04%
Industrials	Commercial & Professional Services	3.86%
Communication	Telecommunications	3.65%
Financials	Insurance	3.26%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	2.55%
Information Technology	Tech Hardware & Equipment	2.43%
Consumer Discretionary	Consumer Durables	2.36%
Utilities	Utilities	2.34%
Health Care	Health Care Equipment & Services	2.10%
Materials	Materials	2.09%
Consumer Staples	Consumer Staples Distribution & Retail	1.92%
Industrials	Transportation	1.85%
Energy	Integrated Oil & Gas	1.73%
Energy	Oil & Gas Equipment & Services	1.23%
Energy	Oil & Gas Storage & Transportation	1.19%
Consumer Staples	Household & Personal Products	1.16%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas exploration and production, oil and gas drilling, oil and gas refining and marketing or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

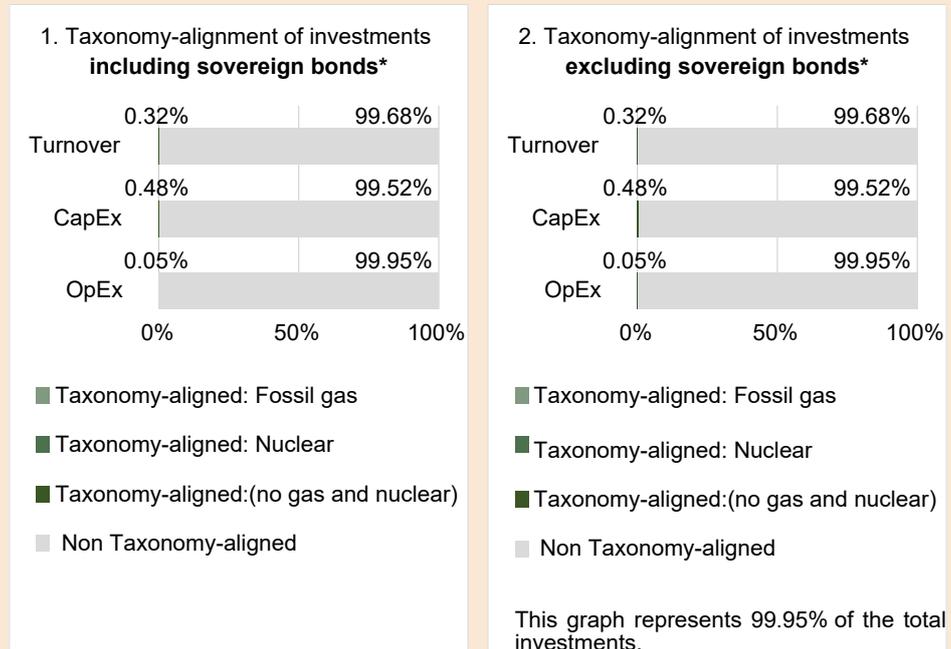

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.32%	0.48%	0.05%
Non Taxonomy-aligned	99.68%	99.52%	99.95%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.32%	0.48%	0.05%
Non Taxonomy-aligned	99.68%	99.52%	99.95%

For the reference period, 0.05% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.32%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.25%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.32%	0.06%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Equity Income Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Global Government Bond Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Global Government Bond Fund

Legal entity identifier:
549300ZROVR8S4X5V054

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 13.69% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Investment in Sustainable Investments

Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe

Investment in use-of-proceeds bonds

Limiting investments in issuers deemed to have negative externalities

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Global Government Bond Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in use-of-proceeds bonds	% use-of-proceeds bonds held by the Fund	10.61%	14.68%	11.78%
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	13.69%	17.81%	14.59%
Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe	% improvement in exposure to issuers deemed to have positive externalities relative to the Index	645.05%	459.14%	527.66%
Limiting investments in issuers deemed to have negative externalities	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches
--	----------------------	--------------------	--------------------	--------------------

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 13.69% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks (“Environmental and Social Objectives”).

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

- (i) a minimum proportion of the issuer’s business activity contributed to an environmental and/or social objective; or
- (ii) the issuer’s business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”s) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Investment in use-of-proceeds bonds
Greenhouse gas (GHG) emissions	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe
Greenhouse gas (GHG) emissions	Limiting investments in issuers deemed to have negative externalities
GHG Intensity of Investee Companies	Investment in use-of-proceeds bonds
GHG Intensity of Investee Companies	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe
GHG Intensity of Investee Companies	Limiting investments in issuers deemed to have negative externalities
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Exposure to companies active in the fossil fuel sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe
Exposure to companies active in the fossil fuel sector	Limiting investments in issuers deemed to have negative externalities
Energy consumption intensity per high impact climate sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Investment Universe
Energy consumption intensity per high impact climate sector	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles
Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)

Global Government Bond Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.78%	100.00%	100.00%
#2 Other	1.22%	0.00% ¹	0.00% ¹
#1A Sustainable	13.69%	17.81%	14.59%
#1B Other E/S characteristics	85.09%	82.19%	85.41%
Taxonomy-aligned	0.16%	0.17%	0.00%
Other environmental	11.64%	15.98%	13.77%
Social	1.89%	1.67%	0.82%

¹During the reference periods ended 31 August 2023 and 31 August 2024, the net exposure to "Other" assets was -0.26% and -0.43% respectively, due to derivative positions held by the Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Treasuries	Treasuries	65.23%
Securitized	ABS	7.48%
Securitized	CMO	6.29%
Securitized	CMBS	3.96%
Banking	Banking	3.29%
Government Related	Supranational	1.82%
Government Related	Sovereign	1.31%
Securitized	MBS Pass-Through	1.23%
Government Related	Local Authority	1.20%
Energy	Midstream	0.20%
Energy	Independent	0.16%
Energy	Integrated	0.07%
Energy	Refining	0.06%
Energy	Oil Field Services	0.05%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): metals and mining.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

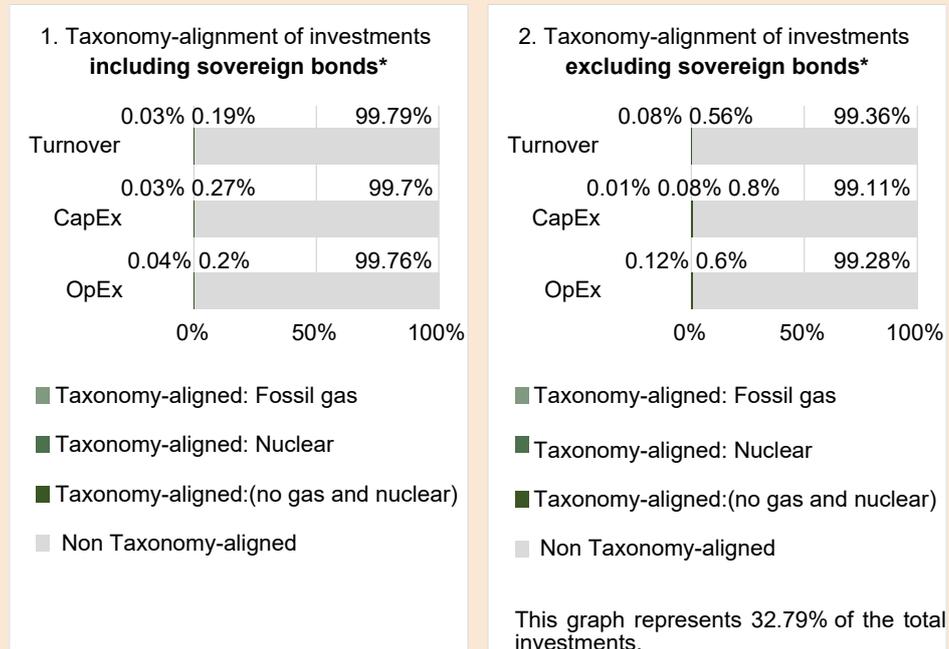

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.03%	0.03%	0.04%
Taxonomy-aligned: No gas and nuclear	0.19%	0.27%	0.20%
Non Taxonomy-aligned	99.79%	99.70%	99.76%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.01%	0.00%
Taxonomy-aligned: Nuclear	0.08%	0.08%	0.12%
Taxonomy-aligned: No gas and nuclear	0.56%	0.80%	0.60%
Non Taxonomy-aligned	99.36%	99.11%	99.28%

For the reference period, 67.21% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.21%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.01%
Enabling Activities	0.11%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.22%	0.17%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 11.64% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 1.89% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments, and fixed income transferable securities (also known as debt securities) issued by governments worldwide however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Government Bond Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Global High Yield Bond Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Global High Yield Bond Fund

Legal entity identifier:
549300FVQG82AXR0U687

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Global High Yield Bond Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global High Yield Bond Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global High Yield Bond Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

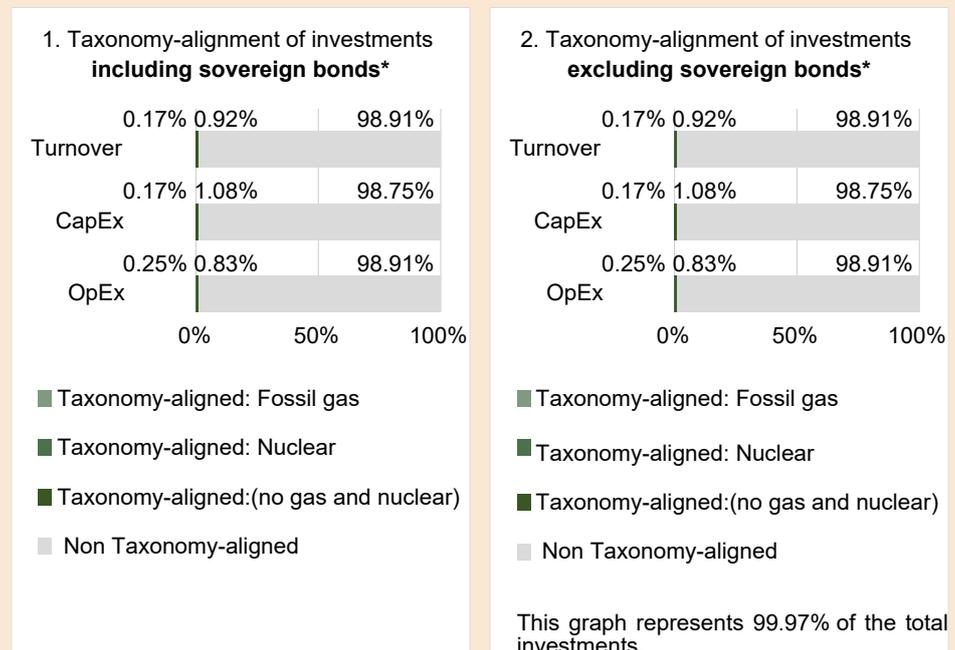

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global High Yield Bond Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.17%	0.17%	0.25%
Taxonomy-aligned: No gas and nuclear	0.92%	1.08%	0.83%
Non Taxonomy-aligned	98.91%	98.75%	98.91%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.17%	0.17%	0.25%
Taxonomy-aligned: No gas and nuclear	0.92%	1.08%	0.83%
Non Taxonomy-aligned	98.91%	98.75%	98.91%

For the reference period, 0.03% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.08%
Climate Change Adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.12%
Enabling Activities	0.29%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.09%	0.64%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global High Yield Bond Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Appendix IV – Supplementary Information (Unaudited) continued

Global Listed Infrastructure Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Global Listed Infrastructure Fund

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Investment in Sustainable Investments

Maintain that the Fund invests at least 70% of its investments in infrastructure companies globally that are facilitating and enabling the transition to a low carbon economy

Exclusion of issuers involved in the production, distribution, licensing, retail or supply of tobacco or tobacco-related products

Exclusion of issuers involved in the production or distribution of firearms or small arms ammunitions intended for retail civilians

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers which have any exposure to, or ties with controversial weapons

Limit direct investment in securities of issuers involved in the extraction of, or the generation of power using thermal coal or tar sands (also known as oil sands)

Exclusion of issuers which have any exposure to, or ties with conventional weapons

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Global Listed Infrastructure Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	55.02%	55.35%	N/A ¹
Maintain that the Fund invests at least 70% of its investments in infrastructure companies globally that are facilitating and enabling the transition to a low carbon economy	% investments aligned to the transitioning infrastructure theme	80.97%	80.58%	N/A ¹
Exclusion of issuers involved in the production, distribution, licensing, retail or supply of tobacco or tobacco-related products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers involved in the production or distribution of firearms or small arms ammunitions intended for retail civilians	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers have any exposure to, or ties with controversial weapons	# of active breaches	No active breaches	No active breaches	N/A ¹
Limit direct investment in securities of issuers involved in the extraction of, or the generation of power using, thermal coal or tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers have any exposure to, or ties with conventional weapons	# of active breaches	No active breaches	No active breaches	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 55.02% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Exposure to companies active in the fossil fuel sector	Limit direct investment in securities of issuers involved in the extraction of, or the generation of power using, thermal coal or tar sands (also known as oil sands)
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers have any exposure to, or ties with controversial weapons

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Transurban Group Stapled Units	Industrials	5.64%	Australia
Nextera Energy Inc	Utilities	3.62%	United States
Aena Sme Sa	Industrials	3.58%	Spain
Tc Energy Corp	Energy	3.36%	Canada
Duke Energy Corp	Utilities	3.35%	United States
Union Pacific Corp	Industrials	3.17%	United States
National Grid Plc	Utilities	3.17%	United Kingdom

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

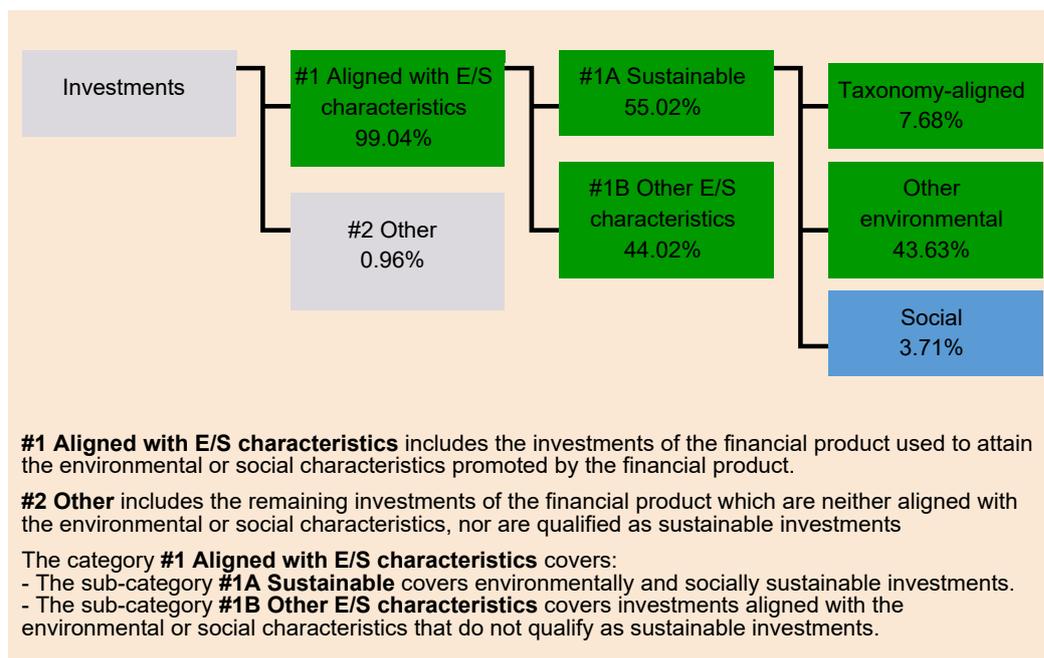

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	99.04%	98.97%	N/A ¹
#2 Other	0.96%	1.03%	N/A ¹
#1A Sustainable	55.02%	55.35%	N/A ¹
#1B Other E/S characteristics	44.02%	43.62%	N/A ¹
Taxonomy-aligned	7.68%	8.68%	N/A ¹
Other environmental	43.63%	42.87%	N/A ¹
Social	3.71%	3.80%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Utilities	Utilities	49.31%
Industrials	Transportation	28.09%
Energy	Oil & Gas Storage & Transportation	14.41%
Real Estate	Equity Real Estate Investment Trusts (REITs)	5.10%
Communication	Telecommunications	1.64%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

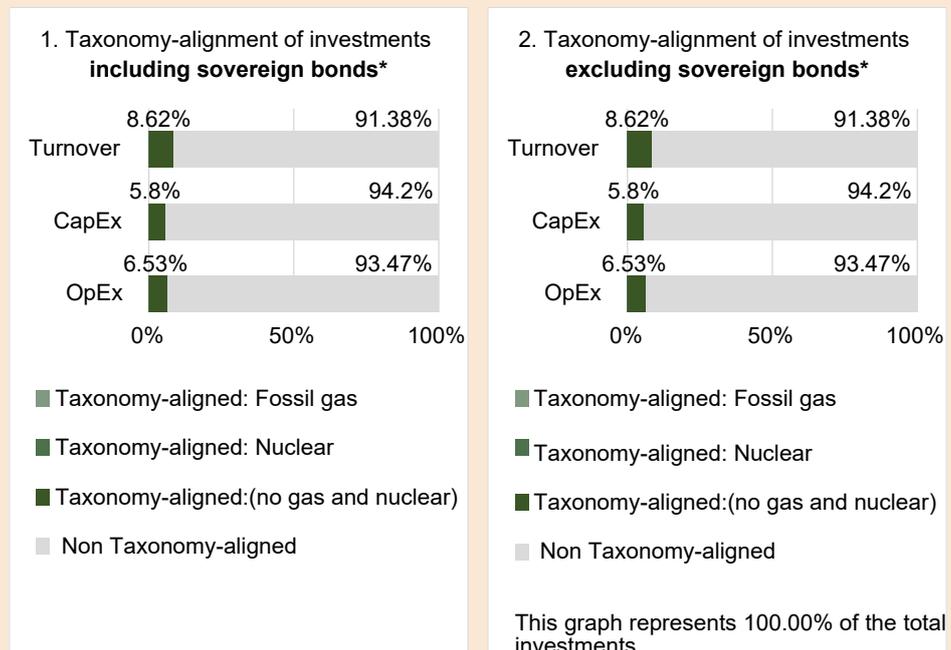

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	8.62%	5.80%	6.53%
Non Taxonomy-aligned	91.38%	94.20%	93.47%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	8.62%	5.80%	6.53%
Non Taxonomy-aligned	91.38%	94.20%	93.47%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	8.58%
Climate Change Adaptation	0.04%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.01%
Enabling Activities	2.20%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	8.62%	9.78%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Listed Infrastructure Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 43.63% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 3.71% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Global Long-Horizon Equity Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	7.54%	United States
Amazon Com Inc	Consumer Discretionary	5.21%	United States
Boston Scientific Corp	Health Care	4.77%	United States
Charles Schwab Corp	Financials	4.37%	United States
Mastercard Inc Class A	Financials	4.35%	United States
Intercontinental Exchange Inc	Financials	4.31%	United States
Broadcom Inc	Information Technology	3.98%	United States
Howmet Aerospace Inc	Industrials	3.64%	United States
Baker Hughes Class A	Energy	3.61%	United States
Servicenow Inc	Information Technology	3.61%	United States
Unitedhealth Group Inc	Health Care	3.50%	United States
Astrazeneca Plc	Health Care	3.50%	United Kingdom
Otis Worldwide Corp	Industrials	3.38%	United States
Thermo Fisher Scientific Inc	Health Care	3.36%	United States
Meta Platforms Inc Class A	Communication	3.20%	United States

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

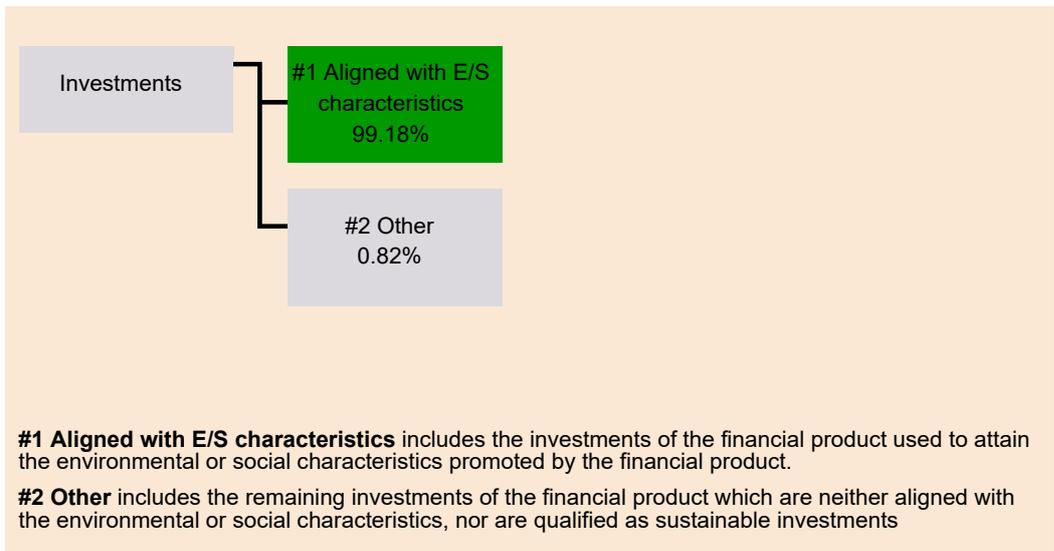

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	99.18%	99.29%	97.77%
#2 Other	0.82%	0.71%	2.23%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	15.59%
Financials	Financial Services	15.24%
Information Technology	Software & Services	13.70%
Health Care	Pharma, Biotech & Life Sciences	10.41%
Health Care	Health Care Equipment & Services	8.79%
Information Technology	Semiconductors & Semiconductor Equipment	8.54%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.21%
Energy	Oil & Gas Equipment & Services	3.61%
Communication	Media & Entertainment	3.20%
Materials	Materials	3.04%
Information Technology	Tech Hardware & Equipment	2.49%
Financials	Banks	2.25%
Consumer Staples	Household & Personal Products	1.89%
Consumer Discretionary	Consumer Durables	1.69%
Consumer Staples	Consumer Staples Distribution & Retail	1.20%
Industrials	Commercial & Professional Services	1.18%
Consumer Staples	Food Beverage Tobacco	1.15%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas storage and transportation, oil and gas drilling, oil and gas refining and marketing or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

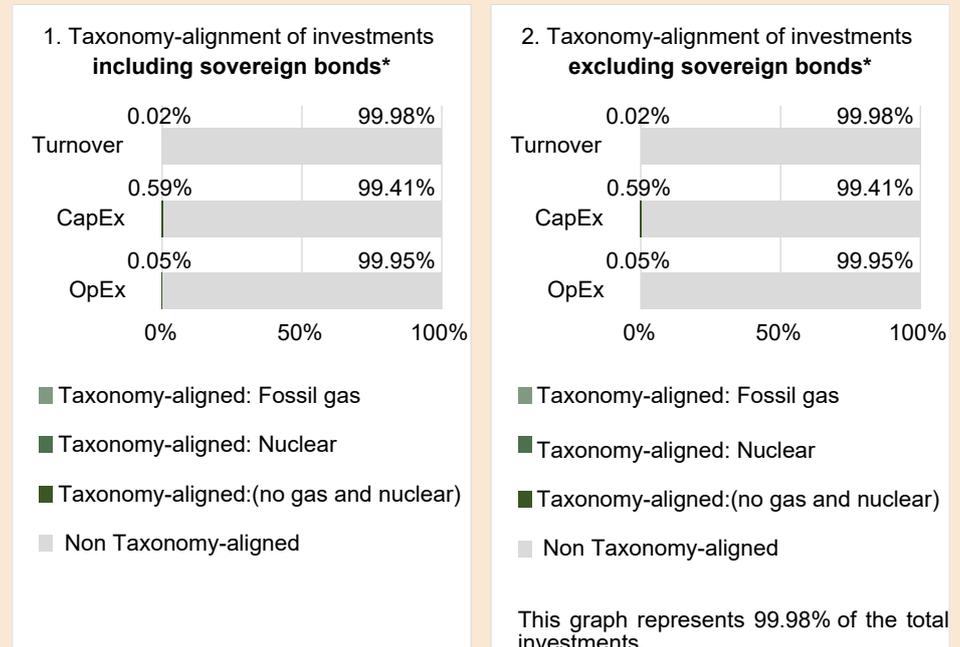

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.02%	0.59%	0.05%
Non Taxonomy-aligned	99.98%	99.41%	99.95%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.02%	0.59%	0.05%
Non Taxonomy-aligned	99.98%	99.41%	99.95%

For the reference period, 0.02% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.02%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.01%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.02%	0.07%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Long-Horizon Equity Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Global Unconstrained Equity Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Global Unconstrained Equity Fund

Legal entity identifier:
529900C4B6X8NH3O3X24

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Global Unconstrained Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Global Unconstrained Equity Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Microsoft Corp	Information Technology	9.08%	United States
Meta Platforms Inc Class A	Communication	6.28%	United States
Asml Holding Nv	Information Technology	5.79%	Netherlands
S&P Global Inc	Financials	5.67%	United States
Cadence Design Systems Inc	Information Technology	4.98%	United States
Mastercard Inc Class A	Financials	4.96%	United States
Visa Inc Class A	Financials	4.84%	United States
Masimo Corp	Health Care	4.56%	United States
Hilton Worldwide Holdings Inc	Consumer Discretionary	4.40%	United States
Alphabet Inc Class C	Communication	4.31%	United States
Amazon Com Inc	Consumer Discretionary	4.07%	United States
Trane Technologies Plc	Industrials	4.02%	Ireland
Novo Nordisk Class B	Health Care	3.79%	Denmark
Intuitive Surgical Inc	Health Care	3.54%	United States
Ansys Inc	Information Technology	3.09%	United States

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

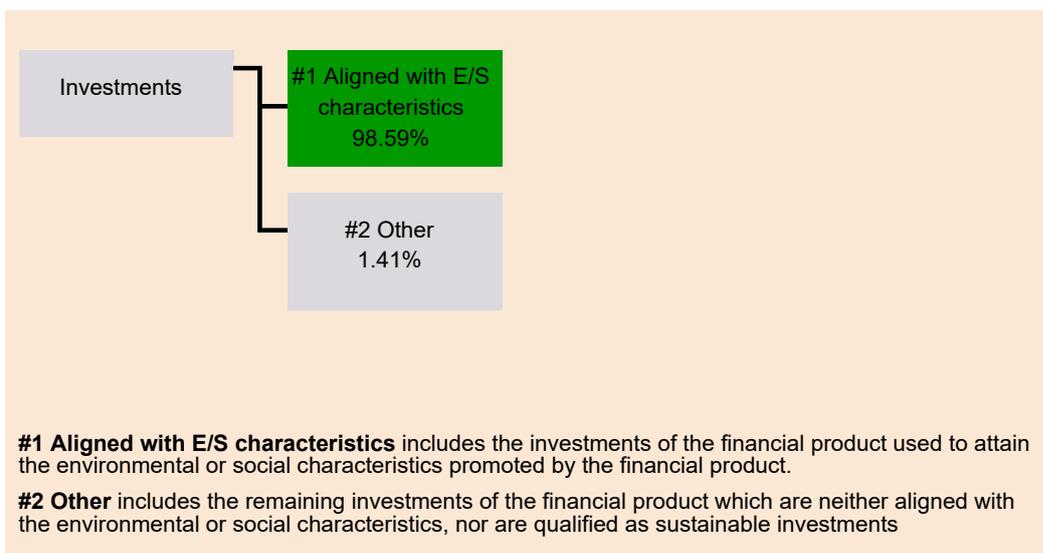

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.59%	99.64%	N/A ¹
#2 Other	1.41%	0.36%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	18.79%
Financials	Financial Services	17.24%
Industrials	Capital Goods	13.69%
Communication	Media & Entertainment	10.67%
Health Care	Health Care Equipment & Services	8.14%
Health Care	Pharma, Biotech & Life Sciences	6.30%
Information Technology	Semiconductors & Semiconductor Equipment	5.89%
Consumer Discretionary	Consumer Durables	5.36%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.19%
Consumer Discretionary	Consumer Services	4.42%
Consumer Discretionary	Autos & Components	2.78%
Energy	Integrated Oil & Gas	0.02%
Energy	Oil & Gas Exploration & Production	0.01%
Energy	Oil & Gas Storage & Transportation	0.01%
Energy	Oil & Gas Refining & Marketing	0.00%
Energy	Oil & Gas Equipment & Services	0.00%
Energy	Coal & Consumable Fuels	0.00%
Energy	Oil & Gas Drilling	0.00%

The Fund had exposure to energy sub-sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

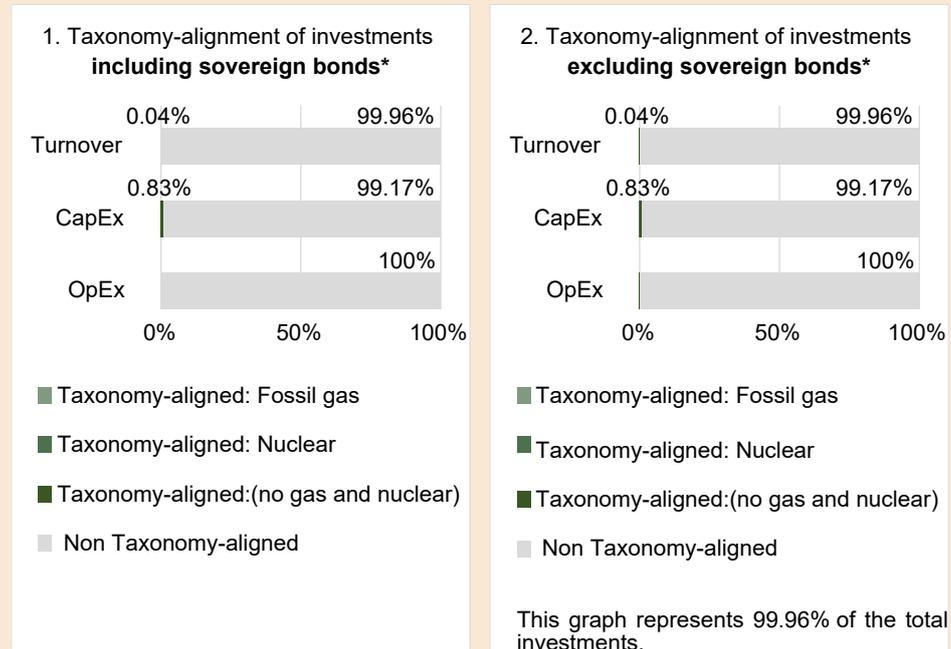

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.04%	0.83%	0.00%
Non Taxonomy-aligned	99.96%	99.17%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.04%	0.83%	0.00%
Non Taxonomy-aligned	99.96%	99.17%	100.00%

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.00%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.04%	0.00%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Global Unconstrained Equity Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Impact Bond Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Impact Bond Fund

Legal entity identifier:
5493000ECOD9JNFIPS55

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: 78.89%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: 16.88%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Impact Bond Fund (continued)

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The following table lists the sustainable investment objectives which were promoted by the Fund throughout the reference period. Further information on these sustainable investment objectives is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such sustainable investment objectives.

Sustainable objectives promoted by the Fund

Investment in Sustainable Investments

Investments in issuers deemed to have positive externalities

Investment in use-of-proceeds bonds

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Limiting investments in issuers deemed to have negative externalities

The Fund invests globally at least 80% of its total assets in "impact" investments which are those made with the intention to generate positive, measurable social and/or environmental impact alongside a financial return

Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Impact Bond Fund (continued)

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO2 e/kWh	# of active breaches	No active breaches	N/A ²	N/A ²
--	----------------------	--------------------	------------------	------------------

¹During the prior reference period, the Fund had one active breach due to holding a derivative instrument that did not meet the qualifying criteria for an SFDR Article 9 fund. The breach was identified, reported and rectified as part of BlackRock's standard breach resolution process.

²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Impact Bond Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (“PAI”s). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment’s business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Adverse Sustainability Indicator

Greenhouse gas (GHG) emissions (Scope 1/2/3)

Carbon footprint

GHG intensity of investee companies

Exposure to companies active in the fossil fuel sector

Share of non-renewable energy consumption and production

Energy consumption intensity per high impact climate sector

Activities negatively affecting biodiversity-sensitive areas

Emissions to water

Hazardous waste and radioactive waste ratio

Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

Unadjusted gender pay gap

Board gender diversity

Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

GHG intensity (Sovereigns & Supranationals)

Investee countries subject to social violations (Sovereigns & Supranationals)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
Taxonomy-aligned	5.80%	3.74%	0.00%
Other	73.09%	73.54%	73.40%
Environmental	78.89%	77.28%	73.40%
Social	16.88%	21.28%	22.75%

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-sector	% of Investments
Treasuries	Treasuries	18.90%
Banking	Banking	17.36%
Government Related	Agency	14.33%
Electric	Electric	8.77%
Government Related	Supranational	7.95%
Government Related	Local Authority	5.71%
Securitized	MBS Pass-Through	4.34%
Government Related	Sovereign	2.59%
Consumer Cyclical	Automotive	2.31%
REITs	Other REIT	1.70%
Basic Industry	Paper	1.45%
Technology	Technology	1.26%
Capital Goods	Packaging	1.16%
Financial Other	Financial Other	1.13%
Natural Gas	Natural Gas	0.88%
Energy	Refining	0.21%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, metals and mining.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Impact Bond Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

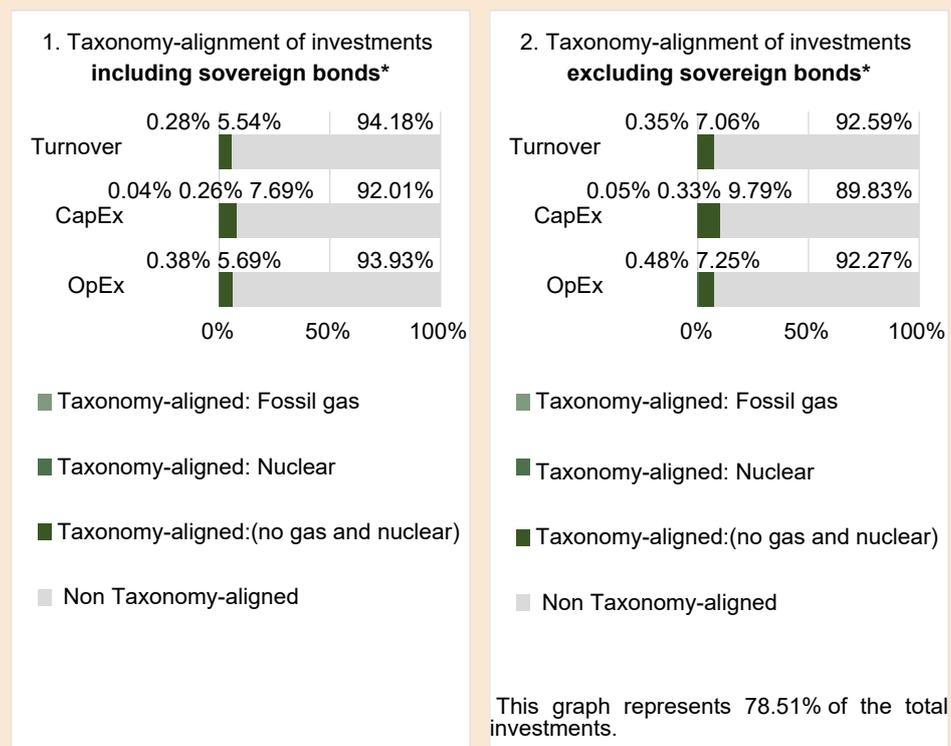

For the reference period, 5.80% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Impact Bond Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.04%	0.00%
Taxonomy-aligned: Nuclear	0.28%	0.26%	0.38%
Taxonomy-aligned: No gas and nuclear	5.54%	7.69%	5.69%
Non Taxonomy-aligned	94.18%	92.01%	93.93%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.05%	0.00%
Taxonomy-aligned: Nuclear	0.35%	0.33%	0.48%
Taxonomy-aligned: No gas and nuclear	7.06%	9.79%	7.25%
Non Taxonomy-aligned	92.59%	89.83%	92.27%

For the reference period, 21.49% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	5.78%
Climate Change Adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.12%
Enabling Activities	2.30%

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	5.54%	3.72%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Impact Bond Fund (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 73.09% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 16.88% of the Fund's investments were classified as socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “Not sustainable” included derivatives, cash and near cash instruments and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide however such holdings did not exceed 20%. Such investments were used only for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the sustainable investment objectives of the Fund. The Investment Adviser regularly reviews the sustainable investment objectives of the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Reference benchmarks are indexes to measure whether the financial products attain the sustainable objective.

How did this financial product perform compared to the reference sustainable benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the sustainable investment objective of the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Japan Flexible Equity Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Japan Flexible Equity Fund

Legal entity identifier:
549300UJ9NZRIU24W956

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Japan Flexible Equity Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Sony Group Corp	Consumer Discretionary	5.33%	Japan
Mitsubishi Ufj Financial Group Inc	Financials	5.26%	Japan
Toyota Motor Corp	Consumer Discretionary	5.09%	Japan
Hitachi Ltd	Industrials	3.77%	Japan
Tokio Marine Holdings Inc	Financials	3.75%	Japan
Recruit Holdings Ltd	Industrials	2.31%	Japan
Toray Industries Inc	Materials	2.29%	Japan
Makita Corp	Industrials	2.19%	Japan
Nec Corp	Information Technology	2.17%	Japan
Fast Retailing Ltd	Consumer Discretionary	2.13%	Japan
Kao Corp	Consumer Staples	2.01%	Japan
Shin Etsu Chemical Ltd	Materials	1.87%	Japan
Toyota Tsusho Corp	Industrials	1.86%	Japan
Orix Corp	Financials	1.85%	Japan
Sumitomo Mitsui Financial Group In	Financials	1.81%	Japan

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

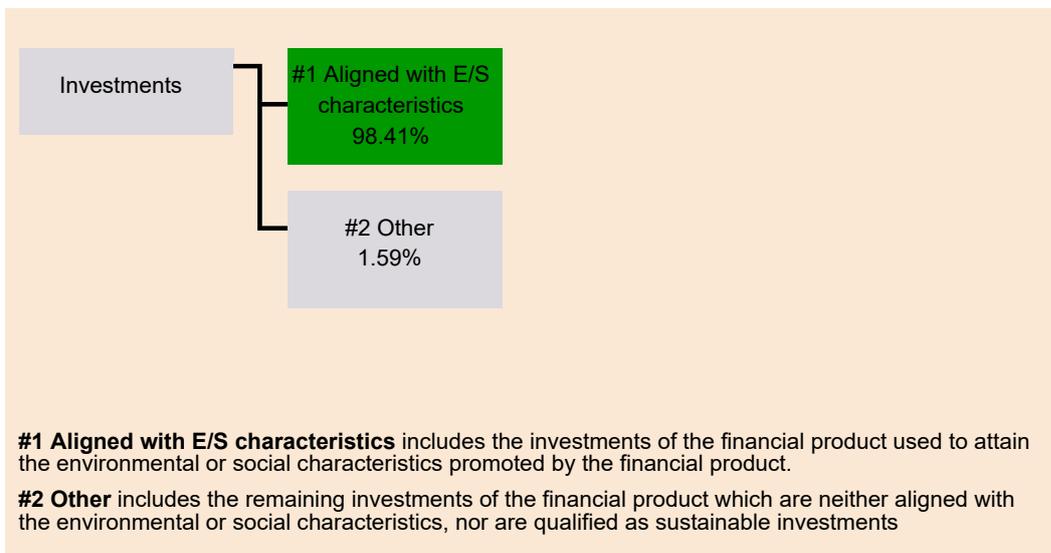

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.41%	97.39%	N/A ¹
#2 Other	1.59%	2.61%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	20.15%
Financials	Banks	10.77%
Consumer Discretionary	Autos & Components	9.76%
Consumer Discretionary	Consumer Durables	9.60%
Materials	Materials	8.07%
Financials	Financial Services	5.07%
Health Care	Pharma, Biotech & Life Sciences	3.92%
Financials	Insurance	3.75%
Information Technology	Software & Services	3.34%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	3.32%
Information Technology	Tech Hardware & Equipment	2.93%
Industrials	Commercial & Professional Services	2.85%
Consumer Staples	Household & Personal Products	2.73%
Information Technology	Semiconductors & Semiconductor Equipment	2.59%
Health Care	Health Care Equipment & Services	2.14%
Real Estate	Real Estate Management & Development	1.63%
Communication	Media & Entertainment	1.50%
Communication	Telecommunications	1.45%
Consumer Staples	Food Beverage Tobacco	1.01%
Energy	Oil & Gas Refining & Marketing	0.60%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas drilling, oil and gas storage and transportation, oil and gas exploration and production, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

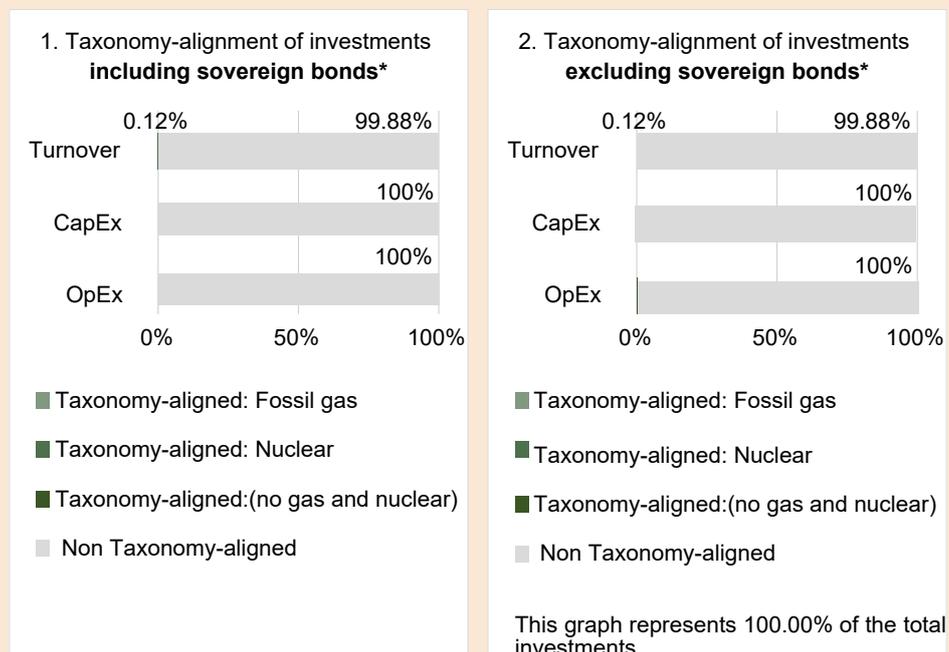

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Flexible Equity Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Japan Small & MidCap Opportunities Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Japan Small & MidCap Opportunities Fund

Legal entity identifier:
549300HZ21BD9CBK5N76

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Japan Small & MidCap Opportunities Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Penta-Ocean Construction Ltd	Industrials	1.68%	Japan
77 Bank Ltd	Financials	1.68%	Japan
Hikari Tsushin Inc	Industrials	1.62%	Japan
Haseko Corp	Consumer Discretionary	1.61%	Japan
Japan Metropolitan Fund Investment	Real Estate	1.60%	Japan
Sundrug Ltd	Consumer Staples	1.54%	Japan
Fukuoka Financial Group Inc	Financials	1.53%	Japan
Nankai Electric Railway Ltd	Industrials	1.47%	Japan
Kumagai Ltd	Industrials	1.44%	Japan
Sojitz Corp	Industrials	1.43%	Japan
Fp Corp	Materials	1.41%	Japan
Nippon Soda Ltd	Materials	1.35%	Japan
Tokyu Fudosan Holdings Corp	Real Estate	1.35%	Japan
Mitsui E&S Ltd	Industrials	1.32%	Japan
Konoike Transport Ltd	Industrials	1.31%	Japan

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

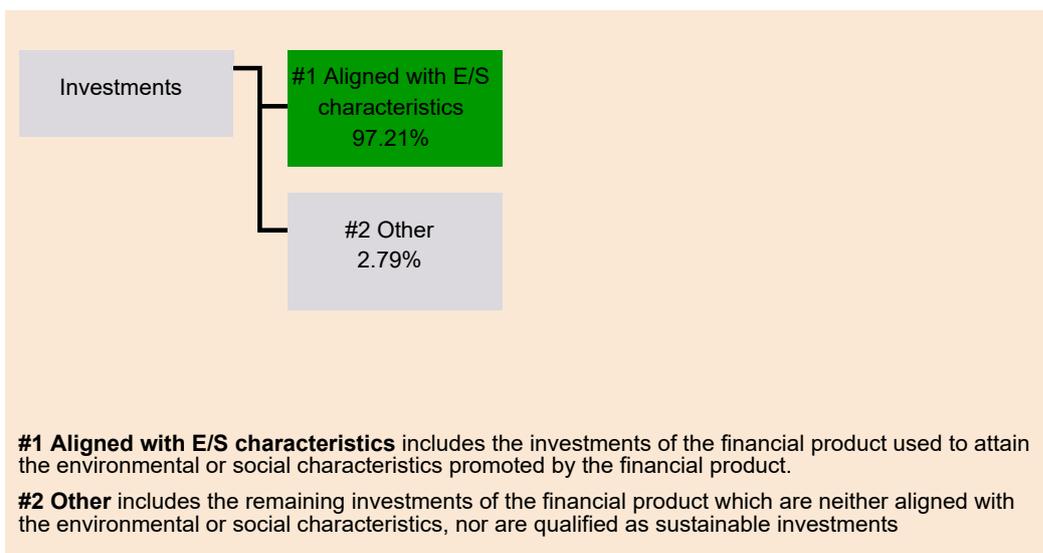

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	97.21%	96.76%	N/A ¹
#2 Other	2.79%	3.24%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	19.82%
Materials	Materials	9.79%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	6.67%
Financials	Banks	6.51%
Industrials	Transportation	6.05%
Information Technology	Tech Hardware & Equipment	5.55%
Real Estate	Real Estate Management & Development	5.06%
Financials	Financial Services	4.33%
Information Technology	Software & Services	4.30%
Real Estate	Equity Real Estate Investment Trusts (REITs)	4.18%
Consumer Discretionary	Consumer Durables	3.57%
Consumer Staples	Consumer Staples Distribution & Retail	3.49%
Consumer Discretionary	Autos & Components	2.67%
Industrials	Commercial & Professional Services	2.41%
Consumer Staples	Food Beverage Tobacco	2.14%
Communication	Media & Entertainment	1.95%
Information Technology	Semiconductors & Semiconductor Equipment	1.81%
Consumer Discretionary	Consumer Services	1.50%
Energy	Oil & Gas Exploration & Production	1.15%
Consumer Staples	Household & Personal Products	1.04%
Health Care	Pharma, Biotech & Life Sciences	1.00%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

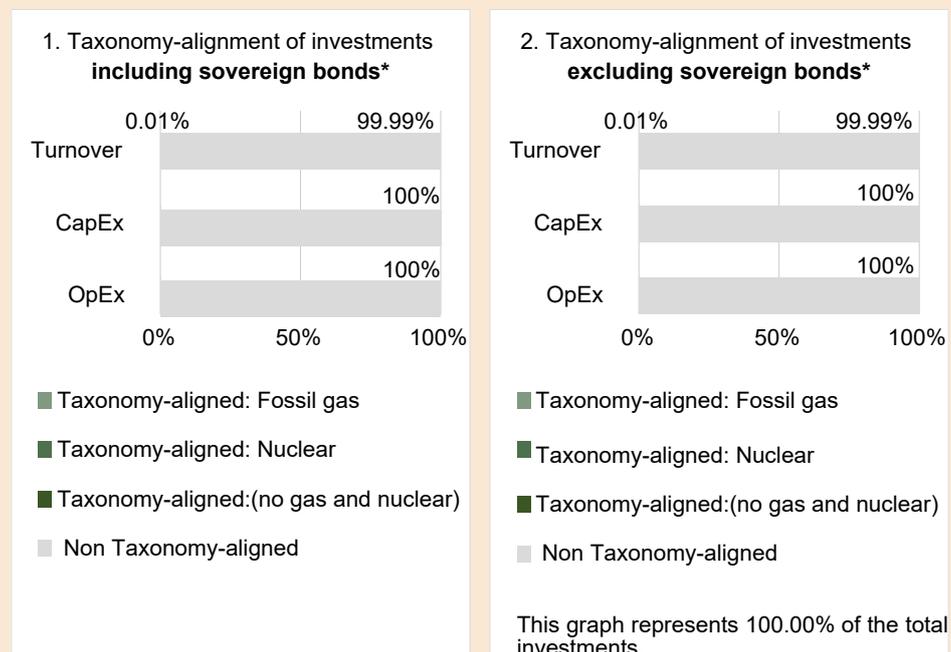

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.01%	0.00%	0.00%
Non Taxonomy-aligned	99.99%	0.00%	0.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.01%	0.00%	0.00%
Non Taxonomy-aligned	99.99%	100.00%	100.00%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.01%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.01%	0.62%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Japan Small & MidCap Opportunities Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	61.35%	66.66%	63.81%
Holdings of underlying collective investment schemes (as described above)	% holdings of underlying collective investment schemes (as described above)	99.89%	84.43% ¹	87.89%
Maintain that the Fund holds at least 10% of its holdings in investments that specifically support climate objectives	% investment in climate objectives	24.60%	33.86%	33.60%

¹During the prior reference period, the Fund had one active breach due to holding less than 80% in eligible collective investment schemes. The breach was identified, reported and rectified as part of BlackRock's standard breach resolution process.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 61.35% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Maintain that the Fund holds at least 10% of its holdings in investments that specifically support climate objectives
GHG Intensity of Investee Companies	Maintain that the Fund holds at least 10% of its holdings in investments that specifically support climate objectives

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	62.24%	84.27%	87.89%
#2 Other	37.76%	15.73%	12.11%
#1A Sustainable	61.35%	66.66%	63.81%
#1B Other E/S characteristics	0.89%	17.61%	24.08%
Taxonomy-aligned	4.24%	4.80%	0.00%
Other environmental	43.28%	48.72%	48.50%
Social	13.83%	13.15%	15.31%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	16.55%
Industrials	Capital Goods	13.49%
Health Care	Pharma, Biotech & Life Sciences	7.98%
Information Technology	Semiconductors & Semiconductor Equipment	7.32%
Materials	Materials	7.21%
Information Technology	Tech Hardware & Equipment	6.88%
Utilities	Utilities	6.01%
Communication	Media & Entertainment	5.94%
Industrials	Commercial & Professional Services	4.90%
Financials	Financial Services	4.28%
Health Care	Health Care Equipment & Services	3.26%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	2.61%
Consumer Staples	Food Beverage Tobacco	2.47%
Industrials	Transportation	2.16%
Real Estate	Equity Real Estate Investment Trusts (REITs)	1.42%
Consumer Discretionary	Consumer Durables	1.10%
Consumer Discretionary	Consumer Services	1.10%
Energy	Oil & Gas Storage & Transportation	1.06%
Energy	Oil & Gas Equipment & Services	0.03%
Energy	Oil & Gas Exploration & Production	0.02%
Energy	Oil & Gas Refining & Marketing	0.02%
Energy	Integrated Oil & Gas	0.00%
Energy	Coal & Consumable Fuels	0.00%
Energy	Oil & Gas Drilling	0.00%

The Fund had exposure to energy sub-sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

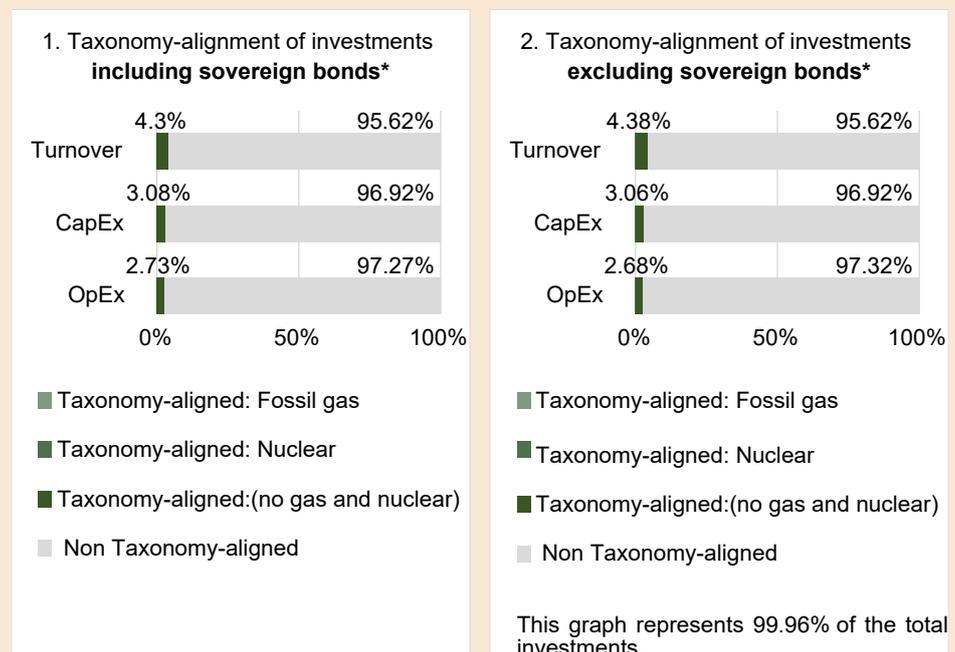

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	4.30%	3.08%	2.73%
Non Taxonomy-aligned	95.62%	96.92%	97.27%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	4.38%	3.06%	2.68%
Non Taxonomy-aligned	95.62%	96.92%	97.32%

For the reference period, 0.04% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	4.21%
Climate Change Adaptation	0.02%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.10%
Enabling Activities	2.43%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	4.30%	4.93%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Multi-Theme Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 43.28% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 13.83% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Multi-Theme Equity Fund (continued)

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How does the reference benchmark differ from a broad market index?**
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**
Not applicable.
- **How did this financial product perform compared with the broad market index?**
Not applicable.

MyMap Cautious Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

- Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (20%) and Bloomberg US Universal Index (80%) (the "Index") by 20%
- Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome and do not adopt ESG Exclusionary screens solely as their ESG policy, or, in the case of government bond exposures, track benchmark indices incorporating ESG requirements with status aligned with the SFDR Regulation, in particular with the requirements set out under Article 8 or 9 of the SFDR Regulation
- Maintain an ESG rating higher than the Index

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Cautious Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index by 20%	% reduction of carbon emissions intensity of the portfolio relative to the Index	59.56%	56.35%	54.19%
Maintain an ESG rating higher than the Index	ESG rating of the Fund	Fund ESG rating A ¹	Fund ESG rating A ¹	Fund ESG rating A ¹
Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome (as detailed above)	% holdings of underlying collective investment schemes	98.54%	99.15%	95.84%

Effective 22 November 2024, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 31 October 2024, being the final month-end reporting prepared preceding this change in SFDR classification.

¹The Fund's ESG rating was higher than the Index rating throughout the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Cautious Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

MyMap Cautious Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

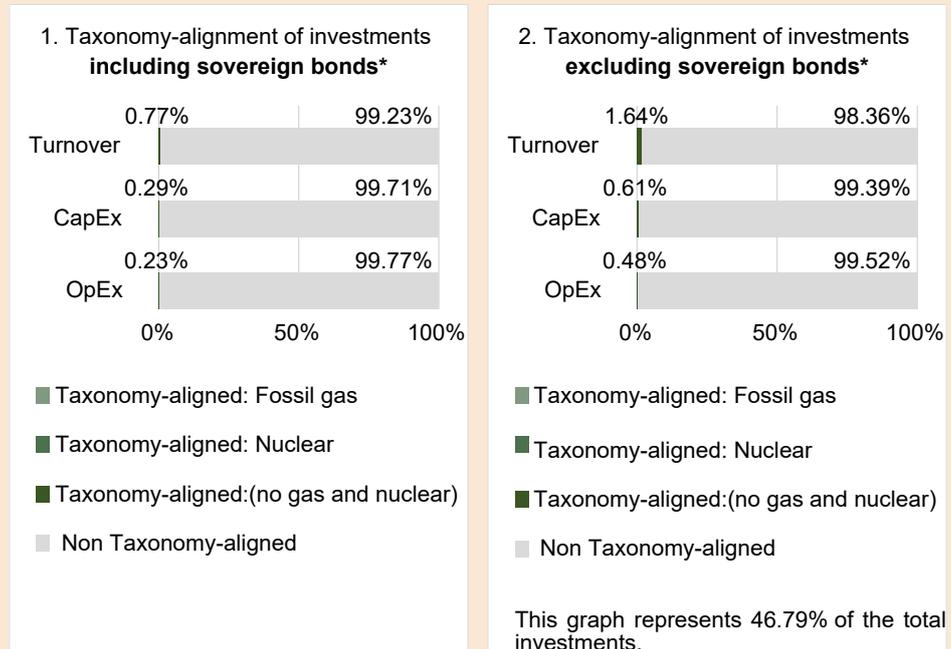

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Cautious Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.77%	0.29%	0.23%
Non Taxonomy-aligned	99.23%	99.71%	99.77%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.64%	0.61%	0.48%
Non Taxonomy-aligned	98.36%	99.39%	99.52%

For the reference period, 53.21% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.75%
Climate Change Adaptation	0.01%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.02%
Enabling Activities	0.58%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.77%	0.33%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Cautious Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

MyMap Growth Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
MyMap Growth Fund

Legal entity identifier:
549300JAHFIHHVLDNH65

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
---	---

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (80%) and Bloomberg US Universal Index (20%) (the "Index") by 20%

Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome and do not adopt ESG Exclusionary screens solely as their ESG policy, or, in the case of government bond exposures, track benchmark indices incorporating ESG requirements with status aligned with the SFDR Regulation, in particular with the requirements set out under Article 8 or 9 of the SFDR Regulation

Maintain an ESG rating higher than the Index

MyMap Growth Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index by 20%	% reduction of carbon emissions intensity of the portfolio relative to the Index	67.72%	47.10%	44.86%
Maintain an ESG rating higher than the Index	ESG rating of the Fund	Fund ESG rating AA ¹	Fund ESG rating AA ¹	Fund ESG rating AA ¹
Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome (as detailed above)	% holdings of underlying collective investment schemes	95.13%	97.68%	89.09%

Effective 22 November 2024, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 31 October 2024, being the final month-end reporting prepared preceding this change in SFDR classification.

¹The Fund's ESG rating was higher than the Index rating throughout the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Growth Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Growth Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Growth Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

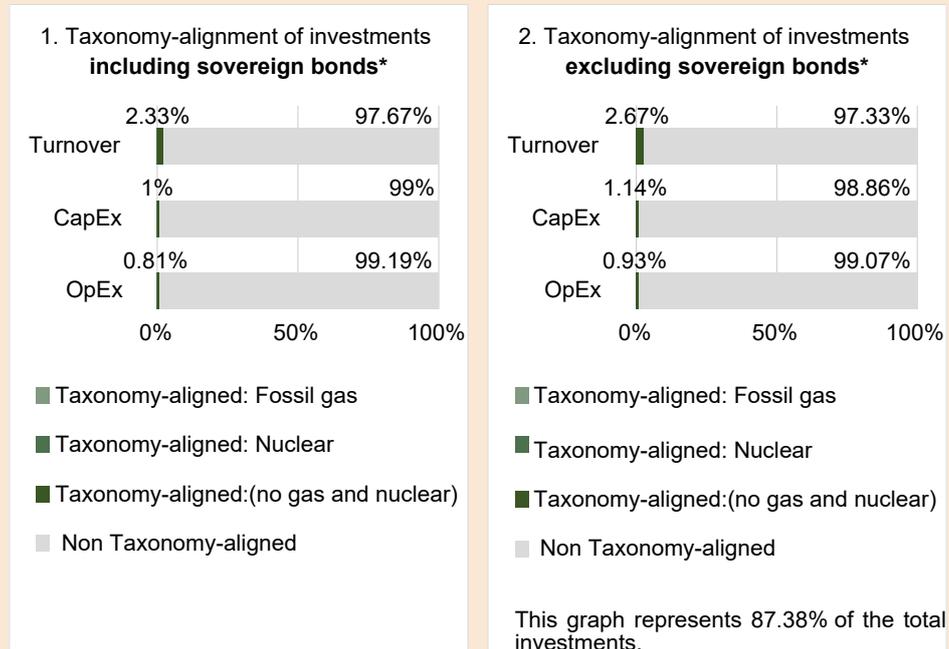

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>
---	---

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) (the "Index") by 20%

Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome and do not adopt ESG Exclusionary screens solely as their ESG policy, or, in the case of government bond exposures, track benchmark indices incorporating ESG requirements with status aligned with the SFDR Regulation, in particular with the requirements set out under Article 8 or 9 of the SFDR Regulation

Maintain an ESG rating higher than the Index

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index by 20%	% reduction of carbon emissions intensity of the portfolio relative to the Index	55.48%	50.90%	48.12%
Maintain an ESG rating higher than the Index	ESG rating of the Fund	Fund ESG rating AA ¹	Fund ESG rating AA ¹	Fund ESG rating AA ¹
Holdings of underlying collective investment schemes which pursue a positive ESG objective or outcome (as detailed above)	% holdings of underlying collective investment schemes	92.87%	98.22%	93.32%

Effective 22 November 2024, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 31 October 2024, being the final month-end reporting prepared preceding this change in SFDR classification.

¹The Fund's ESG rating was higher than the Index rating throughout the reference period.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg US Universal Index (40%) by 20%

Energy	Coal & Consumable Fuels	0.01%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

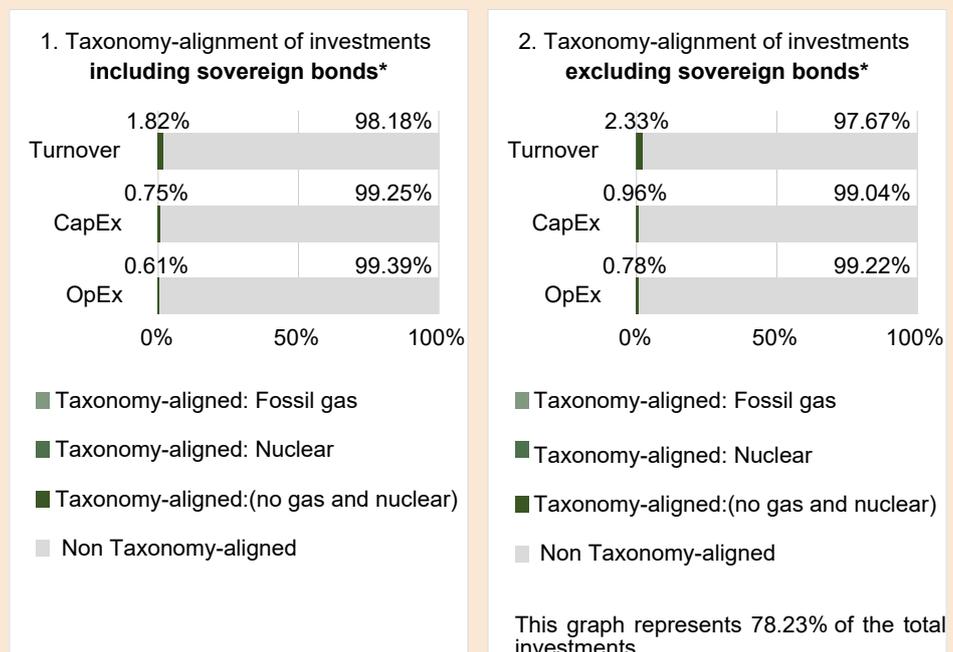

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.82%	0.75%	0.61%
Non Taxonomy-aligned	98.18%	99.25%	99.39%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	2.33%	0.96%	0.78%
Non Taxonomy-aligned	97.67%	99.04%	99.22%

For the reference period, 21.77% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.78%
Climate Change Adaptation	0.03%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.05%
Enabling Activities	1.44%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.82%	0.77%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

MyMap Moderate Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

MyMap Moderate Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Next Generation Health Care Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Next Generation Health Care Fund

Legal entity identifier:
5493002ZMKARYN5J9X36

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Countries World Index (the "Index")

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	81.30%	77.74%	18.20%
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (as detailed above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as detailed above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches

Effective 6 May 2025, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 30 April 2025, being the final month-end reporting prepared preceding this change in SFDR classification.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Countries World Index
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Countries World Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Insulet Corp	Health Care	1.86%	United States
Edwards Lifesciences Corp	Health Care	1.81%	United States
Natera Inc	Health Care	1.76%	United States

Effective 6 May 2025, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 30 April 2025, being the final month-end reporting prepared preceding this change in SFDR classification.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

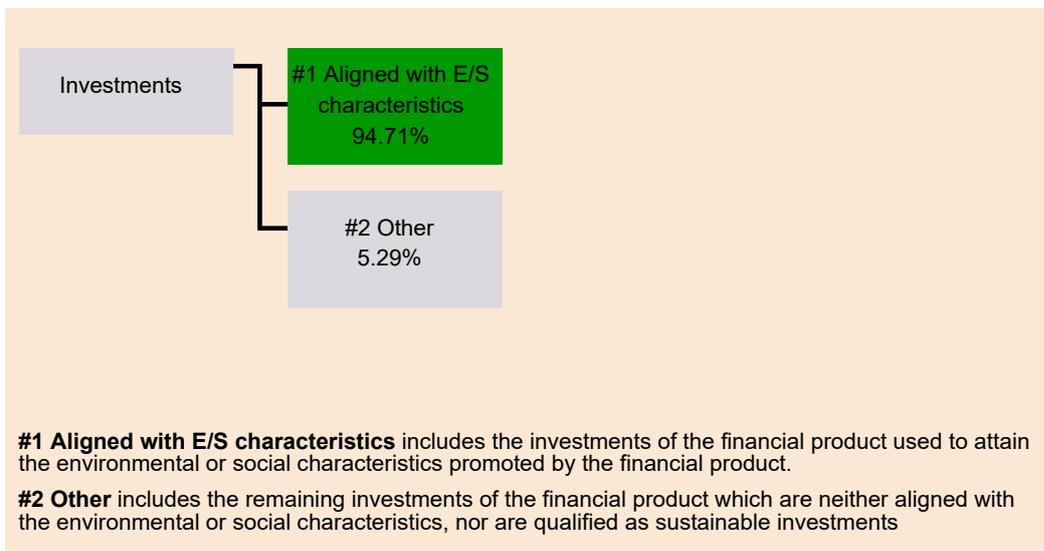

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	94.71%	98.86%	95.07%
#2 Other	5.29%	1.14%	4.93%

Effective 6 May 2025, the Fund changed classification from Article 8 to Article 6. Therefore, the data presented in the table above represents the period ended 30 April 2025, being the final month-end reporting prepared preceding this change in SFDR classification.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Health Care	Pharma, Biotech & Life Sciences	64.93%
Health Care	Health Care Equipment & Services	29.78%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

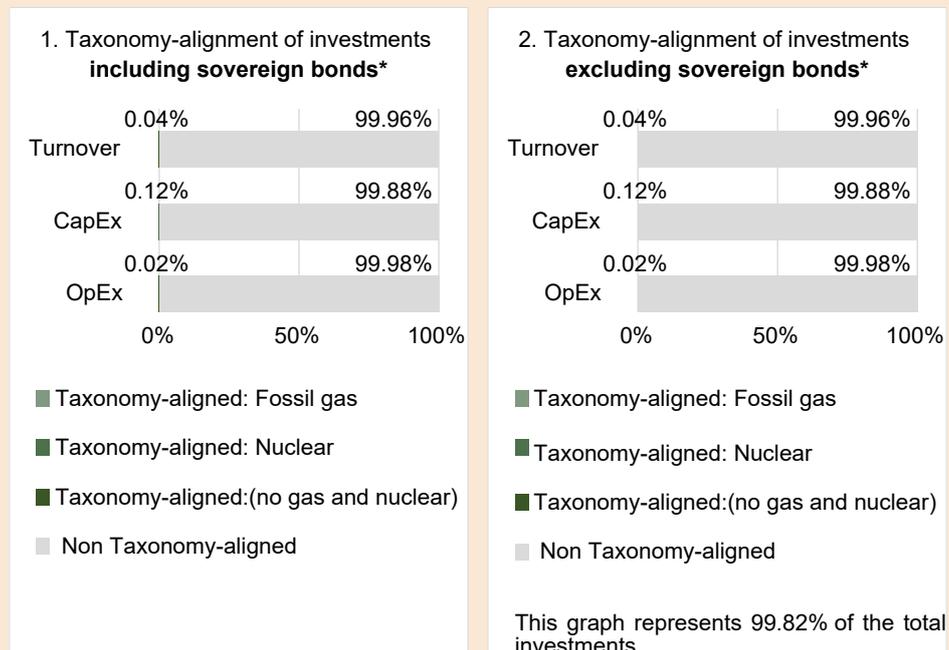

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.04%	0.12%	0.02%
Non Taxonomy-aligned	99.96%	99.88%	99.98%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.04%	0.12%	0.02%
Non Taxonomy-aligned	99.96%	99.88%	99.98%

For the reference period, 0.18% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.04%	0.12%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Health Care Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Next Generation Technology Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Next Generation Technology Fund

Legal entity identifier:
549300WSSL4Z83Z2VF84

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Next Generation Technology Fund (continued)

● **How did the sustainability indicators perform?**

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Next Generation Technology Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	31.01%
Information Technology	Semiconductors & Semiconductor Equipment	27.07%
Information Technology	Tech Hardware & Equipment	12.39%
Communication	Media & Entertainment	11.37%
Industrials	Capital Goods	4.27%
Industrials	Commercial & Professional Services	3.36%
Financials	Financial Services	2.59%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	2.39%
Consumer Discretionary	Autos & Components	1.96%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

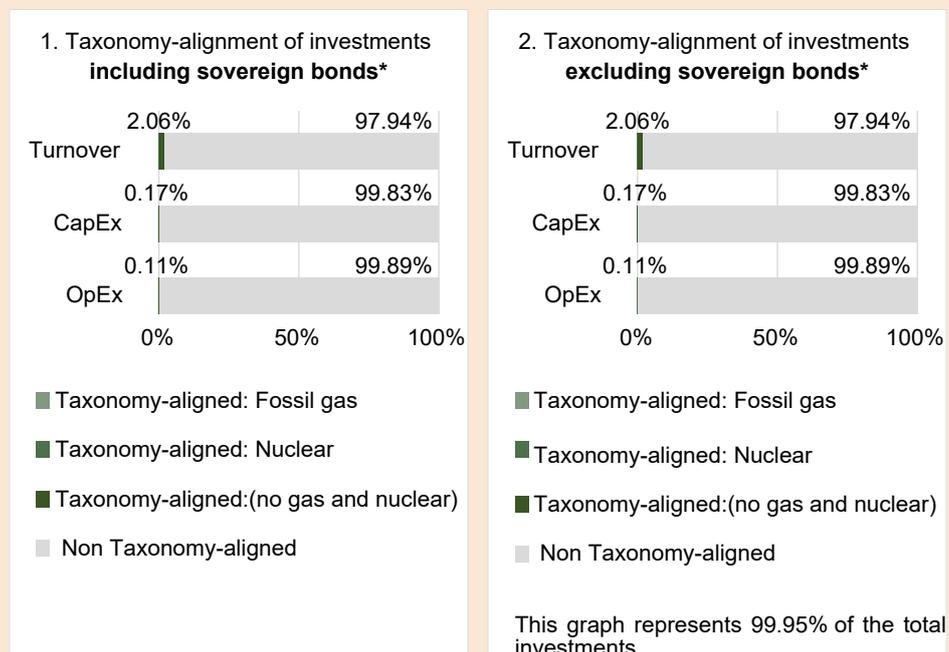

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Next Generation Technology Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	2.06%	0.17%	0.11%
Non Taxonomy-aligned	97.94%	99.83%	99.89%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	2.06%	0.17%	0.11%
Non Taxonomy-aligned	97.94%	99.83%	99.89%

For the reference period, 0.05% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	2.06%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.05%
Enabling Activities	1.89%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	2.06%	0.54%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Next Generation Technology Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Nutrition Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Nutrition Fund

Legal entity identifier:
549300JF9YVE3CKHH246

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: 62.55%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: 34.45%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The following table lists the sustainable investment objectives which were promoted by the Fund throughout the reference period. Further information on these sustainable investment objectives is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such sustainable investment objectives.

Sustainable objectives promoted by the Fund

Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the Factset Nutrition Universe after eliminating at least 20% of the least well-rated securities from the Factset Nutrition Universe

Investment in Sustainable Investments

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund

Exclusion of issuers involved in the cultivation and/or production of tobacco

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of issuers with involvement in activities related to controversial weapons

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the sustainable investment objectives of the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	97.00%	95.75%	89.97%
Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the Factset Nutrition Universe after eliminating at least 20% of the least well-rated securities from the Factset Nutrition Universe	ESG rating of the Fund	Fund ESG rating: AA ¹	Fund ESG rating: AA ¹	Fund ESG rating: AA ¹
Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes	% of issuers with an ESG rating	Greater than 90% of issuers	Greater than 90% of issuers	Greater than 90% of issuers
Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers involved in the cultivation and/or production of tobacco	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD Guidelines for Multinational Enterprises	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers with involvement in activities related to controversial weapons	# of active breaches	No active breaches	N/A ²	N/A ²

¹The Fund ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”)s on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

How did this financial product consider principal adverse impacts on sustainability factors?

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (“PAI”)s. The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment’s business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Appendix IV – Supplementary Information (Unaudited) continued

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
Taxonomy-aligned	0.16%	0.19%	0.00%
Other	62.39%	52.87%	46.50%
Environmental	62.55%	53.06%	46.50%
Social	34.45%	42.68%	43.47%
#1 Sustainable	97.00%	95.75%	89.97%
#2 Not sustainable	3.00%	4.25%	10.03%

Appendix IV – Supplementary Information (Unaudited) continued

Nutrition Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-sector	% of Investments
Materials	Materials	35.12%
Consumer Staples	Food Beverage Tobacco	11.43%
Consumer Staples	Consumer Staples Distribution & Retail	10.91%
Industrials	Capital Goods	9.52%
Health Care	Pharma, Biotech & Life Sciences	9.37%
Industrials	Commercial & Professional Services	7.01%
Consumer Discretionary	Consumer Services	5.93%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	4.17%
Industrials	Transportation	2.80%
Consumer Staples	Household & Personal Products	1.79%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.16% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

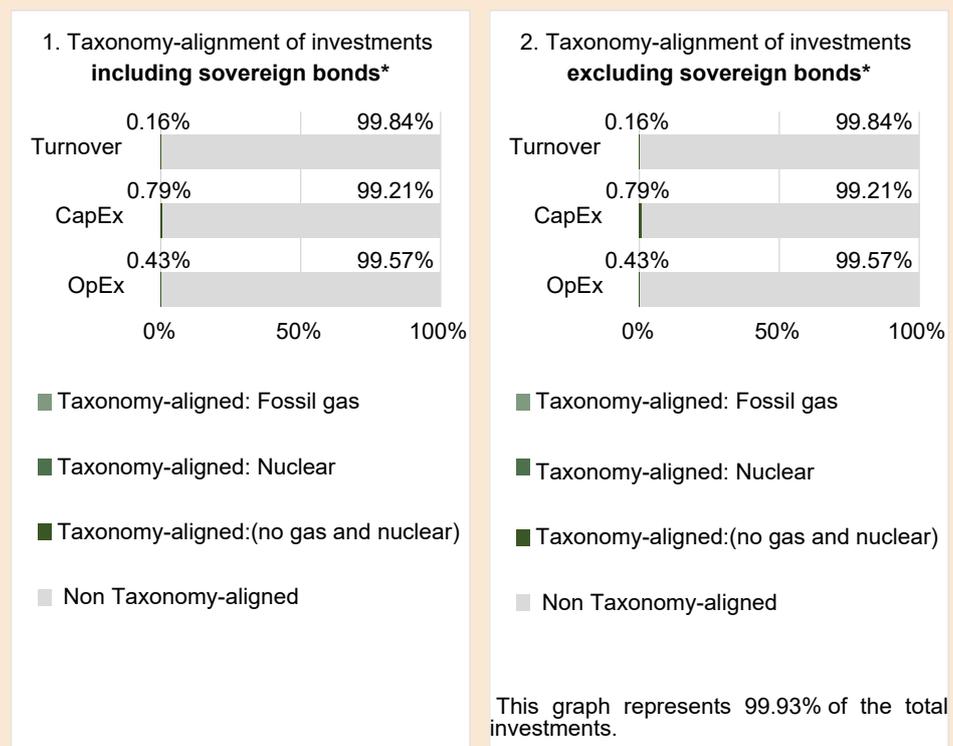

Yes:

In fossil gas In nuclear energy

No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.16%	0.79%	0.43%
Non Taxonomy-aligned	99.84%	99.21%	99.57%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.16%	0.79%	0.43%
Non Taxonomy-aligned	99.84%	99.21%	99.57%

For the reference period, 0.07% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.16%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.08%

● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.16%	0.19%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Nutrition Fund (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 62.39% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 34.45% of the Fund's investments were classified as socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “Not sustainable” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The following table lists the sustainable investment objectives which were promoted by the Fund throughout the reference period. Further information on these sustainable investment objectives is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such sustainable investment objectives.

Sustainable objectives promoted by the Fund

Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the MSCI All Countries World Index (the "Index") after eliminating at least 20% of the lowest rated securities from the Index

Investment in Sustainable Investments

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of issuers in sectors classified as coal and consumables

Exclusion of issuers in sectors classified as oil and gas exploration and production

Exclusion of issuers in sectors classified as integrated oil and gas

Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

Exclusion of investments in companies with involvement in activities related to controversial weapons

Exclusion of investment in companies involved in the cultivation and/or production of tobacco

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Investment in Green, Social and Sustainability (GSS) bonds

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of investments in companies with involvement in activities related to controversial weapons	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of investment in companies involved in the cultivation and/or production of tobacco	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD Guidelines for Multinational Enterprises	# of active breaches	No active breaches	No active breaches	No active breaches
Investment in GSS bonds	% investment in Green, Social and Sustainability bonds held by the Fund	0.01%	N/A ²	N/A ²

¹The Fund ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (“PAI”s). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment’s business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Adverse Sustainability Indicator

Greenhouse gas (GHG) emissions (Scope 1/2/3)

Carbon footprint

GHG intensity of investee companies

Exposure to companies active in the fossil fuel sector

Share of non-renewable energy consumption and production

Energy consumption intensity per high impact climate sector

Activities negatively affecting biodiversity-sensitive areas

Emissions to water

Hazardous waste and radioactive waste ratio

Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

Unadjusted gender pay gap

Board gender diversity

Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

GHG intensity (Sovereigns & Supranationals)

Investee countries subject to social violations (Sovereigns & Supranationals)

Sustainable Energy Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
Taxonomy-aligned	29.37%	22.46%	0.00%
Other	64.85%	69.91%	86.52%
Environmental	94.22%	92.37%	86.52%
Social	3.19%	5.40%	5.75%
#1 Sustainable	97.41%	97.78%	92.27%
#2 Not sustainable	2.59%	2.22%	7.73%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-sector	% of Investments
Industrials	Capital Goods	42.59%
Utilities	Utilities	21.66%
Information Technology	Semiconductors & Semiconductor Equipment	15.99%
Materials	Materials	6.51%
Information Technology	Software & Services	4.74%
Information Technology	Technology Hardware & Equipment	3.99%
Industrials	Transportation	1.14%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 29.37% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

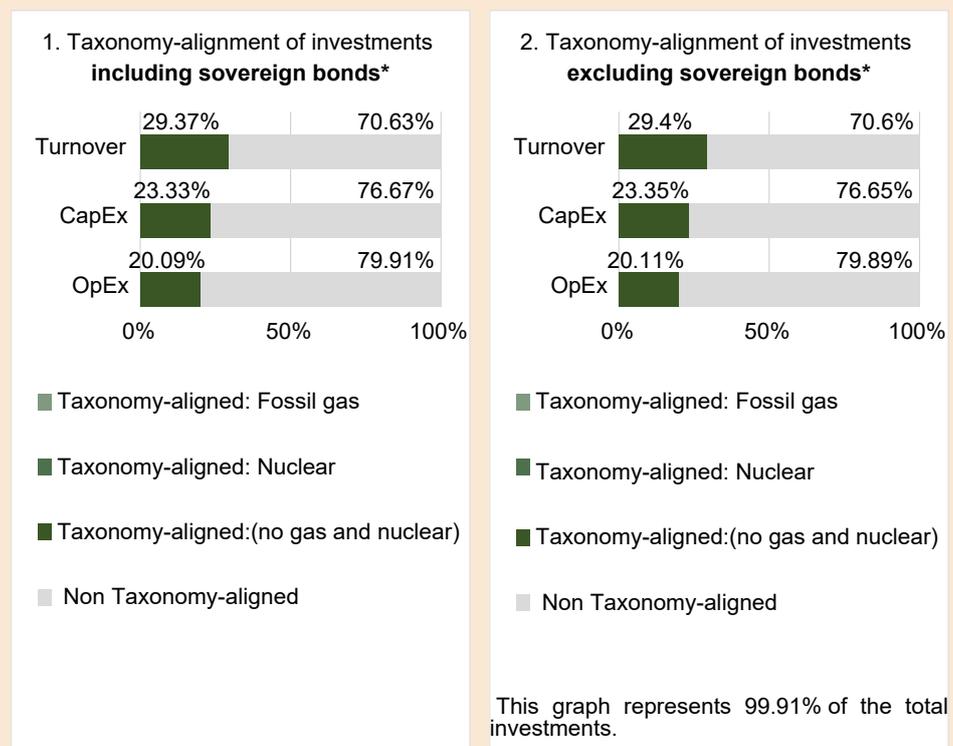

Yes:

In fossil gas In nuclear energy

No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	29.37%	23.33%	20.09%
Non Taxonomy-aligned	70.63%	76.67%	79.91%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	29.40%	23.35%	20.11%
Non Taxonomy-aligned	70.60%	76.65%	79.89%

For the reference period, 0.09% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	29.30%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.23%
Enabling Activities	15.20%

● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	29.37%	22.46%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Energy Fund (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 64.85% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 3.19% of the Fund's investments were classified as socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “Not sustainable” included derivatives, cash and near cash instruments and shares or units of CIS and fixed income transferable securities (also known as debt securities) issued by agencies worldwide, however such holdings did not exceed 20%. Such investments were used only for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

How did this financial product perform compared to the reference sustainable benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the sustainable investment objective of the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial products attain the sustainable objective.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Sustainable Global Allocation Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI All Country World Index (60%) and Bloomberg Global Aggregate Index (40%) (the "Index")

Investment in Sustainable Investments

Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index

Investment in use-of-proceeds bonds

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Limiting investments in issuers deemed to have negative externalities

Maintain that the investment strategy reduces the investment universe of the Fund by at least 25%

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ¹	N/A ¹

¹The Fund's ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 48.93% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks (“Environmental and Social Objectives”).

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

- (i) a minimum proportion of the issuer’s business activity contributed to an environmental and/or social objective; or
- (ii) the issuer’s business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Investment in use-of-proceeds bonds
GHG Intensity of Investee Companies	Investment in use-of-proceeds bonds
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund’s holdings) relative to the Index
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund’s holdings) relative to the Index
Greenhouse gas (GHG) emissions	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
GHG Intensity of Investee Companies	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Greenhouse gas (GHG) emissions	Limiting investments in issuers deemed to have negative externalities
GHG Intensity of Investee Companies	Limiting investments in issuers deemed to have negative externalities
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Exposure to companies active in the fossil fuel sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Exposure to companies active in the fossil fuel sector	Limiting investments in issuers deemed to have negative externalities
Energy consumption intensity per high impact climate sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Energy consumption intensity per high impact climate sector	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)
Exposure to controversial weapons (antipersonnel)	Limiting investments in issuers deemed to have

Sustainable Global Allocation Fund (continued)

mines, cluster munitions, chemical weapons and biological weapons)	negative externalities
Carbon footprint	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers.
Greenhouse gas (GHG) emissions	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
GHG Intensity of Investee Companies	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing, or distribution of gaseous fuels
Carbon footprint	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Share of non-renewable energy consumption and production	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh

Sustainable Global Allocation Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	96.70%	92.01%	99.32%
#2 Other	3.30%	7.99%	0.68%
#1A Sustainable	48.93%	46.54%	35.14%
#1B Other E/S characteristics	47.77%	45.47%	64.18%
Taxonomy-aligned	2.64%	1.02%	0.00%
Other environmental	39.52%	32.83%	26.23%
Social	6.77%	12.69%	8.91%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	7.98%
Treasuries	Treasuries	7.83%
Information Technology	Semiconductors & Semiconductor Equipment	7.41%
Financials	Banks	6.71%
Securitized	MBS Pass-Through	5.81%
Financials	Financial Services	5.59%
Health Care	Health Care Equipment & Services	5.46%
Securitized	ABS	5.27%
Health Care	Pharma, Biotech & Life Sciences	3.99%
Industrials	Capital Goods	3.80%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	3.64%
Communication	Media & Entertainment	3.09%
Financials	Insurance	2.63%
Utilities	Utilities	2.54%
Information Technology	Tech Hardware & Equipment	2.39%
Securitized	CMBS	2.36%
Industrials	Transportation	2.26%
Materials	Materials	2.17%
Consumer Staples	Consumer Staples Distribution & Retail	1.95%
Consumer Discretionary	Autos & Components	1.51%
Industrials	Commercial & Professional Services	1.40%
Consumer Discretionary	Consumer Services	1.32%
Consumer Discretionary	Consumer Durables	1.26%
Communication	Telecommunications	1.18%
Energy	Coal & Consumable Fuels	0.77%
Energy	Oil & Gas Refining & Marketing	0.08%
Energy	Oil & Gas Equipment & Services	0.03%
Energy	Oil & Gas Drilling	0.00%
Energy	Oil & Gas Storage & Transportation	0.00%

The Fund had exposure to energy sub-sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

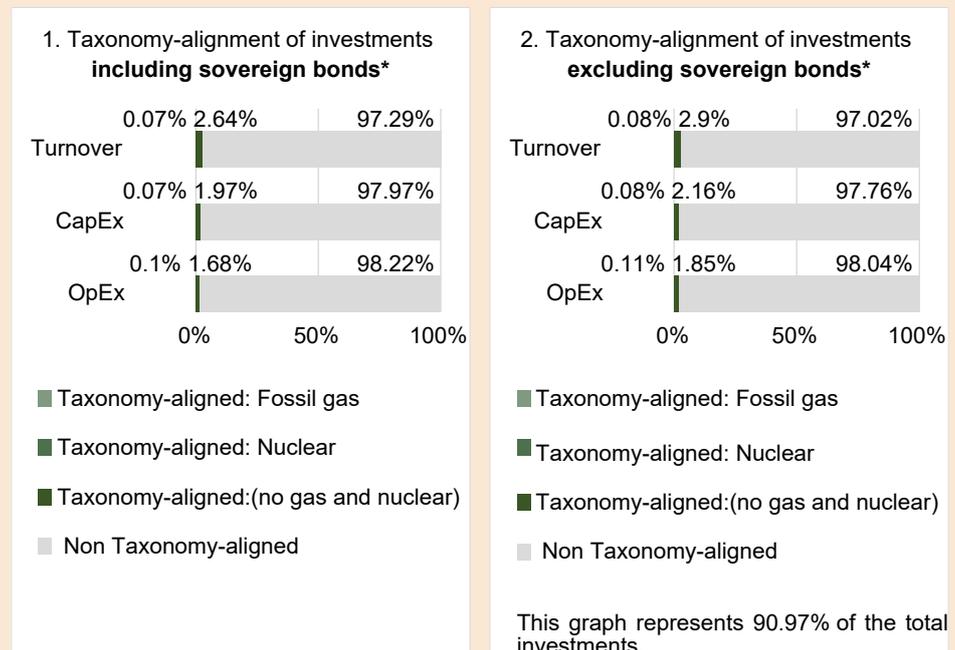

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.07%	0.07%	0.10%
Taxonomy-aligned: No gas and nuclear	2.64%	1.97%	1.68%
Non Taxonomy-aligned	97.29%	97.97%	98.22%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.08%	0.08%	0.11%
Taxonomy-aligned: No gas and nuclear	2.90%	2.16%	1.85%
Non Taxonomy-aligned	97.02%	97.76%	98.04%

For the reference period, 9.03% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	2.66%
Climate Change Adaptation	0.03%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.09%
Enabling Activities	1.64%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	2.71%	1.11%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 39.52% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 6.77% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" can include derivatives, cash and near cash instruments, fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Allocation Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable Global Dynamic Equity Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Sustainable Global Dynamic Equity Fund

Legal entity identifier:
5493000X5HT2OV7FWP57

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 67.08% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Maintain that the Fund's carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) is lower than the MSCI All Country World Index (the "Index")

Investment in Sustainable Investments

Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index

Limiting investments in issuers deemed to have negative externalities

Reduction in the investment universe by at least 20% relative to the Index through ESG Policy

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

Investment in Green, Social and Sustainability ("GSS") bonds

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ²	N/A ²
Investment in GSS bonds	% investment in GSS bonds held by the Fund	0.00%	N/A ²	N/A ²

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 67.08% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Maintain that the Fund's carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) is lower than the Index
Greenhouse gas (GHG) emissions	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Greenhouse gas (GHG) emissions	Limiting investments in issuers deemed to have negative externalities
GHG Intensity of Investee Companies	Maintain that the Fund's carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) is lower than the Index
GHG Intensity of Investee Companies	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
GHG Intensity of Investee Companies	Limiting investments in issuers deemed to have negative externalities
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers.
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands).
Exposure to companies active in the fossil fuel sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Exposure to companies active in the fossil fuel sector	Limiting investments in issuers deemed to have negative externalities
Energy consumption intensity per high impact climate sector	Limiting investments in issuers deemed to have negative externalities
Energy consumption intensity per high impact climate sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)
Greenhouse gas (GHG) emissions	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Greenhouse gas (GHG) emissions	Investment in GSS bonds
Carbon footprint	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh

Sustainable Global Dynamic Equity Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Nvidia Corp	Information Technology	5.39%	United States
Microsoft Corp	Information Technology	5.19%	United States
Mastercard Inc Class A	Financials	3.15%	United States
Apple Inc	Information Technology	2.83%	United States
Alphabet Inc Class C	Communication	2.65%	United States
Amazon Com Inc	Consumer Discretionary	2.38%	United States
Eli Lilly	Health Care	2.22%	United States
Taiwan Semiconductor Manufacturing	Information Technology	2.13%	Taiwan (Republic of China)
Walmart Inc	Consumer Staples	2.10%	United States
Marsh & McLennan Inc	Financials	1.87%	United States
Intuitive Surgical Inc	Health Care	1.85%	United States
Trane Technologies Plc	Industrials	1.85%	Ireland
Asml Holding Nv	Information Technology	1.81%	Netherlands
Home Depot Inc	Consumer Discretionary	1.73%	United States
Progressive Corp	Financials	1.70%	United States

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

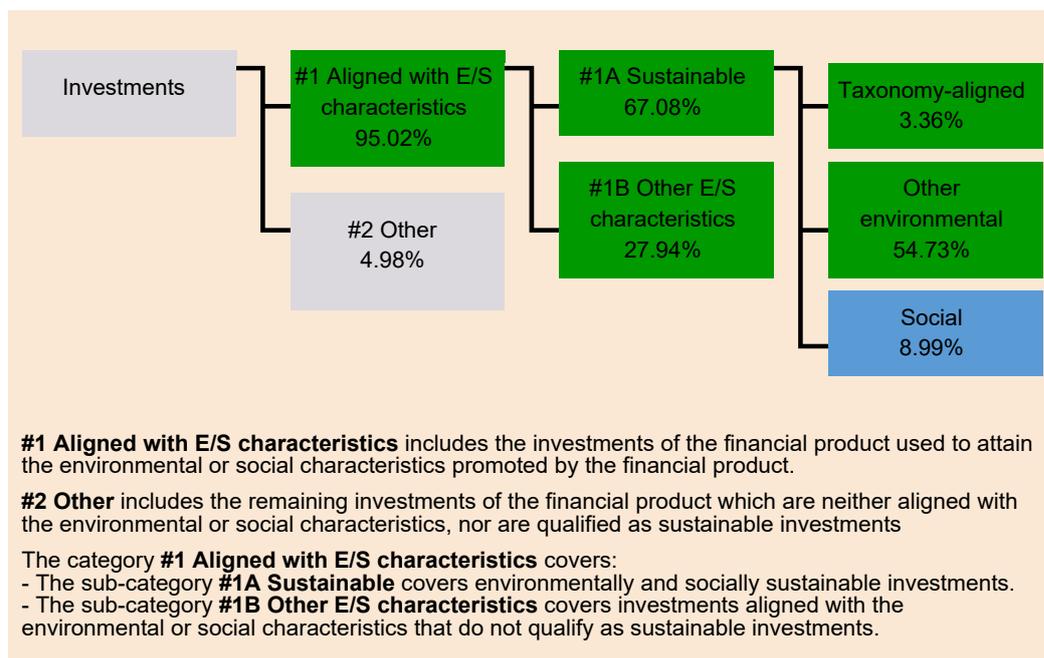

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	95.02%	96.87%	N/A ¹
#2 Other	4.98%	3.13%	N/A ¹
#1A Sustainable	67.08%	66.55%	N/A ¹
#1B Other E/S characteristics	27.94%	30.31%	N/A ¹
Taxonomy-aligned	3.36%	1.47%	N/A ¹
Other environmental	54.73%	46.77%	N/A ¹
Social	8.99%	18.32%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	14.25%
Information Technology	Semiconductors & Semiconductor Equipment	12.43%
Health Care	Health Care Equipment & Services	8.47%
Financials	Banks	7.10%
Financials	Financial Services	6.53%
Industrials	Capital Goods	5.82%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	5.25%
Communication	Media & Entertainment	4.80%
Health Care	Pharma, Biotech & Life Sciences	4.55%
Financials	Insurance	3.84%
Information Technology	Tech Hardware & Equipment	3.67%
Consumer Staples	Consumer Staples Distribution & Retail	3.19%
Materials	Materials	2.97%
Utilities	Utilities	2.81%
Industrials	Transportation	2.77%
Consumer Discretionary	Autos & Components	2.29%
Consumer Discretionary	Consumer Durables	1.85%
Industrials	Commercial & Professional Services	1.82%
Consumer Discretionary	Consumer Services	1.72%
Energy	Coal & Consumable Fuels	1.34%
Communication	Telecommunications	1.08%
Energy	Oil & Gas Storage & Transportation	0.24%
Energy	Oil & Gas Refining & Marketing	0.18%
Energy	Oil & Gas Exploration & Production	0.04%

During the reference period, none of the Fund's investments were held in the following subsectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas drilling or oil and gas equipment services.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

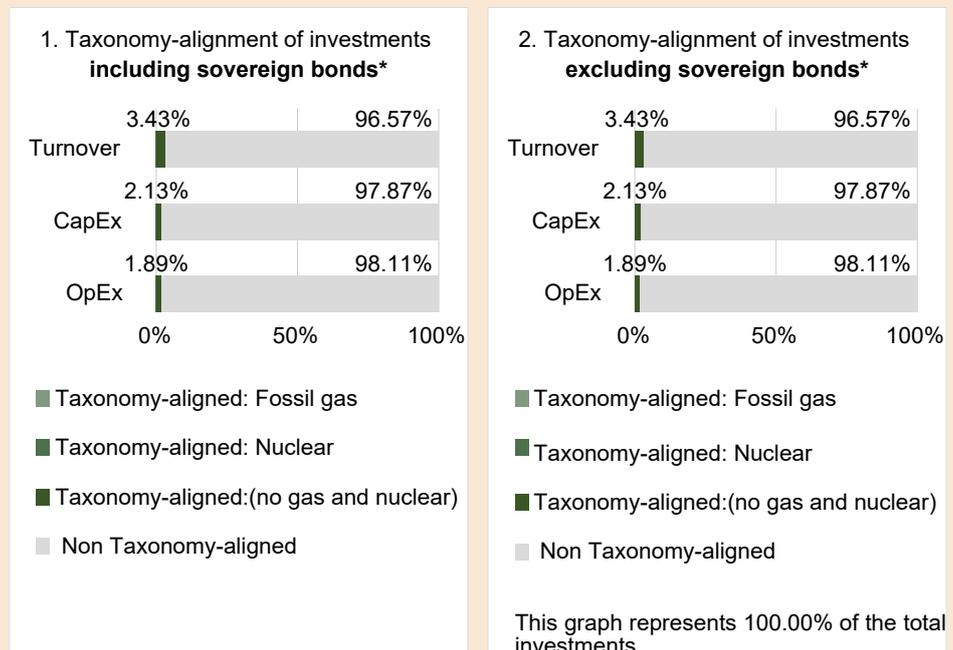

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	3.43%	2.13%	1.89%
Non Taxonomy-aligned	96.57%	97.87%	98.11%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	3.43%	2.13%	1.89%
Non Taxonomy-aligned	96.57%	97.87%	98.11%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	3.37%
Climate Change Adaptation	0.02%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.11%
Enabling Activities	2.20%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	3.43%	1.72%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 54.73% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 8.99% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Dynamic Equity Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Sustainable Global Infrastructure Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable Global Infrastructure Fund (continued)

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The following table lists the sustainable investment objectives which were promoted by the Fund throughout the reference period. Further information on these sustainable investment objectives is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such sustainable investment objectives.

Sustainable objectives promoted by the Fund

- Investment in Sustainable Investments
- Exclusion of investment in companies involved in the cultivation and/or production of tobacco
- Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises
- Exclusion of investments in companies with involvement in activities related to controversial weapons
- Maintain that the investment strategy reduces the investment universe of the Fund by at least 20%
- Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes
- Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund
- Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite
- Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels
- Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel
- Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO2 e/kWh
- Investment in Green, Social and Sustainability (GSS) bonds

EU Taxonomy environmental objectives contributed to by the Fund

- Climate Change Mitigation
- Climate Change Adaptation

Sustainable Global Infrastructure Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the sustainable investment objectives of the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	100.00%	98.62%	91.72%
Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes	% of issuers with an ESG rating	Greater than 90% of issuers	Greater than 90% of issuers	N/A
Maintain that the investment strategy reduces the investment universe of the Fund by at least 20%	Reduction in investment universe	Reduction greater than 20% ¹	Reduction greater than 20% ¹	Reduction greater than 20% ¹
Exclusion of investment in companies involved in the cultivation and/or production of tobacco	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD Guidelines for Multinational Enterprises	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of investments in companies with involvement in activities related to controversial weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ²	N/A ²
Investment in GSS bonds	% investment in Green, Social and Sustainability bonds held by the Fund	0.00%	N/A ²	N/A ²

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels	# of active breaches	No active breaches	N/A ²	N/A ²

¹The ESG policy reduced the investment universe by greater than 20% over the reference period.
²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (“PAI”s). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment’s business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Adverse Sustainability Indicator

Greenhouse gas (GHG) emissions (Scope 1/2/3)

Carbon footprint

GHG intensity of investee companies

Exposure to companies active in the fossil fuel sector

Share of non-renewable energy consumption and production

Energy consumption intensity per high impact climate sector

Activities negatively affecting biodiversity-sensitive areas

Emissions to water

Hazardous waste and radioactive waste ratio

Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

Unadjusted gender pay gap

Board gender diversity

Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

GHG intensity (Sovereigns & Supranationals)

Investee countries subject to social violations (Sovereigns & Supranationals)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
Taxonomy-aligned	17.34%	23.46%	0.00%
Other	72.63%	64.36%	77.20%
Environmental	89.97%	87.82%	77.20%
Social	10.03%	10.81%	14.52%
#1 Sustainable	100.00%	98.62%	91.72%
#2 Not sustainable	0.00%	1.38%	8.28%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

● **In which economic sectors were the investments made?**

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-sector	% of Investments
Utilities	Utilities	49.58%
Industrials	Transportation	27.67%
Real Estate	Equity Real Estate Investment Trusts (REITs)	10.16%
Industrials	Capital Goods	4.38%
Communication	Telecom	3.28%
Information Technology	Software & Services	1.41%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

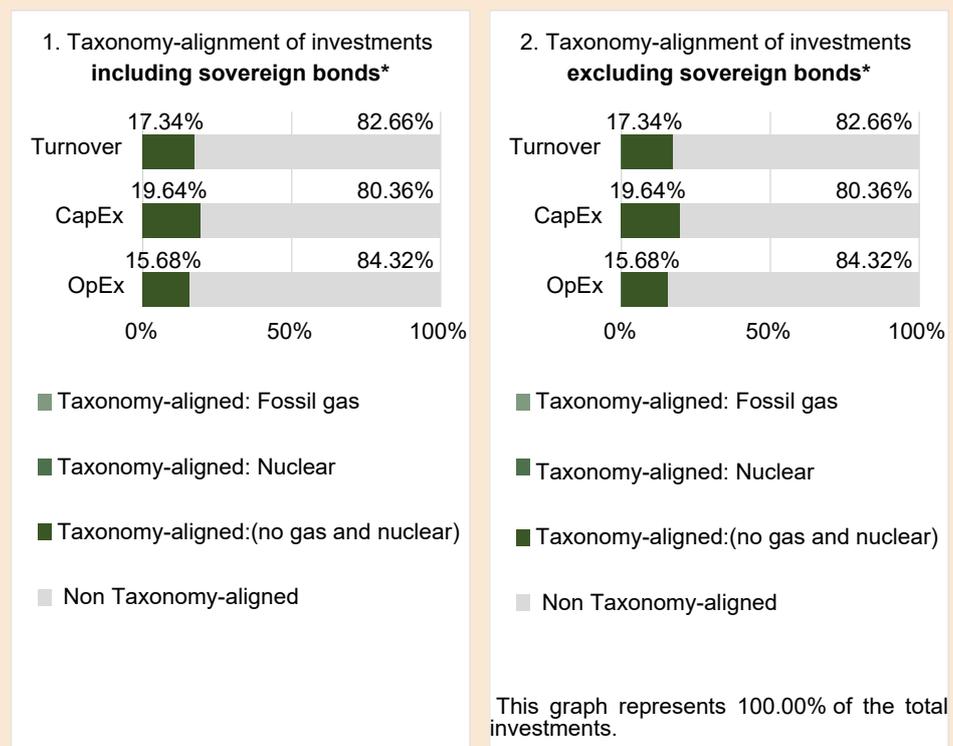

For the reference period, 17.34% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	17.34%	19.64%	15.68%
Non Taxonomy-aligned	82.66%	80.36%	84.32%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	17.34%	19.64%	15.68%
Non Taxonomy-aligned	82.66%	80.36%	84.32%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	17.26%
Climate Change Adaptation	0.06%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.06%
Enabling Activities	7.48%

● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	17.34%	23.46%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

Sustainable Global Infrastructure Fund (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 72.63% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 10.03% of the Fund's investments were classified as socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “Not sustainable” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Swiss Small & MidCap Opportunities Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Swiss Small & MidCap Opportunities Fund

Legal entity identifier:
549300YOB1KZTW27BE02

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Swiss Small & MidCap Opportunities Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Swiss Small & MidCap Opportunities Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Swiss Small & MidCap Opportunities Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Swiss Small & MidCap Opportunities Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	32.58%
Health Care	Pharma, Biotech & Life Sciences	20.47%
Health Care	Health Care Equipment & Services	13.51%
Consumer Staples	Food Beverage Tobacco	11.50%
Financials	Financial Services	5.37%
Industrials	Commercial & Professional Services	4.85%
Utilities	Utilities	3.05%
Materials	Materials	2.63%
Consumer Discretionary	Consumer Durables	2.10%
Information Technology	Tech Hardware & Equipment	1.67%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Swiss Small & MidCap Opportunities Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

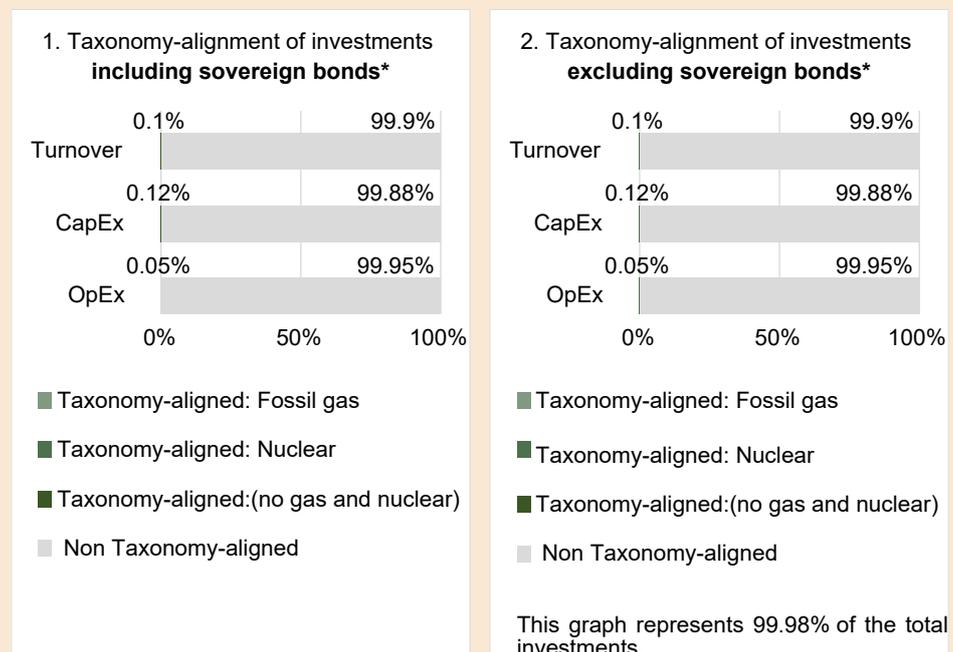

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.10%	0.12%	0.05%
Non Taxonomy-aligned	99.90%	99.88%	99.95%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.10%	0.12%	0.05%
Non Taxonomy-aligned	99.90%	99.88%	99.95%

For the reference period, 0.02% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.08%
Climate Change Adaptation	0.02%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.04%
Enabling Activities	0.06%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.10%	0.19%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Swiss Small & MidCap Opportunities Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and shares or unites of CIS however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Swiss Small & MidCap Opportunities Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Systematic China A-Share Opportunities Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China A-Share Opportunities Fund (continued)

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China A-Share Opportunities Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles

Appendix IV – Supplementary Information (Unaudited) continued

Systematic China A-Share Opportunities Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	97.46%	98.83%	97.55%
#2 Other	2.54%	1.17%	2.45%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China A-Share Opportunities Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Industrials	Capital Goods	14.72%
Information Technology	Tech Hardware & Equipment	12.99%
Financials	Banks	9.60%
Materials	Materials	9.47%
Consumer Staples	Food Beverage Tobacco	9.03%
Financials	Financial Services	7.30%
Health Care	Pharma, Biotech & Life Sciences	6.11%
Information Technology	Semiconductors & Semiconductor Equipment	5.70%
Consumer Discretionary	Autos & Components	5.67%
Consumer Discretionary	Consumer Durables	5.15%
Financials	Insurance	4.34%
Information Technology	Software & Services	1.93%
Utilities	Utilities	1.73%
Industrials	Transportation	1.41%
Communication	Media & Entertainment	1.08%
Health Care	Health Care Equipment & Services	1.04%
Energy	Oil & Gas Equipment & Services	0.32%
Energy	Integrated Oil & Gas	0.30%
Energy	Coal & Consumable Fuels	0.05%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas exploration and production, oil and gas storage and transportation, oil and gas drilling or oil and gas refining and marketing.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China A-Share Opportunities Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

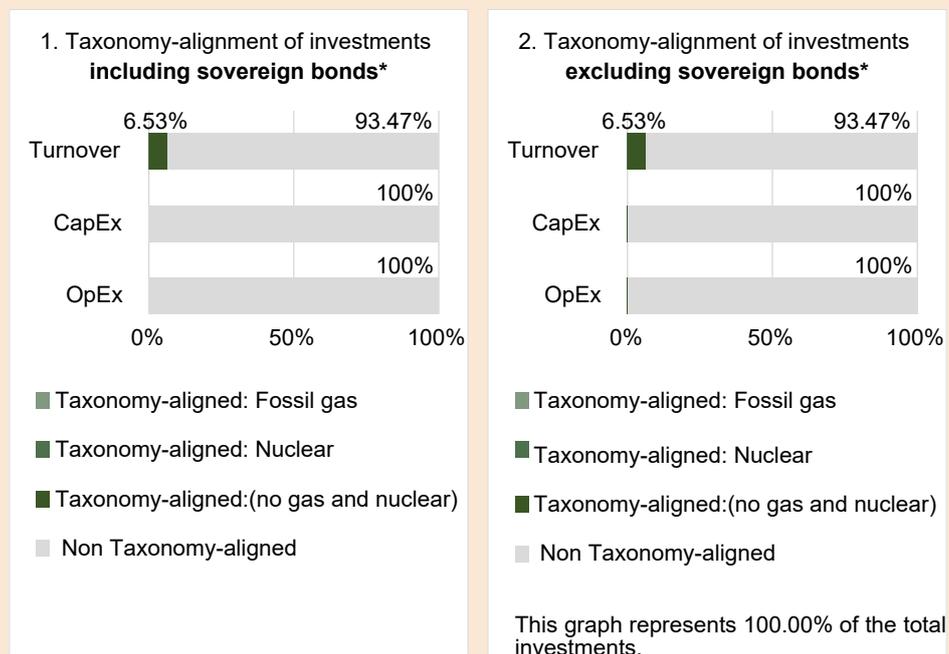

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China A-Share Opportunities Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	6.53%	0.00%	0.00%
Non Taxonomy-aligned	93.47%	100.00%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	6.53%	0.00%	0.00%
Non Taxonomy-aligned	93.47%	100.00%	100.00%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	6.53%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	6.51%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	6.53%	4.61%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Systematic China A-Share Opportunities Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included derivatives, cash and near cash instruments however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Systematic China Environmental Tech Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Systematic China Environmental Tech Fund

Legal entity identifier:
529900A0JA146KNY9073

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 68.35% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Improvement of ESG adjusted score relative to the MSCI China All Share IMI Environmental 10/40 Index (the "Index")

Maintain that the Fund holds at least 70% in investments in companies in the industries and supply chain of new energy carbon neutral green energy conservation and emissions reduction themes

Investment in Sustainable Investments

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

Investment in Green, Social and Sustainability ("GSS") bonds

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ¹	N/A ¹
Investment in GSS bonds	% investment in GSS bonds held by the Fund	0.00%	N/A ²	N/A ²

¹Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 68.35% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
(ii) the issuer's business practices contributed to an environmental and/or social objective.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm ("DNSH") requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts ("PAI"s) on sustainability factors for each type of investment were assessed using BlackRock's Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Appendix IV – Supplementary Information (Unaudited) continued

Systematic China Environmental Tech Fund (continued)

Adverse Sustainability Indicator	Sustainability Indicators
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)
GHG Emissions	Investment in GSS bonds
GHG Emissions	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Carbon footprint	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
GHG intensity of investee companies	Investment in GSS bonds
GHG intensity of investee companies	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Share of non-renewable energy consumption and production	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh

Systematic China Environmental Tech Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.67%	97.94%	98.54%
#2 Other	1.33%	2.06%	1.46%
#1A Sustainable	68.35%	64.25%	62.98%
#1B Other E/S characteristics	30.32%	33.69%	35.56%
Taxonomy-aligned	22.57%	20.72%	0.00%
Other environmental	44.02%	41.77%	62.08%
Social	1.76%	1.76%	0.90%

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Consumer Discretionary	Autos & Components	39.35%
Industrials	Capital Goods	25.94%
Information Technology	Semiconductors & Semiconductor Equipment	9.07%
Information Technology	Tech Hardware & Equipment	9.01%
Information Technology	Software & Services	4.54%
Industrials	Transportation	4.46%
Materials	Materials	2.30%
Utilities	Utilities	2.00%
Energy	Oil & Gas Equipment & Services	0.22%
Energy	Coal & Consumable Fuels	0.03%
Energy	Integrated Oil & Gas	0.03%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation or oil and gas refining and marketing.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

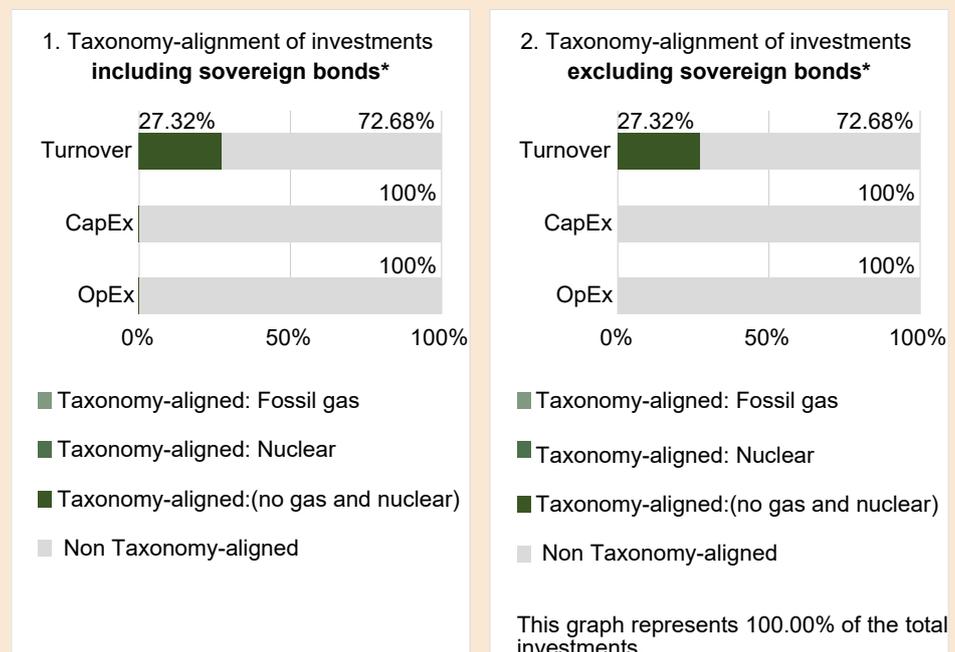

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	27.32%	0.00%	0.00%
Non Taxonomy-aligned	72.68%	100.00%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	27.32%	0.00%	0.00%
Non Taxonomy-aligned	72.68%	100.00%	100.00%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	27.33%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	27.10%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	27.32%	22.52%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 44.02% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 1.76% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic China Environmental Tech Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Systematic Global Income & Growth Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:

Systematic Global Income & Growth Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the 33.3% MSCI World Minimum Volatility Index 33.3% MSCI All Country World Index 16.7% BBG Global Aggregate Corporate Index and 16.7% BBG Global High Yield Corp ex Emerging Markets Index Hedged in USD (the "Index")

Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index

Investment in Sustainable Investments

Investment in use-of-proceeds bonds

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in use-of-proceeds bonds	% use-of-proceeds bonds held by the Fund	1.11%	1.09%	0.99%
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	44.65%	46.84%	29.09%
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	54.18%	54.66%	55.13%
Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index	ESG rating of the Fund	Fund ESG rating AA ¹	Fund ESG rating AA ¹	Fund ESG rating AA ¹
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches

¹The Fund's ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 44.65% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
 (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
 (ii) the issuer's business practices contributed to an environmental and/or social objective; or
 (iii) the fixed income securities were aligned with an environmental and/or social objective.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”s) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Greenhouse gas (GHG) emissions	Investment in use-of-proceeds bonds
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
GHG Intensity of Investee Companies	Investment in use-of-proceeds bonds
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Exposure to companies active in the fossil fuel sector	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	95.40%	94.13%	94.52%
#2 Other	4.60%	5.87%	5.48%
#1A Sustainable	44.65%	46.84%	29.09%
#1B Other E/S characteristics	50.75%	47.29%	65.43%
Taxonomy-aligned	1.34%	1.18%	0.00%
Other environmental	35.60%	34.84%	22.02%
Social	7.71%	10.83%	7.07%

Systematic Global Income & Growth Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	8.99%
Financials	Banks	8.29%
Financials	Financial Services	8.11%
Health Care	Pharma, Biotech & Life Sciences	7.08%
Communication	Telecommunications	6.43%
Information Technology	Tech Hardware & Equipment	5.50%
Industrials	Capital Goods	5.08%
Financials	Insurance	4.80%
Communication	Media & Entertainment	4.74%
Utilities	Utilities	4.42%
Information Technology	Semiconductors & Semiconductor Equipment	4.34%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	4.23%
Health Care	Health Care Equipment & Services	4.05%
Materials	Materials	3.64%
Consumer Staples	Food Beverage Tobacco	3.48%
Consumer Staples	Consumer Staples Distribution & Retail	2.73%
Industrials	Commercial & Professional Services	2.45%
Energy	Integrated Oil & Gas	2.30%
Industrials	Transportation	2.00%
Real Estate	Equity Real Estate Investment Trusts (REITs)	1.99%
Consumer Staples	Household & Personal Prod	1.72%
Consumer Discretionary	Autos & Components	1.64%
Consumer Discretionary	Consumer Services	1.59%
Energy	Oil & Gas Exploration & Production	1.37%
Energy	Oil & Gas Storage & Transportation	1.18%
Consumer Discretionary	Consumer Durables	1.15%
Energy	Oil & Gas Equipment & Services	0.29%
Energy	Oil & Gas Drilling	0.26%
Energy	Oil & Gas Refining & Marketing	0.25%
Energy	Coal & Consumable Fuels	0.00%

The Fund had exposure to energy sub-sectors during the reference period, however, due to the small size of this exposure and rounding to two decimal places, it is presented as 0.00% in the table.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

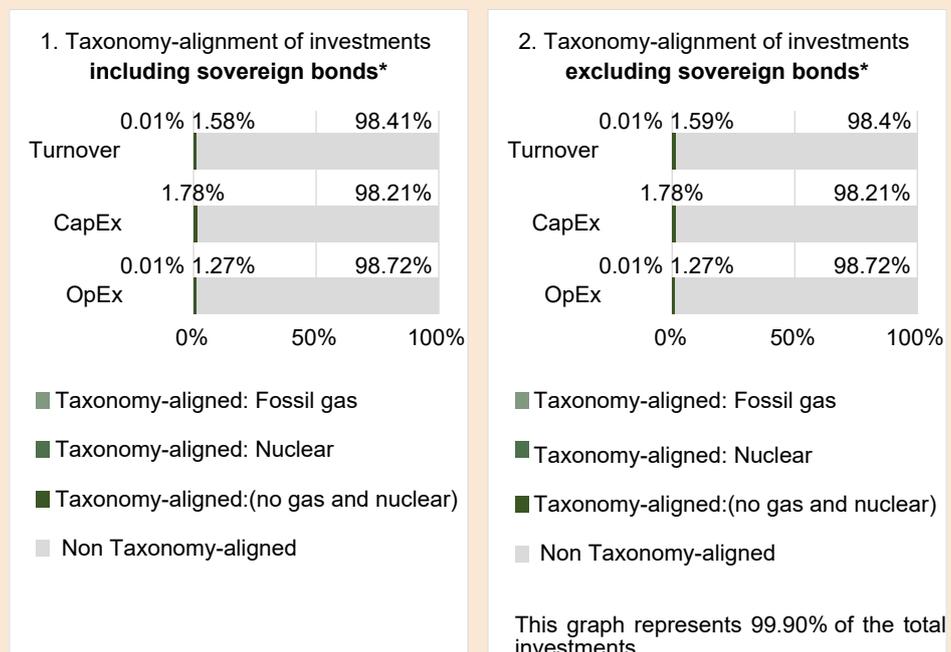

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.00%	0.01%
Taxonomy-aligned: No gas and nuclear	1.58%	1.78%	1.27%
Non Taxonomy-aligned	98.41%	98.21%	98.72%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.00%	0.01%
Taxonomy-aligned: No gas and nuclear	1.59%	1.78%	1.27%
Non Taxonomy-aligned	98.40%	98.21%	98.72%

For the reference period, 0.10% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.48%
Climate Change Adaptation	0.09%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.07%
Enabling Activities	0.87%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.59%	1.28%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 35.60% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 7.71% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" include derivatives, cash and near cash instruments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global Income & Growth Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Systematic Global SmallCap Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Systematic Global SmallCap Fund

Legal entity identifier:
549300HBMGWEEZN5BI34

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 35.55% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the MSCI ACWI Small Cap Index (the "Index")

Investment in Sustainable Investments

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Systematic Global SmallCap Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Investment in Sustainable Investments	% of Sustainable Investments held by the Fund	35.55%	29.08%	24.21%
Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index	% reduction of carbon emissions intensity of the portfolio relative to the Index	51.91%	49.12%	40.59%
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation (as detailed above)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches

¹The Fund's ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 35.55% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks (“Environmental and Social Objectives”).

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
(i) a minimum proportion of the issuer’s business activity contributed to an environmental and/or social objective; or
(ii) the issuer’s business practices contributed to an environmental and/or social objective.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (emissions per \$1 million of sales revenue across the Fund's holdings) relative to the Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	97.54%	97.86%	98.25%
#2 Other	2.46%	2.14%	1.75%
#1A Sustainable	35.55%	29.08%	24.21%
#1B Other E/S characteristics	61.99%	68.78%	74.04%
Taxonomy-aligned	0.97%	1.68%	0.00%
Other environmental	26.31%	19.86%	16.51%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

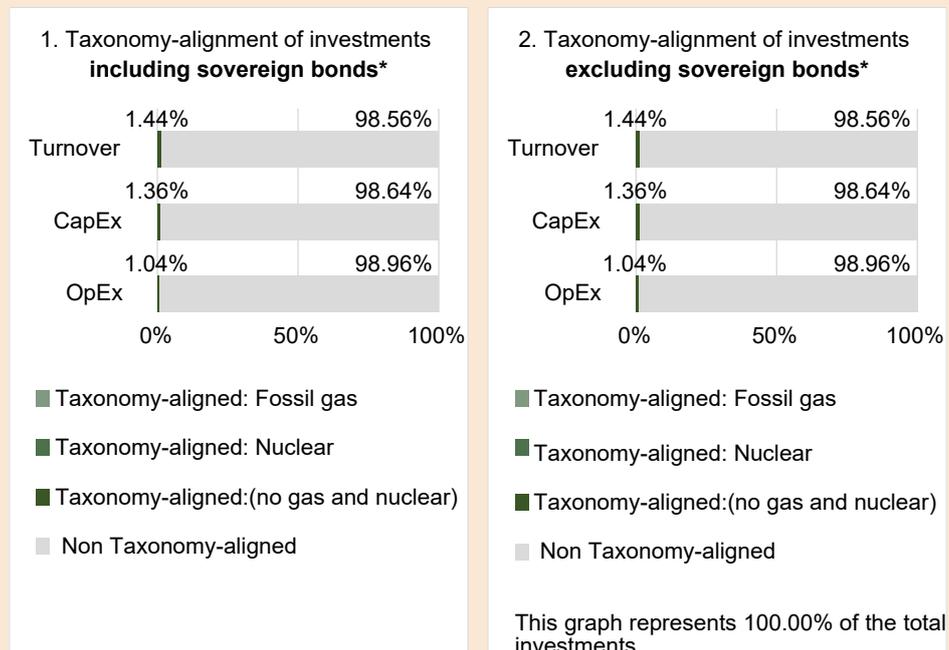

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.44%	1.36%	1.04%
Non Taxonomy-aligned	98.56%	98.64%	98.96%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.44%	1.36%	1.04%
Non Taxonomy-aligned	98.56%	98.64%	98.96%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.13%
Climate Change Adaptation	0.30%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.07%
Enabling Activities	0.62%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.44%	1.95%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Global SmallCap Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 26.31% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 8.27% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

¹The Fund committed to this sustainability indicator during the prior reference period therefore comparatives are not presented for the 2023 reference period.

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Multi Allocation Credit Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

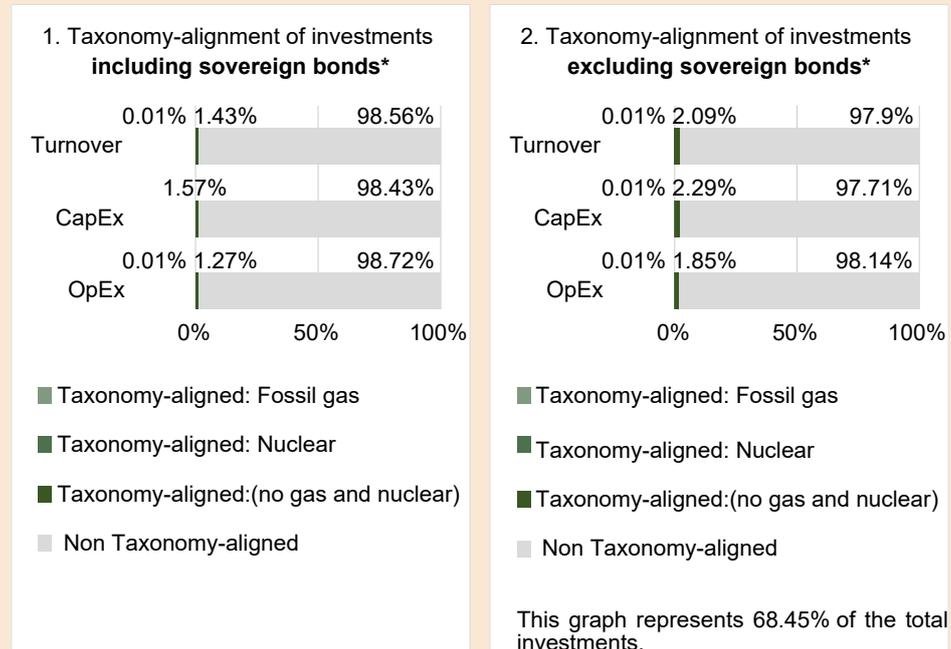

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Multi Allocation Credit Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.00%	0.01%
Taxonomy-aligned: No gas and nuclear	1.43%	1.57%	1.27%
Non Taxonomy-aligned	98.56%	98.43%	98.72%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.01%
Taxonomy-aligned: No gas and nuclear	2.09%	2.29%	1.85%
Non Taxonomy-aligned	97.90%	97.71%	98.14%

For the reference period, 31.55% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.32%
Climate Change Adaptation	0.09%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.09%
Enabling Activities	0.72%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.44%	0.91%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Multi Allocation Credit Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" can include derivatives, cash and near cash instruments, however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

Systematic Multi Allocation Credit Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

United Kingdom Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
United Kingdom Fund

Legal entity identifier:
549300CZ01EMON5C7Z93

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

 No

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

United Kingdom Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	N/A ¹
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Astrazeneca Plc	Health Care	8.56%	United Kingdom
Relx Plc	Industrials	7.04%	United Kingdom
Shell Plc	Energy	6.10%	United Kingdom
Compass Group Plc	Consumer Discretionary	5.56%	United Kingdom
3i Group Plc	Financials	5.23%	United Kingdom
London Stock Exchange Group Plc	Financials	5.04%	United Kingdom
Standard Chartered Plc	Financials	4.70%	United Kingdom
Next Plc	Consumer Discretionary	4.57%	United Kingdom
Pearson Plc	Consumer Discretionary	3.15%	United Kingdom
Halma Plc	Information Technology	3.04%	United Kingdom
HSBC Holdings Plc	Financials	2.77%	United Kingdom
Rightmove Plc	Communication	2.72%	United Kingdom
Auto Trader Group Plc	Communication	2.71%	United Kingdom
Reckitt Benckiser Group Plc	Consumer Staples	2.54%	United Kingdom
Experian Plc	Industrials	2.14%	Ireland

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

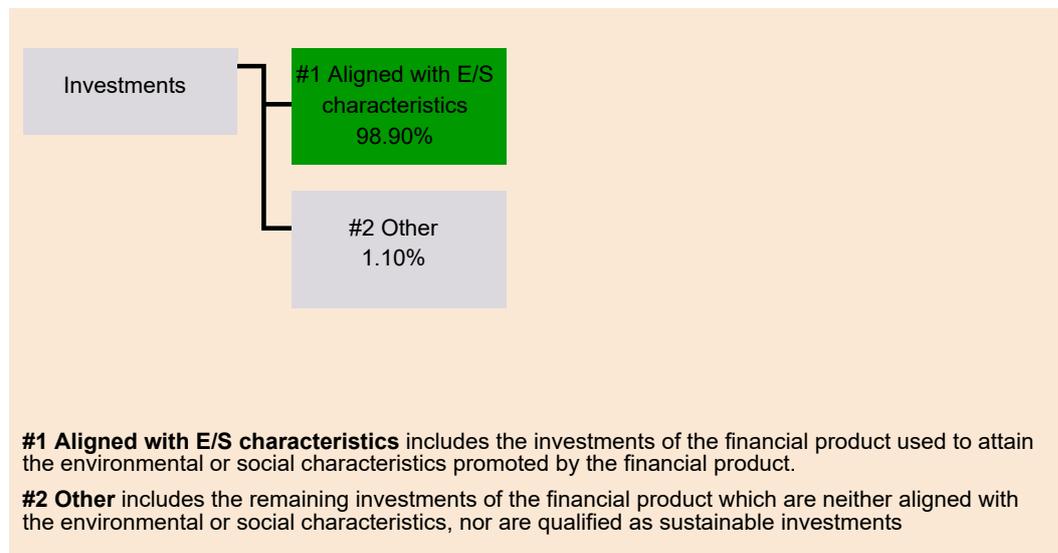

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.90%	99.38%	N/A ¹
#2 Other	1.10%	0.62%	N/A ¹

¹As 2024 was the first reference period presented for the Fund, comparatives are not presented for this reference period.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Financials	Financial Services	15.42%
Industrials	Commercial & Professional Services	11.06%
Consumer Discretionary	Consumer Services	10.25%
Financials	Banks	8.62%
Health Care	Pharma, Biotech & Life Sciences	8.56%
Energy	Integrated Oil & Gas	6.94%
Industrials	Capital Goods	6.87%
Communication	Media & Entertainment	6.75%
Materials	Materials	4.65%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	4.57%
Information Technology	Tech Hardware & Equipment	3.04%
Consumer Staples	Household & Personal Products	2.54%
Real Estate	Equity Real Estate Investment Trusts (REITs)	2.47%
Consumer Discretionary	Consumer Durables	2.09%
Information Technology	Software & Services	1.99%
Health Care	Health Care Equipment & Services	1.74%
Consumer Staples	Food Beverage Tobacco	1.42%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

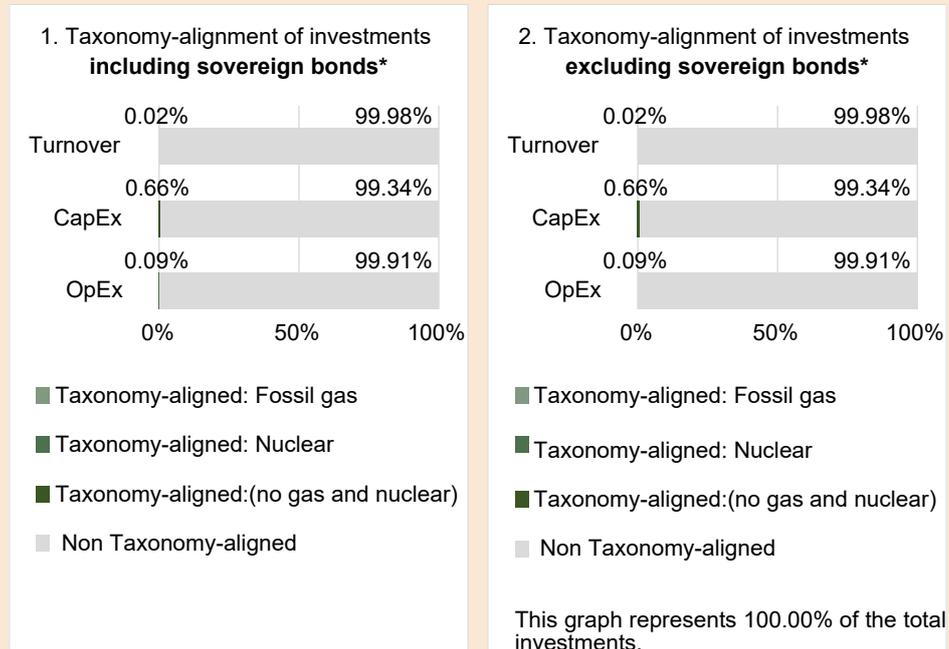

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

United Kingdom Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

United Kingdom Fund (continued)

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How does the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

US Dollar High Yield Bond Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
US Dollar High Yield Bond Fund

Legal entity identifier:
5493002GUOE4D10RFV09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

● **...and compared to previous periods?**

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund’s investment portfolio.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles

US Dollar High Yield Bond Fund (continued)

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	96.97%	98.96%	97.61%
#2 Other	3.03%	1.04%	2.39%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

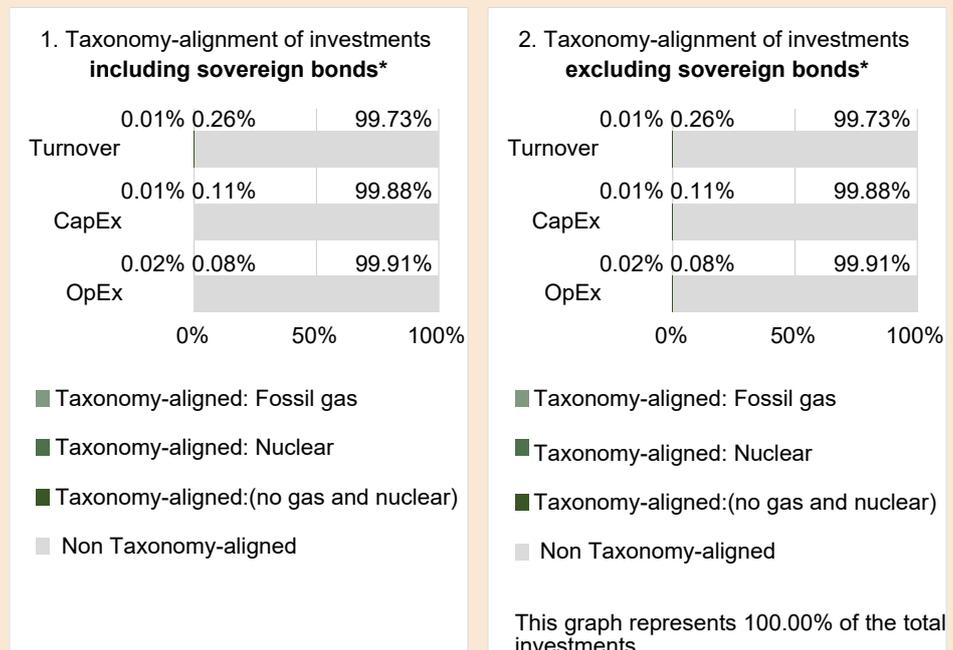

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.02%
Taxonomy-aligned: No gas and nuclear	0.26%	0.11%	0.08%
Non Taxonomy-aligned	99.73%	99.88%	99.91%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.01%	0.01%	0.02%
Taxonomy-aligned: No gas and nuclear	0.26%	0.11%	0.08%
Non Taxonomy-aligned	99.73%	99.88%	99.91%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.27%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.15%
Enabling Activities	0.05%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.27%	0.13%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Dollar High Yield Bond Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and fixed income transferable securities (also known as debt securities) issued by agencies worldwide however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

US Flexible Equity Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
US Flexible Equity Fund

Legal entity identifier:
5493000VBLDY9YB8P237

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

US Flexible Equity Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.44%	96.02%	95.18%
#2 Other	1.56%	3.98%	4.82%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Financials	Financial Services	12.77%
Information Technology	Semiconductors & Semiconductor Equipment	12.20%
Communication	Media & Entertainment	12.14%
Information Technology	Software & Services	10.86%
Health Care	Health Care Equipment & Services	10.64%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	7.04%
Information Technology	Tech Hardware & Equipment	6.82%
Industrials	Capital Goods	6.16%
Industrials	Commercial & Professional Services	3.43%
Materials	Materials	3.41%
Financials	Banks	2.85%
Consumer Discretionary	Consumer Durables	2.63%
Health Care	Pharma, Biotech & Life Sciences	2.40%
Energy	Oil & Gas Exploration & Production	2.25%
Energy	Integrated Oil & Gas	0.98%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

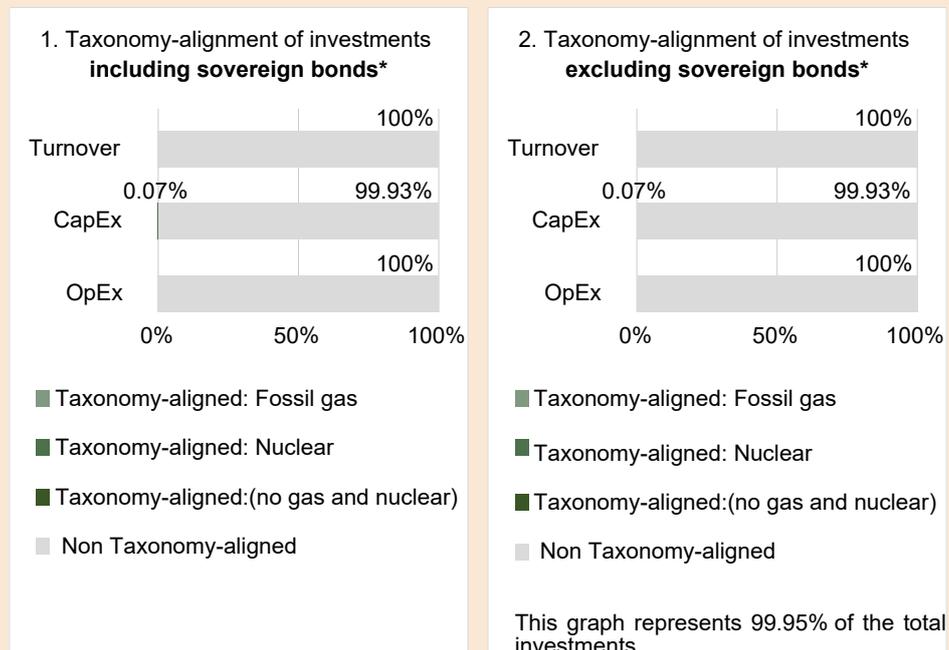

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.00%	0.07%	0.00%
Non Taxonomy-aligned	100.00%	99.93%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.00%	0.07%	0.00%
Non Taxonomy-aligned	100.00%	99.93%	100.00%

For the reference period, 0.05% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.00%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.00%	0.00%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Flexible Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

US Government Mortgage Impact Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
US Government Mortgage Impact Fund

Legal entity identifier:
549300SQECI7813LC791

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes No

It made **sustainable investments with an environmental objective**: 23.39%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: 72.27%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

US Government Mortgage Impact Fund (continued)

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

The following table lists the sustainable investment objectives which were promoted by the Fund throughout the reference period. Further information on these sustainable investment objectives is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such sustainable investment objectives.

Sustainable objectives promoted by the Fund

Investment in Sustainable Investments

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons.

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands).

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund

Maintain that the investment strategy reduces the investment universe of the Fund by at least 20%

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

Investment in Green, Social and Sustainability (GSS) bonds

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of investments which do not meet the qualifying criteria for an SFDR Article 9 fund	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel	# of active breaches	No active breaches	N/A ²	N/A ²
Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh	# of active breaches	No active breaches	N/A ²	N/A ²
Investment in GSS bonds	% investment in Green, Social and Sustainability bonds held by the Fund	0.58%	N/A ²	N/A ²

¹The ESG policy reduced the investment universe by greater than 20% over the reference period.
²Effective 6 May 2025, the Fund committed to applying these EU Paris-aligned benchmark exclusions. Therefore, comparatives for the prior reference periods are not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

BlackRock has developed a set of criteria across all Sustainable Investments, to assess whether an investment does significant harm by reference to all the mandatory principal adverse impacts (“PAI”s). The criteria targets sustainability factors such as investee companies with exposure to fossil fuels, violations of international norms, environmentally negative business practices and controversial weapons. Investments are screened against these criteria using system-based controls and any which are considered to be causing significant harm do not qualify as Sustainable Investments. BlackRock assesses the indicators for adverse impacts on sustainability factors for each type of investment as defined by the regulation. Criteria for adverse impacts are assessed using third-party vendor data regarding an investment’s business involvement (in specific activities identified as having negative environmental or social impacts) or environmental or social controversies to exclude investments which BlackRock has determined are harmful to sustainability indicators subject to limited exceptions, for example, where the data is determined to be inaccurate or not up to date.

The following PAIs are captured through the do no significant harm process:

Adverse Sustainability Indicator

Greenhouse gas (GHG) emissions (Scope 1/2/3)

Carbon footprint

GHG intensity of investee companies

Exposure to companies active in the fossil fuel sector

Share of non-renewable energy consumption and production

Energy consumption intensity per high impact climate sector

Activities negatively affecting biodiversity-sensitive areas

Emissions to water

Hazardous waste and radioactive waste ratio

Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises

Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises

Unadjusted gender pay gap

Board gender diversity

Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)

GHG intensity (Sovereigns & Supranationals)

Investee countries subject to social violations (Sovereigns & Supranationals)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
Taxonomy-aligned	0.00%	0.00%	0.00%
Other	23.39%	29.49%	43.77%
Environmental	23.39%	29.49%	43.77%
Social	72.27%	70.51%	43.77%
#1 Sustainable	95.66%	100.00%	87.54%
#2 Not sustainable	4.34%	0.00%	12.46%

¹The net exposure to "Other" assets was -2.01% due to derivative positions held by the Fund.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

● **In which economic sectors were the investments made?**

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-sector	% of Investments
Securitized	MBS Pass-Through	92.90%
Treasuries	Treasuries	7.02%
Securitized	CMO	2.80%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): integrated, independent, midstream, oil field services, refining, metals and mining.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

For the reference period, 0.00% of the Fund's investments were classified as both Sustainable Investments with an environmental objective and aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

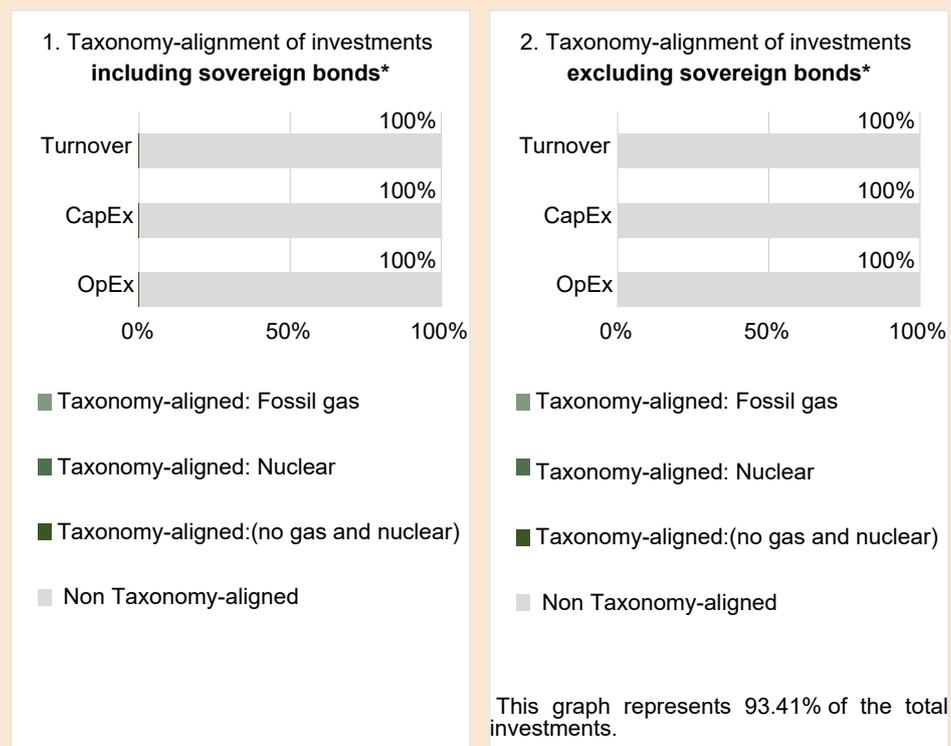

Yes:

In fossil gas In nuclear energy

No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.00%	0.00%	0.00%
Non Taxonomy-aligned	100.00%	100.00%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.00%	0.00%	0.00%
Non Taxonomy-aligned	100.00%	100.00%	100.00%

For the reference period, 6.59% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.00%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

For the previous reference periods, 0% of the Fund's investments were aligned with EU Taxonomy.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852 (continued)

US Government Mortgage Impact Fund (continued)

*Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments* with an environmental objective that were not aligned with the EU Taxonomy?

For the reference period, 23.39% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 72.27% of the Fund's investments were classified as socially sustainable investments.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “Not sustainable” included derivatives, cash and near cash instruments and fixed income transferable securities (also known as debt securities) by agencies worldwide however such holdings did not exceed 20%. Such investments were used only for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the sustainable investment objectives of the Fund. The Investment Adviser regularly reviews the sustainable investment objectives of the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

How did this financial product perform compared to the reference sustainable benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the sustainable investment objective of the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial products attain the sustainable objective.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

US Growth Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
US Growth Fund

Legal entity identifier:
549300DS7VHS2W0PZD71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

US Growth Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

US Growth Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Growth Fund (continued)

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Growth Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	18.43%
Information Technology	Semiconductors & Semiconductor Equipment	17.19%
Communication	Media & Entertainment	14.37%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	9.37%
Financials	Financial Services	8.96%
Information Technology	Tech Hardware & Equipment	6.64%
Industrials	Capital Goods	5.65%
Health Care	Pharma, Biotech & Life Sciences	4.90%
Health Care	Health Care Equipment & Services	4.35%
Consumer Discretionary	Autos & Components	4.13%
Industrials	Commercial & Professional Services	1.41%
Materials	Materials	1.22%
Consumer Discretionary	Consumer Services	1.22%
Real Estate	Real Estate Management & Development	1.01%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Growth Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

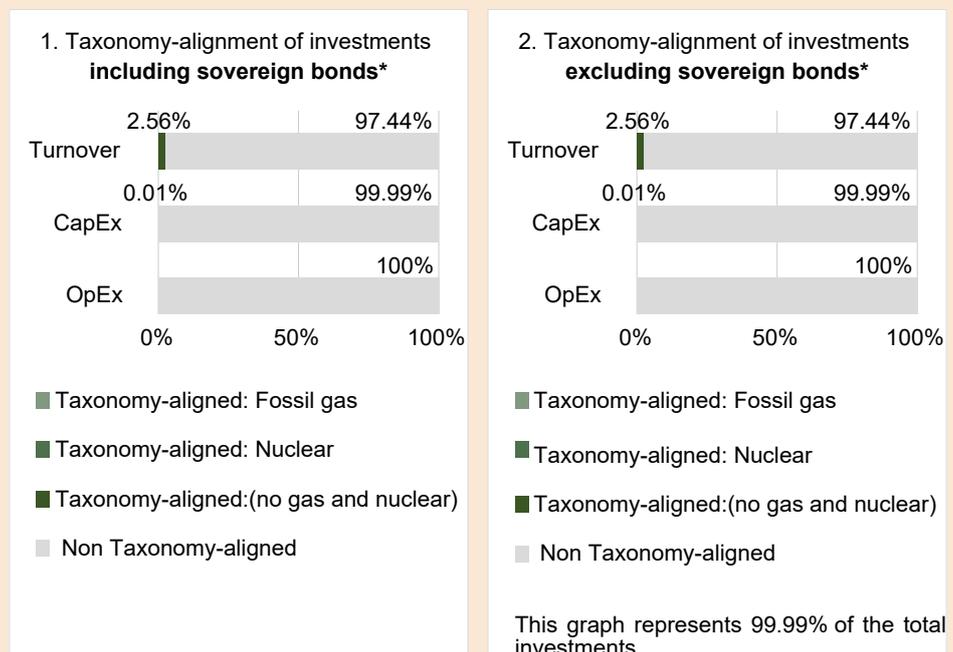

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Growth Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Growth Fund (continued)

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

US Sustainable Equity Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
US Sustainable Equity Fund

Legal entity identifier:
549300KZU3AFC0XHX480

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 66.06% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Reduction of carbon emissions intensity (based on enterprise value including cash, "EVIC") relative to the Russell 1000 Index (the "Index")

Maintain that the weighted average ESG rating of the Fund will be higher than the ESG rating of the Index after eliminating at least 20% of the lowest rated securities from the Index

Investment in Sustainable Investments

Ensure that more than 90% of the issuers of securities in which the Fund invests (excluding money market funds) shall be ESG rated or have been analysed for ESG purposes

Exclusion of companies involved in the cultivation/production of tobacco

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the Organisation for Economic Cooperation and Development ("OECD") Guidelines for Multinational Enterprises

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Exclusion of issuers that do not have a rating of B or higher as defined by MSCI's ESG Intangible Value Assessment ratings or another equivalent third party ESG data provider

Limit direct investments in issuers involved in the production of adult entertainment materials

Limit direct investments in issuers involved with the production, distribution or licensing of alcoholic products

Limit direct investments in issuers involved in the ownership or operation of gambling-related activities or facilities

Limit direct investments in issuers involved in the production of conventional weapons

Limit direct investments in issuers involved in unconventional oil and gas production

Limit direct investments in issuers involved in the production, supply and mining activities related to nuclear power

Exclusion of issuers that have 1% or more of their revenue deriving from exploration, mining, extraction, distribution or refining of hard coal and lignite

Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO₂ e/kWh

Investment in Green, Social and Sustainability ("GSS") bonds

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Investment in GSS bonds	% investment in GSS bonds held by the Fund	0.00%	N/A ²	N/A ²

¹The Fund's ESG rating was higher than the Index rating throughout the reference period after eliminating at least 20% of the lowest rated securities from the Index.

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

During the reference period, the Fund invested 66.06% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks ("Environmental and Social Objectives").

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:
 (i) a minimum proportion of the issuer's business activity contributed to an environmental and/or social objective; or
 (ii) the issuer's business practices contributed to an environmental and/or social objective.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

The indicators for principal adverse impacts (“PAI”s) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Appendix IV – Supplementary Information (Unaudited) continued

US Sustainable Equity Fund (continued)

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction of carbon emissions intensity (based on EVIC) relative to the Index
GHG Intensity of Investee Companies	Reduction of carbon emissions intensity (based on EVIC) relative to the Index
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles or the OECD
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)
Greenhouse gas (GHG) emissions	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Greenhouse gas (GHG) emissions	Investment in GSS bonds
GHG Intensity of Investee Companies	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
GHG Intensity of Investee Companies	Investment in GSS bonds
Carbon footprint	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Share of non-renewable energy consumption and production	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Share of non-renewable energy consumption and production	Exclusion of issuers that have 50% or more of their revenue deriving from electricity generation having a greenhouse gas intensity greater than 100g CO ₂ e/kWh
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 10% or more of their revenue deriving from the exploration, extraction, distribution or refining of oil fuels
Exposure to companies active in the fossil fuel sector	Exclusion of issuers that have 50% or more of their revenue deriving from the exploration, extraction, manufacturing or distribution of gaseous fuel

US Sustainable Equity Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.09%	98.81%	97.44%
#2 Other	1.91%	1.19%	2.56%
#1A Sustainable	66.06%	58.35%	50.16%
#1B Other E/S characteristics	32.03%	40.46%	47.28%
Taxonomy-aligned	0.56%	0.00%	0.00%
Other environmental	61.16%	52.46%	45.58%
Social	4.34%	5.89%	4.58%

US Sustainable Equity Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Financials	Financial Services	15.02%
Information Technology	Semiconductors & Semiconductor Equipment	14.94%
Information Technology	Software & Services	12.61%
Health Care	Health Care Equipment & Services	9.30%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	7.82%
Industrials	Capital Goods	7.43%
Communication	Media & Entertainment	6.00%
Materials	Materials	4.99%
Information Technology	Tech Hardware & Equipment	4.78%
Health Care	Pharma, Biotech & Life Sciences	4.40%
Financials	Insurance	2.24%
Real Estate	Equity Real Estate Investment Trusts (REITs)	2.02%
Financials	Banks	1.85%
Consumer Discretionary	Consumer Durables	1.67%
Real Estate	Real Estate Management & Development	1.34%
Industrials	Transportation	1.12%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

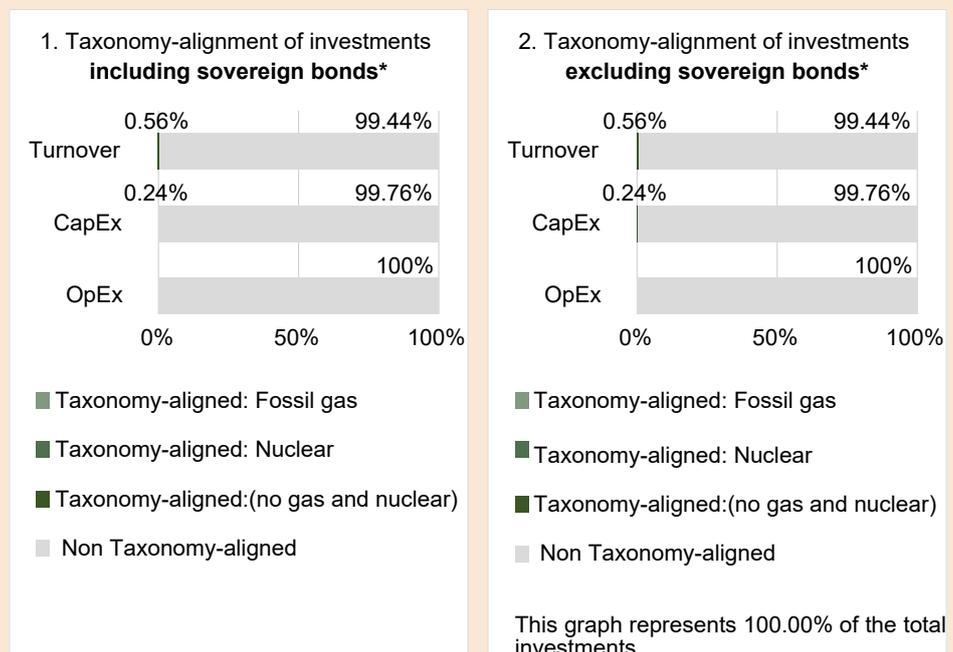

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.56%	0.24%	0.00%
Non Taxonomy-aligned	99.44%	99.76%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.56%	0.24%	0.00%
Non Taxonomy-aligned	99.44%	99.76%	100.00%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.56%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.02%
Enabling Activities	0.54%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 61.16% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 4.34% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

US Sustainable Equity Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

World Bond Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Investment in Sustainable Investments

Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Bloomberg Barclays Global Aggregate Index (USD hedged) (the "Index")

Investment in use-of-proceeds bonds

Limiting investments in issuers deemed to have negative externalities

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

EU Taxonomy environmental objectives contributed to by the Fund

Climate Change Mitigation

Climate Change Adaptation

--	----------------------	--------------------	--------------------	--------------------

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section “How did the sustainability indicators perform?”).

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

During the reference period, the Fund invested 21.76% of its holdings in Sustainable Investments in pursuit of its investment objective.

Environmental and social objectives

The Fund invested in Sustainable Investments which contributed to a range of environmental and/or social objectives which may include but are not limited to, alternative and renewable energy, energy efficiency, pollution prevention or mitigation, reuse and recycling, health, nutrition, sanitation and education and the UN Sustainable Development Goals and other sustainability-related frameworks (“Environmental and Social Objectives”).

Economic activity assessment

An investment was assessed as contributing to an environmental and/or social objective where:

- (i) a minimum proportion of the issuer’s business activity contributed to an environmental and/or social objective; or
- (ii) the issuer’s business practices contributed to an environmental and/or social objective; or
- (iii) the use of proceeds was assessed as contributing to an environmental and/or social objective such as green bonds, social bonds, and sustainability bonds; or
- (iv) the fixed income securities were aligned with an environmental and/or social objective.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sustainable Investments held by the Fund during the reference period met the do no significant harm (“DNSH”) requirements, as defined by applicable law and regulation. BlackRock has developed a set of criteria across all Sustainable Investments to assess whether an issuer or investment does significant harm. Investments considered to be causing significant harm do not qualify as Sustainable Investments.

- How were the indicators for adverse impacts on sustainability factors taken into account?

The indicators for principal adverse impacts (“PAI”s) on sustainability factors for each type of investment were assessed using BlackRock’s Sustainable Investments proprietary methodology. All relevant mandatory PAI indicators included in Annex 1 of the Commission Delegated Regulation (EU) 22 / 1288 were considered. BlackRock used fundamental analysis and/or third-party data sources to identify investments which negatively impact sustainability factors and cause significant harm. Please refer to the section below, “How did this financial product consider principal adverse impacts on sustainability factors?”, which describes how the Fund considered PAIs on sustainability factors.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Sustainable Investments held during the reference period were assessed to consider any detrimental impacts and ensure compliance with international standards of the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights. Issuers or companies deemed to have violated these conventions are not considered as Sustainable Investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Investment in use-of-proceeds bonds
Greenhouse gas (GHG) emissions	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Greenhouse gas (GHG) emissions	Limiting investments in issuers deemed to have negative externalities
GHG Intensity of Investee Companies	Investment in use-of-proceeds bonds
GHG Intensity of Investee Companies	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
GHG Intensity of Investee Companies	Limiting investments in issuers deemed to have negative externalities
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of “green bonds”, that are considered to comply with the International Capital Markets Association’s Green Bond Principles, from such issuers.
Energy consumption intensity per high impact climate sector	Enhanced exposure to investments that are deemed to have associated positive externalities compared to the Index
Energy consumption intensity per high impact climate sector	Limiting investments in issuers deemed to have negative externalities
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Exclusion of issuers deemed to have failed to comply with the 10 UN Global Compact Principles
Violations of UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Limiting investments in issuers deemed to have negative externalities
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as described above)

World Bond Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The taxonomy alignment percentage in the above diagram represents the percentage of investments held by the Fund in EU Taxonomy-aligned activities through Sustainable Investments with an environmental objective. It does not include the taxonomy alignment achieved through the Fund's other investments. For the taxonomy alignment of the Fund's total investments, see the bar chart below.

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	100.00%	100.00%	100.00%
#2 Other	0.00% ²	0.00% ¹	0.00% ¹
#1A Sustainable	21.76%	23.45%	25.60%
#1B Other E/S characteristics	78.24%	76.55%	74.40%
Taxonomy-aligned	0.26%	0.28%	0.00%
Other environmental	17.28%	18.73%	21.70%
Social	4.22%	4.45%	3.90%

¹During the reference periods ended 31 August 2023 and 31 August 2024, the net exposure to "Other" assets was -8.72% and -6.65% respectively, due to derivative positions held by the Fund.

²During the reference period ended 31 August 2025, the net exposure to "Other" assets was -6.66% due to derivative positions held by the Fund.

World Bond Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Treasuries	Treasuries	33.54%
Securitized	MBS Pass-Through	14.93%
Securitized	ABS	9.70%
Banking	Banking	8.25%
Securitized	CMO	6.35%
Securitized	CMBS	5.74%
Government Related	Sovereign	4.59%
Government Related	Supranational	2.42%
Government Related	Local Authority	2.33%
Government Related	Agency	1.66%
Technology	Technology	1.61%
Communications	Wirelines	1.55%
Electric	Electric	1.44%
Consumer Non-Cyclical	Pharmaceuticals	1.43%
Energy	Integrated	0.30%
Energy	Independent	0.10%
Energy	Refining	0.09%
Energy	Midstream	0.06%
Energy	Oil Field Services	0.02%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Barclays Industry Classification System): metals and mining.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

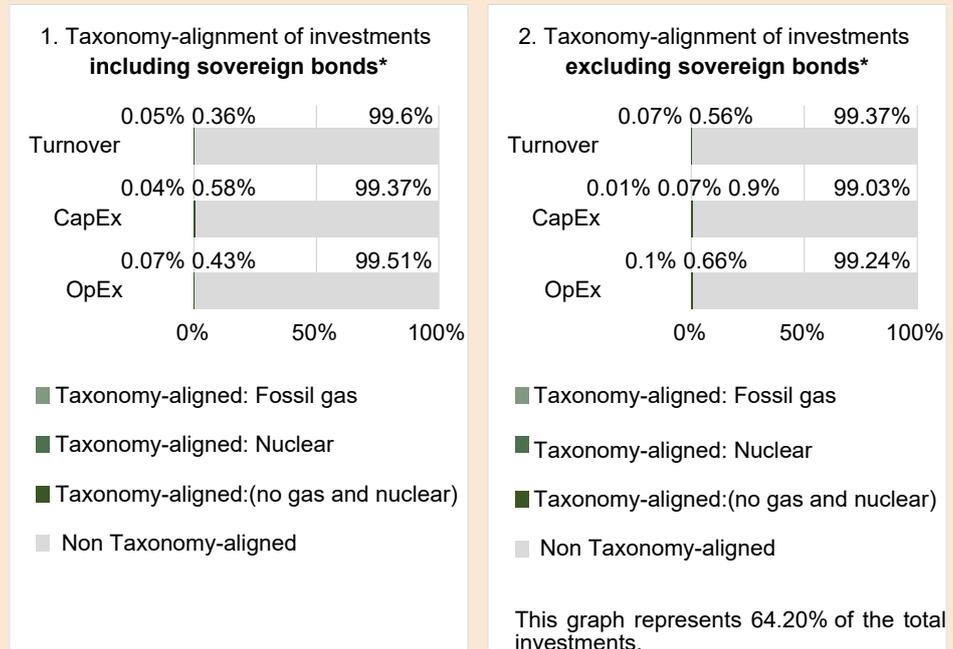

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.05%	0.04%	0.07%
Taxonomy-aligned: No gas and nuclear	0.36%	0.58%	0.43%
Non Taxonomy-aligned	99.60%	99.37%	99.51%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.01%	0.00%
Taxonomy-aligned: Nuclear	0.07%	0.07%	0.10%
Taxonomy-aligned: No gas and nuclear	0.56%	0.90%	0.66%
Non Taxonomy-aligned	99.37%	99.03%	99.24%

For the reference period, 35.80% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.40%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.01%
Enabling Activities	0.18%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.41%	0.31%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

For the reference period, 17.28% of the Fund's investments were classified as Sustainable Investments with an environmental objective not aligned with EU Taxonomy.

The Fund invested in Sustainable Investments that were not aligned with the EU Taxonomy for the following reasons: (i) it is part of the investment strategy of the Fund; (ii) data to determine EU Taxonomy-alignment was unavailable; and/or (iii) underlying economic activities were not eligible under the EU Taxonomy's available technical screening criteria or did not comply with all requirements set out in such technical screening criteria.

What was the share of socially sustainable investments?

For the reference period, 4.22% of the Fund's investments were classified as socially sustainable investments.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments and fixed income transferable securities (also known as debt securities) issued by governments and agencies worldwide however such holdings did not exceed 30%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Bond Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

World Financials Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
World Financials Fund

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

World Financials Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	97.28%	97.70%	98.02%
#2 Other	2.72%	2.30%	1.98%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Financials	Financial Services	50.23%
Financials	Banks	42.06%
Financials	Insurance	3.26%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

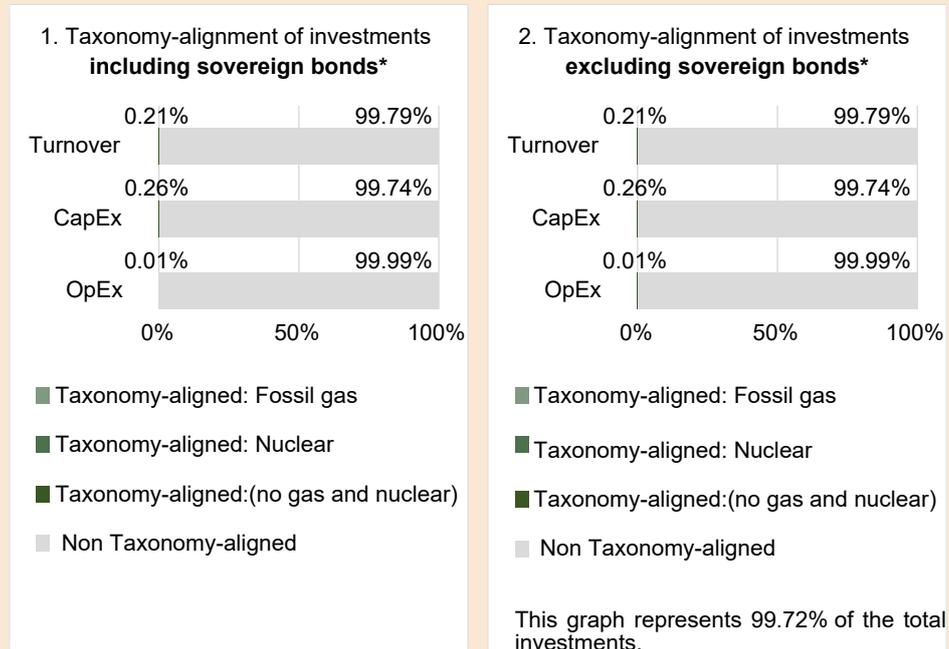

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.21%	0.26%	0.01%
Non Taxonomy-aligned	99.79%	99.74%	99.99%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.21%	0.26%	0.01%
Non Taxonomy-aligned	99.79%	99.74%	99.99%

For the reference period, 0.28% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.21%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.21%	0.14%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Financials Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

World Healthscience Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
World Healthscience Fund

Legal entity identifier:
549300OHN1ZT4WMEMU83

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes **No**

It made **sustainable investments with an environmental objective**: ___%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

World Healthscience Fund (continued)

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	97.91%	97.40%	97.99%
#2 Other	2.09%	2.60%	2.01%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Health Care	Pharma, Biotech & Life Sciences	59.12%
Health Care	Health Care Equipment & Services	38.72%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

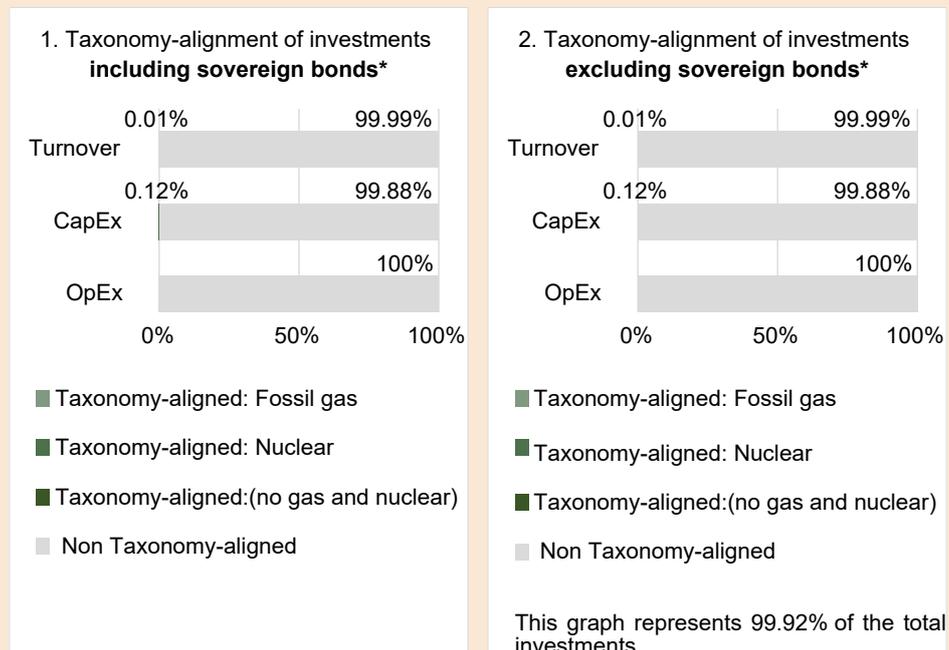

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.01%	0.12%	0.00%
Non Taxonomy-aligned	99.99%	99.88%	100.00%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	0.01%	0.12%	0.00%
Non Taxonomy-aligned	99.99%	99.88%	100.00%

For the reference period, 0.08% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	0.00%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	0.01%	0.23%	0.00%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Healthscience Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under “Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under “#2 Other” included derivatives, cash and near cash instruments however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging. No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

World Real Estate Securities Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
World Real Estate Securities Fund

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

Exclusion of issuers which produce tobacco products

Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)

Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds, that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products

Reduction in one-year average carbon footprint compared to the corresponding average carbon footprint, three-years prior

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the distribution (wholesale or retail) of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (as detailed above)	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear weapons or nuclear weapon components or delivery platforms, or the provision of auxiliary services related to nuclear weapons	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (as detailed above)	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds, that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	N/A ¹	N/A ¹
Exclusion of issuers which derive more than 5% of their revenue from the production, distribution, retail and supply of tobacco-related products	# of active breaches	No active breaches	N/A ¹	N/A ¹
Reduction in one-year average carbon footprint compared to the corresponding average carbon footprint, three-years prior	% reduction of carbon emissions intensity of the portfolio current year relative to three-years prior	20.50%	N/A ¹	N/A ¹

¹As this is the first reference period presented for the Fund, comparatives are not presented.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

● **...and compared to previous periods?**

As this is the first reference period that the periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 are effective, no comparatives are presented.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics (“E&S criteria”) set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund’s specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards (“RTS”).

Adverse Sustainability Indicator	Sustainability Indicators
Greenhouse gas (GHG) emissions	Reduction in one-year average carbon footprint compared to the corresponding average carbon footprint, three-years prior
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from the production and generation of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 5% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of green bonds, that are considered to comply with the International Capital Markets Association's Green Bond Principles, from such issuers
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anticorruption)
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)
Carbon footprint	Reduction in one-year average carbon footprint compared to the corresponding average carbon footprint, three-years prior
GHG intensity of investee companies	Reduction in one-year average carbon footprint compared to the corresponding average carbon footprint, three-years prior

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

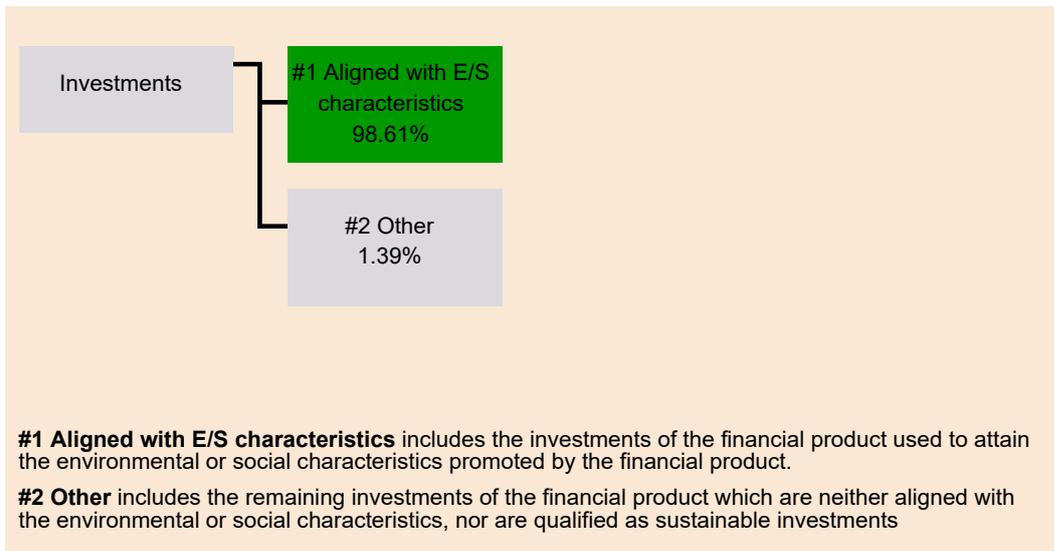

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.61%	N/A ¹	N/A ¹
#2 Other	1.39%	N/A ¹	N/A ¹

¹As this is the first reference period presented for the Fund, comparatives are not presented.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Real Estate	Equity Real Estate Investment Trusts (REITs)	83.36%
Real Estate	Real Estate Management & Development	13.06%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

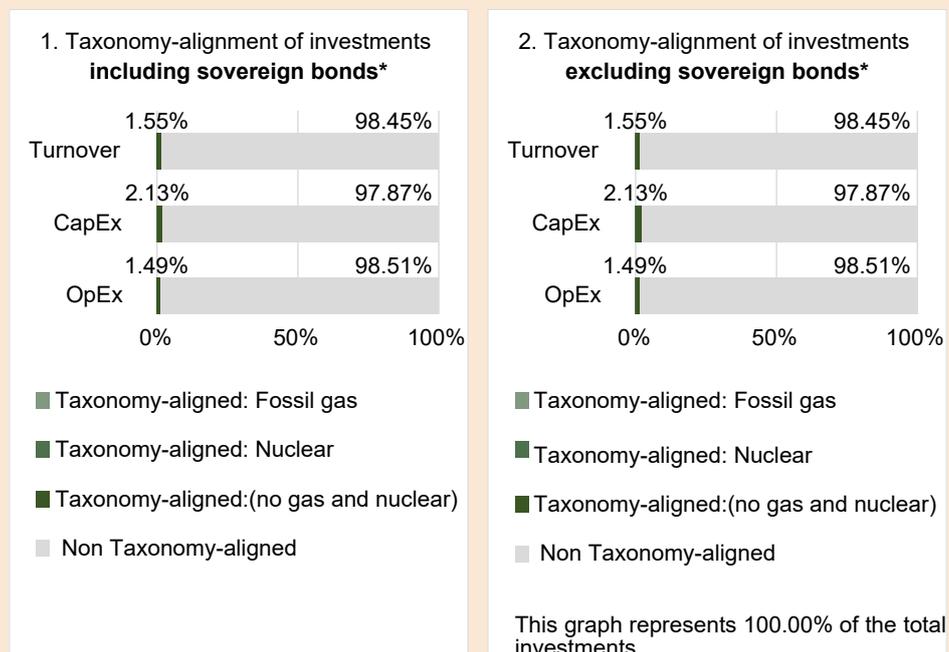

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

World Real Estate Securities Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.55%	2.13%	1.49%
Non Taxonomy-aligned	98.45%	97.87%	98.51%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.55%	2.13%	1.49%
Non Taxonomy-aligned	98.45%	97.87%	98.51%

For the reference period, 0.00% of the Fund's total investments were held in sovereign exposures.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.55%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.00%
Enabling Activities	0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

As this is the first reference period presented for the Fund, no comparatives are presented.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

Sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What was the share of socially sustainable investments?

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

What investments were included under "Other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "#2 Other" included derivatives, cash and near cash instruments, and fixed income transferable securities (also known as debt securities) issued by governments worldwide however such holdings did not exceed 20%. Such investments were used only for investment purposes in pursuit of the Fund's (non-ESG) investment objective, for the purposes of liquidity management and/or hedging.

No other investments held by the Fund were assessed against minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has implemented internal quality controls such as compliance rule coding to ensure compliance with the environmental and social characteristics promoted by the Fund. The Investment Adviser regularly reviews the environmental and social characteristics promoted by the Fund to ensure they are still appropriate relative to the Fund's investment universe.

Where issuers are identified as potentially having issues with regards to good governance, the issuers are reviewed to ensure that, where the Investment Adviser agrees with this external assessment, the Investment Adviser is satisfied that the issuer has either taken remediation actions or will take remedial actions within a reasonable time frame based on the Investment Adviser's direct engagement with the issuer. The Investment Adviser may also decide to reduce exposure to such issuers.

The Investment Adviser is also subject to the shareholder engagement requirements of the Shareholders Rights Directive II (SRD) requirements. The SRD aims to strengthen the position of shareholders, enhance transparency and reduce excessive risk within companies traded on regulated EU marketplaces. Further details regarding the Investment Adviser's activities under the SRD are available on BlackRock's website.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Real Estate Securities Fund (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

For the reference period, an index has not been designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund, therefore this section is not applicable.

● How does the reference benchmark differ from a broad market index?

Not applicable.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

● How did this financial product perform compared with the reference benchmark?

Not applicable.

● How did this financial product perform compared with the broad market index?

Not applicable.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

World Technology Fund

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
World Technology Fund

Legal entity identifier:
5493007T8WWG2QURHU23

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

 No

<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following table lists the environmental and social characteristics which were promoted by the Fund throughout the reference period. Further information on these environmental and social characteristics is outlined in the Fund's prospectus. Please refer to the section below, "How did the sustainability indicators perform?", which provides information about the extent that the Fund met such environmental and social characteristics.

Environmental and social characteristics promoted by the Fund

The Fund uses BlackRock's EMEA Baseline Screens with Fundamental Insights Methodology. The Fund may invest to a limited extent in issuers with exposure to nuclear weapons, fossil fuels, tobacco and civilian firearms. The basis for these investments is that the issuers are in "in transition" and focused on meeting sustainability criteria. However, issuers that do not meet the below screening criteria are excluded from investment:

Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads

Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of "green bonds", that are considered to comply with the International Capital Markets Association's Green Bond Principles

Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)

Exclusion of issuers which produce tobacco products

Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products

Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians

Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use

Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

● How did the sustainability indicators perform?

The following table provides information about the performance of the sustainability indicators used to measure the attainment of each of the environmental and social characteristics promoted by the Fund, as further detailed in the Fund's prospectus.

Sustainability Indicator	Metric	2025	2024	2023
Exclusion of issuers which produce tobacco products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers domiciled in the United States which produce firearms and/or small arms ammunition intended for retail to civilians	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the production or retail distribution of firearms and/or small arms ammunition intended for civilian use	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving any revenue from direct involvement in the production of nuclear warheads	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which derive more than 5% of their revenue from the wholesale distribution and supply of tobacco related products	# of active breaches	No active breaches	No active breaches	No active breaches
Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological-chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)	# of active breaches	No active breaches	No active breaches	No active breaches

● ...and compared to previous periods?

The above table provides information about the performance of the sustainability indicators for the previous reference periods (see section "How did the sustainability indicators perform?").

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

- **How were the indicators for adverse impacts on sustainability factors taken into account?**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio. Please refer to the section below, "How did this financial product consider principal adverse impacts on sustainability factors?", which describes how the Fund considered PAIs on sustainability factors.

- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

This section is not applicable for this Fund as it did not commit to holding Sustainable Investments during the reference period, however, certain Sustainable Investments may form part of the Fund's investment portfolio.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

How did this financial product consider principal adverse impacts on sustainability factors?

The following table provides information about the impact of the principal adverse sustainability indicators taken into consideration by this Fund. The Fund considered the impact of the principal adverse sustainability indicators through the promotion of environmental and social characteristics ("E&S criteria") set out above (see To what extent were the environmental and/or social characteristics promoted by this financial product met?). The Investment Adviser has determined that these PAIs have been considered as part of the investment selection criteria. The Fund's specific sustainability indicator may not align with the full scope of the regulatory definition of the corresponding PAI outlined in Annex 1 supplementing Regulation (EU) 2019/2088 Regulatory Technical Standards ("RTS").

Adverse Sustainability Indicator	Sustainability Indicators
Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Exclusion of issuers which have been deemed to have failed to comply with UN Global Compact Principles (which cover human rights, labour standards, the environment and anti-corruption)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from the production of tar sands (also known as oil sands)
Exposure to companies active in the fossil fuel sector	Exclusion of issuers deriving more than 25% of their revenue from thermal coal extraction and/or thermal coal-based power generation, with the exception of 'green bonds', that are considered to comply with the International Capital Markets Association's Green Bond Principles
Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)	Exclusion of issuers which are engaged in, or are otherwise exposed to, the production of controversial weapons (including, but not limited to, cluster munitions, biological chemical, landmines, depleted uranium, blinding laser, non-detectable fragments and/or incendiary weapons)

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: From 1 September 2024 to 31 August 2025.

Largest investments	Sector	% Assets	Country
Nvidia Corp	Information Technology	9.63%	United States
Microsoft Corp	Information Technology	8.40%	United States
Apple Inc	Information Technology	7.00%	United States
Broadcom Inc	Information Technology	6.82%	United States
Meta Platforms Inc Class A	Communication	4.62%	United States
Oracle Corp	Information Technology	3.23%	United States
Amazon Com Inc	Consumer Discretionary	2.75%	United States
Cadence Design Systems Inc	Information Technology	2.60%	United States
Taiwan Semiconductor Manufacturing	Information Technology	2.31%	Taiwan (Republic of China)
Snowflake Inc	Information Technology	2.18%	United States
Spotify Technology Sa	Communication	1.92%	Luxembourg
Mastercard Inc Class A	Financials	1.82%	United States
Servicenow Inc	Information Technology	1.76%	United States
Alphabet Inc Class A	Communication	1.72%	United States
Sap	Information Technology	1.72%	Germany

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

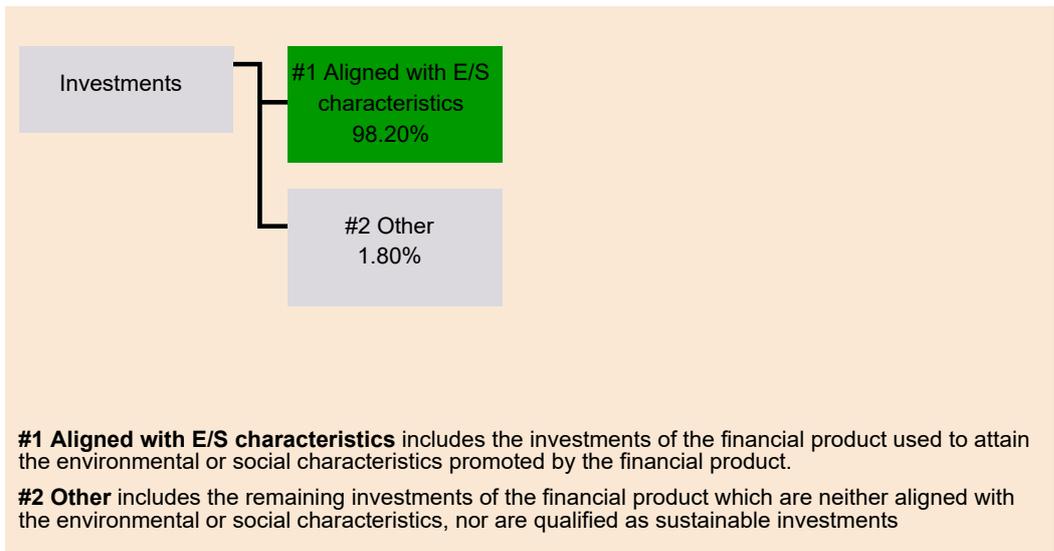

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

For the reference period, the proportion of sustainability-related investments is shown in the graph below.

What was the asset allocation?

The Fund did not commit to holding Sustainable Investments and therefore the Fund's exposure to Sustainable Investments has not been assessed, however, during the reference period, a percentage of the Fund's investments were aligned with the EU Taxonomy (see the section "To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?" below).

The following table details the asset allocation of the Fund for the current and the previous reference periods.

Asset allocation	% of Investments		
	2025	2024	2023
#1 Aligned with E/S characteristics	98.20%	97.84%	97.31%
#2 Other	1.80%	2.16%	2.69%

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

● In which economic sectors were the investments made?

The following table details the economic sectors representing 1% or more of investments held that the Fund was exposed to during the reference period.

Sector	Sub-Sector	% of Investments
Information Technology	Software & Services	34.70%
Information Technology	Semiconductors & Semiconductor Equipment	26.08%
Communication	Media & Entertainment	11.53%
Information Technology	Tech Hardware & Equipment	10.04%
Consumer Discretionary	Consumer Discretionary Distribution & Retail	4.74%
Financials	Financial Services	3.92%
Industrials	Commercial & Professional Services	2.44%
Industrials	Capital Goods	1.91%
Consumer Discretionary	Autos & Components	1.46%

During the reference period, none of the Fund's investments were held in the following sub-sectors (as defined by the Global Industry Classification System): integrated oil and gas, oil and gas exploration and production, oil and gas drilling, oil and gas storage and transportation, oil and gas refining and marketing, oil and gas equipment and services or coal and consumable fuels.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, the Fund's investment alignment with EU Taxonomy is shown in the graphs below.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

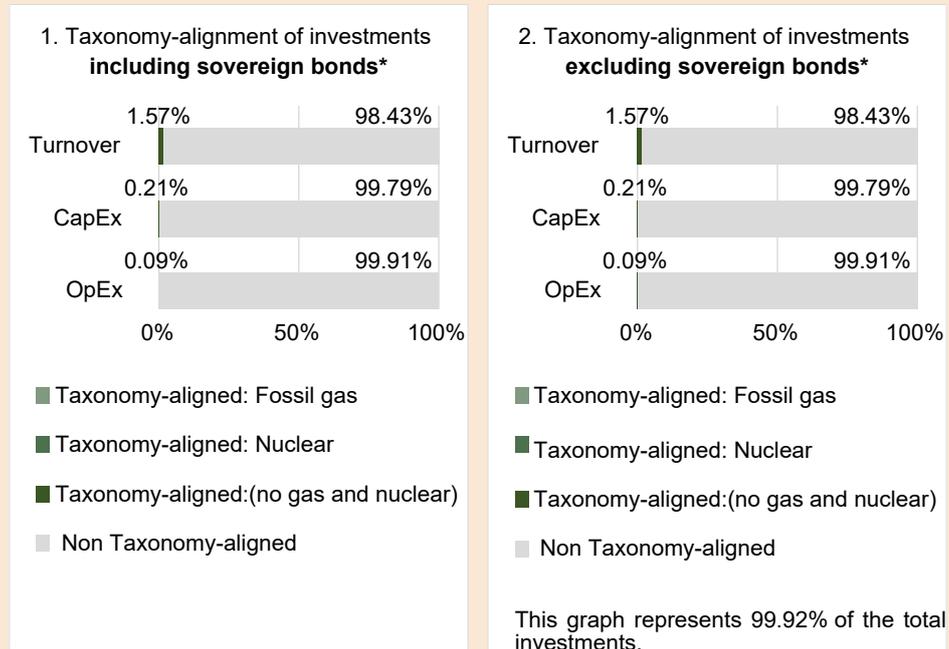

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Appendix IV – Supplementary Information (Unaudited) continued

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852 (continued)

World Technology Fund (continued)

Taxonomy Alignment (including sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.57%	0.21%	0.09%
Non Taxonomy-aligned	98.43%	99.79%	99.91%

Taxonomy Alignment (excluding sovereign bonds)	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0.00%	0.00%	0.00%
Taxonomy-aligned: Nuclear	0.00%	0.00%	0.00%
Taxonomy-aligned: No gas and nuclear	1.57%	0.21%	0.09%
Non Taxonomy-aligned	98.43%	99.79%	99.91%

For the reference period, 0.08% of the Fund's total investments were held in sovereign exposures. Taxonomy alignment of these exposures could not be determined due to limited data availability.

The investments held by the Fund during the reference period contributed to the following EU Taxonomy environmental objectives:

Environmental objectives	% of Investments
Climate Change Mitigation	1.57%
Climate Change Adaptation	0.00%

The data presented in the table above was not subject to an assurance provided by the Fund's auditor or a review by a third party. The assessment of EU Taxonomy alignment is based on data from a third-party vendor. The source of this data is a combination of equivalent and reported data. Equivalent data that matches the technical criteria under EU Taxonomy generates an eligibility or alignment result for those companies for which we do not have reported data.

● What was the share of investments made in transitional and enabling activities?

For the reference period, the Fund's investments in transitional and enabling activities were as follows:

	% of Investments
Transitional Activities	0.04%
Enabling Activities	1.43%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The following table details the percentage of investments that were aligned with the EU Taxonomy for the current and previous reference periods.

	% of Investments		
	2025	2024	2023
EU Taxonomy Aligned	1.57%	0.38%	0.00%
