WHAT IS THIS PRODUCT?

TYPE

This Sub-Fund is a UCITS according to European Directive 2009/65/EC.

TERM

The Sub-Fund has been set-up for an indefinite period of time. In accordance with the Sub-Fund's rules, the assets belonging to the Sub-Fund are owned jointly by the Sub-Fund's shareholders. A general meeting of the Sub-Fund's shareholders may terminate the Sub-Fund's management according to the Sub-Fund's rules. In this case, the Sub-Fund's appointed depository will either entrust the Sub-Fund's management to another management company or the Sub-Fund's appointed depository will liquidate the Sub-Fund and distribute the proceeds to the Sub-Fund's shareholders.

OBJECTIVES

Long-term capital growth above the average-term return in Euro (EUR) terms by investing in Debt Securities with Euro Exposure of Eurozone Bond Markets in accordance with E/S characteristics.

Sub-Fund assets are invested in accordance with E/S characteristics. Min. 51% of Sub-Fund assets are invested in bonds of the Eurozone Bond Markets as described in the investment objective. Min. 51% of Sub-Fund assets are denominated in EUR. Max. 49% of Sub-Fund assets may be invested in bonds other than described in the investment objective. Max. 10% of Sub-Fund assets may be invested in High-Yield bonds (excluding ABS/MBS) bearing a typically higher risk and higher potential of gains. All bonds and money market instruments must have at the time of acquisition a rating of at least B- or a comparable rating from a recognised rating agency. Max. 10% of Sub-Fund assets may be invested in ABS and/or MBS with a rating of at least BBB-. Max. 10% of Sub-Fund assets may be invested in UCITS/UCI. Max. 100% Sub-Fund assets may be invested in Money Market Instruments and/or (up to 10% of Sub-Fund assets) in money market funds and/or held in time deposits and/or (up to 20% of Sub-Fund assets) in deposits at sight on a temporary basis for liquidity management and/or defensive purposes. The Sub-Fund promotes environmental and social characteristics (E/S characteristics) with simultaneous application of certain minimum exclusion

criteria for direct investments. Sub-Fund's pre-contractual template describes all relevant information about the E/S characteristics' scope, details, and requirements and applied exclusion criteria.

Min. 70% of Sub-Fund's portfolio shall be evaluated by an internal score. The score starts at 0 (lowest) and ends at 4 (highest). The basis for the calculation of the 70% threshold is the Sub-Fund's net asset value except instruments that are not scored by nature, e.g., cash and deposits. The score is based on environmental, social, governance and business behaviour factors (business behaviour does not apply to sovereign issuers) and represents an internal assessment assigned to a corporate or sovereign issuer by us. With respect to scored issuers, only securities of an issuer with an internal score of 1 or more will be acquired. Min. 5.00% of Sub-Fund assets will be invested in Sustainable Investments. The minimum percentage of investments that are aligned with the EU Taxonomy is 0.01%.

We follow an active management approach with the aim to outperform the Benchmark. In selecting and weighting the Sub-Fund's assets we do not replicate or reproduce the Benchmark. Sub-Fund assets therefore deviate significantly from the Benchmark.

Benchmark: EURIBOR 3-Month (in EUR).

You may redeem shares of the Sub-Fund usually on each business day. We usually distribute the income of the Sub-Fund on a yearly basis. Derivatives may be used to offset exposure to price fluctuations (hedging), to take advantage of price differences between two or more markets (arbitrage) or to multiply gains although it may also multiply losses (leverage).

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The risk indicator assumes you keep the Sub-Fund for 12 months. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this Sub-Fund compared to other products. It shows how likely it is that the Sub-Fund will lose money because of movements in the markets or because we are not able to pay you. We have classified this Sub-Fund as 2 out of 7, which is a low risk class on the basis of the PRIIPs regulation. This rates the potential losses from

future performance at low level, and poor market conditions are very unlikely to impact our capacity to pay you. The categorisation of the Sub-Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI: Unusual market conditions or large unpredictable events can amplify this Sub-Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

Therefore, neither an insolvency of the management company nor of the Sub-

Fund's appointed depository will result in an investor losing money in the Sub-Fund.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 12 months

Due to its investment strategy, the Sub-Fund's value may vary considerably over the short time. You should therefore stay invested for at least 12 months to profit from gains on the longer term. If you disinvest earlier, there is a higher risk that you might get back only poor returns, or not even the sum you invested. The Sub-Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Sub-Fund you will pay the exit fees only. However, the Company may suspend the issue and redemption of shares if

exceptional circumstances make this appear necessary in the interests of investors, or restrict redemptions if investors' redemption requests reach a predetermined threshold above which redemption requests can no longer be executed in the interests of investors as a whole. In order to manage liquidity risks, the Company may use procedures whereby the costs incurred by subscriptions or redemptions (e.g., transaction costs) are allocated to investors on a cost-allocation basis, thereby reducing the risk of dilution for the investors remaining in the sub-fund. The Company may spin off illiquid investments in the sub-fund portfolio in the interests of investors. The detailed redemption procedure for shares of the Sub-Fund is described in the prospectus.
