## Roles and Responsibilities of the Board

The responsibilities of the Board is governed by the Luxembourg law. With respect to the annual accounts of the Franklin Templeton Investment Funds (“FTIF” or the “Company”), the duties of the Directors are governed by the law of December 10, 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of December 17, 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Company and Franklin Templeton International Services S.à r.l. (the “Management Company”) sets out the matters over which the Management Company has authority under chapter 15 of the law December 17, 2010. This includes the investment management of the assets of the Company, the administration of the Company and the implementation of the Company’s distribution and marketing policies.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting, as well as for any additional meeting where this could be relevant, the Board receives reports from, among the other contributors, the Management Company and the investment managers, as appropriate. Senior representatives for each function attend the Board meetings by invitation to enable the Directors to question the reports presented to them.

The Board has organized two sub-committees composed of Board members to enhance the level of governance and allow a more thorough and efficient review of the relevant materials and information.

The Board Operations, Valuation and Audit Committee (“BOVAC”) chaired by Ms. Lagrange is convened quarterly in conjunction with the meetings of the Board of the Directors of the Company. It receives materials, updates and insights from relevant internal and external functions, approves matters within its competences, and recommends approvals to the full Board of Directors where necessary. It reports back to the full Board of Directors at the quarterly full Board of Directors’ meeting.

## Report of the Board of Directors (continued)

The Board Product Approval Committee ("BPAC") chaired by Mr. Tyle is focused on matters relevant, or impacting shareholders, from a product standpoint. It is convened on an ad-hoc basis, it receives materials from internal and external relevant functions to instruct its decisions. It may approve matters within its competences and recommend approvals to the full Board of Directors where necessary. It reports back to the full Board of Directors at the next opportunity.

The Directors take decisions in the interest of the Company and its Shareholders, as a whole, and refrain from taking part in any deliberation or decision which may create a conflict of interest between their personal interests and those of the Company and its Shareholders.

The Prospectus and the Management Company's policy on conflict of interest provide further details in this respect. the Management Company's policy on conflict of interest is available at the following link:

International Conflict of Interest Policy Overview<sup>1</sup>

The Board and its members can take independent professional advice at the Company's expenses, where considered necessary.

## THE FUND

At June 30, 2025 Franklin Templeton Investment Funds ("FTIF", or the "Company") had assets under management of USD 78.65 billion, up from USD 69.13 billion a year earlier.

The financial year was marked by the continued expansion of the range and depth of the Company's offer, as detailed below. For more information on these events, please refer to Note 1.

### Corporate Governance and ALFI Code of Conduct

The Board is responsible for monitoring that a high level of corporate governance is met and considers that the Company is committed to comply with the best practises and standards of the Luxembourg fund industry.

In that sense, the Board has adopted the ALFI Code of Conduct (the "Code"), which provides principles of good practice.

The Code is available at the following link:

ALFI Code of Conduct<sup>2</sup>

The Board confirms that in the course of the financial year in scope the Company has adhered to the principles of the Code and followed the recommendations provided therein.

The Board has actioned the improvements that were deemed appropriate as a result of the recurring annual review performed to ensure ongoing compliance with the Code.

### Environmental Social Governance ("ESG")

In accordance with Article 11(1) of Regulation (EU) 2019/2088, for financial products promoting environmental or social characteristics or having sustainable investments as their objective, the information on the environmental or social characteristics or sustainable investment is provided in the Additional Information section of the annual report.

### Final Considerations

Thank you for investing with Franklin Templeton. Please be advised that the prospectus, the Key Information Documents ("KIDs") or Key Investor Information Documents ("KIIDs") and all Funds and share classes of FTIF may not be available in your jurisdiction.

If you have any queries, comments or suggestions about your investments with us please contact your financial adviser or your local Franklin Templeton office using the contact details on the last page of the report.

## Report of the Board of Directors (continued)

### **Subsequent Events**

Please refer to Note 31 for details of subsequent events after the year-end.

**THE BOARD OF DIRECTORS**

Luxembourg, July 2025

## Report of the Investment Managers

### Year to June 30, 2025

Global equities advanced during the 12 months ended 30 June 2025, despite episodes of significant volatility. Investors were generally optimistic about a soft landing for the global economy, supported by resilient growth in certain regions and monetary easing by major central banks, including the US Federal Reserve (Fed), the European Central Bank (ECB), the Bank of England (BoE) and the People's Bank of China. The Bank of Japan was an outlier, raising its benchmark rate several times during the 12-month period. Donald Trump's US presidential victory in November 2024 and potential expansionary fiscal policies boosted US equities during the fourth quarter, though concerns about his tariff plans affected global trade sentiment. During the first few months of 2025, global equities were pressured by concerns about US economic growth and trade policies. In early April, Trump's announcement of severe "reciprocal" US tariffs rattled equity markets around the world, though delayed tariff hikes later eased recession fears and led to a global equity market rally. The Israel-Iran conflict in June had minimal impact on global markets. On the economic front, global manufacturing activity showed mixed results, growing in some months and contracting in others, but ultimately ending the 12-month period in expansion territory. Global services activity consistently expanded during the period. In this environment, the MSCI All Country World Index of stocks posted a positive return in US-dollar terms for the 12 months under review. As measured by MSCI indexes in US-dollar terms, developed market equities slightly outpaced the global index and frontier market stocks significantly outperformed it, while emerging market equities modestly trailed it. In terms of investment style, growth stocks modestly outpaced their value counterparts during the 12-month period.

In Europe, stocks collectively advanced for the 12-month period, overcoming the decline seen during the second half of 2024 due to concerns about the economic outlook, earnings warnings, political turmoil in Germany and France, and Trump's tariff threats. European stocks gained strongly during the first quarter of 2025 amid signs of economic improvement, interest-rate cuts by the ECB and BoE, and optimism about a potential Russia-Ukraine ceasefire. Better-than-expected corporate earnings and increased fiscal budgets, notably in Germany, further supported sentiment. In early April, Trump's tariff announcements drove stocks lower, but they rallied as trade tensions eased. Progress in the trade negotiations between the United States and the European Union, along with a US-China tariff truce, boosted investor confidence. The eurozone's gross domestic product (GDP) grew in the first quarter of 2025 at the fastest sequential rate since the third quarter of 2022. Manufacturing activity in the currency bloc contracted during the 12-month period despite improving in the first half of 2025, while services activity expanded during most of the period. The ECB eased its monetary policy throughout the period, reducing the refinancing rate by 210 basis points (bps) to 2.15%. In the United Kingdom, GDP stalled in the third quarter of 2024 but grew sequentially in the following two quarters. The country's manufacturing activity contracted in June for nine consecutive months, while its services activity expanded during most of the 12-month period. The BoE lowered its key rate by 100 bps over four cuts to 4.25%.

US stocks collectively rose during the 12-month period, with major indexes reaching new record highs multiple times despite bouts of heightened volatility. Trump's presidential victory and the Republican Party's success in gaining a congressional majority led to optimism about a market-friendly administration. Consequently, US stocks rose significantly post-election in early November and through mid-December 2024, but gains were pared amid concerns about tariffs, trade relationships and inflation. During the first quarter of 2025, US stocks experienced substantial volatility amid worries about Trump's tariff policies and their impact on economic growth, inflation and the Fed's interest-rate path, along with concerns about a Chinese company's new artificial intelligence (AI) model. Trump's early-April "Liberation Day" announcement of significantly higher-than-expected tariffs on goods imported from nearly all countries led to fears of a recession and caused stocks to plunge. However, delays in tariff hikes, reduced recession fears, expectations of interest-rate cuts, easing geopolitical tensions and stronger-than-expected corporate earnings drove stocks higher, with the S&P 500 Index and the Nasdaq Composite Index ending the period at new record highs and the Dow Jones Industrial Average hovering near its all-time high. The Fed began lowering the federal funds target rate in September 2024 by 50 bps and followed up with two 25-bp cuts in November and December, down to a range of 4.25%–4.50%, but paused during the first half of 2025 as policymakers continued to monitor and evaluate the potential impact of tariff, immigration and tax policies. Annual inflation, as measured by the core personal consumption expenditures price index—which excludes food and energy prices and is the Fed's preferred gauge—cooled in April to the lowest level in more than four years but accelerated in May, remaining above the Fed's 2% long-run target. The country's GDP contracted in the first quarter of 2025 for the first time in three years, due largely to a significant rise in imports (which are a subtraction in the GDP calculation). Manufacturing activity contracted during most of the 12-month period, expanding only in January and February 2025 before contracting for four consecutive months. Meanwhile, except for a contraction in May, services activity expanded during most of the period.

In credit markets, sovereign bond yields were mixed over the period. The 10-year US Treasury note's yield fell 17 bps over the 12-month period to 4.23%. This was despite yields having increased between June and December 2024; some pullback in growth expectations for the United States may have supported the more recent move, which took place despite the Fed keeping rates on hold. However, eurozone government bond yields rose, including the yield on 10-year German Bunds, which ended the period 11 bps higher at 2.61%. This also contrasts to the second half of 2024, when eurozone yields fell. Much of the increase in European yields occurred after the announcement of expanded defence spending under the "ReArm Europe" Plan in March 2025, which raised some concern about fiscal expansion. The 10-year Japanese government bond yield ended June 2025 at 1.43%, 38 bps above its year-ago level, due to tighter monetary policy and a reduction of government support for bonds. Other developed market yields were mixed, as were emerging market yields, though most Asian yields fell within the latter group.

The global commodity complex posted a modest collective gain for the 12-month period, driven partly by strong price increases in natural gas, gold, silver, platinum and palladium, countered by significant declines in oil, iron ore, soybeans and sugar. The US dollar was a mild headwind during the second half of 2024 as it appreciated against a basket of its major currency counterparts, which made dollar-denominated commodities more expensive for most non-US buyers. However, the US dollar's weakness during the first half of 2025 bolstered dollar-denominated commodity prices. While precious metals and select industrial metals generally performed well during the 12-month period, oil and agricultural commodities were pressured by oversupply and concerns about weakening demand. Anticipated monetary policy easing and recovering industrial activity in some parts of the world bolstered metals in the latter part of the period, but ongoing trade tensions, geopolitical conflicts (including Iran and Israel) and supply surpluses continued to pose risks to energy and food commodities.

As we enter the second half of 2025, leading economic indicators have strengthened, suggesting resilient global growth, although some hard data has begun to weaken at the margins. Volatile US trade policy continues to fuel uncertainty, curtailing optimism towards equities despite our more positive outlook. In broad terms, we think that earnings growth expectations do not fully account for first- or second-order tariff effects, though we recognise the potential for growth in key areas such as AI. In fixed income, an improvement in some leading growth indicators offers support to credit, but we think spreads look tight enough to be considered "priced for perfection." Credit stress has marginally increased alongside higher borrowing costs, while bank lending standards have tightened in unison with tariff and inflation uncertainty. A recent uptick in geopolitical tensions could also impact inflation through higher energy prices, increasing interest-rate volatility.

## THE INVESTMENT MANAGERS

July, 2025

## **Audit report**

To the Shareholders of  
**FRANKLIN TEMPLETON INVESTMENT FUNDS**

---

### **Our opinion**

In our opinion, the accompanying financial statements give a true and fair view of the financial position of FRANKLIN TEMPLETON INVESTMENT FUNDS (the "Fund") and of each of its sub-funds as at 30 June 2025, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund's financial statements comprise:

- the statement of net assets as at 30 June 2025;
- the statement of operations and changes in net assets for the year then ended;
- the schedule of investments as at 30 June 2025; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### **Basis for opinion**

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### **Other information**

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

---

*PricewaterhouseCoopers Assurance, Société coopérative, 2 rue Gerhard Mercator, L-2182 Luxembourg  
T : +352 494848 1, F : +352 494848 2900, [www.pwc.lu](http://www.pwc.lu)*

*Cabinet de révision agréé. Expert-comptable (autorisation ministérielle n°10181659)  
R.C.S. Luxembourg B294273 - TVA LU36559370*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

**Responsibilities of the Board of Directors for the financial statements**

The Board of Directors is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

---

**Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;

- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Templeton European Opportunities Fund, Templeton European Improvers Fund and Templeton European Small-Mid Cap Fund, where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

\*Please refer to Note 1 for fund events.

The performance is based on the net asset values as calculated on the last business day of the year. Those net asset values reflect the market prices of the investments as of the last business day of the year. The performance is based on the change of the net asset value per share.

The Fund Performance disclosed in this table is the performance of the reference share class in base currency of the Fund.

Where Class A distribution "A (dis)" Shares are disclosed, the performance is calculated with all the income reinvested (total return). Information on other share classes is available on request.

<sup>□</sup> Unaudited figures.

<sup>1</sup> The launch date is for the Fund, however the reference share class launched at a later date.

<sup>2</sup> Fund performance prior to September 1996 excluded from calculation because a different portfolio allocation strategy was in use.

Information on other share classes is available on request. This report shall not constitute an offer or a solicitation of an offer to buy shares. Subscriptions are to be made on the basis of the current prospectus, where available the relevant Key Information Documents ("KIDs") or Key Investor Information Documents ("KIIDs"), a copy of the latest available audited annual report and, if published thereafter, the latest unaudited semi-annual report. The price of shares and income from them can go down as well as up and you may not get back the full amount that you invested. Past performance is no guarantee of future performance. Currency fluctuations may affect the value of investments.

# Notes to Financial Statements

## For the year ended June 30, 2025

### Note 1 - The Company

Franklin Templeton Investment Funds ("FTIF" or the "Company") is a collective investment undertaking pursuant to Part I of the amended Luxembourg law of December 17, 2010 on undertakings for collective investment and qualifies as a société d'investissement à capital variable. The Company was incorporated in Luxembourg on November 6, 1990, for an undetermined period. At the date of this report, it offers shares in 82 sub-funds of the Company (the "Funds"). The Board of Directors of the Company may authorise the creation of additional Funds in future with different investment objectives.

The Company aims to provide investors with a choice of Funds investing in a wide range of transferable securities and other eligible assets on a worldwide basis and featuring a diverse array of investment objectives, including capital growth and income. The overall objective of the Company is to seek to minimise investment exposure through diversification and to provide Shareholders with the benefit of a portfolio managed by Franklin Templeton, according to its successful time-tested investment selection methods.

### Fund Launches

Franklin Saudi Arabia Bond Fund launched on October 28, 2024.

Templeton Emerging Markets ex-China Fund launched on October 22, 2024.

### Fund Closures

Franklin Emerging Market Sovereign Debt Hard Currency Fund was put into liquidation effective April 15, 2024 and closed with a final NAV on April 29, 2024. The remaining amount of cash at bank is USD 55,767 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin European Income Fund was put into liquidation effective November 6, 2020 and closed with a final NAV on November 13, 2020. The remaining amount of cash at bank is EUR 7,578 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin Global Aggregate Bond Fund was put into liquidation effective January 15, 2024 and closed with a final NAV on January 25, 2024. The remaining amount of cash at bank is USD 31,780 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin Global Small-Mid Cap Fund was put into liquidation effective January 11, 2021 and closed with a final NAV on January 18, 2021. The remaining amount of cash at bank is USD 235,052 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin K2 Long Short Credit Fund was put into liquidation effective April 30, 2021 and closed with a final NAV on May 14, 2021. The remaining amount of cash at bank is USD 116,961 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin NextStep Dynamic Growth Fund was put into liquidation effective November 27, 2023 and closed with a final NAV on December 5, 2023. The remaining amount of cash at bank is USD 2,273 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

Franklin NextStep Stable Growth Fund was put into liquidation effective November 27, 2023 and closed with a final NAV on December 5, 2023. The remaining amount of cash at bank is USD 4,931 as at June 30, 2025. The management company is monitoring the cash which will be used to cover costs linked to liquidation.

As of June 30, 2025, the above cash balances are still open and there is no Shareholder in the Funds. The cash accounts will be closed as soon as all invoices are paid. In case of remaining cash, the amount will be distributed to Shareholders that were still invested at closure.

### Fund Merger

Franklin NextStep Balanced Growth Fund was merged into Franklin NextStep Moderate Fund on August 16, 2024.

## Note 1 - The Company (continued)

- Franklin European Total Return Fund: Share class was renamed from S (acc) EUR to P2 (acc) EUR.
- Franklin European Total Return Fund: Share class was renamed from S (Ydis) EUR to P2 (Ydis) EUR.

## Note 2 - Significant accounting policies

### (a) General

The financial statements are prepared in accordance with the regulations of the Grand Duchy of Luxembourg relating to investment funds under the going concern basis of accounting with the exception of Templeton European Opportunities Fund and Templeton European Improvers Fund which are scheduled to merge effective October 24, 2025 and Templeton European Small-Mid Cap Fund which is scheduled to merge effective January 16, 2026. Hence the financial statements for these sub-funds have been prepared on a liquidation basis. The application of the non-going concern basis of accounting has not led to material adjustments to the sub-funds published net asset value.

## **Note 2 - Significant accounting policies (continued)**

### **(b) Investment in securities**

Securities which are listed on a stock exchange or traded on any other organised market are valued at the last available price on such exchange or market which is normally the principal market for each security, and those securities dealt in on an over-the-counter market are valued in a manner as near as possible to that for quoted securities.

Securities not listed on any stock exchange nor traded on any organised market are valued at the last available price, or if such price is not representative of their fair value, they are valued prudently and in good faith on the basis of their reasonably foreseeable sales prices.

In accordance with the provisions of the current prospectus, Market Level Fair Valuation may be implemented to protect the interests of the Company's shareholders against market timing practices, as market timers may seek to exploit possible delays between the change in the value of a Fund's portfolio holdings and the Net Asset Value of the Fund's Shares in Funds that hold significant investments in foreign securities because certain foreign markets close several hours ahead of the US markets, and in Funds that hold significant investments in small-cap securities, high-yield (junk) bonds and other types of investments which may not be frequently traded.

The Company's directors are using several methods to reduce the risk of market timing. As at June 30, 2025, a Market Level Fair Valuation was applied to the following Funds:

Franklin Alternative Strategies Fund  
Franklin Biotechnology Discovery Fund  
Franklin Disruptive Commerce Fund  
Franklin Diversified Balanced Fund  
Franklin Diversified Conservative Fund  
Franklin Diversified Dynamic Fund  
Franklin Emerging Market Corporate Debt Fund  
Franklin Emerging Markets Debt Opportunities Hard Currency Fund

Templeton Global Climate Change Fund  
Templeton Global Fund  
Templeton Global High Yield Fund  
Templeton Global Income Fund  
Templeton Global Leaders Fund  
Templeton Global Smaller Companies Fund  
Templeton Growth (Euro) Fund  
Templeton Japan Fund

The Company has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. In such circumstances, the price of such investment shall be adjusted in accordance with the procedures adopted, as determined by or under the direction of the Board of Directors.

During the accounting year under review, gains and losses on investment securities sold were computed on the average cost basis for all Funds with the exception of the Franklin High Yield Fund, the Franklin Income Fund, the Franklin U.S. Government Fund, the Templeton Asian Bond Fund and the Templeton BRIC Fund which were computed on the first-in, first-out basis.

During the accounting year under review, discounts and premiums were amortised to income over the year to maturity.

For mortgage-backed and other similar holdings with scheduled debt paydowns, the funds record accruals, based on their historical experience, for anticipated paydowns. Such accruals are recorded as a reduction or increase to the related holdings as disclosed on the Schedule of Investments and are included in the related unrealised appreciation/depreciation on investments shown on the "Statement of Operations and Changes in Net Assets".

Money market instruments are valued at market value.

On February 24, 2022, Russia began military operations in the sovereign territory of Ukraine. The current political and financial uncertainty surrounding Russia and Ukraine has increased market volatility and the economic risk of investing in securities in these countries and other impacted countries within the region. Due to the sanctions, actions by governments, developments in Ukraine itself and other circumstances, the Manager continues to assess the impact on valuation and liquidity and will take any potential actions needed, in accordance with the Funds' valuation policies and procedures. The Russian equity securities are priced at nil as at June 30, 2025.

Exposure within the sub-funds has been summarised as follows (exposure is limited to non-equity holdings as the equities have been fair valued at nil):

## Note 2 - Significant accounting policies (continued)

### (b) Investment in securities (continued)

| Funds                                                           | As of      | %<br>Ukraine | %<br>Russia | %<br>Belarus | % Total<br>Exposed |
|-----------------------------------------------------------------|------------|--------------|-------------|--------------|--------------------|

| Franklin Emerging Markets Debt Opportunities Hard Currency Fund | 30/06/2025 | 0.97%        | 0.43%       | 0.00%        | 1.40%              |

### (c) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the "Statement of Net Assets" date for the remaining period, until maturity. Gains or losses resulting from forward foreign exchange contracts are recognised in the "Statement of Operations and Changes in Net Assets".

### (d) Financial future contracts

The Company may enter into financial future contracts to gain exposure to market changes. A financial future contract is an agreement between two parties to buy or sell a security for a set price on a future date. Required initial margin deposits of cash or securities are maintained by a broker in a segregated account. Subsequent payments, known as variation margin, are made or received by the Company depending on the fluctuations in the value of the underlying securities. Such variation margin is accounted for as unrealised gains or losses until the contract is closed, at which time the gains or losses are reclassified to realised gains or losses. Realised and unrealised gains and losses are included in the "Statement of Operations and Changes in Net Assets".

### (e) Interest rate swap contracts

Interest rate swap contracts are used to hedge the risk of changes in interest rates and are agreements between two parties to exchange cash flows based on a notional principal amount. The net interest received or paid on interest rate swap contract agreements is accrued daily as interest income/expense.

Interest rate swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of interest rate swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

### (f) Inflation swap contracts

An inflation swap contract is a bilateral agreement used to transfer inflation risk from one party to another through an exchange of cash flows.

Inflation swap contracts are marked to market daily based upon quotations from the market makers and the change, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of inflation swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement. The funds had no exposure as at June 30, 2025.

### (g) Cross currency swap contracts

A cross currency swap is an agreement between two parties to exchange interest payments and principals denominated in two different currencies. Cross currency swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

## **Note 2 - Significant accounting policies (continued)**

### **(g) Cross currency swap contracts (continued)**

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of cross currency swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement. The funds had no exposure as at June 30, 2025.

### **(h) Total return swap contracts**

A total return swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains.

Total return swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

When the swap contract is terminated early, the Fund records a realised gain or loss equal to the difference between the current net present value and the executed net present value. Any outstanding interest accrual is recorded as either a net receivable or net payable.

The risks of total return swap contracts include changes in market conditions and the possible inability of the counterparty to fulfil its obligations under the agreement.

### **(i) Contracts for difference**

Contracts for difference are contracts entered into between a broker and the Fund under which the parties agree to make payments to each other so as to replicate the economic consequences of holding a long or short position in the underlying security. Contracts for difference also mirror any corporate actions that take place.

Upon entering into contracts for difference, the Fund may be required to pledge to the broker an amount of cash and/or other assets equal to a certain percentage of the contract amount ("initial margin"). Subsequently, payments known as "variation margin" are made or received by the Fund periodically depending on fluctuations in the value of the underlying security.

The market value of CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used.

Contracts for differences are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

### **(j) Credit default swap contracts**

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic payment for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual users.

Credit default swap contracts are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets". Any payment received or paid to initiate a contract is recorded as a liability or asset in the "Statement of Net Assets". When the swap contract is terminated early, the Fund records a realised gain or loss for any payments received or paid.

## Note 2 - Significant accounting policies (continued)

### (j) Credit default swap contracts (continued)

The risks of credit default swap contracts include unfavourable changes in interest rates, an illiquid secondary market and the possible inability of the counterparty to fulfil its obligations under the agreement, which may be in excess of the amount reflected in the "Statement of Net Assets".

### (k) Option contracts

Options are contracts entitling the holder to purchase or sell a specified number of shares or units of a particular security at a specified price at any time until the contract-stated expiration date. Options purchased are recorded as investments; options written (sold) are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium (original option value) and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

The risks include price movements in the underlying securities, the possibility there may be an illiquid options market, or the inability of the counterparties to fulfil their obligations under the contract.

The Company writes options on securities, futures and interest rate swaps ("swaptions"). These options are settled in cash and subject the Company to unlimited risk of loss. The Company, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

The market values are recorded under "Option Contracts at Market Value" in the "Statement of Net Assets".

### (l) Foreign exchange transactions

Transactions expressed in currencies other than each Fund's currency are translated into each Fund's currency at the exchange rates applicable on the transaction dates.

Assets and liabilities denominated in currencies other than each Fund's currency are translated into each Fund's currency at the appropriate exchange rates ruling at the year end. Gains and losses on foreign exchange transactions are recognised in the "Statement of Operations and Changes in Net Assets" in determining the results for the accounting year.

The reference currency of the Company as reflected in the financial statements is U.S. dollar. The principal exchange rates applied as at June 30, 2025 are as follows:

|         |            |     |             |     |            |     |             |
|---------|------------|-----|-------------|-----|------------|-----|-------------|
| AED     | 3.6726     | GHS | 10.3500     | NAD | 17.7038    | SEK | 9.4609      |

The above exchange rates have been rounded to four decimal places.

The list of the currency abbreviations is available in note 29.

## **Note 2 - Significant accounting policies (continued)**

### **(m) Mortgage dollar rolls**

In a mortgage dollar roll, a Fund sells mortgage-backed securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (name, type, coupon, and maturity) securities on a specified future date. During the year between the sale and repurchase, the Fund foregoes principal and interest paid on the mortgage-backed securities. The Fund is compensated by the difference between the current sales price and the lower forward price for the future purchase, as well as by the interest earned on the cash proceeds of the initial sale.

Mortgage dollar rolls are marked to market daily based upon quotations from the market makers and the change in value, if any, is recorded as an unrealised gain or loss in the "Statement of Operations and Changes in Net Assets".

The difference between the current sales price and the lower forward price is treated as realised gain.

The market values are recorded under "Investment in mortgage dollar rolls at market value" or under "Open Short Positions on mortgage dollar rolls" in the "Statement of Net Assets".

### **(n) Income**

Dividends are credited to income on their ex-dividend date. Interest income is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest is credited to the funds upon receipt. Swap interest where applicable is recorded in accordance with the terms of the relevant swap deal. Sundry income are principally comprised of derivative income – net margin interest/price alignment on futures, options, accrual adjustments pertaining to consent fees.

### **(o) Securities lending**

To the extent permitted in the relevant Fund's investment policy, a Fund may utilise, on a temporary basis, up to 50% of its assets for securities lending transactions. The volume of the securities lending transactions of each Fund shall be kept at an appropriate level or each Fund shall be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations and that these transactions do not jeopardise the management of each Fund's assets in accordance with its investment policy. The counterparties to securities lending transactions are selected following an initial analysis, and subsequent annual review thereafter, of financial statements, company announcements, credit ratings and other market information which includes general market movements. While there are no predetermined legal status, credit rating or geographical criteria applied in the selection of the counterparties, these elements are typically taken into account in the selection process. Loans will be secured continuously by collateral which must at least equal the value of the securities lent. Securities lending income is disclosed under the caption "Securities lending" in the "Statement of Operations and Changes in Net Assets". Any transaction expenses in connection with the loans are charged to the concerned Fund.

### **(p) Formation expenses**

Formation expenses associated with the launch of the new Funds are expensed as incurred.

### **(q) Swing pricing**

A Fund may suffer dilution of the net asset value per share due to investors buying or selling shares in a Fund at a price that does not reflect dealing and other costs that arise when security trades are undertaken by the Investment Manager to accommodate cash inflows or outflows.

To counter this dilution impact and to protect Shareholders' interests, a swing pricing mechanism may be adopted by the Company as part of its valuation policy.

The Fund operates a swing pricing mechanism which is applied when the total estimated capital activity (aggregate of estimated inflows and outflows) at a Fund level exceeds a pre-determined threshold, as determined as a percentage of the net assets of that Fund for the Valuation Day. Funds can operate a full swing pricing mechanism where the threshold is set to zero or a partial swing pricing mechanism where the threshold is greater than zero.

## **Note 2 - Significant accounting policies (continued)**

### **(q) Swing pricing (continued)**

Typically, such adjustment will increase the Net Asset Value per Share when there are net inflows into the Fund and decrease the Net Asset Value per Share when there are net outflows. The Net Asset Value per Share of each Share Class in a Fund will be calculated separately but any adjustment will, in percentage terms, affect the Net Asset Value per Share of each Share Class in a Fund identically. Swing pricing does not address the specific circumstances of each individual investor transaction.

The adjustments will seek to reflect the anticipated prices at which the Fund will be buying and selling assets as well as estimated transaction costs.

Investors are advised that the volatility of the Fund's Net Asset Value might not reflect the true portfolio performance as a consequence of the application of swing pricing.

The size of the adjustment impact is determined by factors such as the volume of transactions, the purchase or sale prices of the underlying investments and the valuation method adopted to calculate the value of such underlying investments of the Fund.

The swing pricing mechanism may be applied across all Funds of the Company. The extent of the price adjustment will be reset by the Company on a periodic basis to reflect an approximation of current dealing and other costs. Such adjustment may vary from Fund to Fund and under normal conditions will not exceed 2% of the original Net Asset Value per Share. The Board of Directors can approve an increase of this limit in case of exceptional circumstances, unusually large Shareholders trading activities, and if it is deemed to be in the best interest of Shareholders.

The Management Company mandates authority to the Swing Pricing Oversight Committee to implement and on a periodic basis review, the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

The price adjustment is available on request from the Management Company at its registered office.

On certain share classes, the Management Company may be entitled to a performance fee, where applicable, this will be based on the unswung NAV.

No swing pricing applied as at June 30, 2025.

During the year swing pricing adjustments affected the net asset value per share of the following Funds:

Franklin Diversified Balanced Fund  
Franklin Diversified Conservative Fund  
Franklin Emerging Market Corporate Debt Fund  
Franklin Emerging Markets Debt Opportunities Hard Currency Fund  
Franklin Flexible Alpha Bond Fund  
Franklin Genomic Advancements Fund  
Franklin Global Convertible Securities Fund  
Franklin Gold and Precious Metals Fund  
Franklin Intelligent Machines Fund  
Franklin MENA Fund  
Franklin Sealand China A-Shares Fund  
Franklin Strategic Income Fund  
Martin Currie UK Equity Income Fund  
Templeton Asian Smaller Companies Fund  
Templeton Emerging Markets Fund  
Templeton Emerging Markets Smaller Companies Fund  
Templeton Emerging Markets Sustainability Fund  
Templeton European Improvers Fund  
Templeton European Small-Mid Cap Fund  
Templeton Frontier Markets Fund

## Note 2 - Significant accounting policies (continued)

### (q) Swing pricing (continued)

Templeton Global Bond Fund  
Templeton Global Leaders Fund

### (r) Combined financial statements

The accounts of the Fund are expressed in U.S. dollar and the accounts of the sub-funds are kept in the currency of each sub-fund. The combined "Statement of Net Assets" and the combined "Statement of Operations and Changes in Net Assets" are the sum of the "Statement of Net Assets" and the "Statement of Operations and Changes in Net Assets" of each sub-fund converted into the currency of the Fund using exchange rates prevailing at year-end.

### (s) Capital Stock Transactions – Recognition

Capital stock transactions, including subscriptions and redemptions, are recorded on a T+1 basis in the accounting records. As a result, these transactions are reflected up to the valuation day immediately preceding the Net Asset Value (NAV) date.

### (t) Reverse Repurchase Agreements

A reverse repurchase agreement, often referred to as a "reverse repo," is a financial transaction in which one party purchases securities from another party with an agreement to sell them back later date. This transaction effectively allows the fund to lend cash to the counterparty, using the purchased securities as collateral, while earning interest income over the term of the agreement. The amounts lent in a reverse repo transaction are recorded in the Statement of Net Assets as a receivable under "Amounts receivable on reverse repurchase agreements" The income earned is recognised over the term of the agreement is included in the Statement of Operations and Changes in Net Assets under "Interest income on debt securities."

## Note 3 - Cross Funds Investments

Some Funds may invest into shares of UCITS and other open and closed end UCIs which may include other Funds of Franklin Templeton Investment Funds. As at June 30, 2025, the following Funds held shares issued by another Fund of the Company.

|                                                |          | Investment in securities<br>at market value as per<br>Statement<br>of Net Assets | Market value<br>of Cross Funds<br>investment | Investment in securities<br>at market value after<br>deduction of Cross Funds<br>investments |

#### Note 15 - Investment management fees

The Management Company receives from the Company a monthly investment management fee equivalent to a certain percentage per annum (as detailed below) of each Fund's average daily net assets during the accounting year. When Funds invest in other Franklin Templeton funds, a management fee is not applied to the amounts invested. The following percentages apply in respect of the different Funds as at year end.

**Note 15 - Investment management fees (continued)**

The Investment Managers will be remunerated by the Management Company out of the investment management fee received from the Company.

No management fee is payable by an investor on the acquisition of Class X and Class Y shares, instead a fee is paid to the Investment Manager or affiliates under a separate agreement.

## Note 16 - Performance fees

The Management Company may be entitled to receive from the net assets attributable to a share class an annual performance-based incentive fee (the "Performance Fee") which, if applicable, will be calculated and accrued daily and payable as of the end of each fiscal year.

The performance fee becomes due in the event of outperformance, that is, if the increase in the NAV during the relevant performance period (after deduction of any subscription and/or redemption fees levied) exceeds (i) the increase in the target benchmark over the same period and (ii) the applicable high water mark point as defined in the prospectus.

If Shareholders redeem all or part of their shares before the end of a performance period, any accrued performance fee with respect to such shares will crystallise on that dealing day and will then become payable.

For the purpose of the Performance Fee calculation:

High Water Mark is calculated by reference to (i) the initial launch price or (ii) the NAV as of the last valuation day which formed the basis of an accrual within the relevant performance period, for which a performance fee was paid, whichever is the higher. The high-water mark is the highest peak in value that an investment fund has reached. The high-water mark ensures the fund does not pay for recovery of past performance.

### Note 16 - Performance fees (continued)

Target NAV is the High Water Mark adjusted by the daily target benchmark return, where the target benchmark is the applicable benchmark as indicated above and is expressed in the currency in which the relevant share class is denominated or hedged into.

Performance period refers to each fiscal year, except where a share class with a performance fee is launched during the fiscal year, in which case its first performance period will commence on the launch date. Please refer to the prospectus for more details.

The following performance fees apply in respect of the PF(Performance fee) shares during the year ended June 30, 2025.

| Fund and Share Classes                | Fund<br>currency | Performance<br>fees | Performance<br>fees (amounts<br>in Fund<br>currency) | Percentage<br>of average<br>net assets | Target benchmark     |

### Note 17 - Soft commission

Consistent with obtaining best execution, brokerage commissions on portfolio transactions for the Company may be directed by the Investment Managers to broker-dealers in recognition of research services furnished by them as well as for services rendered in the execution of orders by such broker-dealers.

The receipt of investment research and information and related services permits the Investment Managers to supplement their own research and analysis and makes available to them the views and information of individuals and research staffs of other firms.

Such services do not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries or direct money payment, which are paid for directly by the Investment Managers.

### Note 18 - Connected party transactions

Certain Directors of the Company are or may also be Officers and/or Directors of one or more of the various Investment Managers of the Funds, among others, Franklin Templeton Investments (Brasil) Ltd., Franklin Templeton Investments (Asia) Limited, Templeton Investment Counsel, LLC and Franklin Templeton Institutional, LLC. All transactions with connected parties were entered into in the ordinary course of business and under normal commercial terms. The investment management fees that are accrued by the Company in respect of the Management Company are detailed in note 15 to the financial statements.

There are no connected brokers in Franklin Templeton, and no transactions were entered into with connected brokers during the year ended June 30, 2025.

During the year ended June 30, 2025, the Company accrued administration and transfer agency fees and shares' maintenance and service charges in respect of Franklin Templeton International Services S.à r.l. as Management Company and Principal Distributor of the Funds.

Any investment in Cross Funds as defined in Note 3 or products issued by Franklin Templeton are made at normal market condition.

### Note 19 - Taxation

Under current tax laws and practice, the Company is not liable in the Grand Duchy of Luxembourg to any taxes on income or on realised or unrealised capital gains.

## Note 19 - Taxation (continued)

The Company is liable in the Grand Duchy of Luxembourg to a tax of 0.05% per annum, such tax being paid quarterly, and calculated on the net asset value of each Fund at the end of each relevant quarter (except the Franklin U.S. Dollar Short-Term Money Market Fund for which the rate is 0.01%). This tax is not applicable for the portion of the assets of a Fund invested in other undertakings for collective investment that have already been subject to such tax. Class I shares, Class J shares, Class P1 shares, Class X shares and Class Y shares may benefit from a reduced rate of 0.01% per annum if all shareholders of these share classes are institutional investors.

Investment income received or capital gains realised by the Company may be subject to tax in the countries of origin. All liabilities in respect of taxes payable on unrealised capital gains on investments are provided for as soon as there is a reasonable certainty that a liability will crystallise.

No stamp duty or other tax is payable in the Grand Duchy of Luxembourg on the issue of shares in the Company.

The Company is registered for Value Added Tax in the Grand Duchy of Luxembourg and subject to account for Value Added Tax in accordance with current laws.

## Note 20 - Share classes

Class A shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1.00%, retained by the Principal Distributor, applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class AS shares: are offered in Singapore to CPF Investors as more fully described in the current prospectus of the Company. Class AS shares are offered at the applicable net asset value and are not subject to an entry charge. In addition, a maintenance charge of up to 0.40% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor.

Class AX shares: are offered at the applicable net asset value, plus an entry charge of up to 5.75% (except for the Franklin Diversified Conservative Fund which has an entry charge of up to 5.00%) of the total amount invested varying per asset class. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value is deducted and paid to the Principal Distributor. This charge is accrued daily and is deducted and paid monthly to the Principal Distributor. A contingent deferred sales charge of up to 1.00% applies to certain redemptions on qualified investments of USD 1 million or more within 18 months after repurchase.

Class C shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of 1.00% if an investor redeems shares within one year of purchase. In addition, a maintenance charge of 1.08% per annum of the applicable average net asset value is deducted. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other party.

Class F shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of up to 0.50% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class F shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

Class G shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.10% per annum of the applicable average net asset value and a servicing charge of 1.00% per annum of the applicable average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class G shares will be automatically converted into Class A shares of the same Fund free of charge on the monthly scheduled conversion date fixed by the Management Company upon or following the expiry of 36 months after the date of their purchase.

**Note 20 - Share classes (continued)**

Class I shares: are offered to institutional investors as more fully described in the current prospectus of the Company. Purchases of Class I shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class J shares: are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company. Purchases of Class J shares are not subject to an entry sales charge, nor a contingent deferred sales charge or any maintenance or servicing charges.

Class N shares: are subject to an entry charge of up to 3.00% of the total amount invested. In addition, a maintenance charge of up to 1.25% per annum of the applicable average net asset value is accrued daily and is deducted and paid monthly to the Principal Distributor. Class N shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class P1/ P2 shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class P1/ P2 shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Q shares: are not subject to an entry charge but are subject to a contingent deferred sales charge of up to 3.00% if an investor redeems shares within three years of purchase. In addition, a maintenance charge of 0.50% per annum of the average net asset value are applied. These charges are accrued daily and are deducted and paid monthly to the Principal Distributor and/or other parties. Class Q shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class S shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class S shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class W shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class W shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Class X shares: are not subject to an entry charge and no management fees will be payable by an investor on the acquisition of Class X shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class X shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Y shares: are not subject to an entry charge and no management, registrar, transfer, corporate, domiciliary or administration fees will be payable by an investor on the acquisition of Class Y shares (instead a fee is paid to the Investment Manager or affiliates under an agreement between the Investment Manager and the investor). Class Y shares are offered to institutional investors in certain limited circumstances as more fully described in the current prospectus of the Company.

Class Z shares: are not subject to an entry charge, contingent deferred sales charge nor any maintenance or servicing charge. Class Z shares may be offered in certain limited circumstances as more fully described in the current prospectus of the Company.

Accumulating shares (acc): do not distribute any dividends but the income attributable is reflected in the increased value of the shares. All other terms and conditions are the same as those which apply to distributing share classes.

Distributing shares: may have different frequencies. (Mdir) & (Mdis) share classes distribute monthly, (Qdis) share classes distribute quarterly, (Bdis) share classes distribute bi-annually and (Ydis) share classes distribute annually.

Class dirc shares: are distributing share classes with the suffix "dirc" are offered as part of a currency hedged share class.

Class Plus shares\*: are distribution share classes designed to offer, under normal market conditions, dividend distribution at a pre-determined annual percentage of the Net Asset Value per Share that is not linked to income or capital gains.

## Note 20 - Share classes (continued)

Performance fee classes: are classes that are subject to performance fees and are denoted by the inclusion of "PF" in their names.

Hedged share classes: In respect of hedged share classes, the Company offers the following alternatives:

- H1: in order to reduce exchange rate fluctuations and return fluctuations, the base currency exposure of the Fund is hedged into the hedged share class alternative currency.
- H2: a hedging strategy is applied in order to reduce the risk of currency movements between the currency of the hedged share class and other material currencies of the securities and cash held by the Fund.
- H4: where currency controls imposed by a country's monetary authority prevent free movement of currency ("Restricted Currency"), another hedging methodology is used. The share class is denominated in the base currency of the Fund but hedges the Fund's base currency into a specified Restricted Currency for investors in that Restricted Currency.

\* Please refer to Note 1 for share class events.

## Note 21 - Directors Fees

For their role and services to the Board, the Independent Directors of the Board are remunerated an aggregate amount of EUR 350,000 per annum and an additional aggregate amount of EUR 30,000 per annum for membership and activities of the Board Committees. The rest of the Board members waive any right to remuneration.

## Note 22 - Expenses reimbursement

On a daily basis, for share classes where the expenses are capped, the level of expenses is calculated and compared to the cap and where the level of expenses is higher than the cap, this difference is booked as a decrease of expense (the "waiver fees"). The performance fees do not form part of the capped expenses. On a monthly basis the waiver fees are deducted from the fees received by Franklin Templeton International Services S.à r.l.

The amount of waiver fees is disclosed as "Expenses reimbursement" in the "Statement of Operations and Changes in Net Assets".

## Note 23 - Other Charges

Other expenses mainly consist of legal fees, registration & filing fees, paying agent fees, tax fees and miscellaneous fee/expense.

## Note 24 - Statement of changes in the investment portfolio

A list, specifying for each Fund total purchases and sales transacted during the year under review, may be obtained, upon request, at the registered office of the Company.

## Note 25 - Transaction costs

Transaction costs are costs incurred to acquire and dispose of financial assets or liabilities. They include fees and commissions paid to agents, brokers and dealers. During the year ended June 30, 2025, the Company incurred the following transaction costs:

| Fund Name                                                       | Currency | Amount <sup>#</sup> |
|-----------------------------------------------------------------|----------|---------------------|
| Franklin Alternative Strategies Fund*                           | USD      | 354,214             |

## Note 25 - Transaction costs (continued)

| Fund Name                                                                    | Currency | Amount <sup>#</sup> |
|------------------------------------------------------------------------------|----------|---------------------|
| Templeton Global Leaders Fund <sup>*</sup>                                   | USD      | 58,589              |
| Templeton Global Smaller Companies Fund                                      | USD      | 43,868              |
| Templeton Global Total Return Fund                                           | USD      | 1,599               |
| Templeton Growth (Euro) Fund                                                 | EUR      | 9,973,950           |
| Templeton Japan Fund <sup>*</sup>                                            | JPY      | 12,053,745          |
| Templeton Latin America Fund                                                 | USD      | 98,876              |
| Templeton Sustainable Emerging Markets Local Currency Bond Fund <sup>*</sup> | USD      | 2                   |

<sup>\*</sup>Please refer to Note 1 for fund events.

<sup>#</sup>For debt securities and derivatives, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

## Note 26 - Equalisation

The Funds use an accounting practice known as equalisation, by which a portion of the proceeds from issues and the costs of sale of shares, equivalent on a per share basis to the amount of undistributed net investment income on the date of the transaction, is credited or charged to undistributed income. As a result, undistributed net investment income per share is unaffected by issues or redemptions of shares. However, in respect of any Fund offering only Accumulation Shares, the Board of Directors and/or the Management Company reserves the right not to apply equalisation.

## Note 27 - Total Expense Ratio

The Total Expense Ratio ("TER"), expressed as a percentage, represents how the total annualised expenses of each share class relate to the average net assets of each share class for the year ended June 30, 2025. The total expenses comprise the investment management fees, maintenance and service charges, the administration and transfer agency fees, the custodian fees and other expenses. However, TER does not include performance fees as summarised in the "Statement of Operations and Changes in Net Assets".

For share classes launched during the year, the TER is annualised.

## Note 28 - Global Credit facility

The Company together with other European and U.S. registered investment funds managed by Franklin Templeton (individually, "Borrower"; collectively, "Borrowers"), entered into a joint syndicated senior unsecured credit facility totalling USD 2,995 million (Global Credit Facility) to provide a source of funds to the Borrowers for temporary and emergency purposes, including the ability, to meet future unanticipated or unusually large redemption requests.

Under the terms of the Global Credit Facility, the Company will, in addition to interest charged on any borrowings made by the company and other costs incurred by the Company, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee based upon the unused portion of the Global Credit Facility.

During the financial year ended June 30, 2025, the Company did not use the Global Credit Facility.

## Note 30 - Additional Information

Following the invasion of Ukraine by Russia and sanctions that followed, the Russian assets held by the Fund as of February 25, 2022 were segregated from the liquid assets of the Templeton Eastern Europe Fund and allocated to seven share classes newly created on November 11, 2022 (the "Restricted Share Classes"). Shares in such new classes listed below were allocated to shareholders on November 11, 2022 in a manner to reflect their respective percentage holdings in the Fund's total NAV as of February 25, 2022. The Restricted Share Classes are closed to all subscriptions, redemptions, and switches.

Restricted Share Classes - A (acc) EUR RC, A (acc) USD RC, A (Ydis) EUR RC, I (acc) EUR RC, N (acc) EUR RC, W (acc) EUR RC, X (acc) EUR RC.

## Note 31 - Subsequent events
