What is this product?

Type

Asian Smaller Companies Fund (the "Fund") is a US Dollar denominated sub-fund of a SICAV (société d'investissement à capital variable), abrdn SICAV I, incorporated in Luxembourg.

Term

abrdn SICAV I (the "Company") has no maturity date. The Fund and the Company may not be unilaterally terminated by abrdn Investments Luxembourg S.A.

Objective

The Fund aims to achieve a combination of growth and income by investing in smaller capitalisation companies in Asia Pacific countries (excluding Japan), which adhere to the Fund's ESG criteria.
The Fund aims to outperform the MSCI AC Asia Pacific ex Japan Small Cap Index (USD) benchmark before charges.

Portfolio Securities

- The Fund invests at least 70% in equities and equity related securities of companies listed, incorporated or domiciled in Asia Pacific countries (excluding Japan) or having significant operations and/or exposure to Asia Pacific countries (excluding Japan).
- The Fund may invest up to 30% of its net assets in Mainland China equity and equity-related securities, although only up to 20% may be invested directly through available QFI regime, the Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programme or by any other available means.
- For the purpose of this Fund, smaller capitalisation companies are defined as companies with a market capitalisation, as at the date of investment, of under US$5 billion.
- All equity and equity-related securities will adhere to the Fund's ESG criteria detailed in the Fund's "Sustainability related disclosures", which is published at www.aberdeeninvestments.com under "Fund Centre".
- Aberdeen Investments' Overall Sustainability Assessment (OSA) provides an overall view on a company's sustainability based on scoring of its governance, operations, and products and/or services. To complement this the Investment Manager's equity investment process is utilised, which enables portfolio managers to qualitatively identify ESG risks and opportunities. Companies considered to be exposed to the highest ESG risks will be excluded. Additionally, a set of company exclusions are applied, which are related to the UN Global Compact, Controversial Weapons, Tobacco Manufacturing and Thermal Coal.
- Financial derivative instruments, money-market instruments and cash may not adhere to the Fund's ESG criteria.

Management Process

- The Fund is actively managed.
- Through the application of the Fund's ESG criteria, the Fund commits to having a minimum of 10% in Sustainable Investments. Furthermore, the Fund targets a meaningfully lower carbon intensity than the benchmark.
- Engagement with external company management teams is used to evaluate the ownership structures, governance and management quality of those companies in order to inform portfolio construction. As part of this, where a company fails the thermal coal exclusion but is identified as having a clear and credible action plan to mitigate the adverse impact associated with these activities, the company will be deemed investable. This is to support their transition to ultimately comply with the thermal coal exclusions. Up to 5% of assets may be invested in such companies.
- The benchmark is also used as a reference point for portfolio construction and as a basis for setting risk constraints, but does not incorporate any ESG criteria.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark and may invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components of and their respective weightings in the benchmark.
- Due to the active nature of the management process, the Fund's performance profile may deviate significantly from that of the benchmark.

Derivatives and Techniques

- The Fund may utilise financial derivative instruments for hedging and/or investment purposes, or to manage foreign exchange risks. The use of derivatives for hedging and/or investment purposes is expected to be very limited, mainly in those cases where there are significant inflows into the Fund so that cash can be invested while the Fund's investments in equity and equity related securities is maintained.

This fund is subject to Article 8 of the Sustainable Finance Disclosure Regulation (“SFDR”).

Investors in the fund may buy and sell shares on any dealing day (as defined in the Prospectus). If you invest in income shares, income from investments in the fund will be paid out to you. If you invest in accumulation shares, income will be added to the value of your shares.

Intended Retail Investor

Investors with basic investment knowledge. Investors who can accept large short term losses. Investors wanting growth and income over the longer term (5 years or more). Investors with a specific need around a sustainability-related outcome. The Fund has specific and generic risks with a risk rating as per the risk indicator. The Fund is intended for general sale to retail and professional investors through all distribution channels with or without professional advice.
The Fund's depositary is Citibank Europe plc Luxembourg Branch. The prospectus, the articles of association, the annual reports and interim reports may be obtained free of charge from our website or via the contact details in ‘Other relevant information’. All documents are available in English and German; the prospectus is also available in French and Italian. What are the risks and what could I get in return?

Risk Indicator

1	2	3	**4**	5	6	7

Lower risk **Higher risk**

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you sell it at an earlier stage. The value of investments and the income from them can go down as well as up, and you may get back less than you invested.

You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back.
The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.
Where the currency of the country where you are resident is different to the currency of the product, **please be aware of currency risk**. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Further information on risks is detailed in the prospectus available at www.abrdn.com or on request from the management company.
This product does not include any protection from future market performance or any capital guarantee against credit risk, so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:		**5 years**	
Example Investment:		**10,000 USD**	
		If you exit after 1 year	**If you exit after 5 years**
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if the Company is unable to pay out?

There is no financial compensation scheme for retail investors in SICAVs domiciled in Luxembourg. In the absence of a compensation scheme applicable to investments in the Fund, investors may face a financial loss of up to their entire investment amount.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- 10,000 USD is invested.

	If you exit after 1 year	**If you exit after 5 years**
Total costs	182 USD	1,262 USD

Annual cost impact (*)	1.8%	1.9% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.6% before costs and 5.7% after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
