Additional Information for Investors in the Federal Republic of Germany dated 7 August 2026

For the following Sub-Funds, a notification for distribution in the Federal Republic of Germany was submitted and Shares in these Sub-Funds may be offered to investors within the scope of the § 310 German Investment Code ("KAGB"):

ALQUITY SICAV – ALQUITY GLOBAL IMPACT FUND

ALQUITY SICAV – ALQUITY INDIAN SUBCONTINENT FUND

ALQUITY SICAV – ALQUITY FUTURE WORLD FUND

ALQUITY SICAV – VAM US Micro Cap Growth Fund

ALQUITY SICAV – VAM US Small Cap Growth Fund

ALQUITY SICAV – WCM World Growth Fund

With respect to the following Sub-Funds no notification for distribution was filed and consequently Shares in these Sub-Funds must not be marketed in Germany:

ALQUITY SICAV – ASIA FUND

ALQUITY SICAV – VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND

ALQUITY SICAV – VAM Fund

ALQUITY SICAV – VAM Balanced Fund

ALQUITY SICAV – VAM Cautious Fund

ALQUITY SICAV – VAM Growth Fund

Facilities for shareholders in Germany

Facility services according to § 306a (1) no. 1. to 6. KAGB are provided in Germany by:

FE Fundinfo (Luxembourg) S.à.r.l.

6 Boulevard des Lumières

4369 Belvaux

Luxembourg

("FE Fundinfo")

Alquity SICAV has concluded a written agreement with FE Fundinfo pursuant to which FE Fundinfo performs the functions referred to in § 306a (1) nos. 1–6 KAGB for shareholders in Germany. FE Fundinfo will receive all information and documentation required in connection with the marketing of the relevant Sub-Funds in Germany from Alquity SICAV.

Subscription, payment, redemption and conversion orders for Shares in the Sub-Funds registered in Germany may be processed by FE Fundinfo in accordance with the conditions set out in the sales documents referred to in § 297 (1) sentence 1 KAGB.

FE Fundinfo provides shareholders in Germany with information on how subscription, payment, redemption and conversion orders for Shares in the Sub-Funds registered in Germany can be made and how redemption proceeds are paid.

Appropriate procedures and arrangements referred to in Art. 15 Directive 2009/65/EC relating to the exercise and safeguard of shareholders' rights have been established by the Company. For shareholders in Germany FE

Fundinfo facilitates the access to and provides information on such procedures and arrangements and provides detailed information thereon.

The Prospectus, the KIDs (Key Information Documents), the Article of Incorporation and the latest annual and semi-annual reports are available free of charge in paper form at the registered office of FE Fundinfo. The Depositary Agreement, the Central Administration Agreement, the Management Company Agreement, the Global Investment Management Agreement and the Sub-Investment Management Agreements are available for inspection at the registered office of FE Fundinfo.

FE Fundinfo provides shareholders in Germany with information relevant to the facility tasks it performs towards shareholders in Germany on a durable medium.

FE Fundinfo acts as the contact point for communication with the Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin).

Publications

The issue prices, the redemption prices, the NAV and the conversion prices of the Shares will be published on the following website: www.alquity.com

Shareholder notices, if any, will be published on the website www.alquity.com. In the cases enumerated in § 298 (2) KAGB, shareholder notices will also be sent to the shareholders in Germany by a shareholder letter in accordance with the terms of § 167 KAGB.

Activity report

Market Overview

The twelve months to 30 June 2026 were characterised by strong absolute returns across many risk assets, but with periods of pronounced volatility and unusually narrow market leadership. Easing monetary policy expectations and robust corporate earnings supported markets through the second half of 2025, while the accelerating build-out of artificial intelligence infrastructure drove strong returns in semiconductors, technology hardware, cloud infrastructure and related power and electrical equipment.

The market environment became more difficult in early 2026 as escalating conflict in the Middle East pushed oil prices sharply higher and revived inflation and interest-rate concerns. Markets recovered strongly in the second quarter as geopolitical tensions eased and the AI investment theme reasserted itself. Emerging markets and Asia were particularly strong, led by Korean and Taiwanese technology companies, while India lagged despite supportive domestic economic fundamentals. Fixed income also recovered into period end as oil prices eased and expectations for future policy easing improved.

Sub-Fund Activity

Alquity Asia Fund

For the twelve months ended 30 June 2026, the Fund returned +35.16% (USD Y class, net of fees), compared with +45.8% for the index. Asian equities delivered strong absolute returns, but market leadership was concentrated in the region's largest technology companies, particularly Chinese internet stocks and Korean and Taiwanese AI-related hardware. The Fund's diversified, multi-cap approach, together with UCITS concentration limits and governance exclusions, left it structurally less exposed to some of these index heavyweights. The largest relative shortfall occurred in Q1 2026, when volatility associated with the Middle East conflict weighed particularly on domestically oriented holdings in India. Performance recovered strongly in Q2, with the Fund returning +29.2% against +25.7% for the index.

Portfolio activity remained focused on structural growth opportunities. New positions included AAC Technologies, Vietcombank, Hon Precision, Lite-On, Zhongji Innolight, Infosys, Bharti Airtel, CATL and Hesai, while the Fund exited a number of holdings including JD.com, IndusInd Bank, Dabur and Ciputra. Profits were taken selectively in Taiwanese and Korean technology holdings and recycled within the technology hardware sector. The Investment Manager remains constructive on Asian equities, with the portfolio diversified across markets and market capitalisations and positioned around both domestic structural growth and selected global AI beneficiaries.

Alquity Future World Fund

For the twelve months ended 30 June 2026, the Fund returned +32.09% (USD Y class, net of fees), compared with +45.1% for the index. Emerging market equities performed strongly in absolute terms, but index returns were increasingly concentrated in AI-linked technology companies in Korea and Taiwan. This narrow leadership was the principal reason for the Fund's relative underperformance, despite a generally supportive backdrop across the wider emerging market universe. Performance was particularly weak in Q1 2026 amid heightened Middle East volatility, before recovering strongly in Q2, when the Fund returned +26.6% against +22.3% for the benchmark.

During the year, new positions included Bharti Airtel, Infosys, E.Sun Financial, Zhongji Innolight, CATL and Hesai, while the Fund exited JD.com, Grupo Galicia, Dabur, Walmart de México, Żabka and Fourlis. The portfolio continues to focus primarily on beneficiaries of domestic structural growth trends and remains highly diversified across 20 countries and the market-capitalisation spectrum. The Investment Manager remains constructive on emerging markets and believes a broadening of growth beyond a small number of technology names should create attractive stock-specific opportunities.

Alquity Indian Subcontinent Fund

For the twelve months ended 30 June 2026, the Fund returned -14.9% (USD I class, net of fees), compared with -12.8% for the Indian index. Indian equities experienced a difficult year as global capital rotated towards AI-linked markets in Korea and Taiwan and foreign investors remained significant net sellers of Indian equities. This occurred despite a supportive domestic backdrop, including GDP growth of 8.2%, controlled inflation, lower policy rates and continued structural reform. The most significant drawdown came in Q1 2026, when the Middle East conflict and concerns over consumer spending weighed heavily on travel, leisure, consumer and real estate holdings. Performance improved materially in Q2, with the Fund returning +15.0% against +10.1% for the index.

Portfolio activity included new positions in Bharti Airtel, Restaurant Brands Asia, The Leela, Meesho, HDFC Life and Groww, while the Fund exited Go Fashion, Dabur, Ion Exchange, Syngene, Mahindra & Mahindra Financial Services and ICICI Prudential Life Insurance. The portfolio was also rotated away from companies exposed to rural demand. The Investment Manager remains positive on India's longer-term outlook, with the portfolio focused predominantly on domestic structural growth and maintaining meaningful exposure to small- and mid-cap companies.

Activity report

Alquity Global Impact Fund

For the twelve months ended 30 June 2026, the Fund returned +16.2% (USD I share class, net of fees), compared with +23.7% for the benchmark. Market returns were dominated by the build-out of artificial intelligence infrastructure and the semiconductor supply chain. The Fund participated through holdings including Nvidia, Broadcom, TSMC, Micron and Advanced Micro Devices, while exposure to electrification and power infrastructure, including GE Vernova, also contributed positively.

Relative performance was held back by the concentration of benchmark returns in a small group of mega-cap technology and internet companies, many of which are excluded under the Fund's ESG framework. Microsoft also detracted late in the period on concerns over the scale of its AI spending, while overweight positions in real estate and healthcare were headwinds. The Investment Manager continues to position the portfolio across a diversified set of long-term sustainability themes, including the energy transition and electrification, water and resource efficiency, healthcare innovation and access, and financial inclusion in emerging markets.

VAM Fundamental Emerging Market Equity Fund

For the twelve months ended 30 June 2026, the Fund returned +60.01% (USD EB class, net of fees), compared with +45.1% for the index. The Fund outperformed the index in each quarter of the period. Returns were supported by the improving semiconductor memory cycle and accelerating AI infrastructure investment, although the year also included significant volatility following the escalation of conflict in the Middle East. The strongest quarter was Q2 2026, when the Fund returned +29.5% against +22.3%, with Samsung Electro-Mechanics, SK Hynix, MediaTek, LG Electronics and Delta Electronics among the largest contributors.

Portfolio activity included new positions across healthcare, technology, financials, utilities and industrials, including Fortis Healthcare, Samsung Electro-Mechanics, ASPEED Technology, CIMB Group, Advantech and Polycab India, alongside exits including Bank Mandiri, HDFC Bank, InterGlobe Aviation, Trip.com and MercadoLibre. Country and sector exposures remained close to benchmark weights, with active risk taken primarily through stock selection and position sizing. The Investment Manager remains constructive on emerging markets, supported by the AI and power infrastructure investment cycle and continued corporate governance reform in Korea.

Alquity VAM US Micro Cap Growth Fund

For the twelve months ended 30 June 2026, the Fund returned +100.7% (USD E class, net of fees), compared with +27.2% for the index. Responsibility for managing the Fund transferred from Driehaus Capital Management to Oberweis Asset Management on 12 February 2026. The Fund's micro-cap growth style remained consistent through the transition, with both managers focused on companies delivering better-than-expected earnings driven by innovation and fundamental change.

Performance was exceptionally strong across the year, with technology holdings linked to AI infrastructure and optical connectivity a major driver. Under the current manager, Applied Optoelectronics, Ultra Clean and Silicon Motion were among the leading contributors. At the period end, the portfolio was almost fully invested and overweight technology and industrials, with corresponding underweights in healthcare and materials. The manager remains positive on the outlook for US micro- and small-cap growth, while continuing to monitor inflation, Federal Reserve policy, the US mid-term elections and geopolitical developments.

Alquity VAM US Small Cap Growth Fund

For the twelve months ended 30 June 2026, the Fund returned +75.5% (USD E class, net of fees), compared with +27.2% for the index. Responsibility for managing the Fund transferred from Driehaus Capital Management to Oberweis Asset Management on 12 February 2026. Both managers pursue a small-cap growth approach focused on companies delivering better-than-expected earnings through innovation and fundamental change, supporting continuity of style through the transition.

Outperformance was broad-based, with information technology and healthcare important contributors in the second half of 2025 and AI-related optical connectivity remaining a key driver in 2026. The strongest quarter was Q2 2026, when the Fund returned +38.3% against +17.8% for the index. Lumentum and Applied Optoelectronics were among the leading contributors. At the period end the Fund was fully invested and overweight technology and consumer discretionary, with underweights in industrials, healthcare and financials. The manager remains positive on the outlook for US small caps, supported by the AI capital-expenditure cycle and improving earnings growth.

Alquity WCM World Growth Fund

For the twelve months ended 30 June 2026, the Fund returned +21.5% (USD E share class, net of fees), compared with +16.6% for the index. Responsibility for managing the Fund transferred from Driehaus Capital Management to WCM Investment Management on 12 February 2026. Global equities were supported by accelerating AI infrastructure investment, while geopolitical tensions and the Middle East conflict introduced periods of volatility.

Under WCM, the largest contributors included TSMC, Alphabet and AppLovin, with additional support from industrial and energy holdings including Siemens Energy and Rolls-Royce. Tapestry also contributed strongly, while Novo Nordisk and Glencore faced company-specific challenges. The manager believes the Fund's earnings drivers remain well diversified by sector and geography, with AI infrastructure expected to remain a durable tailwind for semiconductor and cloud-related holdings. Geopolitical volatility and energy price shocks remain near-term risks.

Activity report

VAM Fund

At 30 June 2026, the Fund had assets of approximately USD 26.3 million. Over the one-year period, the VAM A USD share class returned 26.8%, compared with 24.2% for the MSCI AC World Index and 15.3% for the sector average. Shorter-term performance remained strong relative to both the index and sector average, while longer-term comparisons continued to be affected by the strength of cap-weighted global equity indices.

At period end, the largest allocations were Alquity WCM World Growth Fund (18.44%), Alquity VAM US Small Cap Growth Fund (18.10%), VAM Fundamental Emerging Market Equity Fund (17.98%), Alquity Global Impact Fund (17.09%) and Alquity VAM US Micro Cap Growth Fund (15.54%). The strongest underlying performance came from the US Micro Cap, US Small Cap and Fundamental Emerging Market strategies, while Future World continued to lag its peer group. The Fund remained diversified across its underlying strategies, with cash at 2.42% at period end.

VAM Cautious Fund

The Investment Manager provided a common annual market commentary across the VAM diversified range. The twelve months to 30 June 2026 were marked by a strong finish to 2025, followed by significant geopolitical and valuation-driven volatility in early 2026 and a broad recovery in the second quarter. Equities and credit benefited initially from easing monetary policy expectations and robust corporate earnings, while the escalation of conflict in the Middle East subsequently pushed oil prices higher, revived inflation concerns and created pressure across both equity and fixed income markets. Performance of the VAM Cautious Fund A GBP: 6.6% vs 12.5% (Index) over 1 year period.

Conditions improved through Q2 as geopolitical tensions eased, oil prices retraced and confidence in the AI investment cycle returned. Emerging markets and Asian technology were among the strongest areas, while government bonds recovered as expectations for policy easing improved. The diversified portfolios continued to balance equity, fixed income and real asset exposures against changing growth, inflation and interest-rate conditions.

VAM Balanced Fund

The Investment Manager provided a common annual market commentary across the VAM diversified range. The twelve months to 30 June 2026 were marked by a strong finish to 2025, followed by significant geopolitical and valuation-driven volatility in early 2026 and a broad recovery in the second quarter. Equities and credit benefited initially from easing monetary policy expectations and robust corporate earnings, while the escalation of conflict in the Middle East subsequently pushed oil prices higher, revived inflation concerns and created pressure across both equity and fixed income markets. Performance of the VAM Balanced Fund A GBP: 9.1% vs 17.1% (Index) over 1 year period.

Conditions improved through Q2 as geopolitical tensions eased, oil prices retraced and confidence in the AI investment cycle returned. Emerging markets and Asian technology were among the strongest areas, while government bonds recovered as expectations for policy easing improved. The diversified portfolios continued to balance equity, fixed income and real asset exposures against changing growth, inflation and interest-rate conditions.

VAM Growth Fund

The Investment Manager provided a common annual market commentary across the VAM diversified range. The twelve months to 30 June 2026 were marked by a strong finish to 2025, followed by significant geopolitical and valuation-driven volatility in early 2026 and a broad recovery in the second quarter. Equities and credit benefited initially from easing monetary policy expectations and robust corporate earnings, while the escalation of conflict in the Middle East subsequently pushed oil prices higher, revived inflation concerns and created pressure across both equity and fixed income markets. Performance of the VAM Growth Fund A GBP: 10.9% vs 18.7% (Index) over 1 year period.

Conditions improved through Q2 as geopolitical tensions eased, oil prices retraced and confidence in the AI investment cycle returned. Emerging markets and Asian technology were among the strongest areas, while government bonds recovered as expectations for policy easing improved. The diversified portfolios continued to balance equity, fixed income and real asset exposures against changing growth, inflation and interest-rate conditions.

Board Approval

The Board is requested to review and approve the above Activity Report for inclusion in the Alquity SICAV annual financial statements for the year ended 30 June 2026, subject to any final auditor, ManCo or legal drafting comments.

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

To the Shareholders of
ALQUITY SICAV
46A, Avenue John F. Kennedy
L – 1855 Luxembourg

Opinion

We have audited the financial statements of ALQUITY SICAV (the "Fund") and of each of its sub-funds, which comprise the statement of net assets, the securities portfolio as at 30 June 2026, and the statement of operations and changes in their net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of ALQUITY SICAV and of each of its sub-funds as at 30 June 2026, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of the "*réviseur d'entreprises agréé*" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "*réviseur d'entreprises agréé*" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "*réviseur d'entreprises agréé*" for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "*réviseur d'entreprises agréé*" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's and its sub-fund ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of "*réviseur d'entreprises agréé*" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of "*réviseur d'entreprises agréé*". However, future events or conditions may cause the Fund and its sub-fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1 - General information

ALQUITY SICAV (the "Company") is an investment company with variable share capital with multiple sub-funds ("Société d'Investissement à Capital Variable (SICAV) à compartiments multiples"). The Company qualifies as an Undertaking for Collective Investment in transferable securities under the Council Directive 2009/65/EC as amended and is governed by Part I of the amended Law of 17 December 2010 (the "2010 Law") relating to Undertakings for Collective Investment.

The Company was incorporated on 13 April 2010 for an unlimited period. Its latest Articles of Incorporation have been published in the official gazette "Mémorial C, Recueil des Sociétés et Associations du Grand Duché de Luxembourg" on 5 May 2025. As from 26 May 2025, publications are made in the "Recueil électronique des sociétés et associations ("RESA")" through the website of "Registre de Commerce et des Sociétés" of Luxembourg.

As at 30 June 2026, the following sub-funds are offered to investors:

- ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND in USD
- ALQUITY SICAV - ALQUITY ASIA FUND in USD
- ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND in USD
- ALQUITY SICAV - ALQUITY FUTURE WORLD FUND in USD
- ALQUITY SICAV - VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND in USD
- ALQUITY SICAV - VAM US SMALL CAP GROWTH FUND*[1] in USD
- ALQUITY SICAV - VAM US MICRO CAP GROWTH FUND* in USD
- ALQUITY SICAV - WCM WORLD GROWTH FUND* in USD
- ALQUITY SICAV - VAM FUND* in USD
- ALQUITY SICAV - VAM BALANCED FUND* in GBP
- ALQUITY SICAV - VAM CAUTIOUS FUND* in GBP
- ALQUITY SICAV - VAM GROWTH FUND* in GBP

*These sub-funds have been launched as at 1 July 2025 further to the merger of 4 sub-funds of VAM Funds (Lux) and 4 sub-funds of VAM Managed Funds (Lux), both Luxembourg-domiciled UCITS umbrella structures. The exchange ratio has been fixed at 1:1.

[1]This sub-fund was further involved in a merger, absorbing ALQUITY SICAV – VAM US SMID CAP GROWTH FUND with effect from 12 February 2026.

The decision to merge the ALQUITY SICAV - VAM US SMID CAP GROWTH FUND occurred with the effective date of 12 February 2026.

The reference currency of the Company is expressed in USD.

However, the base currency for ALQUITY SICAV - VAM BALANCED FUND (launched 01/07/25), ALQUITY SICAV - VAM CAUTIOUS FUND (launched 01/07/25) and ALQUITY SICAV - VAM GROWTH FUND (launched 01/07/25) are expressed in GBP.

The Net Asset Value of each class of shares in the ALQUITY SICAV - GLOBAL IMPACT FUND, ALQUITY SICAV - ALQUITY ASIA FUND, ALQUITY FUTURE WORLD FUND and ALQUITY SICAV - VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND, are calculated on every Bank Business Day in Luxembourg and the United Kingdom.

The Net Asset Value of each class of shares in the ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND is calculated on every Bank Business Day in Luxembourg, United Kingdom and India.

The Net Asset Value of each class of shares in the ALQUITY SICAV - VAM US SMID CAP GROWTH FUND (launched on 01/07/25 and merged out on 12/02/26), ALQUITY SICAV- VAM US SMALL CAP GROWTH FUND (launched 01/07/25), ALQUITY SICAV - VAM US MICRO CAP GROWTH FUND (launched 01/07/25), ALQUITY SICAV - WCM WORLD GROWTH FUND (launched 01/07/25), ALQUITY SICAV - VAM FUND (launched 01/07/25), ALQUITY SICAV - VAM BALANCED FUND (launched 01/07/25), ALQUITY SICAV - VAM CAUTIOUS FUND (launched 01/07/25) and ALQUITY SICAV - VAM GROWTH FUND (launched 01/07/25) are calculated on every bank business day in Luxembourg, the United States of America and the United Kingdom.

The Company's financial year starts on 1 July and ends on 30 June.

Annual reports, including audited financial statements, are made available within four months after the end of the financial year and unaudited semi-annual reports are made available within two months after the end of the period to which they refer. Copies of the Articles of Incorporation and of the latest annual and semi-annual reports of the Company are available for inspection at the registered office of the Company and of the Management Company where a copy may be obtained free of charge. Information relating to the Company, including the latest versions of the Prospectus (and any supplements), financial reports and the latest available Net Asset Value will be available on the website www.alquity.com.

2 - Principal accounting policies

2.1 - Presentation of the financial statements

The financial statements of the Company are established in accordance with the Luxembourg legal and regulatory requirements concerning Undertakings for Collective Investment and with generally accepted accounting principles in Luxembourg concerning Undertakings for Collective Investment.

The financial statements of the Company have been prepared on a going concern basis of accounting.

The figures presented in the financial statements tables may in some cases show non-significant differences due to the use of rounding. These differences do not affect in any way the fair view of the financial statements of the Company.

2.2 - Portfolio valuation

The value of any cash at hand or on deposit, bills, demand notes and accounts receivable, prepaid expenses, dividends and interests matured but not yet received shall be valued at the par-value of the assets, except if it appears that such value is unlikely to be received. In such a case, subject to the approval of the Board of Directors, the value shall be determined by deducting a certain amount to reflect the true value of the assets.

The value of Transferable Securities, Money Market Instruments and/or financial derivative instruments listed on an official Stock Exchange or dealt in on a regulated market which operates regularly and is recognised and open to the public (a "Regulated Market"), as defined by laws and regulations in force, is based on the latest available price and if such Transferable Securities are dealt in on several markets, on the basis of the latest known price on the stock exchange which is normally the principal market for such securities. If the latest known price is not representative, the value is determined based on a reasonably foreseeable sales price to be determined prudently and in good faith by the Board of Directors.

In the event that any Transferable Securities or/and Money Market Instruments are not listed or dealt in on any stock exchange or any other Regulated Market operating regularly, recognised and open to the public, as defined by the laws and regulations in force, the value of such assets shall be assessed on the basis of their foreseeable sales price estimated prudently and in good faith.

The liquidating value of derivative contracts not traded on exchanges or on other Regulated Markets shall mean their net liquidating value determined by the Board of Directors in a fair and reasonable manner, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward and options contracts traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these contracts on exchanges and Regulated Markets on which the particular futures, forward or options contracts are traded by the Company; provided that if a futures, forward and options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.

The value of Money Market Instruments not listed or dealt in on any stock exchange or any other Regulated Market and with remaining maturity of less than 12 (twelve) months and of more than ninety (90) days is deemed to be the nominal value thereof, increased by any interest accrued thereon. Money market instruments with a remaining maturity of 90 (ninety) days or less will be valued by the amortised cost method, which approximates market value.

Other notes to the financial statements

2 - Principal accounting policies

2.2 - Portfolio valuation

Shares of UCITS and/or other UCI will be valued at their last determined and available Net Asset Value or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the Directors on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued at their last available stock market value.

All other securities and other assets will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

The value of all assets and liabilities not expressed in the reference currency of a sub-fund will be converted into the reference currency of such sub-fund at rates last quoted by major banks. If such quotations are not available, the rate of exchange will be determined in good faith by or under procedures established by the Board of Directors.

2.3 - Capital Gain Tax

The Capital Gain Tax ("CGT") on foreign securities subject to such CGT rules are accrued on a weekly frequency based on reception of CGT summary statement from the tax advisor providing the net amount of taxes regarding the CGT accrual for unrealized gain/(losses). The amount is recognized under the caption "Accrued capital gain taxes" in the Statement of Net Asset. The accrual is updated by recognizing a variation of the accruals based on the amount computed by the tax advisor and deducted from the CGT paid on securities sold subject to this tax. The CGT paid in relation with sales of such investments is recognized net of the realized result and the variation of the accruals are disclosed in the Statement of Operations and Changes in Net Assets under the caption "Net realised profit / (loss) on Capital gain taxes incl. variation accrued capital gain taxes.

2.4 - Net realised profit or loss on sales of investments

The net realised gain/(loss) on securities portfolio is determined on the basis of the average cost of securities and are disclosed net in the statement of operations and other changes in net assets.

2.5 - Liquidities

The value of any cash at hand or on deposit, bills, demand notes and accounts receivable, prepaid expenses, dividends and interests matured but not yet received are valued at the par-value of the assets, except if it appears that such value is unlikely to be received. In such a case, subject to the approval of the Board of Directors, the value is determined by deducting a certain amount to reflect the true value of the assets.

2.6 - Foreign currency translation

Bank balances, other assets and liabilities and the value of securities held that are denominated in other currencies than the Sub-Fund's currency are converted at the prevailing exchange rate of the closing day. Income and expenses incurred in currencies other than the Sub-Fund's currency are converted at the prevailing exchange rate of the day of each transaction.

The acquisition cost of a security denominated in a currency other than that of the Sub-Fund is converted to the Sub-Fund's currency at the exchange rate prevailing on the date of purchase.

The source of the exchange rates disclosed in the table below is WME World Market Company.

At the date of the financial statements, the following exchange rates were used:

Other notes to the financial statements

2 - Principal accounting policies

2.7 - Combined financial statements

The combined financial statements of the Company are expressed in USD and are equal to the converted sum of the corresponding captions in the financial statements of each Sub-Fund.

As at closing date, the total amount of cross-investments amounts to USD 23,877,437.27 and therefore the total combined net asset value at period-end without these cross-investments would amount to USD 416,463,793.83.

Sub-funds	Cross investment	Amount (in USD)
VAM FUND (launched on 01/07/25)	Alquity Sicav - Wcm World Growth Fund C USD	4,842,456.48

VAM FUND (launched on 01/07/25)	Vam Us Small Cap Growth Fund C Cap	4,752,662.05
		23,877,437.27

2.8 - Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued at forward foreign exchange rates for the remaining period from the valuation date to the maturity of the contracts. The unrealised net appreciation or depreciation is disclosed in the statements of net assets. The movement in net unrealised appreciation / depreciation and the net realised gain / loss are allocated to the statement of operations and changes in net assets.

2.9 - Dividend and interest income

Dividend income is recorded at the ex-date, net of any withholding tax.

2.10 - Formation expenses

Formation expenses are amortised over a period of five years starting on the date of the sub-fund's establishment. The amortisation method used is a progressive depreciation method where the amount amortised is increasing each year until the full amortization on the fifth year as per the following percentages:

6.67% for the first year,
13.33% for the second year,
20.00% for the third year,
26.67% for the fourth year and
33.33% for the fifth year.

2.11 - Transaction fees

Transaction costs are mainly composed of broker fees incurred by the Fund relating to purchases or sales of securities, of fees relating to liquidation of transactions paid to the depositary and of transaction fees on financial and on derivatives instruments.

Other notes to the financial statements

3 - Management Company fees, Depositary fees and Central administration fees

The fees payable to Depositary and Paying Agent, the Central Administration Agent, Registrar and Transfer Agent and the Management Company will be within a range of 0.35-0.50% with a minimum fee of up to EUR 33,000.00 as per the Prospectus dated April 2026, applicable per Sub-fund per annum. The fees are payable monthly and accrued on each Valuation Day.

Fees are detailed below:

	Average sub-fund assets in EUR	Variable commissions
Management Company fees Annual ongoing base fee including core responsibilities as UCITS Manco as described above	AUM < EUR 100m EUR 100m <AUM< EUR 200m AUM > EUR 200m Minimum fee per annum per sub-fund which can be applied, if the combined assets of the umbrella falls below EUR 100 million	8.0 bps p.a. 7.0 bps p.a. 6.0 bps p.a. EUR 16,500
Depositary and Paying Agent	0 – EUR 500m EUR > EUR 500m Minimum fee per annum per sub-fund	0.011% 0.008% EUR 6,000.00
Central Administration Agent	EUR 0 - EUR 100m EUR 100-250m > EUR 250m Minimum monthly fee per sub-fund	0.0225% 0.0175% 0.0150% EUR 1,750.00
Registrar and Transfer Agent	3,000 EUR per annum and per sub-fund	-

4 - Investment Management fees

Pursuant to an Investment Management Agreement dated 10 June 2024, ALQUITY INVESTMENT MANAGEMENT LTD was appointed by the Management Company as Investment Manager and, pursuant to the relevant delegation agreement, is responsible for the investment management of the Company, including investment selection and implementation of the investment policy, subject to the oversight of the Management Company.

The Investment Manager is entitled to receive out of the net assets of the Sub-funds an investment management fee calculated as follows:

sub-fund	Class A	Class B	Class I	Class M	Class R	Class S	Class W	Class Y

[2] As of 3 January 2024 the Investment Management fee was reduced to 0.00 % of the total net assets per annum payable monthly and calculated on the average total net assets for the class W USD shares of ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND.

[3] As of 13 June 2024 the Investment Management fee was reduced to 0.00 % of the total net assets per annum payable monthly and calculated on the average total net assets for the class W USD shares of ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND.

The investment management fees are expressed in annual rate but are calculated on the basis of the average net assets for the past month and payable at the end of each month.

For all relevant classes of shares of the Sub-funds ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND, ALQUITY SICAV - ALQUITY ASIA FUND, ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND and ALQUITY SICAV - ALQUITY FUTURE WORLD FUND, the Investment Manager will guarantee a minimum donation of 10% of the net investment management fee (i.e. after payment of the fees of intermediaries and other third parties) via a registered charitable foundation and its associated commercial operations, to fund development projects in the regions in which this sub-fund invests. The Investment Manager may at its discretion choose to target donations at a level higher than this minimum depending on the profile of assets under management and the associated fee revenues.

Other notes to the financial statements

5 - Performance fees

Further to the acquisition of the fund management group of VAM Funds on 23 October 2023 by ALQUITY INVESTMENT MANAGEMENT LTD, the Board of Directors has decided to harmonise the performance fee model by applying a high water mark model without hurdle and without reset. The performance fee (if any) will be charged on a quarterly basis (instead on a yearly basis). Under the high water mark model, a performance fee can be charged only if the quarterly net asset value per share of the relevant performance period is higher than the quarterly net asset value per share of the performance period when a performance fee was last paid. Performance fees will not be paid when the performance for the quarter end below the previous high water mark. For the avoidance of doubt, the high water mark will never be reset.

For the purpose of the transition to the new performance fee model, the high water mark of each sub-fund/class will be the last net asset value per share at which a performance fee was paid under the current model.

For the other active share classes being subject to a performance fees mechanism, no amount has been accrued and paid.

For all relevant classes of shares of the Sub-funds ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND, ALQUITY SICAV - ALQUITY ASIA FUND, ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND and ALQUITY SICAV - ALQUITY FUTURE WORLD FUND, the Investment Manager will guarantee a minimum donation of 10% of the net investment management fee (i.e. after payment of the fees of intermediaries and other third parties) via a registered charitable foundation and its associated commercial operations, to fund development projects in the regions in which this sub-fund invests. The Investment Manager may at its discretion choose to target donations at a level higher than this minimum depending on the profile of assets under management and the associated fee revenues.

Other notes to the financial statements

6 - Flat TER Process

The Ongoing Charges of all sub-funds (except for ALQUITY SICAV - VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND, ALQUITY SICAV - VAM US SMID CAP GROWTH FUND (launched on 01/07/25 and merged out on 12/02/26), ALQUITY SICAV - VAM US SMALL CAP GROWTH FUND (launched on 01/07/25), ALQUITY SICAV - VAM US MICRO CAP GROWTH FUND (launched on 01/07/25), ALQUITY SICAV - WCM WORLD GROWTH FUND (launched on 01/07/25), ALQUITY SICAV - VAM FUND (launched on 01/07/25), ALQUITY SICAV - VAM BALANCED FUND (launched on 01/07/25), ALQUITY SICAV - VAM CAUTIOUS FUND (launched on 01/07/25), ALQUITY SICAV - VAM GROWTH FUND (launched on 01/07/25)) are included in a Flat TER for each Class of Shares of each sub-fund. The Flat TER is flat in the sense that:

(i) to the extent that the Ongoing Charges per class exceed the Flat TER, the Investment Manager will pay such excess amount;
(ii) to the extent that the Ongoing Charges per class are below the Flat TER, the Investment Manager will be entitled to receive any amount of Flat TER in excess of the Ongoing Charges.

The Ongoing Charges include all the annual charges and other payments taken from the assets of the Sub-funds which include, but are not limited to, investment management fee, distribution fee, management company fees, sub-administrative agent fees, sub-registrar agent fees, depositary fees, Directors' fees and expenses, registration costs, regulatory fees, audit fees, legal fees, setup costs, translation costs, printing costs and publication costs including value-added tax (VAT) or similar taxes that might apply in any jurisdiction.

For all sub-funds (except for Alquity SICAV - VAM Fundamental Emerging Markets Equity Fund, Alquity SICAV – VAM US Small Cap Growth Fund, Alquity SICAV – VAM US Micro Cap Growth Fund, Alquity SICAV – WCM World Growth Fund, Alquity SICAV – VAM Fund, Alquity SICAV – VAM Balanced Fund, Alquity SICAV – VAM Cautious Fund, Alquity SICAV – VAM Growth Fund), each class of shares incurs a distinct Flat TER expressed in a percentage of the average net asset value of the relevant Class of Shares as follows:

	ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND	ALQUITY SICAV - ALQUITY ASIA FUND	ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND	ALQUITY SICAV - ALQUITY FUTURE WORLD FUND
Class A	3.00%	3.00%	3.00%	3.00%
Class B	3.00%	3.00%	3.00%	3.00%
Class I	1.05%	0.90%	0.90%	0.90%
Class M	3.00%	3.00%	3.00%	3.00%
Class R	2.45%**	2.45%**	2.45%**	2.45%**
Class S	0.49%	3.00%	3.00%	0.49%*
Class W	0.49%****	0.65%	0.49%***	2.10%
Class X	1.30%	1.30%	1.30%	N.A.
Class Y USD Cap	1.90%	1.90%	1.90%	1.90%
Class Y EUR Cap	1.90%	1.90%	1.90%	1.90%
Class Y GBP Rep	1.55%	1.55%	1.55%	1.55%
Class D	1.05%	1.10%	1.10%	1.10%

The Flat TER of each Class of Shares may be amended by the Board of Directors upon notice to the relevant shareholders.

*From 15th August 2022 until further notice, TER was reduced to 0.49% of the total net assets per annum payable monthly and calculated on the average total net assets for the class S GBP shares of ALQUITY SICAV - ALQUITY FUTURE WORLD FUND.

**From 1st November 2023, TER was reduced to 2.45% of the total net assets per annum payable monthly and calculated on the average total net assets for the class R shares of all Sub-Funds.

***From 4th January 2024, TER was reduced to 0.49% of the total net assets per annum payable monthly and calculated on the average total net assets for the class W shares of ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND.

****From 13th June 2024, TER was reduced to 0.49% of the total net assets per annum payable monthly and calculated on the average total net assets for the class W shares of ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND.

7 - Commissions on subscriptions/redemptions

A subscription fee of up to 5% of the net assets values for the all shares classes (except for Class Z being not subject to the mechanism of deferred subscription fees amortisation) for all sub-funds of ALQUITY SICAV may be charged. This subscription fee may be retroceded to the various financial intermediaries involved in the marketing of the shares.

No redemption fees are charged to the all shares classes excepted for the Class Z. Class Z shares redeemed within five (5) years following the Valuation Day in respect of which they were subscribed will be subject to a redemption fee for the benefit of continuing investors as follows:

Period following subscription	**Redemption fee**
Within one year of subscription	5% of the initial subscription amount
On or after 1 year but within 2 years of subscription	4% of the initial subscription amount
On or after 2 years but within 3 years of subscription	3% of the initial subscription amount

Other notes to the financial statements

7 - Commissions on subscriptions/redemptions

On or after 3 years but within 4 years of subscription	2% of the initial subscription amount
On or after 4 years but within 5 years of subscription	1% of the initial subscription amount
On or after 5 years after subscription	No redemption fee

No conversion fees are charged to the all shares classes.

8 - Transaction fees

Transaction costs are mainly composed of broker fees incurred by the Fund relating to purchases or sales of securities, of fees relating to liquidation of transactions paid to the depositary and of transaction fees on financial and on derivatives instruments.

9 - Subscription tax ("Taxe d'abonnement")

The Company is governed by Luxembourg law.
Pursuant to the legislation and regulations in force, the Company is subject to an annual subscription duty ("taxe d'abonnement") of 0.05% which is payable quarterly and calculated on the basis of the net assets of each Sub-Fund on the last day of each quarter. The rate of this tax is reduced to 0.01% of the value of the net assets for Sub-Funds or Classes of Shares reserved for institutional investors.

According to Article 175 (a) of the amended Law of 17th December 2010, the net assets invested in Undertakings for Collective Investments already subject to the "taxe d'abonnement" are exempt from this tax.

10 - Securities lending

As at 30 June 2026, the income earned from securities lending during the year per Sub-Fund is detailed as follows:

Sub-Funds	Currency	Lent Assets in Sub-Fund currency	Collateral Value in Sub-Fund currency	Total gross amount of securities lending income in Sub-Fund currency	Direct-indirect costs and fees deducted from gross securities lending income Sub-Fund Currency	Net Income in Sub-Fund Currency
ALQUITY GLOBAL IMPACT FUND	USD	-	-	1.27	0.51	0.76
VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND	USD	1,959,956	2,013,647	1,089.20	435.68	653.52
VAM US SMID CAP GROWTH FUND * (launched on 01/07/25 and merged out on 12/02/26)	USD	-	-	1,338.72	535.49	803.23
VAM US SMALL CAP GROWTH FUND (launched on 01/07/25)	USD	-	-	4,563.03	1,825.21	2,737.82
VAM US MICRO CAP GROWTH FUND (launched on 01/07/25)	USD	-	-	4,708.10	1,883.24	2,824.86
WCM WORLD GROWTH FUND (launched on 01/07/25)	USD	941	982	966.40	386.56	579.84
VAM BALANCED FUND (launched on 01/07/25)	GBP	648,604	682,335	5,377.25	2,150.90	3,226.35
VAM CAUTIOUS FUND (launched on 01/07/25)	GBP	177,634	186,508	1,802.43	720.97	1,081.46
VAM GROWTH FUND (launched on 01/07/25)	GBP	276,219	290,795	2,104.72	841.89	1,262.83

The securities lending revenue amounts are included under the heading Income on securities lending in the Statement of Operations and Changes in Net Assets.

11 - Other expenses

The item "Other expenses" are mainly composed of consultant fees and other taxes.

Other notes to the financial statements

12 - Other income

The item “Other income” comprises of retroceded fees received by the Fund in respect of subscription fees including amount retroceded to various financial intermediaries involved in the marketing of the shares.

13 - Commissions on share transactions

The commission on share transactions relates to introductory fees which are paid to distributors in relation to the Class B Shares of all Sub-Funds. These amounts will become an asset of the relevant class and amortised over five years, at a rate similar to the scale of reduction in redemption charges noted below. This treatment will have the effect of reducing the return of the Class B Shares of all Sub-Funds for the period of this amortisation. The amortisation is shared by the entire Class B Share of all the Sub-Funds whenever there is a subscription.

Period following subscription	Redemption fee
Within one year of subscription	5% of the initial subscription amount
On or after 1 year but within 2 years of subscription	4% of the initial subscription amount
On or after 2 years but within 3 years of subscription	3% of the initial subscription amount
On or after 3 years but within 4 years of subscription	2% of the initial subscription amount
On or after 4 years but within 5 years of subscription	1% of the initial subscription amount
On or after 5 years after subscription	No redemption fee

The Class B Shares of all Sub-Funds were soft closed to subscriptions since 1st July 2021. When a redemption occurs the commission on share transactions is reduced by the amount charged to the investor.

14 - Transactions with related parties

Certain Directors of the SICAV are or may also be officers and/or directors of the Investment Manager. The fees that are paid by the SICAV to the Management Company (which is not affiliated with the Investment Manager or the principal distributor) and the Investment Manager are detailed in notes 3, 4, 5 and 7 respectively, to the financial statements. The fees of the principal distributor is borne by the Investment Manager. No transactions of the SICAV were made through a broker who is a connected person of the SICAV, the Investment Manager, the principal distributor or the Directors of the SICAV.

Although the Prospectus of the SICAV does specify that soft commission arrangements may be paid to brokers in respect of the sub-fund, no soft commission arrangements are currently in place between the SICAV and the investment manager or any other parties.

15 - Valuation of Russian securities

In 2022, ALQUITY had decided to value its Russian holdings (Fix Price Group Ltd DR) at zero due to the invasion of Ukraine by Russia. The valuation of the Russian security has remained unchanged since then.

After due consideration of the best interests of all the investors in the Company, the Board resolved as at 31 May 2024 to approve the disposal of the shares. However, due to the ongoing sanctions against Russia, the Company has not been able to dispose of these assets.

Furthermore, Polyus shares were received by the sub-fund ALQUITY SICAV - ALQUITY FUTURE WORLD FUND as part of the merger of the ALQUITY SICAV - VAM EMERGING MARKETS GROWTH FUND in December 2024. This security is also valued at zero, in line with the valuation of other Russian securities held across ALQUITY SICAV.

16 - Changes in the composition of securities portfolio

The statement of changes in investments for the period in reference to the report is available free of charge upon request at the registered office of the Company.

17 - Significant events during the year

With effective date 12 February 2026, the sub-fund ALQUITY SICAV - VAM US SMID CAP GROWTH FUND was merged into the sub-fund ALQUITY SICAV - VAM US SMALL CAP GROWTH FUND.

With effective date 12 February 2026, the Investment managers for the following sub-funds have changed :

Oberweis did not take over management of ALQUITY SICAV - VAM US SMID CAP GROWTH FUND (launched on 01/07/25 and merged out on 12/02/26) as it merged into ALQUITY SICAV - VAM US SMALL CAP GROWTH FUND (launched on 01/07/25) at the point of their takeover of ALQUITY SICAV - VAM US SMALL CAP GROWTH FUND (launched on 01/07/25) and ALQUITY SICAV - VAM US MICRO CAP GROWTH FUND (launched on 01/07/25).

Other notes to the financial statements

17 - Significant events during the year

Further appointment of WCM INVESTMENT MANAGEMENT, LLC for the sub-fund ALQUITY SICAV - WCM WORLD GROWTH FUND (launched on 01/07/25) replacing the investment manager of DRIEHAUS CAPITAL MANAGEMENT LLC.

With effective date 12 February 2026, the sub-fund ALQUITY SICAV - VAM WORLD GROWTH FUND change the sub-fund name to ALQUITY SICAV - WCM WORLD GROWTH FUND.

18 - Subsequent events

As at 7 October 2026, the Annual General Meeting (AGM) is scheduled to be held.

In addition, new EUR I share classes have been issued for VAM US MICRO CAP Growth Fund and VAM US SMALL CAP GROWTH Fund.

Remuneration policy

1 - Risk Management

As required by Circular CSSF 11/512 as amended, the Board of Directors of the Company needs to determine the global risk exposure of the Fund either by applying the commitment approach or the VaR approach. In terms of risk management the Board of Directors decided to adopt the commitment approach as a method of determining the global exposure for each Sub-fund.

2 - Remuneration

The total amount of remuneration in relation to the Fund for the financial year, split into fixed and variable remuneration, paid by the Management Company, Limestone Platform AS to its staff, can be found in the table below.

Remuneration is set in accordance with the Policy and applicable laws and regulation. A summary of the Remuneration policy is available on the Limestone Platform AS webpage. No material changes were made to the Policy during the reporting period.

The implementation of the remuneration policy is periodically subject to independent internal review for compliance with the policies and procedures for remuneration adopted by the Board of Limestone Platform AS.

Remuneration of the Management Company

(Amounts in EUR '000, unless otherwise stated)

Total remuneration – All employees	
Number of employees	11
Average number of employees	12
Remuneration – all employees	
Fixed salary expenses	544
Variable salary expenses	21
TOTAL	**565**

Remuneration – Senior and Risk management	
Remuneration senior management	
Fixed salary expenses	544
Variable salary expenses	21
TOTAL	**565**
Remuneration of the risk management	
Fixed salary expenses	149
Variable salary expenses	8
TOTAL	**157**

SFDR (Sustainable Finance Disclosure Regulation)

In accordance with the requirements of the EU Regulations 2022/1288 on sustainability-related disclosures in the financial services sector (SFDR) and 2020/852 on taxonomy, it is noted that for the sub-funds ALQUITY SICAV - ALQUITY GLOBAL IMPACT FUND, ALQUITY SICAV - ALQUITY ASIA FUND, ALQUITY SICAV - ALQUITY INDIAN SUBCONTINENT FUND, ALQUITY SICAV - ALQUITY FUTURE WORLD FUND, ALQUITY SICAV - VAM FUNDAMENTAL EMERGING MARKETS EQUITY FUND (launched on 01/04/2025) and ALQUITY SICAV - WCM WORLD GROWTH FUND (launched on 01/07/2025) referred to under article 8 or 9, the (unaudited) RTS appendices are presented on the pages hereafter.

As at 30.06.2026 Alquity SICAV - Alquity Global Impact Fund had 33.9% of sustainability-related investments with a social objective, compared with the minimum target of 35% set out in the prospectus. The Investment Manager subsequently implemented measures to restore the proportion above 35%.

ANNEX V

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Alquity Global Impact Sub-fund **Legal entity identifier:** 549300E191K0P3W31N02

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

● ● [X] **Yes**	● ○ [ ] **No**
[X] It made **sustainable investments with an environmental objective: 66%**	[ ] It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
[ ] in economic activities that qualify as environmentally sustainable under the EU Taxonomy	[ ] with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
[X] in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	[ ] with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	[ ] with a social objective
[X] It made **sustainable investments with a social objective: 33.9%**	[ ] It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent was the sustainable investment objective of this financial product met?

The Global Impact Sub-fund pursued its sustainable investment objective through three main channels:

1) Integration of ESG quality criteria. The Sub-fund invested in companies that met defined minimum thresholds of ESG performance, as assessed through ESG ratings and Sustainalytics sub-industry rankings for developed market companies, and through the manager's proprietary ESG framework for emerging market companies. The Sub-fund monitored investee companies' environmental and social footprint using the below impact metrics.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

2) Revenue alignment with sustainable products. The Sub-fund required that all investee companies derive at least 5% of their revenues from products or services that provide environmental or social benefits and/or mitigate negative impacts of business activities or consumption. 62.7% of the sub-fund's portfolio was invested in companies deriving at least 20% of their revenues from such sustainable products.

3) Direct contribution to impact projects. The manager allocated 10% of the revenues generated from management fees to environmental and social projects in regions where the manager invests. These contributions were tracked in financial terms (US$) and reported in terms of direct and indirect lives impacted.

The Global Impact Sub-fund's approach followed three principles: 1) Robust Sustainability Screening, assessment of high risk industries, use of third-party verified data and assessment of controversies; 2) Assessment of environmental and social impact; 3) Alignment of revenues to UN SDGs

There was no reference benchmark.

- ***How did the sustainability indicators perform?***

  As of June 2026, the sub-fund's sustainable investments comprised of 66% sustainable investments with an environmental objective and 33.9% sustainable investments with a social objective.

  We then differentiated companies by the percentage of revenues aligned to sustainability themes.
  The sub-fund's allocations to the sustainability themes were:

- Affordable Housing: 1.9%
- Digital Inclusion: 6.2%
- Education: 0.6%
- Energy Efficiency 34.1%
- Financial Inclusion: 7.2%
- Green Buildings: 9.6%
- Green Transportation: 5.0%
- Health and Wellbeing: 12.7%
- Nutrition, Food Access and Affordability: 4.9%
- Pollution Prevention and Reduction: 3.1%
- Renewable Energy: 7.7%
- Resource Efficiency: 1.1%
- Sustainable Agriculture, Food and Forestry: 0.5%
- Water: 5.6%

The sub-fund had the following impact metrics:

Key Metric	Definition	Quantity
Carbon Intensity	Sum of Scope 1 and 2 GHG emissions per unit of revenue (metric tons CO_2 emissions/million USD)	43
Water Stress	Volume of water withdrawal per unit of revenue (m^3/million USD)	3,163
Waste generation	Waste generated, both hazardous and non-hazardous, per unit of revenue (metric tons/million USD)	76
Women on Board	Percentage of women on boards. If there are no data available, we assume zero.	35%
Women in Senior Management	Percentage of women in the top management positions. If there are no data available, we assume zero.	20%
Board Independence	Percentage of independent directors. If there are no data available, we assume zero.	74%
Waste Policy	Whether the company has implemented any initiatives to reduce the waste generated during the course of its operations. If there are no data available, we assume the company has not implemented any initiatives.	98%
Environmental Solutions	Whether a company has revenues from products or services that contribute towards environmental solutions. This includes green buildings, green transportation, pollution solutions, water technologies and equipment, waste recycling amongst others.	44% (Companies with at least 20% in revenues)

- ***…and compared to previous periods?***

In 2025, the sub-fund's sustainable investments comprised of 60% sustainable investments with an environmental objective and 39% sustainable investments with a social objective. The remaining was held in cash.

In 2025, the sub-fund's allocations to the sustainability themes were:

- Affordable Housing: 1.0%
- Digital Inclusion: 8.6%
- Education: 0.5%
- Energy Efficiency 32.2%
- Financial Inclusion: 7.5%
- Green Buildings: 7.5%
- Green Transportation: 4.4%
- Health and Wellbeing: 13.2%
- Nutrition, Food Access and Affordability: 5.2%
- Pollution Prevention and Reduction: 4.9%
- Renewable Energy: 5.3%
- Resource Efficiency: 1.3%
- Sustainable Agriculture, Food and Forestry: 3.1%
- Water: 4.6%

The sub-fund had the following impact metrics:

Key Metric	Definition	Quantity
Carbon Intensity	Sum of Scope 1 and 2 GHG emissions per unit of revenue (metric tons CO_2 emissions/million USD)	53
Water Stress	Volume of water withdrawal per unit of revenue (m^3/million USD)	2,798
Waste generation	Waste generated, both hazardous and non-hazardous, per unit of revenue (metric tons/million USD)	17
Women on Board	Percentage of women on boards. If there are no data available, we assume zero.	34%
Women in Senior Management	Percentage of women in the top management positions. If there are no data available, we assume zero.	21%
Board Independence	Percentage of independent directors. If there are no data available, we assume zero.	72%
Waste Policy	Whether the company has implemented any initiatives to reduce the waste generated during the course of its operations. If there are no data available, we assume the company has not implemented any initiatives.	99%
Environmental Solutions	Whether a company has revenues from products or services that contribute towards environmental solutions. This includes green buildings, green transportation, pollution solutions, water technologies and equipment, waste recycling amongst others.	38% (Companies with at least 20% in revenues)

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Alquity's DNSH assessment is based on Bloomberg Sustainable Finance Solution (SFS) Methodology for Do No Significant harm (DNSH) criteria. DNSH covers qualitative, quantitative and process-based criteria. The DNSH requirement asks companies to comprehensively assess the direct environmental impact of their activities under the criteria defined by the EU Taxonomy. While we, as active investors, gain a better understanding of how and to what extent investments substantially contribute to an environmental objective, we must ensure that these investments avoid significantly harming any of the six EU Taxonomy environmental objectives: i) climate change adaptation, ii) climate change mitigation, iii) water and marine resources, iv) circular economy, iv) pollution prevention and control, and vi) protection of biodiversity.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The technical screening criteria for DNSH to each objective are represented by Bloomberg 'data fields'. Each data field is aligned with the DNSH screening criteria for the relevant environmental objective and comprises a qualitative or quantitative threshold value and measurement unit or metric. Approximately 35 DNSH Level 1 data fields are used.

All our holdings have passed the Level 1 disclosure tolerance of 20% across the six environmental objectives.

How were the indicators for adverse impacts on sustainability factors taken into account?

Alquity's DNSH assessment is based on Bloomberg Sustainable Finance Solution (SFS) Methodology for Do No Significant harm (DNSH) criteria. DNSH covers qualitative, quantitative and process-based criteria. The DNSH requirement asks companies to comprehensively assess the direct environmental impact of their activities under the criteria defined by the EU Taxonomy. While we, as active investors, gain a better understanding of how and to what extent investments substantially contribute to an environmental objective, we must ensure that these investments avoid significantly harming any of the six EU Taxonomy environmental objectives: i) climate change adaptation, ii) climate change mitigation, iii) water and marine resources, iv) circular economy, iv) pollution prevention and control, and vi) protection of biodiversity.

- - - *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

We do not directly monitor the alignment of our investments with the the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. However, Alquity's ESG analysis includes a detailed assessment of corporate practices in investee companies related to the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. These include, but are not limited to, practices and policies related to bribery and corruption, political involvement, discrimination and equality, human rights, health and safety, data privacy, intellectual property and equitable pricing. Further scrutiny on controversies related to these corporate practices as part of our investment principles ensure the alignment of our sustainable investments to these guidelines and principles.

How did this financial product consider principal adverse impacts on sustainability factors?

The Alquity Global Impact Sub-fund does not consider the PAIs within the scope of the SFDR's definition due to the poor availability, consistency, comparability and transparency of existing ESG data for PAIs, and the challenges the onerous reporting required by the Regulation poses to a small firm such as Alquity.

What were the top investments of this financial product?

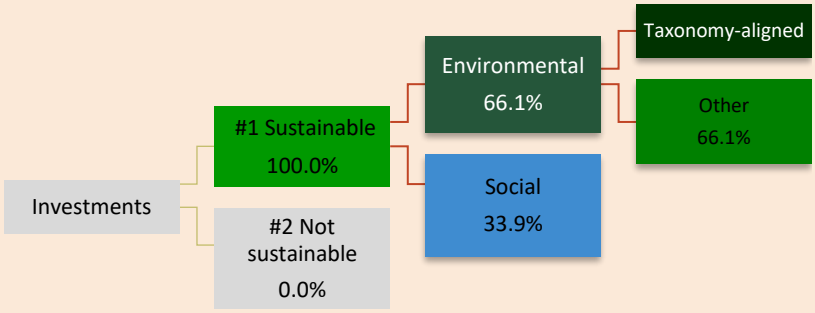

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: As of 30th June 2026

Largest investments	Sector	% Assets	Country
Microsoft	Information Technology	6.6%	United States
Nvidia	Information Technology	5.9%	United States
Broadcom	Information Technology	2.5%	United States
AMD	Information Technology	2.0%	United States
Coles Group	Consumer Staples	1.8%	Australia
Cisco Systems	Information Technology	1.4%	United States
GE Vernova	Industrials	1.3%	United States
AbbVie	Health Care	1.3%	United States
Micron Technology	Information Technology	1.3%	United States
Eli Lilly	Health Care	1.2%	United States
ABB	Industrials	1.2%	Switzerland
IBM	Information Technology	1.2%	United States
Otis	Industrials	1.1%	United States
Mercedes-Benz	Consumer Discretionary	1.1%	Germany
SK hynix	Information Technology	1.1%	South Korea

What was the proportion of sustainability-related investments?

As of June 2026, the Sub-fund had 100% in sustainability-related investments, defined as companies with at least 5% sustainable revenues.

What was the asset allocation?

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

As of June 2026, the Sub-fund had 66.1% in sustainability-related investments with an environmental objective and 33.9% with a social objective, defined as companies with at least 5% sustainable revenues.

In which economic sectors were the investments made?

For the Alquity Global Impact Sub-fund, the investments were made in the following economic sectors:

- Information technology: 35.6%
- Industrials: 20.7%
- Health Care: 12.2%
- Financials: 10.8%
- Real Estate: 7.9%
- Consumer staples: 5.3%
- Consumer discretionary: 3.7%
- Materials: 1.8%
- Utilities: 1.7%
- Communication Services: 1.1%

No investments were made in sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

We do not currently commit to a minimum proportion of investments of the Sub-fund that are Taxonomy aligned. Accordingly, the percentage of investments aligned with the EU Taxonomy is 0% of the net assets of the Sub-fund.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

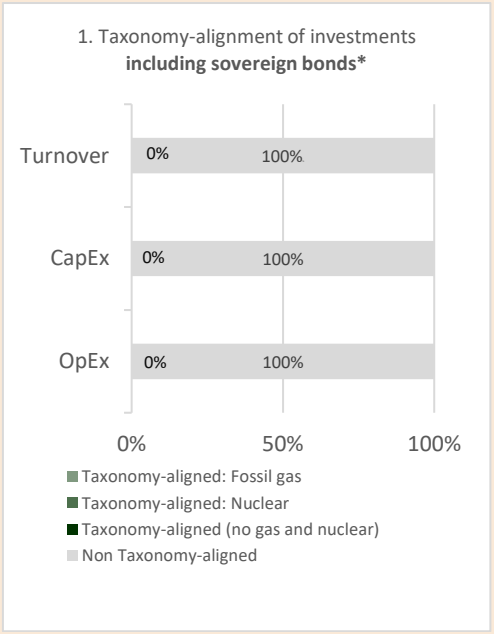

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

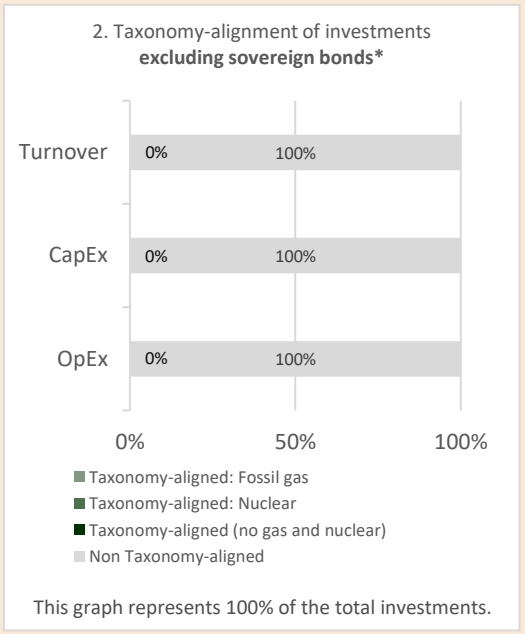

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

What was the share of investments made in transitional and enabling activities?

We do not commit to a minimum proportion of investments in transitional and enabling activities.

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

- ***How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

66%. The Sub-fund does not commit to a minimum share of sustainable investments with an environmental objective that are aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

33.9%. The Sub-fund commits to a minimum of 35% in socially sustainable investments.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

As of end of June 2026, 0.9% of the Sub-fund was held in cash. This cash is used as a function of liquidity for client withdrawals and redemptions. There are no minimum environmental or social safeguards for cash. However, excess cash is eventually invested according to the Sub-fund investment strategy.

What actions have been taken to attain the sustainable investment objective during the reference period?

The following actions were taken as part of binding principles in meeting the environmental and social characteristics this year:

I General Principles

The following principles were applied in screening the investible sustainable universe and in constructing a sustainable portfolio.

a. Exclusions: We excluded companies with products that belong to industries with significant negative impact, such as alcohol, tobacco, gambling, adult entertainment, fast fashion, soft drinks, fossil fuels, and armaments. We also excluded sub-industries that are significantly high GHG emitters and use significant amounts of fossil-fuels, such as cement and non-renewable energy utilities.
b. For Developed Markets, a company must have a minimum rating of 'A' by our ESG data provider and ranked in the top 43rd percentile by Sustainalytics within its subindustry.
c. High risk industries: Companies that are involved in sectors with high GHG emissions (such as livestock farming, aviation and shipping) were treated as "high risk" industries. A company must have a minimum rating of 'AA' by our ESG data provider and ranked in the top 28th percentile by Sustainalytics within its subindustry.

d. Highly sustainable companies with revenues of at least 20% aligned to the UN SDGs: A company must have a minimum rating of 'BBB' by a our ESG data provider and ranked in the top 57thth percentile by Sustainalytics within its subindustry. For high-risk sectors, a company must have a minimum rating of 'A' by our ESG data provider and ranked in the top 43rd percentile by Sustainalytics within its subindustry
e. Third-party data verification: For Developed Markets, we did not estimate our own data and instead utilise third-party verified data (such as Sustainalytics/Bloomberg proprietary data) to assess a company's environmental and social footprint. If we did not have company data to measure key metrics, it was either excluded or the lowest value was assigned (for example, we assumed zero percentage of women on board if a company does not report this or exclude a company without GHG emissions information).
f. Controversies: Using our own assessment as well as those from a third-party (such as Sustainalytics), a company involved in significant controversial events was considered uninvestible. Aside from our own assessment, a Developed Markets Company must at least have a Controversy Level 3, Neutral Outlook from Sustainalytics to be considered investible.

II Environmental and Social Footprint

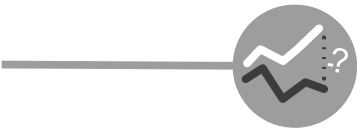

We tracked how our strategy performs on relevant key impact metrics across environmental, social and governance factors that contribute towards the UN SDGs. Our impact measurement process consisted of 9 key metrics.

III Alignment of Revenues to the UN SDG's

We employed a robust approach to determining the alignment of a company's revenues to the UN SDG's. Our framework consisted of the following steps:

1. We captured third-party verified methodologies that align a company's revenues to a sustainability theme and category of involvement (such as Sustainalytics). If a company is not included in the third-party universe of sustainable companies, we may independently analyse and assess the percentage of revenue by sources (available from a data provider such as Bloomberg) for sustainability themes and categories of involvement.
2. Each of these themes and categories were then mapped to one or more UN SDG's.
3. A company may derive its revenues across multiple sustainability themes and categories of involvement, and the percentage of revenues was aggregated across these multiple themes and categories.
4. The Sub-fund invested in companies that derived at least 5% of their revenues with sustainable products that offered environmental and social benefits and/or reduced the impact of business activity or consumption.
5. At least 50% of the portfolio was invested in companies that derived at least 20% of their revenues from these sustainable products.

We engaged with some of our holdings on social and environmental topics (e.g. workers safety and circularity) and we participated in several investor initiatives, like the ones led by the FAIRR Initiative (e.g. Sustainable Aquaculture), taking part in the dialogue with different companies.

How did this financial product perform compared to the reference sustainable benchmark?

N/A

- ***How did the reference benchmark differ from a broad market index?***

  N/A

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

  N/A

- ***How did this financial product perform compared with the reference benchmark?***

  N/A

- ***How did this financial product perform compared with the broad market index?***

  N/A

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Alquity Asia Fund **Legal entity identifier:** 5493007A9C5N3STBCL85

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes	No
☐ It made **sustainable investments with an environmental objective:** ___%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund thoroughly assesses the Environmental, Social and Governance risk profile of companies using its own proprietary methodology and excludes any companies that fail to meet the minimum standards set out in this methodology or are involved in any E or S controversy. Our companies continue to evolve on their E, S and G credentials, and we haven't exited any company as a consequence of an ESG failure.

- ***How did the sustainability indicators perform?***

  The GHG intensity of the portfolio was 102.3 (tonnes per million dollars), while the water intensity was 1127.9 (tonnes per million dollars).

  Our 18 KPIs (represented as a percentage of the Alquity Asia fund portfolio that meet each KPI) performed as follows:

  - GHG emissions (scope 1 and 2): 83%
  - GHG emissions (scope 3): 60%
  - Water usage: 81%
  - Waste: 80%
  - Defined targets to reduce environmental impact: 53%
  - Biodiversity plan in place: 23%
  - Staff turnover: 87%
  - Health and Safety policy: 96%
  - Cybersecurity policy: 96%
  - Training programme: 100%
  - Plan to increase gender diversity: 30%
  - Lost Time Injury Rates: 81%
  - Equal Opportunities: 100%
  - Board independence: 45%
  - Management remuneration: 98%
  - ESG factors included in management compensation: 28%
  - TCFD reporting: 49%
  - Whistleblower policy: 98%

  All this information is made available to investors in our annual impact report and quarterly presentations.

- ***…and compared to previous periods?***

  In the previous period, GHG intensity of the portfolio was 99.2 (tonnes per million dollars). Meanwhile, the water intensity was 1038.0 (tonnes per million dollars). Water intensity increased 9%, mostly as the consequence of enhanced disclosure as well as changes in the portfolio. GHG intensity of the portfolio increased 3% YoY.

  Our KPIs showed a steady improvement in the current reporting period when compared to the previous reporting period. Figures for the previous period can be seen below:

  - GHG emissions (scope 1 and 2): 81%
  - GHG emissions (scope 3): 53%

- Water usage: 79%
- Waste: 80%
- Defined targets to reduce environmental impact: 50%
- Biodiversity plan in place: 20%
- Staff turnover: 84%
- Health and Safety policy: 92%
- Cybersecurity policy: 88%
- Training programme: 98%
- Plan to increase gender diversity: 20%
- Lost Time Injury Rates: 78%
- Equal Opportunities: 97%
- Board independence: 48%
- Management remuneration: 95%
- ESG factors included in management compensation: 13%
- TCFD reporting: 42%
- Whistleblower policy: 98%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

30/06/2026

Largest investments	Sector	% Assets	Country
TSMC	Information Technology	10.0%	Taiwan
SK Hynix	Information Technology	9.7%	South Korea
Tencent	Communication Services	5.8%	Cayman Islands
SK Square	Industrials	4.6%	South Korea
MediaTek	Information Technology	3.0%	Taiwan
Delta Electronics	Information Technology	2.7%	Taiwan
Hong Kong Exchanges &	Financials	2.1%	Hong Kong
Lite-On Technology	Information Technology	1.9%	Taiwan
MPI	Information Technology	1.9%	Taiwan
EO Technics	Information Technology	1.7%	South Korea
AIA Group	Financials	1.6%	Hong Kong
Hon Precision	Information Technology	1.5%	Taiwan
Lodha Developers	Real Estate	1.5%	India
Phoenix Mills	Real Estate	1.5%	India
Kia	Consumer Discretionary	1.5%	South Korea

What was the proportion of sustainability-related investments?

We do not currently commit to a minimum proportion of sustainable investments. Accordingly, the percentage of investments of the Alquity Asia Fund is 0% of the net assets of the Fund.

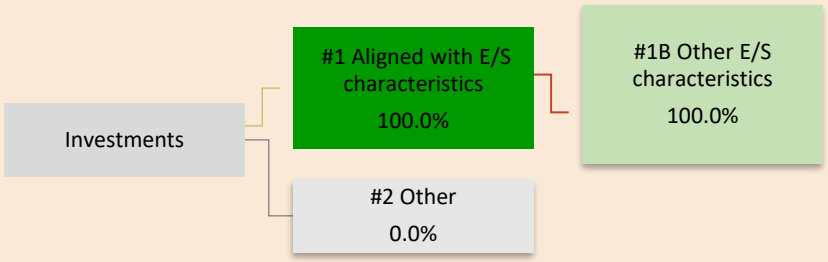

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

The proportion of investments used to meet the environmental or social characteristics promoted by the sub-fund were 100.0% for the reporting period.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

For the Alquity Asia Fund, the investments were made in the following economic sectors:

- Information technology: 43.6%
- Consumer discretionary: 15.3%
- Financials: 14.3%
- Industrials: 9.6%
- Communication services: 9.3%
- Real Estate: 5.7%
- Consumer staples: 1.4%
- Materials: 0.9%

No investments were made in any of the sub-sectors listed under Article 54.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

We do not currently commit to a minimum proportion of investments of the Fund that are Taxonomy aligned. Accordingly, the percentage of investments of the Alquity Asia Fund aligned with the EU Taxonomy is 0% of the net assets of the Fund.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

(OpEx) reflecting green operational activities of investee companies.

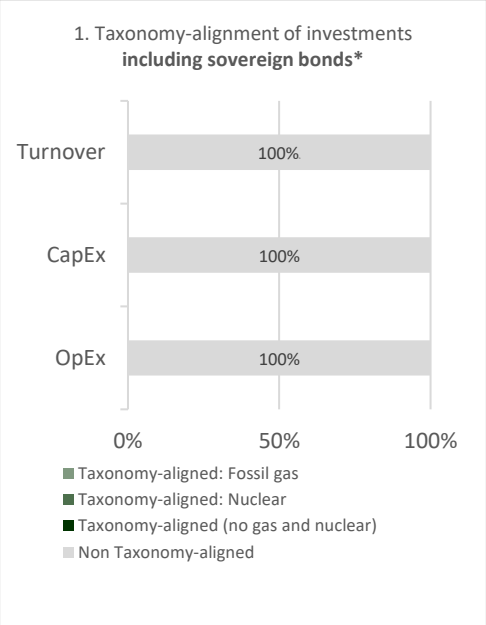

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

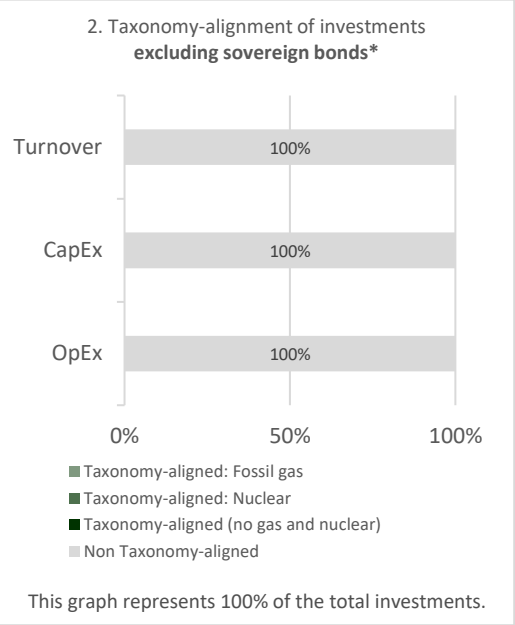

Yes:

In fossil gas In nuclear energy

X No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

What was the share of investments made in transitional and enabling activities?

We do not commit to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

0%. Not applicable.

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%. The Alquity Asia Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0%. The Alquity Asia Fund does not commit to a minimum share of socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and cash equivalents fall within this category. During the reference period, the Fund remained fully invested.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The E/S characteristics are implemented on a continuous basis as part of the investment process and include:

1. Exclusionary criteria and "Green Flags" (positive screening). ESG analysis is a critical component of Alquity's investment process. As mentioned above, there are certain practices we believe are inconsistent with long-term financial returns and an overall positive societal impact. Furthermore, we will invest in those firms that are making significant contributions to sustainable practices, social progress, and ethical governance.

2. Proprietary ESG ratings methodology. Our ESG analysis is holistic and exhaustive with equal importance placed on each aspect. In other words, we will not over-ride poor social or governance standards, just because a company places a heavy focus on environmental issues alone. Ultimately, we are concerned with material ESG issues and the analysis must provide us with sufficient comfort on all of these before an A-C rating is achieved.

We review behaviours and practices across the firm in the context of global or regional best practice. As a discipline, and for comparability, we then assign a rating to each institution, which captures risk and the quality of management judgement and decision making. Only those companies rated C or better can be included in the portfolio. To be clear, this means that we will only invest in firms where there is satisfactory quality and alignment of management. Moreover, we are interested not only in the absolute standard of "ESG quality", but also the ability of a firm to improve its judgement, communication and efficiency over time. Investors should not, therefore, expect our portfolios to have any bias between A, B and C rated companies.

We take the economic, social, political and regulatory environment of Asia into account in our ratings by focusing our ratings on relative ESG performance to peers. For high-risk industries, we believe that to get an A rating, the company must display global best practice whereas for low-risk industries we seek regional best practice. This ensures we manage the ESG risks appropriately whilst remaining pragmatic about the circumstances for each company. ESG analysis is undertaken through a combination of desk- based research, meetings with management, site visits, and industry research. The definitions for each of our ratings are as follows:

A Rating

- High risk industry demonstrating global best practice performance in ESG.
- Lower risk industry demonstrating regional best practice in ESG.

B Rating

- High risk industry demonstrating regional best practice in ESG.
- Lower risk industry with satisfactory ESG performance better than regional peers; or in-line with regional peers but with a demonstrable intention to improve on material KPIs.

C Rating

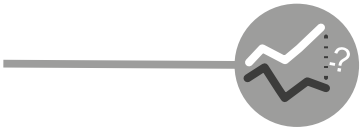

- High risk industry with satisfactory ESG performance, in line with regional peers, but demonstrating a meaningful commitment to improve on material KPIs.
- Lower risk industry with satisfactory ESG performance in-line with or better than regional peers, but with no demonstrable intention to improve on material KPIs.

3. Portfolio construction is targeted to produce a lower GHG and water intensity than the index and for GHG emissions to reduce in line with IPCC 1.5 degree scenario.

4. Active engagement with investee companies in accordance with our Key Progress Indicators which are based upon specific environmental and social characteristics, as well as on a variety of topics.

5. Our voting policy is based on our Principles of Governance, which are aligned with our Key Progress Indicators.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The reference index is a general market index, representing the investment universe, and is not consistent with the E/S characteristics promoted by the fund.

How does the reference benchmark differ from a broad market index?

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

  Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

  Not applicable.

- ***How did this financial product perform compared with the broad market index?***

  Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Alquity Indian Subcontinent Fund **Legal entity identifier:** 549300GUOY6KNTLMTC52

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ **Yes**	☒ **No**
☐ It made **sustainable investments with an environmental objective:** ___%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund thoroughly assesses the Environmental, Social and Governance risk profile of companies using its own proprietary methodology and excludes any companies that fail to meet the minimum standards set out in this methodology or are involved in any E or S controversy. Our companies continue to evolve on their E, S and G credentials, and we haven't exited any company as a consequence of an ESG failure.

- ***How did the sustainability indicators perform?***

  The GHG intensity of the portfolio was 262.0 (tonnes per million dollars), while the water intensity was 635.8 (tonnes per million dollars).

  Our 18 KPIs (represented as a percentage of the Alquity Indian Subcontinent fund portfolio that meet each KPI) performed as follows:

  - GHG emissions (scope 1 and 2): 92%
  - GHG emissions (scope 3): 59%
  - Water usage: 92%
  - Waste: 86%
  - Defined targets to reduce environmental impact: 65%
  - Biodiversity plan in place: 30%
  - Staff turnover: 97%
  - Cybersecurity policy: 97%
  - Health and Safety policy: 100%
  - Training programme: 100%
  - Plans to increase gender diversity: 38%
  - Lost Time Injury Rates: 86%
  - Equal Opportunities policy: 100%
  - ESG factors included in management compensation: 32%
  - Board independence: 65%
  - Management remuneration: 100%
  - TCFD reporting: 32%
  - Whistleblower policy: 100%

  All this information is made available to investors in our annual impact report and quarterly presentations.

- ***…and compared to previous periods?***

  In the previous period, the GHG intensity of the portfolio was 262.6 (tonnes per million dollars), being flat versus the previous period. Meanwhile, the water intensity for the previous year was 726.3 (tonnes per million dollars), reflecting a reduction year on year of 12%.

  Most of our KPIs showed a steady improvement in the current reporting period when compared to the previous one. Figures for the previous period can be seen below:

  - GHG emissions (scope 1 and 2): 91%
  - GHG emissions (scope 3): 51%

- Water usage: 86%
- Waste: 86%
- Defined targets to reduce environmental impact: 56%
- Biodiversity plan in place: 21%
- Staff turnover: 93%
- Cybersecurity policy: 91%
- Health and Safety policy: 93%
- Training programme: 95%
- Plans to increase gender diversity: 28%
- Lost Time Injury Rates: 79%
- Equal Opportunities policy: 100%
- ESG factors included in management compensation: 16%
- Board independence: 70%
- Management remuneration: 100%
- TCFD reporting: 21%
- Whistleblower policy: 100%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

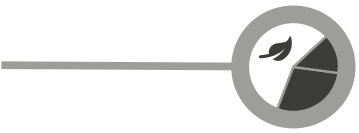

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

30/06/2026

Largest investments	Sector	% Assets	Country
HDFC Bank	Financials	6.1%	India
ICICI Bank	Financials	6.1%	India
Bharti Airtel	Communication Services	4.1%	India
Lemon Tree	Consumer Discretionary	3.7%	India
Lodha Developers	Real Estate	3.6%	India
Le Travenues Technology	Consumer Discretionary	3.2%	India
Phoenix Mills	Real Estate	3.2%	India
Skipper	Industrials	3.2%	India
Polycab	Industrials	3.2%	India
Aditya Vision	Consumer Discretionary	3.1%	India
V-Mart Retail	Consumer Discretionary	3.0%	India
HDFC Bank (ADR)	Financials	2.9%	India
Mahindra & Mahindra	Consumer Discretionary	2.9%	India
Samhi Hotels	Consumer Discretionary	2.9%	India
Infosys	Information Technology	2.8%	India

What was the proportion of sustainability-related investments?

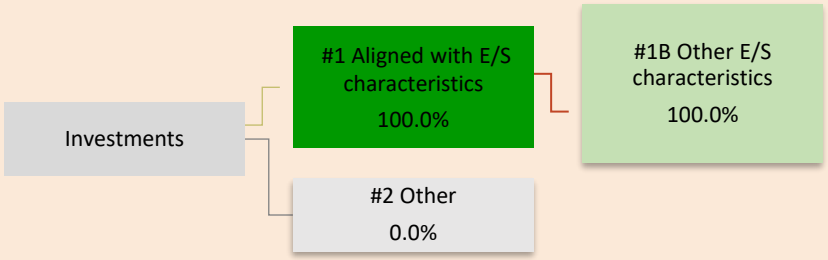

We do not currently commit to a minimum proportion of sustainable investments. Accordingly, the percentage of investments of the Alquity Indian Subcontinent Fund is 0% of the net assets of the Fund.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by the sub-fund were 100.0% for the reporting period.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

For the Alquity Indian Subcontinent Fund, the investments were made in the following economic sectors:

- Consumer discretionary: 31.5%
- Financials: 29.6%
- Information technology: 11.1%
- Industrials: 9.0%
- Real Estate: 7.8%
- Communication Services: 5.8%
- Materials: 2.9%
- Health Care: 1.4%
- Consumer Staples: 1.0%

No investments were made in any of the sub-sectors listed under Article 54.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

We do not currently commit to a minimum proportion of investments of the Fund that are Taxonomy aligned. Accordingly, the percentage of investments of the Alquity Indian Subcontinent Fund aligned with the EU Taxonomy is 0% of the net assets of the Fund.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

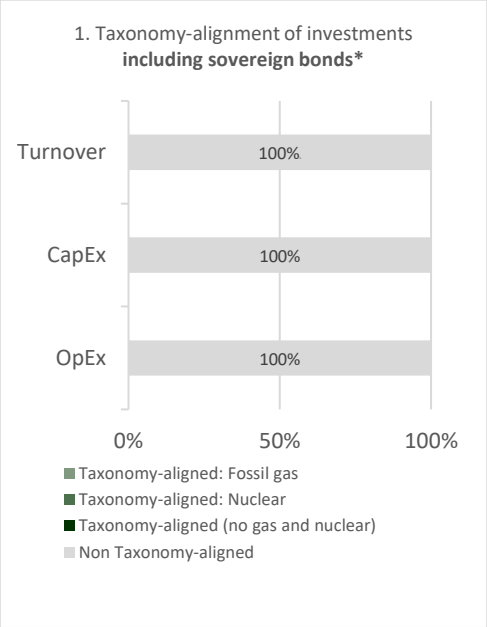

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

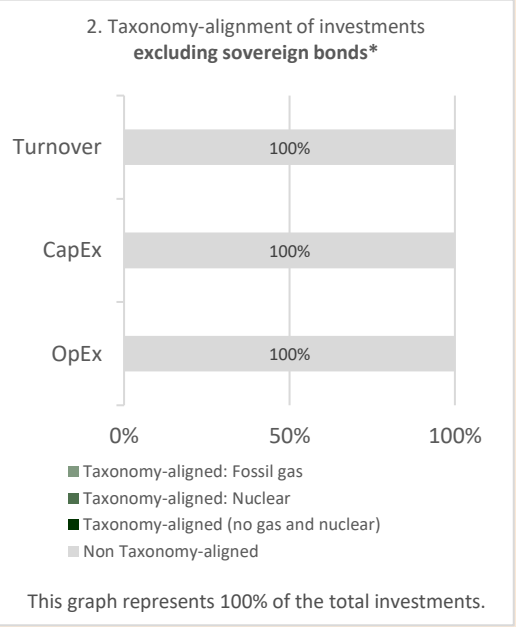

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

What was the share of investments made in transitional and enabling activities?

We do not commit to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

0%. Not applicable.

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%. The Alquity Indian Subcontinent Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0%. The Alquity Indian Subcontinent Fund does not commit to a minimum share of socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and cash equivalents fall within this category. During the reference period, the Fund remained fully invested.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The E/S characteristics are implemented on a continuous basis as part of the investment process and include:

1. Exclusionary criteria and "Green Flags" (positive screening). ESG analysis is a critical component of Alquity's investment process. There are certain practices we believe are inconsistent with long-term financial returns and an overall positive societal impact. Furthermore, we will invest in those firms that are making significant contributions to sustainable practices, social progress and ethical governance.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Alquity Future World Fund **Legal entity identifier:** 5493004F3Z831Q1DMI65

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● ☐ **Yes**	●○ ☒ **No**
☐ It made **sustainable investments with an environmental objective:** ___%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund thoroughly assesses the Environmental, Social and Governance risk profile of companies using its own proprietary methodology and excludes any companies that fail to meet the minimum standards set out in this methodology or are involved in any E or S controversy. Our companies continue to evolve on their E, S and G credentials, and we haven't exited any company as a consequence of an ESG failure.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The GHG intensity of the portfolio was 98.9 (tonnes per million dollars), while the water intensity was 1126.9 (tonnes per million dollars).

Our 18 KPIs (represented as a percentage of the Alquity Future World fund portfolio that meet each KPI) performed as follows:

- GHG emissions (scope 1 and 2): 87%
- Water usage: 84%
- GHG emissions (scope 3): 63%
- Waste: 84%
- Defined targets to reduce environmental impact: 60%
- Biodiversity plan in place: 39%
- Staff turnover: 90%
- Health and Safety policy: 97%
- Training programme: 100%
- Cybersecurity policy: 96%
- Plan to increase gender diversity: 40%
- Lost Time Injury Rates: 79%
- Equal Opportunities: 100%
- Board independence: 46%
- Management remuneration: 97%
- ESG factors included in management compensation: 32%
- TCFD reporting: 54%
- Whistleblower policy: 99%

All this information is made available to investors in our annual impact report and quarterly presentations.

…and compared to previous periods?

In the previous period, the GHG intensity of the portfolio was 95.9 (tonnes per million dollars). Meanwhile, the water intensity was 989.0 (tonnes per million dollars). Water intensity increased 14%, mostly as the consequence of enhanced disclosure as well as changes in the portfolio. GHG intensity of the portfolio increased 3% YoY.

Most of our KPIs showed a steady improvement in the current reporting period when compared to the previous one. Figures for the previous period can be seen below:

- GHG emissions (scope 1 and 2): 82%
- Water usage: 79%
- GHG emissions (scope 3): 56%
- Waste: 79%
- Defined targets to reduce environmental impact: 56%
- Biodiversity plan in place: 24%
- Staff turnover: 85%
- Health and Safety policy: 92%
- Training programme: 99%
- Cybersecurity policy: 91%
- Plan to increase gender diversity: 24%
- Lost Time Injury Rates: 76%
- Equal Opportunities: 95%
- Board independence: 46%
- Management remuneration: 95%
- ESG factors included in management compensation: 16%
- TCFD reporting: 45%
- Whistleblower policy: 97%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

30/06/2026

Largest investments	Sector	% Assets	Country
TSMC	Information Technology	9.9%	Taiwan
SK Hynix	Information Technology	9.8%	South Korea
SK Square	Industrials	3.3%	South Korea
MediaTek	Information Technology	2.7%	Taiwan
Delta Electronics	Information Technology	2.5%	Taiwan
Lite-On Technology	Information Technology	1.7%	Taiwan
MPI	Information Technology	1.7%	Taiwan
Hon Precision	Information Technology	1.5%	Taiwan
Park Systems	Information Technology	1.3%	South Korea
EO Technics	Information Technology	1.1%	South Korea
Kia	Consumer Discretionary	1.1%	South Korea
Antofagasta	Materials	1.1%	United Kingdom
eMemory Technology	Information Technology	0.8%	Taiwan
Zhongji Innolight	Information Technology	0.7%	China
Gold Fields	Materials	0.6%	South Africa

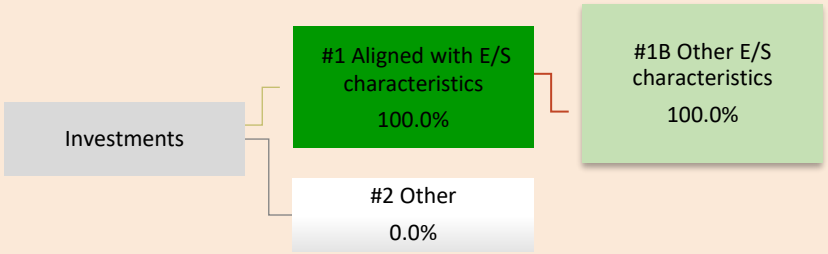

What was the proportion of sustainability-related investments?

We do not currently commit to a minimum proportion of sustainable investments. Accordingly, the percentage of investments of the Alquity Future World Fund is 0% of the net assets of the Fund.

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by the sub-fund were 100.0% for the reporting period

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

For the Future World Fund, the investments were made in the following economic sectors:

- Information technology: 39.1%
- Financials: 16.2%
- Consumer discretionary: 14.6%
- Industrials: 8.3%
- Communication services: 8.3%
- Real Estate: 7.5%
- Consumer staples: 3.9%
- Materials: 2.1%
- Health care: 0.5%

No investments were made in any of the sub-sectors listed under Article 54.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

We do not currently commit to a minimum proportion of investments of the Fund that are Taxonomy aligned. Accordingly, the percentage of investments of the Future World Fund aligned with the EU Taxonomy is 0% of the net assets of the Fund.

Enabling activities directly enable

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

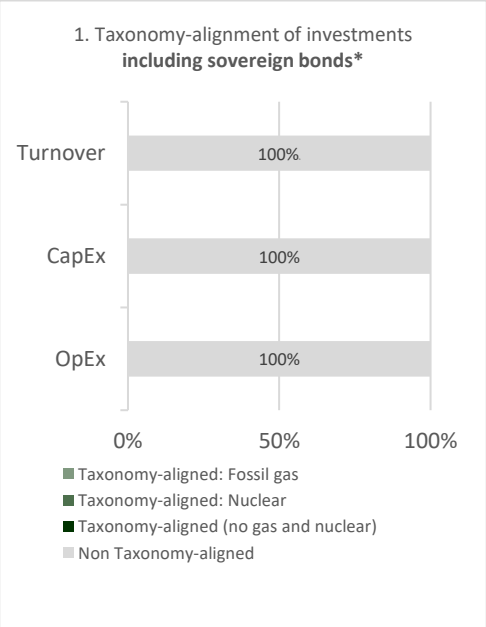

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

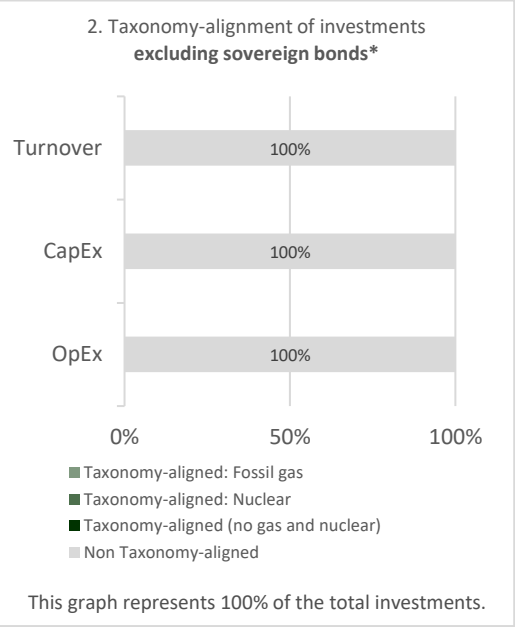

Yes:

In fossil gas In nuclear energy

X No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

What was the share of investments made in transitional and enabling activities?

We do not commit to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

0%. Not applicable.

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%. The Alquity Future World Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0%. The Alquity Future World Fund does not commit to a minimum share of socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and cash equivalents fall within this category. During the reference period, the Fund remained fully invested.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The E/S characteristics are implemented on a continuous basis as part of the investment process and include:

1. Exclusionary criteria and "Green Flags" (positive screening). ESG analysis is a critical component of Alquity's investment process. As mentioned above, there are certain practices we believe are inconsistent with long-term financial returns and an overall positive societal impact. Furthermore, we will invest in those firms that are making significant contributions to sustainable practices, social progress, and ethical governance.

2. Proprietary ESG ratings methodology. Our ESG analysis is holistic and exhaustive with equal importance placed on each aspect. In other words, we will not over-ride poor social or governance standards, just because a company places a heavy focus on environmental issues alone. Ultimately, we are concerned with material ESG issues and the analysis must provide us with sufficient comfort on all of these before an A-C rating is achieved.

We review behaviours and practices across the firm in the context of global or regional best practice. As a discipline, and for comparability, we then assign a rating to each institution, which captures risk and the quality of management judgement and decision making. Only those companies rated C or better can be included in the portfolio. To be clear, this means that we will only invest in firms where there is satisfactory quality and alignment of management. Moreover, we are interested not only in the absolute standard of "ESG quality", but also the ability of a firm to improve its judgement, communication and efficiency over time. Investors should not, therefore, expect our portfolios to have any bias between A, B and C rated companies.

Investing across Emerging and Frontier markets presents multiple challenges as the economic, social, political and regulatory environments can differ significantly between countries. We take this into account in our ratings by focusing our ratings on relative ESG performance to peers. For high-risk industries, we believe that to get an A rating, the company must display global best practice whereas for low-risk industries we seek regional best practice. This ensures we manage the ESG risks appropriately whilst remaining pragmatic about the circumstances for each company. ESG analysis is undertaken through a combination of desk- based research, meetings with management, site visits, and industry research. The definitions for each of our ratings are as follows:

A Rating

- High risk industry demonstrating global best practice performance in ESG.
- Lower risk industry demonstrating regional best practice in ESG.

B Rating

- High risk industry demonstrating regional best practice in ESG.
- Lower risk industry with satisfactory ESG performance better than regional peers; or in-line with regional peers but with a demonstrable intention to improve on material KPIs.

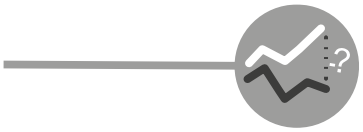

C Rating

- High risk industry with satisfactory ESG performance, in line with regional peers, but demonstrating a meaningful commitment to improve on material KPIs.
- Lower risk industry with satisfactory ESG performance in-line with or better than regional peers, but with no demonstrable intention to improve on material KPIs.

3. Portfolio construction is targeted to produce a lower GHG and water intensity than the index and for GHG emissions to reduce in line with IPCC 1.5 degree scenario.

4. Active engagement with investee companies in accordance with our Key Progress Indicators which are based upon specific environmental and social characteristics, as well as on a variety of topics.

5. Our voting policy is based on our Alquity Principles of Governance, which are aligned with our Key Progress Indicators.

How did this financial product perform compared to the reference benchmark?

The reference index is a general market index, representing the investment universe, and is not consistent with the E/S characteristics promoted by the sub-fund.

- ***How does the reference benchmark differ from a broad market index?***

  Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

  Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

  Not applicable.

- ***How did this financial product perform compared with the broad market index?***

  Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the finanscial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: VAM Fundamental Emerging Markets Equity Fund (the "Sub-fund")

Legal entity identifier: 391200CWPSYKAW9VMF38

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ **Yes**	☒ **No**
☐ It made **sustainable investments with an environmental objective:** ___%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-fund sought to promote environmental and social characteristics primarily by fully integrating consideration of sustainability risks and opportunities within Alquity Investment Management Limited (AIML) (the "Investment Manager") investment methodology, called Industrial Life Cycle ("ILC").

Through its Best-in-Class screening and proxy voting policy the Sub-fund promoted companies with good governance and sustainable corporate practices. The Sub-fund also promoted certain minimum environmental and social characteristics through its negative screening mechanisms towards certain products and business practices that the Investment Manager believed to be detrimental to society and opposed to sustainable development.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The percentage of the Net Asset Value of the Sub-fund allocated to an ESG rating of BB or better was 88.6%, while the overall ESG rating for the portfolio was A, compared to BB for the benchmark.

The carbon emissions intensity of the portfolio (Scope 1 and 2) measured as tonnes of CO2 equivalents divided by $1 million in sales, was 103.6.

None of the holdings of the Sub-fund violated the UN Global Compact, nor were involved in dealing with nuclear or controversial weapons.

…and compared to previous periods?

	June 2026	June 2025	% change
Overal ESG rating	A	A	0%
% of Net Asset Value with an ESG Rating >= BB	88.6%	93.4%	-4.8%
Portfolio Carbon Emissions Intensity (Scope 1 and 2)	103.6	97.4	6.2%
UNGC violation	0%	0%	0%
Nuclear or controversial weapon ties	0%	0%	0%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Sub-fund did not commit to make any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Sub-fund did not commit to make any sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The sub-fund does not consider the PAIs within the scope of the SFDR's definition due to the poor availability, consistency, comparability and transparency of existing ESG data, especially in Emerging Markets, and the challenges the onerous reporting required by the Regulation poses to a small firm such as Alquity.

What were the top investments of this financial product?

Asset allocation describes the share of investments in specific assets.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30th June 2026

Security Name	Sector	% Assets	Country
TSMC	Information Technology	9.8%	Taiwan
Samsung Electronics	Information Technology	8.4%	South Korea
SK hynix	Information Technology	8.1%	South Korea
MediaTek	Information Technology	3.1%	Taiwan
Tencent	Communication Services	3.0%	Cayman Islands
Delta Electronics	Information Technology	2.5%	Taiwan
Samsung Electro-Mechanics	Information Technology	2.5%	South Korea
International Container Terminal Services	Industrials	2.1%	Philippines
Asia Vital Components	Information Technology	2.0%	Taiwan
Alibaba	Consumer Discretionary	1.8%	Cayman Islands
ASPEED Technology	Information Technology	1.7%	Taiwan
Shinhan Financial Group	Financials	1.7%	South Korea
DBS Group	Financials	1.7%	Singapore
Yuanta Financial Holding	Financials	1.6%	Taiwan
Industrial & Commercial Bank of China	Financials	1.5%	China

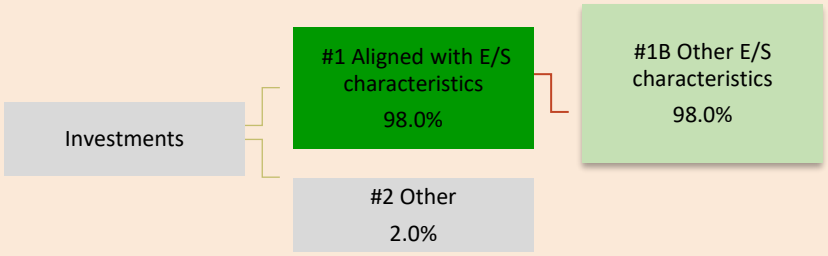

What was the proportion of sustainability-related investments?

We do not currently commit to a minimum proportion of sustainable investments. Accordingly, the percentage of investments of the sub-fund was 0% of the net assets of the Fund.

- ***What was the asset allocation?***

  The proportion of investments used to meet the environmental or social characteristics promoted by the sub-fund were, 98.0% for the reporting period.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

The investments were made in the following economic sectors:

Sector	%
Information Technology	40.6%
Financials	18.7%
Industrials	9.4%
Consumer Discretionary	7.4%
Communication Services	5.5%
Materials	5.0%
Health Care	4.7%
Consumer Staples	4.2%
Energy	1.2%
Utilities	1.2%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The percentage of investments of the Sub-fund aligned with the EU Taxonomy is 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

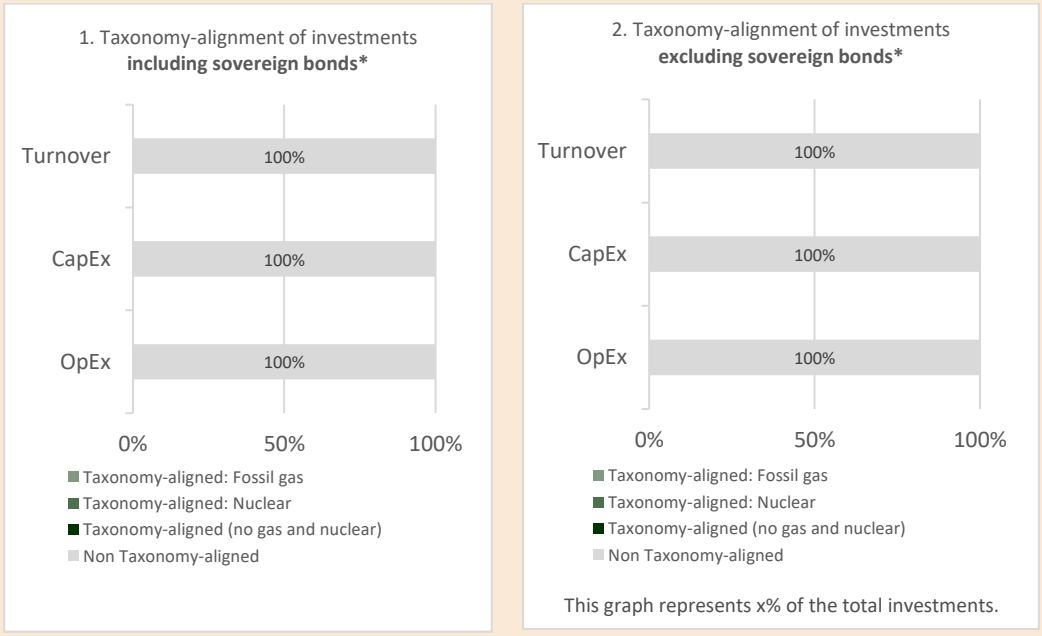

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

- ***What was the share of investments made in transitional and enabling activities?***

  The Sub-fund did not make investments in transitional and enabling economic activities (0%).

- ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

  The percentage of investments that were aligned with the EU Taxonomy remained the same, 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Sub-fund did not make sustainable investments with an environmental objective not aligned with the EU Taxonomy (0%).

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the share of socially sustainable investments?

The Sub-Fund did not make any socially sustainable investment (0%).

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and cash equivalents fall within this category. 2.0% of the net asset value was held in cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

To attain environmental, social (and governance) characteristics, the Investment Manager applied ESG Exclusions, ESG Integration and engaged with certain investee companies where relevant.. The Investment Manager applied a mix of the following binding elements:

1. Best-in-Class: To promote environmental, social and governance characteristics, and to reduce sustainability risks, the Investment Manager used minimum ESG rating thresholds. Companies with an ESG rating above or equal to B are deemed investable. Companies below this ESG rating threshold were deemed not sustainable. Such companies tend to exhibit large sustainability risks, and/or fail to show enough commitment towards improving their ESG characteristics. Whenever the ESG rating was unavailable, evidence on ESG characteristics and efforts of the companies were considered as part of portfolio construction.

   The Investment Manager commited to keep at least 70% of NAV allocated to companies with an ESG Rating of BB or better. Adherence to this target contributed to the Sub-fund's promotion of good governance and sustainable corporate practices.

2. Negative Screening: The Investment Manager applied certain exclusion criteria to ensure minimum environmental, social and/or governance characteristics were promoted at both the security and portfolio level. This helped to ensure that no human rights, labour, social or environmental minimum standards such as anti-corruption and anti-bribery matters were breached. The following exclusions with a zero tolerance were applied by the Investment Manager during the screening process:

   - United Nations (UN) Global Compact Violations.
   - Companies with "very severe" rated controversies as defined by third party providers.

- Norms-based including controversial weapons, chemical weapons, biological weapons, cluster munition, land mines, weapons utilizing non-detectable fragments, white phosphorus, blinding laser weapons, nuclear weapons, and depleted uranium.

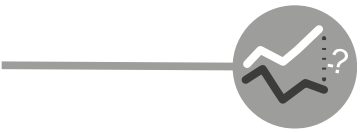

The Investment Manager also explicitly excluded investments based on a materiality of revenue threshold of electric power producers and coal extraction miners with excessive climate impact, defined for this policy as above from the following:

- Conventional Weapons and Firearms maximum revenue (5%)
- Conventional Weapons and Firearms Support Systems and Services (20%)
- Mining companies that extract coal, including thermal (20%)
- Mining companies developing new coal mining and coal industry partners (e.g. equipment suppliers) (20%).
- Mining companies developing significant new coal assets (20%).
- Mining companies that extract other non-renewable energy sources with high GHG impacts: oil sands and shale energy (20%).
- Power generation companies with electricity generated by coal (20%).
- Power generation companies that plan to expand coal power generation capacity (20%).

Adherence to the norms-based exclusion list entailed pre-trade and post-trade compliance checks based on exclusionary screening information, as well as ongoing monitoring of the portfolios for any breaches. A data feed from a third party provider of specific company names / identifiers to be excluded was added to a central restriction list. This is updated frequently, coded into trading systems, and made available to the Investment Manager for monitoring, screening, and application. Sanctions and legal restrictions in applicable jurisdictions were also followed.

3. Proprietary Scoring and Carbon Emissions: The Sub-fund aimed to align with carbon reduction targets. The Sub-fund already considered Scope 1 and 2 emissions using data directly provided by companies or third-party providers (e.g. Bloomberg and Sustainalytics), or estimated when actual emissions data were not available. Scope 3 may be phased in over time (when and if available with targets set and measured separately). Emissions were measured in both an absolute and intensity basis. The Investment Manager blended both measures of an issuer with its proprietary ILC Score to identify valuation premiums on a risk adjusted basis of both its material climate alignment and financial factors. The Team maintained a Scope 1 and 2 emission profile in line with the previous reporting period.

4. Engagement efforts were initiated with three holdings over the reporting period. In November, the Investment Manager engaged with ICICI Bank focusing on Russian oil and associated sanctions risks. In December, the Investment Manager engaged with two companies: DBS, to discuss linking ESG metrics to management remuneration, and Bharti Airtel, covering its environmental plan, biodiversity topics, and the inclusion of ESG factors in management KPIs.

How did this financial product perform compared to the reference benchmark?

The Sub-fund does not use a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

- ***How does the reference benchmark differ from a broad market index?***

  Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

  Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

  Not applicable.

- ***How did this financial product perform compared with the broad market index?***

  Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: WCM World Growth **Legal entity identifier:** 39120060061LA9R0IE06

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☐ **Yes**	☒ **No**
☐ It made **sustainable investments with an environmental objective:** ___%	☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-fund sought to promote social characteristics primarily by fully integrating the evaluation of corporate culture and human capital management into the Investment Manager's bottom-up fundamental research process. Through its focus on positive corporate culture, the Sub-fund promoted companies with good corporate governance practices and strong management teams capable of effectively managing environmental and social risks. The Sub-fund also promoted certain minimum social characteristics by excluding companies deemed materially deficient according to its proprietary corporate culture rating criteria.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

Over 80% of the assets successfully met or exceeded the minimum threshold for WCM's corporate culture rating. Since the launch of the Fund, there have been no reassessments of a culture rating that led to exiting a position, no dedicated engagements conducted on social issues, and no applicable proxy votes cast overriding Glass Lewis recommendations.

…and compared to previous periods?

Not applicable.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

30/06/2026

Largest investments	Sector	% Assets	Country
Nebius Group	Information Technology	6.0%	Netherlands
Alphabet	Communication Services	5.3%	United States
Rolls-Royce Holdings	Industrials	4.7%	United Kingdom
Kioxia Holdings	Information Technology	3.8%	Japan
Brookdale Senior Living	Health Care	3.3%	United States
Tapestry	Consumer Discretionary	2.9%	United States
Western Digital	Information Technology	2.6%	United States
TSMC	Information Technology	2.6%	Taiwan
Siemens Energy	Industrials	2.5%	Germany
Babcock	Industrials	2.5%	United Kingdom
eBay	Consumer Discretionary	2.4%	United States
Valero Energy	Energy	2.2%	United States
Bayer	Health Care	2.2%	Germany
Interactive Brokers	Financials	2.2%	United States
Glencore	Materials	2.2%	Jersey

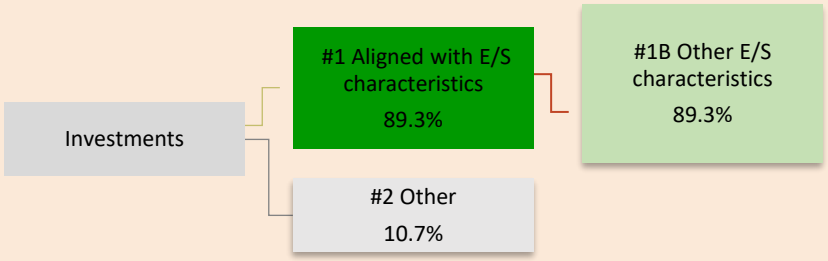

What was the proportion of sustainability-related investments?

We do not currently commit to a minimum proportion of sustainable investments. Accordingly, the percentage of investments of the WCM World Growth Fund was 0% of the net assets of the Fund.

What was the asset allocation?

The proportion of investments used to meet the environmental or social characteristics promoted by the sub-fund were 89.3% for the reporting period.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:
- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

For the WCM World Growth Fund, the investments were made in the following economic sectors:

- Information Technology: 21.9%
- Health Care: 16.5%
- Industrials: 13.3%
- Financials: 13.0%
- Communication Services: 6.4%
- Consumer Discretionary: 6.1%
- Energy: 6.0%
- Materials: 3.6%
- Real Estate: 1.9%
- Consumer Staples: 1.6%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not currently commit to investing a minimum proportion of its assets in Taxonomy-aligned investments. Accordingly, 0% of the WCM World Growth Fund's net assets were invested in economic activities aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy[12]?

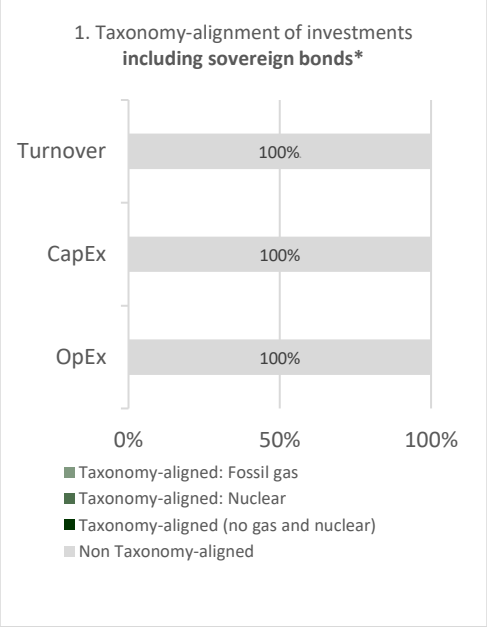

[12] Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

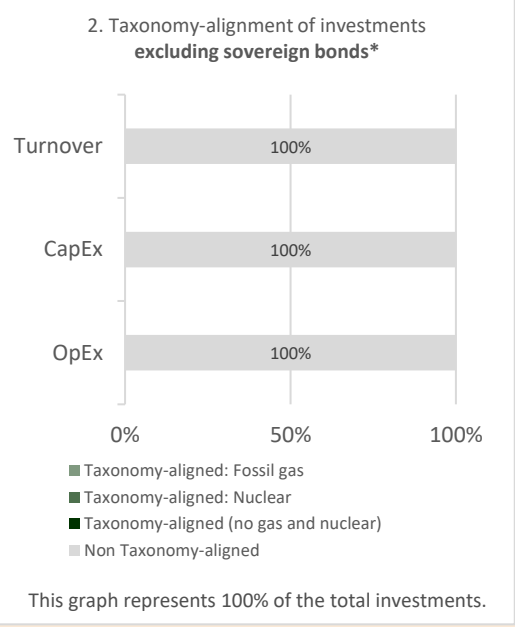

Yes:

In fossil gas In nuclear energy

X No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* *For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.*

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

The The WCM World Growth Fund does not commit to a minimum proportion of investments in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

0%. Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%. The WCM World Growth Fund does not commit to a minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

0%. The WCM World Growth Fund does not commit to a minimum share of socially sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Cash and cash equivalents fall within this category. 10.7% of the net asset value was held in cash.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the Investment Manager continuously evaluated corporate culture and human capital management as part of its bottom-up fundamental research process.

The primary action taken was ensuring that over 80% of the portfolio's assets met or exceeded the minimum threshold of WCM's corporate culture rating. Continuous monitoring confirmed that no holdings required a culture rating reassessment leading to an exit. During the reference period, no dedicated social engagements or proxy voting overrides took place.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The reference index is a general market index, representing the investment universe, and is not consistent with the E/S characteristics promoted by the fund.

- ***How does the reference benchmark differ from a broad market index?***

  Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

  Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

  Not applicable.

- ***How did this financial product perform compared with the broad market index?***

  Not applicable.
