What is this product?

TYPE

The product is a sub-fund of Uni-Global, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Sub-Fund is established for an unlimited duration. However the Board of Directors may decide to close this product under certain circumstances.

OBJECTIVES

The Sub-Fund offers the chance to take advantage of the opportunities that arise on the world equity markets. The Sub-Fund seeks to build up a portfolio offering the best possible ratio between the estimated risk and the expected return. The Sub-Fund invests according to an active approach which involves identifying the portfolio with the optimum estimated risk for the universe in question.

The Sub-Fund is actively managed and references MSCI ACWI Index (the "Index") for comparison purposes only. The Investment Manager has full discretion with regard to the implementation of the Sub-Fund's investment strategy, which is not linked to the Index. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Index.

The Sub-Fund promotes environmental and social characteristics according to article 8 of the Regulation (EU) 2019/2088.

The Sub-Fund consists of equities or other capital stock (e.g. shares in cooperatives, participation or bonus certificates, etc.) and any other holdings, known as transferable securities, without geographical or currency restriction.

The Sub-Fund may also invest up to 30% of its total net assets in China A-shares through the use of the Stock Connect and in China H Shares.

The Sub-Fund invests at least 51% of its net assets in these equities or capital stock.

Some of the markets in these countries are not currently considered as regulated markets pursuant to the article 41 (1) of the UCITS Law, and investments in these markets, together with investments in unlisted securities, must not exceed 10% of the Sub-Fund's net assets.

Russia is one such market, with the exception of the Moscow Interbank Currency Exchange ("MICEX-RTS"), which is considered as a regulated Russian market on which direct investments may exceed 10% of net assets.

The Sub-Fund may hold ancillary liquid assets (i.e. bank deposits at sight, such as cash held in current accounts with a bank accessible at any time) up to 20% of its net assets for treasury purposes.

In order to achieve its investment goals, the Sub-Fund may hold a maximum of 10% of its net asset value in units of UCITS or other UCIs.

In order to achieve its investment goals, the Sub-Fund may invest up to 10% of its net asset value in REITs.

The Sub-Fund may use derivatives to hedge against currency risk, and/or to enhance effective management.

The share class is denominated in USD.

The Sub-Fund is denominated in USD.

These shares are capitalisation shares. Income and capital gains are reinvested.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 6 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 6 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

The essential risks of the investment fund lie in the possibility of depreciation of the securities in which the fund is invested.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 11 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		6 years USD 10 000		
		If you exit after 1 year	If you exit after 6 years

What happens if FundSight S.A. is unable to pay out?

FundSight S.A. is not making any payment to you in relation to this Sub-Fund and you would still be paid in case of a default from FundSight S.A.

The Sub-Fund's assets are held with J.P. Morgan SE, Luxembourg Branch and are segregated from the assets of other sub-funds of the SICAV. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 6 years
Total costs	USD 150	USD 1 143
Annual cost impact (*)	1.5%	1.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 4.1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Entry costs are currently of 0.00% and are allowed to increase up to 4.00%.	USD 0
