# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Nordea 1 – Global Climate and Environment Fund, BI-EUR Share Class

**ISIN-Code: LU0348927095**
**The management company is Nordea Investment Funds S.A., a company of the Nordea Group.**

## Objectives and investment policy

The fund's objective is to invest in sustainable investments, according to its sustainable investment objective, and, in addition, provide shareholders with investment growth in the long term.

In actively managing the fund's portfolio, the management team focuses on companies that develop climate- and environment-friendly solutions, such as renewable energy and resource efficiency, and that appear to offer superior growth prospects and investment characteristics.

The fund mainly invests in equities of companies from anywhere in the world.

Specifically, the fund invests at least 75% of total assets in equities and equity-related securities.

The fund will be exposed (through investments or cash) to other currencies than the base currency.

The fund may use derivatives and other techniques for hedging (reducing risks), efficient portfolio management and to seek investment gains. A derivative is a financial instrument which derives its value from the value of an underlying asset. The use of derivatives is not cost or risk-free.

The fund has sustainable investment as its objective as per Article 9 of the EU Sustainable Finance Disclosure Regulation (SFDR). The fund considers principal adverse impacts on sustainability factors. Further information regarding the way the fund's sustainable investment objective is achieved is available in the fund's prospectus and accessible via nordea.lu.

The fund is subject to Nordea Asset Management's responsible investment policy.

Any investor may redeem its shares in the fund on demand, on a daily basis. This fund may not be appropriate for investors who plan to withdraw their money within a period of 5 years.

While the fund compares its performance against the MSCI World Index (Net Return), it may freely select the securities that it will invest in. The risk characteristics of the fund's portfolio may bear some resemblance to those of the benchmark. The fund uses a benchmark which is not aligned with the sustainable objective of the fund.

This share class is not distributing dividends. Income from investments is reinvested.

The fund is denominated in EUR. Investments in this share class settle as well in EUR.

## Risk and reward profile

| 1 | 2 | 3 | 4 | **5** | 6 | 7 |
|---|---|---|---|---|---|---|

**Lower risk** — **Higher risk**
**Typically lower rewards** — **Typically higher rewards**

The indicator measures the risk of fluctuations of the Net Asset Value of the share class based on the last 5 years volatility and places the fund in category 5. This means that the purchase of units in the fund is connected to **medium risk** of such fluctuations.

Please note that category 1 does not mean a risk free investment.

Historical data, such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the UCITS, as the category might change in the future.

Following risks are materially relevant to the UCITS but are not adequately captured by the synthetic indicator and may cause additional loss:

- **Derivatives risk:** Small movements in the value of an underlying asset can create large changes in the value of a derivative, making derivatives highly volatile in general, and exposing the fund to potential losses significantly greater than the cost of the derivative.
- **Emerging and frontier markets risk:** Emerging and frontier markets are less established, and more volatile, than developed markets. They involve higher risks, particularly market, credit, legal, taxation, securities handling, depositary receipt and currency risks, and are more likely to experience risks that, in developed markets, are associated with unusual market conditions, such as liquidity and counterparty risks.
- **Liquidity Risk**: Certain securities may become hard to value or to buy or sell at a desired time and price which could affect the fund's value and its ability to pay redemption proceeds or other obligations in a timely manner.

For more information on risks the fund is exposed to, please refer to the section "Risk Descriptions" of the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest | |
|---|---|
| Entry charge | None |
| Exit charge | None |
| This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out. | |
| **Charges taken from the fund over a year** | |
| Ongoing charges | 0.93% |
| **Charges taken from the fund under certain specific conditions** | |
| Performance fee | The share class is not subject to any performance fee. |

The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find the exact charges which will apply to your investment by contacting your financial adviser or distributor.

The ongoing charges figure is based on the last year's expenses, for the year ending December 2025, and this figure may vary from year to year. It excludes performance related fees and transaction costs including third party brokerage fees and bank charges on securities transactions.

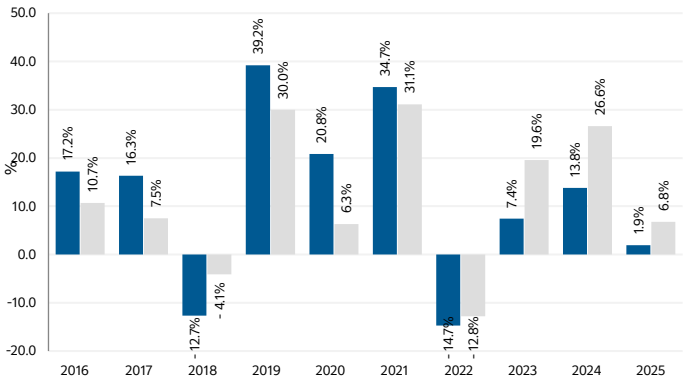

For more information about charges, please see section "Share Class Fees" of the fund's prospectus, which is available at www.nordea.lu.

This fund is subject to swing pricing.
