The document was published on 20/05/2026

What is this product?

Type

This product is a fund of Nordea 1, SICAV, an investment company with variable share capital (SICAV) with multiple funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The fund is established for an unlimited duration.

The Board of Directors may compulsorily redeem or merge all the shares of the fund or share class. Circumstances under which such decision would occur are available in the fund's prospectus and accessible via www.nordea.lu. "Legal" section.

Objectives

Investment Objective The fund's objective is to maximise shareholder return in the long term through a combination of income and investment growth (total return). The fund targets a volatility in the range of 7% to 10%, where 10% is seen as the tail volatility during adverse market conditions.

Investment Strategy In actively managing the fund's portfolio, the management team seeks exposure to various risk premia strategies that have little or no correlation with each other. The allocation between these strategies is based on continuous bottom-up valuations combined with a focus on short-term market behaviour across asset classes and risk factors. The team also takes both long and short positions and manages currencies actively.

Investment Policy The fund mainly invests, directly or through derivatives, in various asset classes such as equities, bonds issued by companies, financial institutions or public authorities, money market instruments and currencies from anywhere in the world. Specifically, the fund may invest in equities and equity-related securities, debt securities and debt-related securities, money market instruments, and UCITS/UCIs, including exchange-traded funds. The fund may invest in credit default swaps. Due to its extensive use of derivatives, the fund may hold above 20% of its total assets in cash and cash equivalents. The fund may be exposed (through investments or cash) to other currencies than the base currency.

Derivatives: The fund may use derivatives for hedging (reducing risks), efficient portfolio management and to seek investment gains. The fund may extensively use financial derivatives to implement the investment policy and achieve its target risk profile.

Usage of Total Return Swaps % of total assets: 50% expected; 250% maximum. More information on leverage and usage of TRS is available in the fund's prospectus and accessible via www.nordea.lu. (Legal section)

Techniques and Instruments Usage : None expected

Benchmark EURIBOR 1M.

Benchmark use The benchmark is used for performance comparison only. The fund's portfolio is actively managed without reference or constraints relative to its benchmark.

Responsible Investment The fund applies baseline environmental and/or social safeguards. Further information is available in the fund's prospectus and on www.nordea.lu.

Redemption and Dealing: Any investor may redeem its shares in the fund on demand, on a daily basis.

Distribution policy: This share class is not distributing dividends. Income from investments is reinvested.

Base Currency: The fund is denominated in EUR. Investments in this share class settle as well in EUR.

Intended retail investor

The fund is intended for investors who accept and understand that the value of the fund is directly linked to the value of underlying investments, will fluctuate over time and that the invested amount can be lost entirely. The fund is suitable for all types of investors through all distribution channels. Recommended Holding period: 5 years. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile.

Practical Information

Depository: The fund depository is JP Morgan SE - Luxembourg branch.

Further information: This Key Information Document is prepared for a share class. Assets and liabilities of each fund of Nordea 1, SICAV are segregated, meaning that your investment in this fund is only impacted by profits and losses in this fund. Other share classes are available for this fund. You may exchange your investment in share (s) of this fund for investment in share(s) of another fund of Nordea 1, SICAV. You can find detailed information on www.nordea.lu "Funds" section such as a copy of the Nordea 1,SICAV prospectus and periodic financial reports in English, as well as daily NAV prices of available share classes free of charge.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Fund's capacity to pay you.

For more information on risks the fund is exposed to, please refer to the section "Risk Descriptions" of the prospectus.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

Derivatives risk, Emerging and frontier markets risk, Prepayment and extension risk, Hedging risk, Credit risk.
This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years

Example Investment: EUR 10 000

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	-	-
Stress	What you might get back after costs	EUR 6 670	EUR 6 210
	Average return each year	-33.27%	-9.08%
Unfavourable	What you might get back after costs	EUR 9 240	EUR 9 250
	Average return each year	-7.61%	-1.54%
Moderate	What you might get back after costs	EUR 10 180	EUR 11 680
	Average return each year	1.85%	3.16%
Favourable	What you might get back after costs	EUR 11 130	EUR 13 160
	Average return each year	11.31%	5.64%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 2021 - 2025.

Moderate scenario: This type of scenario occurred for an investment (and benchmark) between 2017 - 2022.

Favourable scenario: This type of scenario occurred for an investment (and benchmark) between 2016 - 2021.

What happens if Nordea Investment Funds S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of our insolvency, the fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the insolvency of the depositary, or someone acting on its behalf, the fund may suffer a financial loss. This loss will not be covered by any investor compensation or a guarantee scheme. However, this risk is mitigated to a certain extent by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: - In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.

EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 196	EUR 1 152
Annual cost impact (*)	2.0%	2.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 5.1 % before costs and 3.2 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	In the fund's prospectus a maximum fee of 5.00% is stated. This fee is not charged by the Management Company but this is the maximum the person selling you the product may charge.	Up to EUR 500
Exit costs	We do not charge an exit fee.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.40% of the value of your investment per year. This is an estimate based on actual costs over the last year, or on expected costs (new share class).	EUR 140
Transaction costs	0.56% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 56

Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	EUR 0

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for long-term investment; you should be prepared to stay invested for at least 5 years. Redemption requests received by the Transfer Agent before 15h30 CET on any valuation day will be processed that day. The share price will be the net asset value calculated for the day on which the transaction request is processed. Redemption requests received after the cut-off will be processed on the next applicable valuation day.

More information regarding the redemption and valuation processes is available in the fund's prospectus and accessible via www.nordea.lu. The Management Company may apply liquidity management tools ("LMTs") that could affect your ability to redeem your investment, the timing of your redemption, or the amount you pay for subscription or receive for redemption. These tools may include suspension of subscriptions, repurchases and redemptions, redemption gate, swing pricing and redemption in kind. The selection of applicable tools, their conditions of use and maximum level are detailed in the fund's prospectus.

How can I complain?

Complaints about the product can be submitted in writing :

By filling the form available on Nordea.lu

or by post to: Nordea Investment Funds S.A., Attention: Compliance Officer, 562 rue de Neudorf, L-2220 Luxembourg Grand Duchy of Luxembourg.
