What is this product?

Type

This product is a fund of Nordea 1, SICAV, an investment company with variable share capital (SICAV) with multiple funds and governed by the Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment.

Term

The fund is established for an unlimited duration.

The Board of Directors may compulsorily redeem or merge all the shares of the fund or share class. Circumstances under which such decision would occur are available in the fund's prospectus and accessible via [www.nordea.lu](http://www.nordea.lu). "Legal" section.

Objectives

**Investment Objective** The fund's objective is to provide shareholders with positive returns in excess of cash over an investment cycle.

**Investment Strategy** In actively managing the fund's portfolio, the management team applies an unconstrained and dynamic asset allocation process to seek to exploit market opportunities such as changes in interest rates and credit spreads. The team selects securities that appear to offer superior investment opportunities. The team also manages currencies actively.

**Investment Policy** The fund mainly invests, directly or through derivatives, in bonds, money market instruments and currencies from anywhere in the world. Specifically, the fund may invest in corporate and government debt securities and debt-related securities, inflation-linked bonds, covered bonds, convertible bonds, money market instruments, and UCITS/UCIs, including exchange-traded funds. The fund may invest in credit default swaps. The fund may invest in, or be exposed to up to 5% in defaulted corporate bonds (as a result of holding corporate bonds defaulting. The fund will not invest actively in defaulted corporate bonds) and to up to 2,5% in equities (as a result of holding defaulted securities). The fund may be exposed (through investments or cash) to other currencies than the base currency.

**Derivatives:** The fund may use derivatives for hedging (reducing risks), efficient portfolio management and to seek investment gains. The fund may extensively use financial derivatives to implement the investment policy and achieve its target risk profile.

**Usage of Total Return Swaps** % total assets: 0-5% expected; 10% maximum

More information on leverage and usage of TRS is available in the fund's prospectus and accessible via [www.nordea.lu](http://www.nordea.lu). (Legal section)

**Techniques and Instruments Usage :** None expected

**Benchmark** Bloomberg GlobalAgg index EUR, hedged.

**Benchmark use** The benchmark is used for performance comparison only and the investment manager may freely select the securities that it will invest in. Risk characteristics of the fund's portfolio may bear some resemblance to those of the benchmark.

**Responsible Investment** The fund applies baseline environmental and/or social safeguards. Further information is available in the fund's prospectus and on [www.nordea.lu](http://www.nordea.lu).

**Redemption and Dealing:** Any investor may redeem its shares in the fund on demand, on a daily basis.

**Distribution policy:** This share class is not distributing dividends. Income from investments is reinvested.

**Base Currency:** The fund is denominated in EUR. Investments in this share class settle as well in EUR.

**Intended retail investor**

The fund is intended for investors who accept and understand that the value of the fund is directly linked to the value of underlying investments, will fluctuate over time and that the invested amount can be lost entirely. The fund is suitable for all types of investors through all distribution channels. Recommended Holding period: 3 years. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile.

**Practical Information**

**Depository:** The fund depository is JP Morgan SE - Luxembourg branch.

**Further information:** This Key Information Document is prepared for a share class. Assets and liabilities of each fund of Nordea 1, SICAV are segregated, meaning that your investment in this fund is only impacted by profits and losses in this fund. What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you might get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

For more information on risks the fund is exposed to, please refer to the section "Risk Descriptions" of the prospectus.

Other risks materially relevant to the PRIIP not included in the summary risk indicator:

Derivatives risk, Prepayment and extension risk, Credit risk, Convertible securities risk, Covered bond risk, Inflation-linked debt securities  
This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years Example Investment: EUR 10 000			
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	-	-
Stress	What you might get back after costs	EUR 8 630	EUR 8 430
	Average return each year	-13.66%	-5.53%
Unfavourable	What you might get back after costs	EUR 8 990	EUR 9 050
	Average return each year	-10.14%	-3.28%
Moderate	What you might get back after costs	EUR 10 060	EUR 10 180
	Average return each year	0.59%	0.60%
Favourable	What you might get back after costs	EUR 10 810	EUR 11 360
	Average return each year	8.05%	4.35%

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 2019 - 2022.

Moderate scenario: This type of scenario occurred for an investment between 2016 - 2019.

Favourable scenario: This type of scenario occurred for an investment between 2022 - 2025.

## What happens if Nordea Investment Funds S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary. In the event of our insolvency, the fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the insolvency of the depositary, or someone acting on its behalf, the fund may suffer a financial loss. This loss will not be covered by any investor compensation or a guarantee scheme. However, this risk is mitigated to a certain extent by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure to properly fulfil its obligations (subject to certain limitations).

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed: - In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods, we have assumed the product performs as shown in the moderate scenario.

EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 116	EUR 355
Annual cost impact (*)	1.2%	1.2% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 1.8 % before costs and 0.6 % after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	In the fund's prospectus a maximum fee of 1.00% is stated. This fee is not charged by the Management Company but this is the maximum the person selling you the product may charge.	Up to EUR 100
Exit costs	We do not charge an exit fee.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.07% of the value of your investment per year. This is an estimate based on actual costs over the last year, or on expected costs (new share class).	EUR 107
Transaction costs	0.08% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 8

Incidental costs taken under specific conditions		
Performance fees (and carried interest)	There is no performance fee for this product.	EUR 0

## How long should I hold it and can I take money out early?
