**What is this product?****Type**

This is an investment Fund established as a Company With Variable Capital (SICAV).

**Objectives**

**Investment objective** Alger SICAV - Alger Dynamic Opportunities Fund (the "Fund") is actively managed and seeks long term capital appreciation.

**Investment policy** The Fund invests in a portfolio of U.S. and foreign equity securities (common stocks, preferred stock and convertible securities).

In addition to purchasing securities (i.e., taking long positions), the investment adviser will identify securities that it believes will underperform on an absolute or relative basis, constituting short positions on stocks listed on Regulated Markets and on equity indices. Short exposure on stocks is done by financial derivative instruments ("FDIs"). The Fund will generally also hold a large position in cash and cash equivalents. The Fund will not, however, follow a market neutral strategy and generally will have a net long position. The Fund may also seek to manage the volatility of either the portfolio, a particular exposure (e.g., sector or industry) of the portfolio or individual securities through FDIs. The Fund may invest a portion of its assets in securities issued by small capitalization companies.

The Fund makes use of total return swaps ("TRS") on single stocks. TRS are used in the context of taking long or short exposures on specific equity securities.

Eligible counterparties for TRS shall be Eligible Counterparties specialised in these types of transactions. Relations with such Eligible Counterparties are regulated by ISDA Master Agreements.

A default of an Eligible Counterparty to a TRS may affect investor returns to the extent of the mark-to-market value of outstanding positions and/or Eligible Collateral deposited.

Eligible Counterparties to TRS do not assume any discretion over the composition or management of the Fund's investment portfolio or of the underlying of the TRS.

The Fund can also invest in FDIs for hedging purposes and for efficient portfolio management purposes.

**Benchmark** The Fund's benchmark is the S&P 500 Index (the "Benchmark"). The Benchmark is an unmanaged index generally representative of the U.S. stock market without regard to company size. The Fund is actively managed, meaning that it does not intend to replicate the Benchmark but tries to exceed its performance. The Fund is not constrained by the Benchmark. The Benchmark is used for comparison purposes only.

**Subscription and Redemption** Shareholders may redeem shares by sending a written redemption request to the Registrar and Transfer Agent. Redemption requests must be received by the Registrar and Transfer Agent in good order by 5:00 p.m. (Luxembourg time) on any day on which banking institutions in Luxembourg and the New York

stock exchange in the United States are open for business preceding the Valuation Date on which the shares are to be redeemed. The right of redemption may be suspended under certain extraordinary circumstances.

**Income and Realized Gains** It is the present intention of the Board of Directors not to recommend the payment of any cash dividends out of net results. Normally, all the net investment income and all net realized and unrealized capital gains will be accumulated and shall increase the Net Asset Value per Share. Please refer to the "Dividends and Distributions" section in the Prospectus for further information.

**Launch date** The Fund was launched on 08/08/2014. This class was launched on 08/08/2014.

**Fund Currency** Reference currency of the Fund is United States dollar.

**Switching** A shareholder may make four exchanges per year without incurring an exchange charge, initial subscription charge or exit charge. Thereafter, the Fund may charge an exchange fee of up to 1%, per exchange, of the value of the shares to be exchanged. However, certain Financial Intermediaries may charge Class A US shareholders an exchange fee of one-half of one percent of the value of the Class A US shares being exchanged. This fee is charged to the shareholder effecting the exchange and paid to the Financial Intermediary.

**Asset segregation** Alger SICAV - Alger Dynamic Opportunities Fund is a sub-fund of Alger SICAV. The assets and liabilities of each sub-fund of Alger SICAV are segregated by law which means that only the gains and losses of Alger SICAV - Alger Dynamic Opportunities Fund are relevant for the investor.

**Intended retail investor**

This product is intended for investors who are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

**Term**

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the Board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIP manufacturer, Waystone, is not entitled to terminate the product unilaterally.

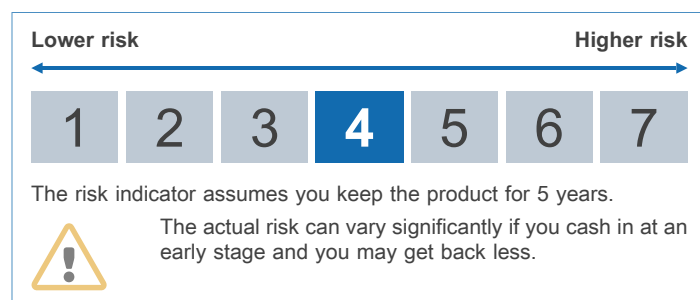

**Practical information**

**Depository** The Bank of New York Mellon SA/NV, Luxembourg Branch is the custodian of Alger SICAV.

**Further information** The Prospectus, annual and semi-annual reports and other information about the Fund can be obtained from Alger SICAV free of charge. The Prospectus is available in English, Dutch, French and German. The annual and semi-annual reports are available in English, French, German and Spanish. The issue and redemption prices will be published at [www.alger.com](http://www.alger.com). Please refer to the Fund's Prospectus for full details and risks, including sustainability risks, which are applicable to the Fund.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between 29 October 2021 and 28 February 2025.

**Moderate:** this type of scenario occurred for an investment between 31 May 2017 and 31 May 2022.

**Favourable:** this type of scenario occurred for an investment between 31 October 2016 and 29 October 2021.

Recommended holding period		5 years	
Example Investment		10,000 USD	
Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	5,041 USD -49.6%	4,278 USD -15.6%

## What happens if Waystone is unable to pay out?

Waystone has no obligation to pay out since the Fund design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Fund default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,

- 10,000 USD is invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total Costs</b>	<b>1,142 USD</b>	<b>4,022 USD</b>
<b>Annual cost impact*</b>	<b>11.4%</b>	<b>7.5% each year</b>

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 13.4% before costs and 5.9% after costs.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	6.00% of the amount you pay in when entering this investment.	600 USD
