Share Class I EUR (the "Class") - LU1160357403

Management Company : Edmond de Rothschild Asset Management (Luxembourg)

Objectives and Investment Policy

**Investment objective:** The objective of the Sub-Fund is to outperform its benchmark by investing in companies operating in the healthcare sector, that meet environmental, social and governance (ESG) criteria.

**Benchmark index:** MSCI All Country World Health Care Index, net dividends reinvested

The Sub-Fund is actively managed and is not designed to track the Index. Therefore, the composition of the portfolio holdings is not constrained by the composition of the Index and the deviation of portfolio holdings from the Index may be significant.

**Investment policy:** The Sub-Fund exposes at least 75% of its net assets in/to securities issued by companies operating the healthcare sector (biotechnology, pharmaceuticals, medical technology, medical diagnosis, hospital and healthcare center management, and other medical services) as well as companies marketing these products or services. Between 75% and 110% of the Sub-Fund's net assets will be exposed (directly or indirectly) to the international equity markets and other assimilated securities: directly, via UCIs and/or financial contracts.

The Sub-Fund aims at selecting companies operating in the healthcare sector, with a focus on a good management of environmental, social, and governance (ESG) risks and opportunities. The Sub-Fund's investment process entails, to this aim, a proprietary responsible investing approach which favours ESG well rated companies irrespective of their capitalizations and relying on either a proprietary ESG rating or a rating provided by an external extra-financial rating agency. At least 90% of portfolio companies receive ESG rating. Further details on the responsible investing approach applied on the Sub Fund can be found on the Investment Manager website: <https://www.edmond-de-rothschild.com/en/Pages/Responsible-investment.aspx>, more specifically on the Sub Fund's transparency code.

The Sub-Fund classifies as Article 8(1) SFDR as it promotes a combination of ESG characteristics, although no reference benchmark has been designated for the purpose of attaining the environmental or social characteristics.

In view of its ESG strategy, the Sub-Fund promotes environmental characteristics but does not invest in environmentally sustainable economic activities. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, in the context of the Taxonomy Regulation.

For cash management purposes, the Sub-Fund may invest up to 25% of its net assets in transferable debt securities, Money Market Instruments and Money Market Funds

The Sub-Fund may use financial derivative instruments to achieve its investment
