Key Information Document production date: 01.01.2026

### What is this Product ?

#### **Type**

The Product is a sub-fund of EDMOND DE ROTHSCHILD FUND, a public limited liability company (société anonyme), incorporated as a "société d'investissement à capital variable" under Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment and qualifying as an undertaking for collective investment in transferable securities (UCITS).

#### **Term**

The lifespan of this Product is not limited.

#### **Objectives**

**Objective:** The Product's objective is to offer an annualised performance exceeding its reference index.

**Benchmark index:** The benchmark will be expressed in the Class currency.

The benchmark of the Product is composed of 50% of the Bloomberg Barclays Euro Aggregate Corporate Total Return Index and 50% of the Bloomberg Barclays Euro Aggregate Treasury Total Return Index.

The benchmark index serves only for comparison purposes. The Product is actively managed.

**Investment policy:** The Investment Manager will systematically include environmental, social and governance (ESG) factors in their financial analysis in order to select the portfolio's securities.

At least 90% of debt securities and money market instruments or those issued by "emerging" countries will have an ESG rating within the portfolio. At the end of this process, the Product will have an ESG rating that is greater than that of its investment universe.

Furthermore, the security selection process also includes a negative filter to exclude companies that contribute to the production of controversial weapons in compliance with international conventions in this area as well as companies that are exposed to activities related to thermal coal or tobacco in accordance with the exclusion policy of Edmond de Rothschild Group, which is available on its website: <https://www.edmond-de-rothschild.com/en/Pages/Responsible-investment.aspx>.

The Product classifies as Article 8(1) SFDR as it promotes a combination of ESG characteristics, although no reference benchmark has been designated for the purpose of attaining the environmental or social characteristics.

In view of its ESG strategy, the Product promotes environmental characteristics but does not invest in environmentally sustainable economic activities. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities, in the context of the Taxonomy Regulation.

The investment approach of the Product combines both top-down and bottom-up factors. As such the Product benefits from the complementary skills of the Investment Manager, combining relevant macroeconomic analysis with specific bond picking skills in each fixed income market segment.

The Product may hold up to 100% of its net assets in securities issued in currencies other than the euro. The currency risk resulting from these investments will be systematically hedged.

The Product may invest up to 20% of its net assets in onshore RMB (CNY) denominated debt securities. Onshore RMB denominated debt securities (CNY) may include securities traded both directly on the Chinese interbank bond market (CIBM) and PRC Stock Exchanges. These investments will be made through the Bond Connect program.

The Product's Modified Duration may vary from -2 to 8.

The Product may use financial derivative instruments to achieve its investment objective.

These strategies, due to the use of derivatives, may potentially induce a relatively high leverage.

Up to the limit of 10% of its net assets, the Product may invest in units or shares of UCITS or other Investment Funds.

**Income allocation:** Accumulation

#### **Intended retail investor**

This Product is suitable for all institutional investors, for companies and individuals capable of understanding the inherent risks of an investment in this Product, and who wish to increase the value of their savings due to a vehicle which aims in particular at investments in bonds and other debt instruments denominated in euro. This share is intended for retail and corporate investors.

#### **Practical information**

Depository: Edmond de Rothschild (Europe)

You can buy or sell each day on which banks are generally open for business in Luxembourg and in France and any other day on which the French financial markets are open (official calendar of EURONEXT PARIS S.A.). The Net Asset Value will not be calculated on Good Friday or 24 December (Christmas Eve). Orders must be received by the transfer agent no later than 12:30 p.m. (Luxembourg time) on the relevant Valuation Day.

More detailed information on EDMOND DE ROTHSCHILD FUND, the available sub-funds and share classes, such as the prospectus and the annual and semi-annual reports, may be obtained free of charge, in English, from the registered office of Edmond de Rothschild Asset Management (France) at : 47, Rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France; telephone: +33 1 40 17 25 25; email: [contact-am-fr@edr.com](mailto:contact-am-fr@edr.com).

The latest published prices of the class, the information regarding the net asset value, the calculations of the monthly performance scenarios and the past performances of the Product are available on the website [www.edmond-de-rothschild.com](http://www.edmond-de-rothschild.com).

## What are the risks and what could I get in return ?

### Risk Indicator

The summary risk indicator assumes you keep the Product until maturity end of the recommended holding period (3 years).

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 2 out of 7, which is a low class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of the distributor to pay you.

In addition, you will be exposed to the following risks (not captured in the synthetic risk indicator), namely:

**Credit risk** : When a significant level of investment is made in debt securities.

**Liquidity risk** : The markets for some securities and instruments may have limited liquidity. This limited liquidity could be a disadvantage to the Product, both in the realisation of the prices quoted and the execution of orders at desired prices.

**Impact of techniques such as derivative contracts** : The use of derivatives instruments can infer a decrease of the asset more significant than the decrease of the invested underlying assets or markets.

**Counterparty risk** : Where a Product is backed by collateral or has significant investment exposure through contracts with a third party.

**Operational risk** : The Product may suffer losses due to the failure of operational processes, including those related to the safekeeping of assets.

The occurrence of any of these risks may negatively impact the net asset value.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

**Beware of currency risk.** If an Investment Product is denominated in a currency other than the official currency of the State in which this Product is marketed, the final gain will therefore depend on the exchange rate between the two currencies. This risk is not taken into account in the indicator above.

### Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable, scenarios presented represent examples using the best and worst performances, as well as the average performance of the Product and/or the appropriate benchmark indicator over the last 10 years.

Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Investment EUR 10,000

The recommended holding period is 3 years.		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 8,190	EUR 8,170
	Average return each year	-18.1%	-6.5%
Unfavourable	What you might get back after costs	EUR 8,660	EUR 9,160
	Average return each year	-13.4%	-2.9%
Moderate	What you might get back after costs	EUR 10,150	EUR 10,200
	Average return each year	1.5%	0.7%
Favourable	What you might get back after costs	EUR 11,130	EUR 11,160
	Average return each year	11.3%	3.7%

This table shows the money you could get back over the recommended holding period of 3 years, under the different scenarios, assuming you invest EUR 10,000.

Unfavourable scenario: this scenario occurred for an investment between 09/2020 and 09/2023.

Moderate scenario: this scenario occurred for an investment between 08/2017 and 08/2020.

Favourable scenario: this scenario occurred for an investment between 09/2015 and 09/2018.

## What happens if Edmond de Rothschild Asset Management (France) is unable to pay out ?

The Product's ability to pay out would not be affected by the insolvency of the manufacturer. You may however face a financial loss should the Depositary default on its obligations. Such default risk is limited as the Depositary is required by law and regulation to segregate its own assets from the assets of the Product. There is no compensation or guarantee scheme in place which may offset, all or any of, these potential losses.

## What are the costs ?

The person advising on or selling this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment over time.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario ;
- EUR 10,000 is invested.

Investment EUR 10,000	If you exit after 1 year	If you exit after 3 years (recommended holding period)
Total costs	EUR 309	EUR 753
Annual cost impact (*)	3.1%	2.4% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3.12% before costs and 0.67% after costs.

We may share costs with the person selling the Product to you in order to cover the services they provide to you. If so, this person will inform you of the amount.

### Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 1.00%. The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less. These costs are already included in the price you pay.	EUR 100
Exit costs	We do not charge an exit fee for this Product (but the person selling the Product may do).	EUR 0
Ongoing costs (taken each year)		
Management fees and other administrative or operating costs	1.04% of the value of your investment per year. The impact of the costs that we take each year for managing this Product. This figure is based on actual costs over the last year.	EUR 104
Transaction costs	0.60% of the value of your investment per year. The impact of the costs of us buying and selling underlying investments for this Product. The actual amount will vary depending on how much we buy and sell.	EUR 60
Incidental costs taken under specific conditions		
Performance fees (and carried interest) (**)	0.45% - Description: The performance fee is set at 15% and is calculated by comparing the Product's share performance with that of an indexed reference asset. The above aggregate cost estimate includes the average over the last 5 years.	EUR 45

(\*\*) Outperformance fees may be calculated and charged in the underlying funds held by the Product.

The table above shows the annual impact of the different types of costs on the return you could obtain on your investment at the end of the recommended investment period.

The costs shown here do not include any additional costs that may be charged by your distributor or advisor, or any costs in connection with a package that the Product may be part of. If you invest in this Product as part of a life insurance or capitalisation contract, this document does not take into account the contract fees.

This table also explains what the different cost categories mean.

## How long should I hold it and can I take the money out early ?

Recommended holding period : 3 years

This Product is designed for short term investments. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer.

You can buy or sell each day on which banks are generally open for business in Luxembourg and in France and any other day on which the French financial markets are open (official calendar of Euronext Paris S.A.). The Net Asset Value will not be calculated on Good Friday or 24 December (Christmas Eve). Orders must be received by the transfer agent no later than 12:30 p.m. (Luxembourg time) on the relevant Valuation Day.

## How can I complain ?

If you wish to make a complaint regarding the Product, the Product manufacturer or the person distributing or advising you about the Product, with a view to having a right recognised or a damage remedied, please send us a written request, describing the problem and the details of the complaint, by post or e-mail, to :

Edmond de Rothschild Asset Management (France), 47, Rue du Faubourg Saint-Honoré, 75401 Paris Cedex 08, France;

Email : [contact-am-fr@edr.com](mailto:contact-am-fr@edr.com);

Website : <http://www.edmond-de-rothschild.com>.

## Other relevant information

Performance scenarios : You can find previous performance scenarios updated on a monthly basis at <https://funds.edram.com/en>.

Past performance data about this Product is presented for 10 year(s). For further information, please visit <https://funds.edram.com/en>.

When this Product is used as a unit-linked support for a life insurance or capitalization contract, the additional information on this contract, such as the costs of the contract, which are not included in the costs indicated in this document, the contact in the event of a claim and what happens in the event of failure of the insurance company are presented in the key information document of this contract, which must be provided by your insurer or broker or any other intermediary of insurance in accordance with its legal obligation.

Depending on your tax system, any capital gains and income related to the holding of shares in the Product may be subject to taxation. We advise you to inquire about this with the marketer of the Product or your tax advisor.

This Product promotes environmental or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (referred to as the "SFDR Regulation"). Environmental, social and governance (ESG) criteria are one of the components that are managed, but their weighting in the final decision is not defined in advance.
