What is this product?

Type

Shares of a sub-fund of Fidelity Funds SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

SFDR product category: Article 8 (promotes environmental and/or social characteristics) – ESG Tilt.

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity Funds SICAV may terminate the fund by way of liquidation or merger.

Objectives

Objective: The fund aims to achieve capital growth over the long term and provide income.

Investment Policy: The fund invests at least 70% (and normally 75%) of its assets, in income producing equities of companies from anywhere in the world, including emerging markets. The fund may also invest in money market instruments on an ancillary basis. The Investment Manager aims to provide income in excess of the benchmark.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other measures, as well as company management, industry, economic conditions, and other factors. The Investment Manager focuses on investments which it believes offer attractive dividend yields in addition to price appreciation.

The Investment Manager considers ESG characteristics when assessing investment risks and opportunities. In determining ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. The fund aims to achieve an ESG score of its portfolio greater than that of its benchmark. Through the investment management process, the Investment Manager aims to ensure that investee companies follow good governance practices.

For more information, see “Sustainable Investing and ESG Integration” and the Sustainability Annex.

Derivatives and Techniques: The fund may use derivatives for

hedging and efficient portfolio management.

In addition to core derivatives (see “How the Funds Use Instruments and Techniques”), the fund intends to use TRS.

Benchmark: MSCI ACWI Index, a broad market index that does not take into account ESG characteristics. Used for: performance comparison.

The fund invests in securities of the benchmark, however, the management of the fund is discretionary, therefore the fund may invest in securities not included in the benchmark, and its performance over any period may or may not deviate significantly from that of the benchmark.

Base Currency: USD.

Risk Management Method: Commitment.

Additional Information: You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day. As this is a non-distributing share class, dividends are re-invested.

This key information document describes a sub-fund of Fidelity Funds. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Funds.

The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from the Management Company.

These documents and details of the Remuneration Policy are available via www.fidelityinternational.com.

The Net Asset Value of the fund is available at the registered office of the Management Company, and at www.fidelityinternational.com.

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds; who plan to hold their investment for a recommended holding period of at least 5 years; who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all of the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years.
The actual risk can vary significantly if you cash in at the early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Additional risks: emerging markets.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Management Company is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 5 years Example investment : EUR 10,000		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	4,750 EUR	5,290 EUR
	Average return each year	-52.5%	-12.0%
Unfavourable	What you might get back after costs	8,800 EUR	9,720 EUR
	Average return each year	-12.0%	-0.6%
Moderate	What you might get back after costs	10,190 EUR	14,130 EUR
	Average return each year	1.9%	7.2%
Favourable	What you might get back after costs	12,080 EUR	16,500 EUR
	Average return each year	20.8%	10.5%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 02/2025 and 03/2026.

The moderate scenario occurred for an investment between 03/2016 and 03/2021.

The favourable scenario occurred for an investment between 03/2020 and 03/2025.

What happens if the Management Company is unable to pay out?

The assets and liabilities of this product are segregated from those of the Management Company. There is no cross-liability between these entities, and the product would not be liable if the Management Company or any delegated service provider were to fail or default.

This product does not participate in an investor compensation scheme.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	715 EUR	1,863 EUR
Annual cost impact (*)	7.1%	3.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 10.6% before costs and 7.2% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	5.25% of the amount you pay in when entering this investment.	510 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.89% of the value of your investment per year. This is an estimate based on actual costs over the last year.	183 EUR
Transaction costs	0.23% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	22 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product.
