## Wealth Defender Global Equity Fund, Class A EUR

**LU1347437789**

a sub-fund of NSF SICAV

This sub-fund is managed by Nevastar Finance (Luxembourg) S.A.

### Objectives and investment policy

#### Objectives

The investment objective of the sub-fund is to achieve medium to long-term capital appreciation by investing its assets directly in a company's capital stock ("equity securities").

#### Investment Policy

The sub-fund will seek to achieve its objective by investing with a long only focus primarily in a portfolio of equity securities or equity related securities of large capitalisation companies located primarily in the world's developed countries, and in limited circumstances in emerging countries and listed on recognised stock exchanges of developed countries.

The Investment Manager will focus on investments in equity securities of companies that are structurally able to weather the effects of (or benefit from) inflation. In other words, these companies are price-givers or even price-makers rather than price-takers.

Financial instruments ("derivatives") may be used for hedging purposes only.

The portfolio is actively managed. The Fund's performance is compared against the Morningstar® Global Markets PR USD Index. The Fund does not base its investment process upon the Index so will not hold every component in the Index and may also hold securities that do not form part of it.

The reference currency of the sub-fund is USD but assets may be denominated in other currencies.

The Investment Manager has the discretion to buy and sell investments on behalf of the sub-fund within the limits of the Objective and Investment Policy.

The investor may subscribe, convert and redeem shares on each bank business day in Luxembourg.

Income of this share class is reinvested (accumulated).

#### Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 5 years.
