WHAT IS THIS PRODUCT?

TYPE

Carmignac Portfolio Credit is a segregated sub-fund of Carmignac Portfolio SICAV, an investment company with variable capital regulated by Luxembourg law and qualifying as UCITS pursuant to Directive 2009/65/CE.

TERM

The SICAV was launched on 30/06/1999 for unlimited period. The sub-fund was launched on 31/07/2017.

OBJECTIVES

The sub-fund aims to outperform its reference indicator, on an annual basis, over a minimum investment period of three years, using an active and unconstrained investment strategy based on directional positions as well as, to a lesser extent, long/short strategies on all international fixed income markets. The reference indicator is 75% ICE BofA Euro Corporate index and 25% ICE BofA Euro High Yield index. The sub-fund's reference indicator is rebalanced quarterly.

Up to 100% of the sub-fund's assets may be invested in fixed and/or floating rate corporate bonds, corporate inflation-linked bonds, as well as money market instruments. The sub-fund may invest up to 50% of its net assets in securities rated below investment grade. The sub-fund may also hold, on an ancillary basis, government bonds. Additionally, up to 20% of the sub-fund's net assets may be invested in securitisation instruments. The overall modified duration of the portfolio, defined as the change in portfolio capital (as %) for a change in interest rates of 100 basis points, may fluctuate between -4 and +10. The manager may use Relative Value strategies as performance drivers, looking to take advantage of the relative value between different instruments. Short positions may also be taken through derivatives. The geographical investment universe of the sub-fund is global, including emerging countries.

The sub-fund uses derivatives for hedging or arbitrage purposes, or to expose the portfolio to the following risks (directly or via indices): credit (up to 30% of the net assets), interest rates, currencies, equities and dividends. The derivatives available are options (vanilla, barrier, binary), futures and forwards, swaps (including performance swaps, as well as credit default swaps) on one or more

underlyings. Exposure to equities is authorised within 10% of the sub-fund's net assets. Up to 20% of the net assets may be invested in contingent convertible bonds ("CoCos"). CoCos are regulated subordinated debt instruments that are complex, but consistent in nature. Please refer to the prospectus for more information. The sub-fund may invest up to 10% of its net assets in units or shares of investment funds.

This sub-fund is an actively managed UCITS. The investment manager has discretion over the composition of its portfolio, subject to the stated investment objectives and policy. The sub-fund's investment universe is mostly independent from the indicator. The sub-fund's investment strategy is not dependent on the indicator; therefore, the sub-fund's holdings and the weightings may substantially deviate from the composition of the indicator. There is no limit set on the level of such deviation.

INTENDED RETAIL INVESTOR

This sub-fund is intended for private and institutional investors wishing to diversify their investments while benefiting from market opportunities through active asset management over a recommended investment period of more than 3 years, due to the sub-fund's exposure to the bond market.

The appropriate amount to invest in this fund depends on the personal situation of the investor, their knowledge of investment products and experience, their personal wealth, their cash requirements now and in the future, and their degree of risk aversion.

OTHER INFORMATION

This is an accumulation share.

Investments may be redeemed each business day on request. Subscription, redemption or conversion requests are centralised on each NAV calculation and publication day before 18:00 CET and are executed on the next business day using the previous day's NAV.

The Depositary of the sub-fund is BNP Paribas, Luxembourg branch.

The fund prospectus and latest key information document, as well as the latest annual report are available on the website www.carmignac.com.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk indicator : the summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Risks not sufficiently considered by the indicator include:

- Counterparty risk: the sub-fund may suffer losses if a counterparty defaults and is unable to meet its contractual obligations, especially in the case of derivatives traded OTC.
- Credit risk: the sub-fund is invested in securities whose credit rating may decline, meaning there is a risk that the issuer may not be able to meet its commitments. Should an issuer's creditworthiness deteriorate, the value of the bonds or derivatives linked to this issuer may fall.
- Liquidity risk: the markets in which the sub-fund participates may be subject to temporary illiquidity. These market distortions could have an impact on the pricing conditions under which the sub-fund may be caused to liquidate, initiate or modify its positions.
- Risks associated with China: investing in this sub-fund entails risks associated with China, especially risks associated with the use of Stock Connect (a system facilitating equity investment in the A shares market via a Hong Kong-based entity acting as the sub-fund's nominee). Investors are advised to familiarise themselves with the specific risks of this system, as well as with other risks linked to investments in China (CIBM, RQFII status...) as outlined in the prospectus.

Lower risk

Higher risk

The length of the recommended holding period is 3 years.

If the product is denominated in a currency other than the applicable currency of the legal tender of the Member State where the PRIIP is being marketed, the return the retail investor gets, when expressed in the currency of the Member State where the PRIIP is being marketed, may change depending on currency fluctuations.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The summary risk indicator shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 2 out of 7, which is a low risk class.

PERFORMANCE SCENARIOS

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average and best performance of the product over the last 10 years. Markets may develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

Recommended holding period:		3 years	
Example Investment:		10 000 €	
		If you exit after 1 year	If you exit after 3 years
Scenarios	Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6 290 EUR	7 120 EUR
	Average return each year	-37,11 %	-10,69 %
Unfavourable	What you might get back after costs	8 380 EUR	9 770 EUR
	Average return each year	-16,24 %	-0,79 %
Moderate	What you might get back after costs	10 630 EUR	12 160 EUR
	Average return each year	6,31 %	6,75 %
Favourable	What you might get back after costs	13 030 EUR	14 390 EUR
	Average return each year	30,27 %	12,91 %

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The figures shown include all costs of the product itself, but not necessarily all charges due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you receive.

- Unfavourable scenario: This type of scenario occurred for an investment between October 2019 and October 2022
- Moderate scenario: This type of scenario occurred for an investment between May 2022 and May 2025
- Favourable scenario: This type of scenario occurred for an investment between June 2018 and June 2021

WHAT HAPPENS IF CARMIGNAC GESTION LUXEMBOURG IS UNABLE TO PAY OUT?

For your protection, the assets of the fund are held with a separate entity, the custodian, so that the fund's ability to pay would not be affected by the insolvency of the management company. In the event of failure of the latter, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss of the product is mitigated due to the legal segregation of the assets of the depositary from those of the product.

WHAT ARE THE COSTS?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that these costs will have on your investment over time.

Costs over time

The amounts shown here are the cumulative costs of the product itself, for two different holding periods. They include potential early exit penalties. The figures assume you invest 10 000,00 €. The figures are estimates and may change in the future.

	If you exit after 1 year	If you exit after 3 years
Total costs	123 EUR	460 EUR
Annual cost impact (*)	1.23 %	1.33 %

* The Reduction in Yield (RIY) illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.08 % before costs and 6.75 % after costs. The total costs take into account one-off, ongoing and incidental costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	We do not charge an exit fee for this product.	0 EUR

Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Due to the sub-fund's exposure to the bond market, the recommended investment period is over 3 years.

However, you can redeem your investment without incurring any penalties at any point during this period, or stay invested for longer.

Redemptions are possible each business day. In exceptional circumstances, your right to request the redemption of your investment may be suspended.

HOW CAN I COMPLAIN?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can contact the initiator by e-mail to complaints@carmignac.com, by letter to 7 Rue de la Chapelle, 1325 Luxembourg, Luxembourg or by phone calling the number (+352) 46 70 60 1. In all cases, you must clearly state your contact details (name, address, telephone number and email address) and give a brief explanation of your complaint. More information is available on our website www.carmignac.com. The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
