Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

JSS Sustainable Equity - Tech Disruptors, share class P EUR acc a subfund of JSS Investmentfonds (ISIN: LU1752456696)

Management company: J. Safra Sarasin Fund Management (Luxembourg) S.A.

Objectives and investment policy

- The investment objective of the Sub-Fund is to achieve long-term capital growth.
- The assets of the Sub-Fund are mainly invested worldwide either directly (min. 67%) or indirectly in equity securities that offer an exposure to emerging and transformational technological trends. The concept differentiates between technology enablers (information technology firms) and technology adopters (non-IT, first movers in respective industries, that are disrupting existing business by implementing technological advances faster than others).
- Investments are made across sectors and market capitalizations and without any restriction as to the issuer's domicile. This also includes investments in the emerging markets. Emerging markets generally mean the markets of countries which are in the process of becoming modern industrial markets and therefore show higher potential, but also carry a higher risk.
- The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to MSCI World NR Index (the "Benchmark").
- The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. This product considers environmental, social and governance aspects ("ESG") along the investment process with the aim to reduce controversial exposures, to align the portfolio with international norms, to mitigate sustainability risks and to harness opportunities emanating from ESG trends and to get a better-informed perspective of portfolio holdings.
- You may redeem or convert shares in the Sub-Fund on any business day.
- This share class of the Sub-Fund continually reinvests income.

Risk and reward profile

- The risk and reward category shown is based on historical data and can not be used as a reliable indicator of the future risk profile of the Sub-Fund.
- The Sub-Fund's classification may change over time and does not provide any guarantee.

- The lowest category is not a risk-free investment.
- This Sub-Fund was categorised in risk class 6 because, in accordance with the investment policy, the value of the investments may fluctuate considerably. Consequently, both the expected return and the potential risk of loss may be high.
- Sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investments made by the Sub-Fund.
- Further information on the risks can be found in the "Investment principles" section of the prospectus and in the annex to the relevant Sub-Fund.
