Amundi EUR Corporate Bond Climate Paris Aligned UCITS ETF Acc

A Sub-Fund of MULTI UNITS LUXEMBOURG
LU1829219127 - Currency: EUR
This Sub-Fund is authorised in Luxembourg.
Management Company: Amundi Luxembourg S.A. (thereafter: "we"), a member of the Amundi Group of companies, is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).
The CSSF is responsible for supervising Amundi Luxembourg S.A. in relation to this Key Information Document.

What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.
Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.
Objectives: The Fund is an index-tracking UCITS passively managed.
The investment objective of the Fund is to track both the upward and downward evolution of the Bloomberg MSCI EUR Corporate PAB Select Index (the "**Benchmark Index**") denominated in Euro, while minimizing the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error").
The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.
The Benchmark Index is representative of the performance of the Euro denominated investment grade corporate bond market and which intends to meet and exceed the minimum standards of the EU Paris-aligned Benchmarks (the "**EU PAB**") required under delegated acts supplementing Regulation (EU) 2019/2089 amending Regulation (EU) 2016/1011 (the "**Benchmark Regulation**"). For further information on the exclusions applied by the Benchmark Index pursuant to the EU Paris-aligned Benchmarks, please refer to the "Guidelines on funds' names using ESG or sustainability-related terms" section of the Prospectus.
The Index methodology align with certain criteria such as:
- A minimum reduction in Greenhouse Gas (GHG) emissions relative to Parent Index of 50%.
- A minimum self-decarbonization rate of GHG emissions in accordance with the trajectory implied by Intergovernmental Panel on Climate Change's (IPCC) most ambitious 1.5ºC scenario, equating to at least 7% GHG intensity reduction on average per annum.
The Index methodology is constructed using a "best performer approach": relying on Amundi's proprietary ESG methodology which aims to measure the ESG performance of an investee company that must perform with the best top three rating (A, B or C, out of a rating scale going from A to G) within its sector on at least one material environmental or social factor. Material environmental and social factors are identified at a sector level. Factors identified as material result in a contribution of more than 10% to the overall ESG score.
The prospectus describes limitations of the methodology of the Benchmark Index through risk factors such as risk of the EU PAB label withdrawal or risk related to the carbon data used in methodology of the Benchmark Index.
The limits of the approach adopted are described in the Sub-Fund's prospectus through risk factors such as Sustainable investment risk. The ESG score of companies is calculated by an ESG rating agency, using raw data, models and estimates collected/calculated using methods specific to each provider. Due to the lack of standardisation and the uniqueness of each methodology, the information provided may be incomplete.
Assessment of sustainability risks is complex and may be based on ESG data which is difficult to obtain, incomplete, estimated, out of date and/or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed.
Additional information on the Benchmark Index may be found on the following website : https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices/
The Benchmark Index is a total return index. A total return index calculates the performance of the index constituents on the basis that any coupons or distributions are included in the index returns.
The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy, and may also engaged in securities lending transactions. The potential use of these techniques is published on Lyxor's website: www.amundietf.com.
Updated composition of the Fund holdings is available on www.amundietf.com.
In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
The Net Asset Value of the Sub-Fund is available on www.amundi.lu

Depositary: Societe Generale Luxembourg.

What are the risks and what could I get in return?

RISK INDICATOR

Lower Risk Higher Risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS LUXEMBOURG prospectus.

What happens if Amundi Luxembourg S.A. is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of MULTI UNITS LUXEMBOURG. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

* Secondary Market: because the Sub-Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Sub-Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.
Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years is based on our assessment of the risk and reward characteristics and costs of the Sub-Fund.
This product is designed for medium-term investment; you should be prepared to stay invested for at least 3 years. You can redeem your investment at any time, or hold the investment longer.

Order Schedule: Details of dealing frequency can be found under "What is this product?". Please see the "What are the costs?" section for details of any exit fees.

On the Primary Market the Company may:
- Suspend the redemption of shares, if exceptional circumstances so require, considering the interests of investors.
- Manage liquidity risks, by (i) limiting how many shares are redeemed in a short amount of time if redemption requests reach a predefined threshold beyond which such requests can no longer be executed in the best interests of all investors ("**Gates**"), and (ii) applying anti-dilution tools (anti-dilution levy or partial or full swing pricing) to mitigate material dilution for remaining investors.

On the Secondary Market, investors will generally be able to sell their shares on the relevant stock exchange. Further details can be found in the Prospectus.
