What is this product?

Type

The product is a share class of the sub-fund MainFirst - Global Equities Unconstrained Fund, which is part of MainFirst, SICAV (the "umbrella fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg Law of 17 December 2010, as amended (Law of 2010), and thus qualifies as a UCITS. The assets and liabilities of all sub-funds are segregated by law.

Term

The sub-fund has no maturity date. Notwithstanding this provision, the sub-fund, in keeping with the articles of association, may be dissolved at any time by resolution of the management board / general meeting.

Objectives

Investment objective

The investment objective of the sub-fund is to outperform the benchmark. The sub-fund is actively managed. The composition of the portfolio is determined by the fund manager solely in accordance with the criteria laid down in the investment objectives / the investment policy, is regularly reviewed and, if necessary, adjusted. The sub-fund may be subject to performance fees, which are calculated by reference to the benchmark MSCI World Net Total Return EUR Index (MSDEWIN, the "index"). The sub-fund's investment universe is not limited to the index components. The index may therefore differ significantly from the performance of the sub-fund. The sub-fund is an equity fund.

Investment policy

The equity portion of the sub-fund assets will always be at least 51%. When acquiring shares, the fund may acquire certain permissible Chinese A-shares under the Shanghai and Shenzhen Hong Kong Stock Connect ("SHSC") Programme. The use of the SHSC programme serves as an additional investment opportunity for the fund.

The sub-fund does not acquire shares in funds (UCITS and/or UCIs), regardless of their legal form. The sub-fund is therefore eligible as a target fund as specified in Art. 41(1)(e) of the Law of 2010.

Article 8 of Regulation (EU) 2019/2088 and Article 6 of Regulation (EU) 2020/852 (EU Taxonomy) apply to this sub-fund. MainFirst Holding AG, to which the sub-fund investment manager belongs, has signed the UN PRI (UN-supported Principles for Responsible Investment). The sub-fund's sustainability strategy aims to demonstrate on average a better ESG risk profile than the benchmark. The benchmark used to guide the sub-fund's investment strategy does not focus on the fund's environmental and social characteristics. A description of the method of calculating the benchmark index can be found at www.msci.com. Detailed information on the management company's responsible investment principles and the naming of sustainability rating agencies used can be found at www.ethenea.com.

Dividend policy

The income remains in the fund.

Due to the risk and return profile, we recommend a holding period of at least 5 years for this product.

However, you can return the product in accordance with the return procedures specified in the Sales Prospectus. An early return can significantly affect the risk and return profile. The redemption of shares may be suspended if exceptional circumstances appear to make this necessary, taking into account the interests of the shareholders, or limited if the shareholders' redemption requests reach a predefined threshold above which said requests can no longer be executed in the interests of the shareholders as a whole. The redemption period may be extended if this is necessary in the interests of the shareholders. The Management Company may separate certain assets whose economic or legal characteristics have changed significantly or become unsafe due to exceptional circumstances from the other assets of the Fund. Please refer to the Sales Prospectus for further information. The so-called "swing pricing procedure" may be employed. It establishes rules and principles to better protect shareholders from the effects of dilution, through activities of other shareholders.
