This key information document is accurate as at 13/04/2026.

What is this Product?

Type This Product is a UCITS Fund. This Product is a Sub-Fund of a Luxembourg Société d'Investissement à Capital Variable. The Product is governed by Part I of the Luxembourg Law of 17 December 2010 as amended.

Term This Product has no specific maturity date. However, this Product might be dissolved or merged, in this case you would be informed by any appropriate means approved by the regulation.

Objectives The investment objective of the Product is long-term growth of capital through an investment process systematically including Environmental, Social and Governance ("ESG") considerations. This Product may be appropriate for investors who can afford to set aside capital for 5 years.

- The Product is not managed relative to a specific index. However, for indicative purposes only, the Product's performance may be compared to the Morgan Stanley Capital International All Country World Index ("MSCI ACWI"). In practice, the portfolio of the Product is likely to include constituents of the index, however, the Product is unconstrained by the index and may therefore significantly deviate from it.
- The Product promotes environmental or social characteristics but does not have as its objective a sustainable investment. However, it invests partially in assets that have a sustainable objective. The Product invests in companies around the world that are considered by the Investment Manager to participate or being exposed to secular growth trends, such as Technology, Environment, Demographic and Governance. The Product follows an ESG thematic approach (complemented by sectoral exclusion, commitment and voting policies) which aims at assessing systematically the social and environmental impacts of each company in relation to the achievement of UN SDGs. It involves the rating of each company in respect of the sustainable ESG criteria as these are set out in the Prospectus. An ESG strategy may comprise methodological limitations such as the ESG Driven Investments Risk. Please refer to the section "Principal risks" of the Prospectus for additional information on the above. The Product is unconstrained by industry, index, currency, geography or capitalization size. The Product benefits from the French SRI label.
- The Product invests at least two-thirds of its total assets in equity securities worldwide. The Product may also invest up to 30% of its total assets in equity securities in emerging markets (including certain eligible A-Shares).
The Product may invest up to one-third of its total assets in other types of securities than those described above and in money market instruments, cash and cash equivalents.
- On an ancillary basis, the Product may use derivatives for hedging purposes.
- This hedged share class aims at hedging the net asset value against the fluctuation between the reference currency of the Product and the Share class reference currency.
- Income earned by the Product is reinvested.
- **Shareholders may redeem Shares on demand on any business day in Luxembourg on which the New York Stock Exchange and the NASDAQ are open by 13h30**
- Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Intended retail investor The Product is suitable for institutional and retail investors who are looking for exposure to equity markets on a global basis; can afford to set aside capital for 3 to 5 years (medium long term horizon); can accept significant temporary losses; and can tolerate volatility.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the Product for 5 years.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks materially relevant to the Product not included in the summary risk indicator: Liquidity risk, Stock connect risk.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the Product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product and a suitable proxy over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Natixis Investment Managers International is unable to pay out?

The assets of the Product are held in safekeeping by Brown Brothers Harriman (Luxembourg) S.C.A, as the depositary of the Product. In the event of insolvency of Natixis Investment Managers International, the Product assets will not be affected. However, in the event of the Depositary's insolvency, there is a potential risk of financial loss. However, this risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from Product's assets.

There is an investor compensation or guarantee scheme in the case of default of the Depositary provided by law.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	609 EUR	1,584 EUR
Annual cost impact (*)	6.2%	3.0% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 8.4% before costs and 5.4% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the Product may charge which amount to 132 EUR. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
