Max. 30% of the Sub-Fund assets may be invested in corporate bonds. Excluded from the aforementioned limit are quasi-sovereigns bonds that are owned more than 50% or guaranteed by the national government of an Emerging Market Country or of a country which is a constituent of the JP Morgan EMBI Global Diversified. Min 50% of Sub-Fund assets are invested in bonds with a rating of at least BB or better (Standard & Poor's and Fitch) or of at least Ba2 or better (Moody's). Sub-Fund assets may be invested in High-Yield bonds bearing a typically higher risk and higher potential of gains, however also bonds that are only rated CC, C or D (Standard and Poor's) may also be acquired. all relevant information about the E/S characteristics' scope, details, and requirements and applied exclusion criteria.

Min. 80% of Sub-Fund's portfolio shall be evaluated by an internal score. The score starts at 0 (lowest) and ends at 4 (highest). The basis for the calculation of the 80% threshold is the Sub-Fund's net asset value except instruments that are not scored by nature, e.g., cash and deposits. The score is based on environmental, social, governance and business behaviour factors (business behaviour does not apply to sovereign issuers) and represents an internal assessment assigned to a corporate or sovereign issuer by us. With respect to scored issuers, min. 80% of the rated issuers are adhering to a minimum internal score of 1,5 or more.

We manage this Sub-Fund in reference to a Benchmark which plays a role for the Sub-Fund's performance objectives and measures. We follow an active management approach with the aim to outperform the Benchmark. Although our deviation from the investment universe, weightings and risk characteristics of the Benchmark is likely to be material in our own discretion, the majority of the Sub-Fund's investments (excluding derivatives) may consist of components of the Benchmark.

Benchmark: J.P. MORGAN Emerging Markets Global Bond Diversified (hedged into EUR).

You may redeem shares of the Sub-Fund usually on each business day. Allianz Global Investors GmbH reserves the right to restrict the redemption of shares under certain circumstances (e.g., increased redemption requests) or to suspend the redemption of shares in exceptional circumstances.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

← Lower risk

Higher risk →

The risk indicator assumes you keep the Sub-Fund for 4 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to cash in early and/or you may have to pay significant extra costs to cash in early. You may not be able to sell your Sub-Fund easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Sub-Fund compared to other products. It shows how likely it is that the Sub-Fund will lose money because of movements in the markets or because we are not able to

pay you. We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class on the basis of the PRIIPs regulation. This rates the potential losses from future performance at medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. The categorisation of the Sub-Fund is not guaranteed and may change in the future. Even the lowest category 1 does not mean a risk-free investment.

Be aware of currency risk. You could receive payments in a different currency from your currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. This Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

The following material risks are not fully captured by the SRI: Unusual market conditions or large unpredictable events can amplify this Sub-Fund's risks and trigger other risks such as counterparty, liquidity, and operational risks (a complete description of risks can be found in the Prospectus).

Therefore, neither an insolvency of the management company nor of the Sub-

Fund's appointed depository will result in an investor losing money in the Sub-Fund.

In case of insolvency of the management company, the Sub-Fund's depository will either liquidate the Sub-Fund and distribute the proceeds to Sub-Fund's investors or entrust its management to another management company.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period: 4 years

Due to its investment strategy, the Sub-Fund's value may vary considerably over the short time. You should therefore stay invested for at least 4 years to profit from gains on the longer term. If you disinvest earlier, there is a higher

risk that you might get back only poor returns, or not even the sum you invested. The Sub-Fund is open-ended which means you can redeem money back at every NAV calculation and without having to pay penalties. If applicable to your Sub-Fund you will pay the exit fees only. The detailed procedure to redeem from the Sub-Fund is described in the Prospectus.
