What is this product?

Type

CT (Lux) Sustainable Multi-Asset Income (the "Fund") is a sub-fund of Columbia Threadneedle (Lux) III (the "SICAV"), an open-ended investment fund with variable capital. The SICAV is authorised under Luxembourg law and qualifies as an UCITS.

Term

The Fund does not have a maturity date. The Directors of the SICAV may decide to unilaterally liquidate the Fund with notice to the investors. Please refer to the Prospectus for more information.

Objectives

The objective of the Fund is to achieve capital growth and income through sustainable investments, while maintaining long-term value. The Fund invests in companies which meet high sustainability standards. The Manager seeks to (1) avoid investments that are contrary to the goals of making positive contributions to society and/or the environment; (2) invest in companies that provide sustainable solutions or that make positive contributions to society and/or the environment; and (3) improve companies through active investor engagement, leading to reduced risk, improved performance, best practices and, overall, long-term investor value. The Fund invests in a mix of traditional and alternative assets. The Fund will invest a majority of its assets in equities and debt securities (which are similar to a loan and pay a fixed or variable interest rate), including investment grade and below investment grade debt securities. The Fund may also invest in derivatives (Derivatives are sophisticated investment instruments linked to the rise and fall of the value of other assets) with the aim of enhancing performance by gaining exposure to alternative sources of return, controlling risk and hedging. The Fund is actively managed in reference to the 1mth Euribor Index, which provides a suitable comparator benchmark against which Fund performance will be measured and evaluated over time. The fund manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can find more details on the Investment Objective and policy of the Fund in the Prospectus. For more information on investment terms used in this document, please see Prospectus and Glossary available at www.columbiathreadneedle.com.

Intended retail investor

This Fund is intended for investors who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and capital growth and a sustainable investment objective, who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests directly and through derivatives across a variety of different asset classes and this diversification tends to result in a lower risk profile than investing purely in equity markets.

Additional Information

Depository: State Street Bank (Luxembourg) S.A.

Fund currency is EUR. Share class currency is EUR.

Shares in the Fund can be bought and sold on any Luxembourg Business Day. Such days are published on www.columbiathreadneedle.com. You have the right to exchange into shares of another sub-fund or into shares of another share class of the Fund (eligibility requirements apply). Subject to conditions noted in the Prospectus, the Directors of the SICAV may decide to suspend the issue, redemption and exchange of shares.

The assets of the Fund are segregated by law and cannot be used to pay the liabilities of other sub-funds of the SICAV. Further information about the Fund, the Share-Class and the SICAV can be obtained from the Prospectus, the annual and semi-annual financial reports. The above documents and the latest price per share are available free of charge at www.columbiathreadneedle.com in English, French, German, Portuguese (Prospectus only), Italian (Prospectus only), Spanish and Dutch (no Dutch Prospectus). This document is prepared for a specific share-class of the Fund. The Prospectus and the annual and semi-annual financial reports cover the entire SICAV.

What are the risks and what could I get in return?

RISK INDICATOR

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the value of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 12/2021 to 10/2025

Moderate scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 04/2017 to 04/2022

Favourable scenario: This type of scenario occurred for an investment in the product, and/or reference benchmark between 12/2016 to 12/2021

Recommended holding period: 5 years
Example Investment: EUR 10,000

		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,470 EUR	6,840 EUR
	Average return each year	-25.28%	-7.30%
Unfavourable	What you might get back after costs	8,240 EUR	9,010 EUR
	Average return each year	-17.59%	-2.07%
Moderate	What you might get back after costs	9,610 EUR	10,500 EUR
	Average return each year	-3.85%	0.98%
Favourable	What you might get back after costs	11,350 EUR	11,540 EUR
	Average return each year	13.53%	2.91%

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Other risks to be considered are: Counterparty, Currency, Volatility, Credit, Interest rate and Sustainability Investment.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

What happens if Threadneedle Management Luxembourg S.A. is unable to pay out?

Losses are not covered by an investor compensation or guarantee scheme. The assets of the Fund are held in safekeeping by the Depositary. In case of default of the Manufacturer, the Fund's assets in the safekeeping of the Depositary will not be affected. There is a potential default risk if the assets of the Fund held by the Depositary are lost. However, such default risk is limited as the assets and liabilities of the Depositary are segregated from those of the Fund, and the Fund would not be liable if the Depositary or any delegated service provider were to fail or default.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	681 EUR	1,592 EUR
Annual Cost Impact*	6.81%	2.89%

(*)This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 3.87% before costs and 0.98% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs
