RobecoSAM Global Gender Equality Equities F EUR (LU2145459264)

This fund is a subfund of Robeco Capital Growth Funds, SICAV.

Management Company: Robeco Institutional Asset Management B.V.

Objectives and investment policy

RobecoSAM Global Gender Equality Equities is an actively managed fund that invests globally in companies that advance gender diversity and gender equality. The selection of these stocks is based on fundamental analysis. The strategy integrates sustainability criteria as part of the stock selection process and through a theme-specific sustainability assessment. The portfolio is built on the basis of an eligible investment universe that includes companies with higher gender scores based on an internally developed gender score methodology. This comprises various criteria, such as board diversity, equal remuneration, talent management and employee well-being. The fund's objective is to achieve a better return than the index.

The fund promotes E&S (i.e. Environmental and Social) characteristics within the meaning of Article 8 of the European Sustainable Finance Disclosure Regulation, integrates sustainability risks in the investment process and applies Robeco's Good Governance policy. The fund applies sustainability indicators, including but not limited to, normative, activity-based and region-based exclusions, proxy voting and engagement. The fund aims to advance societal

impact by investing in companies that consciously recognize and promote gender equality by recruiting, nurturing and retaining female talent.

The fund is allowed to pursue an active currency policy to generate extra returns and can engage in currency hedging transactions.

Benchmark: MSCI World Index TRN

The majority of stocks selected will be components of the benchmark, but stocks outside the benchmark may be selected too. While the investment policy is not constrained by a benchmark, the fund may use one for comparison purposes. The fund can deviate substantially from the issuer, country and sector weightings of the benchmark. There are no restrictions on the deviation from the benchmark. The benchmark is a broad market-weighted index that is not consistent with the sustainable objective of the fund.

This share class of the fund does not distribute dividend.

You can purchase or sell units in the fund on any valuation day. This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

Historical data, such as is used in calculating the synthetic indicator, is not a reliable indication of the future risk profile. The risk and reward category shown is not guaranteed to remain unchanged, the categorization may shift over time. The lowest category does not mean a risk-free investment. The fund has a view on a specific segment of the equity market, which means that price movements of shares within this market segment tend to have a larger impact on the value of the fund. The fund may use financial derivatives.

- The following data are deemed material for this fund, and are not (adequately) reflected by the indicator:
- A derivative counterparty may fail to fulfil its obligations which could result in a loss. Counterparty risk is reduced via the exchange of collateral.
 - The fund invests in assets that could become less liquid in certain market conditions, which could have a significant impact on the value of these assets.
 - The fund invests or may invest in China A-shares. Investing in China A-shares carries increased risk, most notably liquidity, regulatory, quota, custody and broker risks.
 - For more details about portfolio risks, see Section 4. "Risk Considerations" of the prospectus.
