Lombard Odier Perspective

Prospectus

1 January 2022

Lombard Odier Perspective
is an investment Company
with variable capital ("SICAV")
incorporated in Luxembourg

PROSPECTUS

Relating to the issue of Shares of

Lombard Odier Perspective, in short LO Perspective (the "Company" or "LOP")

The defined terms used in the prospectus shall have the meaning given to them in the Glossary.

Subscriptions are accepted on the basis of the current prospectus of the Company (the "Prospectus"), the relevant key investor information documents and the latest audited annual and the subsequent unaudited semi-annual accounts, if published, of the Company. These documents may be obtained free of charge at the registered office of the Company.

The Company reserves the right to reject, at its sole discretion, any subscription request for Shares and to accept any application in part only. The Company does not permit practices related to market timing and reserves the right to reject subscription and conversion orders from investors who the Company suspects of using such practices and to take the appropriate measures to protect other investors of the Company.

The Shares are offered on the basis of the information and representations contained in this Prospectus and shall only be held in accordance with the principles set forth in this Prospectus in order to ensure Company's compliance with certain legal and regulatory requirements. All other information given or representations made by any person must be regarded as unauthorised. This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such an offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation.

The Shares have not been registered under the United States Securities Act of 1933 and, except in a transaction which does not violate such Act, may not be directly or indirectly offered or sold in the United States of America, any of its territories or possessions or areas subject to its jurisdiction, or to or for the benefit of a United States Person. For this purpose, the term "United States Person" shall mean any citizen, national or resident, of the United States of America, partnership organised or existing in any state, territory or possession of the United States of America, a corporation organised under the laws of the United States or of any state, territory or possession thereof, or any estate or trust, that is subject to United States Federal income taxation regardless of the source of its income. In addition, it should be noted that under the FATCA legislation, the direct or indirect holding, offering and/or selling of Shares may be forbidden to a wider range of investors than those falling within the United States Person definition mentioned above.

Investors should inform themselves as to and are responsible for complying with any applicable legal requirements on exchange control regulations and applicable taxes in the countries of their respective citizenship, residence or domicile.

Statements made in this Prospectus are based on the law and practice currently in force in the Grand Duchy of Luxembourg and are subject to changes therein.

Whilst using their best endeavours to attain the investment objectives, the Directors cannot guarantee the extent to which these objectives will be achieved. It should be remembered that the price of Shares of any Sub-Fund may go down as well as up.

The Directors have taken all reasonable care to ensure that the facts stated herein are true and accurate in all material respects and that there are no other material facts, the omission of which would make misleading any statement herein.

The distribution of this Prospectus and the offering of the Shares may be restricted in certain other jurisdictions. The above information is for general guidance only, and it is the responsibility of any person in possession of this Prospectus and of any person wishing to make application for Shares to inform themselves of, and to observe, all applicable laws and regulations of any relevant jurisdictions. If you have any doubts about the contents of this Prospectus you should consult your stockbroker, solicitor or other financial adviser.

To the extent permitted by local foreign laws, the English version of the Prospectus shall prevail in case of discrepancies with its translation into another language.

The date of this Prospectus is 1 January 2022.

GLOSSARY AND DEFINITIONS

1915 Law	Luxembourg law of 10 August 1915 on commercial companies as amended from time to time
2010 Law	Luxembourg law of 17 December 2010 on undertakings for collective investment or any legislative replacements or amendment thereof as amended from time to time
2015 Law	Luxembourg law of 18 December 2015 relating to the automatic exchange of tax information
A Shares	Accumulation Shares
ABS	Asset-backed securities
Alternative Currency	Currency of a class of Shares issued in a currency other than the Reference Currency. Currencies used as Alternative Currencies are EUR, USD, CHF, GBP, and JPY
Articles	The articles of incorporation of the Company
Asset Allocators	The asset allocators appointed by the Management Company to provide asset allocation services for the Sub-Funds managed according to the multi-management concept as defined under paragraph 6.4.
Board	The board of Directors of the Company
Business Day	Every day which is a full bank business day in Luxembourg (<i>i.e.</i> 24 December is not a full Business Day)
Cash and Cash Equivalents	Cash, bank deposits, short-term deposits or other short-term instruments (including ABS/MBS) and money-market instruments issued by sovereign or corporate issuers, the residual maturity of which does not exceed 397 days. Securities issued by UCIs investing in short-term instruments with the following features: at the portfolio level, duration limited to 1 year, credit spread duration limited to 2 years, at the security level, legal final maturity of all bonds limited to 3 years, except for regularly amortising securitised products (such as ABS/MBS) whose weighted average life shall be limited to 1 year. For non-amortising or scheduled amortising securitized products (such as ABS/MBS) the expected final maturity shall be limited to 3 years. Securities issued by money market UCIs as mentioned in paragraph 3.1 (ii). Alternatively to holding securities issued by money market UCIs as part of their Cash and Cash Equivalents, all Sub-Funds may hold directly instruments of the same nature and in the same proportion as those comprising the portfolio of a given money market UCI, which may include fixed rate securities, the residual maturity of which does not exceed 397 days. FRNs that have frequent resets of the coupon, <i>i.e.</i> annually or more frequently, will be regarded as passive substitutes for short-term instruments, provided that their maximum residual maturity is of 762 days
CDS	Credit default swap
Central Administration Agent	CACEIS Bank, Luxembourg Branch
CESR	Committee of European Securities Regulators (replaced by ESMA as of 1 January 2011)
CESR Guidelines 10-788	CESR's Guidelines on Risk Measurement and the Calculation of Global Exposure and Counterparty Risk for UCITS dated 28 July 2010
CHF	Swiss Francs
CNH	Offshore RMB as further described in the Risk Factor Annex
CNY	Onshore RMB as further described in the Risk Factor Annex
Company	Lombard Odier Perspective
CSSF	Commission de Surveillance du Secteur Financier, the Luxembourg supervisory authority
Cut-off time	Deadline to submit subscription, redemption or conversion applications to the Company as set out in the table under Section 12.1
D Shares	Distribution Shares

Dealing Charge	Charge which may be levied discretionarily by the Company at the rate disclosed in Annex A in relation to a given Sub-Fund in addition to the Issue and Redemption Prices or upon conversion of Shares of one Sub-Fund into Shares of another Sub-Fund in favour of the relevant Sub-Fund, in order to mitigate the effect of portfolio transactions costs resulting from subscriptions or redemptions as described in paragraph 10.4.
Depository	CACEIS Bank, Luxembourg Branch
Directors	The directors of the Company
Direct Costs	Costs described in paragraph 10.5.2
EEA	European Economic Area
Eligible State	A member State of OECD and all other countries of Europe, the American Continents, Africa, Asia, the Pacific Basin and Oceania
Emerging Markets	Markets or countries with a low to middle per capita income or, at the discretion of the Management Company, any country or market that is a component in an emerging market index of a major index provider. Examples of Emerging Markets include Indonesia, some countries of Latin America, some countries in Southeast Asia, most countries in Eastern Europe, Russia, some countries in the Middle East, and parts of Africa. Investors may obtain, free of charge, from the Company, on written request sent to its registered office, an updated list of Emerging Markets
EPM	Efficient portfolio management
ESG or ESG Factors	Environmental, social and governance characteristics or factors that can be further described as follows: "Environmental" can include issues relating to the quality and functioning of the natural environment and natural systems. These can include without limitation: biodiversity loss; greenhouse gas emissions, deforestation, climate change, renewable energy, energy efficiency, air, water or resource depletion or pollution, waste management, stratospheric ozone depletion, changes in land use and ocean acidification. "Social" can include issues relating to the rights, well-being and interests of people and communities. These can include without limitation: human rights, labour standards in the supply chain, child and slave labour, workplace health and safety, freedom of association and freedom of expression; diversity; relations with local communities, health and access to medicine, consumer protection, and controversial weapons. "Governance" can include issues relating to the governance of companies. These can include without limitation: board structure, size, diversity, skills and independence, executive pay, shareholder rights, stakeholder interaction, disclosure of information, business ethics, bribery and corruption, internal controls and risk management.
ESMA	European Securities and Markets Authority
EU	European Union
EUR	Euro
Euro-CRS Directive	Council Directive 2014/107/EU amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation
FATCA	The Foreign Account Tax Compliance provisions contained in the Hiring Incentives to Restore Employment Act signed into US law in March 2010; FATCA is construed as: (i) sections 1471 through 1474 of the US Internal Revenue Code and any successor provisions, associated legislation, regulations and guidance, and similar legislation, regulations and guidance enacted to implement similar tax reporting or withholding tax regimes; (ii) any intergovernmental agreement, treaty, legislation, regulation, guidance and other agreement entered into in order to comply with, facilitate, supplement or implement the legislation, regulations or guidance described under (i); (iii) any legislation, regulations or guidance issued by an applicable governmental entity that gives effect to the matters described under paragraphs (i) and (ii)
Feeder	A feeder UCITS as defined under paragraph 4.2 (g)
FFI	Foreign financial institution(s) under FATCA

FRN	Floating-rate note
FROC	Fixed Rate of Operational Costs as defined under paragraph 10.5.2
Fund Servicing Costs	Costs described in paragraph 10.5.2
G20	Group of Twenty established in September 1999
GBP	British pound sterling
GDPR	Regulation (EU) n°2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regards to the processing of personal data and on the free movement of such data
Global Exposure	Measure designed to limit either the incremental exposure and leverage generated by a Sub-Fund through the use of financial derivative instruments (including embedded derivatives) or the market risk of a Sub-Fund's portfolio
IML	Institut Monétaire Luxembourgeois (replaced by CSSF)
Initial Charge	The initial charge described in paragraph 10.1
Institutional Investors	Institutional investors within the meaning of article 174 (2) c) of the 2010 Law
Investment Adviser(s)	The investment adviser(s) appointed by the Investment Manager(s), with the prior approval of the Management Company, to provide investment advisory services with no discretionary asset management power.
Investment Manager(s)	The investment manager(s) listed in paragraph 6.3 appointed by the Management Company, with the agreement of the Board, to provide day-to-day discretionary investment management services for the Sub-Funds.
IRS	Interest rate swap
Issue Price	The price at which Shares shall be issued, such price being the Net Asset Value per Share for the relevant Sub-Fund , subject to, as the case being, any Swing Pricing adjustment or a Dealing Charge and increased by the Initial Charge
JPY	Japanese Yen
LOIM	Lombard Odier Investment Managers, the asset management division of the Lombard Odier Group
LOP	Lombard Odier Perspective
Management Company	Lombard Odier Funds (Europe) S.A.
Management Fee	The management fee payable to the Management Company as described in paragraph 10.5.1 at the rates set out in Annex A
Master	A Master UCITS as defined under paragraph 4.2 (g)
MBS	Mortgage-backed securities
MiFID II	The corpus of rules formed by (i) the Directive 2014/65/EU of the European Parliament and the Council of 15 May 2014 on markets in financial instruments, the Regulation (EU) No 600/2014 of the European Parliament and the Council of 15 May 2014 on markets in financial instruments, (ii) any binding guidelines or other delegated acts and regulations issued from time to time by the EU relevant authorities pursuant to the Directive 2014/65/EU and the Regulation No 600/2014 and, (iii) as the context may require, any applicable domestic law, regulation and administrative practice or ruling deriving from texts or acts under items (i) and (ii)
MYR	Malaysian Ringgit
Member State	A member State of the European Union as well as any States within the meaning of "Member State" as defined in article 1 of the 2010 Law
NAV	Net asset value
Net Asset Value	Total assets of the relevant Sub-Fund less its liabilities
Net Asset Value per Share	Total net assets of the relevant Sub-Fund, being the market value of its assets less its liabilities, divided by the number of Shares of the relevant Sub-Fund
OECD	Organization for Economic Cooperation and Development

Official Listing	Official listing on a stock exchange in an Eligible State
Operational Costs	Costs described in paragraph 10.5.2
OTC derivatives	Financial derivative instruments dealt in over-the-counter
Payment Date	Date of on which the payment of the Issue Price shall be made in full for value or on which payment of the Redemption Price will ordinarily be made, as set out in the table in paragraph 12.1
Performance Fee	The performance fee payable to the Management Company as described in paragraph 10.5.1 at the rates set out in Annex A
Prospectus	The current prospectus of the Company
Redemption Price	The price at which Shares shall be redeemed, such price being the Net Asset Value per Share for the relevant Sub-Fund, subject to, as the case being, any Swing Pricing adjustment or a Dealing Charge
Reference Currency	Currency in which Shares of a Sub-Fund are issued
Regulated Market	Regulated market, other than Official Listing, which operates regularly and is recognized and open to the public in an Eligible State
RESA	Recueil Electronique des Sociétés et Associations, the Luxembourg official electronic platform of central publication regarding companies and associations, which has replaced the Mémorial C, Recueil des Sociétés et Associations
Risk Factors Annex	The list of risk factors set out in Annex B
RMB	Renminbi; the official currency of the People's Republic of China is used to denote the Chinese currency traded in the onshore markets (in mainland China), through onshore RMB (CNY), and the offshore markets (mainly in Hong Kong), the offshore RMB (CNH); for clarification purposes, all references to RMB in the name of a Share class or in the Reference Currency must be understood as a reference to offshore RMB (CNH)
SFDR	Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial sector
SFDR Annex	The Annex C of this Prospectus in which the sustainability disclosures required by SFDR in relation to each Sub-Fund are set out
SFIs	Structured financial instruments
SFTR	Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012
SGD	Singapore dollar
Shares	Shares of the Company
Sub-Funds	The Sub-Funds of the Company, each corresponding to a distinct part of the assets and liabilities of the Company
Sub-Investment Manager(s)	The sub-investment manager(s) appointed by the Investment Manager(s), with the prior approval of the Management Company and without prejudice to the responsibility of the Investment Manager(s), to provide investment management services with discretionary asset management power.
Swing Factor	Percentage applied to the Issue Price or the Redemption Price according to the Swing Pricing as described in paragraph 15.1
Swing Pricing	Mechanism described in paragraph 15.1
T-Bills	Treasury bills
Target Sub-Fund	A Sub-Fund whose Shares are subscribed, acquired and/or held by another Sub-Fund
Taxonomy Regulation	Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment
TRS	Total return swap

UCIs	Undertakings for collective investment, including UCITS
UCITS	Undertakings for collective investment in transferable securities
UCITS Directive	Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to UCITS, as amended from time to time
UCITS Rules	The corpus of rules formed by (a) the UCITS Directive, (b) the Commission Delegated Regulation (EU) 2016/438, and (c) any national laws and regulations which are taken in relation to (or transposing either of) the foregoing, including the 2010 Law.
U.S. Person	Any citizen, national or resident of the United States of America, partnership organized or existing in any state, territory or possession of the United States of America, a corporation organized under the laws of the United States or of any state, territory or possession thereof, or any estate or trust that is subject to United States Federal income tax regardless of the source of its income
US	United States
USD	Dollars of the United States of America
Valuation Day	The relevant Business Day (daily or weekly) as set out in the table under Section 12 where the Sub-Funds are priced and Shares are issued and/or may be redeemed and converted and which is also a bank business day in the principal market or stock exchange on which a material part of a Sub-Fund's investments for the time being are quoted
VaR	Value at Risk. The VaR is a statistical methodology that predicts the maximum potential loss that a Sub-Fund could make, calculated to a certain confidence level.

2. LEGAL FORM

2.1 The Company

The Company is organised as a "société d'investissement à capital variable" under the 1915 Law falling under Part I of the 2010 Law complying with the requirements of the UCITS Directive.

The Company was incorporated on 2 July 2015 for an unlimited period of time under the name "LO Perspective". The Articles were last amended on 19 June 2019 and the restated Articles have been published in the RESA n°2019_160 of 12 July 2019. The minimum share capital of the Company is EUR 1,250,000.

The Company is registered under number B 198191 in the Luxembourg Trade and Companies Register. Its Articles are available for inspection there and a copy may be obtained upon request. Its registered office is at 291 route d'Arlon, 1150 Luxembourg, Grand Duchy of Luxembourg.

The Directors are listed in Section 1.

There are no provisions in the Articles expressly governing the remuneration (including pension or other benefits) of the Directors. The Directors shall be reimbursed their out-of-pocket expenses and their remuneration shall be approved by the shareholders of the Company in general meeting. Directors affiliated to the Lombard Odier Group of Companies are not entitled to a fee for their services.

The capital of the Company is represented by Shares of no par value of different classes which relate to Sub-Funds and shall at any time be equal to the total net assets of the Company.

The liabilities of each Sub-Fund shall be segregated on a Sub-Fund by Sub-Fund basis with third party creditors having recourse only to the assets of the Sub-Fund concerned.

2.2 The Shares

Shares of the Company have no par value and have like rights and privileges. Each Share shall carry the right to participate in the profits and the results of the relevant Sub-Fund's operations. The Shares shall have no preferential, pre-emption, conversion or exchange rights. There are no, nor is it intended that there will be any, outstanding options or special rights relating to any Shares. Each whole Share entitles the holder thereof at all general meetings of shareholders and at all special meetings of the relevant Sub-Fund or class of Shares to one vote which may be cast in person or by appointing another as his/her/its proxy or by means of voting forms. To the extent permitted by law, the Board may suspend the right to vote of any shareholder who does not fulfil its obligations under the Articles or any document stating its obligations towards the Company and/or the other shareholders.

The Shares are freely transferable, except that the Board may, according to the Articles and as further detailed in Section 13 below, restrict the direct or indirect holding of Shares or the ownership of Shares by certain persons, firms or corporate body or make proposals regarding existing shareholders' holdings in order to comply with legal or regulatory requirements.

Shares are issued in registered form only ("Registered Shares"). Confirmation advices will be sent to shareholders the next Business Day following execution of the subscription order or, where the confirmation is received by the Management Company from a third party, the first Business Day following receipt of the confirmation from the third party. Registered Share certificate(s) will not be issued, unless specifically requested by investors in which case certificates will be dispatched to the applicant(s) to the address given on the application form within 30 days after acceptance of the subscription. The cost relating to the issue of Share certificates will be borne by the requesting shareholders.

The Articles permit the issue of Shares of different classes, which each relates to a different Sub-Fund. Classes of Shares may differ with regard to their dividend policy, investor eligibility criteria, fee structure or specific features.

The Company issues Shares in registered form. If and to the extent permitted by law, and in particular under the conditions provided for in the Luxembourg law of 6 April 2013 relating to dematerialised securities (the "2013 Law"), the Board may at its discretion decide to issue, in addition to Shares in registered form, Shares in dematerialised form.

At present the Board has decided that the following classes of Shares may be issued:

- three main classes of Shares (P Shares, I Shares and E Shares) that differ mainly in terms of fees, type of investor and minimum initial investment and holding amount.
- A Shares or D Shares.

Fractions of Shares can be allotted and issued.

The following table shows the main features of the different classes of Shares available for each Sub-Fund.

Classes	Type of investor ¹		
I Shares	Institutional Investors unless otherwise indicated in Annex A		
P Shares	All investors		
E Shares	Entities of the Lombard Odier Group and their respective employees under certain conditions ³		

	I Shares	P Shares	E Shares
Minimum Initial Investment and Minimum Holding ²	As indicated in Annex A	As indicated in Annex A	No
Management Fees	Yes	Yes	No
Performance Fees	Yes if set out in Annex A	Yes if set out in Annex A	No
Forms available / dividend policy	A Shares	A Shares	A Shares
	D Shares	D Shares	D Shares
Forms available / Alternative currencies ³	EUR / USD / CHF / GBP / JPY	EUR / USD / CHF / GBP / JPY	EUR / USD / CHF / GBP / JPY
Forms available / Currency hedging policy ⁴	No hedging / Systematic hedging	No hedging / Systematic hedging	No hedging / Systematic hedging

¹ The Board or the Management Company may waive the eligibility criteria in relation to any given class of Shares.

E Shares are dedicated to the entities of the Lombard Odier Group and their respective employees investing a portion of their variable remuneration, or a deferred portion thereof, into Shares pursuant to new regulations dealing with the remuneration of asset management firms.

² The Board may waive the initial minimum investment and minimum holding for all classes of Shares.

³ Sub-Funds may issue classes of Shares in any Alternative Currency. If a Sub-Fund offers the possibility of issuing Shares in an Alternative Currency this will be mentioned in Annex A of a given Sub-Fund. In addition, the list of Sub-Funds with a class of Shares issued in an Alternative Currency is disclosed in the annual and semi-annual reports and on the Lombard Odier Group website (www.loim.com) and can be obtained at the registered office of the Company.

⁴ When a currency hedging policy is applied at a Share class level, the amount of the hedging shall be between 95% and 105% of the total net assets of the Share class in Alternative Currency. Changes in the market value of the Sub-Fund's portfolio, as well as subscriptions and redemptions of Share classes in Alternative Currency, can result in the hedging temporarily deviating from the aforementioned range. Necessary steps will be taken to bring the hedging back within the aforementioned limits.

The classes of Shares available for each Sub-Fund and their respective features are mentioned in Annex A of a given Sub-Fund.

Although assets attributable to different Sub-Funds of the Company are segregated (see paragraph 2.1), investors should be aware that there exists no legal segregation of assets between different classes of Shares within the same Sub-Fund. Therefore, in case that the net assets attributable to a class of Shares of a Sub-Fund are not sufficient to cover the charges and expenses relating to a specific class of Shares, such charges and expenses will be paid out of the net assets of the other classes of Shares of the same Sub-Fund.

2.3 The Shareholders

Classes of Shares restricted to Institutional Investors are subject to a *taxe d'abonnement* of 0.01% per annum on their Net Asset Value whereas classes of Shares which are not restricted to Institutional Investors are subject to a *taxe d'abonnement* of 0.05% p.a. (see Section 17). Therefore, conversion from Shares of one class of Shares into another class of Shares is only permitted if the investor complies with all the conditions required for the class of Shares into which Shares are to be converted.

3. INVESTMENT OBJECTIVES AND POLICIES

3.1 General Provisions Common to all Sub-Funds

The Company aims to provide investors with the opportunity of participating in a wide selection of financial markets through a range of actively managed Sub-Funds.

The investment policies of the Company are determined by the Directors, after taking into account the political, economic, financial and monetary factors prevailing in the selected markets.

The list of the Sub-Funds currently offered for subscription with the description of their investment policies and main characteristics can be found in Annex A. Subject to lower or higher limit set out in the investment objective and policy of a Sub-Fund, the Sub-Funds may invest up to 10% of their portfolio in securities other than those described in their respective investment objectives and policies.

The Directors may decide to create additional Sub-Funds. In such case this Prospectus will be updated.

Throughout the Prospectus each Sub-Fund will be referred to by its name as defined in Annex A.

Unless otherwise mentioned in Annex A in relation to a given Sub-Fund and always subject to the limits permitted by the Investment Restrictions described in Section 4, the following principles will apply to the Sub-Funds:

(i) Cash and Cash Equivalents

Subject to lower or higher limits set out in the investment objective and policy of a Sub-Fund and in accordance with the applicable diversification rules, the Sub-Funds may hold up to 49% of their net assets in Cash and Cash Equivalents. Such limit will not apply under extraordinary market conditions and is subject to liquidity considerations. In particular, a Sub-Fund may hold its net assets in Cash and Cash Equivalents in excess of the above-mentioned limit pending investment upon receipt of subscription monies, pending redemptions in order to maintain liquidity, for EPM or for short-term defensive purposes when the Investment Manager believes it is in the best interest of the shareholders to do so. During these periods, a Sub-Fund may not achieve its investment objective and policy.

The Company will regard FRNs that have frequent resets of the coupon, i.e. annually or more frequently, as passive substitutes for short-term instruments, provided that their residual maturity does not exceed 762 days.

For the purposes of computing the investment ratios mentioned in a given Sub-Fund's description, Cash and Cash Equivalents held on a temporary basis will not be taken into account if the ratio refers to the Sub-Fund's portfolio and will be taken into account if the ratio refers to the Sub-Fund's net assets.

(ii) Units of UCIs

Subject to lower or higher limits set out in Annex A in relation to a given Sub-Fund or unless investments in units of eligible UCIs is part of the investment objective and policy of a Sub-Fund, the Sub-Funds may hold up to 10% of their net assets in units of eligible UCIs. Investment in UCIs may also be used by the Sub-Funds to manage their cash position.

The UCIs may have different investment strategies or restrictions than those applied to the Sub-Funds.

The securities issued by collective investment vehicles with at least 50% of their net assets, according to their investment policy, invested in a particular class of assets will themselves be treated as securities of such class of assets for the purposes of the investment policy and restrictions set out in this Prospectus (example: collective investment vehicles with at least 50% of their net assets, according to their investment policy, invested in shares and other securities equivalent to shares will be treated as equity securities). Where a collective investment vehicle is structured as an umbrella and the Company holds securities belonging to one or more sub-funds of such collective investment vehicle, the same principle shall apply mutatis mutandis to the securities of each sub-fund.

(iii) **Financial derivative instruments**

The Management Company and Investment Manager(s) may use all categories of financial derivative instruments authorised by Luxembourg law or by Circulars issued by the CSSF and in particular the categories mentioned in paragraph 4.1 (vii).

Financial derivative instruments may be used for one of the following strategies: for hedging purposes, for EPM or as part of the investment strategy of a Sub-Fund. A description of those strategies is mentioned in paragraph 4.1 (vii).

As stated in paragraph 4.2, the Company may apply the VaR approach or the commitment approach to calculate the Sub-Funds' Global Exposure.

The leverage effect of investments in some financial instruments and the volatility of the prices of options, futures and other derivative contracts would normally make the risk attached to investment in the Shares of the Sub-Funds higher than is the case with conventional investment policies. Additional risks associated with the use of financial derivative instruments are described in the Risk Factors Annex.

(iv) **Techniques and instruments for the purpose of EPM relating to transferable securities and money market instruments**

These techniques and instruments include, but are not limited to, repurchase agreements and securities lending.

None of these techniques are used by any Sub-Fund at the date of this Prospectus.

(v) **SFIs**

Subject to lower or higher limits set out in Annex A in relation to a given Sub-Fund or unless the use of SFIs is part of the investment objective and policy of a Sub-Fund, the Sub-Funds may hold up to 10% of their net assets in SFIs which are eligible transferable securities (as specified in Section 4) organised solely for the purposes of restructuring the investment characteristics of certain other investments (the "Underlying Investments") and issued by first class financial institutions (the "Financial Institutions"). The Financial Institutions issue transferable securities (the SFIs) backed by or representing interests in the Underlying Investments.

The Sub-Funds may invest in SFIs such as, but not limited to, equity-linked securities, participatory notes, capital protected notes and structured notes, including securities/notes that are issued by companies advised by the Management Company or any entity of its group. When the SFI embeds a derivative instrument, the embedded derivative must be taken into account when applying the restrictions mentioned in paragraph 4.2 (j).

Sub-Funds investing in convertible bonds, often use SFIs as a substitute to convertible bonds to achieve the same market exposure.

(vi) **Currencies**

Shares of each Sub-Fund are issued in the Reference Currency. However, Shares of each Sub-Fund may also be issued in Alternative Currency (USD, GBP, CHF, EUR, JPY) of a Sub-Fund (see paragraph 2.2) as indicated in Annex A in relation to a given Sub-Fund. Unless otherwise mentioned in Annex A in relation to a given Sub-Fund, the currency risk for a class of Shares issued in an Alternative Currency will not be hedged. Costs related to the currency conversion, if any, of subscription or redemption amounts from or into the Reference Currency and fees relating to the currency hedging policy will be borne by each class of Shares issued in Alternative Currency.

The Reference Currency of a Sub-Fund is always mentioned in the Sub-Fund's description (see Annex A in relation to a given Sub-Fund) and sometimes between brackets in its name. Sub-Funds may invest in securities denominated in other currencies than their Reference Currency, even when the Reference Currency is mentioned between brackets in their name.

(vii) **Emerging Markets**

Subject to lower or higher limits set out in Annex A in relation to a given Sub-Fund, the Sub-Funds whose investment objective and policy give discretion to the Investment Manager with regard to the selection of markets (including Emerging Markets) or currencies may hold up to 49% of their net assets in securities issued in Emerging Markets and/or Emerging Market currencies (including CNH).

When such limit is exceeded following the reclassification of a market previously regarded as "non-emerging", the Investment Manager will have discretion as to whether measures should be taken having regard to the best interest of the shareholders.

The attention of investors is drawn to the Risk Factors annex which sets out the risks associated with the investments in Emerging Markets.

(viii) Risks associated with investments in the Sub-Funds

All Sub-Funds are directly or indirectly exposed to various forms of investment risks through the financial instruments in which they invest.

The attention of investors is drawn to the Risk Factors Annex which sets out the risk factors applicable to the Sub-Funds. Some risks concern all Sub-Funds (see section "General" of the Risk Factors Annex) whereas others are Sub-Fund specific (see section "Risk Linked To Certain Sub-Funds" of the "Risk Factors Annex"). A review of the risks specific to each Sub-Fund is included in the Risk Factors Annex.

(ix) Profile of the typical investor

The profile of the typical investor for each Sub-Fund can be found in Annex A.

An investment in a Sub-Fund is not a deposit in a bank or other insured depositary institution. Investment may not be appropriate for all investors. The Sub-Funds are not intended to be a complete investment program and investors should consider their long-term investment goals and financial needs when making an investment decision about the Sub-Funds. An investment in a Sub-Fund is intended to be a long-term investment. The Sub-Funds should not be used as trading vehicle.

Whilst using their best endeavours to attain the Company's objectives, the Directors cannot guarantee the extent to which the investment objectives will be achieved.

(x) SFDR

The Investment Managers integrate sustainability risks into their investment decisions in respect of the Sub-Funds.

The manner in which the Investment Managers integrate sustainability risks into their investment decisions in respect of the Sub-Funds and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Funds are set out in the SFDR Annex.

In addition, Sub-Funds that either promote among other characteristics, ESG characteristics or have sustainable investment as their investment objective shall respectively comply with Article 8 or Article 9 of SFDR.

At the date of this Prospectus, no Sub-Fund has been classified by the Management Company as a financial product subject to Article 8 or Article 9 of SFDR.

Should a Sub-Fund of the Company be classified as a financial product subject to Article 8 or Article 9 of SFDR, the SFDR Annex will be updated to include:

- (i) a description of the ESG characteristics or the sustainable objective; and
- (ii) information on the methodologies used to assess, measure and monitor the ESG characteristics or the impact of the sustainable investments selected for the Sub-Fund, including its data sources, screening criteria for the underlying assets and the relevant SFDR Focused Sustainability Indicators used to measure the ESG characteristics or the overall sustainable impact of the Sub-Fund.

In such case, the above-mentioned sustainability disclosures required by SFDR in relation to each Sub-Fund will be found in the SFDR Annex and on www.loim.com.

Information on the Management Company's policies on the integration of sustainability risks in the investment decision-making process is published on www.loim.com.

The Management Company considers principal adverse impacts of investment decisions on sustainability factors and has published a statement on due diligence policies with respect to those impacts on www.loim.com.

3.2 Investment-Grade Rating and Lower Grade Securities

According to generally accepted rating principles in the financial services industry, investments in debt securities are classified in two broad categories:

- investment grade securities with ratings by Fitch, S&P, Moody's or equivalent ranging from AAA (Aaa or equivalent) to BBB (Baa or equivalent);
- speculative investments with ratings of BB (Ba) and below.

For the purposes of the foregoing securities rating limitations, a security will be deemed to be within the relevant rating category even if the rating agency has assigned a modifier, such as a "minus", to the rating. For example, a security rated A- by S&P will be deemed to be rated A for these purposes.

In the absence of a rating from the rating agencies (such as, but not limited to, Fitch, S&P or Moody's),

- in case of government bonds or government money market instruments, the equivalent long term debt sovereign rating of the country may be used as an alternative for the rating of these securities;
- in case of bonds or money market instruments issued by a corporate, the rating of the issuer may be used as an alternative for the rating of these securities.

If finally, no rating is available from the rating agencies, or, if so described in the relevant investment policy, the Investment Manager will be entitled to invest in securities which, in its opinion are deemed to be within the relevant rating category. When rating agencies assign different ratings to a given security and unless otherwise specified in the investment objective and policy of a Sub-Fund, the Investment Manager may consider the highest rating as the valid one.

If a Sub-Fund invests in bonds, it will generally be invested in bonds, fixed or floating-rate securities and short-term-debt securities of Investment Grade quality (BBB or better, or of equivalent quality in the opinion of the Investment Manager of the relevant Sub-Fund) unless otherwise mentioned in the description of a given Sub-Fund.

Units of permitted UCIs with, according to their investment policy, at least 50% of their assets invested in fixed-income securities will be deemed to be investment-grade debt securities unless otherwise provided in the description of the investment policy of the collective investment vehicle.

Investment in straight bonds, convertible bonds, other debt securities or associated instruments rated BB or below, or of equivalent quality in the opinion of the Investment Manager, can involve additional risks. Securities rated B or equivalent are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and principal or maintain other terms of the offer documents over any long period of time. Whilst such issues are likely to have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposure to adverse economic conditions. Risks associated with the use of lower grade securities are described in the Risk Factors Annex.

3.3 Performance of the Sub-Funds

A graph, showing the historical performances of those Sub-Funds which have existed for at least one complete calendar year, is contained in the respective key investor information documents.

4. INVESTMENT RESTRICTIONS

4.1 Eligible Assets

Whilst the Company has broad powers under its Articles as to the type of investments it may take and the investment methods it may adopt, the Directors have resolved that the Company may only invest in:

Transferable securities and money market instruments

- (i) transferable securities and money market instruments admitted to Official Listing; and/or
- (ii) transferable securities and money market instruments dealt in a Regulated Market; and/or

- (iii) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to an Official Listing or a Regulated Market and such admission is achieved within a year of the issue;
- (iv) money market instruments other than those admitted to an Official Listing or dealt in on a Regulated Market, which are liquid and whose value can be determined with precision at any time, if the issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that they are:
 - issued or guaranteed by a central, regional or local authority or central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, a non-Member State or, in the case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - issued by an undertaking, any securities of which are admitted to an Official Listing or dealt in on Regulated Markets referred to in items (i) and (ii) above, or
 - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by Community law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by Community law such as a credit institution which has its registered office in a country which is an OECD member state and a FAFT state, or
 - issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second and the third indents and provided that the issuer is a company whose capital and reserves amount to at least ten million euros (EUR 10,000,000) and which presents and publishes its annual accounts in accordance with the directive 2013/34/EU as amended, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

The Company may also invest in transferable securities and money market instruments other than those referred to in items (i) to (iv) above provided that the total of such investment shall not exceed 10 per cent of the net assets attributable to any Sub-Fund.

Units of UCITS and UCIs

- (v) units of UCITS authorised according to the UCITS Directive and/or other UCIs within the meaning of article 1, paragraph (2) letters (a) and (b) of the UCITS Directive, should they be situated in a Member State or not, provided that:
 - such other UCIs are authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in Community law, and that cooperation between authorities is sufficiently ensured, such as UCIs which have been authorised under the laws of any Member State or under the laws of Canada, Hong Kong, Jersey, Japan, Norway, Switzerland or the United States of America;
 - the level of protection for unit-holders in the other UCIs is equivalent to that provided for unit-holders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending, uncovered sales of transferable securities and money market instruments are equivalent to the requirements of the UCITS Directive;
 - the business of the other UCIs is reported in half-yearly and annual reports to enable an assessment to be made of the assets and liabilities, income and operations over the reporting period;
 - no more than 10% of the UCITS' or the other UCIs' net assets (or of the net assets of the relevant sub-fund), whose acquisition is contemplated, can, according to their constitutional documents, be invested in aggregate in units of other UCITS or other UCIs.

In accordance with article 46 (3) of the 2010 Law, no subscription or redemption fees may be charged to the Company if the Company invests in Target Sub-Funds or in units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the Management Company or by any other company with which the Management Company is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or voting rights.

When a Sub-Fund of the Company invests its assets in other UCITS or UCIs or a Target Sub-Fund, the maximum level of the management fee that may be charged both to the Sub-Fund and to such other UCITS or UCI or Target Sub-Fund (including invoices paid by a Sub-Fund as part of a remuneration agreement or assimilated agreement when investing into a class bearing no management fee of an underlying UCITS, UCI or Target Fund) can be found, in respect of each Sub-Fund, in Annex A.

Under the conditions set forth by the Luxembourg laws and regulations, any Sub-Fund may subscribe, acquire and/or hold Shares of any other Sub-Fund (the "Target Sub-Fund") provided that:

- the Target Sub-Fund does not, in turn, invest in the Sub-Fund invested in this Target Sub-Fund; and

- pursuant to the investment restrictions and policy of the Target Sub-Fund, the Target Sub-Fund whose acquisition is contemplated may not invest in aggregate more than 10% of its assets in shares of other UCITS or UCIs, including another Sub-Fund; and
- voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Sub-Fund concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
- in any event, for as long as these securities are held by the Company, their value will not be taken into consideration for the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the 2010 Law.

The Sub-Funds qualifying as Feeder, shall invest at least 85% of their assets in another UCITS or a sub-fund of a UCITS, under the conditions set forth by the Luxembourg laws and regulations and as provided for in this Prospectus.

If qualified as Feeder, a Sub-Fund may hold up to 15% of its assets in one or more of the following:

- ancillary liquid assets; and
- financial derivative instruments which may be used only for hedging purposes in accordance with the relevant provisions of the 2010 Law.

None of the Sub-Funds whose Shares are distributed in Switzerland will qualify as a Feeder.

Deposits with credit institutions

- (vi) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than twelve months, provided that the credit institution has its registered seat in a Member State or, if the registered seat of the credit institution is situated in a non-Member State, provided that it is subject to prudential rules considered by the CSSF as equivalent to those laid down in Community law such as a credit institution which has its registered office in a country which is an OECD member state and a FAFT state.

Financial derivative instruments

- (vii) financial derivative instruments, including equivalent cash-settled instruments, admitted to an Official Listing or dealt in on a Regulated Market referred to in items (i) and (ii) above; and/or OTC derivatives, provided that:
- the underlying consists of instruments described in sub-paragraphs (i) to (vi), financial indices, interest rates, foreign exchange rates or currencies, in which the Sub-Funds may invest in accordance with their investment policies,
 - the counterparties to OTC derivative transactions are only first-class counterparties that are internationally recognized financial institutions. Counterparties may not, as a rule and unless the Board resolves otherwise, have a credit rating below BBB-. Counterparties are domiciled in an OECD member State and specialized in OTC derivatives. When selecting counterparties, in addition to an analysis of credit quality and other financial aspects (including qualitative and quantitative criteria), the following criteria are taken into account: market share or specific potential, market knowledge and organization (front, collateral management, back office),
 - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative, and
 - collateral received in respect of OTC derivatives consists of cash in USD, GBP, EUR and CHF and of debt obligations issued by a governmental entity of a Member State or an OECD member State adjusted by the applicable margin in accordance with the table below (the "Haircut"):

	Haircut applicable to collateral received in respect of OTC derivatives
Cash	0%
Debt obligations	0,75% to 10% according to the maturity of the debt obligation (<i>i.e.</i> the longer the maturity, the higher is the applicable haircut) and to the robustness of its issuer

Collateral received, including cash, will not be sold, reinvested or pledged.

The collateral transferred to the Sub-Fund in the context of the activities described in this section are held by the Depositary or a sub-custodian of the Depositary for which the custody of the collateral has been delegated under the responsibility of the Depositary.

Securities collateral is diversified to ensure that a maximum exposure to a given issuer is limited to 20% of the assets. By way of derogation, the Company may be fully collateralized in securities issued or guaranteed by a Member State, one or more of its local authorities, a member State of the OECD or of the G20 or Singapore or by public international bodies of which one or more Member States are members.

Bonds received as collateral must have a maturity of less than 20 years.

The Company shall only accept highly liquid assets with not less than a daily liquidity.

Counterparties are not allowed to deliver securities (such as equities and bonds) issued by themselves or any of their subsidiaries.

The exchange of collateral is controlled and organized daily based on the exposure to OTC derivative transactions versus the valuation of the collateral adjusted by margins. Collateral is valued on a daily basis based on the mark-to-market method.

All revenues arising from the activities mentioned above, net of direct and indirect operational costs, must be returned to the Company.

Categories of financial derivative instruments

The Company may use all the financial derivative instruments authorised by the Luxembourg Law or by Circulars issued by the CSSF and in particular, but not exclusively, the following financial derivative instruments:

- financial derivative instruments linked to market movements ("market derivatives") such as call and put options, contracts for difference, swaps or futures contracts on securities, financial indices (including but not limited to indices based on financial derivatives on commodities or indices on property), baskets or any kind of financial instruments;
- financial derivative instruments linked to currency fluctuations ("currency derivatives") such as forward currency contracts or call and put options on currencies, currency swaps or forward foreign exchange transactions;
- financial derivative instruments linked to interest rate risks ("interest rate derivatives") such as call and put options on interest rates, IRS, forward rate agreements, interest rate futures contracts, swaptions whereby one party receives a fee in return for agreeing to enter into a forward swap at a predetermined fixed rate if some contingency event occurs (e.g. where future rates are set in relation to a benchmark), caps and floors whereby the seller agrees to compensate the buyer if interest rates rise above, respectively fall below a pre-agreed strike rate on pre-agreed dates during the life of the agreement in exchange of an up front premium;
- financial derivative instruments related to credit risks ("credit derivatives"), such as credit spread derivatives, CDS or TRS. When a Sub-Fund invests in TRS or other financial derivative instruments with similar characteristics, the information required by CSSF Circular 14/592 implementing ESMA Guidelines for competent authorities and UCITS management companies 2012/832 can be found in Annex A. Unless otherwise mentioned in Annex A, a Sub-Fund may not invest in TRS. Credit derivatives are designed to isolate and transfer the credit risk associated with a particular reference asset such as credit spread derivatives in which the payments may be made either by the buyer or the seller of the protection based on the relative credit value of two or more reference assets, or such as CDS whereby one counterpart (the protection buyer) pays a periodic fee in return for a contingent payment by the protection seller following a credit event of a reference issuer. The protection buyer must either sell particular obligations issued by the reference issuer for its par value (or some other designated reference or strike price) when a credit event occurs or receive a cash settlement based on the difference between the market price and such reference price. A credit event is commonly defined as a downgrading of the rating assigned by a rating agency, bankruptcy, insolvency, receivership, material adverse restructuring of debt or failure to meet payment obligations when due. In TRS, the buyer makes a regular payment at a variable rate, in return for all the results relating to a notional amount of a particular reference asset (coupons, interest payments, change in asset value) which accrue over a period of time agreed with the seller. The seller "transfers" to the buyer the economic performance of the reference asset, but remains the owner of the asset. Credit derivatives can carry a higher risk than direct investment in bonds. The market for credit derivatives may sometimes be more illiquid than bond markets.

Strategies used for financial derivative transactions

Financial derivative transactions may be used for one of the following strategies: for hedging purposes of the investment positions, for EPM or as part of the investment strategy of a Sub-Fund.

Transactions on derivatives entered into for hedging purposes aim to protect portfolios against market movements, credit risks, currency fluctuations, inflation risks and interest rate risks. Hedging presupposes the existence of a relation between the underlying financial instrument of the derivative and the financial instrument to be hedged.

In order to be considered for EPM, transactions on derivatives must be entered into for one or more of the following specific aims: reduction of risk, reduction of cost, or generation of additional capital or income for the Sub-Fund with an appropriate level of risk, taking into account the risk profile of the Sub-Fund. Transactions entered into for EPM must be economically appropriate, which

implies that they are realised in a cost-effective way. The following are some examples of financial derivative transactions entered into for EPM:

- buying of call options or selling of put options on indices, for recently created Sub-Funds or for Sub-Funds holding Cash and Cash Equivalents on a temporary basis, pending investments, provided such indices comply with the conditions mentioned in paragraph 4.2 (f) and the exposure to the underlying indices does not exceed the value of the Cash and Cash Equivalents pending investment;
- replacing, on a temporary basis and for fiscal or other economical reasons, direct investments in securities by derivative exposure to the same securities;
- proxy hedging of the Reference Currency of a Sub-Fund used to reduce the currency exposure of an investment towards a currency which is sufficiently correlated with the Reference Currency, provided that direct hedging against the Reference Currency is not possible or less advantageous for the Sub-Fund. Two currencies are sufficiently correlated (i) if they belong to the same monetary union, or (ii) if they are scheduled to belong to the same monetary union, or (iii) if one of the currencies is part of a currency basket against which the central bank for the other currency explicitly manages its currency within a band or corridor that is either stable or sloping at a predetermined rate, or (iv) if in the opinion of the Investment Manager the currencies are deemed to be sufficiently correlated;
- proxy hedging of a currency of investment of a Sub-Fund used to reduce the currency exposure of an investment towards the Reference Currency whereby the Sub-Fund sells a currency which is sufficiently correlated to the currency of investment, provided that direct hedging of the currency of investment is not possible or less advantageous for the Sub-Fund;
- cross hedging of two currencies of investment whereby a Sub-Fund sells one of the currencies of investment and purchases another currency pending investment in that currency, maintaining the total exposure of the Reference Currency unchanged.

Transactions on derivatives entered neither for hedging purposes nor for EPM may be used as part of the investment strategy. However, this has to be mentioned in the description of the Sub-Funds concerned (Annex A) and is always subject to the limits permitted by the Investment Restrictions. The use of financial derivative instruments as part of the investment strategy may result in a higher level of leverage and increase the overall risk exposure (*i.e.* the total exposure on derivatives, portfolio and other assets) of a Sub-Fund and the volatility of its Net Asset Value.

4.2 Investment Limits Applicable to Eligible Assets

The following limits are applicable to the eligible assets mentioned in paragraph 4.1:

Transferable securities and money market instruments

- (a) The Company will invest no more than 10% of the net assets of any Sub-Fund in transferable securities or money market instruments issued by the same issuer.
- (b) Moreover, where the Company, on behalf of a Sub-Fund, holds investments in transferable securities or money market instruments of any issuing body which by issuer exceed 5% of the net assets of such Sub-Fund, the total of all such investments must not account for more than 40% of the total net assets of the Sub-Fund.
- (c) The limit of 10% laid down in sub-paragraph (a) above may be increased to a maximum of 35% in respect of transferable securities and money market instruments which are issued or guaranteed by a Member State, by its local authorities, by another member State of the OECD or of the G20 or Singapore or by public international bodies of which one or more Member States are members, and such securities need not be included in the calculation of the limit of 40% stated in sub-paragraph (b).
- (d) Notwithstanding the limits set forth under sub-paragraphs (a) and (c) above, each Sub-Fund is authorised to invest in accordance with the principle of risk spreading, up to 100% of its net assets in different transferable securities and money market instruments issued or guaranteed by a Member State, by its local authorities, by an OECD member State, Singapore or any member State of the G20 or by a public international body of which one or more Member State(s) are member(s), provided that (i) such securities are part of at least six different issues, and (ii) the securities from any one issue do not account for more than 30% of the net assets of such Sub-Fund.
- (e) The limit of 10% laid down in sub-paragraph (a) above may be increased to a maximum of 25% in respect of certain debt securities if they are issued by credit institutions having their registered office in a Member State and which are subject, by law, to special public supervision designed to protect the holders of debt securities. In particular, sums deriving from the issue of such debt securities must be invested pursuant to the law in assets which, during the whole period of validity of such debt securities,

are capable of covering claims attaching to the debt securities and which, in the event of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest.

Such debt securities need not be included in the calculation of the limit of 40% stated in sub-paragraph (b). But where the Company, on behalf of a Sub-Fund, holds investments in such debt securities of any issuing body which individually exceed 5% of the net assets of such Sub-Fund, the total of all such investments must not account for more than 80% of the total net assets of the Sub-Fund.

- (f) Without prejudice to the limits laid down in sub-paragraph (n), the limit of 10% laid down in sub-paragraph (a) above is raised to a maximum of 20% for investment in equity and/or debt securities issued by the same body when the aim of the investment policy of a given Sub-Fund is to replicate the composition of a certain equity or debt securities index which is recognised by the CSSF, on the following basis:

- the composition of the index is sufficiently diversified,
- the index represents an adequate benchmark for the market to which it refers,
- it is published in an appropriate manner.

This limit is 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

Securities mentioned in sub-paragraph (f) need not be included in the calculation of the limit of 40% stated in sub-paragraph (b).

Units of UCITS and UCIs

- (g) The Company may invest up to 20% of the net assets of each Sub-Fund in securities of a same UCITS or UCI.

For the purpose of this provision, each sub-fund of a UCITS or UCI with multiple compartments shall be considered as a separate issuer, provided that the principle of segregation of liabilities of the different compartments is ensured in relation to third parties.

Investments in other UCIs may not exceed 30% of the Sub-Fund's net assets.

The underlying investments held by the UCITS or other UCIs in which the Company invests do not have to be considered for the purpose of applying the investment limitations mentioned in paragraph 4.2.

Under the conditions set forth by Luxembourg laws and regulations, new Sub-Funds of the Company may qualify as feeder (the "Feeder") or as master (the "Master"). A Feeder shall invest at least 85% of its net asset value in securities of a same Master or sub-fund of a UCITS.

An existing Sub-Fund may convert into a Feeder or a Master subject to the conditions set forth by Luxembourg laws and regulations. An existing Feeder or Master may convert into a standard UCITS sub-fund which is neither a Feeder nor a Master. A Feeder may replace the Master with another Master. When qualifying as Feeder, reference to such qualification will be included in a given Sub-Fund's description in Annex A. None of the Sub-Funds whose Shares are distributed in Switzerland will qualify as a Feeder.

Deposits with credit institutions

- (h) The Company may not invest more than 20% of the net assets of a Sub-Fund in deposits made with the same body.

Financial derivative instruments

- (i) **Counterparty risk exposure**

The risk exposure to a counterparty of the Company in an OTC derivative transaction may not exceed 10% of the net assets of a Sub-Fund when the counterparty is a credit institution referred to above in sub-paragraph 4.1 (vi) or 5% of its net assets in other cases and shall be combined with the risk exposure to a counterparty of the Company in an EPM technique. Embedded derivatives of SFIs will not be taken into account when calculating the risk exposure to a counterparty, except if the issuer of the SFI is allowed to pass the counterparty risk of underlying derivatives to the Company.

- (j) **Global Exposure relating to financial derivative instruments**

To calculate the Sub-Fund's Global Exposure, the Company may apply the VaR approach or the commitment approach. The approach used for each Sub-Fund, the type of VaR (absolute or relative) as well as the reference portfolio used in case of relative VaR are disclosed in Annex A in relation to a given Sub-Fund.

Where the VaR approach is used to assess a Sub-Fund's Global Exposure, the Company can use the relative VaR approach or the absolute VaR approach. Under the relative VaR approach, the Company will ensure that the Global Exposure does not exceed twice the VaR (200%) of the reference portfolio mentioned in Annex A in relation to a given Sub-Fund. The reference portfolios are used

for VaR limitation purpose and not for performance measurement purpose. Under the absolute VaR approach, the Company will ensure that the absolute VaR of a Sub-Fund is not greater than 20% of its total net assets. The VaR is a statistical methodology that predicts the maximum potential loss that a Sub-Fund could make, calculated to a certain confidence level.

When the commitment approach is used, the Global Exposure relating to derivatives may not exceed the total net assets of a Sub-Fund. Accordingly, the Global Exposure associated with the investments of the Sub-Fund may amount to 200% of the total net assets of the Sub-Fund. As borrowing is allowed up to a maximum of 10%, the Global Exposure can reach 210% of the total net assets of the relevant Sub-Fund.

The Global Exposure relating to derivatives may not exceed the total net assets of a Sub-Fund.

(k) **Concentration limits**

The Global Exposure of the underlying assets shall not exceed the investment limits laid down under sub-paragraphs (a), (b), (c), (e), (h), (i), (n) and (o). The underlying assets of index based derivative instruments are not combined to the investment limits laid down under sub-paragraphs (a), (b), (c), (e), (h), (i), (n) and (o).

When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of the above mentioned restrictions.

The exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

(l) **Expected leverage**

As required by CSSF, the expected leverage is disclosed for each Sub-Fund following the VaR approach in Annex A in relation to a given Sub-Fund. The leverage is defined as the sum of the absolute value of the notional of the financial derivative instruments held in each Sub-Fund's portfolio (excluding the investment portfolio) divided by its total net assets. Shareholders should note that the sum of notional calculation methodology does not take into account any netting and hedging arrangements a Sub-Fund may have in place. In addition they should note that leverage per se is not an accurate risk indicator. A higher degree of leverage does not necessarily imply a higher degree of risk (whether market credit or liquidity risks).

Therefore, in their assessment of risk, investors should, not focus solely on leverage but also consider other meaningful risk measures such as the Global Exposure as referred to in paragraph (j) above. Investors should note that the leverage can exceed expected leverage as indicated in Annex A in relation to a given Sub-Fund.

(m) **Sales of financial derivative instruments with physical delivery or cash settlement**

The Sub-Funds may not carry out uncovered sales of financial derivative instruments.

When the derivative provides, either automatically or at the counterpart's choice, for physical delivery of the underlying financial instrument on maturity or exercise, and provided that physical delivery is common practice on the instrument concerned, the Sub-Fund must hold this underlying financial instrument as cover in its portfolio.

In cases where the underlying financial instrument of a financial derivative instrument is highly liquid, the Sub-Fund is allowed to hold exceptionally other liquid assets as cover provided that they can be used at any time to purchase the underlying financial instrument to be delivered and that the additional market risk which is associated with that type of transaction is adequately measured.

Where the financial derivative instrument is cash-settled either automatically or at the Company's discretion, the Sub-Fund is allowed not to hold the specific underlying instrument as cover. In this case, the following categories of instruments constitute an acceptable cover:

- cash;
- liquid debt instruments with appropriate safeguards (in particular, haircuts);
- other highly liquid assets, such as, but not limited to, shares of companies admitted to Official Listing on a stock exchange or dealt in a Regulated Market, recognised by the CSSF in consideration of their correlation with the underlying of the financial derivative instrument, subject to appropriate safeguards;

are considered as "liquid" those instruments which can be converted into cash in no more than seven Business Days at a price closely corresponding to the current valuation of the financial instrument on its own market. This cash amount must be at the Sub-Fund's disposal at the maturity/expiry or exercise date of the financial derivative instrument.

(n) Maximum exposure to a single body

The Company may not combine:

- investments in transferable securities or money market instruments issued by a single body and subject to the 10% limit by body mentioned in sub-paragraph (a), and/or
- deposits made with the same body and subject to the limit mentioned in sub-paragraph (h), and/or
- exposures arising from OTC derivative transactions undertaken with the same body and subject to the 10% respectively 5% limits by body mentioned in sub-paragraph (i),

in excess of 20% of the net assets of any Sub-Fund.

The Company may not combine:

- investments in transferable securities or money market instruments issued by a single body and subject to the 35% limit by body mentioned in sub-paragraph (c), and/or
- investments in certain debt securities issued by the same body and subject to the 25% limit by body mentioned in sub-paragraph (e), and/or
- deposits made with the same body and subject to the 20% limit by body mentioned in sub-paragraph (h), and/or
- exposures arising from OTC derivative transactions undertaken with the same body and subject to the 10% respectively 5% limits by body mentioned in sub-paragraph (i),

in excess of 35% of the net assets of any Sub-Fund.

(o) Eligible assets issued by the same group

Companies which are included in the same group for the purposes of consolidated accounts, as defined in Directive 83/349/EEC or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the investment limits mentioned in sub-paragraph (a), (b), (c), (e), (h), (i), and (n).

The Company may cumulatively invest up to 20% of the net assets of any Sub-Fund in transferable securities and/or money market instruments within the same group.

(p) Acquisition limits by issuer of eligible assets

The Company will not:

- acquire shares carrying voting rights which would enable the Company to take legal or management control or to exercise significant influence over the management of the issuing body;
- own in any one Sub-Fund or the Company as a whole, more than 10% of the non-voting shares of any issuer;
- own in any one Sub-Fund or the Company as a whole, more than 10% of the debt securities of any issuer;
- own in any one Sub-Fund or the Company as a whole, more than 10% of the money market instruments of any issuer;
- own in any one Sub-Fund or the Company as a whole, (i) more than 25% of the units of the same UCITS or other UCI or (ii) more than 25% of the units of any one sub-fund comprising the UCITS or other UCI with an umbrella structure.

The limitations mentioned under third, fourth and fifth indents above may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of money market instruments or of UCITS or UCI or the net amount of the instruments in issue cannot be calculated.

The ceilings set forth above do not apply in respect of:

- transferable securities and money market instruments issued or guaranteed by a Member State or by its local authorities;
- transferable securities and money market instruments issued or guaranteed by any other Eligible State which is not a Member State;
- transferable securities and money market instruments issued or guaranteed by a public international body of which one or more Member State(s) are member(s);
- shares in the capital of a company which is incorporated under or organised pursuant to the laws of a state which is not a Member State provided that (i) such company invests its assets principally in securities issued by issuers of the state, (ii)

pursuant to the law of that state a participation by the relevant Sub-Fund in the equity of such company constitutes the only possible way to purchase securities of issuers of that state, and (iii) such company observes in its investments policy the restrictions referred in this Prospectus;

- shares held by one or more investment companies in the capital of subsidiary companies which, exclusively on its or their own behalf carry on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the redemption of units at the request of unitholders.

If the limitations in paragraph 4.2 are exceeded for reasons beyond the control of the Company or as a result of redemption requests for Shares of the Company or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its shareholders.

While ensuring observance of the principle of risk spreading, recently created Sub-Funds may derogate from limitations in paragraph 4.2 other than those mentioned under sub-paragraph (i) and (o) for a period of six months following the date of their launch.

4.3 Liquid Assets

The Company may hold ancillary liquid assets.

4.4 Unauthorised Investments

The Company will not:

- make investments in, or enter into transactions involving, precious metals and certificates involving these, commodities, commodities contracts, or certificates representing commodities;
- purchase or sell real estate or any option, right or interest therein, provided the Company may invest in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein;
- carry out uncovered sales of transferable securities, money market instruments or other financial instruments referred to in sub-paragraphs 4.1 (iv), (v) and (vii); provided that this restriction shall not prevent the Company from making deposits or carrying out other accounts in connection with financial derivatives instruments, permitted within the limits referred to above, provided further exposure resulting from financial derivative instruments may be covered as mentioned in paragraph 4.2 (k);
- make loans to, or act as a guarantor on behalf of third parties, provided that for the purpose of this restriction i) the acquisition of transferable securities, money market instruments or other financial instruments referred to in sub-paragraphs 4.1 (iv), (v) and (vii), in fully or partly paid form and ii) the permitted lending of portfolio securities shall be deemed not to constitute the making of a loan;
- borrow for the account of any Sub-Fund amounts in excess of 10% of the total net assets of that Sub-Fund taken at market value, any such borrowing to be from a bank and to be effected only as a temporary measure for extraordinary purposes including the redemption of Shares. In no circumstances, borrowing shall be part of the investment strategy of a Sub-Fund. However, the Company may acquire for the account of any Sub-Fund foreign currency by way of a back-to-back loan.

The Company will in addition comply with such further restrictions as may be required by the regulatory authorities in any country in which the Shares are marketed.

4.5 Risk Management Procedure

In accordance with CSSF Regulation 10-4, CESR Guidelines 10-788 and CSSF Circular 11/512, the Management Company employs a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of each sub-fund. The Management Company employs, if applicable, a process for accurate and independent assessment of the value of any OTC derivative instrument.

5. DIVIDEND POLICY

The Company offers for each Sub-Fund Shares in the form of:

- A Shares on which the Company shall not distribute any dividend and on which all net investment income and all net realised and unrealised capital gains will be accumulated and will increase the Net Asset Value of the A Shares of the relevant Sub-Fund, and/or
- D Shares on which the Company shall distribute all or substantially all of the net investment income. The dividends in respect of such D Shares are payable annually out of the income accruing during the period 1 October to 30 September. However, for certain Sub-Funds and at the discretion of the Directors, there may be, within the same class of Shares, (i) Shares with one annual dividend only and/or (ii) Shares with one or more interim dividends and/or (iii) different distributing dividend policies dictated by consideration of either certain tax legislations or regulations or local requirements of specific markets or investors-specific needs where the Sub-Funds are distributed. Annual dividends will normally be paid within two months of the year end to the holders of D Shares on the record date determined by the Directors in respect of each period. If the amount available for distribution is less than the equivalent of EUR 0.05 per Share, no dividend will be declared and the amount will be carried forward to the next period.

Interim dividends may be paid out on the Shares of any Sub-Fund or class of Shares upon decision of the Board.

Except as otherwise mentioned in Annex A in relation to a given Sub-Fund, it is not the intention of the Company to distribute the net realised capital gains and unrealised capital gains by way of dividend.

However, during any fiscal year, the Directors may propose to distribute part of the net realised capital gains.

Cash dividends remaining unclaimed on D Shares five years after their declaration will be forfeited and will revert to the relevant Sub-Fund.

6. MANAGEMENT, INVESTMENT MANAGEMENT AND ADVICE

The Directors are responsible for the Company's management and control including the determination of investment policy. They have appointed Lombard Odier Funds (Europe) S.A. as management company of the Company. The Management Company is authorised to act as fund management company in accordance with Chapter 15 of the 2010 Law. The Management Company has appointed the Dirigeants listed in the "List of Parties and Addresses", to direct and coordinate the operations of the Company and has appointed or may appoint any of the Investment Manager(s) listed in the "List of Parties and Addresses" and in paragraph 6.3 below to advise on investments and assume the day to day management of the investments of the Company.

6.1 Management Company and Domiciliary Agent

The Company has signed a management company agreement with the Management Company dated 2 July 2015 (the "Management Company Agreement"). Under this agreement, the Management Company was entrusted with the day-to-day management of the Company and with the responsibility to perform, directly or by way of delegation, all functions relating to the Company's investment management, administration and marketing, as well as distribution of the Company's Shares. The Management Company also acts as domiciliary agent for the Company.

The Management Company was incorporated for an unlimited period as a société anonyme under the laws of the Grand Duchy of Luxembourg by a notarial deed dated 23 April 2010 which was published in the Mémorial on 20 May 2010. The latest amendments to the articles of incorporation of the Management Company came into force with effect as of 11 January 2019 and were published in the RESA n°2019_092 of 18 April 2019. The Management Company's registered and principal office is at 291 route d'Arlon, 1150 Luxembourg. It is registered on the R.C.S. Luxembourg under No. B-152.886.

The issued capital of the Management Company is two million eight hundred ten thousand two hundred five Euros (EUR 2,810,205.-), consisting of three thousand one hundred and seventy (3,170) shares in registered form with a nominal value of eight hundred eighty six point fifty Euros (EUR 886.50.-) per share, all of which are fully paid up. .

The Management Company is an indirectly wholly-owned subsidiary of Compagnie Lombard Odier SCmA (the "SCmA").

The purpose of the Management Company is , in particular (i) the administration, the management and the marketing of Luxembourg and foreign UCITS, (ii) the portfolio management and risk management of Luxembourg and foreign alternative investment funds ("AIFs") within

the meaning of the Luxembourg law of 12 July 2013 on alternative investment funds managers ("AIFM"), as may be amended from time to time (the "AIFM Law") and (iii) the provision of any services relating to the creation, the promotion, the administration, the management and the marketing of Luxembourg and foreign regulated funds, collective investment vehicles or other investment vehicles as well as to the subsidiaries of UCITS, AIFs and other investment vehicles as the case may be, to the furthest extent permitted by the 2010 Law, the AIFM Law and any other applicable laws and regulations. More generally, the Management Company may carry out any activities connected directly or indirectly to, and/or deemed useful and/or necessary for the accomplishment of its object, including not exclusively domiciliation and administration support, to the furthest extent permitted by, the provisions of the 2010 Law, the AIFM Law and any other applicable laws and regulations. The Management Company is authorised by the CSSF as a management company under Chapter 15 of the 2010 Law and as an AIFM under Chapter 2 of the AIFM Law.

The Management Company adopted a remuneration policy which is applicable to its employees (the "Employees") and directors in accordance with applicable laws and regulations pertaining to remuneration, in particular the Luxembourg law dated 12 July 2013 on alternative investment fund managers, the 2010 Law, SFDR and any applicable ESMA guidelines. The remuneration policy aims to protect the interests of the investors as well as the Management Company's and the Lombard Odier Group's long-term financial sustainability and compliance with regulatory obligations. The remuneration policy seeks to promote effective risk management and to prevent excessive risk-taking, including with respect to sustainability risks. The remuneration policy is in line with the business strategy, objectives, values and interests of the Management Company and the funds it manages, including the Company, or the investors of such funds and includes measures to avoid conflicts of interest.

The total remuneration of Employees consists of two components, the fixed remuneration and the variable remuneration. Fixed remuneration and variable remuneration are appropriately balanced and the fixed component of the remuneration represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy, on variable remuneration, including the possibility to pay no variable remuneration. The performance objectives of each Employee are reviewed on an annual basis. The annual review lays down the basis for the determination of variable remuneration and possible increase in fixed remuneration. Performance criteria include a comprehensive adjustment mechanism to integrate all relevant types of current and future risks, including sustainability risks. Where remuneration is performance related, the total amount of remuneration is based on a combination of the assessment of the performance of the individual and of the business unit and of the overall results of the Lombard Odier Group, and when assessing individual performance, financial as well as non-financial criteria are taken into account.

The assessment of performance is set in a multi-year framework in order to ensure that the assessment process is based on longer term performance of the funds it manages and its investment risks and that the actual payment of variable remuneration is spread over the same respective periods.

Variable remuneration is only paid out of risk adjusted profits or from sources which will not undermine the capital base of the Management Company or expose it to any risk in respect of its future capital commitments. The details of the up-to-date remuneration policy, including information on how the remuneration policy is consistent with the integration of sustainability risks, are available on the Lombard Odier Group website (www.loim.com). Investors may obtain, free of charge, from the Company, on written request sent to its registered office, a paper copy of the details of the Remuneration Policy.

6.2 Dirigeants of the Management Company

The Board of the Management Company has, with the approval of the Directors, granted a mandate to the Dirigeants mentioned under "List of Parties and Addresses" in order to supervise and coordinate the activities of the Company, in compliance with the provisions of the CSSF Regulation 10-4 and CSSF Circular 18/698. The Dirigeants shall supervise and coordinate the functions delegated to the different service providers and shall ensure that an appropriate risk management method is applied to the Company.

6.3 Investment Manager(s), Sub-Investment Manager(s) and Investment Adviser(s)

The Management Company has appointed or may appoint, with the agreement of the Board, the Investment Manager(s) pursuant to several Investment Management Agreements to provide day-to-day discretionary investment management services for the Sub-Funds, subject to the direction of the Management Company and supervision of the Board. With respect to Investment Managers listed below that are part of the Lombard Odier Group, it should be noted that all or some of them may be managing one or more Sub-Funds at the date of issue of this Prospectus and that the allocation of Sub-Funds may evolve overtime.

Information regarding the allocation of Sub-Funds to each Investment Manager/Sub-Investment Manager is published in the annual and semi-annual reports. Investors may receive from the Company, on written request, an up-dated list of the Investment Managers/Sub-Investment Manager.

Subject to the prior approval of the Management Company and without prejudice to the responsibility of the Investment Manager, (i) one or more employee of any entity belonging to the Lombard Odier Group listed below (an "LO Entity") may assist any Investment Manager and (ii) Investment Manager(s) may appoint Sub-Investment Manager(s) and/or Investment Adviser(s).

The following entities either act or may be appointed to act as Investment Manager, Sub-Investment Manager or Investment Adviser in relation to one or more Sub-Funds:

Bank Lombard Odier & Co Ltd ("LOC"), a wholly-owned subsidiary of the SCmA, is one of the oldest (founded in 1796) and largest private banks in Switzerland, and concentrates on asset management for institutional and private clients worldwide. LOC's long experience in international financial markets, backed up by a strong commitment to research, has made it a recognised leader among international investment managers.

Lombard Odier Gestión (España), S.G.I.I.C., S.A., an indirectly wholly-owned subsidiary of the SCmA, was incorporated in Madrid in 2010. It is qualified as an asset management company incorporated under the laws of Spain, registered under the agreement number 231 and regulated by the Comisión Nacional del Mercado de Valores (CNMV). Its activity is the administration, representation, management of investments, monitoring of subscriptions and redemptions of investment funds and investment companies and discretionary portfolio management.

Lombard Odier (Europe) S.A., Succursale en France, authorized and regulated in France by the Autorité de Contrôle Prudentiel et de Résolution, is a branch of Lombard Odier (Europe) S.A., a credit institution incorporated in Luxembourg and subject to the supervision of the CSSF.

de Pury Pictet Turrettini & Cie S.A., which is a wealth management company founded in 1996, based in Geneva, Switzerland. It is authorized by the Swiss Financial Market Supervisory Authority to provide investment management and advisory services.

6.4 Multi-management and Asset Allocators

The Management Company has, with the agreement of the Board, appointed Bank Lombard Odier & Co Ltd as Asset Allocator to provide asset allocation services for the Sub-Funds managed according to the multi-management concept (the "Asset Allocator").

Within the multi-management concept, the Asset Allocator may appoint different managers to provide one of the following services:

- (i) day-to-day investment management services to allocated portfolios of the same Sub-Fund. In this case, the appointed managers are referred to as "Investment Managers"; or
- (ii) investment advisory services with no discretionary asset management power in relation to the portfolio of the Sub-Fund for which the Asset Allocator is acting as Investment Manager. In this case, the appointed managers are referred to as "Investment Adviser".

Various selection criteria may be used to select or replace Investment Managers/Advisers, such as their performance, investment process and management style, their complementary skills, etc., taking into consideration the relevant market outlook and trends. The Management Company has delegated the selection and replacement of the Investment Managers/Advisers to the Asset Allocator, but remains responsible, together with the Board, for the supervision of the Investment Managers appointed according to the multi-management concept. The Asset Allocator will use its discretion for the selection and replacement of the Investment Managers/Advisers at any time and may also decide for certain periods of time to concentrate the investment management on one Investment Manager or to perform itself the day-to-day investment management of all or a portion of a given Sub-Fund, without prior notification to the investors and will be responsible for the asset allocation among the Investment Managers/Advisers.

The Sub-Fund(s) mentioned below are managed according to the multi-management concept:

LOP – Tourmalet

The Asset Allocator appointed in relation to Sub-Funds managed according to the multi-management concept can be found in Annex A. Information regarding portfolios allocated to each Investment Manager pursuant to the multi-management concept is published in the annual and semi-annual reports and is updated on the Lombard Odier Group web site (www.loim.com). Investors may obtain, free of charge, from the Company, on written request sent to its registered office, an up-dated list of the Investment Managers participating to the multi-management concept.

6.5 Investor Committee

The Board or, upon delegation, the Management Company or the Investment Manager(s) may establish for certain Sub-Funds, an Investor Committee, whose members will consist of, as well as certain Directors, the main shareholders of the relevant Sub-Funds and other persons such as representatives of the Investment Manager.

Whilst not participating in specific investment decisions, the Investor Committee will consult with and advise the Management Company and Investment Manager(s) of the relevant Sub-Funds from time to time with respect to global economic, political and business trends and developments.

6.6 Co-management

In order to reduce operational and administrative charges whilst allowing a wider diversification of the investments, the Directors may decide that part or all of the assets of any Sub-Fund will be co-managed with assets belonging to other Luxembourg collective investment schemes or that part or all of the Sub-Funds will be co-managed amongst themselves. In the following paragraphs, the words "co-managed entities" shall refer to any Sub-Fund and all entities with and between which there exists any given co-management arrangement and the words "co-managed Assets" shall refer to the entire assets of these co-managed entities which are co-managed pursuant to the same co-management arrangement.

Under the co-management arrangement, the Management Company and the Investment Manager(s), as the case may be, will be entitled to take on a consolidated basis for the relevant co-managed entities, investment and disinvestment decisions which will influence the composition of the Sub-Funds' portfolio. Each co-managed entity shall hold a portion of the co-managed Assets corresponding to the proportion of its net assets to the total value of the co-managed Assets. This proportional holding shall be applicable to each and every line of investment held or acquired under co-management. In case of investment and/or disinvestment decisions these proportions shall not be affected and additional investments shall be allotted to the co-managed entities pursuant to the same proportion and assets sold shall be levied proportionately on the co-managed Assets held by each co-managed entity.

In case of new subscriptions in one of the co-managed entities, the subscription proceeds shall be allotted to the co-managed entities pursuant to the modified proportions resulting from the net asset increase of the co-managed entity which has benefited from the subscriptions and all lines of investment shall be modified by a transfer of assets from one co-managed entity to the other in order to be adjusted to the modified proportions. In a similar manner, in case of redemptions in one of the co-managed entities, the cash required may be levied on the cash held by the co-managed entities pursuant to the modified proportions resulting from the net asset reduction of the co-managed entity which has suffered from the redemptions and, in such case, all lines of investment shall be adjusted to the modified proportions. Shareholders should be aware that, in the absence of any specific action by the Directors or their appointed agents, the co-management arrangement may cause the composition of assets of a Sub-Fund to be influenced by events attributable to other co-managed entities such as subscriptions and redemptions. Thus, all other things being equal, subscriptions received in one entity with which any Sub-Fund is co-managed will lead to an increase of this Sub-Fund's reserve of cash. Conversely, redemptions made in one entity with which any Sub-Fund is co-managed will lead to a reduction of this Sub-Fund's reserve of cash. Subscriptions and redemptions may however be kept in the specific account opened for each co-managed entity outside the co-management arrangements and through which subscriptions and redemptions to these specific accounts, together with the possibility for the Directors or their appointed agents to decide at any time to terminate a Sub-Fund's participation in the co-management arrangement, permit the Sub-Fund to avoid the readjustments of its portfolio if these readjustments are likely to affect the interest of the Company and of its shareholders.

If a modification of the composition of the Sub-Fund's portfolio resulting from redemptions or payments of charges and expenses peculiar to another co-managed entity (*i.e.* not attributable to such Sub-Fund) is likely to result in a breach of the investment restrictions applicable to this Sub-Fund, the relevant assets shall be excluded from the co-management arrangement before the implementation of the modification in order for it not be affected by the ensuing adjustments.

In order to assure that investment decisions are fully compatible with the investment policy of the Sub-Fund, co-managed Assets of any Sub-Fund shall only be co-managed with assets intended to be invested pursuant to investment objectives identical to those applicable to the co-managed Assets of such Sub-Fund. Co-managed Assets of any Sub-Fund shall only be co-managed with assets for which the Depositary also acts as depositary in order to assure that the Depositary is able, with respect to the Sub-Fund, to fully carry out its functions and responsibilities pursuant to the 2010 Law. The Depositary shall at all times keep the Company's assets segregated from the assets of other co-managed entities and shall therefore be able at all times to identify the assets of the Sub-Fund. Since co-managed entities may have investment policies which are not strictly identical to the investment policy of one of the Sub-Funds, it is possible that the common policy implemented may be more restrictive than that of the Sub-Fund.

The Dirigeants or the Board may decide at any time and without notice to terminate the co-management arrangement.

Shareholders may at all times contact the registered office of the Company to be informed of the percentage of assets which are co-managed and of the entities with which there is such a co-management arrangement at the time of their request.

Co-management arrangements with non-Luxembourg entities shall be authorised provided that (1) the co-management agreement to which the non-Luxembourg entity is a party is subject to Luxembourg law and the jurisdiction of the Luxembourg courts, or that (2) the rights of each co-managed entity concerned are established in such a way that no creditor, liquidator or bankruptcy curator of the non-Luxembourg entity concerned has access to the assets of the Sub-Funds or has the right to freeze them.

7. DEPOSITARY

The Company has, by an agreement effective as of 18 March 2016 (the "Depositary Agreement"), appointed CACEIS Bank, acting through its Luxembourg branch, CACEIS Bank, Luxembourg Branch as Depositary of the assets of the Company.

The Depositary is the Luxembourg branch of CACEIS Bank, a public limited liability company (société anonyme) incorporated under the laws of France having its registered office located at 1-3, place Valhubert, 75013 Paris, France, registered with the French Register of Trade and Companies under number 692 024 722 RCS Paris. It is an authorised credit institution supervised by the European Central Bank ("ECB") and the Autorité de contrôle prudentiel et de résolution ("ACPR"). It is further authorised to exercise through its Luxembourg branch banking and central administration activities in Luxembourg.

The Depositary Agreement has been entered into for an unlimited period of time and may be terminated by the Company subject to a three (3) month prior notice or by the Depositary subject to a six (6) months prior notice. The Depositary will continue to hold the Company's assets until a replacing depositary is appointed.

In its function as depositary, the Depositary shall perform the duties resulting from the UCITS Rules.

The principal duties of the Depositary, as depositary, are as follows:

- (a) the safe-keeping of the assets of the Company that can be held in custody (the "Financial Instruments") including:
 - (i) financial instruments and shares or units of collective investment funds registered or held in an account directly or indirectly in the name of the Depositary or a third party or a correspondent to whom custody functions are delegated, notably at the level of the central securities depositary; and
 - (ii) financial instruments which are provided as collateral to a third party or are provided by a third party for the benefit of the Company, as long as they are owned by the Company;
- (b) the record-keeping of assets that cannot be held in custody in respect of which the Depositary must verify their ownership;
- (c) to ensure that the Company's cash flows are properly monitored, and in particular to ensure that all payments made by or on behalf of investors upon the subscription of Shares in a Sub-Fund have been received and that all cash of the Company has been booked in cash accounts that the Depositary can monitor and reconcile;
- (d) to ensure that the issue, redemption and conversion of Shares of a Sub-Fund are carried out in accordance with Luxembourg applicable laws and the Articles;
- (e) to ensure that the value of the Shares of a Sub-Fund is calculated in accordance with the UCITS Rules and the Articles;
- (f) to carry out the instructions of the Company, unless they conflict with Luxembourg applicable laws or the Articles;
- (g) to ensure that in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and
- (h) to ensure that the Company's income is applied in accordance with the UCITS Rules and the Articles.

In relation to the Depositary's safe-keeping duties of financial instruments referred to under (a) above, the Depositary is liable to the Company or the Shareholders for any loss of such Financial Instruments held by the Depositary or any delegate.

In relation to the other depositary's duties, the Depositary is liable to the Company or the Shareholders for all other losses suffered by it or them as a result of the Depositary's negligent or intentional failure to properly fulfil such obligations.

Investors are invited to consult the Depositary Agreement to have a better understanding and knowledge of the limited duties and liabilities of the Depositary acting as depositary. Investors' particular attention is drawn to chapter IX of the Depositary Agreement.

The Depositary is authorized to delegate its safekeeping duties under Luxembourg Law to sub-custodians and to open accounts with such sub-custodians.

A list of these sub-custodians is available on the website of the Depositary (www.caceis.com, section "Regulatory Watch"). Such list may be updated from time to time. A complete list of all sub-custodians may be obtained, free of charge and upon request, from the Depositary.

There are many situations in which a conflict of interest may arise, notably when the Depositary delegates its safekeeping functions or when the Depositary also performs other tasks on behalf of the Company, such as administrative agency and registrar agency services. These situations and the conflicts of interest thereto related have been identified by the Depositary. In order to protect the Company's and its Shareholders' interests and comply with applicable regulations, a policy and procedures designed to prevent situations of conflicts of interest and monitor them when they arise, have been set in place within the Depositary aiming namely at:

- (a) identifying and analysing potential situations of conflicts of interest;
- (b) recording, managing and monitoring the conflict of interest situations either in:
 - relying on the permanent measures in place to address conflicts of interest such as maintaining separate legal entities, segregation of duties, separation of reporting lines, insider lists for staff members; or
 - implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new Chinese wall, making sure that operations are carried out at arm's length and/or informing the concerned Shareholders of the Company, or (ii) refuse to carry out the activity giving rise to the conflict of interest.

Up-to-date information regarding the identity of the Depositary, the description of its duties and of conflicts of interest that may arise, the safekeeping functions delegated by the Depositary and any conflicts of interest that may arise from such a delegation are also made available to investors on the website of the Depositary, as mentioned above, and upon request.

The Depositary has established a functional, hierarchical and/or contractual separation between the performance of its UCITS depositary functions and the performance of other tasks on behalf of the Company, notably, administrative agency and registrar agency services.

The Depositary has neither decision-making discretion nor any advice duty relating to the Company's investments. The Depositary is a service provider to the Company and is not responsible for the preparation of this Prospectus and therefore accepts no responsibility for the accuracy of any information contained in this Prospectus or the validity of the structure and investments of the Company.

Up-to-date information regarding the above is available upon request at the registered office of the Company.

8. CENTRAL ADMINISTRATION, REGISTRAR, TRANSFER AGENT AND PAYING AGENT

The Management Company has, by an agreement of 2 July 2015 ("Administrative Agency, Registrar and Transfer Agency and Paying Agency Agreement"), appointed CACEIS Bank, Luxembourg Branch to act for the Company in Luxembourg as central administration, registrar and transfer agent and paying agent ("Central Administration Agent").

The Central Administration Agent is the Luxembourg branch of CACEIS Bank, a public limited liability company (*société anonyme*) incorporated under the laws of France, having its registered office located at 1-3, place Valhubert, 75013 Paris, France, registered with the French Register of Trade and Companies under number 692 024 722 RCS Paris. It is an authorised credit institution supervised by the European Central Bank ("ECB") and the *Autorité de contrôle prudentiel et de résolution* ("ACPR"). It is further authorised to exercise through its Luxembourg branch banking and central administration activities in Luxembourg.

The Central Administration Agent may delegate part or all of its functions to a third party service provider under its responsibility.

The Central Administration Agent is entitled to receive a fee calculated in accordance with normal banking practice in Luxembourg and payable out of the assets of each Sub-Fund and based on the Net Asset Value of each Sub-Fund.

This Administrative Agency, Registrar and Transfer Agency and Paying Agency Agreement may be terminated by either party giving 3 months' prior notice under the conditions and terms of the agreement.

9. INDEPENDENT AUDITOR AND LEGAL ADVISER

PricewaterhouseCoopers, société coopérative, Réviseur d'entreprises, 2, rue Gerhard Mercator, 1014 Luxembourg, Grand Duchy of Luxembourg act as the Independent Auditors of the Company.

The Company's legal adviser is Linklaters LLP, 35, avenue John F. Kennedy, 1855 Luxembourg, Grand Duchy of Luxembourg.

10. CHARGES AND EXPENSES

10.1 Initial Charge

On subscription for Shares of any Sub-Fund, the Directors have determined that an Initial Charge not exceeding 5% of the Issue Price may be payable to the Global Distributor or any Distributor in remuneration of their services, including but not limited to, (i) the handling and transmission of subscription orders to the transfer agent, (ii) the settlement of subscription orders, (iii) the transmission of the relevant legal and marketing documents, at the request of investors, (iv) the controls of minimum investment amount requirements and other eligibility criteria applicable to each Sub-Fund, respectively each class of Share, and (v) the processing of corporate actions.

No Initial Charge will be applied to E Shares.

10.2 Redemption Charge

There is no redemption charge payable on redemption.

10.3 Conversion Charge

On conversions between the different Sub-Funds the Directors have determined that the Global Distributor or any Distributor may levy a conversion charge of up to 0.50% of the Net Asset Value of the Shares being converted in remuneration of the services mentioned under paragraph 10.1 above in relation to the conversion, subject to the restriction mentioned at paragraph 2.3.

No conversion charge will be applied to E Shares.

10.4 Dealing Charge

In addition to the charges mentioned above, the Issue and Redemption Prices of the Shares may be increased, respectively reduced by a Dealing Charge levied by the Company in favour of the relevant Sub-Fund, in order to mitigate the effect of portfolio transactions costs resulting from subscriptions or redemptions. In case of conversion between Sub-Funds (but not between classes of Shares within the same Sub-Fund), two Dealing Charges may be levied by the Company, the first in favour of the original Sub-Fund and the second in favour of the new Sub-Fund. The Dealing Charges are applicable at the discretion of the Directors. Any such application of a Dealing Charge and the rate applicable are mentioned in the Annex A in relation to a given Sub-Fund. Shareholders will be treated equally in this respect.

When the Directors decide to make a Dilution Adjustment, as defined in paragraph 15.1, no Dealing Charge will be levied on the Shares nor will any class of Shares be subject to the Swing Pricing.

10.5 Annual Charges

10.5.1 Management Fee and Performance Fee

For the P and I classes of Shares, the Management Company is entitled to a Management Fee calculated and accrued at each Valuation Day by reference to the Net Asset Value of the relevant Sub-Fund and payable monthly in arrears.

In addition to the Management Fee, the Management Company may be entitled to a Performance Fee for certain Sub-Funds. Any Performance Fee, the rate applicable and calculation method are mentioned in the Annex A in relation to a given Sub-Fund.

The Management Fees and Performance Fees payable to the Management Company for its services in respect of each Sub-Fund can be found in Annex A.

No Management Fees and Performance Fees are payable on E Shares.

The Management Company pays the following fees out of the Management Fee and Performance Fee:

In respect of P and I Shares:

- the investment management fees and performance fees payable to the Investment Manager(s);
- the investment advisory fees payable to any Investment Adviser;
- the asset allocation fees payable to the Asset Allocators;
- fees in relation to sales and marketing activities, services to investors such as client relationship management services and services for the acquisition and disposal of Shares.

When the Directors decide to apply the Swing Pricing, as defined in paragraph 15.1, any Performance Fee will be charged on the basis of the unswung NAV.

10.5.2 Fixed Rate of Operational Costs

For the E, P and I classes of Shares, the Company bears the fixed and variable costs, charges, fees and other expenses incurred in the operation and administration of its activities ("Operational Costs").

The Operational Costs cover expenses directly incurred by the Company ("Direct Costs") and those resulting from the activities carried out by the Management Company on behalf of the Company ("Fund Servicing Costs").

Direct Costs include notably:

- (i) Depositary and Central Administrative Agent fees;
- (ii) Fees and expenses of the Company's external auditors;
- (iii) Directors fees, directors and officers insurance premiums, reasonable out-of-pocket expenses incurred by the Directors;
- (iv) Government charges;
- (v) Fees and expenses of its legal and tax advisers in Luxembourg and abroad;
- (vi) *Taxe d'abonnement* (see Section 17 for further details);
- (vii) Fees and expenses of any license / trademark used by the Company;
- (viii) Domiciliary Agent fees;
- (ix) Fees and expenses of any other service providers or officers appointed by the Company or by the Management Company on behalf of the Company;

Fund Servicing Costs, as the remaining amount of Operational Costs after deduction of the Direct Costs, include notably:

- (x) Fees related to the exercise of proxy voting;
- (xi) Costs related to the registration and maintenance of such registration in all jurisdictions (including fees charged by the relevant supervisory authorities, translation costs and remuneration of Foreign Representatives and local paying agents);
- (xii) Marketing fees, costs relating to the publication of offering / redemption prices, distribution of semi-annual and annual reports, other reporting expenses;
- (xiii) Costs related to distribution of Shares through local clearing systems when according to local practice such costs are supported by the Company;
- (xiv) Fees and expenses charged by affiliated entities of the Lombard Odier Group in relation to legal, compliance, administrative and operational services, including accounting support, provided to the Management Company for the account of the Company;
- (xv) Fees and expenses related to the mailing / publication of notices to shareholders or any other type of communication to shareholders, regulatory authorities, service providers, etc.

- (xvi) Any other fees and expenses charged to the Company in relation to its day-to-day operations;
- (xvii) Any expenses in relation to liquidation procedures.

For the avoidance of doubt, the fees covered under items (xii) and (xiii) above are distinct from the Initial Charge.

Other fees mentioned in paragraph 10.5.3 below such as transaction costs, stock lending charges, interest on bank overdraft and any other extraordinary fees and expenses are distinct from the Direct Costs and the Fund Servicing Costs.

To cover the Operational Costs, the Company pays to the Management Company a fixed rate of Operational Costs ("FROC") as an annual percentage of the Net Asset Value of the relevant class of Shares for each Sub-Fund.

The purpose of the FROC is to set a fixed rate of fees covering the Direct Costs and the Fund Servicing Costs which may be subject to fluctuation overtime. The FROC ensures that the Company is protected from expenses fluctuation which would not be the case had the Company chosen to pay directly such charges.

The FROC effectively paid to the Management Company (the "Effective FROC") cannot exceed the maximum FROC (the "Maximum FROC") as disclosed in Annex A for each Sub-Fund.

The Effective FROC for the relevant classes of Shares for each Sub-Fund is disclosed in the semi-annual and annual reports.

Within the Maximum FROC mentioned in Annex A for each Sub-Fund, the Directors reserve the right to adjust the Effective FROC from time to time. Any increase to the Maximum FROC is considered a material change and will be notified to the shareholders. It should be noted that foreign jurisdictions where the Company may be registered might impose restrictions or additional requirements in case of a FROC increase.

In the event that the amount of the actual Operational Costs exceeds the Effective FROC for any class of Shares of any Sub-Fund, the Management Company bears the excess Operational Costs. Conversely, should the actual Operational Costs be lower than the Effective FROC for any class of Shares of any Sub-Fund, the Management Company is entitled to retain such difference.

10.5.3 Other Fees

In addition to the Operational Costs described in paragraph 10.5.2 above, each class of Shares bears (i) the costs relating to certain transactions such as the costs of buying and selling underlying securities, costs charged by any financial institution or organisation in relation to swap agreements or OTC transactions, correspondent bank charges relating to delivery, receipt of securities or to foreign exchange transactions, fees relating to collateral management (including delivery or receipt of collateral) and (ii) the periodic charges related to research as mentioned in paragraph 10.5.4 below.

Furthermore, each class of Shares bears any extraordinary expenses incurred by external factors, some of which may not be reasonably foreseeable in the normal course of activity of the Company such as, without limitation, any litigation expenses (including expert opinions or appraisals) or the full amount of any tax, levy, duty or similar charge imposed on the Sub-Funds or their assets that would not be considered as ordinary expense.

The costs and expenses for the creation of any additional Sub-Fund, including fees and expenses of its legal and tax advisers in Luxembourg and abroad, will be borne by relevant the Sub-Fund and amortised over a period of up to five years.

Subject to the limitations mentioned in paragraph 4.1 (v), where a Sub-Fund invests in a UCITS or UCI or a Target Sub-Fund, the investment in the underlying funds may result in a double charging of fees and expenses, in particular a duplication of the fees payable to the custodian(s), transfer agent(s), Investment Manager(s) and other agents and, with exception of investments in a Target Sub-Fund, also subscription and redemption charges, which are generated both at the level of the Sub-Fund and of the underlying funds in which the Company invests. The maximum level of the management fee that may be charged both to a Sub-Fund and to such other UCITS or UCI or Target Sub-Fund is disclosed in Annex A for each Sub-Fund.

10.5.4 Research Commissions and Charges

Subject to compliance by Investment Managers with applicable laws and regulations (and in particular for those Investment Managers located in the European Union, subject to compliance with MiFID II), Investment Managers and their delegates and affiliated persons may receive investment research from brokers, dealers and other third parties in connection with the management of a Sub-Fund which may be funded from either (i) transaction commissions ultimately borne by a Sub-Fund pursuant to soft commission, commission sharing and/or research charge collection arrangements with brokers, dealers and other third parties (collectively referred to as "Research Commission Arrangements"); or (ii) periodic charges made to a Sub-Fund by the Investment Manager at rates to be agreed by the Company and charged as other fees to the relevant Sub-Fund in

accordance with paragraph 10.5.3. Where permitted by and subject to applicable laws and regulations, Investment Managers outside the European Union may receive research that is bundled with the trade execution services provided by a particular broker or dealer.

Investment Managers will provide reports to the Management Company with respect to the use of Research Commission Arrangements and will act at all times in the best interest of the Company, the Management Company and each relevant Sub-Fund when entering into Research Commission Arrangements or otherwise receiving research which is funded directly or indirectly by a Sub-Fund.

10.6 Total Expense Ratio

The costs and commissions charged on the management of each Sub-Fund will be disclosed using the internationally recognised Total Expense Ratio (TER). The TER is calculated twice a year by dividing the total operating costs and commissions, excluding securities transaction costs (brokerage), charged on an ongoing basis to the Sub-Fund's assets by the average assets of such Sub-Fund.

The TER for the Sub-Funds will be included in the semi-annual and annual reports.

11. DISTRIBUTION OF SHARES

The Company has entered into a Management Company Agreement with Lombard Odier Fund (Europe) S.A. whereby Lombard Odier Funds (Europe) S.A. is appointed global distributor for the Shares of the Company on a worldwide basis (the "Global Distributor").

The Company and/or the Global Distributor may enter into agreements with distributors, placement agents and other sales agents (the "Distributors") for the marketing and the sale of the Shares of the Company in certain OECD countries, in accordance with all applicable laws. The Global Distributor and the Distributors shall be entitled to receive the fees described under Sections 10.1 and 10.3 above and they may decide to rebate, from time to time, a portion or all of such fees to sub-distributors or shareholders, in accordance with all applicable laws.

The Company, the Global Distributor and the Distributors will apply the Money Laundering Rules and Procedures imposed by the FATF.

For the purpose of assisting in the distribution of the Shares, the Company may decide to accept subscriptions, conversions or other orders of nominees ("Nominees") in the countries in which the Company is registered. The Nominee, and not the clients who have invested in the Company, shall be recorded in the Shareholders' register and shall fall under one of the FATCA category compatible with the Company's FATCA status as "Collective Investment Vehicle" as explained in paragraph 12.2. The Nominees shall notify the Transfer Agent and either the Management Company or the Company as soon as possible in case their FATCA status changes, and in any case within 30 days of such change in a manner agreed between the Company and the Nominee.

In accordance with IML Circular 91/75, the conditions whereby:

- (i) the agreements with the Nominees shall stipulate that the client, who has invested in the Company via a Nominee, may at all times require that the Shares subscribed be transferred to his/her name in the Shareholders' register; and
- (ii) investors should be able to subscribe for Shares by applying directly to the Company without having to act through one of the Nominees

are not applicable in the context of the Company's election for the "Collective Investment Vehicle" status under FATCA to the extent that the use of the services of a Nominee qualifying as a "participating financial institution" under FATCA is indispensable for the Company to comply with the regulatory and compelling practical reasons deriving from FATCA. However, the conditions under (i) and (ii) above may be applicable as long as the investor qualifies as an investor falling within a category of investors compatible with the Company's FATCA status of "Collective Investment Undertaking" as further detailed in paragraph 12.2.

Full details of the terms and conditions of the nominee service can be obtained from the Central Administration Agent and the local Representatives. Investors wishing to use the nominee service should provide the nominee with a correspondence address.

12. ISSUE AND SALE OF SHARES

12.1 General Provisions

Shares shall be issued at the Issue Price.

The Issue Price shall be the Net Asset Value per Share for the relevant Sub-Fund calculated in the manner set out in paragraph 15.1 increased by the Initial Charge and in the case of certain Sub-Funds (as mentioned in Annex A of a given Sub-Fund), by a Dealing Charge.

The latest Issue Prices are made public at the registered office of the Company.

The Issue Price shall be expressed in the Reference Currency and in the relevant Alternative Currency, in the case of Shares issued in an Alternative Currency, of the relevant Sub-Fund determined on each Valuation Day by the Central Administration Agent.

Shares can be subscribed in accordance with the Application Procedure set out in Section 20. Applications may be sent directly to the Company in Luxembourg. Investors may place orders for Shares with the Global Distributor or Distributors.

The initial minimum investment and holding amount in Shares of any one Sub-Fund is stated in Annex A. The Board may waive the initial minimum investment and minimum holding for all classes of Shares to the extent permissible by law and regulation.

Requests for subscriptions must be received by the Company no later than the Cut-off time. All deals will be effected on a forward pricing basis. Requests for subscriptions received after the Cut-off time will be deferred to the next following Valuation Day.

Fractions will be issued and rounded up to 3 decimal places unless otherwise specified. Any rounding may result in a benefit for the relevant Shareholder or Sub-Fund. Payment of the subscription monies must be made in the Reference Currency, or in an Alternative Currency, in the case of Shares issued in an Alternative Currency, for value 3 Business Days after the relevant Valuation Day to the Central Administration Agent, indicating the proper identity of the investor(s) and the relevant Sub-Fund(s) in which Shares are subscribed.

The Issue Price may, upon approval of the Board, and subject to all applicable laws, namely with respect to a special audit report confirming the value of any assets contributed in-kind, be paid by contributing to the Company securities acceptable to the Board, consistent with the investment policy and investment restrictions of the Company. The special audit report shall be issued by the auditor of the Company. The cost of the audit report is borne by the relevant Sub-Fund.

The Company may restrict or prevent direct or indirect holding of Shares or the ownership of Shares by any person or group of persons, firm or corporate body, namely by (a) any person in breach of any law or requirement of any country or governmental or regulatory authority or (b) any person in circumstances which in the opinion of the Board might result in the Company incurring any breach or non-compliance with a given regulatory status or liability to taxation (including inter alia regulatory or tax liabilities that might derive inter alia from the requirements of FATCA or CRS or any similar provision or any breach thereof or other disadvantage which it would not otherwise have incurred or suffered (including a requirement to register under any securities or investment or similar laws or requirements of any country or authority) or (c) any person whose shareholding concentration could, in the opinion of the Board, jeopardise the liquidity of the Company or any of its Sub-Funds. The manner in which the Company may restrict the direct or indirect ownership of Shares in the Company by any person or group of persons, firm or corporate body, is described under the Articles.

The Board may also impose restrictions on the issuance of Shares of any Sub-Fund (also resulting from conversion requests) during any period, as determined by the Board. The Company reserves the right to reject any application in whole or in part in the light of market conditions prevailing on the stock exchange or currency markets, in which event the application monies or the balance thereof will be returned forthwith to the applicant. The Company does not permit practices related to market timing and reserves the right to reject subscription and conversion orders from investors who the Company suspects of using such practices and to take the appropriate measures to protect other investors of the Company.

Sub-Funds	Cut-off time ¹ (Luxembourg time) (Subscriptions, Redemptions and Conversions)	Valuation Day ² ("T")	Payment Date ³ (Subscriptions and Redemptions)

NB: any reference to a day shall be construed as a reference to a Business Day

- ¹ If such day is not a Business Day, the first Business Day in Luxembourg preceding this day
- ² If such Valuation Day is not a Business Day, the Valuation Day will be the next Business Day or the previous Business Day in case of bi-monthly valuation
- ³ For redemptions, payments will ordinarily be made in the Reference Currency within the Payment Date
- ⁴ Shareholders are prompted to consult the Lombard Odier Group website (www.loim.com) for the applicable Payment Date.

12.2 Restrictions applicable to the issue and the holding of Shares in accordance with the Company's FATCA status

Please also refer to paragraph "Regulatory Risk - United States of America" in the Risk Factors Annex for further details on FATCA.

The Company, through its Sub-Funds, qualifies as a FFI for FATCA purposes.

According to FATCA and the model 1 IGA entered into between the US and the Grand Duchy of Luxembourg, a FFI can qualify as either a "reporting" FFI or a "non-reporting" FFI.

Annex II of the IGA specifies the legal entities that can qualify as "non-reporting" FFIs on the grounds that such FFIs are deemed to pose a low risk of being used for the purposes of US tax evasion.

With a view to ensuring FATCA compliance and avoiding any punitive withholding tax (FATCA Withholding) on certain US source payments to the Company, the Sub-Funds or the Shareholders, the Company has elected for a non-reporting status under the "Collective Investment Vehicle" category provided for by Annex II of the IGA.

The "Collective Investment Vehicle" status provided by Annex II of the IGA is applicable to the Company as well as to every Sub-Fund listed under "Annex A: Sub-Funds offered for subscriptions". Any document evidencing the FATCA status of the Company shall be deemed to evidence as well that of every Sub-Fund as listed under "Annex A: Sub-Funds offered for subscriptions".

A "Collective Investment Vehicle" status is available to investment entities (as defined by IGA) established in Luxembourg regulated as a collective investment vehicles provided that all of their interests (including shares) are held by or through:

- one or more exempt beneficial owners (as defined under FATCA and the IGA);
- Active Non-Financial Foreign Entities ("Active NFFEs", as described in the Annex I of the IGA);
- US persons which are not Specified US Persons (as defined under FATCA); or
- financial institutions that are not Nonparticipating Financial Institutions for FATCA purposes (as defined under FATCA).

The Company will make all reasonable efforts to fulfill the above requirements in order to comply with the "Collective Investment Vehicle" status under FATCA. Accordingly, (i) the Board shall have the right to reject any application by an investor that does not fall within one of the categories mentioned above; (ii) in order to maintain the Company's "Collective Investment Vehicle" FATCA status, investors shall only

subscribe for and hold Shares through a financial institution falling under one of the categories mentioned above; (iii) the Board shall have the right to make proposals, including the compulsory redemption of Shares, to existing Shareholders whose holding of Company's Shares is not in compliance or became non-compliant with the above-mentioned rules in order to take necessary steps to render their holding compliant with the Company's FATCA status; and more generally (iv) the Board shall have the right to compulsorily redeem shares of any Shareholder whose holding of the Company's Shares is not in compliance with the abovementioned rules, in accordance with the Articles.

As a result, the Company shall have no direct individual investors in its register of shareholders, other than entities falling within one of the categories above. The shareholders in the register of shareholders shall notify the Transfer Agent and either the Management Company or the Company (in a manner agreed between the Company and the shareholders) if their FATCA status changes (see below paragraph 13.1 for further detail on a "change of circumstances"). Such notification should be made as soon as practicable and no later than 30 days of such change.

Investors should also refer to section 11 of this Prospectus for more information about the rights of investors holding Shares of the Company through an intermediary or a nominee.

Investors may contact the Company, the Global Distributor or Distributors for more information about how to apply for the Shares of the Company in the context of FATCA.

13. REDEMPTION OF SHARES

13.1 General Provisions

Shares shall be redeemed at the Redemption Price.

The Redemption Price shall be the Net Asset Value per Share calculated in the manner set out in paragraph 15.1 reduced, in the case of certain Sub-Funds (as mentioned in Annex A of a given Sub-Fund), by a Dealing Charge.

The latest Redemption Prices are made public at the registered office of the Company.

Shareholders' requests for redemption of Shares must be made to the Company in writing or by telex or facsimile, confirmed in writing no later than the Cut-off time. A request duly made shall be irrevocable, except in case of and during any period of suspension or deferment of redemptions. In all other cases, the Board may approve the withdrawal of a redemption request.

In compliance with the forward pricing principle, requests for redemption received after the Cut-off time will be deferred to the next following Valuation Day.

Fractions of Shares rounded up to 3 decimal places can be redeemed unless otherwise specified.

The Company may refuse to deal with any redemption request which would realise less than the equivalent in any Reference Currency of EUR 50,000 at the discretion of the Directors.

In case the residual value of the Shares held by an investor in a Sub-Fund, falls below EUR 50,000 following a redemption or a conversion request, the Company may redeem or convert the remaining holding of the investor.

The value of Shares at the time of their redemption may be more or less than the shareholder's cost, depending on the market values of the assets held by the Sub-Fund at such time. The value of Shares issued in an Alternative Currency will also largely depend on the currency fluctuation of the Alternative Currency towards the Reference Currency of the Sub-Fund as well as on the hedging policy used to cover this exchange risk, if any.

Should the situation arise where Shares are held by an investor whose quality is deemed incompatible with the Company's FATCA status as "Collective Investment Vehicle" for the purpose of ensuring compliance with FATCA legislation, the Board shall have discretion to redeem such Shares in accordance with the Prospectus and the Articles.

Similarly, if there is a change of circumstances whereby a shareholder whose quality under FATCA legislation was previously deemed compatible with the Company's FATCA status as "Collective Investment Vehicle" becomes no longer eligible to hold Shares, such shareholder shall notify the Transfer Agent and either the Company or the Management Company as soon as practicable and no later than 30 days of such change. A change of circumstances is to be construed broadly so as to mean any event or situation where it appears that the Company can no longer rely on the documentation, declaration, representation or information (from the shareholder or from public sources) previously relied upon in the context of FATCA compliance. Once notified or becoming aware of such change of circumstances,

the Board shall have discretion to redeem the Shares in accordance with the Prospectus and the Articles in case it appears that the non-compliance status of the shareholder will not be cured, or is unlikely to be cured, within a reasonable time frame decided discretionarily by the Board, so as to fulfill at all times the requirements relating the Company's status as "Collective Investment Vehicle" under FATCA.

At the shareholder's request, the Company may elect to make an in-kind distribution, having due regard to all applicable laws and regulations and to all shareholders' interests. Unless otherwise permitted by applicable laws and regulation or CSSF, such in-kind distribution will be subject to a special audit report confirming the value of any assets distributed and the cost of such report is borne by the shareholder.

Shares shall upon their redemption by the Company be cancelled.

Payments will ordinarily be made in the Reference Currency within the time limit mentioned under "Payment Date" in the table under Section 12, or on the date the Share certificate(s) (if issued) have been returned to the Company, if later. For Shares issued in an Alternative Currency, payments of redemption proceeds will ordinarily be made in such currency.

The Company will not be bound to redeem on any Valuation Day more than 10% of the number of Shares relating to any Sub-Fund in issue on such Valuation Day. In case of deferral of redemptions the relevant Shares shall be redeemed at the Net Asset Value per Share prevailing at the date on which the redemption is effected.

If in exceptional circumstances the liquidity of the portfolio of assets maintained in respect of the Sub-Fund the Shares of which are redeemed is not sufficient to enable the payment to be made within such a period, such payment shall be made as soon as reasonably thereafter, but without interest.

Confirmation of the execution of a redemption order will be sent to the shareholder on the next Business Day following execution of the redemption order or, where the confirmation is received by the Management Company from a third party, the first Business Day following receipt of the confirmation from the third party.

13.2 Deferment of Redemptions and Payment of Redemption Monies

In order to ensure that shareholders who do not seek to have their Shares redeemed are not disadvantaged by the reduction of the liquidity of the Company's portfolio as a result of significant redemption applications received over a limited time frame, the Directors may apply the procedures set out below to permit the orderly disposal of securities to meet redemptions.

In case of redemption requests on any Valuation Day for Shares representing more than 10% of the Net Asset Value of a Sub-Fund, the Company, having regard to the fair and equal treatment of shareholders, on receiving the redemption request may elect to sell assets representing, as nearly as practicable, the same proportion of the Sub-Fund's assets as the value of the Shares for which redemption applications have been received. If the Company exercises this option, then the amount due to the shareholders who have applied to have their Shares redeemed, will be based on the Net Asset Value per Share calculated after such sale or disposal. Payment will be made forthwith upon completion of the sales and the receipt by the Company of the proceeds of sale in freely convertible currency. For this purpose as well as for the deferral of redemptions, conversions are considered as redemptions.

The value of the Shares at the time of repurchase may be more or less than the shareholder's cost, depending on the market value of the securities and other assets held by the Company at that time.

Payment of redemptions proceeds may be delayed if there are any specific statutory provisions such as foreign exchange restrictions, or any circumstances beyond the Company's control which make it impossible either to obtain payment for the sale or disposal of a Sub-Fund's assets or to transfer the redemption proceeds to the country where the redemption was requested.

14. CONVERSION OF SHARES

Conversion from Shares of one Sub-Fund into Shares of another Sub-Fund is only permitted if the investor complies with all the conditions required for the Sub-Fund into which Shares are to be converted. In case of conversion concerning Sub-funds with different Cut-off times, the most restrictive Cut-off time shall apply to the conversion.

Holders of Shares of each Sub-Fund will be entitled to convert (switch) some or all of their holding into Shares of another Sub-Fund by making application to the Company's Transfer Agent in Luxembourg by telex, facsimile or in writing by no later than the Cut-off time. The

application must include the following information: the name of the holder, the number of Shares to be switched (if it is not the total holding) and, if possible, the reference number of any Share of each Sub-Fund to be switched and the proportion of value of those Shares to be allocated to each new Sub-Fund (if more than one). Shares may only be converted from or into Shares of the same class of any Sub-Fund.

It should be noted that conversion of Shares cannot be effected until the Company is in receipt of the relevant Share certificate (if any).

Conversions must be for a minimum amount of EUR 50,000.

The basis of conversion is related to the respective Net Asset Value per Share of the Sub-Fund concerned. The Company will determine the number of Shares into which a shareholder wishes to convert his existing Shares in accordance with the following formula:

$$A = \frac{(B \times C \times D) - F}{E}$$

The meanings are as follows:

- A: the Number of Shares to be issued in the new Sub-Fund
- B: the Number of Shares in the original Sub-Fund
- C: Redemption Price per Share to be converted
- D: Currency Conversion Factor
- E: Issue Price per Share to be issued
- F: Conversion charge up to 0.50% of the Net Asset Value of the Shares converted.

Dealing charges may apply upon conversion of Shares of one Sub-Fund into Shares another Sub-Fund (but not upon conversion between classes of Shares within the same Sub-Fund).

The Company will provide a Share confirmation with details of the conversion to the shareholder concerned and issue new Share certificates, if so requested by him.

If "A" is not a whole number, fractions of Shares rounded up to 3 decimal places will be allotted in the new Sub-Fund (if applicable).

In compliance with the forward pricing principle, requests for conversions received after the Cut-off time will be deferred to the next following Valuation Day.

Delayed payment of redemptions and deferment of redemptions (see paragraphs 13.1 and 13.2) also apply to conversions.

15. NET ASSET VALUE

15.1 Net Asset Value Determination

The Net Asset Value of each Sub-Fund and the Net Asset Value per Share of each Sub-Fund will be determined in the relevant Reference Currency and, for the Net Asset Value per Share, in the relevant Alternative Currency, in the case of Shares issued in an Alternative Currency, on each Valuation Day, except in case of a suspension as described below.

The Net Asset Value per Share of each Sub-Fund will be calculated in respect of any Valuation Day by valuing the total net assets of the relevant Sub-Fund, being the market value of its assets less its liabilities, divided by the number of Shares of the relevant Sub-Fund.

Swing Pricing

Swing Pricing is a mechanism designed to protect shareholders against the negative effects of trading for the account of a Sub-Fund when there are large flows into or out of a Sub-Fund.

In the event that net subscriptions or redemptions in a Sub-Fund exceed a certain threshold ("Swing Threshold") on any Valuation Day, the Net Asset Value of that Sub-Fund may be adjusted by a factor, normally expressed as a percentage of the Net Asset Value of the Sub-Fund ("Swing Factor") to reflect the anticipated costs of dealing in the underlying securities of the Sub-Fund.

The Net Asset Value will be adjusted upwards by the Swing Factor when there are net subscriptions on any Valuation Day in excess of the Swing Threshold and downwards when there are net redemptions on any Valuation Day in excess of the Swing Threshold, the intention being to better allocate the dealing costs to those shareholders who are subscribing or redeeming, rather than shareholders who are not dealing in their shares on the relevant Valuation Day.

Swing Thresholds

The Swing Threshold for each Sub-Fund will be determined separately and may vary over time depending upon prevailing circumstances. Factors influencing the determination of the Swing Threshold may include:

- the size of the Sub-Fund
- the type and liquidity of securities in which the Sub-Fund invests
- the costs, and hence the dilution impact, associated with the markets in which the Sub-Funds invests
- the investment policy of a Sub-Fund and the extent to which a Sub-Fund can retain cash (or near cash) as opposed to always being fully invested
- market conditions (including market volatility)

Where the Swing Threshold is set at 0%, a "full" swing policy applies and the direction of the swing is determined by the net dealing activity for that Valuation Day (net subscriptions or net redemptions). Where the Swing Threshold is set above 0%, a "partial" swing policy applies and will only be triggered if the net dealing activity for the Valuation Day exceeds the Swing Threshold.

Swing Factors

The Swing Factor may normally not exceed 3% of the Net Asset Value of a Sub-Fund. However, in extraordinary market conditions and where the Directors determine that it is necessary to efficiently protect the interests of shareholders, the Directors may increase the maximum level of the Swing Factor for any Sub-Fund above 3% of the Net Asset Value of that Sub-Fund. In such case, affected shareholders shall be informed as soon as reasonably practicable thereafter. Extraordinary market conditions may include heightened market and sector volatility, a widening of bid/offer spreads of underlying investments and/or the increase of portfolio transaction costs associated with the securities trading.

It should be understood that:

- (i) the Swing Factor applies to all Shares of the Sub-Fund subject to the Swing Pricing;
- (ii) different Swing Factors may apply to different Sub-Funds.

Elements influencing the determination of the Swing Factor may include (list non-exhaustive):

- the bid/offer spreads for the underlying securities held within a Sub-Fund's investment portfolio
- broker commissions
- transaction taxes and other trading costs that may have a material impact
- other considerations which may exacerbate the dilution effect

The Management Company determines, and periodically reviews, under the responsibility of the Company, the operational decisions concerning Swing Pricing, including the determination of the applicable Swing Thresholds (if any) and Swing Factors for each Sub-Fund.

The calculation of the Net Asset Value, when using Swing Pricing as described above, shall be used to determine the Issue and Redemptions Prices of the Shares of each Sub-Fund.

It should be noted that as the Swing Pricing mechanism applies on the basis of net inflows or outflows, it does not address the specific circumstances of each individual shareholder transaction.

The Swing Pricing will apply to each Sub-Fund individually even though part or all of its assets is co-managed with assets belonging to other Luxembourg collective investment schemes or to other Sub-Funds (see paragraph 6.6).

In addition to the circumstances mentioned above in relation to net inflows and outflows, it should also be noted that, should a Sub-Fund be part of a merger as per one of the merger techniques set forth in the 2010 Law, its Net Asset Value may be adjusted through the Swing Pricing mechanism to net out any impact caused by the cash inflows or outflows occurring on the merger date.

Dilution Adjustment

Alternatively to the Swing Pricing mechanism described above, in order to avoid the dilution of the net asset value of a Sub-Fund resulting from large flows into or out of a Sub-Fund, the Directors may make any necessary dilution adjustment to the net asset value of any Sub-Fund (a "Dilution Adjustment"). The Dilution Adjustment may normally not exceed 3% of the Net Asset Value. However, such amount may be increased in extraordinary market conditions and if the best interest of the shareholders so requires. In such case, affected shareholders shall be informed as soon as reasonably practicable thereafter. Extraordinary market conditions may include heightened market and sector volatility, a widening of bid/offer spreads of underlying investments and/or the increase of portfolio transaction costs associated with the securities trading.

Elements influencing the Dilution Adjustment may include (list non-exhaustive):

- the bid/offer spreads for the underlying securities held within a Sub-Fund's investment portfolio
- broker commissions
- transaction taxes and other trading costs that may have a material impact
- other considerations which may exacerbate the dilution effect

Any communication to the shareholders in relation to the application of Swing Pricing or the Dilution Adjustment, including the Sub-Funds subject to such measure, will be published on www.loim.com and available on request at the registered office of the Company and the Management Company.

The assets will be valued in accordance with principles laid down in the Articles and in accordance with valuation regulations and guidelines as adopted by the Directors and as from time to time modified by them.

The value of assets of the Company shall be determined as follows:

- (i) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received, shall be deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Company may consider appropriate in such case to reflect the true value thereof;
- (ii) the value of all portfolio securities which are listed on an official stock exchange or traded on any other Regulated Market will be valued at the last available closing price on the principal market on which such securities are traded. If such prices are not representative of the fair value, such securities as well as all other permitted assets, including permitted financial futures contracts and options and securities which are not listed on a stock exchange or traded on a Regulated Market, will be valued at the reasonable foreseeable sales prices determined prudently and in good faith by and under the direction of the Company;
- (iii) any assets or liabilities in currencies other than the Reference Currency of a Sub-Fund will be converted into such currency using the relevant spot rate quoted by a bank or other responsible financial institution.

The Net Asset Value per Share shall be rounded to four decimal places.

The Net Asset Value per Share of each Sub-Fund as certified by a Director or by an authorised officer or representative of the Company shall be conclusive, except in the case of manifest error.

The Company shall include in the annual financial reports its audited consolidated accounts expressed in EUR.

During the existence of any state of affairs which, in the opinion of the Directors, makes the determination of the Net Asset Value of a Sub-Fund in the Reference Currency either not reasonably practical or prejudicial to the shareholders of the Company, the Net Asset Value and the Issue Price and Redemption Price may be temporarily determined in such other currency as the Directors may determine.

The Issue Prices and Redemption Prices of any Sub-Fund which equal the Net Asset Value per Share in the Reference Currency and in the Alternative Currency, in the case of Shares issued in an alternative currency, may be obtained at the registered office of the Company.

15.2 Suspension of the Calculation of the Net Asset Value, and of Issue, Redemption and Conversion of Shares

The Company may suspend the calculation of the Net Asset Value of any Sub-Fund and may suspend the issue, redemption and conversion of Shares of the relevant Sub-Fund:

- (a) during any period when the dealing of the units/shares of an investment vehicle in which any substantial portion of assets of the relevant Sub-Fund is invested or the calculation of the net asset value of such investment vehicle is restricted or suspended;
- (b) during any period when any market or stock exchange, which is the principal market or stock exchange on which a material part of a Sub-Fund's investments for the time being are quoted, are closed, otherwise than for ordinary holidays, or during which dealings are substantially restricted or suspended;
- (c) during any period when a material part of a Sub-Fund's investments may not, using the standard valuation procedures, be promptly or accurately valued or is not valued at a fair market value;
- (d) during any period when the net asset value of any subsidiary of the Company may not be determined accurately;
- (e) during the existence of any state of affairs which constitutes an emergency as a result of which disposal or valuation of the

- Company's assets attributable to any Sub-Fund is not reasonably practical;
- (f) during any breakdown in the means of communication normally employed in determining the price or value of any of the investments attributable to any Sub-Fund or the current prices on any market or stock exchange;
 - (g) during any period when remittance of monies which will or may be involved in the realisation of, or in the payment for, any investments attributable to any Sub-Fund is not possible;
 - (h) during any period when, in the opinion of the Board there exists unusual circumstances where it would be impracticable or unfair towards the shareholders to continue dealing with Shares of any Sub-Fund;
 - (i) in the event of (i) the publication of the convening notice to a general meeting of shareholders the purpose of which is to propose the winding-up of the Company or a Sub-Fund thereof, or (ii) the decision of the Board to wind up one or more Sub-Funds;
 - (j) in accordance with the provisions on mergers of the 2010 Law, provided that any such suspension is justified for the protection of the shareholders;
 - (k) in case of a Feeder Sub-Fund, during any relevant period when the determination of the net asset value of the Master UCITS is suspended.

The Articles provide that the Company may suspend the issue redemption and conversion of the Shares forthwith upon the occurrence of an event causing it to enter into liquidation.

Shareholders having requested issue, redemption or conversion of their Shares will be notified in writing of any such suspension within seven days of their request. Shareholders will be promptly notified of the termination of such suspension by (i) a notification in the same form as the notification of the suspension described above and/or (ii) any other alternative or additional means of conveyance of information the Board may deem more appropriate given the circumstances and the interest of the Shareholders (e.g. via a website).

The suspension of any Sub-Fund will have no effect on the calculation of the Net Asset Value and the issue, redemption and conversion of the Shares of any other Sub-Fund.

16. LIQUIDATION, COMPULSORY REDEMPTION AND AMALGAMATION OF SUB-FUNDS

- (a) The Company can be liquidated by a shareholders' decision in accordance with the provisions of the 2010 Law and 1915 Law. The same quorum and majority requirements for the shareholders' decision shall apply in case of merger, if as a result of such merger the Company will cease to exist.
- (b) In the event that the Net Asset Value of the Company falls below EUR 50 million or in case the Board deems it appropriate because of changes in the economical or political situation affecting the Company, or if the Board deems it to be in the best interests of the shareholders, the Board may, by giving notice to all shareholders, redeem on the Valuation Day indicated in such notice all (but not some) of the Shares not previously redeemed, at the Net Asset Value without any dealing or redemption charges. The Board shall, after the end of the notice period, forthwith convene an extraordinary shareholders' meeting to appoint a liquidator to the Company.
- (c) In the event that the Net Asset Value of any given Sub-Fund falls below EUR 20 million or the equivalent in the Reference Currency of a Sub-Fund or if a redemption request is received that would cause any Sub-Fund's assets to fall under the aforesaid threshold, or if the Board deems it appropriate to rationalize the Sub-Funds offered to investors, or in case the Board deems it appropriate because of changes in the economic or political situation affecting the relevant Sub-Fund or if the Board deems it to be in the best interest of the shareholders concerned, the Board may, after giving notice to the shareholders concerned, to the extent required by Luxembourg laws and regulations, redeem all (but not some) of the Shares of that Sub-Fund on the Valuation Day provided in such notice. Unless the Board decides otherwise in the interest of, or in order to ensure equal treatment of, the shareholders, shareholders of the relevant Sub-Fund may continue to request redemption or conversion of their Shares free of any redemption or conversion charge, but taking into account actual realisation prices of investments and realisation expenses.
- (d) If a Sub-Fund qualifies as a Feeder of a Master UCITS, the merger, split or liquidation of such Master UCITS, triggers liquidation of the Feeder, unless the Board decides, in accordance with article 16 of the Articles and the 2010 Law, to replace the Master with another Master or to convert the Feeder into a non feeder Sub-Fund.
- (e) Termination of a Sub-Fund with compulsory redemption of all relevant Shares for other reasons than set out in the preceding paragraphs, may be effected only upon its prior approval by the shareholders of the Sub-Fund to be terminated at a duly convened general meeting of the Sub-Fund concerned which may be validly held without quorum and decided by a simple majority of the Shares present or represented.

- (f) Liquidation proceeds not claimed by shareholders at the close of liquidation of a Sub-Fund will be deposited at the Caisse de Consignation in Luxembourg and shall be forfeited after thirty years.
- (g) The provision for anticipated realisation and liquidation costs will be accounted for in the Net Asset Value from such date as may be defined by the Board and at the latest on the date of dispatch of the notice mentioned sub-paragraphs (b), (c), (d) and (e).
- (h) In compliance with the provisions of the 2010 Law, the Board may decide to merge any Sub-Fund with another Sub-Fund of the Company or with another UCITS or a sub-fund thereof (whether established in Luxembourg or another Member State or whether such UCITS is incorporated as a company or is a contractual type fund) using any of the merger techniques set forth in the 2010 Law. In case of a merger of a Sub-Fund, the Board will give notice to shareholders concerned, as required by Luxembourg law and regulations. Such notice shall be provided to the shareholders concerned at least thirty days before the last date for exercising their right to request the repurchase or redemption or conversion of their Shares without any charge other than those retained to meet disinvestment costs; such right shall cease to exist five working days before the date for calculating the exchange ratio referred to in article 75, paragraph (1) of the 2010 Law.
- (i) Alternatively, the Board may propose to the shareholders of any Sub-Fund to merge the Sub-Fund with another Sub-Fund of the Company or with another UCITS or a sub-fund thereof (whether established in Luxembourg or another Member State or whether such UCITS is incorporated as a company or is a contractual type fund) under the provisions of the 2010 Law. In such case, the duly convened general meeting of the Sub-Fund concerned may be validly held without quorum and may decide by a simple majority of the Shares present or represented.
- (j) If the Board determines that it is in the interests of the shareholders of the relevant Sub-Fund or that a change in the economic or political situation relating to the Sub-Fund concerned has occurred which would justify it, the reorganisation of one Sub-Fund, by means of a division into two or more Sub-Funds, may take place. This decision will be notified to shareholders as required. The notification will also contain information about the two or more new Sub-Funds. The notification will be made at least one month before the date on which the reorganisation becomes effective in order to enable the shareholders to request the redemption of their Shares, free of any dealing or redemption charge, before the operation involving the division into two or more Sub-Funds becomes effective. Under the same circumstances, the Board may decide the division of a class of Shares into two or more classes of Shares.

17. TAXATION

The following is based on the understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and is subject to changes therein. It should not be taken as constituting legal or tax advice and investors are advised to obtain information and, if necessary, advice regarding the laws and regulations applicable to them by reason of the subscription, purchase, holding and realisation of Shares in their countries of origin, residence or domicile.

1) The Company

The Company's assets are subject to a subscription tax ("taxe d'abonnement") of 0.05% per annum under the 2010 Law, payable quarterly on the basis of the Net Assets Value of the Company at the end of each quarter provided that no such tax is due on the portion of the assets of the Company invested in other Luxembourg UCI's (if any).

A reduced tax of 0.01% per annum, as provided in article 174 (2) a) and c) of the 2010 Law, will apply for the classes of Shares restricted to Institutional Investors.

A Sub-Fund may furthermore be exempted of this 0.01% tax if it complies with the requirements of article 175 of the 2010 Law.

In addition, the Company's or any Sub-Fund's assets may be subject to an additional taxation levied by foreign tax or governmental authorities of the jurisdictions where the Company or Sub-Funds are registered or distributed.

2) Shareholders

Shareholders are not subject to any capital gains, income, net wealth, or withholding tax in Luxembourg except for those domiciled, resident or having a permanent establishment in Luxembourg.

Shareholders and potential investors are advised to consult their professional advisors concerning possible taxation or the consequences of purchasing, holding, selling or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

The paying agent shall report the following information regarding the beneficial owner of the payment:

- identity and residence of the beneficial owner;
- name and address of the paying agent;

- account number of the beneficial owner or, where there is none, identification of the debt claim giving rise to the interest;
- total amount of the interest payment or similar income.

3) Automatic exchange of information in the field of taxation

The OECD received a mandate by the G8/G20 countries to develop a common reporting standard ("CRS") to achieve a comprehensive and multilateral automatic exchange of information (AEOI) in the future on a global basis. The CRS will require Luxembourg financial institutions to identify financial assets holders and establish if they are fiscally resident in countries with which Luxembourg has a tax information sharing agreement. Luxembourg financial institutions will then report financial account information of the assets holder to the Luxembourg tax authorities, which will thereafter automatically transfer this information to the competent foreign tax authorities on a yearly basis. Investors in the Company may therefore be reported to the Luxembourg and other relevant tax authorities under the applicable rules.

On this basis, Euro-CRS Directive has been adopted on 9 December 2014 in order to implement the CRS among the member States of the European Union. Under the Euro-CRS Directive, the first AEOI applied by 30 September 2017 within the limit of the member States of the European Union for the data relating to calendar year 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("Multilateral Agreement") to automatically exchange information under the CRS. The Multilateral Agreement aims to implement the CRS among non EU member States; it requires agreements on a country by country basis.

Under the 2015 Law implementing the Euro-CRS Directive, the first exchange of information took place on 30 September 2017 for information related to the year 2016. Accordingly, the Company is committed as of 1 January 2016 to run additional due diligence process on its investors and to report, by virtue of its status of Luxembourg Reporting Financial Institution as defined by the 2015 Law, the information listed under article 4 of the 2015 Law and related to Reportable Accounts (as such term is defined under the 2015 Law) such as the identity and residence of financial account holders (including certain entities and their controlling persons), account details, account balance/value and income/sale or redemption proceeds to the local tax authorities of the country of residency of the foreign investors to the extent that they are resident of another EU member State.

It is also possible that AEOI would occur at a later stage among non EU member States.

Investors should consult their professional advisors on the possible tax and other consequences with respect to the implementation of the CRS.

18. DOCUMENTS AVAILABLE TO INVESTORS

18.1 Documents available for Inspection

Copies of the following documents are available for inspection during usual business hours on any weekday (Saturdays and public holidays excepted) at the registered office of the Company:

- (a) Management Company Agreement;
- (b) Investment Management Agreements;
- (c) Depositary and Administrative Agency, Registrar and Transfer Agency and Paying Agency Agreements;
- (d) Co-management Agreement;
- (e) Asset Allocation Agreements;
- (f) The Articles.

The agreements under (a) to (e) above may be amended by mutual consent of the parties thereto.

18.2 Key investor information document

An up to date key investor information document relating to each Sub-Fund is available on the Lombard Odier Group website (www.loim.com). A hard copy can be supplied to investors on request and free of charge.

18.3 Other documents

The following documents are available on the Lombard Odier Group website (www.loim.com):

- a summary description of the strategies for the exercise, to the exclusive benefit of the Sub-Funds concerned, of voting rights attached to instruments held in the portfolios managed by the Management Company as well as the list of applicable payment date as mentioned in paragraph 12.1;
- information on the Management Company's policies on the integration of sustainability risks in the investment decision-making process;
- information on the Management Company's due diligence policies with respect to the principal adverse impacts of investment decisions on sustainability factors;
- the details of the up-to-date remuneration policy, including information on how the remuneration policy is consistent with the integration of sustainability risks.

19. MEETINGS, REPORTS AND INFORMATION TO SHAREHOLDERS

The annual general meeting of shareholders of the Company will be held, in accordance with Luxembourg law, in Luxembourg at the registered office of the Company or at such other place in the Grand Duchy of Luxembourg at such date and time as may be specified in the notice of meeting within six months following the end of the financial year. Other general meetings of shareholders of the Company or of a special Sub-Fund or class of Shares may be held at such time and place as are indicated in the notices of such meetings.

The shareholders of any Sub-Fund or any class of Shares may hold or be convened to, at any time, general meetings to decide on any matters which relate exclusively to such Sub-Fund or class of Shares.

Notices of general meetings and other notices are given in accordance with Luxembourg Law.

If all Shares are in registered form and if no publications are required by any applicable law, convening notices may be mailed by registered mail only or in any manner as set forth in applicable law. If so permitted by law, the convening notice may be sent to a shareholder by any alternative means of communication having been accepted by such shareholder in the manner and conditions described in the Articles.

Notices will specify the place and time of the meeting, the conditions of admission, the agenda, the quorum and voting requirements, including that the quorum and the majority rules of the meeting will be determined in respect of the Shares as issued at 12.00 p.m. Luxembourg time, five days preceding such meeting (referred to as "record date"). The rights of a shareholder to attend a general meeting and to exercise a voting right attaching to his Shares are determined in accordance with the Shares held by the shareholder at the record date. Notices of all meetings shall be sent to holders of registered Shares at their address indicated in the shareholders' register of the Company.

All other notices are sent to registered shareholders and, if required, are published on the Lombard Odier Group website (www.loim.com) and/or published in such newspapers as the Directors may determine. In the case of publication in foreign jurisdictions the Directors may apply the "home country rule" according to which a publication will be made in the relevant jurisdictions as long as such publication is required under Luxembourg law. In the absence of such requirement under Luxembourg law, the Directors may choose not to publish in foreign jurisdictions to the extent that this alternative is permitted under the local laws of the relevant foreign jurisdictions. In addition, the Directors may, given the circumstances and having regard to the interest of the shareholders, adopt complementary means of communication, including the Lombard Odier Group website (www.loim.com), to ensure a prompter and more efficient information of the shareholders.

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, notably the right to participate in general shareholders' meetings if the investor is registered himself and in his own name in the shareholders' register of the Company. Every registered shareholder must provide the Company with an address and for shareholders that have individually accepted being notified via email, an email address, to which all notices and announcements from the Company may be sent. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

The financial year of the Company ends on 30 September of each year. The annual report containing the audited consolidated financial accounts expressed in EUR of the Company in respect of the preceding financial period will be made available at the registered office of the Company at least 8 days before the annual general meeting. Unaudited semi-annual reports as at 31 March will be made available within two months of the end of the relevant date. Copies of all financial reports will be available at the registered office of the Company and from the Foreign Representatives.

The Directors may, at their discretion, decide that information regarding the investments of the Sub-Funds may be available for some or all investors of the Sub-Funds. If this information is only provided to some investors, the Directors will ensure that (i) such investors need the information to comply with legal, regulatory, tax or other mandatory requirements, (ii) investors will keep the information confidential and (iii) investors will not use the information to take advantage of the expertise of the Investment Manager(s) of the Company.

In compliance with the provisions of the 2010 Law, CSSF Regulation 10-4 and CSSF Circular 18/698, the Management Company has implemented and maintains effective certain procedures and strategies including:

- a procedure for the reasonable and prompt handling of complaints received from shareholders: in this context, shareholders are given the opportunity to file complaints free of charge, in the official language(s) of their country of residence, to their respective local representatives or directly to the Management Company using the addresses and contact details provided in Section 1; the latter will take care of handling of clients complaints in the most diligent, transparent and objective manner possible;
- strategies for the exercise, to the exclusive benefit of the Sub-Funds concerned, of voting rights attached to instruments held in the portfolios managed by the Management Company: a summary description of these strategies are available on the Lombard Odier Group website (www.loim.com) and the details of the actions taken on the basis of those strategies can be supplied free of charge to investors upon request made to the Management Company;
- inducements: the essential terms of the arrangements relating to the fees, commissions or non-monetary benefits, the Management Company may receive in relation to the activities of investment management and administration of the Company are disclosed in this Prospectus and/or in periodic reports, as the case may be. Further details can be supplied free of charge to investors upon request made to the Management Company; and
- a procedure relating to the management of conflicts of interest - details of this procedure are available on the Lombard Odier Group website (www.loim.com).

20. APPLICATION PROCEDURE

Provided the conditions set forth in paragraph 12.2 are fulfilled, application may be made by investors by written application to the Company in Luxembourg c/o its Transfer Agent:

CACEIS Bank, Luxembourg Branch
5, allée Scheffer
2520 Luxembourg
Grand Duchy of Luxembourg
Telephone Number: (352) 47 67 59 99
Facsimile Number: (352) 47 67 70 63

The initial minimum investment in Shares is stated in the Annex A.

Shares can only be held by or through FATCA compliant financial institutions listed in paragraph 12.2.

Payment should be made in the Reference Currency or in the Alternative Currency, in the case of Shares issued in an alternative currency, of the relevant Sub-Fund in which Shares are subscribed by a telegraphic transfer in favour of CACEIS Bank, Luxembourg Branch on the following account:

EUR	Direct via TARGET II Swift code: BSUILLXXX Account name: CACEIS Bank, Luxembourg Branch
CHF	UBS Zürich Swift code: UBSWCHZH80A Account number: 02300000060737050000Z IBAN: CH540023023006073705Z
USD	JP Morgan Chase Swift code: CHASUS33 Account name: CACEIS Bank, Luxembourg Branch Account number: 796706786 Chips number: 0002 ABA number: 021000021
GBP	HSBC Bank Plc, International Swift code: MIDLGB22 IBAN: GB63MIDL40051535210915 Sort code: 40-05-15 Account number: 35210915 - CACEISBL
JPY	Bank of Tokyo-Mitsubishi UFJ, Tokyo Swift code: BOTKJPJT Account number: 653-0418285

In compliance with the forward pricing principle, written applications must be received by the Company not later than the Cut-off time. Payment of the Issue Price must be made in full for value 3 Business Days.

Applications and confirmations

- (i) a corporation must execute any application under its common seal or under the hand of a duly authorised officer whose capacity should be stated;
- (ii) if any application or confirmation is signed by proxy, the power of attorney must accompany the application;
- (iii) notwithstanding i) and ii) above, an application, signed by a bank or any other person on behalf of, or purportedly on behalf of, a corporation may be accepted.

General

The right is reserved to reject any application and to accept any application in part only.

The Directors may, at any time and in their discretion, impose restrictions on the issuance of Shares of a Sub-Fund (also resulting from conversion requests) for any period of time. In addition, the Directors may, in their discretion, decide to apply such restrictions to all investors or a determined category of investors. In these cases, the investors whose subscription request has been rejected will be properly informed.

Similarly, the Directors may, at any time and in their discretion, revoke totally or partially any restrictions taken by virtue of the preceding paragraph. In such event, the public may be informed by way of a publication on the Lombard Odier Group website (www.loim.com) of the decision taken by the Board in this respect.

If any application is not accepted in whole or in part, the application monies or the balance thereof will be posted forthwith to the

applicant, at the risk of the person(s) entitled thereto.

The Company reserves the right to withhold Share certificates and, if applicable any excess application monies, pending clearance of the application monies.

The applicant must provide the Global Distributor, the Distributors or the Central Administration Agent with all necessary information which the Global Distributor, the Distributors or the Central Administration Agent may reasonably require to verify the identity of the applicant and his/her eligibility to subscribe or hold Shares. Applicant is required to provide evidence of its status under FATCA by means of any relevant tax documents, such as a "W-8BEN" form of the US Internal Revenue Service (or an equivalent acceptable form, document or certification) that must be renewed on a regular basis according to applicable regulation and/or a global intermediary identification number as the case may be. Failure to do so may result in the Company refusing to accept the subscription for Shares in the Sub-Funds. Applicants must indicate whether they invest on their own account or on behalf of a third party. The Company shall not be held liable for the consequences arising from any delay or rejection of a subscription order resulting from the applicant's failure to produce satisfactory information or documents in a timely fashion.

Pursuant to international rules and Luxembourg laws and regulations comprising, but not limited to, the Luxembourg law of 12 November 2004 on the fight against money laundering and financing of terrorism, as amended, CSSF Regulation 12-02 and circulars of the supervising authority, obligations have been imposed on all professionals of the financial sector to prevent the use of undertakings for collective investment for money laundering and financing of terrorism purposes. As a result of such provisions, the identity of the applicant must be ascertained in accordance with Luxembourg laws and regulations. Consequently, and except for companies who are regulated professionals of the financial sector, bound in their country by rules on the prevention of money laundering equivalent to those applicable in Luxembourg, any applicant applying in its own name is obliged to submit to the Global Distributor, the Distributors or the Central Administration Agent all necessary information which the Global Distributor, the Distributors or the Central Administration Agent may reasonably require to verify the identity of the applicant and in the case of it acting on behalf a third party, of the beneficial owner(s).

Furthermore any such applicant hereby undertakes that it will notify the Global Distributor, the Distributors or the Central Administration Agent prior to the occurrence of any change in the identity of any such beneficial owner. Also, such applicant hereby undertakes that it will notify the Transfer Agent and either the Company or the Management Company of a change of circumstances as further explained in paragraph 13.1 in the manner agreed between the Company and the applicant or disclosed in the Prospectus.

Key investor information document

According to the 2010 Law, the key investor information document must be provided to investors in good time before their proposed subscription for Shares of any Sub-Fund of the Company.

Before investing, investors are invited to visit the Lombard Odier Group website (www.loim.com) and download the relevant key investor information document prior to his/her application. The same diligence is expected from the investor wishing to make additional subscriptions in the future since updated versions of the key investor information document will be published from time to time.

In case of written applications made directly to the Company in Luxembourg c/o its Transfer Agent, the Company and/or its Transfer Agent may require confirmation from the investor that he/she has consulted the relevant key investor information document before subscription.

The above shall apply *mutatis mutandis* in case of conversion.

Personal Data

The Company and the Management Company collect personal data of shareholders in accordance with GDPR as well as with any other applicable data protection laws or regulations to which they are subject (together the "Data Protection Laws").

Shareholders are informed that their personal data (as defined in GDPR) including, without limitation, information about their legal representatives (such as directors, officers, controlling persons, authorized signatories or employees) given in the subscription documents or otherwise in connection with an application to subscribe for Shares, as well as details of their shareholding, will be stored in digital form as well as in hard copies and may be collected, transferred, used or otherwise processed by the Company and Management Company, as well as their employees, officers or agents for achieving the specific purposes detailed hereunder in compliance with the provisions of the Data Protection Laws.

Shareholders must also be aware that telephone conversations with the Management Company, any entity of the Lombard Odier Group, the Depositary and the Central Administration Agent may be recorded. Recordings are considered as personal data and will be conducted in compliance with the Data Protection Laws. Recordings may be produced in court or other legal proceedings with the same value in evidence as a written document.

The processing of personal data is necessary for the following purposes (the "Purposes"):

- (i) for the provision of services to the shareholders such as central administrative and transfer agent services (including the management of subscription, redemption or transfer of Shares, maintaining the register of shareholders' and clients records, shareholders' communications);
- (ii) for compliance with applicable legal and regulatory obligations, including anti-money laundering, client identification or tax reporting obligations (such as, but not limited to, FATCA and CRS as further described below);
- (iii) for the purposes of the legitimate interests pursued by the Company and Management Company (such as communication of information within the Lombard Odier Group to provide the above-mentioned services as well as for client relationship management and internal administrative purposes).

Personal data will only be processed for the Purposes for which it was collected, unless otherwise permitted under the Data Protection Laws.

In order to achieve the above-mentioned Purposes, shareholders should be aware that their personal data may be disclosed to other companies within the Lombard Odier Group, to CACEIS Bank, Luxembourg Branch as Central Administration Agent and Depositary and to any other member of the CACEIS Group and other parties which assist CACEIS Bank, Luxembourg Branch in carrying out its duties to the Company and Management Company. Personal Data may also be disclosed to other delegates, agents and other service providers engaged by the Company and Management Company as well as their employees, officers, agents and to tax, governmental, regulatory authorities when required by applicable laws or regulations.

Personal Data may, in connection with the above Purposes, be transferred outside of the EEA, where data protection laws may provide less protection than the laws of the EU. Reasonable measures are taken to ensure the security and confidentiality of any personal data transmitted. The Management Company and Company will ensure that any party based outside of the EEA to which personal data are disclosed apply an adequate level of protection, either because an adequacy decision has been adopted by the EU Commission in relation to such country or because such transfers will be subject to other appropriate safeguards authorised under EU law. Shareholders acknowledge and agree that the Company, the Management Company and other entities of the Lombard Odier Group limit their liability to the maximum extent permitted under applicable law in respect of personal data being obtained by unauthorised third parties.

The personal data shall be stored during the time required by law. The personal data shall not be held for longer than necessary with regard to the Purposes of the data processing.

In the manner and subject to the limitations prescribed in the Data Protection Laws, shareholders have a right of access, rectification and/or deletion of their personal data in cases where such data is incorrect, incomplete or outdated. Shareholders may also request restrictions in the use of their personal data and request to receive a copy of their personal data. Any request relating to the processing of personal data may be addressed by e-mail to luxembourg-funds@lombardodier.com or by letter at the registered office of the Company. A complaint can also be lodged with the public authority responsible for monitoring the application of GDPR in the relevant Member State. In the Grand Duchy of Luxembourg, the supervisory authority is the CNPD (Commission Nationale pour la Protection des Données).

If the shareholder is not a natural person, it undertakes to inform its legal representatives and beneficial owners about the abovementioned processing of personal data, purposes of the processing, recipients, possible transfer of personal data outside the EEA, retention period and rights in relation to such processing.

Data protection information in the context of CRS processing

By virtue of Chapter 3 of the 2015 Law (see Section 17 / 3. Automatic exchange of information in the field of taxation), the Company will gather and report personal information targeted by and in compliance with the 2015 Law. In this respect, shareholders are informed that:

- the Company is responsible for the treatment of personal data related to them;
- the personal data is gathered with a view to complying with the 2015 Law and serving its purpose,
- the data will be communicated to the Luxembourg tax authorities as well as to the authority of a Jurisdiction Subject to Reporting (as such term is defined in the 2015 Law);
- answer to questions asked by the Company or its delegate/agent is mandatory and, failing to provide the appropriate answer, the Company may reject any order submitted by the shareholders or proceed to the compulsory redemption of the Shares held by the shareholders;
- the shareholders concerned by the above measures have a right to access the data communicated to the Luxembourg tax authority and rectify such data.

ANNEX A: SUB-FUNDS OFFERED FOR SUBSCRIPTIONS

1. LO Perspective – Aneto

Abbreviated name: LOP – Aneto

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 10% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes such as, but not limited to, precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

No more than 90% of the Sub-Fund's net assets may be invested in equities or equity related securities.

No more than 30% of the Sub-Fund's net assets may be invested in convertible bond securities

No more than 20% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

- for hedging purposes Yes
- for EPM Yes
- as part of the investment strategy No

The use of financial derivative instruments may result in a higher level of leverage and increase the overall risk exposure of the Sub-Fund and the volatility of its Net Asset Value (please refer to the Risk Factors Annex).

The attention of investors is drawn to the Risk Factors Annex which sets out the risk factors applicable to the Sub-Fund.

SFDR Disclosure

The manner in which the Investment Manager integrates sustainability risks into its investment decisions in respect of the Sub-Fund and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund are set out in the SFDR Annex.

Investment Manager

See paragraph 6.3

Approach used to calculate the Global Exposure of the Sub-Fund

Commitment approach

Profile of Typical Investor

The Sub-Fund may be appropriate for investors who:

- seek capital appreciation over the long-term;
- are willing to take on the increased risks associated with the classes of assets described in the investment objective and policy; and
- can withstand volatility in the value of their Shares.

Application procedure

Investors should refer to the table under Section 12 "Issue and sale of Shares" of the Prospectus which sets out the Cut-off time, Valuation Day and Payment Date applicable for subscription in the Sub-Fund.

Application monies are to be sent in accordance with the application procedure set out in Section 20 of the Prospectus.

2. LO Perspective – Noise

Abbreviated name: LOP – Noise

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 10% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes, such as but not limited to precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

No more than 80% of the Sub-Fund's net assets may be invested in equities or equity related securities.

No more than 20% of the Sub-Fund's net assets may be invested in convertible bond securities.

No more than 30% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

Abbreviated name: LOP – Edelweiss

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 20% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes, such as but not limited to precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

No more than 90% of the Sub-Fund's net assets may be invested in equities or equity related securities.

No more than 30% of the Sub-Fund's net assets may be invested in convertible bond securities

No more than 20% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

- | | |
|--------------------------------------|-----|
| • for hedging purposes | Yes |
| • for EPM | Yes |
| • as part of the investment strategy | No |

The use of financial derivative instruments may result in a higher level of leverage and increase the overall risk exposure of the Sub-Fund and the volatility of its Net Asset Value (please refer to the Risk Factors Annex).

The attention of investors is drawn to the Risk Factors Annex which sets out the risk factors applicable to the Sub-Fund.

The manner in which the Investment Manager integrates sustainability risks into its investment decisions in respect of the Sub-Fund and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund are set out in the SFDR Annex.

Investment Manager

See paragraph 6.3

Approach used to calculate the Global Exposure of the Sub-Fund

Commitment approach

Profile of Typical Investor

The Sub-Fund may be appropriate for investors who:

- seek capital appreciation over the long-term;
- are willing to take on the increased risks associated with the classes of assets described in the investment objective and policy; and
- can withstand volatility in the value of their Shares.

Application procedure

Investors should refer to the table under Section 12 "Issue and sale of Shares" of the Prospectus which sets out the Cut-off time, Valuation Day and Payment Date applicable for subscription in the Sub-Fund.

Application monies are to be sent in accordance with the application procedure set out in Section 20 of the Prospectus.

7. LO Perspective – Seehof

Abbreviated name: LOP – Seehof

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 20% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes, such as but not limited to precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

The Sub-Fund's net assets may be fully invested in equities or equity related securities.

No more than 10% of the Sub-Fund's net assets may be invested in convertible bond securities

No more than 20% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

- | | |

Commitment approach

Profile of Typical Investor

The Sub-Fund may be appropriate for investors who:

- seek potential capital appreciation over the long-term;
- are willing to take on the increased risks associated with the classes of assets described in the investment objective and policy; and
- can withstand volatility in the value of their Shares.

Application procedure

Investors should refer to the table under Section 12 "Issue and sale of Shares" of the Prospectus which sets out the Cut-off time, Valuation Day and Payment Date applicable for subscription in the Sub-Fund.

Application monies are to be sent in accordance with the application procedure set out in Section 20 of the Prospectus.

12. LO Perspective – Mont Ventoux

Abbreviated name: LOP – Mont Ventoux

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 15% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes, such as but not limited to precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

The Sub-Fund may be fully invested in equities or equity related securities.

No more than 10% of the Sub-Fund's net assets may be invested in convertible bond securities.

No more than 20% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

Exposure to Emerging Markets may reach 25% of the Sub-Fund's net assets.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

- | | |
|--------------------------------------|-----|
| • for hedging purposes | Yes |
| • for EPM | Yes |
| • as part of the investment strategy | No |

The use of financial derivative instruments may result in a higher level of leverage and increase the overall risk exposure of the Sub-Fund and the volatility of its Net Asset Value (please refer to the Risk Factors Annex).

The attention of investors is drawn to the Risk Factors Annex which sets out the risk factors applicable to the Sub-Fund.

Abbreviated name: LOP – Alpe d'Huez

Investment Objective and Policy

The objective of this Sub-Fund is to achieve capital appreciation over the long term by investing either directly or through units of UCITS or UCIs in a diversified portfolio consisting of (i) equity and equity equivalent securities, (ii) fixed-rate and floating rate debt securities including non-investment grade bonds, convertible bonds, bonds with attached warrants, (iii) financial derivative instruments and OTC derivatives exposed to any of the above investments as well as to commodities via eligible indices, (iv) currencies (including Emerging Market currencies) and (v) in accordance with the applicable diversification rules, in Cash and Cash Equivalents (including short-term ABS/MBS which may represent up to 10% of investments in Cash and Cash Equivalents).

The Investment Manager uses its discretion with regard to the selection of issuers, countries (including Emerging Markets), sectors, asset classes, eligible assets, size of companies and currencies (including Emerging Markets currencies).

The Sub-Fund is actively managed without reference to a benchmark.

No more than 20% of the Sub-Fund's net assets may be invested in units of UCITS or UCIs following alternative strategies and/or be exposed to alternative asset classes, such as but not limited to precious metals either through indices (including commodity and volatility indices) (the "Indices") or other eligible securities. Indices will comply with the conditions of article 9 of the Grand-Ducal Regulation dated 8 February 2008.

The Sub-Fund's net assets may be fully invested in equities or equity related securities.

No more than 30% of the Sub-Fund's net assets may be invested in convertible bond securities.

No more than 20% of the Sub-Fund's net assets may be invested in debt securities graded below BBB- or equivalent by the rating agencies described in paragraph 3.2 of the Prospectus or of equivalent quality in the opinion of the Investment Manager.

Exposure to Emerging Markets may reach 50% of the Sub-Fund's net assets.

The Sub-Fund may be fully invested in units of eligible UCITS or UCIs and/or, on a temporary basis, in Cash and Cash Equivalents.

Financial derivative instruments will be used (i) to take long and short positions on currencies (OECD currencies, non OECD currencies and/or Emerging Market currencies) and/or (ii) to increase or reduce the Sub-Fund's exposure to specific asset classes and securities (i.e. single stocks), markets (including Emerging Markets) and Indices.

For this purpose and subject to the limits permitted by the Investment Restrictions described in Section 4 of the Prospectus, the Investment Manager is authorized to use financial derivative instruments (in particular, but not limited to futures, forwards, credit (including CDS), interest rate, inflation, currency and volatility derivatives):

- | | |
|--------------------------------------|-----|
| • for hedging purposes | Yes |
| • for EPM | Yes |
| • as part of the investment strategy | No |

The use of financial derivative instruments may result in a higher level of leverage and increase the overall risk exposure of the Sub-Fund and the volatility of its Net Asset Value (please refer to the Risk Factors Annex).

The attention of investors is drawn to the Risk Factors Annex which sets out the risk factors applicable to the Sub-Fund.

SFDR Disclosure

The manner in which the Investment Manager integrates sustainability risks into its investment decisions in respect of the Sub-Fund and the results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund are set out in the SFDR Annex.

Investment Manager

See paragraph 6.3

Approach used to calculate the Global Exposure of the Sub-Fund

Commitment approach

Profile of Typical Investor

The Sub-Fund may be appropriate for investors who:

- seek potential capital appreciation over the long-term;
- are willing to take on the increased risks associated with the classes of assets described in the investment objective and policy; and
- can withstand volatility in the value of their Shares.

Application procedure

Investors should refer to the table under Section 12 "Issue and sale of Shares" of the Prospectus which sets out the Cut-off time, Valuation Day and Payment Date applicable for subscription in the Sub-Fund.

Application monies are to be sent in accordance with the application procedure set out in Section 20 of the Prospectus.

ANNEX B: RISK FACTORS

Summary

The list of risk factors detailed below does not claim to be an exhaustive description of the risks involved in investing in the Sub-Funds' Shares. Before deciding to subscribe to or purchase Shares, potential investors should read the whole Prospectus carefully and contact their professional advisers to understand the fiscal and other consequences of such an investment based on their personal situation.

Past performance is no guarantee for future returns and the investor may consequently get back less than he/she invested. There is no assurance that the investment objective of the Sub-Funds will actually be achieved or that any appreciation in the value of the assets will occur.

The table below is a summary of the main risks relating to the core portfolio of each Sub-Fund as of the date of the Prospectus. It is not a rigid and exhaustive list of all the potential risks. Investors should bear in mind that risks are interrelated and that the Sub-Funds can be sensitive to any of the risk factors, especially in turbulent market conditions.

Summary of main risks																
Sub-Funds	Risks															
	General	Equities	Small and Medium Sized Capitalisations	Fixed-Income Securities	Currencies	Below Investment Grade and Distressed Securities	Convertible Securities	Commodities	Undertakings for Collective Investments (above 10%)	Emerging Markets	Russian Registration / Investments in Russia	Regional or sectorial concentration	Derivatives (Hedging / Efficient Portfolio Mgt)	Derivatives (Investment Strategy)	Model	SFIs

General

General risks may become correlated in a harmful manner in particular when the Sub-Funds do not face normal market conditions. Therefore, in turbulent market times an increase of one of those risks may not only increase the Sub-Funds exposure to other general risks but may also trigger other risks.

Credit Risks

Credit risk is a general risk that applies to all investments. It is the risk of loss due a debtor's non-payment of a loan or other obligation (either the principal or interest or both). For the Sub-Funds, the debtor may be either the issuer of an underlying security (the "issuer risk") or the counterparty to a transaction, such as an OTC derivative contract, a repurchase or reverse repurchase agreement or a loan of portfolio securities (the "counterparty risk"). The debtor may be a government (the "sovereign risk"). Credit risk is also the risk of loss due to a credit event, other than the debtor's default of payment, such as, but not limited to, the downgrading of a debtor's credit rating or the rescheduling of a debtor's debt.

Issuer risk - If an issuer of an underlying fixed income or equity security defaults, the concerned Sub-Fund may lose the full amount invested in such security.

Counterparty risk - The Sub-Funds may effect "over-the-counter" transactions or deal in "interdealer" markets. This exposes the Sub-Funds to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Sub-Funds to suffer a loss which may correspond to the full amount exposed with such counterparty. Such "counterparty risk" is accentuated for contracts with longer maturities where events may intervene to prevent settlement, or where the Sub-Funds have concentrated their transactions with a single or small group of counterparties.

Sovereign risk - Where the issuer of the underlying fixed income security is a government or other sovereign issuer, there is a risk that such government is unable or unwilling to meet its obligations, therefore exposing the concerned Sub-Fund to a loss corresponding to the amount invested in such security.

Systemic risk - Credit risk may also arise through a default by one of several large institutions that are dependent on one another to meet their liquidity or operational needs, so that a default by one institution causes a series of defaults by the other institutions. This is sometimes referred to as a "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges, with which the Sub-Funds interacts on a daily basis.

Market and Volatility Risks

Market risk is a general risk that applies to all investments. It is the risk that the value of an investment will decrease due to moves in market factors such as exchange rate, interest rate, equity or volatility.

Volatility risk is the likelihood of fluctuations in prices, rates or currencies quoted on different markets. Volatility may impact the Net Asset Value of the Sub-Funds in several ways. As market volatility increases so does the volatility of the Net Asset Value per Share.

Interest Rate Risk

Interest rate risk is the risk that the value of an investment will decrease, due to the variability of interest rates. When interest rates tend to rise, the value of debt securities tend to fall, as does the Net Asset Value per Share of the Sub-Funds invested in debt securities. Securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is a measure of sensitivity of the price (the value of principal) of a fixed-income investment to a change in interest rates.

Exchange Rate Risk

Exchange rate risk is a general risk that applies to all Sub-Funds investing in assets in a currency other than the Reference Currency (the "foreign currency"). It is the risk that the value of those assets will decrease, as will the Net Asset Value of the Sub-Funds, due to unfavorable exchange rates. If the currency in which a security is denominated appreciates against the Reference Currency, the value of the security will increase. Conversely, a decline in the exchange rate of the currency would adversely affect the value of the security. Currency risks are proportional to the amount of assets of each Sub-Fund held in foreign currencies.

The Sub-Funds may offer classes of Shares in an Alternative Currency. Changes in the exchange rate between the Reference Currency and such Alternative Currency may lead to a depreciation of the value of such Shares as expressed in the Alternative Currency. Even when the exchange rate risk is hedged, there can remain a residual exchange rate risk. Although hedging strategies may not necessarily be used in relation to each class of Share with a Sub-Fund, the financial instruments used to implement such strategies shall be assets/liabilities of the Sub-Fund as a whole (no segregation between classes within a Sub-Fund).

Liquidity Risk

Liquidity risk is the risk that a given asset cannot be traded quickly enough without affecting the price of the asset. In normal market conditions, liquidity risk is low as the Sub-Funds may only invest in eligible assets mentioned in paragraph 4.1 of the Prospectus. In turbulent market times however, low-volume markets make it difficult for the Sub-Funds to sell their assets at their fair price or to sell them at all. Should the Sub-Funds face large redemption requests in turbulent market times, the Directors may take appropriate measures to protect shareholders interests.

Reinvestment Risk

The risk that future coupons from a bond will not be reinvested at the prevailing interest rate when the bond was initially purchased. Reinvestment risk is more likely when interest rates are declining. Reinvestment risk affects the yield-to-maturity of a bond, which is calculated on the premise that all future coupon payments will be reinvested at the interest rate in effect when the bond was first purchased. Zero coupon bonds are the only fixed-income instruments to have no reinvestment risk, since they have no interim coupon payments.

Maturity Extension Risk

The risk that a perpetual bond is not called at a pre-specified callable date, and thus forcing the investor to sell the bond in the open market, potentially at a below-par value, should he desire to get the principal paid back immediately.

Unlisted and/or Illiquid Securities Risks

The Sub-Funds may invest or hold a limited part of its net assets (max 10%) in securities that are not (or no longer) listed on exchanges or on a Regulated Market or which may be considered illiquid due to the lack of an active trading market. The Sub-Funds may encounter substantial delays and could incur losses in attempting to sell such securities. Where appropriate, positions in a Sub-Fund's portfolio that are illiquid and do not actively trade will be marked to market, taking into account current market prices, market prices of comparable investments and/or such other factors (e.g. the tenor of the respective instrument) as may be appropriate. To the extent that marking an illiquid investment to market is not practicable, an investment will be carried at fair value, as reasonably determined by the Directors or their delegate. There is no guarantee that fair value will represent the value that will be realized by the Sub-Fund on the eventual disposition of the investment or that would, in fact, be realized upon an immediate disposition of the investment. As a result, an investor redeeming his/her Shares from the Sub-Fund prior to realization of such an investment may not participate in gains or losses thereof.

Large Redemption Risk

Large redemptions of Shares in any of the Sub-Funds within a limited period of time might result in the concerned Sub-Fund being forced to liquidate positions more rapidly than would otherwise be desirable, adversely affecting the value of both the Shares being redeemed and the remaining outstanding Shares.

Hedging Transactions Risk

The Sub-Funds may hold financial instruments, both for investment purposes and for hedging or EPM purposes. The success of the Sub-Funds' or Share classes' hedging strategy will depend, in part, upon the Investment Manager's ability correctly to assess the degree of correlation between the performance of the instruments used in the hedging strategy and the performance of the portfolio investments being hedged. Since the characteristics of many securities change as markets change or time passes, the success of the Sub-Funds' or Share classes' hedging strategy will also be subject to the Investment Manager's ability to continually recalculate, readjust and execute hedges in an efficient and timely manner. While the Sub-Funds or Share classes may enter into hedging transactions to seek to reduce risk, such transactions may result in a poorer overall performance for the Sub-Funds or Share classes than if it had not engaged in such hedging transactions. For a variety of reasons, the Investment Manager may not seek to establish a perfect correlation between the hedging instrument utilised and the portfolio holdings being hedged. Such an imperfect correlation may prevent the Sub-Funds or Share classes from achieving the intended hedge or expose the Sub-Funds or Share classes to risk of loss. The Investment Manager may not hedge against a particular risk because it does not regard the probability of the risk occurring to be sufficiently high as to justify the cost of the hedge, or because it does not foresee the occurrence of the risk.

SFIs Risk

SFIs are subject to the risks associated with the underlying investments. Investments in SFIs may entail the risk of loss of principal and/or interest payment as a result of movements in the underlying investments. As such underlying investments may combine financial derivative instruments, SFIs may be subject to greater volatility than direct investments in fixed income and equity securities. In addition, investments in SFIs will expose the Sub-Funds to the credit risk of the counterparty issuing the SFI. In the event of a bankruptcy or insolvency of such counterparty or when the Financial Institutions issuing such SFIs are facing difficult market conditions, the Sub-Funds may experience delays in liquidating the positions and significant losses as a result of declines in value of the SFIs. The SFIs also entail liquidity risk, as they may not be as liquid as their underlying assets, depending on the market conditions.

Fiscal Risk

Investors should note in particular that the proceeds from the sale of securities in some markets or the receipt of any dividends or other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source. Tax law and practice in certain countries into which the Sub-Funds invest or may invest in the future cannot be definitively established. It is possible therefore that the current interpretation of the law or understanding of practice might change, or that the law might be changed retroactively. It is therefore possible that the Sub-Funds could become subject to additional taxation in such countries where this is not anticipated either at the date of the Prospectus or when investments are made, valued or disposed of.

Administrative Agent and Depositary Risk

The Sub-Funds' operations are carried out by the service providers described in the Prospectus. In the event of bankruptcy or insolvency of a service provider, investors could experience delays (for example, delays in the processing of subscriptions, conversions and redemption of Shares) or other disruptions.

The Sub-Funds' assets are held in custody by the Depositary and the duly appointed sub-custodians, which expose the Sub-Funds to risks of loss associated to the depositary function if (1) the Depositary/sub-custodian fails to perform its duties (improper performance) and (2) if the Depositary/sub-custodian defaults.

Performance Risk in respect of the use of EPM techniques

While the Sub-Funds seek to generate additional revenues, the overall performance of the Sub-Funds employing such techniques may be adversely affected in the event that one of the risks mentioned above materializes and leads to a loss.

Operational Risk

Operational risk is a general risk that applies to all Sub-Funds when carrying operations on behalf of these Sub-Funds as part of their respective investment policy. Such risk materializes through operational errors which includes, *inter alia*, trading errors and similar human errors, such as keystroke errors that occur when entering trades into an electronic trading system or typographical or drafting errors related to derivatives contracts or similar agreements. The Management Company or, as the case may be the Investment Manager(s), their members, directors, shareholders, officers, employees and affiliates, their respective legal representatives (each, an "Indemnified Party"), shall not be liable to the Company or its shareholders for any losses resulting from operational errors, except such losses resulting from fraud, wilful default or negligence of the Indemnified Party. The foregoing provisions shall not be construed to relieve any Indemnified Party of any liability, to the extent that such liability may not be waived, modified or limited under applicable law, but shall be construed so as to effectuate these provisions to the fullest extent permitted by law and regulations.

Regulatory Risks - General

Due to numerous regulatory reforms currently undertaken, there is a risk that the investment policy of the Sub-Funds may be affected and that further restrictions may limit the ability of the Sub-Funds to hold certain instruments or enter into certain transactions and impair the Sub-Funds' capability of achieving their initial respective investment objectives. In order to comply with new or modified laws, rules and regulations it cannot be excluded that restructuring or termination of a given Sub-Fund may be necessary and additional costs may be incurred. A non-exhaustive list of potential regulatory changes in the EU and the United States of America are listed below.

Regulatory Risks - EU

The EU is currently addressing the following topics (list not exhaustive):

- the consultation initiated by the European Commission on product rules, liquidity management, depositary, money market funds, long-term investments in view to another UCITS directive ("UCITS VI Directive");
- specific matters relating to UCITS and dealt with by ESMA - the role of ESMA is to achieve greater consistency in day to day application of EU legislation in the security markets field and it plays an active role in building a common EU supervisory culture and consistent supervisory practice, including by providing opinions and issuing guidelines and recommendations which are a central reference for the work of national regulators; and
- the proposal for the EU Financial Transaction Tax ("EU FTT").

Regulatory Risks - United States of America

Regulators in the United States are taking or have taken actions on the following topics (list not exhaustive)

- the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") imposed the so-called "Volcker Rule" which restricts, "banking entities" and "non-bank financial companies" from engaging in certain activities, such as proprietary trading and investing in, sponsoring, or holding interests in investment funds;
- the Hiring Incentives to Restore Employment Act (the "Hire Act") was signed into US law in March 2010. It includes provisions on FATCA. The purpose of FATCA is to reduce tax evasions by US citizens by having details of US investors holding assets outside the US reported by FFIs to the US Internal Revenue Service. As a result of the Hire Act, and to discourage FFIs from staying outside this regime, all US securities held by a financial institution that does not enter and comply with the regime will be subject to a US tax withholding of 30% on gross sales proceeds as well as income (the "FATCA Withholding"). This regime has become effective in phases between 1 July 2014 and 2017. On 28 March 2014, the US and the Grand Duchy of Luxembourg entered into a model 1 intergovernmental agreement ("IGA") and a memorandum of understanding in respect thereof in order to facilitate the compliance with the provisions of FATCA. On 29 July 2015, the law of 24 July 2015 approving the IGA between the Grand Duchy of Luxembourg and the US was published (the "FATCA Luxembourg Law"). The Company, through its Sub-Funds, qualifies as a FFI. According to FATCA, the IGA and the FATCA Luxembourg Law, a FFI can qualify as either a "reporting" FFI or a "non-reporting" FFI. Depending on the status of "reporting" or "non-reporting" FFI attributable to the Company, it may be obliged to require all shareholders to provide mandatory documentary evidence of their tax residence and report certain data to the Luxembourg authority on reportable accounts and/or impose restrictions on the offering and selling of Shares to certain categories of investors with no duty to report or withhold on US source gross sales proceeds or income (see paragraph 12.2). It should also be noted that although the Company will make all reasonable efforts to comply with all FATCA obligations, no assurance can be given that it will be able to satisfy such obligations and therefore avoid the FATCA Withholding which may have adverse impact on all Shareholders. Investors are further advised to consult their own legal and tax advisor regarding the possible implications of FATCA on their investment in the Company.

Dilution Risk

Investors may reasonably expect to incur costs caused by an investment manager's trading activities in pursuit of the investment objectives of the Sub-Fund but may not reasonably expect to suffer a reduction in shareholder value (dilution) influenced by other shareholders excessively trading into or out of the Sub-Fund causing the Sub-Fund to significantly invest/disinvest in securities or markets.

Dilution can occur, for example, due to:

- buying securities at a higher offer-price;
- selling securities at a lower bid-price;
- increased explicit transaction costs including brokerage fees, commissions and taxes
- market impacts as a result of purchasing or selling down securities due to the effects on the supply and demand curves of those securities in the market.

Anti-dilution mechanisms such as Swing Pricing purport to provide reasonable protection to existing shareholders in a Sub-Fund against the negative dilution impact on the NAV occurring when a Sub-Fund invests/disinvests in securities or markets as a result of shareholder activity. This is achieved by transferring the estimated dilution impact to those shareholders who are subscribing or redeeming.

However, it should be noted that the application of anti-dilution mechanisms may not completely cancel out the adverse effects on the Sub-Fund's NAV caused by shareholder activity, especially during stressed market conditions. It should also be noted that a Sub-Fund's short-term performance may experience greater volatility as a result of the anti-dilution mechanisms.

Sustainability Risk

Sustainability risks mean an environmental, social, or governance event or condition that, if it occurs, could potentially or actually cause a material negative impact on the value of a Sub-Fund's investment. Sustainability risks can either represent a risk of its own or have an impact on other risks and may contribute significantly to risks, such as market risks, operational risks, liquidity risks or counterparty risks.

Assessment of sustainability risks is complex and may be based on ESG data which is difficult to obtain and incomplete, estimated, out of date or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed.

The integration of sustainability risks in the investment decision process may have the effect of excluding profitable investments from the investment universe of the Sub-Funds and may also cause the Sub-Funds to sell investments that will continue to perform well.

Appreciation of sustainability risk is to a degree subjective and there is no guarantee that all investments made by the Sub-Funds will reflect beliefs or values of any particular investor on sustainable investments.

Sustainability risks can manifest themselves in different ways and can lead to a significant deterioration in the financial profile, profitability or reputation of an underlying investment and thus may materially impact its market price or liquidity.

The results of the assessment of the likely impacts of sustainability risks on the returns of the Sub-Fund is set out in the SFDR Annex.

Risk factors specific to certain sub-funds

Equity Risks

The risks associated with investment in equity (and equity-like) securities include significant fluctuations in market prices, adverse issuer or market information and the subordinate status of equity in relation to debt paper issued by the same company. Prices of equities fluctuate daily and can be influenced by many micro and macro factors such as political and economic news, corporate earnings reports and catastrophic events. The value of equities will go up and down and the value of a Sub-Fund investing in equities could incur significant losses.

Sub-Funds may invest in initial public offerings ("IPOs"). There is a risk that the price of the newly floated share may incur greater volatility as a result of factors such as the absence of an existing public market, non-seasonal transactions, a limited number of securities that can be traded and a lack of information about the issuer.

Small and Medium-Sized Capitalisation Risk

Stocks of small-to medium-sized capitalisation companies often traded on OTC markets may be less liquid than those listed on the major securities exchanges. Consequently, securities of small and even medium-sized cap companies may, from time to time, and especially in falling markets, become illiquid and experience short-term price volatility and wide spreads between bid and offer prices. The combination of price volatility and the limited liquidity of those markets may have an adverse effect on the investment performance of the Sub-Funds. Further the risk of bankruptcy or insolvency of many smaller companies is higher than that of larger, "blue chips", companies.

Fixed Income Securities Risks

The risks associated with investment in bonds or others fixed income securities include credit, liquidity, interest rate risks, reinvestment risks and maturity extension risks.

Currency Risk

The Sub-Funds may be exposed to currency exchange risk. The Sub-Funds may invest in currencies different from their Reference Currency. Accordingly, the value of an investment may be affected favourably or unfavourably by fluctuations in exchange rates, notwithstanding any efforts made to hedge such fluctuations. In addition, prospective investors whose assets and liabilities are primarily denominated in currencies other than the Reference Currency of a Sub-Fund should take into account the potential risk of loss arising from fluctuations in the rate of exchange between the Reference Currency of the Sub-Fund and such other currency. Currency exchange rates may fluctuate significantly over short periods of time. They generally are determined by supply and demand in the currency exchange markets and the relative merits of investments in different countries, actual or perceived changes in interest rates and other complex factors. Currency exchange rates also can be affected unpredictably by intervention (or the failure to intervene) by relevant governments or central banks, or by currency controls or political developments. Some currencies are not freely convertible currency.

Furthermore, a Sub-Fund may incur costs in connection with conversions between various currencies. Currency exchange dealers realise a profit based on the difference between the prices at which they are buying and selling various currencies. Thus, a dealer normally will offer to sell currency to the Sub-Fund at one rate, while offering a lesser rate of exchange should the Sub-Fund desire immediately to resell that currency to the dealer. The Sub-Fund will conduct its currency exchange transactions either on a spot (*i.e.* cash) basis at the spot rate prevailing in the currency exchange market, or through entering into forward or options contracts to purchase or sell non-Reference Currency currencies. It is anticipated that most of the Sub-Funds' currency exchange transactions will occur at the time securities are purchased and will be executed through the local broker or the Depositary.

Investors should also be aware that since 2005, the RMB exchange rate is no longer pegged to the USD. RMB has now moved to a managed floating exchange rate based on market supply and demand with reference to a basket of foreign currencies. The daily trading price of the RMB against other major currencies in the inter-bank foreign exchange market is allowed to float within a narrow band around the central parity published by the People's Republic of China. RMB convertibility from offshore RMB (CNH) to onshore RMB (CNY) is a managed currency process subject to foreign exchange control policies of and repatriation restrictions imposed by the Chinese government in coordination with the Hong Kong Monetary Authority (HKMA). The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions. Since 2005, foreign exchange control policies pursued by the Chinese government have resulted in the general appreciation of RMB (both CNH and CNY). This appreciation may or may not continue and there can be no assurance that RMB will not be subject to devaluation at some point. The offshore RMB (CNH) market allows investors to freely transact CNH outside of mainland China with approved banks in the Hong Kong market (HKMA approved banks). There will be no requirement to remit CNH to onshore RMB (CNY).

Below Investment Grade Risk and Distressed Securities Risk

Investment in debt securities or associated instruments rated BB or below (following Fitch, S&P, Moody's or equivalent), or of equivalent quality in the opinion of the Investment Manager, can involve additional risks. Securities rated BB or equivalent are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and principal or maintain other terms of the offer documents over any long period of time. Whilst such issues are likely to have some quality and protective characteristics, these are outweighed by large uncertainties or major risk exposure to adverse economic conditions. Securities rated lower than B, and in particular distress obligations, are most of the time issued by companies in weak financial condition, experiencing poor operating results, having substantial capital needs or negative net worth, facing special competitive or product obsolescence problems, including companies involved in bankruptcy or other reorganisation and liquidation proceedings. These obligations are likely to be particularly risky investments although they also may offer the potential for correspondingly high returns. They are generally unsecured and may be subordinated to certain other outstanding securities and obligations of the issuer. Non-investment grade debt securities may not be protected by financial covenants or limitations on additional indebtedness. The ability of such companies to pay their debts on schedule could be affected by adverse interest rate movements, changes in the general economic climate, economic factors affecting a particular industry or specific developments within such companies. Among the risks inherent in investments in troubled entities is the fact that it frequently may be difficult to obtain information as to the true condition of such issuers. Such investments may also be adversely affected by laws relating to, among other things, fraudulent transfers and other voidable transfers or payments, lender liability, and the bankruptcy court's power to disallow, reduce, subordinate, recharacterise debt as equity or disenfranchise particular claims. There is no assurance that value of the assets collateralising the Company's investments will be sufficient or that prospects for a successful reorganisation or similar action will become available. In any reorganisation or liquidation proceeding relating to a company in which the Company invests, the Company may lose its entire investment, may be required to accept cash or securities with a value less than its original investment and/or may be required to accept payment over an extended period of time. Under such circumstances, the returns generated from the Company's investments may not compensate the shareholders adequately for the risks assumed.

In addition evaluating credit risk for debt securities involves uncertainty because credit rating agencies throughout the world have different standards, making comparison across countries difficult. Also, the market for credit spreads is often inefficient and illiquid, making it difficult to accurately calculate discounting spreads for valuing financial instruments.

Convertible Securities Risk

Convertible securities are bonds, debentures, notes, preferred stocks or other securities that may be converted into or exchanged for a specified amount of common stock of the same or different issuer within a particular period of time at a specified price or formula. A convertible security entitles the holder to receive interest that is generally paid or accrued on debt or a dividend that is paid or accrued on preferred stock until the convertible security matures or is redeemed, converted or exchanged. Convertible securities generally (i) have higher yields than common stocks, but lower yields than comparable non-convertible securities, (ii) are less subject to fluctuation in value than the underlying common stock due to their fixed-income characteristics and (iii) provide the potential for capital appreciation if the market price of the underlying common stock increases. The value of a convertible security is a function of its "investment value" (determined by its yield in comparison with the yields of other securities of comparable maturity and quality that do not have a conversion privilege) and its "conversion value" (the security's worth, at market value, if converted into the underlying common stock). A convertible

security generally will sell at a premium over its conversion value by the extent to which investors place value on the right to acquire the underlying common stock while holding a fixed-income security. Generally, the amount of the premium decreases as the convertible security approaches maturity. A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security held by a Sub-Fund is called for redemption, the Sub-Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party. Any of these actions could have an adverse effect on the Sub-Funds.

Commodity Risk

Though the Company is prohibited to make investments in, or enter into transactions involving commodities, commodities contracts, or certificates representing commodities, they may seek to be exposed to commodities via units of UCI, equity securities or index based derivative instruments. Prices of commodities are influenced by, among other things, various macro economic factors such as changing supply and demand relationships, weather conditions and other natural phenomena, agricultural, trade, fiscal, monetary, and exchange control programmes and policies of governments and other unforeseeable events. The prices of commodities may be highly volatile.

UCIs Risk

Underlying UCIs in which a Sub-Fund may invest may be valued by administrators resulting in valuations which are not verified by an independent third party on a regular or timely basis. Accordingly there is a risk that (i) the valuations of the Sub-Fund may not reflect the true value of underlying investment vehicles holdings held by the Sub-Fund at a specific time which could result in losses or inaccurate pricing for the Sub-Fund and/or (ii) the valuations may not be available on the Valuation Day so that some of the assets of the Sub-Fund may be valued on an estimated basis.

For some of these underlying UCIs, the custodian may be a broker instead of a bank. Such brokers do not, in some cases, have the same credit rating as a bank. Moreover, the legislation applicable to underlying UCIs may provide that the custodian's duties be limited to the custody of assets and will not include supervisory duties similar to those which must be carried out by a custodian of a Luxembourg UCI.

Furthermore, some of these underlying UCIs may have auditors that do not use monitoring measures similar to those required for the Luxembourg investment funds.

Emerging Market Risk

General - In Emerging Markets, to which the Sub-Funds may be exposed, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their counterparties. Some markets carry significant risks for investors who should therefore ensure that, before investing, they understand the relevant risks and are satisfied that an investment is suitable. Such risks may include (i) increased risk of nationalisation, expropriation of assets, forced mergers of companies, creation of government monopolies, confiscatory taxation or price controls; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity, low trading volumes and smaller capitalisation of securities markets; (v) greater volatility in currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on repatriation of invested capital and on the ability to exchange local currencies for any major currency and/or restriction on the buying or selling by foreign investors; (viii) increased likelihood of governmental decisions to cease support of economic reform programmes or to impose centrally planned economies; (ix) differences in accounting, auditing and financial reporting standards, methods, practices and disclosures which may result in the unavailability or incompleteness or tardiness of material information about issuers; (x) less extensive regulation of the securities markets; (xi) longer settlement periods for securities transactions and less reliable clearance and custody arrangements; (xii) less protection through registration of assets; (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and protection of shareholders and (xiv) less formalised procedures for corporate actions (no central source of identification, no formal notification) and proxy voting.

Exchange Rate Fluctuations Risk - In accordance with the investment objectives of certain Sub-Funds, the assets will be invested primarily in securities of companies in developing countries and substantially all income will be received by these Sub-Funds in currencies of such countries. A number of the currencies of developing countries have already experienced and could experience significant declines against the major currencies in recent years and devaluation may occur suddenly. Where possible, hedging strategies will be implemented but they cannot totally eliminate unfavorable currency fluctuations. Some currencies are not freely convertible currencies.

Custody Risk - The Company may also have to utilise local service providers for the safekeeping of the assets and for the execution of securities transactions. Although the Company intends to use only the best-qualified service providers in each of the markets concerned, the choice of providers in some emerging countries may be very limited. These providers may not offer guarantees comparable to those given by firms operating in developed countries. Accordingly, the quality of the services that the Company may obtain with regard to the execution of transactions on securities and their custody may be less reliable.

Settlement and Trading Risk - Settlement systems in Emerging Markets may be less well organized than in developed markets. Emerging Markets may not employ true Delivery versus Payment. Thus, there may be risks that settlement may be delayed and that cash or securities of these Sub-Funds may be in jeopardy because of failures of or defects in the systems. In particular, market practice may require that payment be made prior to receipt of

the security which is being purchased or that delivery of a security must be made before payment is received. Exchanges on Emerging Markets may not have a settlement guarantee fund in case of temporary securities or cash shortfalls or in the event of a counterparty default or broker malpractice. The Company will seek, where possible, to use counterparties whose financial status is such that the risk of default is reduced, but the risk of losses resulting from default cannot be totally eliminated. Some markets may have specific trading restrictions.

Registration of Securities - In some countries, there is no recognition of "nominee" ownership. Registration must be done with the issuer in the final beneficial owner's name.

Regulatory Risk - Many of the laws that govern private and foreign investment, equity securities transactions and other contractual relationships in certain countries, particularly in developing countries, are new and largely untested. As a result, the Company may be subject to a number of unusual risks, including inadequate investor protection, contradictory legislation, incomplete, unclear and changing laws, ignorance or breaches of regulations on the part of other market participants, lack of established or effective avenues for legal redress, lack of standard practices and confidentiality customs characteristic of developed markets and lack of enforcement of existing regulations. Furthermore, it may be difficult to obtain and enforce a judgment in certain countries in which assets of the Company are invested. There can be no assurance that this difficulty in protecting and enforcing rights will not have a material adverse effect on the Company and its operations. In addition, the income and gains of the Sub-Funds may be subject to withholding taxes imposed by foreign governments for which unitholders may not receive a full foreign tax credit.

Investment and Repatriation Restrictions Risk - Some countries prohibit or impose substantial restrictions on investments by foreign entities. Certain countries require governmental approval prior to investments by foreign persons, or limit the amount of investment by foreign in a particular company, or limit the investment by foreign persons in a company to only a specific class of securities which may have less advantageous terms than securities of the company available for purchase by nationals. Certain countries may restrict investment opportunities in issuers or industries deemed important to national interests. Repatriation of investment income, capital and the proceeds of sales by foreign investors may require governmental registration and/or approval in some developing countries. It may have an adverse impact on the operations of a Sub-Fund. While the Sub-Funds will invest only in markets where these restrictions are considered acceptable, new or additional restrictions might be imposed subsequent to the initial investment and thus may restrict the Investment Manager's ability to manage effectively such assets and could ultimately result in a substantial loss.

Liquidity Risk - As these Sub-Funds invest a high proportion of their assets in emerging-market securities which tend to be less liquid than those of developed markets, investors should consider a shareholding in these Sub-Funds to be a long-term investment and be aware that it may not always be possible to make redemption payments within the usual time frame (see Section 13 of the Prospectus).

While offshore RMB (CNH) bonds are traded on markets where trading is conducted on a regular basis, not all offshore RMB (CNH) bonds or investments held by a sub-fund will be listed or rated or actively traded and consequently liquidity may be low. The accumulation and disposal of holdings in some investments may be time consuming and may need to be conducted at unfavorable prices. In addition, certain extraordinary events or disruption events may lead to a disruption or suspension of trading on such markets. If sizeable redemption requests are received, the relevant sub-fund may need to liquidate its investments at a substantial discount in order to satisfy such requests and the sub-fund may suffer losses in trading such instruments. There is also no guarantee that market making arrangements will be in place to make a market and quote a price for all offshore RMB (CNH) bonds. In the absence of a active secondary market, the sub-fund may need to hold offshore RMB (CNH) bonds until such maturity date. The Investment Manager will take into account these factors in deciding what portion of the sub-fund's net assets at any time will be allocated to these offshore RMB (CNH) bonds.

Russian Registration Risk / Investment in Russia

Investments in Russia are currently subject to certain heightened risks with regard to the ownership and custody of securities. In Russia this is evidenced by entries in the books of a company or its registrar (which is neither an agent nor responsible to the Depositary). No certificates representing ownership of Russian companies will be held by the Depositary or any sub-custodian or in an effective central depository system. As a result of this system and the lack of state regulation and enforcement, the Company could lose its registration and ownership of Russian securities through fraud, negligence or even mere oversight.

In addition, investments in Russia may also be impacted in the context of the geopolitical crisis in Eastern Europe involving Russia and Ukraine. Western countries have taken sanctions against Russia. This may lead Russia to take counter measures against some Western and other countries. As a result, the Russian economy may be adversely impacted and Russia may become a more risky investment with higher volatility on certain markets, restrictions on foreign investments in Russia, difficulties to liquidate Russian investments or expatriation of funds out of Russia.

The Moscow Exchange MICEX-RTS is the sole market qualifying as a Regulated Market in Russia.

Regional or Sectorial Concentration Risk

Concentration risk on certain countries/regions - Where a Sub-Fund restricts itself to investing in securities of issuers located in a particular country or region, such concentration will expose the Sub-Fund to the risk of adverse social, political or economic events which may occur in that country or region. The risk increases if the country or region in question is an Emerging Market.

Concentration risk on certain sectors - Where a Sub-Fund restricts itself to invest in a certain sector, such as technology or healthcare, it may be sensitive to factors affecting technology-related industries and to greater risk and market fluctuation than investment in a broader range of portfolio securities covering different economic sectors. Technology, technology-related, healthcare industries may also be subject to greater government regulation than many other industries. Accordingly, changes in government policies and the need for regulatory approvals may have a materially adverse affect on these industries. Additionally, these companies may be subject to risk of developing technologies, competitive pressures and other factors as well as a relatively high risk of obsolescence caused by scientific and technological advances and are depended upon consumer and business acceptance as new technologies evolve. Many companies in the technology sector are smaller companies and are therefore also subject to the risks attendant on investing in such companies set out above. The development of these sector-specific investments may differ from the general stock exchange trend.

Risks associated with investments in Asia

There may be risks associated with investments in Asia. Such risks may include: (i) risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity and smaller capitalisation of securities markets; (v) greater volatility in currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on repatriation of invested capital; (viii) possibility of governmental interventions; (ix) differences in auditing and financial reporting standards; (x) less extensive regulation of the securities markets; (xi) longer settlement periods for securities transactions and less reliable clearance and custody arrangements; and (xii) less stringent corporate laws and less developed mechanisms for the protection of investors.

Financial Derivative Instruments Risk

Valuation risk - Many financial derivative instruments, in particular OTC financial derivative instruments, are complex, difficult to value and often valued subjectively and the valuation may only be provided by a limited number of market professionals. The replacement value of an OTC derivative transaction may differ from the liquidation value of such transaction, and the valuations provided by the Sub-Fund's counterparty to such transaction may differ from the valuation provided by a third party or the value upon liquidation. A counterparty might cease making a market or quoting prices for some of the instruments. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to a Sub-Fund.

Volatility - The price of a financial derivative instrument can be very volatile. This is because a small movement in the price of the underlying security, index, interest rate or currency may result in a substantial movement in the price of the financial derivative instrument. Investment in financial derivative instruments may result in losses in excess of the amount invested.

Correlation - Financial derivative instruments do not always perfectly or even highly correlate or track the value of the underlying assets they are designed to track. Consequently, a Sub-Fund's use of financial derivative instruments techniques may not always be an effective means of, and sometimes could be counter-productive to, following a Sub-Fund's investment objective.

Short Exposure - Although the Company may not carry out uncovered sales of transferable securities, some Sub-Funds may, as part of their investment strategy, use financial derivative instruments to seek short exposure to such transferable securities. The Sub-Funds may face substantial loss should the price of the transferable securities increase.

Leverage - The Sub-Funds will not use borrowing to purchase additional investments but a Sub-Fund using financial derivative instruments as part of its investment strategy may be expected to be leveraged (gross market exposure, aggregating both long and synthetic short positions, in excess of net asset value). While leverage presents opportunities for increasing the Sub-Fund's total return, it also has the potential of increasing losses as well. Accordingly, any event which adversely affects the value of an investment by the Sub-Fund would be magnified to the extent the Sub-Fund is leveraged. The cumulative effect of the use of leverage by the Sub-Fund in a market that moves adversely to the Sub-Fund's investments could result in a substantial loss to the Sub-Fund.

Counterparty Risk (OTC derivative transactions) - The Sub-Funds may enter into derivatives transactions in over-the-counter markets, which will expose the Sub-Funds to the credit risk of their counterparties and their inability to satisfy the terms of such contracts as mentioned in the clause of counterparty risk above. A Sub-Fund might also be unable to close out when it wishes to end or to enter into an offsetting OTC transaction with respect to an open position, which might adversely affect its performance. The closing-out of an OTC derivative transaction may only be made with the consent of the counterparty to the transaction.

Control and Monitoring - Financial derivative instruments are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the underlying assets of the financial derivative instruments but also of the financial derivative instruments themselves, without the benefit of observing the performance of the financial derivative instruments under all possible market conditions. In particular, the use and complexity of financial derivative instruments require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that financial derivative instruments add to a Sub-Fund and the ability to forecast the relative price, interest rate or currency rate movements of the underlying assets correctly. There is no guarantee that a particular forecast will be correct or that an investment strategy which deploys financial derivative instruments will be successful.

Collateral - Under the terms of the ISDA Agreements and related Collateral Support Annexes which the Company has with each of its OTC counterparties, the Company and its respective ISDA Counterparties have an obligation to collateralise their exposure to one another on a mark to market basis. Collateral transferred by the Company to its ISDA counterparties is transferred with full legal title.

Limited Recourse - The Company has an umbrella structure with multiple compartments (each compartment being referred to as a Sub-Fund). Each Sub-Fund, although not a separate legal entity, corresponds to a distinct part of the assets and liabilities of the Company under Luxembourg law, and consequently benefits from limited liability in accordance with the provisions of the Company's constitutive documents and Luxembourg law. When dealing for the account of a specified Sub-Fund, the Company will endeavour where possible to obtain a contractual acknowledgement from trading counterparties (each a "Counterparty") that the Company's obligation to that Counterparty will be limited to the assets of the specified Sub-Fund and that the Counterparty shall have no recourse to the assets of any other Sub-Fund. It may not however always be possible to obtain such an acknowledgement and in the event that (i) a Counterparty holds assets of more than one Sub-Fund; and (ii) the courts of the jurisdiction in which the assets are situated do not uphold the Luxembourg principle of limited liability as mentioned above, it is possible that the assets of one Sub-Fund could be used to satisfy the obligations of another Sub-Fund.

Options / Warrants - An option is a contract that gives the buyer the right, but not the obligation, to buy (call) or sell (put) the underlying asset at or within a certain point in time in the future at a pre-determined price (strike price) against the payment of a premium, which represent the maximum loss for the buyer of an option. Options can allow the Investment Manager to cost-effectively be able to restrict downsides while enjoying the full upside of a stock, financial index, etc. Long positions in option may be taken to provide insurance against adverse movements in the underlying. Short position may also be taken to enhance total returns and generate income for the Sub-Fund via premium received. The writing and purchase of options is a specialised activity which can involve substantial risks. If the Investment Manager is incorrect in its expectation of changes in the market prices or determination of the correlation between the instruments or indices on which the options are written or purchased and the instruments in a Sub-Fund's investment portfolio, the Sub-Fund may incur losses that it would not otherwise incur. A warrant is a certificate that entitles the holder to buy a specific amount of the underlying security of the issuing company at a pre-determined price until the expiry date, against the payment of a premium. Warrants are very similar to call options but there are some key differences such as, (i) warrants are issued by private parties, typically the corporation on which a warrant is based, (ii) warrants are considered over-the-counter instruments, (iii) warrants are not standardized like exchange-listed options, (iv) warrants can usually not be shorted by investors.

Forwards - A forward is a contract whereby two parties agree to exchange the underlying asset at a predetermined point in time in the future at a fixed price. The buyer agrees today to buy a certain asset in the future and the seller agrees to deliver that asset at that point in time. Forward contracts, unlike futures contracts, are not traded on exchanges and are not standardised; rather banks and dealers act as principals in these markets, negotiating each transaction on an individual basis. Forward trading is substantially unregulated; there is no limitation on daily price movements. The principals who deal in the forward markets are not required to continue to make markets in the underlying securities they trade and these markets may experience periods of illiquidity, sometimes of significant duration. Disruptions can occur in any market traded by the Sub-Funds due to unusually high trading volume, political intervention or other factors. In respect of such trading, the Sub-Fund is subject to the risk of counterparty failure or the inability or refusal by a counterparty to perform with respect to such contracts. Market illiquidity or disruption could result in major losses to the Sub-Funds.

Futures - Futures are standardised forwards traded on an organized exchange. The amount of the initial margin is small relative to the value of the futures contract so that transactions are "leveraged" or "geared". A relatively small market movement will have a proportionately larger impact which may work for or against the investor. The placing of certain orders which are intended to limit losses to certain amounts may not be effective because market conditions may make it impossible to execute such orders.

Contract for Difference - A CFD is a contract between two parties that allows them to gain exposure to the economic performance and cash flows of a security without the need for actually buying or selling the security. The two parties agree that the seller will pay the buyer the difference in price after a certain period of time if the designated security's price increases, and the buyer will in return pay the seller the difference in price if the security's price decreases. It is linked to the underlying security price. Consequently, no right is acquired or obligation incurred relating to the underlying share. The Sub-Funds can take synthetic long or synthetic short positions with a variable margin via CFD. They are highly leveraged instruments and for a small deposit, it is possible for a Sub-Fund to hold a position much greater than would be possible with a traditional investment. In case of substantial and adverse market movements, the potential exists to lose all of the money originally deposited and to remain liable to pay additional funds immediately to maintain the margin requirement.

Swaps (including IRS and TRS) - In a standard swap transaction, two parties agree to exchange the returns (or differentials in rates of return) earned or realized on particular pre-determined investments or instruments. The Sub-Funds may enter swap transactions with a view to effecting synthetic long and short positions in certain securities, sectors or indices, including commodities indices. Swap agreements can be individually negotiated and structured to include exposure to a variety of different types of investments or market factors. Depending on their structure, swap agreements may increase or decrease the Sub-Fund's exposure to long-term or short-term interest rates, currency values, corporate borrowing rates, inflation rates, or other factors such as single equity securities, baskets of equity securities or equity indices. Swap agreements can take many different forms and are known by a variety of names. An IRS is an agreement to exchange one set of cash flows (perceived as risky, as linked to e.g. a floating interest rate) against another set of cash flows (perceived as stable, as linked to, e.g. a fixed interest rate). A TRS is an agreement that involves the exchange of the right to receive the total return, coupons plus capital gains or losses, of a specified reference asset (such as for example an equity), index or basket of assets against the rights to make fixed or floating payments or another equity return. The most significant factor in the performance of swap agreements is the change in the specific interest rate, currency, individual equity values or other factors that determine the amounts of payments due to and from the Sub-Fund. If a swap agreement calls for payments by a Sub-Fund, the Sub-Fund must be prepared to make such payments when due. In addition, if a counterparty's creditworthiness declines, the value of swap agreements with such counterparty can be expected to decline, potentially resulting in losses by the Sub-Fund. The swap market has grown substantially in recent years with a large number of banks and investment banking firms, acting both as principals and as agents utilising standardised swap documentation. As a result, the swap market has become liquid but there can be no assurance that a liquid secondary market will exist at any specified time for any particular swap.

CDS - A CDS is an agreement in which one party buys protection against losses occurring due to a credit event of a reference entity up to the maturity date of the swap. The protection buyer pays a periodic fee for this protection up to the maturity date, unless a credit event triggers the contingent payment. In the latter case, the buyer of protection only needs to pay the accrued fee up to the day of the credit event. If a credit event occurs, the settlement will be either in cash or physical: (i) Cash settlement: the seller of protection will pay to the buyer of protection the net amount between the nominal value and the market value of the security; (ii) Physical settlement: the buyer of protection will deliver a bond or a loan of the reference entity to the seller of protection and the latter will pay the par value in return. Credit events for CDS are typically: bankruptcy, failure to pay, and restructuring. The Sub-Funds can take synthetic long or short positions in certain securities via CDS. The use of CDS may carry a higher risk than investing in bonds directly. A CDS allows the transfer of default risk. CDS can either serve as a substitute for purchasing corporate bonds or they can hedge specific corporate bond exposure or reduce exposure to credit basis risk. If a Sub-Fund is a buyer and no event of default occurs, the Sub-Fund will lose its investment and recover nothing. However, if an event of default occurs, the buyer Sub-Fund will receive the amount above mentioned depending on cash or physical settlement. If a Sub-Fund is a seller, it will receive a fixed rate of income throughout the term of the contract provided no credit event occurs. In the latter case, the Sub-Fund will have to pay the amount provided in the contract. All Sub-Funds using CDS may, in the case of a credit event, have to accept delivery of non-investment-grade bonds issued in a currency other than the Reference Currency. The delivery of such non-investment-grade bonds in a currency other than the Reference Currency will not be regarded as a breach of investment policy for those Sub-Funds which may only be invested in investment-grade-bonds or in bonds issued in the Reference Currency. The market for CDS may sometimes be more illiquid than bond markets.

Model Risk

Sub-Funds that apply quantitative management methods or systematic process or strategies, rely for their management process on models based to a varying extent on past market conditions. Given the uncertainty of the future, these models may not necessarily capture the risk they were designed and expected to capture and hence could signal erroneous investment opportunities.

ABS Risk and MBS Risk

ABS and MBS are securities backed by financial assets whose nature varies and determine the qualification of the security.

MBS are securities that represent direct or indirect participation in, or are collateralized by and payable from, mortgage loans secured by real property or instruments derived from such loans. The payment of principal and interest and the price of a MBS generally depend on the cash flows generated by the underlying mortgages and the terms of the MBS. MBS are backed by different types of mortgages, including commercial and residential properties. MBS are issued by government and non-government entities and include various types of securities such as pass-throughs, collateralized mortgage obligations and stripped MBS.

Certain MBS represent interests in pools of mortgage loans assembled for sale to investors by various governmental agencies, such as the US Government National Mortgage Association (GNMA), by government-related organizations, such as the U.S. Federal National Mortgage Association (FNMA) and the U.S. Federal Home Loan Mortgage Corporation (FHLMC), and by private issuers, such as commercial banks, savings and loan institutions and mortgage companies.

Private, government, or government-related entities may create mortgage loan pools offering pass-through investments. Interests in pools of mortgage-related securities differ from other forms of debt instruments, which normally provide for periodic payment of interest in fixed amounts with principal payments at maturity or specified call dates. Instead, these securities typically provide a monthly payment which consists of both interest and principal payments. These payments generally are a "pass-through" of the monthly payments made by the individual borrowers on their residential or commercial loans, net of any fees paid to the issuer or guarantor of such securities. Additional payments are caused by repayments of principal resulting from the sale of the underlying property, refinancing or foreclosure, net of fees or costs incurred. Pass-through securities issued by the U.S. Federal National Mortgage Association (FNMA) and the U.S. Federal Home Loan Mortgage Corporation (FHLMC) are guaranteed as to timely payment of principal and interest by the U.S. Federal National Mortgage Association (FNMA) and the U.S. Federal Home Loan Mortgage Corporation (FHLMC). Private MBS represent interest in pools consisting of residential or commercial mortgage loans created by non-government issuers, such as commercial banks and savings and loan associations and private mortgage companies. Private MBS securities may be subject to greater credit risk and be more volatile than government or government-related MBS. In addition, private MBS may be less liquid than government or government-related MBS.

Collateralized mortgage obligations are debt obligations of a legal entity that are collateralized by mortgages. They are typically rated by a rating agency and are structured into multiple classes, often referred to as "tranches", with each class bearing a different stated maturity and entitled to a different schedule for payments of principal and interest, including pre-payments. The shorter, more senior tranches will generally be lower risk than the longer dated, more junior tranches.

Stripped MBS are derivative multi-class MBS. Stripped MBS may be issued by agencies or instrumentalities of the U.S. government, or by private originators of, or investors in, mortgage loans, including savings and loan associations, mortgage banks, commercial banks, investment banks, and special purpose entities formed or sponsored by any of the foregoing. Stripped MBS may be less liquid than other types of MBS.

Stripped MBS are usually structured with two classes that receive different proportions of the interest and principal distributions on a pool of mortgage assets. A common type of Stripped MBS will have one class receiving some of the interest and most of the principal from the mortgage assets, while the other class will receive most of the interest and the remainder of the principal. In the most extreme case, one class will receive all of the interest (interest-only), while the other class will receive all of the principal (principal-only).

ABS are very similar to MBS, except that the securities are collateralized by other types of assets besides mortgages, such as credit card receivables, home-equity loans, manufactured homes, automobile loans, student loans, equipment leases, or senior bank loans, among others. The assets can be a pool of assets or a single asset. ABS that represent an interest in a pool of assets provide greater credit diversification than ABS that represent an interest in a single asset. Payment of interest and repayment of principal on ABS may be largely dependent upon the cash flows generated by the underlying assets and, in certain cases, may be supported by letters of credit, surety bonds, or other credit enhancements.

The credit quality of ABS depends primarily on the quality of the underlying assets, the rights of recourse available against the underlying assets and/or the issuer, the level of credit enhancement, if any, provided for the securities, and the credit quality of the credit-support provider, if any. The value of ABS may be affected by the various factors, such as changes in interest rates, the availability of information concerning the pool and its structure, the creditworthiness of the servicing agent for the pool, the originator of the underlying assets, or the entities providing the credit enhancement. ABS that do not have the benefit of a security interest in the underlying assets present certain additional risks that are not present with ABS that do have a security interest in the underlying assets.

MBS and ABS are subject to pre-payment, extension and default risks.

Prepayment risk is the risk that principal is paid back over the life of the security rather than at maturity, as the underlying obligations are subject to unscheduled pre-payments of principal before the security's maturity date due to voluntary prepayments, refinancings or foreclosures on the underlying loans. Some types of ABS are often subject to more rapid repayment than their stated maturity date would indicate, as a result of the pass-through of prepayments of principal on the underlying assets. The rate of principal payments on these ABS is related to the rate of principal payments on the underlying asset pool and related to the priority of payment of the security with respect to the asset pool. The occurrence of prepayments is a function of several factors, such as the level of interest rates, general economic conditions, the location, and age of the underlying obligations, asset default and recovery rates, and other social and demographic conditions. Because prepayments of principal generally occur when interest rates are declining, an investor generally has to reinvest the proceeds of such prepayments at lower interest rates than those at which its assets were previously invested. Therefore, these ABS may have less potential for capital appreciation in periods of falling interest rates than other income-bearing securities of comparable maturity. Also, the interest-only and principal-only securities mentioned above are highly sensitive to the pre-payment experience associated with the underlying mortgages and will behave in opposite ways to the same trend in pre-payments. For interest-only securities, early pre-payments within the pool will mean less than expected interest payments since the mortgages will have terminated, adversely affecting security holders. For principal-only securities, early pre-payments within the pool will mean quicker repayment of principal than expected, benefiting security holders. Because of the highly sensitive nature of these securities, the possibility of sharp declines in prices is much greater compared to conventional MBS.

Extension risk is the risk that debt obligations will be paid off more slowly than originally anticipated, increasing the average life of such debt obligations and the sensitivity of the prices of such debt obligations to future interest rate changes. For example, rising interest rates could cause property owners to pay their mortgages more slowly than expected, resulting in slower payments of mortgage backed debt obligations. This could lengthen the duration of the debt obligation, making its price more sensitive to interest rate changes, and increase the potential for loss.

Default risk is the risk of default on the underlying assets that back the security. Weakening credit fundamentals associated with the underlying assets that back ABS/MBS securities may cause default rates to rise, which would result in a decline in the value of ABS/MBS obligations.

Because of their specific features, ABS/MBS may also be subject to higher interest rate, credit, and liquidity risks than other debt securities such as government bonds.

ABS/MBS may be structured as synthetic securities. For example, the CMBX is a credit default swap on a basket of commercial MBS bonds, constituting in effect a CMBS index. By purchasing such an instrument, the Sub-Funds are buying protection (i.e. the ability to get par for the bonds in the event of an unfavorable credit event), allowing the Sub-Funds to hedge their exposure or go short the commercial MBS sector. By selling such an instrument short and holding cash against the potential obligation to purchase it, the Sub-Funds are selling protection and effectively getting long exposure to the commercial MBS sector more quickly and efficiently than by purchasing individual bonds. The risks associated with such synthetic instruments are comparable to those of the underlying ABS or MBS securities that the instruments are seeking to replicate, in addition to the risk that the synthetic instruments themselves do not perform as intended due to adverse market conditions.

If any of the risk mentioned above materializes, the Sub-Funds may fail to recoup some or all of their initial investment in the securities, notwithstanding the existence of mechanisms such as credit enhancement or seniority.

ANNEX C: SFDR

At the date of this Prospectus, there are no Sub-Funds complying with article 8 or article 9 of SFDR.

The SFDR disclosure set out below relates to all the Sub-Funds of the Company.

Classification of the Sub-Fund under SFDR and assessment of the Sub-Fund's environmental sustainability under the Taxonomy Regulation

The Sub-Fund is not a financial product subject to Article 8 or Article 9 of SFDR. The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Integration of sustainability risks and assessments into investment decisions

The Sub-Fund's investment objective and policy are set out in the Sub-Fund's Annex. and it should be understood that the Sub-Fund does not have sustainable investment as its objective, nor does it actively promote environmental and social characteristics.

Nonetheless, the Investment Manager believes that there is a strong correlation between the long term financial success and viability of an investment and its sustainability profile and therefore seeks to integrate directly or indirectly ESG characteristics in the assessment of investment opportunities in each asset class it has exposure to.

For equity and corporate securities, the Investment Manager will aim to screen and score companies against sustainability indicators established by SFDR including greenhouse gas emissions, energy performance, biodiversity, water utilisation, waste management, social and employee matters, human rights and anti-corruption and bribery. It will seek to determine the materiality of ESG characteristics in assessing the return expectation of an investment and it will seek to exclude companies that have the lowest ESG score as well as companies with high controversy level. The Investment Manager, however, maintains entire discretion in relation to the selection of investments and the way in which it integrates the above considerations into its investment process.

The Investment Manager will exclude companies involved in controversial weapons and will not invest in essential food commodities.

In relation to investment in underlying funds, the Investment Manager will seek to assess in its selection process the materiality of sustainability risks attached to the underlying strategy and investment approach and its likely impact on expected returns.

Likely impacts of sustainability risks on the returns of the Sub-Fund

The likely impacts of sustainability risks are difficult to quantify. In general, the Investment Manager believes that the environmental, social and governance practices of a company are inherently linked to its long-term success and that those companies/issuers with ESG aligned business practices and operations are more likely to succeed and create long-term value. There can be no guarantee, however, that the Investment Manager will select for the account of the Sub-Fund investments that are ESG aligned, or in the case that the Investment Manager does select such investments, that such investments will contribute to the positive performance of the Sub-Fund.
