

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Emerging Markets Equity Impact

a sub-fund of Schroder International Selection Fund SICAV

Class C Accumulation EUR (LU2347500972)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth by investing in equities of emerging and frontier markets companies worldwide, or companies which derive a significant proportion of their revenues or profits from emerging markets or frontier markets countries worldwide, whose activities the investment manager considers create positive social or environmental impact and which the investment manager deems to be sustainable investments.

Investment policy

The fund is actively managed and invests its assets in (i) sustainable investments, which are investments that are expected to contribute towards the advancement of an environmental or social objective linked to one or more of the UN Social Development Goals (SDGs), and to deliver returns to shareholders over the long term, and (ii) investments that the investment manager deems to be neutral under its sustainability criteria, such as cash, money market investments and derivatives used with the aim of reducing risk (hedging) or managing the fund more efficiently.

The investment manager will select companies from a universe of eligible companies that have been determined as meeting the investment manager's impact criteria. The impact criteria include an assessment of the company's contribution to the UN SDGs alongside the investment manager's assessment of the company's impact via its proprietary impact investment management framework and tools (including an impact scorecard).

The fund is part of Schroders' Impact Driven strategies. As such, it applies highly selective investment criteria and its investment process is aligned with the Operating Principles for Impact Management which means that an assessment of impact is embedded in the steps of the investment process. All sustainable investments in the fund are subject to this framework.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage

<https://www.schroders.com/en-lu/lu/individual/fund-centre>.

The fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the investment manager's rating criteria.

The investment manager may also engage with companies held by the fund to seek to improve sustainability practices and enhance social and environmental impacts generated by underlying investee companies. More details on the investment manager's approach to sustainability are available in the prospectus and on the webpage

<https://www.schroders.com/en-lu/lu/individual/what-we-do/sustain->

able-investing/our-sustainable-investment-policies-disclosures-voting-reports/disclosures-and-statements/

The fund invests at least two-thirds of its assets in a concentrated range of equities of emerging and frontier markets companies or companies which derive a significant proportion of their revenues or profits from emerging markets or frontier markets countries. This means typically holding fewer than 50 companies.

Companies held by the fund are subject to a financial assessment by the investment manager to help identify the potential for long term shareholder returns.

The fund may invest directly in China B-Shares and China H-Shares and may invest up to 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the Science Technology and Innovation (STAR) Board and the ChiNext.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash(subject to the restrictions provided in the prospectus).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

Benchmark

The fund does not have a target benchmark. The fund's performance should be compared against its comparator benchmark, being the MSCI Emerging Markets (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets. The fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using simulated historical performance data and may not be a reliable indicator of the fund's future risk profile

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

The category also reflects that this share class is in a different currency than the fund currency.

Risk factors

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

China risk: If the fund invests in the China Interbank Bond Market via the Bond Connect or in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect or in shares listed on the STAR Board or the ChiNext, this may involve clearing and settlement, regulatory, operational and counterparty risks. If the fund invests in onshore renminbi-denominated securities, currency control decisions made by the Chinese government could affect the value of the fund's investments and could cause

the fund to defer or suspend redemptions of its shares.

Counterparty risk: The fund may have contractual agreements with counterparties. If a counterparty is unable to fulfil their obligations, the sum that they owe to the fund may be lost in part or in whole.

Market risk: The value of investments can go up and down and an investor may not get back the amount initially invested.

Concentration risk: The fund may be concentrated in a limited number of geographical regions, industry sectors, markets and/or individual positions. This may result in large changes in the value of the fund, both up or down.

Sustainability risk: The fund has the objective of sustainable investment. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: If the fund's investments are denominated in currencies different to the fund's base currency, the fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates. If the investor holds a share class in a different currency to the base currency of the fund, investors may be exposed to losses as a result of movements in currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used for investment purposes and/ or to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Emerging Markets & Frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and

liquidity risk than developed markets.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may

Charges

One-off charges taken before or after you invest	
Entry charge	1.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.35%
Charges taken from the fund under certain specific conditions	
Performance fee	
None	

Past performance

not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2024 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in Euro after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance.

The fund was launched on 07/07/2021.

The shareclass was launched on 07/07/2021.
