M&G (Lux) Fixed Maturity Bond Fund 1

(The "Fund") is manufactured by M&G Luxembourg S.A. (The "Manager") which is part of the M&G Group.

For more information visit www.mandg.com or call +352 2605 9944. The CSSF is responsible for supervising the Manager in relation to this Key Information Document. This PRIIP is authorised in Luxembourg. The Manager is authorised in Luxembourg and regulated by the CSSF.

This document is accurate as at **10 April 2024**.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type:

The Fund is a sub-fund of M&G (Lux) Investment Funds 1, a Société d'Investissement à Capital Variable (SICAV), organised as an umbrella fund with segregated liability between sub-funds, governed and established under Luxembourg Law as an Undertaking for Collective Investment in Transferable Securities (UCITS).

Objective:

The Fund aims to provide a combination of capital growth and income over the term of the Fund, while applying ESG Criteria.

Core investment: at least 80% of the Fund is invested in high quality bonds issued or guaranteed by governments and public issuers, and companies from anywhere in the world, including emerging markets. These bonds can be denominated in any currency. Currency exposures are typically in EUR or hedged back to EUR. In the period leading up to maturity, the Fund may hold higher levels of cash and assets that can be turned quickly into cash to fund the return of capital to investors. The Fund invests in securities that meet the ESG Criteria, applying an Exclusionary Approach as described in the precontractual annex.

Other investments: the Fund may invest up to 20% in lower quality and unrated bonds. The Fund may hold up to 10% in asset-backed securities, and up to 10% in contingent convertible debt securities. The Fund may also invest in other funds and up to 20% in cash, (meaning eligible deposits) and assets that can be turned quickly into cash.

Derivatives usage: for investment purposes and to reduce risk and cost.

Strategy in brief:

- Investment approach: the Fund predominantly adopts a buy and maintain strategy, whereby the majority of the bonds held within the Fund are expected to be held until maturity. The investment process combines a bottom-up value focused approach and "top-down" macroeconomic, asset, sector and geographic considerations. The investment strategy aims to earn an attractive yield whilst balancing credit risk and diversification. The Fund is diversified by investing in a range of individual issuers, sectors and geographies. The investment manager is assisted in the selection of individual bonds and monitoring of issuers by an in-house team of analysts.

- Investment manager's ESG classification: Planet+ / ESG Enhanced, as defined in the Fund's Prospectus.

Benchmark: the Fund is actively managed and it has no benchmark. Investors can assess the performance of the Fund by its objective to provide a combination of capital growth and income over the term of the Fund.

Intended retail investor:

The Fund is designed for retail and institutional investors who want a combination of capital growth and income from a portfolio composed mainly of debt instruments from anywhere in the world, and who have sustainability preferences. The return on your Fund is directly related to the value of its underlying assets, which is determined by the credit rating and the markets' view of the debt issuer, as well as reflecting broader economic and political themes. As an investor your capital is at risk. The value of your portfolio, and any income you may receive from it, can go down as well as up. You may get back less than you originally invested.

Any income from the Fund will be rolled up into the value of your investment.

Term: The Fund has a fixed term of two (2) years from the launch date.

- Subscriptions can be made during the initial offer period after which no further subscriptions are allowed, unless otherwise determined by the board or the management company.
- The Fund will be liquidated on the maturity date and shares in the Fund will be compulsorily redeemed at the prevailing Net Asset Value per share.
- Investors who remain invested until maturity will not be subject to any redemption charge, but investors who redeem prior to maturity will be subject to a redemption charge as set out in the Fund's Prospectus.
- The maturity date may be deferred or brought forward by up to three months, or any other period, if the directors believe that it is in the interest of shareholders. Shareholders will be notified of such decision and will be given the possibility to redeem their shares free of charge. For further details please refer to the Fund's Prospectus.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product may lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the value of your investment.

You may have to pay significant extra costs to cash in early.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risk indicator assumes you keep the product for 2 year(s) from the launch date. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Further details of the risks that apply to the fund can be found in the fund's Prospectus at <https://www.mandg.com/investments/private-investor/en-lu/solutions/our-funds>.

Performance scenarios

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the fund over the last 10 years. Where fund data is not available, the benchmark or another suitable proxy is used. Markets could develop very differently in the future.

Scenarios	*Recommended holding period which equals the fund's fixed term	
Based on an investment of €10.000,00	If you exit after: 1 year	If you exit after: 2 years*
Stress scenario		
What you might get back after costs	€8.820,00	€9.070,00
Average return each year	-11,81%	-4,74%
Unfavourable scenario		
What you might get back after costs	€9.120,00	€9.280,00
Average return each year	-8,79%	-3,68%
Moderate scenario		
What you might get back after costs	€9.780,00	€9.920,00
Average return each year	-2,19%	-0,41%
Favourable scenario		
What you might get back after costs	€10.330,00	€10.260,00
Average return each year	3,29%	1,28%

There is no minimum guaranteed return. You could lose some or all of your investment.

Unfavourable Scenario: This type of scenario occurred for an investment between 2020 - 2022.

Moderate Scenario: This type of scenario occurred for an investment between 2020 - 2022.

Favourable Scenario: This type of scenario occurred for an investment between 2020 - 2022.

What happens if M&G Luxembourg S.A. is unable to pay out?

The assets of the Fund are held in safekeeping by the Depositary detailed in the prospectus. In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). The Fund is not covered by an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario. The figures assume € 10.000,00 is invested.

Table 1: Costs over time (Based on an investment of €10.000,00)

Scenarios	If you exit after: 1 year	If you exit after: 2 years*
Total costs	€340,00	€330,00
Annual cost impact (*)	3,40%	1,70%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period which equals the fund's fixed term, your average return per year is projected to be 1,29% before costs and -0,41% after costs. These figures include the maximum distribution fee that the person selling you the product may charge. This person will inform you of the actual distribution fee.

Table 2: Composition of costs

One-off costs upon entry or exit		If you exit after: 1 year
Entry costs	0,00% of the value of your investment per year. This is the maximum entry cost M&G will charge.	€0,00
Exit costs	This is the maximum exit fee M&G will charge.	€300,00
Ongoing costs		
Management fees and other administrative or operating costs	0,40% of the value of your investment per year. This is an estimate based on actual costs over the last year.	€40,00
Transaction costs	0,00% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	€0,00
Incidental costs		
Performance fees and/or carried interests	The impact of the performance-related compensation schemes payable to the company's staff and/or the impact of carried interests.	-

How long should I hold the investment and can I take money out early?

Recommended holding period of this fund is 2 years from the launch date. The recommended holding period was selected in accordance with the fund's objective and equals the fund's fixed term. Investors who redeem prior to maturity will be subject to a redemption charge as set out in the fund's Prospectus. You may redeem your shares on any dealing day. The redemption price is calculated by reference to the Net Asset Value per share of the relevant class fund as at the Valuation Point on the relevant dealing day. The request may be made in writing to: M&G Luxembourg at Boulevard Royal 16, Luxembourg 2449 or by phone at +352 2605 9944.

How can I complain?

If you wish to complain about any aspect of the service you have received or to request a copy of M&G Lux's complaints handling procedure, please write (i) via email to GOCS@mandg.com or (ii) via registered mail for the attention of Complaints Handling of M&G Luxembourg S.A. at M&G Luxembourg S.A., 16, Boulevard Royal, L-2449 Luxembourg, Grand-Duchy of Luxembourg. If your complaint is not dealt with to your satisfaction, you can then complain to <https://reclamations.apps.cssf.lu/index.html?language=en>. Professionals' complaints are handled by the Legal department "Consumer Protection/Financial Crime" within the CSSF, 283, route d'Arlon, L-1150 Luxembourg, Postal Address: L-2991 Luxembourg, reclamation@cssf.lu
