What is this product?

Type

SICAV

Term

The Fund is established for an indefinite period (open-ended fund) and can be terminated at any time as further stipulated in the articles of association of the SICAV. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives

Investment Objective

The Sub-Fund seeks to achieve long-term capital growth through global equity investments. The Sub-Fund will invest according to Bank J. Safra Sarasin AG's proprietary sustainability matrix and focus on companies along the value chain of strategic minerals, which is crucial for a successful energy transition towards a net-zero economy.

Investment Policy

The JSS Sustainable Equity - Strategic Materials invests at least 75% directly in equity securities of companies globally that offer exposure to the strategic materials value chain, including both producers and end users. The green transition covers the need for critical materials for lower carbon technologies and the need for material companies to reduce their own emissions' intensity. In addition, global infrastructure investments, technological advances and agricultural developments will drive demand for critical materials. The Sub-Fund will aim to invest in a portfolio of equity securities of companies with large, medium and small market capitalization, across all industry sectors, that are essential to drive the green transition, build infrastructure, enable industrial and technological progress, and provide food security. This strategy also includes investments in the emerging markets. Emerging markets generally mean the markets of countries which are in the process of becoming modern industrial markets and therefore show higher potential, but also carry a higher risk. Provided

that the requirements of Article 41 of the 2010 Law are met, the Sub-Fund may also participate in initial public offerings. The Sub-Fund promotes environmental and social characteristics according to SFDR Art. 8, but does not have a sustainable investment objective according to SFDR Art. 9. The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to MSCI World NR Index (the "Benchmark"). The Sub-Fund's portfolio composition is not restricted to the composition of the Benchmark. The Investment Manager may discretionarily select securities not included in the Benchmark in order to exploit specific investment opportunities. In addition, the Investment Manager integrates fundamental investment principles, such as financial metrics, sustainability aspects or liquidity requirements, which lead to a deviation from investable Benchmark components. The holdings and their weightings in the Sub-Fund's portfolio will diverge from the weightings of the securities included in the Benchmark therefore the Sub-Fund's returns may deviate from the performance of the Benchmark.

Share Class Policy

This share class of the Sub-Fund continually reinvests income.

Processing of subscription and redemption orders

You may redeem or convert shares in the Sub-Fund on any business day.

Intended retail Investor

The JSS Sustainable Equity - Strategic Materials is suited for investors with a long-term investment horizon seeking capital appreciation. JSS Sustainable Equity - Strategic Materials is intended as a supplementary investment in equities for investors with a medium to high risk tolerance.

Depositary

What are the risks and what could I get in return?

Risk Indicator

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 8 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. The product may be exposed to further risks such as operational, counterparty, political and legal risks. For further details please consult the prospectus.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 13 years. Markets could develop very differently in the future.

| Recommended holding period: | | 8 years | |
|-----------------------------|---|--------------------------|---------------------------|
| Example Investment: | | EUR 10 000 | |
| | | If you exit after 1 year | If you exit after 8 years |
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | EUR 3 880 | EUR 2 180 |
| | Average return each year | -61.20% | -17.34% |
| Unfavourable | What you might get back after costs | EUR 8 550 | EUR 15 460 |
| | Average return each year | -14.50% | 5.60% |
| Moderate | What you might get back after costs | EUR 10 950 | EUR 21 900 |
| | Average return each year | 9.50% | 10.29% |
| Favourable | What you might get back after costs | EUR 17 750 | EUR 32 210 |
| | Average return each year | 77.50% | 15.74% |

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between October 2024 and April 2026.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between October 2016 and October 2024.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between February 2018 and February 2026.

What happens if J. Safra Sarasin Fund Management (Luxembourg) S.A. is unable to pay out?

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario

- EUR 10 000

| | If you exit after 1 year | If you exit after 8 years |
|------------------------|--------------------------|---------------------------|
| Total costs | EUR 139 | EUR 2 299 |
| Annual cost impact (*) | 1.4% | 1.4% each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.7 % before costs and 10.3 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
