

KEY INFORMATION DOCUMENT

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

DPAM L Equities Europe Defence B ISIN: LU3076252371

A sub-fund of DPAM L, a public SICAV under Luxembourg law

Name of the originator of the product: CA Indosuez Fund Solutions S.A., in short CAI FS.

Rue Eugène Ruppert 12, 2453 Luxembourg - caifs@ca-indosuez.lu - www.ca-indosuez-fundsolutions.com - Call +352 2664501 for more information.

CA Indosuez Fund Solutions S.A. is a subsidiary of CA Indosuez Wealth (Europe) and part of the Crédit Agricole Group.

DPAM L is managed by the management company CA Indosuez Fund Solutions S.A. which acts in this capacity within the meaning of Directive 2009/65/EC.

Competent authority: The Commission de Surveillance du Secteur Financier (CSSF) is responsible for the supervision of CAI FS with regard to this Key Information Document.

This product is authorized in Luxembourg.

CAI FS is licensed in Luxembourg and regulated by the CSSF.

Publication date of the Key Information Document: 24/06/2025

What is this product?

Type Capitalisation shares (shares for which income and capital growth are retained in the share price) of a sub-fund of a SICAV, a regulated open-ended fund whose sub-funds are independent from a liability point of view.

Investment objectives and policy

Objective(s) To increase the value of your investment over the long term.

Benchmark MSCI Europe Aerospace & Defense Net Total Return Index. Use: only for performance comparison purposes.

Investment policy Under normal market conditions, the sub-fund invests primarily in equities of European companies in the defence sector. However, the sub-fund does not invest in companies involved in the production of non-conventional weapons such as anti-personnel mines and cluster munitions.

The sub-fund may use derivatives to hedge against market fluctuations and to reduce its costs, and also to generate additional income.

Investment process As part of the active management of the sub-fund, the manager uses market analysis to select securities that it believes are best positioned to benefit from an increase in military spending in Europe.

The selection and weighting of assets in the sub-fund's portfolio, and therefore its performance, may deviate significantly from the benchmark index.

ESG approach The manager does not systematically integrate environmental, social and governance (ESG) factors into his/her analysis of risks and opportunities and may invest in issuers with a low ESG profile.

SFDR Category Article 6.

Base currency EUR

Plan your investment

Product availability This sub-fund is available, with or without advice, for retail investors with basic financial knowledge and professional investors.

Investor profile This sub-fund is intended for investors who understand the risks of the sub-fund and:

- are looking for an investment focused on capital growth
- are interested in exposure to a thematic equity market, either as a core investment or for diversification purposes
- have a high tolerance for risk and can withstand a substantial loss in relation to this investment.

Placing orders You can buy, exchange or sell shares of the sub-fund every full Luxembourg bank business day.

Terms to understand

share Financial security corresponding to a share of a company's capital and generally giving the right to dividends.

article 6 Financial product that does not promote environmental or social characteristics, or does not have a sustainable investment objective according to European regulations (SFDR).

derivative instrument Any financial security whose value is linked to one or more interest rates, indices, equities, currencies, commodities or other underlyings.

Depository: CACEIS Bank, Luxembourg Branch

For more information, including the prospectus and financial reports, see "Other relevant information" on page 3.

What are the risks and what could I get in return?

Risk indicator

The risk indicator is designed to help you compare the risks of investment products. It uses the required calculation methodology, which includes market movements and the risk that the product manufacturer cannot pay out as required. The risk indicator is not guaranteed and may change over time.

Any investment involves risk. The value of your investment in this sub-fund will increase or decrease over time, and you may lose some or all of your investment. This product is in the medium to high risk category (level 5 out

of 7). Adverse market conditions will most likely decrease the value of your investment.

The sub-fund's risk level reflects the following:

- Equity investments have higher volatility and risk than bonds and money market instruments.

- As it focuses its investments in a single sector, the sub-fund is exposed to an increased risk of volatility.

Other important risks partly or completely unreflected in the risk indicator:

- Unusual market conditions or unforeseeable events may magnify risks or trigger other risks such as counterparty, liquidity and operational risks (a full description of these risks is available in the prospectus).

- If you place a request to sell (redeem) shares at a time when this product has received many other sell requests, the processing of your order may be delayed, which could affect the price you receive for your shares.

Performance Scenarios

This table shows the money you could get back (net of costs) over different periods, under different scenarios, assuming you were to invest EUR 10,000 in the sub-fund. You can compare this with the scenarios of other products.

The figures shown include all costs of the product itself. The figures do not take into account your personal tax situation, which may affect how much you get back.

What you get out of this product depends on future market performance.

Please note that future market performance is uncertain and cannot be accurately predicted.

Recommended holding period:		6 years	
Example Investment:		10 000 EUR	
		If you exit after 1 year	If you exit after 6 years
Scenarios			
Minimum			
Stress	What you might get back after costs	1 800 EUR	780 EUR
	Average return each year	-82.00%	-34.63%
Unfavourable	What you might get back after costs	5 220 EUR	9 140 EUR
	Average return each year	-47.80%	-1.49%
Moderate	What you might get back after costs	11 470 EUR	13 590 EUR
	Average return each year	14.70%	5.25%
Favourable	What you might get back after costs	15 310 EUR	21 750 EUR
	Average return each year	53.10%	13.83%

Unfavorable scenario: this type of scenario occurred for an investment between 30/09/2014 and 30/09/2020.

Intermediate scenario: this type of scenario occurred for an investment between 29/09/2017 and 29/09/2023.

Favorable scenario: this type of scenario occurred for an investment between 31/03/2019 and 31/03/2025.

What happens if CA Indosuez Fund Solutions S.A. is unable to pay out?

The sub-fund's assets are segregated from those of the other sub-funds in the SICAV and from CA Indosuez Fund Solutions S.A., the product manufacturer and management company of the sub-fund. Even if it were to fail, the product manufacturer could not use the sub-fund's assets to pay its debts.

The only scenario under which an investor could incur a loss is by selling shares at a time when they are worth less than what the investor paid.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

This table shows the amounts deducted from your investment to cover various costs. These amounts depend on the amount you invest, the duration of your investment and the performance of the sub-fund. The amounts shown are illustrations based on a hypothetical investment amount and different investment periods.

We have assumed that:

- for the first year, you get back the amount you invested (0% annual return);
- for the other holding periods, the product evolves as indicated in the intermediate scenario;
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 6 years
Total costs	359 EUR	1 577 EUR
Annual cost impact (*)	3.6%	1.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period, your average return per year is projected to be 7.10 % before costs and 5.25 % after costs.

Composition of the costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00% of the amount you pay in when entering this investment. This is the most you will pay, you could pay less.	Up to 200 EUR
Exit costs	Nil	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1,46% of the value of your investment per year. This is an estimate based on actual costs over the last year.	146 EUR
Transaction costs	0,13% This is an estimate of the costs incurred when buying and selling investments underlying the sub-fund. The actual amount will vary depending on the quantity bought and sold.	13 EUR
Incidental costs taken under specific conditions		
Performance fees	This product does not charge any performance fees.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period Minimum 6 years.

Redeeming your investment You can request to take out some or all of your money at any time. See Processing requests in *What is this product?* above.

How can I complain?

You can send an email including a description of the issue and your contact details to Caifs_compliance@ca-indosuez.lu, or send your complaint in writing together with supporting documents, to:

CA Indosuez Fund Solutions S.A.

To the attention of the Chief Compliance Officer

12, rue Eugène Ruppert
