What is this Product?

Type This Product is a UCITS Fund. This Product is a Sub-Fund of a Luxembourg Société d'Investissement à Capital Variable. The Product is governed by Part I of the Luxembourg Law of 17 December 2010 as amended.

Term This Product has no specific maturity date. However, this Product might be dissolved or merged, in this case you would be informed by any appropriate means approved by the regulation.

Objectives The investment objective of WCM Global Growth Equity Fund (the "Fund") is long-term growth of capital. This Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.

- The Fund is not managed relative to a specific index. However, for indicative purposes only, the Fund's performance may be compared to the MSCI All Country World Index Net Total Return ("MSCI ACWI"). In practice, the portfolio of the Fund is likely to include constituents of the index, however, the Fund is unconstrained by the index and may therefore significantly deviate from it.
- The Fund promotes environmental or social characteristics but does not have as its objective a sustainable investment. The Fund may, however, invest partially in assets that have a sustainable objective.
- The Fund invests at least two-thirds of its total assets in equity securities of companies located around the world, including emerging countries. Under normal circumstances, the Fund invests at least 30% of its total assets in companies organized, headquartered or doing a substantial amount of business outside the United States.

The Fund is unconstrained by capitalization size, industry or geographic considerations.

The Fund's equity investments may include common stocks, preferred stocks, rights and warrants to subscribe for the purchase of equity securities, depositary receipts for any of those equity investments. As part of the Fund's investments in securities worldwide, the Fund may also invest in certain eligible A-Shares. The Fund may invest up to one-third of its total assets in cash, cash equivalents or other types of securities than those described above. The Investment Manager uses a bottom-up approach that seeks to identify companies with attractive fundamentals. The Investment Manager's investment process seeks companies that are industry leaders with strengthening competitive advantages; corporate cultures emphasizing strong, quality and experienced management; low or no debt; and attractive relative valuations. The Investment Manager also considers other factors including political risk, monetary policy risk, and regulatory risk in selecting securities. The Investment Manager conducts a non-financial ESG analysis on at least 90% of the Fund's net assets on an ongoing basis. The Investment Manager will apply a binding and proprietary set of investment criteria in order to own businesses exhibiting sound corporate cultures. Company cultures are evaluated and ranked either positive, mixed, neutral or negative. The Investment Manager assesses the health and sustainability of corporate cultures. Key indicators commonly used in this analysis include such factors as talent retention and development, employee perceptions of senior leadership, employee buy-in and engagement, presence of toxic workplace behaviors, presence of social controversies. Beyond the promotion of sound corporate culture, the Investment Manager believes that material environmental, social and governance (ESG) factors can be an important driver of long-term investment returns from both an opportunity and a risk-mitigation perspective. The Fund will completely exclude investment in companies classified under certain GICS industries/sub-industries (Global Industry Classification Standard) as further detailed in the prospectus and in controversial weapons.

- On an ancillary basis, the Fund may use derivatives for hedging and investment purposes. Certain of these techniques may qualify as Total Return Swaps ("TRSs").
- Income earned by the Product is reinvested.
- **Shareholders may redeem Shares on demand on any business day in Luxembourg by 13h30**
- Please refer to the section entitled "Subscription, Transfer, Conversion and Redemption of Shares" of the Prospectus for additional information.

Intended retail investor The Product is suitable for institutional and retail investors who are looking for exposure to equity markets on a global basis; are looking for a relatively concentrated portfolio; can afford to set aside capital for at least 5 years (long term horizon); can accept significant temporary losses; and can tolerate volatility.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the Product for 5 years. The Summary Risk Indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks materially relevant to the Product not included in the summary risk indicator: Credit risk, Liquidity risk, Counterparty risk, Stock connect risk.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the Product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a suitable proxy over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years		If you exit after 1 year	If you exit after 5 years
Example investment: EUR 10,000

What happens if Natixis Investment Managers International is unable to pay out?

The assets of the Product are held in safekeeping by Brown Brothers Harriman (Luxembourg) S.C.A, as the depositary of the Product. In the event of insolvency of Natixis Investment Managers International, the Product assets will not be affected. However, in the event of the Depositary's insolvency, there is a potential risk of financial loss. However, this risk is mitigated to a certain extent by the fact that the Depositary is required by law and regulation to segregate its own assets from Product's assets.

There is an investor compensation or guarantee scheme in the case of default of the Depositary provided by law.

What are the costs?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product and how well the Product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	542 EUR	1,269 EUR
Annual cost impact (*)	5.5%	2.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 11.6% before costs and 9.2% after costs.

We may share part of the costs with the person selling you the Product to cover the services they provide to you. They will inform you of the amount. These figures include the maximum distribution fee that the person selling you the Product may charge which amount to 66 EUR. This person will inform you of the actual distribution fee.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount invested. This is the most you will be charged. The person selling you the Product will inform you of the actual charge.	Up to 400 EUR
Exit costs	We do not charge an exit fee.	None
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.05% The ongoing costs figure is an estimate of the annualised costs as there is insufficient historical data. It may vary from year to year.	101 EUR
Transaction costs	0.43% of the value of your investment per year. <i>This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.</i>	41 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	None

An investor engaging in excessive trading or market timing practices may be subject to a levy of up to 2%.

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years

This duration corresponds to the period during which you must remain invested in the Product to obtain a potential return while minimizing the risk of losses. This duration is linked to the asset mix, the management objective, and the investment strategy of your Product.

You can request the sale of your Product everyday. You may receive less than expected if you cash in earlier than the recommended holding period. The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels.
